COPYRIGHT STATEMENT

The copyright law of the United States (Title 17, United States Code) governs the making of photocopies or other reproductions of copyrighted materials including foreign works under certain conditions. In addition, the United States extends protection to foreign works by means of various international conventions, bilateral agreements, and proclamations.

Under certain conditions specified in the law, libraries and archives are authorized to furnish a photocopy or other reproduction. One of these specified conditions is that the photocopy or reproduction is not to be "used for any purpose other than private study, scholarship, or research." If a user makes a request for, or later uses, a photocopy or reproduction for purposes in excess of "fair use," that user may be liable for copyright infringement.

The Columbia University Libraries reserve the right to refuse to accept a copying order if, in its judgement, fulfillment of the order would involve violation of the copyright law.

PREFACE
TO THE TENTH EDITION.

THE last edition of this treatise was published in 1914, soon after the outbreak of the recent war, and the questions of marine insurance which have arisen in the interval have been mainly the result of the abnormal conditions under which trade and navigation were carried on during the continuance of hostilities.

The practice of effecting separate insurances against marine risks and war risks, though by no means new, had previously not given rise to much litigation. During the war, however, many cases came before the Courts in which it became necessary to decide, in the absence of direct evidence, whether a loss fell upon one or another set of underwriters. Other cases, more important from the point of view of the lawyer, have contributed to the development of the rule of *causa proxima* and of the law with regard to restraints, &c. of princes.

The passages which deal with national character and the law of prize have been revised in view of the many new decisions on these subjects, which have been incorporated in the work so far as they bear on the law of marine insurance.

The cases to the end of 1920 have been duly noted, and pains have been taken to ensure the accuracy of the references to the course of business in matters of marine insurance. In this connection the editors wish to express their thanks to Rear-Admiral Sir Edward Inglefield, Secretary of Lloyd's, to Mr. C. W. Wright, of Lloyd's, and to Mr. G. R. Rudolf, Member of the Association of Average Adjusters, for information which they have kindly supplied.

E. L. DE H.
R. I. S.

In the appeal to the House of Lords in *Gaunt* v. *British and Foreign Ins. Co.*, [1920] 1 K. B. 903 (cited in §§ 225, 799a, 861b), judgment was reserved on the 17th February, 1921.

The judgments of the Prize Court in *The Kronprinsessan Margaretha*, [1917] P. 114 (cited in §§ 659, 763), and in *The Parana*, [1919] P. 249 (cited in § 763), have been affirmed by the Privy Council: [1921] W. N. 22.

The judgments of the Prize Court in *The Prins der Nederlanden*, [1920] P. 216 (cited in § 763a), and *The Vesta*, [1920] P. 385 (cited in § 659), were reversed by the Privy Council on the 16th March, 1921.

MARINE INSURANCE.

PART I.

OF THE NATURE, FORMATION, AND SUBJECT-MATTER OF THE CONTRACT OF MARINE INSURANCE.

CHAPTER I.

THE CONTRACT OF MARINE INSURANCE GENERALLY.

	SECT.
Definition of Terms	1, 2
Nature of the Indemnity afforded by Marine Insurance	3—6

Codification of the Law of Marine Insurance.

1. UNTIL the year 1907 the Law of Marine Insurance was derived mainly from the decisions of the Courts and the treatises of text-writers; but its leading principles are now contained in the Marine Insurance Act, 1906 (6 Edw. 7, c. 41), the full title of which is "An Act to codify the Law relating to Marine Insurance" (*a*). The Act came into force on the 1st of January, 1907 (*b*).

The nature and scope of the contract of Marine Insurance are explained in the first three sections of the Act in the following terms:—

Marine insurance defined.

Section 1. A contract of marine insurance is a contract whereby the insurer undertakes to indemnify the assured,

(*a*) The title of an Act of Parliament is now a part of the Act, and may be taken into consideration for the purpose of construing it. See May's Parliamentary Practice, 11th ed. 376, 385; Fielden *v.* Morley Corporation, [1899] 1 Ch. 1, 3; per Lord Haldane, L. C., and Lord Moulton in Vacher *v.* London Society of Compositors, [1913] A. C. 107, 113, 128. For the rules of construction applicable to a codifying statute, see per Lord Herschell, in Bank of England *v.* Vagliano, [1891] A. C. 107, 144.

(*b*) Mar. Ins. Act, 1906, s. 93.

Sect. 1.

in manner and to the extent thereby agreed, against marine losses, that is to say, the losses incident to marine adventure (*c*).

Mixed sea and land risks.

Section 2.—(1) A contract of marine insurance may, by its express terms, or by usage of trade, be extended so as to protect the assured against losses on inland waters or on any land risk which may be incidental to any sea voyage (*d*).

(2) Where a ship in course of building, or the launch of a ship, or any adventure analogous to a marine adventure, is covered by a policy in the form of a marine policy, the provisions of this Act, in so far as applicable, shall apply thereto (*e*); but, except as by this section provided, nothing in this Act shall alter or affect any rule of law applicable to any contract of insurance other than a contract of marine insurance as by this Act defined.

Marine adventure and maritime perils defined.

Section 3.—(1) Subject to the provisions of this Act, every lawful marine adventure may be the subject of a contract of marine insurance (*f*).

(2) In particular there is a marine adventure where—

(a) Any ship goods or other moveables are exposed to maritime perils. Such property is in this Act referred to as "insurable property";

(b) The earning or acquisition of any freight, passage money, commission, profit, or other pecuniary benefit, or the security for any advances, loan, or disbursements, is endangered by the exposure of insurable property to maritime perils;

(*c*) In the seventh edition of this work Marine Insurance was defined as "a contract whereby one party, for an agreed consideration, undertakes to indemnify the other against loss arising from certain perils or sea-risks, to which his ship, merchandise, or other interest in a maritime adventure, may be exposed during a certain voyage, or a certain period of time"

(*d*) See *post*, §§ 447, 457, 460, 470, 507.

(*e*) The stamping of a policy on ship under construction or repair, or on trial, is regulated by the Revenue Act, 1903, s. 8.

(*f*) It is said that sect. 3 is intended to express the principle that the insurance is effected in respect of the pecuniary interest of the assured in a marine adventure. See Chalmers & Owen, Mar. Ins. Act, 2nd ed. p. 6. For the distinction between the *subject-matter insured*, and the *subject of a contract of Marine Insurance*, see *ibid.*, and per Brett, L. J., in Rayner *v.* Preston (1881), 18 Ch. D. 1, 7. As to the effect of illegality, see *post*, Part II. Chap. V.

Sect. 1.

(c) Any liability to a third party may be incurred by the owner of, or other person interested in or responsible for, insurable property, by reason of maritime perils.

"Maritime perils" means the perils consequent on, or incidental to, the navigation of the sea, that is to say, perils of the seas, fire, war perils, pirates, rovers, thieves, captures, seisures, restraints, and detainments of princes and peoples, jettisons, barratry, and any other perils, either of the like kind or which may be designated by the policy (*g*).

Explanation of terms.

2. The party indemnified, called the *assured* in the Act, is sometimes also called the *insured*.

The property or thing insured itself is called in the Act the *subject-matter insured* (*h*). In earlier editions of this work it was called the *subject of insurance*.

The title or interest which the assured has in the subject-matter insured is called his *insurable interest*.

The party undertaking to indemnify the assured against loss, called the *insurer* in the Act, is also generally called the *underwriter*.

The consideration for which he so undertakes to indemnify the assured is called the *premium* (*i*).

The instrument by which the contract of indemnity is effected is called in England the *policy*.

That which is insured against is, as appears in sect. 3 (2), loss arising from maritime perils or casualties.

These casualties are in technical language called, some-

(*g*) See *post*, Part III. Chap. II., "Losses by the Perils insured against."

(*h*) See s. 6 (1), *post*, § 258, and cf. s. 3 (1), *supra*, in which a marine adventure is said to be the "subject of a contract of marine insurance."

(*i*) The word *premium* is used in the Act and in general language only to denote the stipulated sum of money which the assured usually pays to the underwriter. Lord Esher pointed out that the word might be used in a wider sense, to cover the consideration (whatever it may be) which moves from the assured to the insurer. In this sense the premium which a member of a mutual insurance association pays is his liability to contribute to the losses of other members. See Lion Insurance Association *v.* Tucker (1883), 12 Q. B. D. 176, 187. The term is not used in this sense in the Act. See s. 85 (2).

Sect. 2.

times, *the perils insured against* and sometimes the *risks covered by the policy*, expressions which mean one and the same thing, and are employed to signify those causes of loss against the effect of which the underwriter undertakes by his contract to indemnify the assured.

The interest of the assured is technically said to be *covered by the policy*, when the sum or aggregate of sums insured in the policy is sufficient to afford him full compensation for whatever loss that interest may sustain.

If the value of his interest exceeds the sum insured, the excess of interest is said to be "*uncovered by the policy*," and the assured to be "*his own insurer in respect of the uninsured balance*" (*k*).

When the liability of the underwriter commences under the contract, the technical mode of expressing this is by saying that "*the policy attaches*," or "*the risk begins to run*," or "*the risk attaches*" (*l*) from that time.

Nature of the indemnity afforded by marine insurance.

3. The very essence of the contract of Marine Insurance is that it is a contract of INDEMNITY (*m*); its sole and exclusive object is to procure for the assured indemnity, in the strictest sense of that word, for any losses he may sustain through the

(*k*) See Mar. Ins. Act, 1906, s. 81, *post*, § 1215.

(*l*) This is the term used in the Act. See ss. 43, 44, and Schedule I., rr. 1—4.

(*m*) This principle may, however, be violated by means of a valued policy, the valuation of the subject of insurance therein being in general conclusive against both parties. Therefore it has been said that "a policy of insurance is not a perfect contract of indemnity. It must be taken with this qualification, that the parties may agree beforehand in estimating the value of the subject assured, by way of liquidated damages, as, indeed, they may in any other contract to indemnify." Opinion of the Judges in Irving *v.* Manning (1847), 1 H. L. C. 287, 307; see also McArthur, Marine Ins. p. 68, where it is shown that in open policies on ship, in consequence of the recognized method of computing the value after a loss, the assured recovers more than his real loss when the freight is also insured. Under policies on freight, again, the assured may recover more than an indemnity, as in case of a loss he is entitled to be paid the gross freight, *i.e.*, without any deduction in respect of the expenses which would have been incurred after the loss to earn the freight. On the other hand, in respect of cargo generally, he recovers less than his loss under an open policy. See *post*, Part I. Chap. XIII. "Valuation."

Sect. 3.

agency of those sea-risks against the effect of which the underwriter by the terms of his policy stands pledged to protect him. To prevent the assured from suffering loss by means of any of the perils insured against is the single aim of a contract of Marine Insurance, and its whole spirit would be violated if he could make the occurrence of any such casualties a means of gain, for this would be to give him an interest in procuring sea-losses, which would be opposed to every principle of commercial policy (*n*). Hence an interest in the subject-matter insured is of the very essence of the right to recover upon the contract (*o*). In the absence of such an interest the plaintiff is not damnified, although there may have been a total loss of the thing insured.

Nature and extent of the indemnity.

4. Indemnity, then, being the sole object of the contract of Marine Insurance, it becomes important to inquire into the nature and extent of the indemnity it professes to afford.

In this country and in the United States, the contract of Marine Insurance has always been considered applicable to protect men not only against such events as may occasion the deprivation of that which they may actually possess, but against those also which would intercept from them the advantage or profit which, but for such events, they would acquire in the ordinary and probable course of things (*p*).

Hence in this country, as we shall see more at large hereafter, the loss arising from the interception, by the perils insured against, of future freight and expected profit is quite as legitimate an object of that indemnity which Marine Insurance can afford as the damage actually inflicted by the same perils upon ships or merchandise (*q*).

(*n*) Assecuratus non quærit lucrum sed agit ne in damno sit. Straccha de Assecurationibus, gl. 20, No. 4.

(*o*) Lucena *v.* Craufurd (1806), 2 B. & P. N. R. 269.

(*p*) Per Lawrence, J., in Lucena *v.* Craufurd (1806), 2 B. & P. N. R. 301.

(*q*) In France the law was formerly different; but now by Arts. 334 and 347 of the Code de Commerce, as amended by a law of the 12th Aug. 1885, insurances may be effected both on profits and on freight.

Sect. 5.

Interest exposed to risk indispensable to every contract of marine insurance.

5. Not only, as we have already seen, must the assured have an interest in the subject-matter insured, but it is an indispensable requisite of every contract of Marine Insurance, properly so called, that the subject-matter insured should be exposed to the risk of loss from the perils insured against, upon the voyage or during the period over which the indemnity is by the terms of the contract made to extend (*r*). This is the most fundamental principle in the whole law of Marine Insurance. *Principale fundamentum assecurationis est risicum seu interesse assecuratorum; sine quo non potest subsistere assecuratio* (*s*).

The contract of Marine Insurance, in short, is nothing but a contract of indemnity against the risk of loss by sea perils, and the premium is nothing but the price paid for this indemnity; it is obvious, therefore, that if the assured is not really interested in something which he runs the risk of losing by the perils of the sea, there is no consideration for the sum he has paid: and as the foreign jurists express it, no matter on which the contract can work, for its very constituent element is the possibility of loss from marine casualties (*t*). With the commencement of exposure to the risk of loss by the perils insured against the policy or risk is said to *attach;* and any loss that occurs earlier, let the cause be what it may, is uncovered. Therefore, if the subject-matter insured be totally lost before the policy has attached, the underwriter pays nothing; but he must return the premium received, because there has been a complete failure of consideration for what was otherwise a valid and binding contract.

Distinction between contracts of marine insurance and wagers.

6. Thus it appears that two things are mainly essential to every contract of Marine Insurance:—

1. An interest in the subject-matter insured.

(*r*) 1 Emerigon, c. i. s. 1, p. 6; 1 Benecke, System des Assecuranz, c. i. p. 23.

(*s*) Casaregis, Disc. 4, No. 1, cited by Emerigon, *ubi supra*.

(*t*) Si non adest risicum assecuratio non valet, nam non adest materia in quâ forma potest fundari. Roccus, No. 88. En un mot, la perte ou le dommage considerés dans l'incertitude des évènemens sont la matière de ce contrat. 1 Emerigon, c. i. s. 1, p. 6.

Sect. 6.

2. Exposure of that interest to risk of loss or detriment by sea perils.

It is the necessity for these requisites which entirely distinguishes contracts of Marine Insurance, properly so called, from mere wagers upon the issue of maritime adventures.

Such maritime wagers, although framed externally as policies of sea-assurance, and therefore called wager policies, were, as we shall see more at large hereafter, prohibited in this country nearly two centuries ago by a solemn act of the legislature, and in most other maritime states are either expressly forbidden or practically disused: and this on the ground that it is plainly opposed to the true interests of a mercantile state to enable those who have no real stake in the safety of a maritime adventure to give themselves (by means of such a contract) a great interest in its loss or destruction.

CHAPTER II.

FORM AND CONTENTS OF SEA-POLICIES.

What is a policy.

7. THE instrument in which the contract of sea-insurance is generally embodied is called a policy of insurance (*a*). In the Marine Insurance Act, 1906, it is called a marine policy (*b*).

What insurances must be made by a policy.

In the interest of the revenue various Stamp Acts have made the use of stamped policies compulsory (*c*). The Stamp Act, 1891, which repealed all the enactments then in force relating to the stamping of policies, provides that a contract for sea-insurance (other than such insurance as is referred to in the 55th section of the Merchant Shipping Act Amendment Act, 1862 (25 & 26 Vict. c. 63), for which the corresponding section 506 of the Merchant Shipping Act, 1894, must now be substituted (*d*)) shall not be valid unless it is expressed in a policy of sea-insurance (*e*).

(*a*) From the Italian *polizza d'assecurazione*.

(*b*) See Mar. Ins. Act, 1906, s. 22, *infra*, § 8. It may sometimes be material to consider whether a particular policy is a marine policy or not—*e.g.*, in the case of a ship insured against fire only: see In re United London, &c. Ins. Co., [1915] 1 Ch. 578; 2 Ch. 12; and see also Moore *v.* Evans, [1917] 1 K. B. 458; [1918] A. C. 185, *infra*, § 1091.

(*c*) 35 Geo. 3, c. 63; 54 Geo. 3, c. 144; 30 Vict. c. 23.

(*d*) See *infra*, note (*j*).

(*e*) 54 & 55 Vict. c. 39, s. 93 (1), re-enacting in substance the provision of 30 Vict. c. 23, s. 7, as to the stamping of the policy: see *post*, §§ 31—33. As to admitting an alleged copy of a policy when the execution of a policy is itself in issue, see Stowe *v.* Querner (1870), L. R. 5 Ex. 155.

Sect. 7.

A policy of insurance is defined in the Stamp Act as including "every writing whereby any contract of insurance is made or agreed to be made, or is evidenced" (*f*).

For the purposes of the Stamp Act, the expression "policy of sea-insurance" (*g*) means "any insurance (including re-insurance) made upon any ship or vessel, or upon the machinery, tackle, or furniture of any ship or vessel, or upon any goods, merchandise, or property of any description whatever on board of any ship or vessel, or upon the freight of, or any other interest which may be lawfully insured in or relating to, any ship or vessel, and includes any insurance of goods, merchandise, or property for any transit which includes not only a sea-risk, but also any other risk incidental to the transit insured from the commencement of the transit to the ultimate destination covered by the insurance" (*h*).

Further, by the Stamp Act, "a contract for sea-insurance" includes any agreement whereby "any person, in consideration of any sum of money paid or to be paid for additional freight or otherwise, takes upon himself any risk attending goods, merchandise, or property of any description whatever, while on board of any ship or vessel, or engages to indemnify the owner of any such goods, merchandise, or property from any risk, loss, or damage" (*i*).

The insurances referred to in the 55th section of the Merchant Shipping Act Amendment Act, 1862, and the 506th section of the Merchant Shipping Act, 1894 (*j*), which there-

(*f*) 54 & 55 Vict. c. 39, s. 91. Cf. 30 Vict. c. 23, s. 4; and see Home Mar. Ins. Co. *v.* Smith, [1898] 2 Q. B. 351.

(*g*) "Policy of sea insurance" seems in this definition to be used in the sense of "contract for sea insurance."

(*h*) 54 & 55 Vict. c. 39, s. 92 (1).

(*i*) *Ibid.* s. 92 (2).

(*j*) The former Act is repealed by the Merchant Shipping Act, 1894. S. 54, which is referred to in s. 55, is in substance re-enacted in s. 503 of the later Act. By s. 38 (1) of the Interpretation Act, 1889, the references to the sections of the repealed Act must be construed as

Sect. 7.

fore do not require a policy, are insurances by owners of ships against claims for (1) loss of life or personal injury caused to any persons carried in such ships, (2) damage or loss caused to any goods, merchandise, or other things whatsoever on board such ships, (3) loss of life or personal injuries caused by the improper navigation of such ships to persons carried in other ships or boats, (4) loss or damage caused by the improper navigation of such ships to any goods, merchandise, or other things whatsoever on board other ships and boats.

Statutory requisites of a policy.

8. Subject to the provisions of sect. 11 of the Finance Act, 1901 (*k*), no policy of sea-insurance made for time may be made for any time exceeding twelve months (*l*).

A policy of sea-insurance is not valid unless it specifies the particular risk or adventure (*m*), the names of the subscribers or underwriters, and the sum or sums insured (*n*).

By a document called an "open cover" an underwriter agreed to re-insure an insurance company to the extent of the excess, over certain amounts mentioned in the document, of the risks to be undertaken by the company from time to time, on goods shipped by certain steamship lines. The limit of the excess on any one ship was specified. The Court of Appeal held that the document was a contract for sea-insurance within sect. 93 (1) of the Stamp Act, 1891, and that it did not specify the sum insured, and was therefore invalid as a policy (*o*).

Sect. 91 of the Marine Insurance Act, 1906, declares that

references to the corresponding sections of the Merchant Shipping Act, 1894.

(*k*) See *infra*, § 31.

(*l*) Stamp Act, 1891, s. 93 (2), (3). Similarly s. 25 (2) of the Mar. Ins. Act, 1906, declares that subject to these provisions "a time policy which is made for any time exceeding twelve months is invalid."

(*m*) See Edwards *v.* Aberayron Mutual Ship Ins. Society (1875), 1 Q. B. D. 563.

(*n*) Stamp Act, 1891, s. 93 (3). In re The Arthur Average Association (1875), L. R. 10 Ch. 542, on the similar provision in 30 Vict. c. 23, s. 7; Home Mar. Ins. Co. *v.* Smith, [1898] 2 Q. B. 351.

(*o*) *Ibid.*

Sect. 8.

nothing therein "shall affect the provisions of the Stamp Act, 1891, or any enactment for the time being in force relating to the revenue." The Marine Insurance Act, however, also contains provisions relating to the particulars which a policy must contain, which overlap those of the Stamp Act hereinbefore mentioned (*p*). Sect. 22 of the Marine Insurance Act declares that "subject to the provisions of any statute, a contract of marine insurance is inadmissible in evidence unless it is embodied in a marine policy in accordance with this Act." By sect. 23 "a marine policy must specify (1) the name of the assured, or of some person who effects the insurance on his behalf; (2) the subject-matter insured and the risk insured against; (3) the voyage, or period of time, or both, as the case may be, covered by the insurance; (4) the sum or sums insured; (5) the name or names of the subscribers"; and sect. 24 (1) declares that "a marine policy must be signed by or on behalf of the insurer."

Classifications of policies.

9. We will now advert briefly to the division frequently made of policies into interest and wager, valued and unvalued or open, named and floating, time and voyage policies.

Interest and wager policies.

An *interest policy* is one which shows by its form that the assured has a real, substantial interest in the thing insured: in other words, that the contract embodied by the policy is a contract of indemnity, and not a wager. All the common forms of policy are adapted to transactions of this nature; and every policy is taken to be an interest policy, unless the contrary is clearly expressed on the face of it (*q*).

Definition of a wager policy.

A *wager policy* (sometimes called an *honour policy*) is one which contains words implying that the contract it embodies is not really an insurance, but a wager; *i.e.*, a pretended insurance, founded on a fictitious risk, where the assured has no interest in any thing insured, and can, therefore, sustain

(*p*) § 7, *supra*.

(*q*) See Cousins *v.* Nantes (1811), 3 Taunt. 513.

Sect. 9.

no loss by the happening of any of the casualties against which the supposed insurance professes to protect him (*r*).

Form of a wager policy.

A wager policy is generally known by having one or other of the following clauses written on the face of it:—"interest or no interest"; or, "without further proof of interest than the policy"; or, "policy to be deemed sufficient proof of interest" (*s*); or, "without benefit of salvage to the insurer," or some analogous clause, showing that the assured means to give no proof of his having any interest whatever in the subject insured, except the mere production of the policy itself; and thereby bringing him directly within the scope of sect. 4 of the Marine Insurance Act, 1906, which prohibits all such policies, as gaming policies, except in one specified case (*t*).

Definition of a valued,

A *valued policy* is defined in sect. 27 (2) of the Marine Insurance Act, 1906, as "a policy which specifies the agreed value of the subject-matter insured."

and of an unvalued or open policy.

An *unvalued policy* is defined in sect. 28 as "a policy which does not specify the value of the subject-matter insured, but, subject to the limit of the sum insured, leaves the insurable value to be subsequently ascertained, in the manner" specified in the Act (*u*).

Hitherto the policy called an unvalued policy in the Act has usually been called an *open policy*. The reason why the former name has been adopted in the Act is that the term *open policy* is sometimes used in mercantile language to

(*r*) Though such a policy is termed a wager policy, it may in fact be made in order to protect an insurable interest. On the other hand a policy in form an interest policy may not be intended to protect a real interest, and may be void for want of insurable interest. See *post*, § 311.

(*s*) Murphy *v.* Bell (1828), 4 Bing. 567. The clause which makes the policy itself proof of interest is commonly called the "p. p. i." clause.

(*t*) See *post*, § 313.

(*u*) The following were the definitions in earlier editions of this work:—A *valued policy* is one in which the agreed value of the subject insured, as between the assured and underwriter, for the purposes of the insurance, is expressed on the face of the policy. An *open policy* is one in which the value of the subject insured is not thus fixed or agreed in the policy, as between the assured and the underwriter, but is left to be estimated in case of loss.

Sect. 9.

denote a floating policy (*x*) which has not been exhausted by declarations (*y*).

The chief practical difference between valued and unvalued policies in case of loss is that in the former the value is fixed by the policy; in the latter it must be proved by the production of tradesman's bills, invoices, bills of shipping charges, surveyor's estimates, and other necessary vouchers.

As the value of ship and freight is more difficult to prove in this way than the value of goods, the former interests are generally insured in valued, the latter frequently in open policies.

Voyage and time policies.

Voyage and *time policies* are defined in sect. 25 (1) of the Marine Insurance Act, 1096, in the following terms:—"Where the contract is to insure the subject-matter at and from, or from one place to another or others, the policy is called a 'voyage policy,' and where the contract is to insure the subject-matter for a definite period of time the policy is called a 'time policy.'"

An instance of a voyage policy is where a ship is insured "at and from London to Buenos Ayres." The place at which the voyage is to begin is called the *terminus a quo*, and that at which it is to end is called the *terminus ad quem*.

An example of a time policy is an insurance on a ship "from the first day of January, 1920, to the 30th day of June, 1920, inclusive."

Sect. 25 of the Marine Insurance Act, 1906, declares that "a contract for both voyage and time may be included in the same policy." An insurance on a ship for a voyage to a named terminus and for thirty days after arrival is a contract of this kind.

Policies which in form are both time and voyage policies.

Policies are also occasionally effected which, in form, partake of the nature both of time and voyage policies; as where a ship is insured "from London to Buenos Ayres for six months"; or, "from the first of January, 1920, to the 1st of July, in the same year, on the ship at and from

(*x*) See *infra*.

(*y*) Chalmers & Owen, Mar. Ins. Act, 2nd ed. p. 45.

Sect. 9.

London to Buenos Ayres"; or, "for twelve months from the date of sailing from Leith."

These policies, however, as we shall see more at large hereafter, are effectively time policies, the risk commencing and expiring with the limits of time specified therein.

Named and floating policies.

A *named policy* is one in which the adventure is limited to a ship specifically named therein, as where goods by the ship *Emma* are insured from Hamburg to London.

A *floating policy* is defined by sect. 29 (1) of the Marine Insurance Act, 1906, as "a policy which describes the insurance in general terms, and leaves either the name of the ship or ships or other particulars to be defined by subsequent declaration."

Our common form of sea-policy.

10. The Forms of Policy employed in different mercantile communities are exceedingly various; the merchants and underwriters of our own country have adhered with persevering tenacity to the old and hardly intelligible form which was introduced at an early period into England (*z*); and although this has always been regarded by our Courts of Law as an absurd and incoherent instrument (*a*), yet length of time and a variety of decisions have now given it such a degree of certainty that it is likely now to be retained among the chief instruments of English commerce, especially as it is recognized in the Marine Insurance Act, 1906, as the

(*z*) It was adopted as a statutory form of policy in 35 Geo. 3, c. 63, and 30 Vict. c. 23, the schedules annexed to which contained this form. The Bodleian Library possesses a copy of a policy dated the 15th February, 1613 (see Gow, Mar. Ins., App. B.), and there is at Lloyd's an original policy subscribed on the 20th January, 1680 (see copy in Lloyd's Calendar, 1920, p. 55), which are both almost in the same form as the policy now in use at Lloyd's. Lloyd's policy was adopted in 1779 in the form set out in the Marine Insurance Act, Sched. I., except that it did not contain the waiver clause. The waiver clause was added in 1874.

(*a*) Per Buller, J., 4 T. R. 210. "It is wonderful that policies should be drawn with so much laxity": Lawrence, J., in Marsden *v.* Reid (1803), 3 East, 579. "This policy of insurance is a very strange instrument, as we all know and feel": per Mansfield, C. J., in Le Cheminant *v.* Pearson (1812), 4 Taunt. 380, &c.

Sect. 10.

standard form of policy, and is printed in the First Schedule, with a series of rules for its construction (*b*).

The following is the form of this policy:—

Common printed form of the policy in blank.

S. G. (*c*).

£ [ ] as well in

[STAMP.] [ ] own name as for and in the name and names of all and every other person or persons, to whom the same doth, may or shall appertain, in part or in all, doth make assurance, and cause (2) [ ] and them and every of them to be insured, (3) lost or not lost, at and from (4) [ ] (5) upon any kind of goods and merchandises, and also upon the body, tackle, apparel, ordnance, munition, artillery, boat and other furniture, of and in the good ship or vessel, (6) called the [ ]; whereof is master, under God, for the present voyage (6) [ ], or whosoever else shall go for master in the said ship, or by whatsoever other name or names the same ship or the master thereof is or shall be named and called.

(1) & (2) Blanks for the name or names of the party for whom or by whom the policy is effected.

(3) Clause "lost or not lost."

(4) Blank for the description of the voyage insured.

(5) Clause specifying the subject insured.

(6) Blanks for the name of ship and master.

(7) BEGINNING the adventure upon the said goods and merchandises from the loading thereof aboard the said ship [ ]; upon the said ship, &c. [ ], and so shall continue and endure, during her abode there, on the said ship, &c.; and further, until the said ship, with all her ordnance, tackle, apparel, &c., and goods and merchandises whatsoever, shall be arrived at [ ]; upon the said ship, &c., until she hath moored at anchor twenty-four hours in good safety, and upon the goods and merchandises, until the same be there discharged and safely landed.

(7) Description of the commencement continuance, and termination of the risk.

(8) AND it shall be lawful for the said ship, &c., in this voyage, to proceed and sail to and touch and stay at any ports or places whatsoever, [ ] without prejudice to this insurance.

(8) Liberty to touch and stay.

(*b*) See Mar. Ins. Act, 1906, s. 30, sub-s. 1.

(*c*) For the suggested meanings of these letters, see Gow, Mar. Ins. p. 30.

Sect. 10.

(9) THE said ship, &c., goods and merchandises, &c., for so much as concerns the assured, by agreement between the assured and assurers in this policy, are and shall be valued at [ ]. (9) Valuation clause, and blank for inserting value.

(10) TOUCHING the adventures and perils which we, the assurers, are contented to bear and do take upon us in this voyage, they are of the seas, men-of-war, fire, enemies, pirates, rovers, thieves, jettisons, letters of mart and counter-mart, surprisals, takings at sea, arrests, restraints, and detainments of all kings, princes and people, of what nation, condition, or quality soever, barratry of the master and mariners, and of all other perils, losses and misfortunes that have or shall come to the hurt, detriment, or damage of the said goods and merchandises, and ship, &c., or any part thereof. (10) Clause enumerating the perils insured against.

(11) AND in case of any loss or misfortune, it shall be lawful to the assured, their factors, servants and assigns, to sue, labour, and travel for, in and about the defence, safeguard, and recovery of the said goods and merchandises, and ship, &c., or any part thereof, without prejudice to this insurance; to the charges whereof we, the assurers, will contribute, each one according to the rate and quantity of his sum herein assured. (11) Sue and labour clauses.

(12) AND it is especially declared and agreed that no acts of the insurer or insured, in recovering, saving, or preserving the property insured, shall be considered as a waiver or acceptance of abandonment (*d*). (12) Waiver clause.

(13) AND it is agreed by us, the insurers, that this writing, or policy of assurance, shall be of as much force and effect as the surest writing or policy of assurance heretofore made in Lombard Street or in the Royal Exchange, or elsewhere in London. (13) Clause as to the binding effect of the policy.

(14) AND so we the assurers are contented and do promise and bind ourselves, each one for his own part, our heirs, executors and goods, to the assured, their executors, administrators, and assigns, for the true performance of the premises. (14) Promise of the underwriters to indemnify.

(15) CONFESSING ourselves paid the consideration (15) Acknowledgment of

(*d*) The waiver clause is not found in the policies set out in the former Stamp Acts.

Sect. 10.

due unto us for this assurance by the assured, at and after the rate of (16) [ ]. receipt of premium. (16) Blank for inserting rate of premium.

(17) IN witness whereof we, the assurers, have subscribed our names and sums insured in London. (17) Attestation clause.

(18) N.B. Corn, fish, salt, fruit, flour, and seed are warranted free from average, unless general, or the ship be stranded; sugar, tobacco, hemp, flax, hides and skins are warranted free from average under 5*l.* per cent.; and all other goods, also the ship and freight, are warranted free from average under 3*l.* per cent., unless general, or the ship be stranded. (18) Common memorandum.

(19) [

£ (*sum in figures*)	A. B. (*sum in words*)			day of
£ (*ditto*)	C. D. (*ditto*)			day of
£ (*ditto*)	E. F. (*ditto*)			day of

(*and so on, until the aggregate amount of the different sums subscribed by each underwriter equals the amount required to be insured*). (19) Blank space in which is to be inserted the subscription of each underwriter, the sum he insures, and the date of his subscription.

This form of policy is known as Lloyd's policy. It has been in use not only among the underwriters at Lloyd's, but also very generally among private underwriters throughout the United Kingdom, and has been in substance adopted by the companies. Strictly speaking, however, the term "Lloyd's policy" denotes a policy with the device of an anchor in the margin, encircled by the words: "For signature by the underwriting members of Lloyd's only" (*e*). Any person who without the authority of the society, or without lawful excuse, imitates the stamp or mark used to denote a Lloyd's policy, or utters or uses a policy with such stamp or mark, is liable to a penalty under Lloyd's Act, 1871 (34 Vict. c. xxi). The peculiar value of such a policy lies in the fact that great care is exercised in the election of members of Lloyd's policy. "Anchor Policy."

(*e*) In 1918 Lloyd's underwriters agreed that they would not sign policies dated the 1st August, 1918, or later, unless they bore Lloyd's anchor seal. Consequently all policies subscribed by Lloyd's underwriters now bear the anchor seal, showing that they are signed by underwriting members of Lloyd's only.

Sect. 10.

the society, and that each member is required on election to deposit securities of the value of at least 5,000*l.* to cover his engagements on marine and transport risks.

"Free of capture" clause.

In 1898, owing to a feeling that war risks should not be covered by any ordinary insurance, the policy in use at Lloyd's was by a resolution of the members modified by the insertion of the following clause between the clauses numbered (13) and (14) above: "Warranted nevertheless free of capture, seizure and detention, and the consequences thereof, or of any attempt thereat, piracy excepted, and also from all consequences of hostilities or warlike operations, whether before or after declaration of war." At the beginning of 1899, however, this resolution was superseded by another resolution which declared that all policies at Lloyd's should contain this warranty against (or, to use a more correct expression, this exception of) war risks, unless the contrary be written or printed in the slip or the agreement previously signed or initialed by the underwriters (*f*).

Since its original introduction, the scope of the clause has been widened. For the words "free of capture, seizure, and detention," the words "free of capture, seizure, arrest, restraint, or detainment" have been substituted. The added words exclude risks which are not war risks at all (*g*).

Frustration clause.

In 1919, a clause called the "frustration" clause was introduced into Lloyd's policy as an alternative to the "free of capture" clause. It runs as follows: "Warranted free of any claim based upon loss of, or frustration of, the insured voyage, or adventure, caused by arrests, restraints or detainments of Kings, Princes, or Peoples" (*h*).

At present two forms of marine policies are supplied by

(*f*) In Yuill *v.* Scott Robson, [1907] 1 K. B. 685, Channell, J., said that as between brokers and underwriters a policy "against all risks" would nevertheless contain this "free of capture" clause. See, further, as to insurances against all risks, § 156.

(*g*) *E.g.*, the claim of the assured in Miller *v.* Law Accident Society, [1903] 1 K. B. 712.

(*h*) As to this clause, see *infra*, § 832 (f).

Sect. 10.

the Committee of Lloyds, the "A" policy and the "B" policy. In the "A" policy the "free of capture" clause is omitted, and the "frustration" clause is inserted instead between (13) and (14). In the "B" policy the "free of capture" clause is inserted after (13), followed by the words: "Should the above clause be deleted, the following clause is to operate as part of this Policy," and the "frustration" clause comes next.

Additional clauses.

Other clauses are usually inserted in policies so as to meet the circumstances of the adventure insured. In insurances on ships and freight the general practice now is to incorporate in voyage and time policies respectively a number of printed clauses, called the "Institute Voyage Clauses" and the "Institute Time Clauses." There are also Institute Clauses for builders' risks, and Institute Cargo Clauses (*i*). The Institute Clauses are revised from time to time. The most important of these clauses in policies on ships is the clause known as the *collision* or *running-down clause*, which was originally introduced in consequence of the decision in *De Vaux* v. *Salvador* (*k*), and has been expanded to meet the requirements of underwriters and assured (*l*).

The following is the collision clause in the Institute clauses for 1921:—

> And it is further agreed that if the ship hereby insured shall come into collision with any other ship or vessel and the assured shall in consequence thereof become liable to pay and shall pay by way of damages to any other person or persons any sum or sums in respect of such collision the undersigned will pay the assured such proportion of three-fourths of such sum or sums so paid as their

(*i*) For specimens, see App. B. For the effect of the incorporation of Institute clauses, "as far as they apply," see Otago Farmers' Co-operative Assn. *v.* Thompson, [1910] 2 K. B. 145.

(*k*) (1836), 4 A. & E. 420.

(*l*) For older forms of the collision clause, and their effect, see Thompson *v.* Reynolds (1857), 7 E. & B. 172; Taylor *v.* Dewar (1864), 5 B. & S. 58; Xenos *v.* Fox (1868), L. R. 3 C. P. 630.

Sect. 10.

respective subscriptions hereto bear to the value of the ship hereby insured, provided always that their liability in respect of any one such collision shall not exceed their proportionate part of three-fourths of the value of the ship hereby insured, and in cases in which the liability of the ship has been contested, or proceedings have been taken to limit liability, with the consent in writing of the undersigned, they will also pay a like proportion of three-fourths of the costs which the assured shall thereby incur, or be compelled to pay; but when both vessels are to blame, then unless the liability of the owners of one or both of such vessels becomes limited by law, claims under this clause shall be settled on the principle of cross-liabilities as if the owners of each vessel had been compelled to pay to the owners of the other of such vessels such one-half or other proportion of the latter's damages as may have been properly allowed in ascertaining the balance or sum payable by or to the assured in consequence of such collision (*n*).

Provided always that this clause shall in no case extend to any sum which the assured may become liable to pay, or shall pay for removal of obstructions under statutory powers (*o*), for injury to harbours, wharves, piers, stages, and similar structures, consequent on such collision; or in respect of the cargo or engagements of the insured vessel, or for loss of life or personal injury.

Club policies.

Lloyd's policy is not altogether adapted to insurances by mutual insurance associations (or clubs, as they are commonly called), whose policies are by no means identical in conditions or wording. The present tendency of the associations is, however, to use policies which as to many of their clauses are the same as Lloyd's policy.

Of the usual clauses and

11. We will now consider in their order the common clauses which a Lloyd's policy usually comprises, and the

(*n*) The stipulation as to the cost of proceedings was inserted in consequence of Xenos *v.* Fox, *supra*. The present rule as to cross-liabilities was introduced in consequence of the decision in London SS. Ins. Co. *v.* Grampian SS. Co. (1889), 24 Q. B. D. 663.

(*o*) As to removal of obstructions, see Tatham *v.* Burr, [1898] A. C. 382.

main requisites which are essential to the validity of a policy as a contract under our law.

formal requisites of the policy.

The name of the assured or his agent.

A policy without the names of the parties by or for whom it is effected is called a policy in blank, and is either prohibited by the laws, or rejected by the practice, of all mercantile states.

28 Geo. 3, c. 56.

In our own country the law used to require that no policy should be effected without first inserting therein "the name or names, or the usual style and firm of dealing," either—(1) Of one or more of the persons interested; or, (2) of the consignors or consignees of the property to be insured; or, (3) of the persons resident in Great Britain who received the order for and effected the policy; or, (4) of the persons who gave the order to the agent immediately employed to effect it (*p*).

Under the liberal construction put by the Courts of Law on this Act of Parliament, it was reduced to a mere prohibition against policies in blank; and the Marine Insurance Act, 1906, sect. 92 of which repealed it, simply provides in sect. 23 that "a marine policy must specify the name of the assured, or of some person who effects the insurance on his behalf."

In practice the name usually inserted in the policy is that of the insurance broker, who insures either in his own name and on his own account (*q*), or in his own name and on account of his principals (*r*).

In the first case the blanks marked numbers (1) and (2) in the printed form are filled up thus:—

"A. B. & Co. (style of the insurance broker's firm), as well in their own names, as for and in the name and names of all and every other persons to whom the same doth, may

(*p*) 28 Geo. 3, c. 56.

(*q*) When he insures in this way he is not bound to disclose the name of the real assured: Glasgow Ass. Corpn. *v.* Symondson (1911), 16 Com. Cas. 109.

(*r*) The practice of effecting the policy in the name of the agent is a very old one. See an allegation of custom in Ridolpho *v.* Nunez (1562), Selden Society Publications, vol. ii. p. 52.

Sect. 11.

or shall appertain, in part or in all, do make assurance and cause themselves and them and every of them to be insured," &c.

In the second case the blanks are filled up thus:—

"A. B. & Co., as well in their own names, as for and in the name and names of all and every other persons to whom the same doth, may or shall appertain, in whole or in part, do make assurance and cause C. D. & Co (name or firm of their employers, the parties interested), and them and every of them, to be insured," &c.

If the party interested effects the policy, without the intervention of a broker, he of course expresses himself to have so effected it in his own name and on his own account, as in the first form, merely substituting the name or style of the principal for that of the broker.

Such are the usual modes in which these blanks are filled up in English policies; in practice, some slight variation of form occasionally occurs; sometimes, for instance, it is stated on the face of the policy that the party effecting it does so "as agent for," or "at the request of" the principal; but these variations are immaterial.

The party who has thus effected the policy on account of a principal is called "the nominal assured"; the principal himself, for whom it is effected, is called "the party interested," or "the assured."

Assignment clause.

12. "*For and in the names of all persons to whom the same doth, may, or shall appertain, in part or in all.*"

The insertion of this clause, which is invariably introduced into all our common printed forms of policy, is of great importance, as without it no one could take advantage of the policy except the party expressly named in it, or his principal (*s*); but by the aid of this clause, as we shall have occasion to see more at large hereafter, any party may avail

(*s*) Browning *v.* Provincial Ins. Co. of Canada (1873), L. R. 5 P. C. 263.

himself of the policy who can prove that he was interested in the subject-matter of the insurance during the risk and at the time of loss, and is the person upon whose account the insurance was *bonâ fide* intended to be made (*t*). The clause also made it possible to assign the benefit of the policy, but for this purpose is now unnecessary, as sect. 50 (1) of the Marine Insurance Act, 1906, declares that "a marine policy is assignable unless it contains terms expressly prohibiting assignment," and "may be assigned either before or after loss." An assignee of the policy may by sect. 50 (2) sue in his own name (*u*).

Sect. 12.

"Lost or not lost" clause.

13. As policies are frequently effected on ships and goods believed to be in foreign ports, or at sea, it being then uncertain whether they may not actually have been lost before the policy was effected, these words, "lost or not lost," are inserted in every form of policy as a matter of course. Their effect is thus stated in Rule 1 of the Rules for the construction of the policy (*x*):—"Where the subject-matter is insured 'lost or not lost,' and the loss has occurred before the contract is concluded, the risk attaches unless, at such time, the assured was aware of the loss, and the insurer was not."

It has been decided that a policy containing this clause was good, where the subject of insurance was accepted for insurance, and the premium paid, before loss, although the policy was not executed until after a loss had happened, to the knowledge both of the assured and the underwriter (*y*).

If indeed the loss, at the time of effecting the policy, were known to the assured only, then, on the plainest general

(*t*) See *infra*, §§ 172, 173.

(*u*) 31 & 32 Vict. c. 86, s. 1 (repealed by the Marine Insurance Act) contained a similar provision. Neither Act requires notice of assignment such as is necessary under the Judicature Act. See *post*, § 176.

(*x*) Mar. Ins. Act, 1906, Sched. I.

(*y*) Mead *v.* Davison (1835), 3 A. & E. 303; *S. C.* 4 Nev. & Man. 701. The report in Adolphus & Ellis represents the loss as an *average* one only; that in Neville & Manning states that, before execution, an *average*, and subsequently a *total*, loss had occurred; the difference does not affect the principle of the decision.

Sect. 13.

principles, the policy would be void; but no case has determined that an underwriter, who chooses to effect a policy with full knowledge that the loss has actually happened, may not be bound by it (*z*).

A policy with this clause affords indemnity against past losses.

A policy, indeed, containing this clause, is, in the words of Parke, B., "clearly a contract of indemnity against all past as well as all future losses sustained by the assured, in respect of the interest insured" (*a*). Accordingly, where on a policy on goods "lost or not lost" the pleadings raised the question, whether it was any answer to an action on such policy that the plaintiff did not acquire an interest in the goods till after an average loss by sea damage, the Court held that it was not (*b*). Such a contract, they considered, "operated just in the same way as if, the plaintiff having purchased goods at sea, the defendant, for a premium, had agreed that if the goods, at the time of the purchase, had sustained any damage by the perils of the sea, he would make it good" (*c*).

(*z*) Per Lord Denman in 3 A. & E. 308; per Brett, L. J., Bradford *v.* Symondson (1881), 7 Q. B. D. 456, 463.

(*a*) Per Parke, B., delivering the judgment of the Court in Sutherland *v.* Pratt (1843), 11 M. & W. 311, 312.

(*b*) Sutherland *v.* Pratt (1843), 11 M. & W. 296.

(*c*) *Ibid.* p. 312. "This decision," says Judge Duer, "does not embrace the case of a total loss by an actual destruction of the whole or part of the goods that are the subject of the contract of sale. Where such a loss has occurred, the purchaser, in proportion to its extent, is exonerated from his contract, and it is by the seller, not by himself, that the loss must be sustained. As it is not a risk to which he is subject he cannot cover it by an insurance": 2 Duer, 7. These remarks are completely borne out by the observations of Coleridge, J., in delivering the judgment of the Court of Exchequer Chamber in Hastie *v.* Couturier (1853), 9 Exch. 110: "If the goods had been totally lost before the contract of purchase was made, there would not be an insurable interest, as a person cannot buy a thing that is *totally lost*." It appears, nevertheless, to the present editors that although ordinary contracts of sale are conditional on the existence of the subject-matter intended to be sold, yet there is no reason why it should not be expressly provided that the risk of the thing having been already lost at the date of the contract should be borne by the purchaser. In such a case it is conceived that the contract of sale would be a valid one, and that the purchaser would have an insurable interest in the property, even although it had been

Sect. 13.

Effect is given to this decision in sect. 6 (1) of the Marine Insurance Act, 1906, which qualifies the statement that the assured must be interested in the subject-matter insured at the time of the loss, by the proviso that "where the subject-matter is insured 'lost or not lost,' the assured may recover although he may not have acquired his interest until after the loss, unless at the time of effecting the contract of insurance the assured was aware of the loss, and the insurer was not."

Another result of the clause, as stated in sect. 84 (3) (b) of the Marine Insurance Act, 1906, is that "when the subject-matter has been insured 'lost or not lost,' and has arrived in safety at the time when the contract in concluded, the premium is not returnable unless, at such time, the insurer knew of the safe arrival" (*d*).

Whether this clause is necessary.

The provisions of the Marine Insurance Act with regard to the effect of the words "lost or not lost" suggests that the words are necessary in order to make the insurance retrospective. There is, however, no statement in the Act that a policy without the clause is not retrospective. The opinion expressed in the seventh edition of this work, founded on that of the author, was that the clause does not appear to be in all cases strictly necessary, as there can be no reason why a previous loss of the subject-matter insured should prejudice an insurance subsequently effected, if at the time the assured was ignorant of the loss, or he and the underwriter were equally cognizant thereof (*e*). This view agrees with a

totally lost prior to the insurance, and would be entitled to recover under a policy "lost or not lost."

(*d*) Bradford *v.* Symondson (1881), 7 Q. B. D. 456 (C. A.), a case of a re-insurance on a ship supposed to be overdue when the policy was effected.

(*e*) See 1 Marshall, Ins. 338—340; 1 Phillips, Ins. s. 925; 3 Kent's Comm. 258, n. (*c*); 2 Parsons, Ins. 44; Lord Denman in Mead *v.* Davison, 3 A. & E. 303, 307; per Bramwell, B., Stone *v.* Marine Ins. Co. of Gothenburg (1876), 1 Ex. D. 81, 85; per Cockburn, C. J., in Gledstanes *v.* Royal Exchange Ass. Co. (1864), 34 L. J. Q. B. 30, 35; Story, J., Hammond *v.* Allen (1836), 2 Sumner's R. 397. See an interesting discussion of the "lost or not lost" clause, Gow, Mar. Ins. 33.

Sect. 13.

decision of the Supreme Court of the United States. "It is sufficient," said the Court, "if it appear by the description of the risk and the subject-matter of the contract that the policy was intended to cover a previous loss" (*f*). Accordingly, it is submitted that a policy without the clause may be retrospective, at any rate where it appears clearly from the terms of the policy that this was the intention of the parties; for instance, if a ship were insured "from the 1st of January" by a time policy effected in February. The point does not seem, however, to have any practical importance in this country.

Description of the voyage insured.

14. In the case of a voyage policy the underwriter cannot know the nature of the risk he is asked to insure, nor, consequently, the amount of premium he ought to require, unless he knows the nature of the voyage on which the ship is to sail, or the goods are to be conveyed. It is therefore one of the most essential requisites of a policy of insurance, that it should contain an accurate description of the voyage insured. By this is meant, not that it should describe the whole course of the voyage to be actually taken by the ship; the track which she is to pursue through the waters; the straits she is to pass; the islands which she is to leave on the one side or the other; the capes she is to double; the reefs and shoals she has to avoid:—all this is supposed to be so familiar to the underwriter from his acquaintance with the course of the trade and navigation which the insurance is designed to protect, that it is never expressly inserted in any policy. All that is necessary to be expressed in the policy is the place or period at which the voyage insured is to begin, and the place or period at which it is to end, and which are called in technical language the *terminus a quo* and the *terminus ad quem* of the voyage insured, or of the risk.

The voyage need only be described by its termini.

These termini must be expressed with great care and distinctness in the policy, and any failure herein will, as we

(*f*) Insurance Co. *v.* Folsom (1873), 18 Wallace, 237; *S. C.* Folsom *v.* Mercantile Mutual Ins. Co. (1871), 8 Blatchford, 170; 9 *ibid.* 201.

Sect. 14.

shall see hereafter, have the effect of vitiating that instrument (*g*). We shall here only mention, by way of explaining the language of the instrument, the distinction between insuring with the words "at and from" a place, and simply insuring "from" it. An insurance expressed in the policy to be "from A. to B." only protects the subject insured from the moment of the ship's sailing from A. (*h*): an insurance "at and from" protects the subject insured during her stay at the *terminus a quo* and after she has sailed from it (*i*).

As it is especially desirable, in cases where a ship is expected to arrive at a certain port abroad, to protect her during her whole stay in such port from the moment of her arrival, the form of insurance "at and from" ought always to be adopted in insuring homeward voyages; indeed, in English policies, from the many advantages it presents, it is the form almost always employed in practice.

Time policies.

What precedes is applicable chiefly, if not entirely, to voyage policies; time policies, instead of the *termini* of the adventure, contain here the limits of the period over which the insurance is to extend.

Description of the subject-matter insured.

15. It is a rule, founded on very plain principles, that every contract of insurance ought distinctly to specify the subject intended to be insured, whether it be ship, goods, freight, profit, money advanced on bottomry and respondentia, disbursements, or other interest. Accordingly, sect. 26 (1) of the Marine Insurance Act, 1906, states that "the subject-matter insured must be designated in a marine policy with reasonable certainty."

The common printed clause is only applicable to an insurance on ships and merchandise.

The clause in the common printed form of policy, in which the subject-matter of insurance is set forth, is as follows:— "Upon any kind of goods and merchandises, and also upon the body, tackle, apparel, ordnance, munition, artillery, boat, and other furniture of and in the good ship or vessel," &c.

(*g*) Mar. Ins. Act, 1906, ss. 43, 44. See Molloy, book ii. c. 11, s. 14, as cited 1 Marshall, Ins. 328; Syers *v.* Bridge (1780), 2 Dougl. 527.
(*h*) Mar. Ins. Act, 1906, Sched. I., rule 2.
(*i*) Per Lord Hardwicke in Motteux *v.* London Ass. (1739), 1 Atkyns, 548. See Mar. Ins. Act, 1906, Sched. I., rule 3.

Sect. 15.

This clause is, in terms, only applicable to the case in which the same party being interested in both ship and cargo wishes to insure both in one common policy: the reason of this is, that in the earlier ages of maritime commerce, when our present form of policy was framed, merchants employed their own ships to carry on their own trade (*k*). Now, however, the trade of the ship-owner has become a distinct business from that of the merchant, and this clause, as it stands in the common printed form of policy, is wholly inadequate, without alteration, to meet the exigencies of modern commerce. Instead, however, of providing different forms to meet the various cases of insurances on ship or cargo separately, on freight, on profits, and other interests now held capable of protection by insurance, the English underwriters adhere to the old form, and for the requisite particularity of description resort to the expedient of writing in the body, at the foot, or on the margin of the policy, a statement of the real nature of the subject-matter intended to be insured (as, *e.g.*, "*on ship*," "*on goods*," *on profits*," "*on freight*," "*on bottomry*," "*on disbursements*," "*on* 100 *bales of cotton, marked, &c.*"), leaving the printed clause entirely unaltered.

How this clause is rendered applicable to other subjects of insurance.

The written words thus inserted apply indefinitely to the whole instrument, and control the sense of the general printed clause applicable to ship and goods, and narrow it to the particular species of interest, the name of which is so inserted (*l*). The policy, in fact, becomes a policy on that subject alone (*m*).

(*k*) So Arnould; but some of the earliest policies of which any records have been discovered, namely, those printed in Select Pleas in the Court of Admiralty, Vol. II. pp. 45—59, edited for the Selden Society by Mr. R. G. Marsden, are framed for an insurance on goods only. See the policy of 1547 in Broke c. Maynard, p. 47, that of 1555 in De Salizar c. Blackman (p. 49), that of 1558 in Raven c. Hopton (p. 51), and that of 1563 in Whyte c. Besswicke (p. 53). The copy of a policy of 1613, preserved in the Bodleian Library (printed in Gow, Mar. Ins., App. B.), is also applicable only to an insurance on goods.

(*l*) Per Lord Ellenborough, Robertson *v.* French (1803), 4 East, 130, 140; per Lord Penzance, Dudgeon *v.* Pembroke (1877), 2 App. Cas. 284, 293; Haughton *v.* Ewbank (1814), 4 Camp. 89.

(*m*) See Robinson *v.* Tobin (1816), 1 Stark. 336; Marten *v.* Vestey, [1920] A. C. 307, at p. 310. For the bearing of printed clauses which relate to a different subject-matter on the construction of the policy, see *post*, § 55.

Sect. 15.

"The meaning of this marginal memorandum," says Lord Ellenborough, in a case where the written insertion was in the margin of the policy, "may be translated thus:—We mean to insure the subject so named 'freight,' for instance, arising and accruing during the limits of the voyage within described, from the carriage of goods on board the ship within mentioned, against the perils within enumerated, and upon the premium herein specified" (*n*).

Whether the mere indorsement on the back of the policy of such written description of the subject of insurance, without reference on the face of it to such indorsement, would have the effect of thus controlling the policy, may be doubted; unquestionably it would do so, if referred to in the body of the policy, or initialed by the underwriters (*o*).

Name of the ship.

16. As the nature of the risk depends very materially on the character of the ship employed, it is of great importance to the underwriter to know the name of the ship on which the insurance is to be effected, or on which the property insured is to be embarked. Hence, as a general rule, in all insurances, whether on ship or goods, the name of the ship ought to be accurately inserted in the policy.

Principle as to naming the ship.

Yet, if the underwriter really know what ship is intended, since the purpose of inserting the name is answered in fact, an error in the name of the ship will not vitiate the policy. *On ne doit pas pointiller sur le nom du navire, pourvu que l'erreur qui s'y est glissée n'empêche pas d'en reconnaître l'identité* (*p*).

Hence, immediately following the blank left in our common policy for inserting the name of the ship or master come the words, "or by whatsoever other name or names the same ship or the master thereof is or shall be named and called."

(*n*) Per Lord Ellenborough, Robertson *v.* French (1803), 4 East, 130, 141.

(*o*) See 1 Duer, 76.

(*p*) Emerigon, c. vi. s. 2, p. 160, citing Casaregis, Disc. I. No. 159.

Sect. 16.

Insurance on goods by ship or ships.

As, moreover, circumstances may frequently arise, especially in case of shipments made from abroad, in which the merchant, though desirous of protecting his goods by an immediate insurance, may be utterly ignorant of the particular vessel by which they may be consigned to him, a relaxation of the rule requiring the insertion of the name of the ship in the policy is in such cases permitted; and the party insuring is allowed to effect the policy on his property "on board any ship or ships," on condition of declaring, as soon as he becomes aware of it, the name of the ship or ships on board which it has actually been loaded (*q*).

Name of the master.

17. The name of the master, like that of the ship, ought, said Arnould, if known, to be truly inserted in the policy, and that for the same reason, viz., that the safety of the adventure is in some degree dependent on the character of the master.

As, however, many occasions may arise in the course of the voyage which may make it necessary to change the master, and in cases of insurance on "ship or ships" at sea, or from a distant port, the name of the master for the time being may not be known, in our common form after the blank left for the name of the master these words follow: "or whoever else shall go for master in the said ship," and the words already cited, "or by whatsoever name or names the same ship or the master thereof is or shall be named or called." It is not usual, now, to insert the name of the master in the policy (*r*).

Duration of the risk;

18. In the ordinary form of policy the duration of the

(*q*) The legality of such an insurance, which is recognized in s. 29 of the Mar. Ins. Act, 1906, *post*, § 185, was declared, more than a century ago, to be beyond dispute: Kewley *v.* Ryan (1794), 2 H. Bl. 348. In France such an insurance is expressly permitted by the Code de Commerce, art. 337. It is ably explained in 1 Emerigon, c. vi. s. 5, p. 173.

(*r*) "It is conclusively established by the evidence that the name of the master is not inserted in the policy at all, but is always left blank": Lord Salvesen in Gunford Ship Co. *v.* Thames & Mersey Mar. Ins. Co., [1910] Sess. Cas. 1072, 1084. See per Lord Alverstone, C. J., *S. C.*, [1911] A. C. at p. 533; see also McArthur, p. 79.

Sect. 18.

risk on ship and goods is described in the following clause, the blanks in which must be filled up according to the nature of the adventure which the party effecting the policy wishes to insure.

"Beginning the adventure upon the said goods and merchandises from the loading thereof on board the said ship [at A.] upon the said ship, &c. [at and from A.], and so shall continue and endure, during her abode there, on the said ship, &c.; and further until the said ship, with all her ordnance, tackle, apparel, &c., and goods and merchandises whatsoever, shall be arrived at [B.], upon the said ship, &c., until she hath moored at anchor twenty-four hours in good safety, and upon the goods and merchandises, until the same be there discharged and safely landed."

on goods,

The meaning of this clause, when stripped of its verbiage, is, that the risk upon the goods is to commence from their being loaded on board the ship wherever that may be; to continue upon them during the whole time they remain on board, and not to terminate until they have been discharged from the ship and safely landed at the port of delivery.

on ship.

The risk upon the ship is to commence at the port from which she sails on the voyage insured, wherever that may be, to continue during her stay there, and not to terminate until after she has moored at anchor for twenty-four hours in good safety at her port of destination.

The effect of this clause, however, depends, of course, upon the mode in which the blanks are filled up (*s*). The multifarious exigencies of commerce in a country like our own, which lead our merchants and shipowners to engage in enterprises almost infinitely varied, require the same diversity in describing as is displayed in undertaking them; and policies are accordingly filled up in every variety of form, in order to adapt the old policy to the widely extended commerce of modern times.

By sect. 93 (3) of the Stamp Act, 1891, a policy of sea

(*s*) See Robertson *v.* French (1803), 4 East, 130.

Sect. 18.

insurance is not valid unless it specifies the particular risk of adventure (*t*).

Liberty to touch and stay.

19. The course of the ship's navigation is, as we have seen, never expressed in any policy. It is an implied condition of every policy, that the ship, in sailing between the termini of the voyage insured, shall pursue that course which long usage has established to be the safest and most direct mode of navigation, without deviating from it to touch at any ports or places whatsoever, unless express liberty for that purpose be inserted in the policy (*u*).

As very few voyages, however, occur, in which it is not desirable that the ship should have the power of touching at intermediate ports, the common printed form of policy invariably contains this clause: "*And it shall be lawful for the said ship, &c., in this voyage to proceed and sail to and touch and stay at any ports or places whatsoever* [ ] *without prejudice to this insurance.*" The blank is for the purpose of specifying the particular ports and places at which it is intended this liberty shall be exercised.

Valuation clause.

20. *The said ship, &c., goods and merchandises, &c., for so much as concerns the assured by agreement between the assured and assurers in this policy are and shall be valued at* (*x*) [ ].

(*t*) See Edwards *v.* Aberayron Mutual Ship Ins. Society (1875), 1 Q. B. D. 563. Cf. Mar. Ins. Act, 1906, s. 23, which requires, *inter alia*, the risk insured against and the voyage, or period of time, covered by the policy to be specified, and see *ibid.* s. 22. "Risk or adventure" in the Stamp Act seems to have a wider meaning than "risk" in s. 22 of the Mar. Ins. Act. In the latter it obviously does not include the voyage or period covered by the policy, nor a description of the subject-matter insured, and apparently has reference only to the perils insured against.

(*u*) See Mar. Ins. Act, 1906, s. 46.

(*x*) The words "as under" were here written in, and the following blank was not filled up; lower down in the margin was written "13,000*l.*," and opposite to this, but in the body of the policy, following the 3 per cent. memorandum clause, were written these words: "on freight, warranted free of capture, seizure," &c. This was held not to be a valued policy. Wilson *v.* Nelson (1864), 5 B. & S. 354; see also Asfar *v.* Blundell, [1895] 2 Q. B. 196, 201.

Sect. 20.

This clause is in all the common printed forms of policy, though the blank is not always filled up; if filled up, the policy is called a *valued policy*; if not filled up, an *open* or *unvalued policy* (*y*).

When inserted, the value ought to be, but frequently is not, the real value of the ship or the prime cost of the goods at the time of effecting the policy, together with the amount of the shipping charges, premiums, and other expenses of the insurance (*z*).

As will appear from the language of the clause, this valuation is agreed to be final and conclusive "between the assured and assurers" on the particular policy; and consequently it cannot be set aside (*a*). But, as will appear hereafter, the contract is vitiated by an over-valuation which is fraudulent, or so excessive as to make the contract a mere wager (*b*), or which is material to be disclosed (*c*), yet has in fact been concealed (*d*).

Description of subject of insurance in valuation clause.

It is not unfrequently the case that where the interest intended to be insured requires a more specific description than that contained in the general printed form, such description is inserted in this clause; as, *e.g.*, the said ship and goods, &c., "are and shall be valued [at one thousand pounds, being on twenty bales of cotton, marked $\frac{1}{x}$ to $\frac{20}{x}$, the said twenty bales

(*y*) Mar. Ins. Act, 1906, ss. 27, 28.

(*a*) Mar. Ins. Act, 1906, s. 27. See Barker *v.* Janson (1868), L. R. 3 C. P. 303; Woodside *v.* Globe Marine Ins. Co., [1896] 1 Q. B. 105.

(*b*) Per Lord Mansfield, Lewis *v.* Rucker (1761), 2 Burr. 1167, 1171; Haigh *v.* De la Cour (1812), 3 Camp. 319. See *post*, § 342.

(*c*) Ionides *v.* Pender (1874), L. R. 9 Q. B. 531; Thames & Mersey Mar. Ins. Co. *v.* "Gunford" Ship Co., [1911] A. C. 529. See also the questions left by Mathew, J., to the jury in Herring *v.* Janson (1895), 1 Com. Cas. 177.

(*d*) Arnould (2nd ed. p. 30) says that the valuation "cannot be set aside, except in cases of fraudulent or excessive over-valuation," and similar language is used in s. 27 (3) of the Mar. Ins. Act, 1906. It is not, however, strictly correct to say that the valuation can be set aside. In some Continental countries this can be done, and another valuation substituted; but according to English law the valuation cannot be altered, though in the cases mentioned in the text the policy can be entirely avoided. See *post*, Part I. Chap. XIII. § 341 *et seq.*

Sect. 20.

valued at that sum] or [at one thousand pounds, being on the interest which I. S. has as owner in one-fourth share of the said ship, the said one-fourth share being valued at that sum]," or the words "valued at" are frequently struck out, and a description of the real subject of insurance then inserted without any valuation; as, *e.g.*, the said ship and goods, &c., for so much as concerns the assured and assurers in this policy are "freight," or "profits," or "money lent on bottomry."

In this case it is obvious that the words "the said ship and goods," &c. are to be read as though they meant "the subject insured by this policy, as far as concerns the assured and underwriters, is taken to be 'freight,' 'profits,' 'bottomry,'" &c.

The words "valued at" are frequently struck out, and the sum insured is then inserted, thus, "1,000*l.* on ship," or "on goods," &c.; and if the policy is intended to be a valued one, it proceeds, "1,000*l.* on ship valued at 2,000*l.*," "2,000*l.* on goods valued at 11,000*l.*"

By statute the policy is not valid unless it specifies the sum or sums insured (*e*).

The perils insured against.

21. The next clause in the policy contains an enumeration of the perils against which the underwriters undertake to insure the property on which the policy is effected.

As the underwriter is, on plain principles, considered not to be liable to indemnify the assured against loss arising from any perils not specified in the policy or embraced in the general clause, great care has been taken to make this form of words as comprehensive as possible. The effect of it is frequently modified by exceptions inserted on the face of the policy.

Sue and labour clauses.

22. "*And in case of any loss or misfortune, it shall be lawful to the Assured, their Factors, Servants, and Assigns,*

(*e*) Stamp Act, 1891, s. 93 (3); cf. Mar. Ins. Act, 1906, s. 23 (4), and see *id.*, s. 22.

Sect. 22.

to sue, labour, and travel for, in, or about the Defence, Safeguard, and Recovery of the said Goods and Merchandises, and Ship, &c., or any part thereof, without prejudice to this insurance: To the charges whereof, we, the Assurers, will contribute, each one according to the Rate and Quality of his sum herein insured."

Reason of introducing this clause.

This clause was introduced to obviate a notion which appears at one time to have prevailed, that if the assured, after a loss which threatened the total destruction of the property insured, were, either by himself or his agents, to take active measures for its recovery or restoration, he would thereby lose the right to abandon, which he might otherwise have exercised. The object of this clause, therefore, is to permit the assured in such cases to take every measure for the recovery of the property without waiving his right of abandonment, and also to bind the underwriters to contribute in proportion to the amount of their several subscriptions, to reimburse the assured for the expenses which he may thereby have incurred (*f*). The language of the clause is only permissive, but it has long since been settled that it is a clear duty of the assured so to labour for the recovery and restitution of the detained or damaged property (*g*).

The effect of it.

The clause does not entitle the assured to recover moneys spent in averting losses for which the underwriter would not have been liable if they had actually happened (*h*).

Waiver clause.

23. "*And it is especially declared and agreed that no acts of the Insurer or Insured in recovering, saving, or preserving the property insured shall be considered as a waiver or acceptance of abandonment.*"

(*f*) Mitchell *v.* Edie (1787), 1 T. R. 608. See 2 Marshall, Ins. 625; and the elaborate discussion of this clause in the learned judgment of Willes, J., in Kidston *v.* Empire Ins. Co. (1866), L. R. 1 C. P. 535; in error (1867), L. R. 2 C. P. 357; see also Lord Blackburn's judgment in Aitchison *v.* Lohre (1879), 4 App. Cas. 755, 764.

(*d*) This is Arnould's language. See *post*, § 799a, and Mar. Ins. Act, 1906, s. 78 (4).

(*h*) Great Indian Peninsular Ry. *v.* Saunders (1861), 1 B. & S. 41; (1862), 2 *ibid.* 266; Booth *v.* Gair (1863), 33 L. J. C. P. 99; Meyer *v.* Ralli (1876), 1 C. P. D. 358.

Sect. 23.

The object of this clause is to insure that when the assured has given notice of abandonment and claimed for a constructive total loss, the legal position of neither party shall be prejudiced by any act done by him for the purpose of averting a loss. In one case the Court of Queen's Bench expressed the opinion that the clause is superfluous (*i*).

Promise to insure and acknowledgment of receipt of premium.

24. "*And so we the insurers are contented and do promise and bind ourselves, each one for his own part, our heirs, executors, and goods, to the assured, their executors, administrators and assigns, for the true performance of the premises: confessing ourselves paid the consideration due unto us for this assurance by the assured*," *&c.*

The policy, it will be observed, contains only a promise *by the underwriters*, without anything in the nature of a counter-promise on the part of the assured; the reason of this is, that the premium, or, as it is described in this clause of the policy, "the consideration due unto them for the assurance," is always supposed to have been paid to the underwriters at the time the policy is subscribed by them, and is accordingly acknowledged to have been so paid on the face of the instrument.

Premium never paid beforehand in practice.

In point of fact the premium is scarcely ever, in the actual course of London business, paid till long after the policy is effected; and is in most cases never paid in money at all, but passed in account between the insurance broker and the underwriter, between whom a running account is kept of premiums and losses, which is settled from time to time.

Acknowledgment of the receipt binds the underwriter.

Although this is the actual course of practice, yet the acknowledgment of the receipt of premium in the policy is so far binding on the underwriter, as to prevent him, in the absence of fraud, from seeking to recover his premium from the assured himself (*k*). Even when the policy contains a

(*i*) Stringer *v.* English, &c. Ins. Co. (1869), L. R. 4 Q. B. 676, 686.

(*k*) Mar. Ins. Act, 1906, s. 54. See Dalzell *v.* Mair (1808), 1 Camp. 532; De Gaminde *v.* Pigou (1812), 4 Taunt. 246. Mavor *v.* Simeon (1810), 3 Taunt. 497, n.; and Foy *v.* Bell (1811), 3 Taunt. 493, are

Sect. 24.

promise by the assured to pay the premium, the usage that the underwriter must look to the broker for payment has been held to apply (*l*).

The premium is commonly described in the policy as at so much "per cent.," meaning on the amount subscribed by the underwriter. 35 Geo. 3, c. 63, s. 11, required the premium or consideration in the nature of the premium to be expressed in the policy. There was no express provision to that effect in 30 Vict. c. 23, nor is there in the Stamp Act, 1891, or the Marine Insurance Act, 1906.

The memorandum: its object.

25. A clause called the memorandum is introduced into all policies for the purpose of exempting the underwriters from liability for trivial losses, or for partial losses in respect of certain articles of a perishable nature. In Lloyd's policy it is expressed in the following uncouth form of words:—

N.B.—Corn, fish, salt, fruit, flour, and seed are warranted free from average, unless general, or the ship be stranded (A); sugar, tobacco, hemp, flax, hides, and skins are warranted free from average under five pounds per cent. (B); and all other goods, also the ship and freight, are warranted free from average under three pounds per cent., unless general, or the ship be stranded (C) (*m*).

In order to make this form of words at all intelligible, it must be carefully borne in mind that the word "AVERAGE," as employed in this clause, means damage to or partial loss of the subject of insurance (*n*), and that the expression "WARRANTED FREE FROM AVERAGE" means, "so insured as to exclude all liability for such damage or partial loss." Hence the whole meaning of the clause is as follows:—

On certain articles of a peculiarly perishable nature,

cases in which, under peculiar circumstances, fraud on the part of the assured was alleged.

(*l*) Universo Ins. Co. *v.* Merchants' Mar. Ins. Co., C. A. [1897] 2 Q. B. 93.

(*m*) The words "sunk or burnt" are often added.

(*n*) See Kidston *v.* Empire Ins. Co. (1866), L. R. 1 C. P. 535; Oppenheim *v.* Fry (1863), 3 B. & S. 873; Ex. Ch. (1864), 5 *ibid.* 348.

Sect. 25.

enumerated in paragraph (A), the underwriter shall be answerable for a total loss only (*o*).

On certain other articles of a less perishable nature, but still very liable to be destroyed, enumerated in paragraph (B), he shall only be answerable when the amount of damage exceeds 5 per cent. of their value.

On ship, freight, and all other goods, he shall only be liable when the amount of damage exceeds 3 per cent.

But in all the three cases alike, the clause provides that the underwriter will be liable for any amount of damage or partial loss, however small, in case the ship be stranded; and it also provides, that he shall in every case be liable for every loss, however small, of the nature of general average (*p*).

The subscription, sum insured, and date.

26. The only parties who sign their names at the foot of the policies, in other words, underwrite them, are the insurers, who are hence called the underwriters or subscribers. By sect. 24 (1) of the Marine Insurance Act, 1906, "a marine policy must be signed (*q*) by or on behalf of the insurer (*r*), provided that in the case of a corporation the corporate seal may be sufficient (*s*), but nothing in this section shall be construed as requiring the subscription of a corporation to be under seal."

(*o*) Per Willes, J., Kidston *v.* Empire Ins. Co. (1886), L. R. 1 C. P. 535, 544.

(*p*) The bad punctuation of the Memorandum in Lloyd's form (see above) makes it read as if the words "unless general, or the ship be stranded" have no application to the articles in the five per cent. class. Such a construction of the clause, the effect of which would be to make an utterly unreasonable distinction between the articles in paragraphs (B) and (C), has, however, never been adopted in practice. The Memorandum is differently punctuated in Sched. I. of the Mar. Ins. Act, 1906 (see Vol. II. App. A.); but a comma is required after "under three pounds per cent." to make it clear that the meaning of the clause is that stated in the text.

(*q*) An impression of the names from a rubber stamp is a sufficient signature: Cope *v.* Miller (1896), 1 Com. Cas. 296; see also Bennett *v.* Brumfield (1867), L. R. 3 C. P. 28.

(*r*) The effect of s. 22 is apparently that an unsigned policy cannot be given in evidence.

(*s*) In Marine Mutual Ins. Ass. *v.* Young (1880), 43 L. T. 441, the seal of the association, attested by the manager, was held to be sufficient.

Sect. 25.

Mode of subscribing the policy.

In policies of insurance effected with private underwriters, the first underwriter to whom the policy is tendered subscribes the policy with his name, and the sum he intends to insure, which is generally written in words at length. The next underwriter to whom the policy is tendered then, in like manner, writes under the first subscription his name and the sum he means to insure; and the rest follow in order until the aggregate of the separate sums written opposite to the name of each underwriter, or, in technical language, till the "aggregate of their several subscriptions" amounts to the sum which the party effecting the policy desires to protect by the insurance. But since the repeal (in 1825) of the 6 Geo. 1, c. 18 (which prohibited any partnership other than the two chartered companies from underwriting sea-policies), a subscription in the name of a partnership firm has been held sufficient (*t*).

Policy must specify the sum insured.

By the Stamp Act, 1891, s. 93 (3), "a policy of insurance shall not be valid unless it specifies the names of the underwriters and the sum or sums insured" (*u*). In addition to this specification of the sums underwritten, a sum large enough to cover the aggregate amount insured is usually in practice expressed in figures on the margin of the policy, either just under or just over the stamp.

Where the aggregate sum insured appears on the face of the policy, and the proportion which each underwriter bears is mentioned, "the sum or sums insured" are sufficiently described in the policy (*x*).

(*t*) Reid *v.* Allan (1849), 4 Exch. 326; Dowdall *v.* Allan (1849), 19 L. J. Q. B. 41, S. P. It is a fundamental rule of Lloyd's that no member shall in the City of London underwrite in the name of a partnership.

(*u*) See also Mar. Ins. Act, 1906, ss. 22, 23. A club policy signed "A. & B., per procuration of the several members of the A. A. Association," was held to be void because the names of the insurers were not specified: In re The Arthur Average Association (1875), L. R. 10 Ch. 542. Where the sum insured was left undetermined, because it could not be exactly fixed, the insurance was held to be void: Home Mar. Ins. Co. *v.* Smith, C. A. [1898] 2 Q. B. 351.

(*x*) Dowell *v.* Moon (1815), 4 Camp. 166; Tyser *v.* Shipowners' Syndicate, [1896] 1 Q. B. 135; 1 Com. Cas. 224.

Sect. 26.

Each subscription makes a distinct contract.

Sect. 24 (2) of the Marine Insurance Act, 1906, provides that "where a policy is subscribed by or on behalf of two insurers, each subscription, unless the contrary be expressed, constitutes a distinct contract with the assured" (*y*). Therefore each underwriter is, generally speaking, only liable, in case of total loss, to pay the assured to the extent of the sum he has thus written against his own name, *i.e.*, to the amount of his subscription; or, in case of partial loss, some proportion or aliquot part of that sum (*z*).

The date and subscription.

Formerly the date used not to be inserted in the body of the policy, but was affixed by each underwriter to that which forms the real contract between himself and the assured, viz., the subscription. Now, however, it is usual to insert a date in the policy, which is not necessarily that on which the underwriters actually subscribe it, and the underwriters do not usually add a date to their subscriptions (*a*). These are inserted at the foot of the policy, and generally in the blank space which is left in our common policies under the memorandum.

Supposing the sum which the party effecting the policy wishes to insure be 1,000*l.*, of which A. B. is willing to take on himself 500*l.*, C. D. 300*l.*, and E. F. 200*l.*, then the policy would be thus subscribed:—

500*l.* A. B. [*name at length*] Five hundred pounds.
300*l.* C. D. [*name at length*] Three hundred pounds.
200*l.* E. F. [*name at length*] Two hundred pounds.

Delivery of the policy.

27. After the policy has been executed in the form which is binding on the insurer, it must be delivered to make a

(*y*) See Leo SS. Co., Ltd. *v.* Corderoy (1896), 1 Com. Cas. 300, 379.

(*z*) See Tyser *v.* Shipowners' Syndicate, *supra*. If there be a partnership, the fact of there being separate subscriptions by the partners individually does not bar the assured from resorting to the partnership assets: Brett *v.* Beckwith (1856), 26 L. J. Ch. 130, *coram* M. R. A number of underwriters may have one representative insuring for all of them without being partners: per Mathew, J., Tyser *v.* Shipowners' Syndicate, *supra*.

(*a*) The Code de Commerce, Art. 332, requires the policy to be dated on the day and *hour* when executed, distinguishing whether before or after noon. The date in France is conclusive.

Sect. 27.

valid contract. If the underwriter hands over the policy to his clerk, to be kept until called for, the presumption is that this amounts to a delivery (*b*). Little room for questions of this nature is left by the practice at Lloyd's, where it is usual for the broker to carry round the policy for the subscription of the underwriters who have initialed the slip (*c*). With companies the practice is different, for the execution usually takes place in the absence of the assured and his broker. The presumption, therefore, is that when the instrument, completed and executed, passes into the hands of the company's servants, to be kept until called for by the assured, it is already a valid policy (*d*).

Stamping the policy.

28. Every policy must be duly stamped, before it is signed or underwritten by any person, with the amount of duty required by the Stamp Act, 1891 (*e*). If not stamped in the first instance, it cannot, with two exceptions, be stamped afterwards (*f*), except on payment of a penalty of 100*l.* (*g*); and a failure to comply with the provision of the Stamp Act in this respect not only renders the policy void, but entails a considerable penalty upon all those concerned in so effecting or subscribing it (*h*). But we reserve the effect of the Stamp Laws for consideration separately.

Recapitulation.

We have seen that a contract of sea-insurance, other than such as is referred to in sect. 506 of the Merchant Shipping Act, 1894, is not valid unless expressed in a policy. In substance, a policy contains the following particulars (*i*):—

(*b*) Cope *v.* Miller (1896), 1 Com. Cas. 296.

(*c*) See § 102.

(*d*) Xenos *v.* Wickham (1867), L. R. 2 H. L. 296; Ex. Ch. (1863), 33 L. J. C. P. 13; 14 C. B. N. S. 435; Cox *v.* Troy (1822), 5 B. & Ald. 474. For limited effect that may be given to delivery out of a policy, see Morrison *v.* Universal Marine Ins. Co. (1873), L. R. 8 Ex. 197.

(*e*) Stamp Act, 1891 (54 & 55 Vict. c. 39), ss. 1, 95 (1), and Sched. I.

(*f*) *Ibid.* s. 95 (1) (a), (b).

(*g*) *Ibid.* s. 95 (2).

(*h*) *Ibid.* s. 97.

(*i*) The statutory requisites under the Stamp Act, 1891, are—(1) the stamp; (2) the risk or adventure; (3) the names of the underwriters; (4) the sums insured. The Mar. Ins. Act, 1906, requires—(1) the name

Sect. 28.

1. The name of some party, either really or nominally insured. 2. A description of the voyage or risk insured. 3. Of the subject insured. 4. Of the perils insured against. 5. The name of the ship (except where the insurance is on ship or ships, or on cargo to be carried by ships unknown). 6. The premium or consideration for the risk. 7. The sums insured. 8. The subscription of the underwriter. It is, moreover, requisite that every policy should be, 9, Dated; and 10, Stamped, before execution (*k*).

Express warranties and other occasional clauses contained in policies.

29. The clauses hitherto considered are for the most part to be found in the common printed forms of policy. With the varying exigencies of commerce, however, and the fluctuating character of the political relations between mercantile states, occasions frequently arise which render the assured, on the one hand, desirous of extending the degree of indemnity which is afforded him by the common form of policy; and warn the underwriter, on the other, to limit the amount of responsibility he takes on himself, by declaring in writing on the face of the policy that he will only undertake to indemnify the assured against the usual risks upon certain specified conditions, which are inserted in writing on the face of the policy, and, in English Law, are called Express Warranties.

Form of express warranties, and mode of inserting them in policies.

The effect of these warranties will be fully discussed hereafter. With regard to their form they are generally expressed thus:—"Warranted to sail on or before the 1st day of June, 1920." "Warranted well, this 1st day of June, 1920." "Warranted to depart with convoy." "Warranted neutral ship and neutral property." "Warranted a Dane," &c.; or the word "warranted" is altogether omitted, and the words

of the assured, or of some person who effects the insurance on his behalf; (2) the subject-matter and the risk; (3) the voyage or period of time covered; (4) the sums insured; (5) the names of the insurers; (6) their signature.

(*k*) See, however, Stamp Act, 1891, s. 95, *post*, § 32, for certain exceptions, and for the stamping of a policy after execution on payment of a penalty.

Sect. 29.

"to sail," or "to sail with convey," &c. alone inserted. The clause of warranty is sometimes introduced into the policy immediately after that describing the voyage; but this is not necessary; all that is essential is, that it should be included in, or written upon, the policy, or contained in some document incorporated by reference into the policy (*l*): it need not appear in the body of it (*i.e.*, the written or printed part); it may be written either at the foot (*m*), or on the margin of the policy (*n*), and that either in the usual way or transversely (*o*); for, wherever or however written, so long as it be on the face of the policy, it will be a good warranty; for whatever is contained in the policy at the time of signing is part of the contract, and is adopted by the signature (*p*). It is apprehended, however, that, unless initialed by the underwriters, or referred to in the body of the instrument (in either of which cases it would, no doubt, be operative (*q*)), a memorandum indorsed on the back of the policy would not be permitted to have any effect in varying or modifying its terms (*r*).

Of the implied conditions and terms contained in every policy.

30. Besides the different express clauses and stipulations, both ordinary and extraordinary, already considered, every policy of insurance implicitly contains within itself certain terms and conditions, which, though not on the face of the instrument, are of the same binding authority as though they were, and combine with the express clauses to make up the whole of the contract between the assured and the underwriters.

(*l*) Mar. Ins. Act, 1906, s. 35 (2).

(*m*) Blackhurst *v.* Cockell (1789), 3 T. R. 360.

(*n*) Bean *v.* Stupart (1778), 1 Dougl. 11.

(*o*) Kenyon v. Berthon (1778), 1 Dougl. 12, n.

(*p*) Cockran *v.* Retberg (1800), 3 Esp. 121; see also De Hahn *v.* Hartley (1786), 1 T. R. 343.

(*q*) See Laird *v.* Robertson (1791), 4 Br. P. Cases, 488; Ridsdale *v.* Shedden (1814), 4 Camp. 107; Reed *v.* Deere (1827), 7 B. & Cr. 261; and *post*, § 42.

(*r*) 1 Duer, 76. Phillips, however, vol. i. s. 68, appears to take a contrary view.

Sect. 30.

They are, in fact, the terms upon which the parties mutually understand their contract to be based; and are regarded as so much a matter of course, that it would be a needless ceremony to express them in form. If either of the parties fail to comply with any one of these conditions, he will in most cases be entirely precluded from taking any advantage of his contract.

Representation and concealment.

1. Thus, it is an implied condition in every policy that the assured, at the time of effecting the contract, shall fairly and truly disclose to the underwriters every fact material to the risk which is exclusively within his own knowledge, and which is not embraced by some agreement in the policy: if this condition is not complied with, the policy may be avoided by the underwriter (*s*).

Implied warranty of seaworthiness.

2. Again, in voyage policies the assured is understood by the very act of procuring the insurance to warrant that the vessel is seaworthy and in every way fit for the voyage or service on which it is employed; accordingly this warranty, though it is never expressed, is uniformly implied as a part of the contract (*t*).

Usual course to be followed.

3. The actual navigation of the ship between the termini of the voyage is, as we have seen, never inserted in any policy; because every underwriter is presumed to be acquainted with the usual mode of conducting the voyage on which he has assured the risk; but, although never inserted, the usual course of the voyage is supposed to be incorporated in every policy, and as much forms part of its legal effect as though it were set out in terms on the face of the instrument (*u*).

Implied condition not to deviate.

4. It is always an implied condition of every policy, that the ship, in proceeding from one terminus to the other, shall pursue this usual course of the voyage, without any delay or deviation: this implied condition is generally termed a condition not to deviate; and any failure to comply with it exempts the underwriter from all liability from the moment of deviation (*x*).

(*s*) *Post*, Part II. Chap. II. "Concealment."

(*t*) *Post*, Part II. Chap. IV. "Seaworthiness."

(*u*) Noble *v.* Kennoway (1780), 2 Dougl. 510; Pelly *v.* Royal Exch. Co. (1757), 1 Burr. 341.

Sect. 30.

All generally known mercantile usages are incorporated.

5. Not only the course of the voyage insured, but all generally established usages of trade and navigation, applicable to the subject of their contract, are always supposed to be known by the parties contracting for a mercantile indemnity; and therefore, though never expressly inserted in any policy, are as binding on the parties as though they were.

Real nature and effect of the contract.

6. It must never be forgotten, therefore, that the whole contract between the assured and the underwriters is only partially expressed in the policy; and that the real contract between them is, that, supposing the underwriters to have been informed beforehand of the real nature of the risk, supposing also (except in time policies) the ship to have been seaworthy when the risk commenced, and never afterwards to have deviated from the usual course of the voyage insured, and the assured not to have precluded himself from recovery on the ground of illegality of the risk, then the underwriters engage to indemnify him, according to the terms of the policy as explained by usage, for any loss he may sustain as a direct consequence of the enumerated perils.

The stamping of policies.

31. The stamping of policies in the United Kingdom is mainly regulated by the Stamp Act, 1891 (54 & 55 Vict. c. 39), by which all then-existing enactments dealing with the stamping of policies were repealed, as amended by the Finance Act, 1920 (10 & 11 Geo. 5, c. 18), s. 41.

Scale of stamp duties.

All policies of sea insurance must be stamped according to the following scale (*y*):—

	Duty. £	s.	d.
(1) Where the premium or consideration does not exceed the rate of 2*s.* 6*d.* per centum of the sum insured (*z*)	0	0	1

(*x*) See *post*, Part I. Chap. XV. "Deviation."

(*y*) See Stamp Act, 1891, s. 1 and Sched. I.; Finance Act, 1920, s. 41, which in effect repeals sect. 5 of the Finance Act, 1908.

(*z*) By the Finance Act, 1912, s. 8, where such premium is subject

Sect. 31.

	Duty. £ s. d.
(2) In any other case—	
(a) For or upon any voyage—	
where the sum insured—	
does not exceed 250*l.*	0 0 3
exceeds 250*l.* but does not exceed 500*l.* ...	0 0 6
„ 500*l.* „ „ 750*l.* ...	0 0 9
„ 750*l.* „ „ 1,000*l.* ...	0 1 0
„ 1,000*l.*, for every 500*l.* and any fractional part of 500*l.*	0 0 6
(b) For time—	
where the insurance is made for any time not exceeding six months, an amount equal to three times the amount which would be payable if the insurance were made upon a voyage;	
where the insurance is made for any time exceeding six months and not exceeding twelve months, six times the amount which would be payable if the insurance were made upon a voyage.	

By sect. 91, the expression "policy of insurance" for the purposes of the Act includes every writing whereby any contract of insurance is made or agreed to be made, or is evidenced. The meaning of the term "policy of sea insurance" for the purposes of the Act is defined in sect. 92 (*b*).

Sect. 93 (1) provides that a contract for sea insurance (other than such insurance as is referred to in sect. 55 of the Merchant Shipping Act Amendment Act, 1862, re-enacted

to an increase upon the occurrence of a specified contingency, it is still to be treated as not exceeding the rate of 2*s.* 6*d.* per cent. of the sum insured. But if, owing to the occurrence of the contingency, the premium is increased so as to exceed this rate, the policy or a new policy to be thereupon issued must be stamped with the additional sum required to represent the additional duty, and may be so stamped without penalty within thirty days after the increased premium becomes ascertained.

(*a*) A time policy embracing a number of ships with separate sums insured on each is properly stamped at the duty corresponding to the aggregate sum insured. Great Britain S.S. Premium Association *v.* White (1891), 19 Ct. of Sess. Cas. 4th Ser. 109; (1896) W. N. 91.

(*b*) See *ante*, § 7.

Sect. 31.

in sect. 506 of the Merchant Shipping Act, 1894 (*c*)) shall not be valid unless it is expressed in a policy of sea insurance (*d*).

By sect. 93 (2), no policy of sea insurance made for time shall be made for any time exceeding twelve months.

Sect. 93 (3) declares that a policy of sea insurance shall not be valid unless it specifies the particular risk or adventure, the names of the subscribers or underwriters, and the sum or sums insured (*e*), and is made for a period not exceeding twelve months.

By sect. 94, where any sea insurance is made for a voyage and also for time, or to extend to or cover any time beyond thirty days after the ship shall have arrived at her destination and been there moored at anchor, the policy is to be charged with duty as a policy for a voyage, and also with duty as a policy for time.

The prohibition of insurances for a time exceeding twelve months has been modified by sect. 11 of the Finance Act, 1901 (1 Edw. 7, c. 7), which provides that notwithstanding anything contained in the Stamp Act, 1891, a policy of sea insurance made for time may contain a continuation clause as defined in the section, and shall not be invalid on the ground only that by reason of the clause it may become available for a period exceeding twelve months (*f*). A policy with such a clause is chargeable with a stamp duty of sixpence in addition to the duty otherwise chargeable; and if the risk covered by the clause attaches, and a new policy is not issued covering the risk, the clause shall be deemed to be a separate contract of insurance, not covered by the stamp on the original policy, which must be stamped anew in respect of that contract. It may be so stamped without penalty

(*c*) *Ibid.*

(*d*) As to costs, where the insurer has successfully pleaded this provision of the Stamp Act, after leading the insured to believe that he would not rely on it, see Genforsikrings Aktieselskabet *v.* Da Costa, [1911] 1 K. B. 137.

(*e*) See also Mar. Ins. Act, 1906, ss. 22—24, *ante*, §§ 8, 26.

(*f*) See *post*, § 440, for the definition of a continuation clause.

Sect. 31.

at any time not exceeding thirty days after the risk has so attached.

Sect. 8 of the Revenue Act, 1903 (3 Edw. 7, c. 46), provides that a policy of insurance upon any ship, or its machinery or fittings, while under construction or repair, or on trial, need only be stamped as a policy for a voyage, and though made for a time exceeding twelve months, shall not be deemed to be a policy made for time.

Effect of omission to stamp the policy under the old law.

32. The first Act relating to the stamping of sea-policies (35 Geo. 3, c. 63), declared that a policy should neither be given in evidence nor available in law or equity unless duly stamped, and it absolutely prohibited the stamping of a policy after it was underwritten (sect. 14). The effect of this provision was that a policy not properly stamped at the time when it was made was wholly null and void (*g*).

Stamping the policy after execution.

The rigour of the law has been considerably modified. Sect. 95 (1) of the Stamp Act, 1891, after declaring that a policy of sea insurance may not be stamped at any time after it is signed or underwritten by any person, makes the two following exceptions:—

(a) Any policy of mutual insurance having a stamp impressed thereon may, if required, be stamped with an additional stamp, provided that at the time when the additional stamp is required the policy has not been signed or underwritten to an amount exceeding the sum or sums which the duty impressed thereon extends to cover.

(b) Any policy made or executed out of, but being in any manner enforceable within, the United Kingdom may be stamped at any time within ten days after it has been first received in the United Kingdom on payment of the duty only.

Further, sect. 95 (2) allows a policy of sea insurance for

(*g*) Roderick *v.* Hovil (1811), 3 Camp. 103. See the 2nd edition of this work, pp. 41—50, for the law as to the stamping of policies before 30 Vict. c. 23.

Sect. 32.

the purpose of production in evidence to be stamped after the execution thereof, on payment of a penalty of 10*l.* (*h*). This is a provision of the greatest importance. The contract is good *ab initio*, and either party can enforce it by paying the penalty. Under the old law, as we have seen, there was no enforceable contract (*i*).

Penalties for breaches of the Stamp Act.

33. Sect. 97 (1) of the Act imposes a penalty of 100*l.* on any person who becomes an insurer, or settles for a loss, or effects an insurance, or knowingly procures one to be effected, unless the insurance is expressed in a duly stamped policy of sea insurance, or who fraudulently or wilfully seeks to evade the duty payable on a policy. By sect. 97 (2), a broker, agent, or other person who negotiates a sea insurance contrary to the Act, or writes a policy upon material not duly stamped, is liable to a similar penalty, and has no legal claim to any charge for brokerage or commission, or for any money paid by him with reference to the insurance. Further, any money paid to him in respect of any such charge shall remain the property of his employer.

Sect. 97 (3) imposes a similar penalty on anyone who makes or issues a document purporting to be a copy of a policy, unless there be a duly stamped policy in existence of which it is a copy.

Spoiled stamps.

The Stamp Duties Management Act, 1891 (54 & 55 Vict. c. 38, ss. 9—12), as amended by 61 & 62 Vict. c. 46, deals with the question of allowances for spoiled stamps.

(*h*) This was first allowed in 1876, by 39 Vict. c. 6, s. 2 (repealed by the Act of 1891), which made sea-policies instruments within the Stamp Act, 1870 (33 & 34 Vict. c. 97), s. 16. Before this provision a special case stating that the parties agreed that a valid (*i.e.*, stamped) policy should be deemed to have been issued was ordered to be struck out as sanctioning an evasion of the stamp laws: Nixon *v.* Albion Marine Ins. Co. (1867), L. R. 2 Ex. 338. Where the question in issue was whether an unstamped document was a policy of insurance, an order was made at chambers that for the purposes of the trial the Court was to assume that all penalties (if any were necessary) had been paid: Home Marine Ins. Co. *v.* Smith, [1898] 2 Q. B. 351.

(*i*) Arnould, 2nd ed. pp. 43, 44.

Sect. 34.

The slip.

34. The most difficult questions raised by the Stamp Acts relate to the legal effect of the slip.

The broker, when requested to effect an insurance, prepares a brief memorandum of the leading particulars of the proposed risk, such as convey at a glance to those who are skilled in the business a sufficient notion of the intended policy to enable them to say whether, and at what premium, they will underwrite it. This memorandum, called the *slip*, is presented, if the insurance is effected at Lloyd's, successively to the underwriters there, who, if they think well of the risk and the premium at which it is offered, initial the slip, each for the sum he thinks proper to underwrite, and so on until the whole amount is subscribed (*k*).

The legal effect of the slip was explained by Blackburn, J., in the year 1871, when the Act of 1867 (30 Vict. c. 23) was in force. "The slip," said the learned judge (*l*), "is in practice, and according to the understanding of those engaged in marine insurance, the complete and final contract between the parties, fixing the terms of the insurance and the premium, and neither party can, without the assent of the other, deviate from the terms thus agreed on without a breach of faith, for which he would suffer severely in his credit and future business.

"The Legislature, for the purpose of protecting the revenue, had by the very strongest enactments provided that no such instrument should be given in evidence for any purpose (*m*). But all those enactments are repealed by the

(*k*) Another document of similar import, sometimes also called a slip, is that which is known as a *cover note* or *covering note*. It is a memorandum containing similar particulars of the terms of an insurance signed on behalf of, and issued to the broker or assured by, a company on accepting the risk. See *post*, § 102, n.

(*l*) Ionides *v.* Pacific Fire and Marine Ins. Co. (1871), L. R. 6 Q. B. 674, 684, 685; affd. on appeal (1872), L. R. 7 Q. B. 517.

(*m*) So much so that Lord Ellenborough, C. J., refused to look at it as a means of showing the order in which the underwriters had taken the risk: Marsden *v.* Reid (1803), 3 East, 572, 573; see also Warwick *v.* Slade (1811), 3 Camp. 127. 35 Geo. 3, c. 63, s. 14, provided that no insurance whereon duty was payable, nor any contract or agreement for such insurance, should be given in evidence unless stamped.

Sect. 34.

30 Vict. c. 23; and the law is now governed by the 7th and 9th sections of that Act. By sect. 7 no contract or agreement for sea insurance shall be valid unless expressed in a policy. And by sect. 9 no policy shall be pleaded or given in evidence in any Court unless duly stamped. As the slip is clearly a contract for marine insurance, and is equally clearly not a policy, it is, by virtue of these enactments, not valid—that is, not enforceable at law or in equity; but it may be given in evidence wherever it is, though not valid, material."

Nevertheless, when a stamped policy had been issued, the Courts recognized the practice of underwriters to consider the agreement complete when the slip was initialed, to the extent of holding that any fact coming to the knowledge of the assured between the time when the slip was initialed and the execution of the policy, however material it might be, need not be communicated to the underwriter, even though the slip was initialed for the agent of the assured, subject to confirmation by his principal; and since the Act of 1867 the Courts have held that the slip could be looked at to show when the bargain was made (*n*). Now sect. 21 of the Marine Insurance Act, 1906, declares that for the purpose of showing when the contract was concluded, reference may be made to the slip or covering note or other customary memorandum of the contract, although it be unstamped.

Arnould's view that the contract made by the slip was enforceable in equity.

35. Arnould was of opinion that a memorandum embodying an agreement to execute a regular stamped policy, accompanied by the payment of the premium, could be enforced in a court of equity (*o*); but in support of this view he was only

30 Vict. c. 23, only says that no unstamped policy shall be given in evidence; yet there is a wide definition of the term "policy" in s. 4 of that Act. In Fisher *v.* Liverpool Marine Ins. Co. (1873), L. R. 8 Q. B. 469, 474, Lord Blackburn hinted at a doubt whether Lord Ellenborough was right in refusing to look at the slip.

(*n*) Cory *v.* Patton (1872), L. R. 7 Q. B. 304; (1874), L. R. 9 Q. B. 577; Lishman *v.* Northern Maritime Ins. Co. (1873), L. R. 8 C. P. 216, 225; in the Exchequer Chamber (1875), L. R. 10 C. P. 179.

(*o*) 2nd ed. p. 52.

Sect. 35.

able to cite a dictum of Lord Denman's (*p*), and a Scotch case in which the House of Lords recognized the validity of a written agreement to execute a policy. The report, however, does not state whether the memorandum was stamped, and it does not appear that any question arising out of 35 Geo. 3, c. 65, the Stamp Act then in force, was raised or considered in the case (*q*).

A subsequent decision of the Court of Exchequer Chamber shows that this opinion could not be supported under the former Stamp Acts.

Decision to the contrary.

The facts in that case (*r*) were that the London agent of the defendant company initialed a slip, and received from the brokers a copy of the slip, which he forwarded to his principals to have a policy prepared, and the amount of the premium and stamp duty was subsequently paid by the brokers to the defendants' agents. No policy was executed by the defendants, and an action was brought for damages. In the Court of Queen's Bench, Blackburn, J., held, not that the defendants were legally bound to execute a policy, but that by accepting the copy slip they agreed to use due diligence either to execute a stamped policy or to repudiate the transaction. But in this opinion he was not sustained, the other members of the Court and the Exchequer Chamber holding that the initialing of the slip and the forwarding of the copy slip were parts of one contract—a contract of insurance which could not, by reason of 30 Vict. c. 23, be enforced.

(*p*) In Mead *v.* Davison (1835), 3 A. & E. 303.

(*q*) Patterson *v.* Mills (1828), 1 Dow, N. S. 342. The case in the Court of Session is reported as Albion Life and Fire Ins. Co. *v.* Mills, 3 Wils. & Shaw, 218.

(*r*) Fisher *v.* Liverpool Marine Ins. Co. (1873), L. R. 8 Q. B. 469; in the Exchequer Chamber (1874), L. R. 9 Q. B. 418. In Morrison *v.* Universal Marine Ins. Co. (1871), 25 L. T. 108, Kelly, C. B., had previously ruled that a custom whereby an underwriter is bound to issue a policy in accordance with the terms of the slip is bad. See also Morocco Land and Trading Co. *v.* Fry (1865), 11 L. T. N. S. 618; and the opinion of Willes, J., in Xenos *v.* Wickham (1867), L. R. 2 H. L. 296, 314.

Sect. 35.

Thus it is clear that before 1876 the assured had no remedy upon an unstamped slip, because, even if the slip satisfied the other requirements of the Stamp Acts, it was unstamped and therefore invalid as a policy (*s*).

Cases in which assured recovered without a policy.

36. Only under exceptional circumstances—for instance, where the claimant has been able to prove his case without actual production of a stamped policy—have actions been successfully maintained when no stamped policy was in existence.

Thus, in one case the assured was held entitled to receive the amount of a loss from a mutual insurance association, as on an account stated, where only an unstamped policy had been issued, but a sufficient admission of liability appeared in the books of the association (*t*).

In another case a member of such an association was held by the Court of Appeal to be liable to pay calls (although the association issued no policies), on the ground that he had assented to the payment of the losses in respect of which the calls were made, and was therefore estopped from saying that the payments were improperly made (*u*).

Is the slip a policy under the Stamp Act, 1891?

37. The question now to be considered is, whether the provision of sect. 95 (2) of the Stamp Act, 1891 (re-enacting the similar provision of the Act of 1876), which enables policies of insurance to be stamped after execution on pay-

(*s*) As we have just seen, it was held by Blackburn, J., not to be a policy under the Act of 1867; and if this be a correct interpretation of that Act, it could not have been stamped under the Act of 1876 as a policy. See per Mathew, J., in Home Mar. Ins. Co. *v.* Smith, [1898] 1 Q. B. 829, 835.

(*t*) In re Teignmouth and General Mutual Shipping Association (1872), L. R. 14 Eq. 148. It may, however, be doubted whether an account stated in respect of a contract declared by statute to be invalid is binding. See Scadding *v.* Eyles (1846), 9 Q. B. 858; Cocking *v.* Ward (1845), 1 C. B. 858, per Tindal, C. J., p. 870; but see Barrow Mutual Ship Ins. Co. *v.* Ashburner (1885), 54 L. J. Q. B. 377, for the view taken by the Court of Appeal of the effect of the Stamp Act.

(*u*) Barrow Mutual Ship Insurance Co. *v.* Ashburner, *supra*. Cf. In re London Marine Ins. Association, Smith's Case (1869), L. R. 4 Ch. 611.

Sect. 37.

ment of a penalty, also enables a slip to be stamped so as to give it the force and effect of a policy.

By sect. 91 of the Stamp Act, 1891, the expression "policy of insurance" includes, for the purposes of the Act, every writing whereby any contract of insurance is made or agreed to be made, or is evidenced. Is a slip a writing of this kind? There can be no doubt that, according to the practice of those engaged in the business of marine insurance, the slip is the writing by which the contract is really made, although the subsequent issue of a formal policy is contemplated. But it is clear that the mere fact that the parties intend that an agreement which they have arrived at shall be subsequently embodied in a more formal document does not prevent the earlier agreement from constituting a binding engagement (*x*). *Primâ facie*, therefore, it does seem that on general principles the slip is a policy of insurance within the very wide definition of the Act. The consequences, however, of the adoption of this view, to which it must be conceded that the wording of the Act of Parliament gives great support, are curious; for it seems to follow that every broker who procures the initialing of a slip, and every underwriter who initials it, breaks the law and makes himself liable to a penalty.

Against the view that the slip is itself a policy, the decisions in the cases to which we have already referred may fairly be urged (*y*). The question in these cases was whether, where a slip had been duly followed by a formal stamped policy, the former might be looked at for the purpose of explaining the latter. The Act of 1867 (*z*), which was in force when these cases were decided, provided (sect. 9) that no policy should be given in evidence unless duly stamped;

(*x*) For the general principle see Rossiter *v.* Miller (1878), 3 App. Cas. 1124, and cases there cited.

(*y*) Ionides *v.* Pacific Fire, &c. Co. (1871), L. R. 6 Q. B. 674; (1872), 7 Q. B. 517; Cory *v.* Patton (1872), L. R. 7 Q. B. 304; (1874), 9 Q. B. 577; Lishman *v.* Northern Mar. Ins. Co. (1873), L. R. 8 C. P. 216; (1875), L. R. 10 C. P. 179.

(*z*) 30 Vict. c. 23.

Sect. 37.

and it defined a policy (sect. 4) as "any instrument whereby a contract or agreement for any sea insurance is made or entered into." In the earliest of these cases (*a*), as we have seen, the Court of Queen's Bench held that a slip is not a policy, and in all of the cases it was held that the slip could be given in evidence.

We have already quoted from the judgment of the Court of Queen's Bench, delivered by Blackburn, J., in the earliest of these cases (*b*). Strangely enough, the learned Judge agrees that the slip is a contract for marine insurance, but does not notice the comprehensive definition of a policy in sect. 4 of the Act then in force, which we have just cited (*c*). Whether or not, had the Court duly considered this definition, they would have held, in view of their opinion that the slip was a contract of marine insurance, that the slip was nevertheless in no sense of the word a policy capable of being, and liable to be, stamped, may perhaps be open to question. And what view would now be taken in a Court of last instance as to the effect of the provisions of the Stamp Act now in force, it is equally impossible to say.

Home Marine Insurance Co. *v.* Smith.

In 1898 the question arose whether a certain covering note initialed by the underwriters was a policy of insurance within the meaning of the Stamp Act, 1891, and could be stamped after execution. Mathew, J., held that it was a slip, and that a slip is not a policy of sea insurance, and therefore cannot be stamped (*d*). The chief ground on which the learned judge based his decision was that both the language of 30 Vict. c. 23, and the cases upon the Act show that a slip was not a policy within its meaning. The Court of Appeal, on the other hand, held that the covering note was a contract for sea insurance within the meaning of the

(*a*) Ionides *v.* Pacific Fire Ins. Co., *supra*.

(*b*) *Ante*, § 34.

(*c*) *Supra*.

(*d*) Home Mar. Ins. Co. *v.* Smith, [1898] 1 Q. B. 829. Cf. Thompson *v.* Adams (1889), 23 Q. B. D. 361, where Mathew, J., held that, as the statute did not apply, a slip initialed by a Lloyd's underwriter was a valid contract of fire insurance.

Sect. 37.

Stamp Act, 1891; though they affirmed the decision of Mathew, J., on another ground, viz., that it was invalid as a policy because it did not specify the "sum or sums insured" (*e*).

The Court were careful to limit their decision to the particular document, and to say nothing on the general question whether a slip can ever be stamped and sued upon. The decision of Mathew, J., on this point has, therefore, not been expressly overruled. It is, however, difficult to see how, in view of this decision of the Court of Appeal, it is now possible to contend that a cover note which specifies the sum insured, and in other respects conforms with the requirements of the Stamp Act, is not a valid policy (*f*). Further, it seems difficult to distinguish the covering note, either as regards its form or its object, from an ordinary slip. The result seems to follow that an ordinary slip is a policy, and that Mathew, J.'s, decision to the contrary has been impliedly overruled (*g*). The remarkable consequences, if this opinion be well founded, have already been pointed out. The language of sects. 21 and 89 of the Marine Insurance Act,

(*e*) [1898] 2 Q. B. 351.

(*f*) In Empress Ass. Corp. *v.* Bowring (1906), 11 Com. Cas. 107, however, Kennedy, J., held that an open cover slip was not a policy of sea insurance.

(*g*) In a note to this passage the question was raised in the seventh edition whether, if a slip can be considered a policy of insurance, as it can be stamped on payment of a penalty, it can ever properly be admitted in evidence when unstamped: Stamp Act, 1891, s. 14 (1). In Ionides *v.* Pacific Fire Ins. Co. (1871), L. R. 6 Q. B. 674, the Court of Queen's Bench seem clearly to have considered that if they had held the slip to be a policy, they would have been obliged to reject it as evidence. The Court of Exchequer Chamber (L. R. 7 Q. B. 517) only said that the slip, though a nullity as a contract, could be put in evidence for a collateral purpose. Now s. 21 of the Mar. Ins. Act, 1906, provides that an unstamped slip, or covering note, or other customary memorandum may be referred to for the purpose of showing when the contract was made, and s. 89 declares generally that "where there is a duly stamped policy, reference may be made, as heretofore, to the slip or covering note, in any legal proceeding." In view of the practice of half a century, during which slips have constantly been used in evidence, their admissibility, whatever be the answer to the question under discussion, is thus established.

Sect. 37.

1906 (*h*), may be cited in support of the view that a slip is not a contract of insurance, but only a memorandum of such contract. This, however, does not seem to be a conclusive answer to the contention that the slip is a writing whereby a contract of insurance is evidenced, within the definition of sect. 91 of the Stamp Act, and it is a matter of regret that the Legislature did not take advantage of the opportunity given by the passing of the Marine Insurance Act to settle this question (*i*).

Does the slip contain the requisites of a valid policy?

38. We have already seen that a policy of insurance is not valid, by reason of sect. 93 (3) of the Stamp Act, 1891, unless it specifies the particular risk or adventure (*k*), the names of the subscribers or underwriters, and the sum or sums insured. Further, by sect. 23 of the Marine Insurance Act, 1906, it must specify the name of the assured, or of someone effecting the policy on his behalf, the subject-matter insured and the risk insured against (*l*), the voyage or period of time covered by the insurance, the sums insured, and the names of the insurers; and by sect. 24 it must be signed by or on behalf of the insurers. Assuming that a slip can be treated as a policy, it will not be available unless it contains these

(*h*) See note (*g*), *supra*.

(*i*) In an article in the Law Quarterly Review for January, 1914, Mr. Arthur Cohen discusses the effect of the stamp laws, and expresses the view that a slip is not a policy, but an honorary and legally unenforceable agreement as to the terms of the policy which is subsequently to be delivered, and that it cannot therefore be stamped after execution. In arriving at this conclusion he is largely influenced by the fact that s. 97 of the Stamp Act, 1891 (see *ante*, § 33), would lead to results so manifestly unjust and absurd, if a slip were held to be a policy under s. 91, that such a construction must, if possible, be avoided.

(*k*) In Edwards *v.* Aberayron Mutual Ship Ins. Society (1875), 1 Q. B. D. 563, the Court of Queen's Bench seem to have held that "risk or adventure" includes the voyage or period of time covered by the insurance. There is no clear statement on the point whether the perils insured against are part of the "risk or adventure"; but art. 83 of the articles of association, which were held to form part of the policy, does indicate that certain perils were covered.

(*l*) As has already been pointed out, "risk" seems here to be used in a narrower sense than in the Stamp Act, and to denote the perils insured against.

Sect. 38.

particulars. There are, no doubt, slips or cover notes for floating policies in which some of these particulars are not sufficiently described; but it is submitted that the ordinary slip for a voyage or time policy contains an adequate specification of the necessary particulars (*m*).

The ordinary perils insured against are not usually specified in the slip; but there is authority for saying that these perils are not required to be expressly stated in a policy, as being the risk or adventure insured, within the meaning of the Stamp Act (*n*), and their subsequent insertion in the policy is not in consequence of any express agreement between the parties. An expert can say with certainty, from a mere perusal of the slip, what these perils and all the terms and conditions of the insurance are intended to be (*o*). It may be suggested that when the slip is only initialed the names of the underwriters do not sufficiently appear; but this is probably an ambiguity which can be explained by parol evidence. There can be little doubt that the initials are a sufficient signature within sect. 24 of the Marine Insurance Act, 1906 (*p*).

Agreements to issue policies.

39. An express agreement to issue a policy sometimes forms part of a cover note issued by a company. As by sect. 91 of the Stamp Act, 1891, the term "policy of insurance" includes every writing whereby any contract of insurance is agreed to be made, it seems that an agreement to issue a policy, if in writing, would be a policy within that Act, and that it could not be enforced unless it contained the particulars required by the Act. Moreover, any agreement to execute a policy is itself a contract of sea insurance within the meaning of sect. 93 (1) of the Act (*q*), and therefore, if verbal, is invalid under the Act (*r*).

(*m*) See Gow, Mar. Ins. 24.

(*n*) Edwards *v.* Aberayron, &c. Ins. Society, *supra*.

(*o*) A specimen of a slip for a Lloyd's policy is given in Appendix B.

(*p*) See 1 Smith's L. C. 12th ed. 374, note to Wain *v.* Walters.

(*q*) See Mallet *v.* Bateman (1865), L. R. 1 C. P. 163, that an agreement for guaranty is a guaranty within the meaning of the Statute of Frauds. See also In re London Mar. Ins. Association, Smith's Case (1869), L. R. 4 Ch. 611, per Selwyn, L. J., at p. 614, that a contract for a policy of insurance was within the terms of 35 Geo. 3, c. 63.

(*r*) Genforsikrings Aktieselskabet *v.* Da Costa, [1911] 1 K. B. 137.

(*s*) See Bhugwandass *v.* Netherlands India Ins. Co. (1888), 14 App. Cas. 83, a Rangoon case in which the Privy Council ordered specific performance of a contract to issue a policy in terms of an open cover note. Royal Exchange Ass. Co. *v.* Tod (1892), 8 Times L. R. 669, was an action before Romer, J., for specific performance of an agreement to issue a policy, in which the question at issue was what classes of voyages were covered by the slip. The claim was dismissed on the merits, and the point that an unstamped slip did not constitute an enforceable contract seems neither to have been taken by the defendant nor by the learned judge.

(*t*) 1 Phillips, s. 13. "It has long since been established that such a binding slip is itself a contract of insurance, and that a direct action at law will lie upon it, as well as a suit in equity": per Holt, D. J., in Kerr *v.* Union Mar. Ins. Co. (1903), 124 Fed. R. 835, 837.

(*u*) 1 Phillips, s. 13 *et seq*. Phillips details at length the cases on this subject; see also 1 Duer, 66, 109 *et seq*.

Sect. 39.

Apart from the provisions of the Stamp Act, there is no reason why specific performance of an agreement to issue a policy should not be ordered in a proper case (*s*).

The practice in the United States.

In the United States, where the restrictions of the revenue law do not interfere, and the great bulk of sea insurance business is carried on by companies, it is very generally the case that a memorandum of the contract, or an agreement to insure, is made out and subscribed before executing the policy: in such case "the usual practice," says Phillips, is, "to enter the agreement on the books of the insurance company, subscribed by some officer authorized to bind the company. Such a memorandum is binding on the company to make out a policy if the premium is paid in due time" (*t*).

Many questions have arisen, and very elaborate decisions taken place, in the United States as to what will amount to the consummation of an agreement to insure between parties in different places, communicating by letter or message (*u*).

Corrections and alterations in the policy at Common Law.

40. The policy is the only legal evidence of the terms of the contract of marine insurance; and, as such, will be avoided, according to one of the best-known rules of the

Sect. 40.

common law (*x*), as against any party, by any material alteration introduced into it, without his consent, after it has once been entered into by him (*y*).

Can a policy be rectified?

41. Whether, when there has been a mistake made in drawing up the policy, and its terms do not rightly express the true intention of the parties at the time they entered into the contract, there is power to rectify it, is a question on which there have been conflicting decisions. There can be no doubt that before the Stamp Act of 1795 the Courts of Equity did exercise such a power when, in the words of Story, J., the mistake was "made out by the clearest evidence, according to the understanding of both parties, and upon testimony entirely exact and satisfactory" (*z*).

Case in which a Court of Equity has exercised this power.

Thus, where the risk was described in the early part of a policy as a voyage "at and from Fort St. George," yet in that part of the policy which defines the duration of the risk, the words were "beginning the adventure from and immediately following the ship's departure from Fort St. George," and it was proved that the policy had been filled up from a label, signed by the agent of the assured and two of the directors of the company, in which the risk was described to be "at and from" Fort St. George, and it was not disputed by the underwriters that the label expressed the intention of both parties, Lord Hardwicke held that the policy should be considered one "at and from" (*a*).

(*x*) Master *v.* Miller (1797), 4 T. R. 320; 1 Smith's L. C. 12th ed. 803; Fairlie *v.* Christie (1817), 7 Taunt. 416; Davidson *v.* Cooper (1843), 11 M. & W. 778, 802; in error (1844), 13 M. & W. 343; Suffell *v.* Bank of England (1882), 9 Q. B. D. 555—C. A. See the cases on policies, *post*, §§ 43, 44.

(*y*) There is a questionable ruling of Lord Ellenborough's, that (although the contract of each underwriter is separate) the policy is to be deemed to be still *in fieri*, still incomplete, until the whole amount of the insurance has been subscribed: Robinson *v.* Tobin (1816), 1 Stark. 336. The point decided in that case was one of pleading.

(*z*) Andrews *v.* Essex Fire and Marine Ins. Co. (1822), 3 Mason's Rep. 6.

(*a*) Motteux *v.* London Ass. Co. (1739), 1 Atkyns, 545. Phillips (vol. i. s. 117) remarks that the policy itself appears to have authorized such a construction, without rectification.

Sect. 41.

Case in which the Court refused to exercise this power.

In another case, where rectification of a policy was sought, but the evidence appeared to be contradictory, Lord Hardwicke dismissed the bill, at the same time stating that while the Court of Chancery had jurisdiction to relieve in respect of a plain mistake in contracts, if reduced into writing contrary to the intention of the parties, it would only exert such power upon being satisfied by the strongest possible evidence that a mistake had really been made (*b*).

Mackenzie *v.* Coulson.

In 1869, in Mackenzie *v.* Coulson (*c*), a bill was filed by underwriters for the rectification of a policy, for the reason that the clause "warranted free of particular average" had by mistake been omitted, and they produced the slip in which the clause appeared. But James, V.-C., dismissed the bill on the ground that there can be no rectification, unless there has been an actual concluded contract antecedent to the instrument which it is sought to rectify, and that the slip did not constitute a contract (*d*).

On the other hand, Barnes, J., in a subsequent case ordered the rectification of a policy which was not in accordance with the slip (*e*); and, in a later case, in which Mackenzie *v.* Coulson was cited, Mathew, J., held that he had power to order the rectification of a policy, though in the absence of clear evidence of a common mistake he refused to do so (*f*).

(*b*) Henkle *v.* Royal Exch. Ass. (1749), 1 Ves. Sen. 317.

(*c*) (1869), L. R. 8 Eq. 368.

(*d*) The principle of this decision is approved by Sir Edward Fry; Specific Performance, s. 791. S. 21 of the Mar. Ins. Act, 1906, declares that "a contract of marine insurance is deemed to be concluded when the proposal of the assured is accepted by the insurer, whether the policy be then issued or not," and in the ordinary course of business the insurer signifies his acceptance by initialing the slip. But although the statement in s. 21 is general in its terms, it seems to be made with reference to the provisions of ss. 18 and 20.

(*e*) The Aikshaw (1893), 9 T. L. R. 605. The report does not show whether the point was taken that there was no power to rectify.

(*f*) Spalding *v.* Crocker (1897), 2 Com. Cas. 189. In Empress Ass. Corp. *v.* Bowring (1906), 11 Com. Cas. 107, Kennedy, J., although he refused to rectify the policies, obviously considered that he had power to rectify them after ascertaining the intention of the parties from the slip.

Sect. 41.

In another case, Bigham, J., rectified a policy by inserting a clause which was not in the cover note, but was contained in an earlier policy, with which the judge found that the policy in dispute was intended to be identical in terms; and the Court of Appeal decided the case on the construction of the clause which the learned judge had inserted (*g*).

Thus the weight of authority supports the view that, notwithstanding the provisions of the Stamp Act, a policy can be rectified, and, with the exception of James, V.-C., the judges have referred to the slip or cover note in order to ascertain the intention of the parties. As sect. 89 of the Marine Insurance Act declares that "where there is a duly stamped policy, reference may be made, as heretofore, to the slip or covering note, in any legal proceeding," it now seems impossible in an action for rectification to reject the evidence of the slip (*h*).

Correction of a mistake in declaring interest.

The contract of the underwriters is complete in fact and in form when they have signed the policy; but a declaration of interest to be afterwards made stands on a different footing to a contract; it is the mere exercise of a power conferred on the insured, and need not of necessity be in writing; if, therefore, a broker has committed a blunder in making this declaration, as where he has declared goods by the wrong ship, this blunder may be rectified by parol evidence, either with or without the assent of the underwriters (*i*).

(*g*) North Queensland Ins. Co. *v.* Rhenish Westphalian Ins. Co., *coram* Bigham, J., 21st February, 1901, C. A., 21st March, 1902, unreported. No question was raised, either at the trial or on appeal, as to the power of the judge to rectify the policy. In Emanuel *v.* Weir (1914), 30 T. L. R. 518, Bailhache, J., rectified a policy, to make it agree with the usual form covered by the slip.

(*h*) If, indeed, the view that the ordinary slip is a valid policy be correct, the ground of James, V.-C.'s, decision no longer exists, and the only question that can arise when it is sought to rectify a policy by such a slip is whether the slip can be given in evidence without being stamped. On that question s. 89 of the Mar. Ins. Act, 1906, seems decisive.

(*i*) Mar. Ins. Act, 1906, s. 29; Robinson *v.* Touray (1811), 3 Camp. 158; *S. C.*, 1 M. & S. 217. See the usage stated in Stephens *v.* Australasian Ins. Co. (1872), L. R. 8 C. P. 18, and other cases which are noticed in Chap. IX. Part I., where such declarations are discussed.

Sect. 42.

Corrections by consent.

42. The parties themselves may, by consent, introduce any alterations into the policy, even after it is underwritten, whether by an erasure, an interlineation (*k*), or an addition in a blank space; and such alterations, if properly signed, and not infringing the provisions of the Stamp Act, form as valid a contract between the parties as the terms of the original policy.

Alterations must be in writing,

As, however, no contract can have the effect of varying or altering another, unless it be of as high a nature as the instrument upon which it so professes to operate, these alterations must be in writing, either in a separate instrument referring to the original policy, or by memorandum on the face or back of the policy; and, in either case, subscribed by or, as is most usual in practice, signed by the initials of the underwriters who are intended to be bound by them (*l*).

initialed by the parties.

The only ground upon which a written alteration of this kind can be binding upon any of the parties to the original policy is his assent thereto signified by his signature; although, therefore, all the rest of the underwriters may have signed such an indorsement, yet if only one have not done so, he is not bound by the policy as altered (*m*).

General rule.

The general rule, then, is, that any material alteration of the policy by the assured avoids the policy, except as to those underwriters who have consented to it in writing by signing their initials to the memorandum in which the alteration is specified, or to the interlineation, erasure, or addition by which it is effected (*n*).

(*k*) Striking a pen across words is a cancelling of the words: Fairlie *v.* Christie (1817), 7 Taunt. 416.

Sect. 43.

What are material alterations.

43. The question has generally been, What constitutes a material alteration? To use the language of Judge Duer, does it change the sense, or affect in any degree the substance, of the contract?

Alteration of destination.

Where a ship was insured from Virginia to Rotterdam, with leave to call at a port in England, and the assured, after the policy was underwritten, by consent of some of the underwriters (indorsed on the policy), altered her destination from Rotterdam to Hull; this was held to avoid the policy as to all the underwriters, except those who had signed the indorsement (*o*).

The insertion of a subject of insurance.

Altering time of sailing.

Adding alternative *terminus ad quem*.

So the insertion of a specific subject of insurance in a policy which had been executed in blank (*p*); the alteration of the specified day in a warranty as to the time of sailing (*q*); the alteration of a policy "from Colmar to Portsmouth" into a policy "from Colmar to Portsmouth, or Weymouth" (*r*), were held to be material alterations which prevented the assured from recovering against those underwriters who had not subscribed the alteration.

Inserting liberty to call.

So, where a ship was insured from Cuba to Liverpool, with liberty to touch and stay at and discharge and take in at any ports or places whatsoever:—after the subscription of the policy a leave "to call off Jamaica" was inserted in the body of it. The Court held, that, as Jamaica was out of the direct course of the voyage insured, this was a material alteration which avoided the policy as to an underwriter who had not signed it (*s*).

Immaterial alterations.

44. On the other hand, where the alteration is not material, it will not vitiate the policy; but in such case, if some of the underwriters have consented to the alteration, after the policy is executed, and others refuse, those who

(*o*) Laird *v.* Robertson (1791), 4 Brown's Parl. Cases, 488.

(*s*) Forshaw *v.* Chabert (1821), 3 Brod. & B. 158.

Sect. 44.

consent make the altered instrument their own; but those who do not, remain liable on their original contract (*t*).

The following alterations have been considered not to be material. A policy was originally filled up, "on the Three Sisters, at and from Cadiz and Seville to Liverpool": after the policy was underwritten the broker added the words "Tres Hermanas" (Spanish for "the Three Sisters") and also the words "both or either" to the description of the voyage: Lord Ellenborough said that, "as the English name, the Three Sisters, did not amount to a warranty that the ship was an English ship, the policy was not avoided by merely inserting the equivalent Spanish name of 'Tres Hermanas.'" As to the words "both or either," his Lordship said, that "as the ship, as originally insured, had the option of going both to Seville and Cadiz or not, as it might suit the exigencies of the adventure, these words did not give any additional liberty, and therefore did not affect the legal operation of the instrument" (*u*).

"Tres Hermanas," inserted after "The Three Sisters," as the Spanish name of the ship.

A ship was insured from Liverpool to ports in Africa, "during her stay there" and back to the United Kingdom, with liberty to touch and stay at any places wheresoever, and to sell, barter, and exchange, and load, unload, or reload goods at any of the places she might call at. The broker, after the subscription of the policy, fearing that the words employed might not be sufficiently extensive to include a trading, added the words "and trade" after the words "during her stay." The defendant, however, when asked to initial the alteration, refused to do so, alleging that he never underwrote trading policies to Africa. It was contended that, as the defendant had expressly refused to underwrite a trading policy to Africa, the alteration in question must be deemed material; but the Court were clearly of opinion that it was not so, because the plaintiff had, upon the

"To trade," inserted in a liberty "to sell, barter, and exchange."

(*t*) Per Richardson, J., in Sanderson *v.* M'Callum (1819), 4 J. B. Moore, 5.
(*u*) Clapham *v.* Cologan (1813), 3 Camp. 382.

Sect. 44.

true construction of the policy as it originally stood, liberty to trade (*x*).

Material alterations on the face,

45. There seems no doubt that a material alteration, unassented to, will avoid the policy wherever made on the face thereof, *i.e.*, in the margin as much as in the body of the instrument: (in fact, in Fairlie *v.* Christie, cited above, the alteration was in the margin). With regard to memoranda on the back of the policy, and not signed by any of the underwriters, as they could not generally be operative, Judge Duer (no doubt with reason) thinks they would not avoid the policy, even if embodying material alterations (*y*).

and on the back of the policy.

Alterations in relation to the Stamp Act.

46. The cases hitherto considered were decided upon the principles of the common law. We will now discuss the effect of the stamp laws upon the same subject.

S. 96 of 54 & 55 Vict. c. 39.

The Stamp Act, 1891, s. 96, in effect provides, that even where the underwriter has consented to the alteration in the policy, the altered policy cannot be enforced without a fresh stamp (*z*) unless the alteration comply with all the requisites specified in the clause. The clause is as follows: "Nothing in this Act shall prohibit the making of any alteration which may lawfully be made in the terms and conditions of any policy of sea-insurance after the policy has been underwritten; provided that the alteration be made before notice of the determination of the risk originally insured, and that it do not prolong the time covered by the insurance thereby made

(*x*) Sanderson *v.* Symonds (1819), 1 Brod. & Bing. 426; Sanderson *v.* M'Callum (1819), 4 J. B. Moore, 5, S. P. See the remarks of Duer, vol. i. pp. 78—81, on the general principle involved in the cases, and pp. 142—146 for illustrations, including some American authorities: see also 1 Phillips, s. 109 *et seq.*

(*y*) 1 Duer, 82; see also Henderson *v.* Stevenson (1875), L. R. 2 H. of L. (Sc.) 470. Duer also thinks that the addition of a new clause will not avoid the policy, if it has a new date affixed to it, subsequent to that of the policy, since the invalidity of the alteration, when not signed by the insurers, is then apparent on its face, and hence the possibility of fraud is excluded: 1 Duer, 82.

(*z*) See *ante*, § 32, as to stamping a policy after execution, on payment of a penalty.

Sect. 46.

beyond the period of six months in the case of a policy made for a less period than six months, or beyond the period of twelve months in the case of a policy made for a greater period than six months, and that the articles insured remain the property of the same person or persons, and that no additional or further sum be insured by reason or means of the alteration."

Effect of the provision in this section.

This section (which ought to have a liberal construction (*a*)) does not legalize any alteration in policies, which would have been illegal at common law, without the assent of the underwriter; but even though the underwriter have assented to it, the policy if not re-stamped cannot be enforced, unless the alteration comply with all the requisites of this section.

Cases on the construction of the section.

47. From the cases on the similarly worded section of 35 Geo. 3, c. 63 (s. 13), it appears that by the words "before notice of the determination of the risk originally insured" is meant that determination of the risk which is caused "by the loss, or safe arrival, of the thing insured, or by the final end and conclusion of the voyage" (*b*).

Extending time of sailing.

Hence the determination of the risk by non-compliance with a warranty to sail before a given day is not within the meaning of this term. Thus, where a policy "on goods to be shipped on board ship or ships which should sail between the 1st of October, 1799, and the 1st of June, 1800," was altered by a memorandum extending the time of sailing until the 1st of August, 1800, after the original time for sailing had expired, but before the loss happened, Lord Ellenborough and the Court of King's Bench held that this was an alteration made before notice of the determination of the risk (*c*).

Change of terminus.

Where a ship was insured "from Stockholm to Swine-

(*a*) Per Lord Tenterden in Brockelbank *v.* Sugrue (1830), 1 B. & Ad. 88, on the similar provision of 35 Geo. 3, c. 63.

(*b*) Per Lord Ellenborough in Kensington *v.* Inglis (1807), 8 East, 291.

(*c*) Kensington *v.* Inglis (1807), 8 East, 273; see also Hubbard *v.* Jackson (1811), 4 Taunt. 169; Ridsdale *v.* Shedden (1814), 4 Camp. 107.

Sect. 47.

munde," and while she was lying at Wisby for repairs, as it was doubtful whether the enemy might not be at Swinemunde, the underwriters consented to alter the policy by adding the words "Kœnigsberg or Memel" after the word "Swinemunde," the Court held that the alteration was made while there was only an intention to determine the risk originally insured, and before its actual determination (*d*). If, indeed, the change of terminus were such as to involve the entire substitution of a new adventure for that originally insured, the case would, no doubt, be different (*e*).

A release from a warranty to sail before a certain day which has the effect of changing a summer risk to a winter risk is not the substitution of a new adventure. It is, therefore, not a determination of the risk, but only a change in the conditions of the policy, which may be made without a fresh stamp (*f*).

Condition that the thing insured shall remain the property of the same person.

48. Another of the conditions on which an alteration may be made in the terms of the policy is that "the articles insured shall remain the property of the same person or persons."

"The words, the thing insured shall remain the property, &c., appear to us," says Lord Ellenborough, "properly to require and apply to one identical and continued subject-matter of insurance, . . . and to be ill-suited to a case where the thing last insured is not only in fact, but in name and in kind (as a specific subject of insurance), essentially different from the thing first insured" (*g*).

"Ship and outfit" altered to "ship and goods."

Hence where a policy was effected "at and from London to the South Seas, during the ship's stay and fishing there, and at and from thence to Great Britain," "on ship and outfit"; and then, with the consent of the underwriters, after the subscription of the policy, but before notice of loss,

(*d*) Ramstrom *v.* Bell (1816), 5 M. & S. 267; see also Brockelbank *v.* Sugrue (1830), 1 B. & Ad. 81.

(*f*) Hubbard *v.* Jackson (1811), 4 Taunt. 169.

(*g*) Per Lord Ellenborough in Hill *v.* Patten (1807), 8 East, 375.

Sect. 48.

was altered into a policy "on ship and goods"; it was held, that the policy after this alteration required a new stamp, because the outfit originally insured was a totally different kind of thing, on a whaling voyage, from "goods" to which the altered policy was made to apply (*h*).

The subject of insurance need not continue the same specific thing, only the same denomination of thing.

It must, however, be borne in mind, that the above decision is confined to cases where, by the alteration, the kind or description of the original subject of insurance is wholly changed: it is not at all intended that the subject of insurance should, throughout the voyage, continue the same specific thing, but only the same denomination of thing.

Thus, where an insurance was effected "on goods, which should first sail on board any ship or ships sailing between the 1st of October, 1799, to the 1st of June, 1800, to the amount of 45,000*l.*," it was held, that an alteration extending the time of sailing from the 1st of June to the 1st of August did not require a new stamp; for it was a mere alteration in the terms and conditions of the policy, and not in the subject-matter of the insurance; for, *non constat,* that the goods shipped on board before the altered time of sailing were different goods from those intended to be shipped on board originally (*i*). So, where a policy was "on hemp, marked R.," it was held that a memorandum withdrawing the mark did not make a fresh stamp necessary (*k*).

Memorandum waiving implied warranty of seaworthiness.

49. We have already seen that an express warranty may be altered without a fresh stamp (*l*); it has also been decided that a memorandum by which the underwriter consents to waive the implied warranty that the ship was seaworthy at the time of sailing is not such an alteration of the policy as to require a fresh stamp, for such consent prevents the inference which would otherwise arise, that the unseaworthiness was a determination of the risk (*m*).

(*h*) Hill *v.* Patten (1807), 8 East, 373.

(*i*) Kensington *v.* Inglis (1807), 8 East, 273.

(*k*) Hubbard *v.* Jackson (1811), 4 Taunt. 169.

(*l*) *Ante,* § 47.

(*m*) Weir *v.* Aberdein (1820), 2 B. & Ald. 320, as explained in

Sect. 50.

Correction of a mistake.

50. Even where an alteration is not within the exemption created by sect. 96 of the Stamp Act, it will not require a fresh stamp if it be merely the correction of a mistake. There is a wide difference, as regards the stamp, between cases in which the alteration is such a correction only, and those in which it is in fact intended to make a new instrument: the one is an alteration of the contract for the mere purpose of making it express in terms what both parties intended it should express at the time of making it; the other is an alteration for the purpose of giving it a different meaning and extent to that which both parties intended it to bear at the moment of its execution. It is for this reason that alterations of the first class require no fresh stamp, while those of the second do (*n*).

Thus, in a case where, the assured having no interest in the ship, but only in the cargo, the words "on ship," which had been inserted by pure mistake, were struck out, and the words "on goods as interest may appear" substituted in their room, it was held, that the memorandum empowering this alteration required no new stamp (*o*). This case is distinguished from that of Hill *v.* Patten on the ground that there the assured was owner of the ship, and, as such, interested in the outfit: and also, that there the intention really was to alter the nature of the subject-matter; whereas here the intention only was to correct an error, and put the policy into the state originally intended.

Effect of not re-stamping on the original instrument.

51. Where no rights or liabilities can be enforced under the altered instrument by reason of the stamp laws, the rights and liabilities which existed under the original instrument are nevertheless destroyed by the alteration (*p*).

Quebec Marine Ins. Co. *v.* Commercial Bank of Canada (1870), L. R. 3 P. C. 234. (*n*) Cole *v.* Parkin (1810), 12 East, 471.

(*o*) Sawtell *v.* Loudon (1814), 5 Taunt. 359; see also Robinson *v.* Touray (1811), 3 Camp. 158; 1 M. & S. 217. In that case the policy was on goods by "ship or ships" to be thereafter declared, and the broker by mistake made declaration of a wrong ship. It was held that a memorandum rectifying this mistake required no fresh stamp.

(*p*) Per Bayley, J., in Reed *v.* Deere (1827), 7 B. & C. 264.

Sect. 51.

After the Court, in Hill *v.* Patten, had decided that the alteration of "outfits" into "goods" was one which could not be made without a fresh stamp, and therefore that the plaintiff could not recover on the policy as altered, the plaintiff brought an action upon the policy in its original form; but the Court held he could not recover on that either (*q*). Lord Ellenborough said, "that the altered policy, though ineffectual as an instrument to sue on, was effectual to do away with the former agreement, which was thereby abandoned" (*r*); and Le Blanc, J., asks "how the Court can enforce an agreement, after the parties themselves, upon the very face of the same instrument, have declared that it is not their agreement, and have actually written another and a different agreement in the place of it" (*s*). It would seem to make no difference whether the memorandum embodying the alteration is written on the back or the face of the original policy (*t*), provided it be signed by the underwriter.

Forfeiture of policy.

52. The assured, after acceptance of a valid policy, may forfeit all benefit under it; for instance, by breach or non-performance of one of the warranties expressed or implied in the instrument itself, or of a condition precedent under which the instrument was granted (*u*), or by such an alteration of the instrument as at common law or by virtue of the Stamp Acts renders it a nullity, or by such illegality affecting the assured adventure as makes it incapable of protection under the sanction of the law.

Waiver of forfeiture.

We have seen that a forfeiture for breach of a warranty may be waived by a memorandum endorsed on the policy and signed by the underwriter (*x*). But when a policy was vitiated by concealment of a material fact on the part of the

(*q*) (1807), 1 Camp. 72; French *v.* Patten (1808), 9 East, 351.

(*x*) Weir *v.* Aberdein, *ante*, § 49.

Sect. 52.

assured's agent, and afterwards the underwriter, upon learning what had happened, wrote to the plaintiff's agents in these words: "Understanding that the steamer B. has been on shore, I do not consider that my risk commences until the vessel has been surveyed and repaired"—this letter was held not to be a waiver of the breach of the warranty (*y*).

Continuing or renewing policy.

53. Subject to the provisions of the Stamp Act being complied with, there is no reason why a time policy should not be expressed to continue or to be renewable for a further period of time, unless determined by notice (*z*).

Rescission of contract.

54. The rescission of the contract must be the act of both parties to it, the assured and the insurer. The insurance broker, acting for the former, has no implied authority, merely by virtue of his capacity as such agent, to demand or consent to the cancellation of the policy, even though it had been left in his hands (*a*). But the conduct of the principals may be so ambiguous that their intention may become a question of law for the Court upon the construction of their written communications, or a question of fact for a jury upon consideration of what was said and done between them (*b*).

A vessel insured by the defendant, an insurance broker, against fire for twelve months, ending the 29th of July, arrived at Liverpool on the 12th of April, and the assured wrote a letter to the defendant proposing a cancellation of the policy and return of premium, "say from the 12th of April." The other sent for the policy "to put forward

(*y*) Russell *v.* Thornton (1859), 4 H. & N. 788; 29 L. J. Ex. 9; in error (1860), 6 H. & N. 140; 30 L. J. Ex. 69. It was also held that the letter could not create a fresh contract, being at the utmost a mere unaccepted proposal.

(*z*) A policy cannot, of course, be prolonged, except by a continuation clause, so as to cover a period of more than one year. Stamp Act, 1891, ss. 93 (2), 96; Finance Act, 1901, s. 11. See Charlesworth *v.* Faber (1900), 5 Com. Cas. 408; *ante*, § 31; and *post*, § 440.

Sect. 54.

returns for cancellation," and received it. On the 21st of April the defendant cancelled it on the terms of returning premium from the 30th April to the 30th July, alleging a Liverpool custom not to reckon broken months. The ship was burnt on the 22nd April, and that same day the assured wrote a letter, withdrawing his proposal to cancel, as he had then received no answer; and whether, under these circumstances, there had been a cancellation, and on what terms, was the question. It was held that the defendant, by sending for the policy on receipt of the proposal to cancel, must be taken to have acceded to the terms proposed, and to have cancelled on those terms. The plaintiff therefore lost the insurance, and recovered a return of premium for the period between the 12th and 30th April (*c*).

A policy on ship from Liverpool to Philadelphia and United Kingdom was altered by memorandum substituting Baltimore for Philadelphia, and was afterwards further altered by this memorandum: "In consideration of an additional premium, it is hereby agreed to allow the vessel to go to Antwerp." In this state of the policy, the ship arrived at Antwerp and was ordered to Leith, but was lost on her way thither. It was held that she was uninsured at the time of the loss, as the effect of the second memorandum was to terminate the risk at Antwerp (*d*).

CHAPTER III.

OF THE CONSTRUCTION OF SEA-POLICIES.

	SECT.
Evidence of Usage of Trade, &c.	55—61
Usage must be notorious, &c.	62—66
Explanation of Ambiguities in Contract	67—72
Written and Printed Clauses	73, 74
Inexplicable Ambiguities	75

The principles of construction applicable to sea-policies.

55. THE principles which govern the construction of sea-policies do not vary from those applicable to all other mercantile instruments.

"*Primâ facie*," said Lord Sumner, delivering the judgment of the Privy Council in a recent case (*a*), "all the words which the policy contains (except parts of the general form inapplicable to the particular transaction) are words of contract." On the question, however, whether printed clauses in a marine policy which relate to a subject-matter not covered by the insurance ought to be taken into consideration in construing the contract, there was a difference of opinion in a later case in the House of Lords (*b*). As we have already seen (*c*), the ordinary English marine policy has been in use for a great number of years, and was originally framed for an insurance of ship and cargo, belonging to the same assured, by the same contract. It has, however, always been the practice to adapt it to the insurance of any subject-matter which it is desired to insure, without striking out the printed clauses which refer to a different subject-matter. In the case in question a ship was insured for a voyage ending at her "final port," the words "upon the goods and merchandises until the same be there discharged

(*a*) Yorkshire Ins. Co. *v.* Campbell, [1917] A. C. at p. 224 (P. C.).
(*b*) Marten *v.* Vestey, [1920] A. C. 307.
(*c*) *Ante*, § 10.

and safely landed" being, according to the usual practice, left in the policy. It was held by Lord Haldane and Lord Atkinson that these words ought not to be disregarded, and that they indicated an intention to make the voyage insured terminate with the discharge of the cargo. Lord Dunedin, on the other hand, dissented strongly from the view that in construing an insurance on the ship a printed clause which only referred to the duration of the risk on goods ought to be taken into consideration. "I venture to say," his Lordship observed, "that no underwriter who has undertaken a risk on ship alone by reason of a voyage policy ever dreams that his undertaking is to be read in the light of what the printed form says about goods. After all, the question is what was the contract made by the parties, and it is our business to decide that and not to form rules as to how commercial men ought to conduct their business. And in face of the universal practice of underwriters to use the form in this way, it is, in my opinion, untrue to say that they have contracted that an insurance of ship alone shall be interpreted in the light of printed words which are appropriate only when the insurance is not effected on ship alone but on goods" (*d*).

The language of sea-policies is frequently indeterminate, ambiguous, or technical. When this is so, parol evidence, as in the case of other contracts, is admissible to explain it (*e*).

(*d*) [1920] A. C. at p. 315. Cf. per Lord Penzance in Dudgeon *v.* Pembroke (1877), 2 App. Cas. at p. 293. See also the cases on the commencement of the risk on a ship "at and from" the *terminus a quo*, *post*, §§ 475 *et seq.*, which seem to have been determined without any reference to the clause by which the risk on goods begins "from the loading thereof."

(*e*) Thus where the description of the voyage insured was ambiguous, evidence that the rate of premium was the same, whether the wider or narrower meaning was given to the words, was admitted in Preston *v.* Greenwood (1784), 4 Dougl. 28. In Oceanic SS. Co. *v.* Faber (1907), 13 Com. Cas. 28, Buckley, L. J., took the smallness of the premium into consideration in determining the construction of the Inchmaree clause (see § 861 a) in a policy on port risks. In Otago Farmers' Co-op. Ass. *v.* Thompson, [1910] 2 K. B. 145, the policy contained an ambiguously worded warranty; and Hamilton, J., seems to have doubted the admissi-

Sect. 55.

The language of sea-policies is also frequently incomplete as an expression of the meaning of the parties, because it is employed, and is understood so to be, with reference to the usages of trade (*f*): in this latter class of cases (and they are very numerous) the meaning of the contract embodied in a sea-policy may, nay must, be explained by parol evidence of those usages, a knowledge of which in such cases forms the only available key to the real intention of the parties (*g*).

Evidence of usage.

In this class of cases, even where the language of the policy is on the face of it unambiguous, yet, as without reference to the usage, the mere terms employed would not be a complete expression of the mind and intention of the contracting parties, evidence of usage, if not repugnant to the express terms of the instrument, is always admitted to show what the true nature of the contract, as mutually understood by the parties, really was.

In such cases, in the language of Lord Mansfield, "the question is, whether the usage has not explained the generality of the words. If it has, every man who contracts under a usage does it as if the point of usage were inserted in the contract in terms" (*h*).

bility of evidence (given without objection) that the rate of premium usually charged for such an insurance as, according to the contention of the assured, was effected by the policy was much higher than the premium actually charged.

(*f*) *I.e.*, as Judge Duer very correctly expresses it, "not of trade in the largest sense of the word, but of that export and import trade which is conducted by navigation." 1 Duer, 180.

(*g*) Mason *v.* Skurray (1780), 1 Marsh, 226; 1 Park, 253.

(*h*) The following is Arnould's note on this passage (see 2nd ed. of this work, p. 70):—"It is to these cases (viz., where the terms of the "policy are employed with reference to the usages of trade, and incom- "plete as an expression of the meaning of the parties without such "reference) that we must apply the strong expressions of Lord Mansfield "and some other judges as to the force of usage in interpreting policies. "Thus, in Preston *v.* Greenwood (1784), 4 Dougl. 28, Lord Mansfield "says: 'Usage is always considered in policies of insurance, even where "'the words are plain'; and Buller, J., in Long *v.* Allen, *ibid.* 276: "'In policies of insurance in particular, a great latitude of construction "'as to usage has been admitted'; and again (which is the strongest "expression on the subject to be found in the books): 'Usage not only "'explains but controls the policy.' Judge Duer considers Buller, J.,

Sect. 55.

Provisions of Marine Insurance Act as to effect of usage.

The Marine Insurance Act, 1906, expressly recognizes the effect of usage upon the construction of the contract. By sect. 87:—

> (1) Where any right, duty, or liability would arise under a contract of marine insurance by implication of law, it may be negatived or varied by express agreement, or by usage, if the usage be such as to bind both parties to the contract.
>
> (2) The provisions of this section extend to any right, duty, or liability declared by this Act which may be lawfully modified by agreement.

Former notion as to construction of policies.

56. From the frequency, probably, of such cases as those just referred to in this branch of the law, a notion appears at one time to have prevailed (favoured unquestionably by certain reported expressions of the earlier judges) that sea-policies were not amenable to the rules of construction generally applicable to all other mercantile contracts, but were to be interpreted so as to carry out the assumed intentions of the parties, even though repugnant to the terms in which their intentions purported to be expressed on the face of the instrument itself.

"strictly accurate in the use of the word control, which, as he truly states, "does not necessarily imply to contradict: 'The distinction made by the "'learned judge between explaining and controlling really does exist. "'Where the words to be interpreted are indeterminate or ambiguous, "'the usage explains them; but when they convey a definite meaning that "'the Court would be bound to adopt, or their construction has been "'settled by law, the usage controls them; and in these cases it does set "'aside what, judging only from the terms of the policy or the rule of "'law, was the plain intention of the parties; but, in controlling, the "'usage does not contradict the words, it merely varies, by restraining "'or enlarging, their application.' Duer, vol. i. pp. 245, 246."

This note is retained by the present editors because of the high authority from which it emanates. It is, however, impossible not to feel the force of Phillips' criticisms (in s. 133) on Duer's explanation of the word "control." If the word means no more than to "interpret," or "explain," then clearly a usage which "controls" the policy does not necessarily contradict it; but understanding the word in the sense in which Judge Duer evidently understood it, it is difficult to see how a usage which "varies, by restraining or enlarging," the application of words does not *pro tanto* contradict them.

Sect. 56.

Usage cannot vary express terms of policy.

This notion is now discarded as erroneous (*i*). Parol evidence, whether of usage or otherwise, can in no case be admitted to contradict or materially vary the plain and express terms of a sea-policy (*k*); it can only be admitted either to explain those terms where technical or ambiguous, or to modify and add to them where they are plainly employed with reference to some usage of trade, and without such reference would, accordingly, be incomplete as an expression of the mind of the parties contracting: in such cases the Courts may resort to any means of interpreting the policy so as to effectuate the real intention of the parties, which may be supplied either by the rules of the common law, the general usages of trade, or the particular circumstances of the case (*l*).

Rule as laid down by Lord Ellenborough in Robertson *v.* French.

"The same rule of construction," said Lord Ellenborough, "which applies to other instruments applies equally to this, viz., that it is to be construed according to the sense and

(*i*) Weston *v.* Emes (1808), 1 Taunt. 115.

(*k*) The case, however, of Universo Ins. Co. of Milan *v.* The Merchants' Mar. Ins. Co., [1897] 1 Q. B. 205; 2 Q. B. 93, is difficult to reconcile with this rule.

(*l*) See 1 Emerigon, c. i. s. 5, p. 17; and c. ii. pp. 55, 56; see the judgment of Lord Denman in Trueman *v.* Loder (1840), 11 A. & E. 589; and that of Story, J., in The Schooner Reeside, 2 Sumn. 567; and the remarks of Mathew, L. J., in Ellinger *v.* Mutual Life Ins. Co. of New York (1904), 10 Com. Cas. 22, 30; *S. C.*, [1905] 1 K. B. 31; see also the admirable remarks of Mr. Chancellor Kent (Com. iii. p. 260, n. (*f*)); and especially the two very able and elaborate chapters of Judge Duer (1 Duer, 158—311). "The meaning of the rule excluding parol evidence is, that such evidence shall never be received to show the intention of the parties to have been directly opposite to that which their language expresses, or substantially different from any meaning which the words they have used upon any construction will admit or convey; but there are cases in which the language of a policy, in entire consistency with the rules of law, may be interpreted in different senses, or with a modification which, though not express, is implied: in such cases parol evidence may be admitted to determine the construction that, following the intention, ought to be adopted. The admission of such evidence varies the construction of the contract, but does not contradict or vary the agreement embodied in the policy; on the contrary, it establishes its true meaning." 1 Duer, 176, 177.

The present editors, while retaining this note, conceive that their criticisms in note (*h*), *supra*, apply also, to some extent at least, here.

Sect. 56.

meaning, as collected in the first place from the terms used in it, which terms are to be understood in their plain, ordinary, and popular sense, unless they have generally, in respect to the subject-matter, as by the known usage of trade or the like, acquired a peculiar sense, distinct from the popular sense of the same words, or unless the context evidently points out that they must in the particular instance, and in order to effectuate the immediate intention of the parties, be understood in some other special and peculiar sense" (*m*).

"A contract of insurance," said Erle, C. J., "is a commercial instrument, and is to be construed, like all others, so as to give effect to the intention of the parties, and that intention is to be gathered from the words of the instrument interpreted by the surrounding circumstances. If the words are clear, the proper effect is to be given to them; if the words are capable of more interpretations than one, the judge, with the aid of the jury and of the surrounding circumstances, is to put the true construction upon the contract" (*n*).

57. The following are some of the more prominent rules of construction that appear to have been acted upon by our Courts in the interpretation of sea-policies.

I. Every well-settled usage of trade is *primâ facie* part of the policy.

I. Every usage of a particular branch of maritime trade which is so well settled, or so generally known, that all persons engaged in that trade may fairly be taken as contracting with reference to it, is considered to form part of every sea-policy, designed to protect risks in such trade, unless the express terms of the policy decisively repel the inference (*o*). Nor need any evidence be given in such cases that the usage has

(*m*) Robertson *v.* French (1803), 4 East, 135. These words were cited with approval by Bowen, L. J., in Hart *v.* Standard Mar. Ins. Co. (1889), 22 Q. B. D. 499, and by Lord Halsbury in Glynn *v.* Margetson, [1893] A. C. at p. 357.

(*n*) Carr *v.* Montefiore (Ex. Ch. 1864), 33 L. J. Q. B. at p. 258.

(*o*) See, where in case of a fire policy on a ship, an alleged usage was not permitted to extend the risks, Pearson *v.* Commercial Union Ass. Co. (1873), L. R. 8 C. P. 548; 1 A. C. 498. The usage in this case was merely collateral to, and not necessarily connected with, the adventure insured.

Sect. 57.

been communicated to the underwriter; for, as Lord Mansfield says "every underwriter is presumed to be acquainted with the usage of the particular trade he insures; and if he does not know it, he ought to inform himself" (*p*). The description of the voyage in the policy, he says, in another case, "is an express reference to the usual manner of making it, as much as if every circumstance were mentioned" on the face of the instrument. "What is usually done by such a ship, on such a cargo, in such a voyage, is understood to be referred to in every policy, and to make a part of it as much as if it was expressed" (*q*).

Evidence of usage in these and the like cases does not vary the terms of the policy; but, as it is expressed by Lord Lyndhurst, merely "introduces matter upon which the policy is silent" (*r*).

Parol agreement insufficient to exclude established usage.

It appears that an established usage, which is not expressly excluded by the terms of the written contract, cannot be excluded by parol agreement (*s*); *a fortiori* it seems to follow that a representation by an assured of an intention to vary from a usage, whether such representation amount to an agreement or not, cannot be binding on the underwriter if not made part of the written contract (*t*).

China trade.

58. The following cases illustrate the application of these principles:—It having been the universal custom for many years in the China trade, for all European ships, while at

(*p*) Lord Mansfield in Noble *v.* Kennoway (1780), 2 Dougl. 513; and Lord Ellenborough in Da Costa *v.* Edmunds (1815), 4 Camp. 143.

(*r*) Blackett *v.* Royal Exch. Ass. Co. (1832), 2 Cr. & Jer. 249.

(*s*) See Fawkes *v.* Lamb (1862), 31 L. J. Q. B. 98. Arnould (2nd ed. p. 577), Phillips (vol. i. s. 594), Parsons (vol. i. p. 432), and Duer (vol. ii. p. 608) state the contrary, but as Maclachlan observes, without any judicial authority in support of their view. See Maclachlan's remarks in the 6th ed. of this work, pp. 541, 542. In Burges *v.* Wickham (1863), 33 L. J. Q. B. at p. 23, Cockburn, C. J., did indeed express an opinion to the contrary, but Blackburn, J., at p. 28, strongly affirmed the view in our text.

(*t*) See Leduc *v.* Ward (1888), 20 Q. B. D. 475.

Sect. 58.

Canton, to store all their rigging and furniture in storehouses, built for that purpose on sand banks in the Canton river, called banksauls, it was held that every underwriter insuring a risk in the Canton trade must be considered to have done so with reference to this usage; that the storing of the rigging in the banksaul must be deemed to have been quite as much part of the risk insured as though it had been expressed so to be in the policy; and that the underwriter was, therefore, as much liable for a loss by fire happening to the rigging so stored as for any similar loss occurring in any other part of the adventure (*u*).

East India trade.

It was formerly the uniform and well-known practice of the East India Company to reserve in their charter-parties the liberty of employing the vessel in what is called the country trade, that is, on intermediate voyages from one port to another in India. All parties engaged in this trade were taken to be fully cognizant of this usage; accordingly, under policies on ships employed by the company, though nothing was said of an intermediate voyage in the policy, yet, because the voyage insured was known by the underwriter to be an East India voyage, the Courts held that he must be presumed to have contracted with reference to all the known usages of the East India trade; and therefore that the construction of the policy should be the same as if liberty had been expressly reserved, on the face of it, to make such intermediate voyage (*x*).

Newfoundland trade.

In the Newfoundland and Labrador trades, where the main object of the voyage is to take fish, it was a well-known and general usage that the cargoes insured on such voyages, being chiefly salt and provisions, were taken out as they were wanted, and not landed, like other cargoes, on arrival; under an insurance, therefore, on such a fishing voyage, on "goods"

(*u*) Pelly *v.* Royal Exch. Ass. Co. (1757), 1 Burr. 341; Brough *v.* Whitmore (1791), 4 T. R. 206. So also in Dennis *v.* Home Ins. Co. (1905), 136 Fed. R. 481, the defendants were held to be liable for the loss of a ship's launch while being used between the ship and the shore.

(*x*) Salvador *v.* Hopkins (1765), 3 Burr. 1707; Gregory *v.* Christie (1784), 3 Dougl. 419; Farquharson *v.* Hunter (1785), 1 Park, 105.

Sect. 58.

in the usual form, "until discharged and safely landed," it was held that the underwriter, who must be taken to have insured with full cognizance of this usage, could not exempt himself from liability for a loss upon the goods because such loss had not taken place until long after the time when, but for such custom of the trade, his liability under the mere terms of the policy would have been at an end (*y*).

It was also a well-understood and familiar usage of the Newfoundland trade that the ships engaged in it, after their arrival at Newfoundland, were either engaged for some time in fishing (called banking), or made intermediate voyages from one American port to another before beginning to load a cargo on the homeward voyage. It was ruled, both by Lord Eldon and Lord Ellenborough, that underwriters who had insured homeward risks on ships engaged in this trade, under policies "at and from Newfoundland," were bound to know this usage; and were not entitled to contend that such intermediate voyages vitiated the policy, so as to discharge them from a loss happening upon the final voyage home (*z*).

"According to the general import of the words 'at and from,'" says Lord Ellenborough, in one of these cases, "the policy would attach on the ship's first mooring in a harbour on the coast, but it doubtless may be explained differently by usage, and, as between these parties, the policy must be taken to be the same as if it had been expressed to attach on the expiration of the banking or intermediate voyage" (*a*). This certainly seems an instance of usage being permitted to control the general import of a clause in the policy as fixed by legal construction (*b*).

(*y*) Noble *v.* Kennoway (1780), 2 Dougl. 510. The voyage in this case was to the coast of Labrador, but evidence was admitted to show the usage in such case to be the same as on fishing voyages to the coast of Newfoundland.

(*z*) Vallance *v.* Dewar (1808), 1 Camp. 503; Ougier *v.* Jennings, *ibid. in notis*, per Lord Eldon in 1801, when Chief Justice of the Common Pleas.

(*a*) 1 Camp. 508.

(*b*) So Arnould, 2nd ed. p. 74. But is it not in reality simply a case where, the policy being on its face ambiguous as to the time when the voyage which it was intended to cover should commence, evidence was admitted to remove such ambiguity, by showing that it was a voyage home after the intermediate fishing voyage, and no other, which the parties had in their minds? See Duer, vol. i. p. 203.

Sect. 59.

Usage governs the commencement and termination of the risk.

59. The risk on ship and goods, generally speaking, only commences at the very port or place named in the policy as that whence the ship is to sail, or where the goods are to be loaded; but if a general and well-known usage of the particular trade can be shown, that the ship under certain circumstances is to sail from, or the goods are to be loaded at, not that very port or place, but some port near it, the underwriter will be bound by such usage.

Oporto trade.

Thus, where it was shown to be a well-known usage in the Oporto trade for ships to complete their loading for the homeward voyage outside the bar, whenever from the low state of water in the River Douro they could not conveniently do so withinside the bar, Lord Ellenborough ruled, that an underwriter who had insured a ship "at and from Oporto to London" could not object that he was discharged from his liability because the ship, without his knowledge, had finished her loading outside the bar (*c*).

Florida trade.

So, where it was proved to be customary in the Florida trade for ships to take in their homeward cargoes at Tigre Island in St. Mary's River, and then drop down to Amelia Island, a little lower down the river, for the purpose of paying dues and clearing; it was held that an underwriter who had insured goods "at and from the ship's loading port or ports in Amelia Island to London" was not entitled to object that the policy never attached because the goods had been loaded, not at Amelia Island, but at Tigre Island (*d*).

Archangel.

It was formerly the well-known custom at Archangel,

(*c*) Kingston *v.* Knibbs (1808), 1 Camp. 507, *in notis*, a very strong case, as it appeared that in such policies liberty was often expressly given to load on either side the bar; so that the underwriter might not unfairly have contended that he was misled by the omission of this stipulation.

(*d*) Moxon *v.* Atkins (1812), 3 Camp. 200. In this case it should be remarked that, as there were no ports at all in Amelia Island, the policy could not be construed literally.

Sect. 59.

on a ship's arrival, to carry the goods to the government warehouses, where they remained till the duty was paid; a merchant who had insured his goods from London to Archangel "until they should be there discharged and safely landed" was held to have no right of action against the underwriter, for any loss that had occurred on the goods after they had been landed and lodged in a government warehouse in accordance with the custom; for, as Lord Ellenborough said, the goods were then landed, according to the usual course of trade, at the port of Archangel, which was all the underwriter undertook for (*e*).

Leghorn.

So, on proof of a well-known custom at the port of Leghorn, that certain goods for that port should be landed at the Lazaretto, it was held, in the United States, that goods of this description insured "till they were safely landed at Leghorn" were not protected after they were once landed at the Lazaretto, such being by the custom of the trade equivalent to a landing at Leghorn (*f*).

Under a policy on a ship at Mauritius, and for thirty days after arrival, evidence was admitted of a usage to anchor at the Bell Buoy, outside the harbour of Port Louis, where vessels calling for orders, seeking freight, or receiving or discharging part—not the whole—of their cargo, waited, and that they were then considered to be at Mauritius, and a total loss at this place within the thirty days was held to be covered by the policy (*g*).

Particular usage prevails over general maritime usage.

60. Such are some of the applications that have occurred in practice of the principle now under consideration; those that immediately follow illustrate the position, that, where the usage of the particular trade with reference to which the

Sect. 60.

underwriter insures is opposed to any of those general usages of maritime trade with reference to which all policies are *primâ facie* supposed to be made, the former is to be taken as the true key to the construction of the policy in preference to the latter.

Goods carried on deck by usage.

On an insurance on goods, the underwriter is in general entitled to expect that they will be carried in the hold, and not on deck, which is regarded as an unusual and dangerous place for that purpose. Every policy, then, in the absence of any express stipulation to the contrary, is generally read as though it contained on the face of it an exemption in terms against all liability on goods so carried (*h*). But whenever it can be shown that, by a well-settled usage of the particular trade, goods of the specific description of those insured are customarily carried on deck, the more general usage gives way to the more particular one, and the underwriter is liable for any loss upon the goods so carried, without any necessity of proving notice (*i*).

stopping at interjacent port.

In the same way it is a general usage of maritime trade, incorporated as we have seen into all policies, that the ship, in the absence of any express permission on the face of the policy to do otherwise, shall pursue a direct course between the two termini of the voyage, without stopping at any intermediate places; if, however, it be the notorious and well-settled usage of any given trade to stop at certain interjacent ports, this usage of the particular trade would doubtless countervail the general maritime usage, and the stopping at such ports, although not authorized by any express clause in the policy, be deemed no deviation (*k*).

(*h*) See the judgment of Lord Lyndhurst in Blackett *v.* Royal Exch. Ass. Co. (1832), 2 Cr. & J. 249, 250. In Apollinaris Co. *v.* Nord Deutsche Ins. Co., [1904] 1 K. B. 252, Walton, J., doubted whether this rule has any application to a river voyage.

(*k*) 1 Marshall, 186; 1 Phillips, Ins. s. 133.

Sect. 60.

Return of premium.

Again, it is a settled rule, that where the risk and premium are both entire, if the policy have once attached, the whole premium is to be retained. Yet Lord Mansfield, in an action for return of premium, allowed evidence of a constant and invariable usage in the trade between London and Jamaica, infringing this rule in particular cases (*l*).

Liberty "to touch" enlarged by usage.

61. Where the legal construction of a clause is not thus clearly settled and fixed, but comparatively doubtful, evidence of usage is *à fortiori* admitted to explain the sense in which it is used in the particular policy. Thus, where a clause in a policy gave a "liberty to touch" at certain islands, and the ship not only touched but took in salt there, the Court of Common Pleas, after adverting to the doubtful meaning of a liberty to touch, as contradistinguished from a liberty to "touch and stay," admitted evidence of a usage of trade for ships on the voyage insured to call at the islands in question to take in salt (*m*).

II. The usage must be general and notorious in the particular branch of trade.

62. II. The usage, in order to be binding, must be either a general and notorious trade usage of the whole mercantile world (of which the Court will take judicial notice), or a particular proved usage of universal prevalence and notoriety in the trade upon which, and of the place in respect of which, the insurance is effected: the usage of a particular place, or of a particular class of persons, cannot be binding on non-residents, or on other persons, unless they are shown to have been cognizant of it (*n*).

(*l*) Long *v.* Allen (1785), 4 Dougl. 276; 2 Park, 797; 2 Marsh. 660. Judge Duer is of opinion that where, as in these cases, evidence of usage is adduced to vary the settled construction of the policy or supersede a rule of maritime law, it must, in order to be binding, be shown to be invariable. 1 Duer, 265.

(*m*) Urquhart *v.* Bernard (1809), 1 Taunt. 450. Judge Duer cites this case as an instance of evidence of usage being admitted to control the settled legal construction of a clause in the policy. On examination of the case, however, it apparently amounts to no more than an authority for permitting evidence of usage to settle the construction in the particular policy of a clause in itself ambiguous.

(*n*) Per Lord Tenterden in Bartlett *v.* Pentland (1830) 10 B. & Cr. 760.

Sect. 62.

It must be well settled,

"To make an usage obligatory on the parties," says Story, J., "it should be so well settled that all persons engaged in the trade must be considered as contracting with reference to it" (*o*). Hence, where, in case of an insurance effected from Liverpool to Jamaica, the ship put into the Isle of Man; and it appeared that ships bound on this voyage sometimes put in there, but not usually; it was held, that this proof did not amount to such a well-known and settled usage of the trade as to prevent this from being a deviation (*p*).

and general, if not uniform.

The usage need not, in the strict sense of the word, be uniform, that is, followed invariably and without exception at all times and by all persons in the trade to which it relates: it is enough that it should be general. Thus, in the case of intermediate voyages in the Newfoundland fishery trade, to which reference has already been made, the objection was taken before Lord Ellenborough that the suggested usage was not uniform, for whenever a ship engaged in the trade could procure a cargo on her arrival at Newfoundland, she would prefer returning direct to Europe to taking an intermediate voyage in America. As to this objection, his Lordship said, "although there should be exceptions to the usage, that would be immaterial. Things are presumed to go on in their ordinary course, and if an usage be general, though not uniform, the underwriters are bound to take notice of it" (*q*).

It must be notorious.

"The usage must be notorious; *i.e.*, it must have existed under such circumstances, or for such a length of time, as to have become generally well known to all persons concerned

(*o*) In Trott *v.* Wood (1813), 1 Gallison's Rep. 443, cited 1 Phillips, s. 138.

(*p*) 1 Marshall, Ins. 186; Salisbury *v.* Townson, Millar's Ins. 418; Martin *v.* Delaware Ins. Co. (1808), 2 Wash. C. C. 254; Condy's Marshall, 186, n.

(*q*) Vallance *v.* Dewar (1808), 1 Camp. 508; see also 1 Duer, 264, 265. Judge Duer is of opinion (p. 265) that when "the usage settles the construction of the policy, or supersedes a rule of law, its constancy of observance, to render it binding, must be invariable"; but *quære*.

Sect. 62.

in or about the branch of trade to which it relates, and so as to warrant a presumption that contracts are made with reference to it" (*r*).

Usage may be binding although trade of recent origin.

63. If the usage proved can be shown to have been general and notorious, as long as the course of trade in which it prevails has lasted, it makes no difference that such trade is itself of recent origin.

Thus, when the trade to Labrador, which was first opened to English shipping after the Peace of Paris in 1763, had been carried on only three years, Lord Mansfield held, that a custom which had been invariably observed ever since its opening was binding on those who insured on Labrador risks. In this case, Lord Mansfield considered that evidence of a usage which had prevailed in one trade was rightly admitted to prove that the same usage was binding on those engaged in another trade of the same kind, carried on in the same way (*s*).

The usage must be reasonable.

64. It need hardly be said that such usage must be reasonable. When the case of intermediate voyages in the Newfoundland fishing trade came before Lord Eldon, he is reported to have said to the jury as to this point, "If the evidence leads to this, that the ship may make an intermediate voyage of several years, it is too dangerous for you to give it effect." "If you think this usage does exist, if you think it reasonable, and if you think this ship acted *bonâ fide* in taking the intermediate voyage, you will find

(*r*) This test, with a slight difference in the phraseology, is adopted from the judgment of the Supreme Court of New York in Smith *v.* Wright (1803), 1 Caines, 43, cited 1 Duer, 267, n. (*a*).

(*s*) Noble *v.* Kennoway (1780), 2 Dougl. 510. Judge Duer remarks, and very properly, on this case, that as the observance of such a usage seems to have been almost a necessary result from the nature of the trade, the Court were probably satisfied with slighter proof of its existence than they would otherwise have required. 1 Duer, 255. As to when a usage of recent origin becomes binding in law, see the judgment, per Cockburn, C. J., in Goodwin *v.* Robarts (1875), L. R. 10 Ex. 337, 346; 1 App. Cas. 476; Rumball *v.* Metropolitan Bank (1877), 2 Q. B. D. 194.

Sect. 64.

for the plaintiff" (*t*). Lord Eldon could hardly have meant by this to leave the question of reasonableness to the jury (a question which must always, it should seem, be for the Court): what he intended must have been to ask them whether they thought the evidence established the existence of such a usage as he had already pointed out as reasonable, or of one which, as he had already told them, was too dangerous to give effect to.

And not merely local or particular.

Although with regard to usages which are either common to all trades, or perfectly well known and settled in the particular course of trade to which the insurance relates, it is obviously a fair presumption that the parties to the policy, as mercantile men, are conversant with such usages, and have contracted with reference to them, with regard to usages which only prevail in a given place, or amongst a particular description of persons, the presumption is the other way; and in such cases, accordingly, it must be shown that the party sought to be affected by the usage had knowledge of it at the time of contracting. In the language of Lord Tenterden: "the usage of a particular place or a particular class of persons cannot be binding on non-residents or on other persons, unless they are shown to have been cognizant of it" (*u*).

Usage at Lloyd's.

65. Thus, even though clear proof may be given of a particular usage being established at Lloyd's, and even though the fact may be that the policy was effected by a broker at Lloyd's, in the common course of business, for a party resident in this country; yet, such party cannot be affected by the usage, unless it can be further shown, either that he was actually cognizant of it, or from his general modes of dealing, habits of life, or place of business, cannot be supposed to have been ignorant of it (*x*).

(*t*) Ougier *v.* Jennings (1808), 1 Camp. 506, *in notis;* see 1 Duer, 269.

(*u*) Per Lord Tenterden in Bartlett *v.* Pentland (1830), 10 B. & Cr. 760.

(*x*) Gabay *v.* Lloyd (1825), 3 B. & Cr. 793; Bartlett *v.* Pentland

Sect. 65.

"Free of mortality."

A Liverpool house, through the agency of a London broker, effected a policy, at Lloyd's, on horses "warranted free of jettison and mortality," from Liverpool to Jamaica. During a storm in the course of the voyage, three of the horses were kicked to death by the others—a loss which the Court held to be owing to perils of the sea, and not to "mortality," or death from natural causes, so that the warranty did not apply. The underwriters nevertheless refused to make good this loss, on the ground that, on policies containing this warranty, it was contrary to the usage of Lloyd's to pay in respect of any loss of live stock occurring in the course of the voyage, except where the ship was lost before arrival. The facts of the case were stated in the form of a special verdict, which set out the custom at Lloyd's, as proved at the trial, but did not contain any finding that the plaintiff was cognizant of such usage. The Court, under these circumstances, held that the plaintiff was not bound by the usage: it was not found to be a general usage of the whole trade in the city of London; and therefore, in order to render it binding on the plaintiff, it ought to have been distinctly found that he was cognizant of it (*y*).

Settlement between broker and underwriter.

66. By the general usage of the law mercantile, to which effect is given in sect. 53 (1) of the Marine Insurance Act, 1906, the insurance broker is considered as debtor to the underwriter for the premiums, while the underwriter is debtor to the assured for the loss (*z*): a custom, however, has long prevailed at Lloyd's, and is well known to all who transact business there, that the brokers settle with the underwriters according to the state of their accounts with them, in which accounts the broker is made the debtor to the underwriter for

(1830), 10 B. & Cr. 760; Scott *v.* Irving (1830), 1 B. & Ad. 605; Stewart *v.* Aberdein (1838), 4 M. & W. 211; Sweeting *v.* Pearce (1861), 9 C. B. N. S. 534; 30 L. J. C. P. 109; Matvieff *v.* Crosfield (1903), 8 Com. Cas. 120.

(*y*) Gabay *v.* Lloyd (1825), 3 B. & Cr. 793.

(*z*) Per Lord Tenterden in Bartlett *v.* Pentland (1830), 10 B. & Cr. 760.

Sect. 66.

all premiums on any policies effected by him with such underwriter, no matter on whose account; and the underwriter, in the same way, is made debtor to the broker for all losses, as between the underwriter and the broker. Such settlement on account is considered as payment according to the custom of Lloyd's; but whether the assured is bound by such a settlement, so as to oblige him to look to the broker only for what before the settlement was a debt due from the underwriter, depends upon his cognizance of the usage, as we shall see elsewhere (*a*).

Gross freight.

So strong, however, has the binding force of a usage at Lloyd's been considered, with regard to all those in the habit of transacting business there, that in one case it was even admitted to prove a mode of adjustment inconsistent with the true principles of Marine Insurance as a contract of indemnity. Thus, where in an open policy on freight the assured contended that he was entitled, in case of a total loss, to recover the amount of the gross freight without any reduction; and to establish this right called witnesses of thirty or forty years' experience at Lloyd's, who stated that, though open policies on freight were rare, yet the uniform custom of settling losses upon them had been to pay the assured the amount of the gross freight, the Court admitted the evidence, although they allowed that the practice seemed inconsistent with the true principles of indemnity (*b*).

III. Patent or latent ambiguity of words

67. III. Where the sense of the words and expressions used in a policy is either ambiguous or obscure on the face of the instrument, or is made so by proof of extrinsic circumstances, parol evidence is admissible to explain by usage their meaning in the given case.

(*a*) See *post*, § 124 *et seq.*

(*b*) Palmer *v.* Blackburn (1822), 1 Bing. 61. In this case Dallas, C. J., doubted, but Park, J., and Burroughs, J., the other two members of the Court then present, were clear that the evidence had been rightly admitted. The custom became, in consequence of this decision, a settled rule of law, which is recognized in s. 16 (2) of the Mar. Ins. Act, 1906.

Sect. 67.

Technical or local terms.

The words and phrases employed in policies may be obscure in themselves, as when they are entirely technical and local, so as to be quite unintelligible to the generality of persons, without explanation; in this case, the ambiguity as to their meaning arises upon merely reading them as they stand in the instrument. So, again, although the words employed may have an ordinary meaning intelligible to people not engaged in the business to which they relate; yet, if they have also another meaning when employed by those engaged in that business, and the circumstances of the case show that such secondary or less general sense must have been that in which they were used in the particular instrument whose meaning is to be ascertained, parol evidence must be equally resorted to in this, as in the former case, to explain the real meaning of the contract, by showing the sense in which the parties meant it to be understood (*c*).

Terms used in a secondary sense.

Instances.

68. Several instances of the application of this rule have arisen in the construction of the memorandum, by which the underwriters exempt themselves from liability on certain perishable articles; thus, evidence of usage has been admitted to show that the term "corn," as used in the memorandum, is meant to comprehend every sort of grain, and also beans and peas (*d*) and malt (*e*); but that it does not include rice (*f*); also that the term "salt" does not include saltpetre (*g*).

Upon the same principle, in the United States, where the

(*c*) Judge Duer, whose observations on this point are eminently valuable, states, as the general conclusion from the cases, "that the question whether a particular word in the policy has acquired by the usage of trade a technical meaning, distinct from its popular sense, is always to be determined by the inquiry whether such has been its use and practical interpretation in other mercantile instruments and contracts:" 1 Duer, 184.

(*d*) Mason *v.* Skurray (1780), 1 Park, Ins. 245.

(*e*) Moody *v.* Surridge (1798), *ibid.*

(*f*) Scott *v.* Bourdillon (1806), 2 B. & P. N. R. 213.

(*g*) By Wilson, J., in Journu *v.* Bourdieu (1787), 1 Park, 245. Cf. Hart *v.* Standard Co. (1889), 22 Q. B. D. 499, where it was held that in the absence of a usage limiting the meaning of the word, "iron" in the clause "warranted no iron" included steel.

Sect. 68.

memorandum contained the exception of roots, the evidence of mercantile men was admitted to show that the word as used in the memorandum was in practice confined in its application to perishable roots, such as beets and other garden roots; and, therefore, that sarsaparilla, being a dry hard root, and not liable to decay, was not included in the memorandum (*h*). So, in a policy on furs, similar evidence was admitted, to prove that the word "skins" in the memorandum should not exempt the underwriter from liability to an average loss on bear skins; it being shown that such skins were chiefly valuable as furs (*i*).

In a case before Lord Mansfield, where the insurance was on ship, furniture, &c., in the usual words of the printed sea-policy, the ship was employed in the Greenland fishery, and the question was whether the words of the policy covered fishing tackle and stores. His Lordship said this would depend on the usage of trade, and admitted evidence of such usage accordingly (*k*).

"With or without letters of marque."

A vessel was insured "either with or without letters of marque," the intention of course being to have the liberty of using it, but to what extent, whether solely in acting on the defensive, or in giving chase, or in cruising generally, were questions not settled by the obvious and general import of the words; Lord Ellenborough said, "it may be material to ascertain in what manner parties to contracts containing this form of words have acted upon them in former instances, and whether they have obtained, as between the assured and assurers, any known and definite import" (*l*).

(*h*) Coit *v.* Commercial Ins. Co. (1811), 7 Johnson's N. Y. Rep. 385. The words of the memorandum in this case were, "roots and all other articles of a perishable nature," so that the very language of the clause formed a clue to its construction.

(*i*) Astor *v.* Union Ins. Co. (1827), 7 Cowen's Rep. 202.

(*k*) Hoskins *v.* Pickersgill (1783), 2 Marsh. 735; 1 Park, 126.

(*l*) Parr *v.* Anderson (1805), 6 East, 207. Duer (vol. i. p. 187) observes that "this mode of interpreting a contract by a reference to the practice of other parties in similar cases is almost peculiar to a policy of insurance, nor is it easy to be reconciled with the ordinary rules of evidence," and follows with some excellent remarks in explanation.

Sect. 69.

"Port."

69. The risk on ship and goods is often specified to begin and end from their arrival, sailing from, or loading at one port, until their arrival or safe discharge at another port; in these cases the meaning in which the word "port" is used in the policy must be ascertained by admitting parol evidence to show what meaning and extent, in the general understanding of the mercantile world, is attached to the word "port" as applied to the place where, by the policy, the risk is made to begin or end (*m*); and, although the mercantile sense attached to the term may give the port in question a greater or a less extent than its legal or political limits, yet the mercantile sense, and not the legal import of the word, shall prevail. Thus, although Llanelly is, legally speaking, considered to be a part of the port of Carmarthen, and Bridport of the port of Lyme Regis, yet neither was considered to be so within the meaning of the words "port of Carmarthen" and "port of Lyme Regis," in a policy of insurance; those words meaning, in a mercantile sense, "the town and port of Lyme Regis," and "the town and port of Carmarthen" (*n*).

70. So, again, where words descriptive of seas or countries have acquired a sense among mercantile men differing from their common geographical import, parol evidence of the meaning put upon them by the mercantile world is admissible, to show the sense put on them by the parties to the policy.

"Indian Islands."

Thus, under a policy "from Van Dieman's Land to a port or ports of loading in India and the Indian Islands," the Court held that, though, amongst geographers, Mauritius was deemed an African island, yet parol evidence was admissible to prove that, in commercial language, it was considered an Indian island (*o*). So, where an insurance

(*n*) Constable *v.* Noble (1810), 2 Taunt. 403; Payne *v.* Hutchinson (1810), *ibid.* 405, n. See per Brett, M. R., in Sailing Ship Garston Co. *v.* Hickie (1885), 15 Q. B. D. 580.

(*o*) Robertson *v.* Clarke (1824), 1 Bing. 445. See also Northey *v.*

Sect. 70.

was made "from London to any port in the Baltic," and the vessel sailed for Revel in the Gulf of Finland, which, among geographers, is considered a different sea to the Baltic, yet, upon evidence that it is comprehended in the Baltic in commercial language, the Court gave this extension to the term "Baltic" in the policy (*p*).

"Baltic."

So, in a case of re-insurance "from the Pacific," where the evidence showed that the plaintiffs' policies with the defendants and other underwriters, containing these words, had always been limited to vessels sailing from ports on the West Coast of South America, it was held by Romer, J., that the words must be construed accordingly (*q*).

"The Pacific."

But in the absence of any such usage or custom among mercantile men, with regard to the phraseology in the policy, the meaning must be ascertained by the ordinary rules of construction. Thus in a policy on ship in which the warranty was "No St. Lawrence" between certain dates, it was held that both the river and the gulf of that name were within the terms of the warranty (*r*).

"No St Lawrence."

Parol evidence has been admitted to show that "in the month of October" means "between the 20th of October and the 1st or 2nd of November" (*s*).

As to date.

Where a question arose in an action on a policy as to the meaning of the word "cargo," Tindal, C. J., ruled that, being a term of mercantile import, its sense, as used in the policy, was a question for the jury, and could not be decided by the dictionary (*t*). So with regard to "freight," Story, J., on the ground that it was a word which, in common parlance, has several meanings, admitted parol evidence to be given of

"Cargo."

Sect. 70.

the circumstances under which the contract was made, in order to show its meaning in the particular case; as, for instance, to show whether it meant "goods on board ship," or "an interest in the earnings of the ship" (*u*).

"Port risk" policy.

In one case Hamilton, J., admitted evidence that the term "port risk" has a well-recognized meaning at Lloyd's, and that the risk under a "port risk" policy ceases when the insured vessel leaves her anchorage (*x*).

Warranty against "p.a. and loss."

In another case the same learned judge admitted the evidence of underwriters as to the meaning of a warranty against "particular average and loss" in policies on frozen meat (*y*).

Return of premium when "laid up in port."

Where a time policy provided for a return of premium for the period when the ship was "laid up in port," evidence was given on which Bray, J., found that "laid up" does not mean "stationary" or "tied up," but that the words have a customary meaning by virtue of which a vessel is "laid up" even when loading or discharging, or undergoing repairs (*z*).

IV. Usage only admissible to explain what is doubtful, not to contradict what is plain.

71. IV. A resort to parol evidence, however, whether of usage or otherwise, is only permitted in order either to explain the policy where it is technical or ambiguous, or to fill out and add to it where it is silent: such evidence will never be admitted to contradict, set aside or control its express, plain and unambiguous terms.

No evidence can be admitted of a usage which is at direct variance with the plain terms of the policy: it may be admitted to explain technical terms or ambiguous clauses, or "to introduce matter on which the policy is silent," but not to show that the policy has a meaning in plain opposition to its language; "usage is only admissible to explain

Sect. 71.

what is doubtful, it is never admissible to contradict what is plain" (*a*).

"Usage," says Lord Campbell, "may be relied upon to show the sense in which an expression found in a written contract is used in a particular trade; and a usage, consistent with a written contract, may be introduced into it: as both parties being aware of it, may be supposed to have intended that it shall form part of their bargain. But to let in verbal evidence of a usage for the purpose of contradicting and nullifying an express written contract, would be contrary to all principle, and has been forbidden as often as the attempt has been made" (*b*).

"Where the terms," says Judge Duer, "in which the usage must be expressed, if introduced into the policy, would be directly and irreconcilably repugnant to an express clause or provision, the evidence must doubtless be rejected, otherwise the policy would be void for uncertainty. A usage may explain, modify and control (*c*), but cannot contradict a policy; by restriction or addition it may qualify the construction of particular words and clauses, but can never be permitted to nullify or expunge them" (*d*).

Parkinson *v.* Collier.

72. These principles, notwithstanding some apparent discrepancy in the expressions of the judges, have been uniformly acted upon in the construction of sea-policies. Thus, where the risk on goods was, by the policy, made to continue "till discharged and safely landed," Lord Kenyon would not admit evidence of usage to show that this expression,

(*a*) Per Lord Lyndhurst in Blackett *v.* Royal Exch. Ass. Co. (1832), 2 Cr. & J. 244. See Provincial Ins. Co. of Canada *v.* Leduc (1874), L. R. 6 P. C. 224.

Sect. 72.

in the particular trade insured, meant "until the ship was moored twenty-four hours in safety"; because this was inconsistent with the plain meaning of the policy, which was too clearly expressed to require or allow of any such explanation (*e*).

Blackett *v.* Royal Exch. Ass. Co.

So where a policy was in the common form upon the ship, that is, "upon the body, tackel, apparel, ordnance, munition, boat, and other furniture of the ship called the 'Thames,'" Lord Lyndhurst would not admit evidence of a usage at Lloyd's, that boats slung on the ship's quarter (which was proved to be the invariable mode of carrying them on such voyages as that insured) were not protected by such policy (*f*). "The objection," said his Lordship, "to the parol evidence is, that it was not to explain any ambiguous words in the policy, any words which might admit of doubt, nor to introduce matter on which the policy was silent, but was at direct variance with the terms of the policy and in plain opposition to the language it used; that whereas the policy purported to be upon the ship, furniture and apparel generally, the usage is to say, that it is not upon all the furniture and apparel, but upon part only, excluding the boat" (*g*). On the same ground, in a case where it appeared that oil had been lost by leakage, caused by the violent labouring of the ship in a cross sea, Lord Denman refused to admit evidence of a usage of Lloyd's, to the effect, that unless the cargo shifted, or the casks were damaged, underwriters were not liable for any extent of leakage, however caused, as a loss by perils of the seas (*h*). His Lordship told the jury to consider for themselves whether, in their opinion, the damage to the oil was in fact caused by perils of the seas. "It may be very convenient for the underwriters to have such a general rule, and for the commercial world to submit to it; but if they

(*h*) Crofts *v.* Marshall (1836), 7 C. & P. 597.

Sect. 72.

mean thereby to control the effect of a plain instrument, they should introduce its terms into the policy" (*i*).

Hall *v.* Janson.

In an action for contribution in general average against one of the underwriters on a policy "on money advanced on account of freight," containing the usual clause in the memorandum by which "freight, &c. is warranted free of average unless general or the ship be stranded," the plea set up a usage of merchants, &c., effecting and underwriting policies in London, not to pay general average contribution under such a policy. The Court held the plea bad on general demurrer, on the ground that it attempted to set up in bar to the action a usage in derogation and contradiction of the written contract which, by virtue of the clause in the memorandum, plainly and expressly rendered the underwriter on freight liable for general average without regard to the extent of the loss (*k*).

V. The written clauses have greater weight than the printed and formal parts of the policy.

73. V. The policy being a printed form with the blanks filled up in writing, it is a rule that "if there is any doubt about the sense or meaning of the whole, the words superadded in writing are entitled to have a greater effect attributed to them than the printed words; inasmuch as the written words are the immediate language and terms selected by the parties themselves for the expression of their meaning" (*l*).

Effect of inapplicable

In a case where the Lloyd's form of policy was filled up as

(*i*) Crofts *v.* Marshall (1836), 7 C. & P. 607.

(*k*) Hall *v.* Janson (1855), 4 E. & B. 500; 24 L. J. Q. B. 97. As to the liability of the underwriter by express contract on the face of the policy, the Court says: "The policy not only contains general words to indemnify the assured on account of loss, but it expressly declares that 'freight is warranted free of average, unless general, or the ship stranded.' Therefore the underwriters on freight expressly, absolutely, and universally undertake to pay general average, however large or however minute the amount may be."

(*l*) Per Lord Ellenborough in Robertson *v.* French (1803), 4 East, 130; *per curiam*, Gumm *v.* Tyrie (1864), 33 L. J. Q. B. 97; per Blackburn, J.. in Joyce *v.* Realm Ins. Co. (1872), L. R. 7 Q. B. 583; per Lord Penzance in Dudgeon *v.* Pembroke (1877), 2 App. Cas. 293. See Hagan *v.* Scottish Ins. Co. (1901), 186 U. S. 423; 3 Kent's Comm. 260.

Sect. 73.

printed words left in the policy.

a time policy on ship, it was argued that various clauses which were clearly only intended to refer to a voyage policy, but which had, nevertheless, been in this case, as in other similar cases, left standing, therefore applied to the policy in question. The House of Lords, however, reversing the judgment in the Exchequer Chamber, decided otherwise. "It has been suggested," said Lord Penzance, "that by reason of the policy having been drawn up on a printed form, the printed terms of which are applicable to a voyage, and also to goods as well as to the ship, the policy is something less or something more than a time policy. But the practice of mercantile men of writing into their printed forms the terms by which they desire to describe and limit the risk intended to be insured against, without striking out the words which may be applicable to a larger or different contract, is too well known, and has been too constantly recognized in courts of law, to permit of any such conclusion" (*m*).

Hence it is, that in the familiar instance of words written in the margin, or at the foot of policies, such written words are considered as applying indefinitely to the whole of the policy, and as controlling the sense of those parts of the printed policy to which they apply.

Thus, where the word "ship," or "freight," or "goods," is written in the margin of the policy, the general terms of the policy, applicable to other subjects besides the particular one mentioned on the margin, are thereby considered as narrowed in point of construction by relation to the word so written (*n*).

Moreover, printed words of general application may be entirely rejected when they are inapplicable to the insurance intended by the parties (*o*). Thus the suing and labouring clause has been held to be inapplicable to an insurance against

the liability of shipowners to the owners of cargo for negligence (*p*).

The subsequent portions of this work will furnish abundant instances of this rule of construction.

VI. Written words are to be more strictly construed than printed words.

74. VI. It is also a rule, founded on the same principle, that greater strictness of construction should be applied to those clauses and stipulations, which the parties have themselves introduced, than to the words of the printed formula, which are adapted to all other cases of insurance on similar subjects, and not confined to the circumstances of the particular adventure (*q*).

Frequent illustrations of this rule will be afforded when we come to speak of clauses giving a liberty to touch and stay, express warranties and other written stipulations, by which the parties to the policy seek either to enlarge or to limit the protection afforded by the common printed form.

VII. As to inexplicable ambiguity.

75. VII. If conditions which are inserted for the protection of the underwriter be ambiguous, and the ambiguity is such as to be inexplicable by extrinsic evidence if admitted, the construction will lean towards the side of the assured rather than of the insurer (*r*),

Lord Justice Vaughan

Sect. 75. proper regard being, however, always paid to the business aspect of the case (*s*).

Williams' rule is criticized by Mr. Arthur Cohen (Laws of England, vol. xvii. § 688), who considers it inconsistent with Birrell *v.* Dryer, *supra*, and points out that a marine policy, unlike fire and life policies, is framed in accordance with the slip prepared by the assured's broker (see *post*, § 102). In the later case of National Protector Fire Ins. Co. *v.* Nivert (1913), 108 L. T. 390, the Privy Council applied the rule stated in the text to the construction of a fire policy. In America there is authority for the wider doctrine, that the whole of the policy is deemed to be the writing of the insurers, and is therefore in all cases of ambiguity to be construed against them. Parsons dissents from this doctrine (see 1 Parsons, Ins. p. 67); but it has been affirmed in recent cases. See First Nat. Bank of Kansas City *v.* Hartford F. Ins. Co. (1877), 95 U. S. 678; Travelers' Ins. Co. *v.* McConkey (1887), 127 *ibid.* 666; American SS. Co. *v.* Indemnity Mutual Ins. Co. (1901), 108 Fed. R. 421; Hagan *v.* Scottish Ins. Co. (1901), 186 U. S. 423. A number of cases are collected in the 14th vol. of Campbell's Ruling Cases, notes to Robertson *v.* French.

CHAPTER IV.

DIFFERENT CLASSES OF INSURERS ON SEA-POLICIES.

	SECT
Who may be Insurers	76
Lloyd's Underwriters	77
Insurance Companies and Partnerships	78, 79
Mutual Insurance Associations or Clubs	80—84

Who may be insurers.

76. EVERY person capable of making a contract may be an insurer, and may authorize any person capable of being an agent to underwrite policies in his name and on his behalf. The practice of insuring with individuals was the earliest in use anywhere, and long continued to be followed in this country.

Lloyd's underwriters.

77. In the time of William III. and of Queen Anne, Lloyd's Coffee-house in Tower Street, and later at the corner of Abchurch Lane, in Lombard Street, was the celebrated resort of seafaring men, and those that did business with them. There, and subsequently in Pope's Head Alley, and ultimately on the west side of the old Royal Exchange, at this coffee-house congregated the underwriters of London. For some time they had no organization; but in the latter part of the eighteenth century they formed themselves into an association or society with a committee of management, which became famous under the name of Lloyd's, and was in 1871 incorporated by a special Act of Parliament into a society under the same title (*a*). In connection with this

(*a*) Lloyd's Act, 1871, 34 Vict. c. xxi. The objects of the society were declared to be the carrying on of the business of marine insurance by the members, the protection of their interests, and the collection and diffusion of intelligence. As insurance business other than marine business has been largely carried on at Lloyd's, an amending Act was passed some years ago (Lloyd's Act, 1911, 1 & 2 Geo. 5, c. lxii.), which extended the objects of the society to the carrying on by the members of every kind of insurance business, including guarantee business.

Sect. 77.

society they have developed a ramified system of agency radiating everywhere to the ports of the world, which is now become of imposing magnitude, essential to the business of marine insurance whether in the hands of individuals or of companies, and to the general interests of British commerce.

Lloyd's rooms.

Lloyd's underwriters now meet and carry on their business in spacious rooms in the Royal Exchange. In the underwriting room the underwriters sit at tables of the coffee-house type, while the brokers and other subscribers pass from one underwriter to another and submit their "slips."

The latest telegrams with regard to casualties, shipping movements, &c., are posted in the underwriting room for the information of members and subscribers. Losses and serious casualties are also entered in Lloyd's "Casualty Book," formerly called the "Loss Book," a large volume which occupies a prominent position in the same room (*b*).

Reports received at Lloyd's are distributed during the day to the marine insurance companies subscribing to Lloyd's, and to British and foreign newspapers, &c. They are also included in "Lloyd's List," a daily shipping and commercial newspaper which was established in 1696, and has been published continuously since 1726; as well as in "Lloyd's Daily Index," an alphabetical list of all sea-going merchant vessels, giving their latest positions at the time of going to press each day.

A large room adjoining the underwriting room is called the reading room, which contains seats for the brokers, with direct telephonic communication to their offices. In this room are kept the large registers showing the daily movements of merchant vessels. There are also other books in which are recorded the services of British mercantile marine masters, and a collection of works of reference, as well as files of newspapers, &c., for the use of members.

(*b*) "The receipt of official news of capture, &c.," being a term in a policy, news of an embargo entered in Lloyd's "Lost Book" was held by a special jury at Guildhall, Erle, C. J., presiding, to be official news: Fowler *v.* English & Scottish Marine Ins. Co., Guildhall Sittings, *post*, M. T. 1864.

Sect. 77.

The corporate affairs of the members, as distinguished from their underwriting business, are managed by a committee, elected by and from the members of Lloyd's, and presided over by a chairman and deputy-chairman.

Lloyd's agents.

The committee, on the recommendation of an agency committee, on which Lloyd's, the marine insurance companies and shipping interests are represented, appoint agents of the corporation (generally called Lloyd's agents) in all the principal ports of the world, whose business it is regularly to forward to Lloyd's accounts of all departures from and arrivals at their ports, as well as of losses and casualties; and also general information bearing upon shipping and insurance. This information, which is, of course, largely transmitted by telegraph, is posted up when received, as mentioned above.

It should be noted that Lloyd's agents, who, as has been stated, are appointed by the corporation, are not the agents of the individual underwriters (*c*). Still, they perform very important functions (*e.g.*, as surveyors of damaged cargo), and in many ways render services to vessels putting into their ports (*d*). The committee of Lloyd's have also made arrangements whereby claims on policies underwritten at Lloyd's can be made payable by Lloyd's agents all over the world, thereby obviating the necessity of referring claims to London for settlement.

The development of the telegraphic system and especially of wireless telegraphy, which enables masters of ships in most cases to communicate quickly with their owners, and through them to obtain instructions from the underwriters, has done much to facilitate the carrying out of their duties by Lloyd's agents.

Lloyd's signal stations.

In addition to the above system of collecting shipping

(*c*) Wilson *v.* Salamandra Ins. Co. (1903), 8 Com. Cas. 129.

(*d*) S. 11 of Lloyd's Act, 1911 (1 & 2 Geo. 5, c. lxii.), authorizes the corporation to use its funds and employ agents for the taking charge of the interests of members and others in insurable property of every description.

Sect. 77.

intelligence by means of agents, Lloyd's signal and wireless stations, both at home and abroad, are invaluable to underwriters, to shipowners, and to the commercial community in general, as they afford a means both of receiving prompt information of the movements of shipping, and of transmitting messages and orders which it is often desired to send to vessels during their voyages (*e*).

Form of underwriting.

All the underwriting business at Lloyd's is transacted by the individual members of the society, each of whom carries on his business for his own account and risk, either himself or through an authorized underwriting agent, the general practice being for several members in association, but not in partnership, to carry on their business through a single agent who underwrites and acts for the whole group, or syndicate (*f*).

Policies issued by Lloyd's underwriters have the name of each individual, whether he be acting singly or be a member of a group, inserted at the foot of the policy, and the sum insured by each underwriter or group is written in figures, and also in words, opposite the names concerned (*g*). Each thereby makes a separate contract in the terms of the instrument with the assured of the particular amount set opposite to his name. The right of action in the assured is

(*e*) By Lloyd's Signal Act, 1888 (51 & 52 Vict. c. 29), s. 2, the society may compulsorily acquire land for the purpose of erecting signal stations.

(*f*) The persons for whom he so underwrites, called his "names," have been held to possess a joint interest in the books kept by the underwriting member: In re Burnand, [1904] 2 K. B. 68 (C. A.).

(*g*) Rule 4 in the Sched. to the special Act (34 Vict. c. xxi.), incorporating the Society of Lloyd's, is as follows:—

"An underwriting member shall not, by himself or by any partner or other substitute, directly or indirectly underwrite in the city of London a policy of insurance as follows: (1) In the name of a partnership, or otherwise than in the name of one individual (being an underwriting member of the society) for each separate sum subscribed; or (2) for the account, benefit, or advantage of any company or association, unless they are subscribers to the society, nor unless every policy underwritten for their account, benefit, or advantage is underwritten in their ordinary place of business."

Sect. 77.

consequently against each separately, and not against all jointly (*h*).

With a view to maintaining the credit of the room, the committee of Lloyd's now require a deposit of securities, of the minimum value of 5,000*l*., increasing *pro ratâ* with the amount of business transacted, to cover the engagements of each member in his capacity as an underwriter of marine and transport risks. Formerly the committee were satisfied with a written guaranty to cover these engagements, and now a guaranty is sometimes required in addition to the deposit. The corporation of Lloyd's being thus constituted trustees of the benefit of the guaranty on behalf of those who had sustained damage by the failure of the underwriting member in respect of his engagements in that capacity, were held entitled to put it in suit, although they had themselves suffered no loss (*i*).

The two Old Companies.

78. By virtue of an Act of 1719 (6 Geo. 1, c. 18), two companies, the Royal Exchange Assurance Corporation and the London Assurance Corporation, were incorporated, with the exclusive right of making sea insurances in their corporate capacity, and all others were restrained from granting insurances as companies or partnerships on a joint capital. A subsequent Act, 8 Geo. 1, c. 15, relieved them of any liability to double damages or costs at law, at that time an important privilege; and the 11 Geo. 1, c. 30, s. 43, gave them the right of pleading the general issue to all actions of debt and covenant on their policies (*j*). Their main privilege of

(*h*) See *ante*, § 26.

(*i*) Lloyd's *v.* Harper (1880), 16 Ch. D. 290. By s. 10 of Lloyd's Act, 1911 (1 & 2 Geo. 5, c. lxii.), the society has power to make bye-laws enabling it to make good any deficiency arising from the insufficiency of any security furnished by a member.

(*j*) The right to plead the general issue and give special matter in evidence was also given to the two companies when the insurance is on inland navigation by 41 Geo. 3, cc. lvii., lviii. respectively, but the latter Act was repealed by the London Assurance Act, 1891 (54 & 55 Vict. c. cxxvi.). This right of pleading the general issue was not affected by the 5 & 6 Vict. c. 97, s. 3 (Carr *v.* Royal Exch. Ass.

Sect. 78.

exclusively granting marine policies as corporate bodies was retained by them until the year 1824, when the 5 Geo. 4, c. 114, repealed so much of the 6 Geo. 1, c. 18, as restrains "any corporation or body politic, society or partnership, or persons acting in any society or partnership," from underwriting sea-policies or lending money on bottomry.

Consequences of the repeal of the monopoly.

79. The repeal of the monopoly formerly possessed by the two old companies was succeeded by the rapid multiplication of public companies, some of them incorporated by special statutes, some by charter from the Crown, and others formed upon the provisions of a partnership deed, for the purpose of granting marine policies (*k*).

Companies under the Companies Act.

By the Joint Stock Companies Act, 1844 (7 & 8 Vict. c. 110), it was enacted that every company insuring ships and their cargoes against loss and damage must be registered (*l*). This Act was repealed by the Companies Act, 1862, which provided that every insurance company completely registered under the Act of 1844 should register itself under the Act of 1862 (*m*). By such registration these companies obtained the advantages suitable to each as provided by the Act of 1862 (*n*). By doing so, they retained all property, and all rights, interests, and obligations in connection with property, their rights and liabilities

(1861), 1 B. & S. 956; 31 L. J. Q. B. 93), and it is clearly not affected by the Public Authorities Protection Act, 1893, s. 2 (e). Whether, however, it survived the changes in pleading effected by the Rules under the Judicature Acts is a matter of some doubt. Maclachlan expressed the view that the privilege remains unchanged. (Arnould, 6th ed. vol. i. p. 151, n. (2).) In practice, the companies indicate their "Points of Defence" in the same way as other defendants.

(*k*) See Hallett *v.* Dowdall (1852), 18 Q. B. 2, 17.

(*l*) The Act of 1844 extended to companies established in England, Wales, or Ireland, or if established in Scotland, having an office in the former country: s. 2.

(*m*) Companies Act, 1862, s. 209. For the purposes of that Act, a company that carried on the business of insurance in common with any other business was deemed to be an insurance company: s. 3.

(*n*) Companies Act, 1862, ss. 6, 180, 206. The corresponding provisions of the Companies (Consolidation) Act, 1908, are in ss. 2, 249, 286.

Sect. 79.

in respect of debts, obligations, and contracts; and the peculiar modifications impressed on their constitution—and their rights and liabilities in connection therewith—by the statute, charter, or deed, under which they might have been formed (*o*). Moreover, any stipulation or condition in any policy affecting the liability of members, or of the funds of any company, remained in full force and effect, notwithstanding registration of the company under that Act (*p*). The repeal of the Act of 1862 by the Companies (Consolidation) Act, 1908, s. 286, does not affect the position of these companies (*q*).

Any company registered under the 7 & 8 Vict. c. 110, if not registered under the Companies Act, 1862, did not become illegal, but was subjected to the following consequences:—1. It was incapable of suing, yet not incapable of being sued, either at law or in equity; 2. No dividend was payable to any of its shareholders; and 3. Each director or manager incurred a penalty of 5*l*. a day during default in registering under the Act of 1862 (*r*). Policies issued under these circumstances appear to be valid notwithstanding, and they may be enforced against the company.

No partnership or company consisting of more than twenty persons, which has been formed on or after the 2nd of November, 1862, for the acquisition of gain by the company or its members, is legal unless registered under the Act of 1862 or the Act of 1908 (*s*), or formed in pursuance of some other Act, or of letters patent. The effect of this provision on policies made by such a partnership or company, if not registered, is a point which remains unsettled. The better opinion seems to be that an illegal association and

(*o*) Companies Act, 1862, ss. 193, 194, 196, re-enacted in ss. 260, 261, 263 of the Companies (Consolidation) Act, 1908.

(*q*) See Companies (Consolidation) Act, 1908, ss. 245, 246, 247.

(*r*) Companies Act, 1862, s. 210.

(*s*) *Ibid.* s. 4; Companies (Consolidation) Act, 1908, s. 1. See Shaw *v.* Benson (1883), 11 Q. B. D. 563; 52 L. J. Q. B. 575; In re Padstow Ass. Association (1882), 20 Ch. D. 137; 51 L. J. Ch. 344.

Sect. 79.

its creditors who are cognizant of the illegality will not be assisted by the Courts; but that the association cannot avail itself of its illegality to defeat a claim made by a person who had contracted with it in ignorance of the illegality (*t*).

Consequences of issuing marine policies *ultra vires* of the company.

If the issue of marine policies be *ultra vires* of the company, the policies are invalid, and the premiums paid may be recovered back (*u*).

Form of underwriting by companies.

Since the 5 Geo. 4, c. 114, legalized insurance companies and partnerships, the mode of making them parties to a policy varies with the constitution of each. For this purpose, the several names of all the members of the partnership or company never were necessarily subscribed, notwithstanding the 36 Geo. 3, c. 63, s. 11 (*x*). In some cases, the matter is left as at common law, so that a valid policy is made by the subscription of the partnership firm, or the application of the seal of the body corporate (*y*). But the form of execution may be indefinitely varied by the statute, charter, deed, or articles of association under which the company is constituted (*z*).

(*t*) See Buckley on Companies, 9th ed. pp. 4, 5, where the authorities are cited; see also Lindley on Partnership, 8th ed. p. 127.

(*u*) Re Phœnix Life Ass. Co., Burges *v.* Stocks (1862), 2 J. & H. 441. Accord. Hambro' *v.* Hull & London Fire Ass. Co. (1858), 3 H. & N. 789.

That the objects of a company incorporated under the Act of 1862 or of 1908, as stated in the memorandum of association, cannot be departed from, and consequently that a contract made by the directors in respect of a matter not included in such memorandum, or not fairly incidental to the company's objects as defined therein, is *ultra vires* of the directors, and not binding on the company, is now matter of clear law. See Ashbury Railway Carriage, &c. Co. *v.* Riche (1875), L. R. 7 H. L. 653; A.-G. *v.* Gt. Eastern Ry. Co. (1880), 5 App. Cas. 473.

(*x*) Repealed by the 30 & 31 Vict. c. 23. If partners do underwrite their several names for separate sums, the right of the assured against the partnership assets is not thereby invalidated. Brett *v.* Beckwith (1856), 26 L. J. Ch. 130, *coram* M. R.

(*y*) Mar. Ins. Act, 1906, s. 24 (1), *ante*, § 26.

(*z*) See the general principle laid down and applied in Reid *v.* Allan (1849), 4 Exch. 326; Dowdall *v.* Allan (1849), 19 L. J. Q. B. 41. In an unreported case where a rule for a new trial or to enter a verdict for the defendants was obtained on the ground, among others, that the declaration purported to be on a simple contract, whereas the policy was made by a company under seal, when cause came to be shown on that point, Blackburn, J., inquired whether the seal in that case had any other legal effect than merely to put the contract in the form proper to the company. The point was not further pressed by the defendants. Roper *v.* English and Scotch Marine Ins. Co., *coram* Q. B.

Sect. 80.

Association of shipowners for mutual assurance.

80. The business of insurance is carried on, not only by individual underwriters and companies, for the purpose of earning profits, but also largely by associations of shipowners, who agree, each entering his ships for a certain amount, to divide among themselves one another's loss. These are called mutual insurance associations or clubs.

These clubs appear to have originated in the prohibition imposed by the Act of 1719 against insurance by chartered companies, and to have been designed to afford their members a more adequate protection than that furnished by private underwriters for a smaller rate of premium than they required (*a*). The Courts, however, in their endeavour to preserve to the two old companies the monopoly secured to them by the Act of 1719, as against every other public body formed for the purposes of marine insurance, decided that the members of such associations could only be individually, and not collectively, liable to such of their members as sustained a loss (*b*). Consequently, where, in case of the insolvency of any one of the members, all the others covenanted that they would be liable to make good his losses, Lord Kenyon held that such association was illegal, although, except in case of insolvency, each member only covenanted severally to pay for his separate share (*c*). The result of these decisions, of course, was that the objects which such associations had in view were only imperfectly obtained.

Associations under the Companies Act, 1862.

The system of mutual insurance has, however, been entirely altered, in consequence of the abolition of the pro-

(*a*) See per Pollock, B., in Marine Mutual Ins. Assn. *v.* Young (1880), 4 Asp. M. C. 357.

(*c*) Lees *v.* Smith (1797), 7 T. R. 338. It was decided not to be necessary to specify on the face of the policy the respective sums for which the members severally insure. Dowell *v.* Moon (1815), 4 Camp. 166.

Sect. 80.

hibition of insurance by corporations and partnerships, and as a result of the Companies Act, 1862. It has been established that a mutual insurance association is a company for the acquisition of gain by the company or its members within sect. 4 of that Act, and is therefore, when consisting of more than twenty members, an illegal association unless registered (*d*).

The consequence is that the associations are now always registered under the Act, usually as unlimited companies, or companies limited by guarantee (*e*). In general, it is now the association itself which is the insurer, not as formerly the individual members, and the cause of action of the member, as assured, is against the association itself, not against the other members. The consideration which the member gives for his insurance is his liability to contribute in the manner provided by the rules of the association to the losses of other members (*f*) and to the expenses of management (*g*), and often also the payment, in addition, of an initial premium, or entrance fee (*h*).

(*d*) In re Arthur Average Association (1875), L. R. 10 Ch. 542; In re Padstow Total Loss Association (1882), 20 Ch. D. 137, in which case an order for the winding-up of an unregistered association of more than twenty members was discharged.

(*e*) See Lion Mutual Marine Ins. Association *v.* Tucker (1883), 12 Q. B. D. 176; In re Bangor & North Wales Mutual, &c. Association, Baird's Case, [1899] 2 Ch. 593; and Corfield *v.* Buchanan (1913), 29 Times L. R. 258, as to the effect of a limitation by guarantee in the event of the winding-up of an association.

(*f*) See the remarks of Brett, M. R., in Lion Ins. Association *v.* Tucker (1883). 12 Q. B. D. 176, 187, on the question of consideration, where the members of the association were themselves the insurers.

(*g*) There are now some clubs, whose policy-holders are divided into two classes—(1) those who pay a fixed premium only, (2) those who are liable to contribute by calls to the losses of other members. If the fixed premiums are insufficient to meet the aggregate losses of the former class, the deficiency is made good by contributions from the members in the latter class; if they exceed the amount of such losses, the surplus is appropriated to the payment of the losses of the second class. See, *e.g.*, Corfield *v.* Buchanan (1913), 29 Times L. R. 258, *infra*, § 83.

(*h*) For a series of rules fixing the liabilities of members, see North-Eastern 100 A SS. Ins. Ass. *v.* Red "S" Steamship Co. (1906), 12 Com. Cas. 26.

Sect. 80.

The Stamp Acts apply to mutual insurance.

At one time an opinion prevailed that a policy was not necessary for the validity of contracts of mutual insurance (*i*), but it has been established that the Stamp Acts apply to such insurances, for the validity of which, therefore, a policy containing the particulars required by the Stamp Act, 1891, is requisite (*k*).

In favour of these clubs an exception has been made to the general rule that policies may not be stamped after they have been underwritten (except on payment of a penalty). By sect. 95 of the Stamp Act, 1891, a policy of mutual insurance, originally sufficiently stamped, may, if required, be stamped with an additional stamp.

A club policy has been held to be properly signed within the meaning of the Stamp Act when sealed with the seal of the association, and attested by the manager (*l*); and sect. 24 (1) of the Marine Insurance Act, 1906, declares that the seal of a corporation may be a sufficient signature to a policy.

Mutual insurance is specifically dealt with in sect. 85 of the Marine Insurance Act, 1906, the terms of which are as follow:—

> (1) Where two or more persons mutually agree to insure each other against marine losses there is said to be a mutual insurance.
>
> (2) The provisions of this Act relating to the premium do not apply to mutual insurance, but a guarantee, or such other arrangement as may be agreed upon, may be substituted for the premium.
>
> (3) The provisions of this Act, in so far as they may be modified by the agreement of the parties, may in the case of mutual insurance be modified by the terms of the policies issued by the association, or by the rules and regulations of the association.

(*l*) Marine Mutual Ins. Ass. *v.* Young (1880), 43 L. T. N. S. 441.

Sect. 80.

(4) Subject to the exceptions mentioned in this section, the provisions of this Act apply to a mutual insurance.

Sub-sect. (1) does not correctly describe the existing system of mutual insurance; for, as we have seen, it is the associations, not the members, who are now the insurers.

Risks and liabilities insured by the club.

81. The system of mutual insurance is now used by shipowners, not only for the ordinary insurance of ship and freight, but also to cover a number of risks and liabilities which are not protected by the ordinary policies. The insurances are made subject to the articles of association and the rules and regulations of the particular association (*m*), which are usually by express reference incorporated into the policies issued to the members (*n*). One class of mutual insurance associations insures the ships of the members against the same risks as are undertaken by Lloyd's

Ordinary time insurances on ship.

underwriters under their ordinary policies. The policies are made subject to exceptions and special clauses similar in most respects to those contained in the time policies subscribed at Lloyd's. The exception of particular average is, however, not always the same as in the memorandum of Lloyd's policy. Sometimes the amount is not 3*l.* per cent. as in the latter, but 1*l.* per cent. or at a certain rate (*e.g.*, 3*s.*) per gross registered ton. Sometimes the ship is warranted free from particular average under a specified sum, *e.g.*, under 500*l.*

(*m*) A knowledge of the rules by which a member of an association has agreed to be bound will be imputed to him. Turnbull *v.* Woolfe (1862), 7 L. T. N. S. 483.

(*n*) A policy incorporated the provisions of the articles of association, which were indorsed on the policy. One of these articles, which provided that the assured should keep one-fifth of the ship's value uninsured, was invalid for non-compliance with the formalities of the Companies Act. The House of Lords held that the condition was nevertheless binding as a contract. Muirhead *v.* Forth, &c. Mutual Ins. Association, [1894] A. C. 72. Where the policy contained no reference to the rules, it was held that the member who had by letter agreed to be bound by the rules could be sued for a contribution, and that the letter, though unstamped, could be given in evidence. In re Albert Average Association, Blyth's Case (1872), L. R. 13 Eq. 529.

Sect. 81.

Another class comprises mutual associations for the insurance of freight. Not only do the policies of these associations insure the members against a loss of freight in respect of which there is an insurable interest, but they commonly incorporate a rule which provides that in case of the total loss of a member's ship, the amount insured with the association shall be deemed to be his interest at risk. This provision seems to amount to an admission of interest, and to make a policy into which the rules are incorporated a wager policy (*o*).

Freight.

Mutual associations have been established to indemnify the members against loss caused by the customary deduction of "thirds" and "sixths" from the cost of new materials or of repairs to their ships (*p*).

"Thirds."

Other associations insure their members against certain kinds of losses, not covered by the ordinary insurances, which are included under the head of "small damage." Among these losses are—(1) particular average losses on ship under 3*l.* per cent. or other small particular average losses which the underwriters except in the ordinary policies; (2) the cost of the wages and provisions of the crew while the ship is ashore, or disabled, or under average repairs; (3) damage to the ship by striking the ground when such striking does not amount to stranding.

Small damage.

Other associations insure shipowners against loss caused by the detention of their ships from various causes, such as

Detention.

(*o*) See *post*, "Wager Policies," §§ 311, 312. In United Kingdom Mutual SS. Ass. Association *v.* Boulton (1898), 3 Com. Cas. 330, a rule of a freight club provided that "the interest insured shall be the amount entered in the association, which amount shall be paid in the event of the total loss of the steamship entered, whether the vessel be loaded, in ballast, or under time charter." Bigham, J., thought that the rule was framed to cover loss of freight consequent on the total loss of the ship, and not caused by perils of the sea. See also Coker *v.* Bolton, [1912] 3 K. B. 315. The plain meaning, however, of this and similar rules seems to be that the assured shall recover in the event of a total loss of ship, whether or not he has any freight at risk, and it is believed that this is the construction which in practice has been put upon these rules.

(*p*) See, as to these deductions, *post*, §§ 1024—1030.

Sect. 81.

detention while stranded or sunk, or under repair, detention by breakdown of machinery, in quarantine, through the arrest of the ship, or when the ship is ice-bound in consequence of damage.

Protection and indemnity.

An important class of mutual insurance associations consists of those called protection and indemnity associations. Their object is not only to indemnify their members against certain liabilities, but also to assist them in certain kinds of litigation in respect of their ships, *e.g.*, with charterers, cargo-owners, seamen and public authorities. They usually undertake, *inter alia*, to indemnify their members against liabilities—(1) for life salvage, and for damages in respect of loss of life and personal injury, including now compensation payable to members of the crew and their dependants under the Workmen's Compensation Act, 1906; (2) for medical and funeral expenses, &c. incurred in respect of the crews of their ships (*q*); (3) for the loss of or damage to goods carried on their ships (*r*); (4) for the one-fourth of the damages and expenses consequent on collision, which is not covered by the ordinary collision clause; (5) for damage to harbours, piers, &c.; (6) for the expenses of raising wrecks; (7) for quarantine expenses, and the expenses of disinfection in consequence of outbreaks of disease on their ships. They also usually undertake to pay to the shipowner the cargo's proportion of general average (not including damage to the ship) when it is not recoverable from the cargo-owner or the ship's underwriter (*s*).

(*q*) See Rogers *v.* British Shipowners' Mutual Protection, &c. Association (1896), 1 Com. Cas. 414, in which it was held that the club was not liable under its rules for expenses incurred in obtaining substitutes for members of the crew disabled by illness.

(*r*) For the meaning of the term "improper navigation," where the shipowners were protected against damage to goods on board when caused by the improper navigation of their ship, see Good *v.* London SS. Owners' Mutual Protecting Association (1871), L. R. 6 C. P. 563; Carmichael *v.* Liverpool Sailing Ship Owners' Mutual Indemnity Association (1887), 19 Q. B. D. 242; Canada Shipping Co. *v.* British Shipowners' Mutual Protection Association (1889), 23 Q. B. D. 342. See also The Warkworth, C. A. (1884), 9 P. D. 145.

(*s*) It is not the practice of protection and indemnity associations to issue policies to their members. The contract between the association and the member is effected by a request, usually made on a printed form on the part of the shipowner addressed to the association, to enter the specified ship or ships for protection and indemnity for specified tonnages, and the acceptance of such request by the association. Whether or not this procedure is sufficient to make a valid contract depends on whether the contract is "a contract for sea insurance" within the meaning of s. 93 of the Stamp Act, 1891. It would, in fact, be impossible to comply with the provisions of s. 93 (3), which requires that a policy of sea insurance shall specify *inter alia* the sum or sums insured. (See also Mar. Ins. Act, ss. 22, 23 (4), 91 (1) (a).) This impossibility is due to the fact that the liability of the association is not restricted to any particular sum, and any such restriction would defeat the main object for which the association exists—*i.e.*, to protect its members against liabilities which are themselves indefinite.

A contract of this nature differs from an ordinary contract of marine insurance, inasmuch as it does not pretend to recoup a member for damage affecting any subject-matter of insurance. And it is not at all clear from the Stamp Act that an agreement of indemnity against a liability to a third person, although such liability may itself arise indirectly from a sea peril, is itself a contract for sea insurance requiring a policy. Of the liabilities ordinarily undertaken by such associations, that which it is most difficult to distinguish from a sea risk is the liability to pay the shipowner the cargo's proportion of general average in certain cases.

On the other hand, s. 93 (1) of the Stamp Act expressly exempts the insurances referred to in s. 55 of the Merchant Shipping Act Amendment Act, 1862, from the necessity of being expressed in a policy of sea insurance. These are insurances against liability for damages, in respect of which a shipowner was thereby entitled to limit his liability—*i.e.*, for loss of life and loss of or damage to goods on board his ship. This subsection is unnecessary unless a policy of sea insurance would otherwise be requisite. Its existence is, therefore, some ground for the argument that, inasmuch as the associations undertake other risks of the same nature as those referred to in the 55th section of the Merchant Shipping Act Amendment Act, 1862, which, however, are not excepted by s. 93 (1) of the Stamp Act, 1891, a policy in respect thereof is necessary.

The question might also be raised whether an agreement between such an association and a member, if containing several provisions of which some taken by themselves do, but others do not, amount to sea insurance, is severable, so that the contract would be good so far as its terms were not required to be expressed in a policy, and bad only as to the remainder; or whether, on the other hand, the whole agreement is void. In many cases there would undoubtedly be much difficulty in severing the different provisions of such an agreement from each other. It may be arguable that where the agreement between the association and the member provides for an indemnity against a large number of liabilities, only one or

Sect. 81. War risks.

In consequence of the modern practice of inserting in the ordinary policies the clause excepting capture and seizure,

Sect. 81.

associations have also been founded for mutual insurance against war risks.

Rules of mutual insurance associations.

82. The rules of the mutual insurance associations vary according to their objects, and to some extent according to the views of their directors and members; but there are certain provisions which are almost invariably to be found in the rules of all.

It is usually provided that a person desiring to insure a ship shall deliver to the association a proposal in writing, authorizing the directors, if they accept the proposal, to enter his name in the register of members, and the insurance in the register of insurances (*t*).

We have already seen that a contract for sea insurance must, with certain exceptions, to be valid, comply with the requirements of the Stamp Act. Where, however, a member of a mutual association, having vessels on its books as insured, paid calls and otherwise acted as if he were a member, he was held to be estopped, in an action for calls on losses, from denying his liability on the ground that the losses were paid without any stamped policies having been issued (*u*). Again, where a ship insured with an association was lost, and the books showed that the sum due to the member for the loss had been assessed by the committee and paid by the members, it was held that there was a sufficient admission of liability in the books to enable the assured to recover without producing a stamped policy (*x*).

two of which require to be insured against by a policy, the contract, taken as a whole, is not one which requires to be expressed in a policy of sea insurance.

(*t*) Where a rule provided that a person became a member only by signing the articles, the association was held to be estopped from asserting that a person was not a member who had not so signed, but who had paid contributions claimed by the association from him. Edwards *v.* Aberayron Mutual Ship Ins. Society (1875), 1 Q. B. D. 563.

(*u*) Barrow-in-Furness Mutual Ship Ins. Co. *v.* Ashburner (1885), 54 L. J. Q. B. 377. See, however, In re London Marine Ins. Association, Smith's Case (1869), L. R. 4 Ch. 611.

(*x*) In re Teignmouth and General Mutual Shipping Association (1872), L. R. 14 Eq. 148; 41 L. J. Ch. 679.

Sect. 82.

The practice is to insure by time policies from noon of the 20th of February, Greenwich time, or from noon of the date entered in the register of insurances, until noon of the following 20th of February. There is usually a rule which provides that the insurances shall be renewed from year to year on the 20th of February, unless either the member or the association gives notice to terminate the insurance in the manner and at the time prescribed by the rules (*y*).

There is almost always a rule declaring that no policy issued by the association shall be assigned, mortgaged, or disposed of, so as to pass any part of the beneficial interest in the policy, without the consent of the association endorsed upon the policy (*z*). Another usual rule provides that the association shall not be bound to take notice of the interest of any person, other than the member insuring, in any ship or insurance, unless a memorandum of the name and interest of such person has been endorsed on the policy with the consent of the association.

Usually the rules provide that the insurance shall cease on the death, insolvency, or lunacy of the member, or if the member mortgages the ship (*a*), unless a sufficient guarantee for the payment of all contributions be given to the associa-

(*y*) This rule has been held not to make a club policy a continuing policy beyond the day on which it is expressed to terminate: Lishman *v.* Northern Maritime Ins. Co. (1873), L. R. 8 C. P. 216; in the Exch. Ch. (1875), L. R. 10 C. P. 179. See *post*, § 440.

(*z*) See Laurie *v.* West Hartlepool Thirds Indemnity Association (1899), 4 Com. Cas. 323.

(*a*) See Turnbull *v.* Woolfe (1862), 7 L. T. N. S. 483; Alexander *v.* Campbell (1872), 41 L. J. Ch. 478. A rule which provided that "no vessel which is mortgaged shall be insured unless the mortgagee gives a written guarantee, &c.," was held to apply only to a ship mortgaged at the time when the insurance was made, and not to render a guarantee necessary when a ship was mortgaged afterwards. Hutchinson *v.* Wright (1858), 25 Beav. 444; 27 L. J. Ch. 834. For the construction of this rule, see also North-Eastern 100 A SS. Ins. Ass. *v.* Red "S" Steamship Co. (1905—6), 10 Com. Cas. 245; 12 Com. Cas. 26. In that case the Court of Appeal held, affirming Channell, J., that the member, although unprotected in consequence of the rule, was liable under the rules of the association to pay contributions.

Sect. 82.

tion (*b*). In general, also, the liability to contribute to future losses ceases on the loss or sale of the ship.

In case of a dispute between a member and the association with regard to a claim, the rules almost invariably make a reference to arbitration a condition precedent to the right of the member to bring an action (*c*).

Contributions.

83. The most characteristic feature of the system of mutual insurance, viz., that the losses are divided among the members, has already been pointed out. Frequently an entrance fee is paid when a ship is accepted for insurance, and many associations require an initial premium to be paid every year in respect of each ship insured. When a claim for a loss has been allowed and there is no fund, such as the initial premiums, out of which it can be paid, the necessary

How assessed.

sum is raised by a call on all the members. The contributions are assessed on them either in proportion to the amounts for which they are insured, or in proportion to the gross registered tonnage of their ships, as the rules prescribe. Sometimes in insurances on ships, contributions in respect of total and general average losses are levied on the amounts insured, while contributions for particular average losses are assessed according to tonnage.

Claims for losses or contributions by or against part-owners other than members.

Where an association was by the terms of its policies under liability only to the member, it was held that a part-owner of a ship other than the member could not bring an action on the policy for a loss (*d*). Similarly, it was held that an association could not bring an action for contributions against a part-owner, as the undisclosed principal of the managing owner who had become a member of the association in respect

(*b*) See Hughes *v.* Tindall (1856), 18 C. B. 98.

(*c*) See Scott *v.* Avery (1855), 5 H. L. Cas. 811; 25 L. J. Ex. 308. For the effect of a rule which provided that in certain events the decision of the directors should be final, see The Warwick (1890), 15 P. D. 189. An improper hearing by the directors does not preclude a member from bringing an action. *Ibid.*; Edwards *v.* Aberayron Mutual Ship Ins. Society (1876), 1 Q. B. D. 563.

(*d*) Montgomerie *v.* United Kingdom Mutual SS. Assurance Association, [1891] 1 Q. B. 370.

Sect. 83.

of the ship, when the policy was expressed in a form which made the member only liable upon it (*e*). Where, however, the policy issued to the managing owners of a ship, who insured her in their own names, was an adaptation of Lloyd's policy, containing the clause "as well in his or their own names as for and in the name or names of all and every other person to whom the same doth, may, or shall appertain, &c.," it was held that the other owners could be sued for contributions, as being the persons insured by the policy (*f*).

The result of the cases is that, generally speaking, under the rules and policies of the associations, the owners of a ship, who authorize a person to effect an insurance with and to become a member of an association, are liable, as assured, to be sued for contributions. They ought, therefore, on general principles to be able themselves to enforce claims for losses; but the rules often provide that claims can only be enforced by the member. The question whether the owners who authorize the insurance are themselves members was raised but not decided in one of the cases. "It may be," said Lord Esher, "that the defendants" (the assured) "are members for the purpose of paying contributions, though not for the purpose of voting, and that they are not liable to contribute to the expenses of the association other than in respect of losses of other ships insured" (*g*). Subject to any special rules of the particular association, it is submitted that this is a correct view of their position.

Issue of policies to non-members.

The memorandum of a mutual insurance association enabled it to undertake re-insurance risks generally, and the

(*e*) United Kingdom Mutual SS. Ass. Association *v.* Nevill, C. A. (1887), 19 Q. B. D. 110 See per Lord Esher, M. R., 22 Q. B. D. 719.

(*f*) Great Britain 100 A 1 SS. Ins. Association *v.* Wyllie, C. A. (1889), 22 Q. B. D. 710; following Ocean Iron SS. Association *v.* Leslie (1887), *ibid.* 722, n.; British Marine Mutual Ins. Co. *v.* Jenkins, [1900] 1 Q. B. 299. In the last-mentioned case Bigham, J., held that this liability was not inconsistent with the rule that "a member shall be uninsured in respect of any interest entered if he becomes bankrupt or insolvent," unless an approved guarantee be given.

(*g*) Great Britain 100 A 1 SS. Ins. Association *v.* Wyllie (1889), 22 Q. B. D. at p. 717.

Sect. 83.

policies of re-insurance issued by the association at fixed rates of premium declared that the assured should not be liable for further contributions, nor entitled to share in any profit, and that they waived any right of voting at the general meetings. One of the articles of association provided that every person effecting an insurance or re-insurance should be deemed to have become a member. The House of Lords held that, notwithstanding this article, this class of policy-holders were not members, and could not be made contributories in the winding-up, and also that the issue of the fixed premium policies was not *ultra vires* (*h*).

84. Sometimes compliance with a rule which is incorporated in a policy is expressly made a condition precedent to the liability of the association (*i*). Whether a rule, not expressed to create a condition precedent, is a warranty, depends on its nature. Thus a rule providing that ships should not sail on certain voyages between certain dates was held to be a warranty; whereas a rule which provided that a vessel beaching before or after a specified time was not entitled to recover for any subsequent loss until surveyed and reported sufficient, was stated to create merely an exception as to the damage taking place between the beaching and the survey (*k*).

(*h*) Corfield *v.* Buchanan (1913), 29 Times L. R. 258.

(*i*) See Stewart *v.* Wilson (1843), 12 M. & W. 11. See Sailing Ship Dewa Gungadhur Co. *v.* United Kingdom Maritime Mutual Ins. Association (1886), 2 T. L. R. 366, for a decision on a rule providing that the insurance should cease if the member neglected to pay calls. In Williams *v.* British Mutual Marine Ins. Co. (1887), 3 T. L. R. 314, the Court of Appeal held that the member could set off against a call a loss, the amount of which had been adjusted, and that the association could therefore not forfeit the policy for non-payment of the call.

CHAPTER V.

OF THE ASSURED; WHO MAY BE INSURED.

SECT.
Insurances on Enemy's Property ..... 85—89
Who is for commercial purposes an Alien Enemy .....90—100

85. ALL persons, whether aliens or British subjects, may be insured, with the exception of alien enemies; that is, persons who, either by birth or domicil, belong to a state actually engaged in war with our own.

All persons may be insured except alien enemies.

This restriction is an obvious consequence of that universally recognized principle in the law of nations, viz., that the object of a maritime war is the destruction of the enemy's commerce and navigation, in order to weaken and destroy the foundations of his naval power. As marine insurance has for its object the protection of commerce and navigation, it would obviously be inconsistent with the very purposes of a maritime war, to permit insurance on the shipping and trade of the enemy. "*Hostium enim pericula in se suscipere, quid est aliud quam eorum commercia maritima promovere?*" (*a*).

Lord Mansfield upheld insurances by alien enemies.

It was for a long time, however, an unsettled question in English law, whether the insurance of enemy's property was or was not illegal at common law. Lord Hardwicke, in the year 1749, said it had never been declared in our Courts to be unlawful (*b*); and Lord Mansfield supported the practice, not apparently upon any principles of law (*c*), but on fancied grounds of expediency; supposing that English underwriters would thereby gain more in premiums than they would lose

(*c*) Buller, J., said that he never could get him to give any opinion as to its legality: Bell *v.* Gilson (1798), 1 B. & P. 345, 354.

Sect. 85.

by captures (*d*). Valin, however, followed by Pothier and Emerigon, declares that owing to the permission of this practice in England, one part of our nation restored to theirs, by the effect of insurances, what the other part took from them by the rights of war (*e*).

Temporary prohibition by statute.

The English legislature by two temporary statutes, one in 1748 (*f*), and another in 1792 (*g*), prohibited the insurance of any ships or merchandise belonging to France during the wars then pending with the subjects of that nation.

Such insurances finally determined to be illegal.

At length the Courts of Westminster Hall took the whole subject into consideration upon general principles, and established, by a long course of decisions, under Lord Kenyon, Lord Alvanley, and Lord Ellenborough, that such insurances were not only illegal and void, but repugnant to every principle of public policy (*h*).

"The question is," says Lord Alvanley, "whether it be competent to an English underwriter to indemnify persons who are engaged in war with his own sovereign, from the consequences of that war; and we are all of opinion that, on the principles of the English law, it is not competent to any subject to enter into a contract to do anything which may be detrimental to the interests of his own country; and that such contract is as much prohibited as if it had been expressly forbidden by Act of Parliament" (*i*).

Cases which established this rule.

86. The first two cases in which the question was formally

Sect. 86.

decided (Brandon *v.* Nesbitt and Bristow *v.* Towers (*k*)) proceeded exclusively on the ground that such a contract could not be enforced in our Courts. They did not directly decide the question whether such insurances were absolutely illegal in their own nature. But in the case of Furtado *v.* Rogers, Lord Alvanley, then presiding in the Court of Common Pleas, laid it down decisively, that insurances effected on behalf of an alien enemy, though made previously to the commencement of hostilities, and therefore legal in their inception, could not cover a loss by British capture after war had broken out; and that no action could be brought upon them in our Courts even after the restoration of peace (*l*).

Decisions of Lord Ellenborough.

The language of Lord Ellenborough in condemning these insurances was even stronger than that of Lord Alvanley; he pronounced them to be not only illegal and void, but repugnant to every principle of public policy. Whether the loss in respect of which the assured sought to recover were a loss by British capture (*m*), or by capture by a co-belligerent (*n*); whether the insurance were effected before or after the breaking out of hostilities (*o*); or whether the action were brought during war or after the restoration of peace (*p*); Lord Ellenborough's decision was uniformly the same; and he declared, that every insurance on alien property by a British subject must be understood with this limitation, that it shall not extend to cover any loss happening during the existence of hostilities between the respective countries of the assured and the underwriters.

Semble, insurance on a British ship against British capture legal.

When, however, it was attempted to extend this principle still further, to an insurance on a British ship against British capture, the point was not decided, but the Court intimated a

Sect. 86.

pretty clear opinion, that it would only be illegal in the case of a foreign ship (*q*).

Summary of Rules established during great French war.

Thus it came to be established during the great French war, 1st, that an insurance effected by an alien enemy is an illegal contract, and therefore void *ab initio;* 2ndly, that an alien enemy cannot recover for a loss occurring during the existence of the war, even though the insurance was effected before its commencement. Neither of these propositions was disputed in the case of Janson *v.* Driefontein Consolidated Mines, and both of them are confirmed by the judgments delivered therein. In that case an attempt was made to extend the rule that losses incurred by an alien enemy are not recoverable. On the 2nd of October, 1899, when the relations between the British Government and the South African Republic had become strained, a quantity of gold in transit to the United Kingdom, belonging to a company incorporated under the laws of the Republic, was seized by order of the Government of the Republic. War broke out on the 11th of October. In an action on a policy by which the gold had previously been insured against capture, the insurers contended that the company could not recover, as the gold had been seized by its own Government for the purposes of hostilities against this country; and in the Court of Appeal Vaughan Williams, L. J., held that, on grounds of public policy, a British subject cannot legally contract to indemnify the subject of a foreign state against a loss by the forcible seizure of his property by the foreign Government for the purpose of an imminent war with this country. The other members of the Court of Appeal held, however, that as at the time of the seizure the two countries were

Attempt to extend rules.

Insurers liable for capture by foreign Government in time of peace, though war imminent.

(*q*) Lubbock *v.* Potts (1806), 7 East, 449. This opinion was confirmed during the late war by the decision of Bailhache, J., and the Court of Appeal in Sanday *v.* British and Foreign Mar. Ins. Co., [1915] 2 K. B. 781, that there were no grounds of public policy which prevented a British assured from recovering against British insurers for a loss by a restraint imposed by the British Government: *S. C.* in H. L., where this point was not taken, [1916] 1 A. C. 650. See *post*, § 803.

Sect. 86.

still at peace, the assured could recover for the loss (*r*), and the House of Lords unanimously affirmed their decision (*s*). "The authorities referred to in the argument," said Lord Halsbury, L. C., "do not justify the proposition that expected wars render a contract illegal between citizens of the two nations between whom war is anticipated, and to lay down such a rule would be to establish an entirely new code, for which there is no authority in the law."

Return of premium.

87. If the contract of insurance be effected before the commencement of hostilities, it is legal in its inception; and if the risk have once attached on such policy, there can be no return of premium (*t*). If the policy be knowingly effected after hostilities have commenced, the assured has no right to a return of premium (*u*), unless before the commencement of the risk he has duly renounced the contract (*x*). If, however, an agent in this country innocently effects an insurance for one, who has become an alien enemy by the breaking out of hostilities before the policy was effected, the agent being unaware of that fact at the time he procured it, the premium thus paid under a mistake of fact may be recovered back from the underwriter (*y*).

An alien enemy who is licensed to trade may be insured.

88. An alien enemy having a licence or privilege to trade has the right of insuring his property as incident to the right of trading (*z*). Such a licence not only legalizes the commerce, and therefore the insurance by which it is sought to

(*z*) Wells *v.* Williams (1697), 1 Salk. 45; 1 Lord Raymond, 282, *S. C.*

Sect. 88.

be protected (*a*), but also enables the alien enemy, so licensed, to sue upon the policy, not only in the name of the agent, but in his own (*b*). "Whatever commerce of this kind," says Lord Ellenborough (*c*), "the Crown has thought fit to permit, must be regarded by the Courts of Law as legal with all the consequences of its being legal; one of which consequences is a right to contract with other subjects of the country for the purpose of protecting such property by insurance."

Hence, where a licence to trade with the enemy was given to three persons, two of whom themselves became alien enemies before action brought; it was held, that the broker, who had effected the policy for all the three, might, nevertheless, recover upon it (*d*).

Right to sue suspended during war.

89. Where the party intended to be insured by the policy does not become an alien enemy, until after the loss and the cause of action have arisen, his right to sue on the policy is only suspended during the continuance of hostilities, and revives on the restoration of peace (*e*); and where the policy had been made out in the name of a British agent, and the underwriter had only pleaded the general issue, it was held that the agent could recover on it during the war (*f*). Where the war has broken out before the loss, the policy, as we have already seen, becomes wholly illegal and void (*g*).

Sect. 89.

Defence that defendant an enemy not favoured.

The defence that the plaintiff is an alien enemy is not regarded in our Courts with indulgence (*h*). Thus, where a defendant had obtained time to plead, on the terms that he should plead issuably, and afterwards war was declared between this country and the state of which the plaintiff was a subject, the Court refused leave to the defendant to plead that the plaintiff was an enemy (*i*).

Who are alien enemies.

Domicil the leading test of national character.

90. An alien enemy, in the primary sense of the words, said Arnould, is the natural born subject of a state actually engaged in war with our own; but for all commercial purposes the domicil of the party, without reference to his place of birth, is the leading test of national character. Every person domiciled in a state actually engaged in hostilities with our own is an alien enemy, whether he be a subject of that state or not (*k*).

(*h*) Per Lord Kenyon, Casseres *v.* Bell (1799), 8 T. R. 166; Harman *v.* Kingston (1811), 3 Camp. 153; per Younger, J., Schaffenius *v.* Goldberg, [1916] 1 K. B. 284, at p. 296. Cf. per Scrutton, L. J., in Central India Mining Co. *v.* Société Coloniale Anversoise, [1920] 1 K. B. 753, at p. 771.

(*i*) Shepeler *v.* Durant (1854), 14 C. B. 582; 23 L. J. C. P. 140. In Driefontein Consolidated Mines *v.* Janson, [1900] 2 Q. B. 339, a company incorporated under the law of the South African Republic brought an action on a policy of insurance during the war between the Republic and this country. The parties agreed that no dilatory plea should be set up on the ground that the plaintiffs were an alien enemy, and the action was tried while a state of war existed. In the Court of Appeal Vaughan Williams, L. J., expressed a doubt whether it was not against public policy for the Court to give effect to such an agreement: [1901] 2 K. B. at p. 432; and a similar doubt was expressed in the House of Lords by Lord Davey: [1902] A. C. at p. 499. Lord Lindley, on the other hand, approved of the course taken in this case, which he considered justified by the decision in Flindt *v.* Waters: *ibid.* at p. 509.

(*k*) The Indian Chief (1801), 3 C. Rob. 12, 18. Domicil, for commercial purposes in time of war, must, however, not be confounded with domicil in the technical sense which the word has now acquired. In that sense, as Professor Dicey points out, domicil denotes the place or country which the law deems to be a person's permanent home. Thus, an Englishman who goes to a foreign country and sets up in trade there with the intention of returning in ten years, retains his English domicil of origin. But if war broke out between Great Britain and that country, and he continued to reside and trade there, he would, for commercial

Sect. 90.

In Porter *v.* Freudenburg (*l*), Lord Reading, C. J., delivering the judgment of the full Court of Appeal, laid down the rule thus: "For the purpose of determining civil rights a British subject or the subject of a neutral state, who is voluntarily resident or who is carrying on business in hostile territory, is to be regarded and treated as an alien enemy and is in the same position as a subject of hostile nationality resident in hostile territory." The term "domicil" does not occur in the judgment, and in a later case (*m*) Lord Cozens-Hardy, M. R., said that in Porter *v.* Freudenburg it was held that domicil is not the true test of whether a person is an "alien enemy." If "domicil" is to be taken to cover only the "civil domicil" (*n*), it is not the test of enemy character. But there is high authority for the use of the term to denote the "commercial domicil," *i.e.*, such residence as is the primary test of national character in time of war (*o*), and the editors have not thought it advisable to alter the phraseology of this treatise.

purposes, undoubtedly be regarded as an enemy. In order, therefore, to distinguish between the legal domicil and that domicil or residence which determines the character of a person in time of war, the learned professor calls the former the civil and the latter the commercial domicil. Dicey, Conflict of Laws, 2nd ed. App. n. 7, p. 741. See also per Scrutton, L. J., in Tingley *v.* Müller, [1917] 2 Ch. at pp. 172, 173. The term "domicil" is used in the latter sense by Arnould, as well as by Duer (Ins. vol. i. p. 495) and Marshall (Ins. vol. i. p. 390). Lord Stowell in his judgments uses the words "domicil" and "residence" indifferently.

The rule that national character in time of war depends on commercial domicil is recognized in the Prize Law of the United States and of Japan; but the general rule in Continental states is that the national character of property is determined by the national character of the owner.

(*l*) [1915] 1 K. B. 857, at p. 869. Cf. the Trading with the Enemy Proclamation (No. 2) of the 9th September, 1914: "The expression 'enemy' in this Proclamation means any person or body of persons of whatever nationality resident or carrying on business in the enemy country, but does not include persons of enemy nationality who are neither resident nor carrying on business in the enemy country."

(*m*) Tingley *v.* Müller, [1917] 2 Ch. at p. 155.

(*n*) See note (*k*), *supra*.

(*o*) *Ibid.* The term "commercial domicil" is used in this sense by Scrutton, L. J., in Tingley *v.* Müller, [1917] 2 Ch. at p. 173, and in

Sect. 90.

Enemy subjects permitted to reside in the Kingdom.

The test of residence is also applied to determine the national character for commercial purposes of a subject of an enemy State. When he is allowed after the outbreak of war to reside in this country by the license, express or implied, of the Crown, he is not regarded as an alien enemy. He is able, during the war, to make valid contracts and to sue in the King's Courts (*p*).

Definition of domicil.

That is properly the domicil of a person, where he has his true fixed home, and principal establishment; in which, when present, he has the intention of remaining (*animus manendi*), and from which he is never absent without the intention of returning (*animo revertendi*) directly he shall have accomplished the purpose for which he left it (*q*).

Tests of domicil.

The two great tests of domicil are: 1. The fact of residing in a place (*factum manendi*); 2. The intention of abiding there (*animus manendi*), either for a permanency or an indefinite period (*r*), or, so far as commercial domicil is concerned, even for a definite period if it be a considerable one (*s*).

the judgments in prize cases, where the national character of a person or his property was in issue. See The Flamenco (1915), 1 Brit. & Col. Prize Cases, 509; The Eumæus (1915), 85 L. J. P. 130; The Manningtry, [1916] P. 329; The Anglo-Mexican, [1916] P. 112; [1918] A. C. 422; The Hypatia, [1917] P. 36; The Posteiro (1917), 3 Brit. & Col. Prize Cases, 275.

(*p*) Porter *v.* Freudenburg, [1915] 1 K. B. 857; Schaffenius *v.* Goldberg, [1916] 1 K. B. 284, which also decided that the internment of an alien enemy under the Aliens Restriction Order, 1914, did not operate as a revocation of the license to remain in this country, which was implied in registration.

(*q*) This agrees almost verbatim with the definition given in the Civil Law, Code, lib. x. tit. 39, f. 7, as cited in Story's Conflict of Laws, c. iii. s. 42.

(*r*) Story's Conflict of Laws, c. iii. s. 44.

(*s*) Arnould seems not to have considered that an intention to reside for a definite, though lengthy, period would effect a change of commercial domicil. See, however, Lord Stowell's opinion as expressed in The Harmony (1800), 2 C. Rob. 324, 325; Dicey, Conflict of Laws, 2nd ed. 743; 1 Duer, 408, 501. In Tingley *v.* Müller, [1917] 2 Ch. at p. 173, Scrutton, L. J., says: "To gain a commercial domicil residence with no intention of leaving shortly is sufficient, and time is the principal element in the domicil."

Sect. 90.

Presumption of domicil arises from residence. How rebutted.

Primâ facie the presumption arising from actual residence in a place, is that the party is there *animo manendi* (*t*). Directly, however, it appears that the residence was not coupled with any real *animus manendi*, the presumption arising from the mere fact of actual residence is rebutted. Hence, if a man has merely come into a foreign country to accomplish a particular purpose intending to return to his own country directly such purpose has been accomplished, he will not in general be considered to have acquired even a commercial domicil by a residence connected with such purpose (*u*). And the same principle applies to all cases of involuntary residence in a foreign country; for instance, if a man is detained on the breaking out of hostilities in an enemy's country, this forced residence will not impress him with the character of an alien enemy (*x*). In the latter class of cases there is no *animus manendi* at all, but merely a *compulsio manendi:* in the former there is no *animus manendi* in the sense requisite to gain a domicil.

Residence in belligerent country for special purpose.

91. It is principally in these cases, in which parties having originally left their own country for some special purposes of pleasure, or of business, continue to reside for a long time in a foreign country in the prosecution of such purposes, that the question of domicil becomes most difficult.

If the party continues to reside in the foreign land for some time after he has accomplished the purpose for which he originally went there, such continued residence, especially if accompanied by trading, will be held to operate a change of domicil (*y*). Further, a party cannot remain an unlimited or indefinite time in a foreign country, even for the

(*t*) The Bernon (1798), 1 C. Rob. 102; The Diana (1803), 5 C. Rob. 60; The President (1804), *ibid.* 277; The Ocean (1804), *ibid.* 90.

(*u*) The Harmony (1800), 2 C. Rob. 322.

(*x*) Per Lord Ellenborough in Bromley *v.* Hesseltine (1807), 1 Camp. 77; The Ocean (1804), 5 C. Rob. 90.

(*y*) So held in a case decided in the United States, where a foreigner, having come to New York for the recovery of his health, continued there after he had recovered, and engaged more or less in trade: Elbers *v.* United Ins. Co. (1819), 16 Johns. New York Rep. 128.

Sect. 91.

accomplishment of a special purpose, without assuming the national character of the country of his residence (*z*). It is with reference to this class of cases that Lord Stowell says: "Be the occupation what it may, it cannot happen, but with few exceptions, that mere length of time shall not constitute domicil" (*a*).

On the other hand, where there has not been originally any intention of making a protracted stay, but only of residing for a limited time, and a definite purpose; but the period of residence has been extended by direct constraint, such residence, however protracted, will not change the original domicil (*b*); and where a treaty allows aliens a definite period of time for the purpose of realizing their property and leaving the territory, no presumption of an intention to reside will arise from their stay during that period (*c*).

The great test of domicil is the *animus manendi*.

92. It may therefore be laid down as a general rule that the chief point to be considered is the *animus manendi:* even the shortest residence, if with a design of a permanent settlement, stamps the party so residing with the national character (*d*).

What will be considered as evidence of an *animus manendi*.

To ascertain the real intention of the party himself, no circumstance can be regarded as unimportant which can in any way tend to throw light upon it, and the amount of evidence required to establish an *animus manendi* must, of course, vary with the circumstances of the particular case.

Thus, slighter evidence would be required to determine the domicil of a man returning to his own country, than of the

(*z*) See the judgment of Lord Stowell in The Harmony (1800), 2 C. Rob. 322.

(*a*) The Harmony (1800), 2 C. Rob. 322, at p. 325. See also Tabbs *v.* Bendelack (1801), 4 Esp. 108; The Ann Green (1812), 1 Gallison, Adm. Rep. 274; Marryatt *v.* Wilson, Ex. Ch. (1799), 1 B. & P. 430; *S. C.*, in the K. B. (1798), 8 T. R. 31; The Friendschaft (1818), 3 Wheaton, 14, 51.

(*b*) See The Ocean (1804), 5 C. Rob. 90.

(*c*) The Diana (1803), 5 C. Rob. 60.

(*d*) The Diana (1803), 5 C. Rob. 60; The Venus (1814), 8 Cranch, S. C. R. 253; 1 Kent, Com. 76.

Sect. 92.

same man going to reside in a foreign land. In the former case there is a natural presumption that the party is returning to re-assume his original character; in the other the natural presumption rather is, that he is not going to make his home in the foreign country, but intends to return thence to his own, when he shall have accomplished the objects of his journey. Hence a national character, acquired in a foreign country by residence, changes immediately the party has left such country *animo non revertendi;* and this is especially the case if he be returning to his native country, *sine animo revertendi*. In such case the native domicil revives while he is yet *in transitu*, for it very easily reverts, and is re-acquired the moment the foreign domicil is abandoned (*e*). But here, as in all other cases, the *animus manendi*, or, rather, the *animus non revertendi*, is the all-important test; and therefore a mere return to a man's native country, without any intention to abandon his foreign domicil, does not, as we have seen, work any change of domicil (*f*). Thus, where a British-born subject, who had been adopted, and acquired a domicil, as a citizen of the United States, returned for a few days to the British dominions, in the course of prosecuting a voyage from America to the East Indies, his native national character was held not to have reverted by this limited stay in his native country for a temporary purpose (*g*). So a British-born subject, having a mercantile establishment in Lisbon, was held, in the United States, not to have lost the Portuguese national character by returning to England for a special purpose (*h*).

Leaving a foreign country *animo non revertendi*.

(*e*) So held by Lord Stowell in The Indian Chief (1801), 3 C. Rob. 12, at p. 20. See also La Virginie (1804), 5 C. Rob. 98. This passage was quoted with approval by Scrutton, L. J., in Tingley *v.* Müller, [1917] 2 Ch. 144, at p. 174. On the other hand, Lord Cozens-Hardy, M. R., was of opinion that a German who had resided many years in England, and left after the outbreak of war with the intention of returning to Germany, did not become an alien enemy until he actually took up his residence in Germany: *ibid.*, at p. 155. On the view taken of the facts by the Court, it was unnecessary to decide this point.

(*f*) Wilson *v.* Marryatt (1798), 8 T. R. 31; The Friendschaft (1818), 3 Wheaton's Supreme Court R. 14, 51; The Ann Green (1812), 1 Gallison's R. 274; see also The Indian Chief (1801), 3 C. Rob. 12.

(*g*) Wilson *v.* Marryatt (1798), 8 T. R. 31.

Sect. 92.

Trading the strongest proof of *animus manendi*.

93. The strongest proof of a domicil in a foreign country is a commercial establishment there; this fact alone is sufficient to impress a man with the national character as far as relates to all his property connected with such establishment, even though he may not be actually resident in the country (*i*): when coupled with the additional fact of residence, it amounts to the strongest conceivable case of domicil. "No position, in fact," says Chancellor Kent, "is more clear than this, that if a person goes into a foreign country and engages in a trade there, he is to be considered a merchant of that country, and a subject to all civil purposes, whether that country be hostile or neutral" (*k*). "Persons resident in a country and carrying on trade there, by which both they and the country are benefited, are to be considered the subjects of that country, at least, so far as to subject their property to capture by a country at war with that in which they live" (*l*). This rule applies to the consul of a neutral state in the enemy's country, when he carries on trade there (*m*).

In the same way, if the natives of a belligerent state are resident and carrying on their business in a neutral country, they are, for all commercial purposes, regarded as subjects

Sect. 93.

of the neutral state, and enjoy all the privileges, and are subjected to all the inconveniences, of a neutral trade (*n*).

Every party, in short, who resides and trades in a country is regarded, in mercantile law, as a subject of that country, and must take the advantages and disadvantages, whatever they may be, of the country of his residence.

British subjects residing and trading in hostile country deemed to be enemies.

Involuntary residence in a hostile country unaccompanied by trading not a proof of hostile character.

This general principle extends to the case of British subjects, residing either in hostile or neutral countries (*o*). The rigour of this principle, indeed, must not be extended to cases in which the residence in the hostile country is not accompanied with trading, and does not clearly appear to have been voluntary. Thus, where the partner of a mercantile house here sailed for America, with his wife and family, after war had, in fact, been declared between this country and the States, but before he knew of it, or had any reason to suspect it; and after his arrival in America he continued to reside there throughout the war, but without engaging in trade; and it did not clearly appear that his stay was not compulsory; Lord Ellenborough held, that he could not, by such residence, be considered to have acquired a hostile character (*p*).

Subject domiciled when war breaks out in the enemy's country.

The Venus.

94. If the subject of one state has acquired a domicil in a hostile state, by residing and keeping up a commercial establishment there before the breaking out of hostilities, it has been decided in the United States that his property, shipped before knowledge of the war, but while his acquired

Sect. 94.

domicil continued, would be liable to capture, on the ground that his permanent residence had stamped him with the national character of the hostile country. This was the point decided in the celebrated case of The Venus (*q*). In that case some American merchants, who had gained a domicil by residing and carrying on trade in England, before hearing of the declaration of war by the United States against Great Britain in 1812, and while they had no particular expectation of it, nor any intention of ceasing to reside in this country, shipped cargoes to the United States, which were captured by American cruisers, after the declaration of hostilities: a majority of the judges of the Supreme Court decided (against the opinion, however, of Marshall, C. J.) that the property was liable to capture as belonging to those who, by trading and residing in an actually hostile country, were to be regarded, for all commercial purposes, as alien enemies. Marshall, C. J., dissented, on the ground that the parties should have had an opportunity given them, after they knew of the declaration of war, to show by their acts whether or not they intended to continue to make the hostile country the place of their permanent abode (*r*).

British subjects residing in a neutral country.

95. Upon the same principle British subjects residing and carrying on trade in a neutral country are admitted, in respect to their *bonâ fide* trade, to all the privileges of a neutral character (*s*). Thus, a British subject, adopted by and trading in the United States, was permitted to prosecute a voyage from America to the East Indies in a manner which would have been illegal in a British subject, but was permitted by treaty to the citizens of the United States (*t*).

(*q*) The Venus (1814), 8 Cranch's Supreme Court R. 253; see 1 Kent, Com. 78; and the remarks of Phillips, vol. i. s. 159, and n. (*a*), who inclines to the opinion of Marshall, C. J., and refers to The Ocean (1804), 5 C. Rob. 90, as supporting his view of the case.

(*r*) This opinion was approved by Mathew, J., in Nigel Gold Mining Co. *v.* Hoade, [1901] 2 K. B. 849, 853. See § 95, *infra*.

(*s*) See The Emanuel (1799), 1 C. Rob. 302. Lord Stowell annexes to this rule the qualification that he must do nothing inconsistent with his allegiance: *Ibid.*

(*t*) Wilson *v.* Marryatt (1798), 8 T. R. 31.

Sect. 95.

He may also, like any other neutral, carry on trade with powers at war with his own country. Thus, in the case of The Danaöus, which came before the House of Lords in 1802, a British-born subject, resident and trading in Portugal, was allowed the benefit of the Portuguese neutral character, so far as to render his trade with Holland, then at war with England, not impeachable as an illegal trade (*u*). The same rule was afterwards applied to a natural-born British subject, domiciled in the United States; and it was held that he might lawfully trade to a country at war with England, but at peace with the United States (*x*).

Alien enemy migrating *flagrante bello*.

It has, however, been decided in the United States (and the decision seems thoroughly well founded), that an alien enemy is not permitted to acquire a neutral domicil for the purpose of protecting his trade if he emigrate into the neutral country from his own, *flagrante bello*. At all events, the circumstances attending such a course will be closely scrutinized, with a view of ascertaining his object (*y*).

Neutral leaving belligerent country on outbreak of war.

Though a neutral may have been resident and carrying on trade in a foreign country, up to the time of the breaking out of hostilities between that country and our own; yet if he then, or shortly afterwards, breaks up his establishment in the enemy's country and comes to reside here, he will not be precluded from recovering in our Courts, during the war, on a policy effected before the commencement of hostilities, to protect his separate share as part owner in a ship and cargo, the other moiety of which was owned by the alien enemy, in conjunction with whom he had, before the declaration of hostilities, been carrying on his establishment in the foreign country (*z*).

(*u*) (1802); cited in 4 C. Rob. 255, n.

(*x*) Bell *v.* Reid (1813), 1 M. & S. 726.

(*y*) The Dos Hermanos (1817), 2 Wheaton's Supreme Court R. 76; cited 1 Kent, Com. 75; 1 Phillips, Ins. s. 166. See also per Sir Samuel Evans in The Flamenco (1915), 1 Brit. & Col. Prize Cases, 509, at p. 514; cf. Duguet *v.* Rhinelander (1802), 2 Johns. 476.

(*z*) Rotch *v.* Edie (1795), 6 T. R. 413. Such seems to be the true effect of the case. See a note of Lord Campbell's to his report of Bromley *v.* Hesseltine (1807), 1 Camp. 75. The rule may be stated generally

Sect. 96.

National character of ports occupied by the enemy.

96. Where the party interested is himself a neutral, and the policy is effected to cover goods consigned to him at a neutral port, such policy is not rendered void by the neutral's happening at the time to be resident in a place, which, though situated in the dominions of a neutral, is then occupied by the troops of the enemy (*a*).

During the unexampled circumstances of Napoleon's wars, it frequently became important to decide upon the national character of ports, which, though nominally neutral, were yet under military occupation by the troops of the French Emperor. As we shall have occasion to consider these cases elsewhere, it will be sufficient in this place to state the two principles upon which they were mainly decided. 1st. That a port belonging to a neutral state, though coerced, or even occupied, by the forces of a belligerent, does not, by virtue of such aggression, cease to be neutral and become hostile, provided it still retains its own institutions and its own civil government. 2nd. That the most potent evidence in time of general war, as to the hostile or non-hostile character of any

that a neutral who resides or trades in a belligerent country will preserve his neutral character if he leave the country with his property *sine animo revertendi*. If on the outbreak of hostilities he promptly take steps to leave, he will not be considered an enemy, even when still in the belligerent state, provided that he carries on his preparations without delay. But a mere intention to leave, not accompanied by any overt act, is not sufficient: The President (1804), 5 C. Rob. 277, 280; The Baltica (1855), Spinks' Prize Cas. 264, 267; 1 Kent, Com. 78. See The Anglo-Mexican, [1918] A. C. 422, at p. 425. The same principle is, no doubt, applicable in the case of a British subject with a commercial domicil in an enemy country. In Nigel Gold Mining Co. *v.* Hoade, [1901] 2 K. B. 849, 853, the plaintiffs were a metal company registered in Natal, who owned a mine in the Transvaal. A few days after war was declared by the South African Republic against this country some gold, the product of their mine, was seized therein by the agents of the Republic. The plaintiffs shut down their mine when war was declared, and there was nothing to show that they intended to continue their business or mining operations in the Transvaal during the war. Mathew, J., held that they could recover on a policy on the gold. "The sounder opinion," said the learned judge, "would seem to be that the subject of one country, surprised by a declaration of war in the country where he has a commercial domicil, ought to have time allowed him to free himself from his commercial engagements and effect a removal of his property."

(*a*) Bromley *v.* Hesseltine (1807), 1 Camp. 75.

Sect. 96.

port, is the declaration of our own government regarding it; if our own government, either directly or indirectly, recognizes any of the ports of a hostile state, or of its colonial possessions, as neutral, or non-hostile ports, that is binding on our Courts of Justice (*b*).

Property connected with trading establishment in hostile country.

97. Domicil, however, is not always the test of national character for commercial purposes. Thus, the act of trading or keeping on foot a mercantile establishment in the enemy's country, even without residence there, impresses a hostile character on all the property connected with such establishment (*c*).

This principle, however, only applies to property or transactions connected with the hostile firm. Thus if a neutral have two houses of business, one in the neutral and the other in the belligerent country, his property connected with the neutral house will be protected from seizure, while his property connected with the hostile establishment will be liable

(*b*) The Dart and The Happy Couple (1808), cited in The Manilla, Edwards' Adm. R. 1, 2; The Pelican (1809), Edwards' Adm. R. App. D.; Bromley *v.* Hesseltine (1807), 1 Camp. 75; Donaldson *v.* Thompson (1808), *ibid.* 429; Johnson *v.* Greaves (1810), 2 Taunt. 344; Atkinson *v.* Abbott (1809), 11 East, 135; Hagedorn *v.* Bell (1813), 1 M. & S. 450; see also Blackburn *v.* Thompson (1811), 3 Camp. 61. See *post*, §§ 757, 758. By Proclamation of the 16th February, 1915, the Trading with the Enemy Proclamations were applied to territory of allied or neutral States in the effective military occupation of an enemy. As to Belgium, see Société Anonyme Belge, &c. *v.* Anglo-Belgian Agency, Ltd., [1915] 2 Ch. 409 (C. A.). For a case as to the status of a Russian corporation having its head office at Petrograd, which was occupied at the time of the action by the Bolshevists against whom British forces had been engaged in hostilities, see Eastern Carrying Ins. Co. *v.* National Benefit Life and Property Ass. Co. (1919), 35 T. L. R. 292.

(*c*) The Vigilantia (1798), 1 C. Rob. 1; The Portland (1800), 3 C. Rob. 41; The Dree Gebroeders (1802), 4 C. Rob. 232; The Anglo-Mexican, [1918] A. C. 422, at p. 425. The converse of this rule is not applied in the case of a resident in a hostile country who is interested in a neutral house of business or adventure. All his property, whatever be the nature of the trade in which it is engaged, is considered enemy's property. The Clan Grant (1915), 1 Brit. & Col. Prize Cases, 272; The Roland (1915), *ibid.* 188; The Hypatia, [1917] P. 36; 1 Duer, Ins. 524. Similarly, the interest of a British merchant in the goods of a neutral firm has been held to be British property. The Franklin (1805), 6 C. Rob. 127, 132.

Sect. 97.

to it (*d*). Moreover, either a British subject or a neutral who is interested in a house of trade in an enemy country must be allowed a reasonable time in which to dissociate himself from the business; and if in such time he takes steps towards that end, his interest in the property of the house will not be subject to confiscation (*e*). On the same principle, there may be a partnership between two persons, one residing in a neutral and the other in a belligerent country, and the trade of one of them with the enemy will be held lawful, and that of the other unlawful, and consequently the share of one partner in the joint traffic will be condemned, and that of the other restored (*f*).

Produce of enemy's soil.

The possession of an estate in the enemy's dominions impresses on the owner a hostile character in respect of the produce of his estate, during its transportation to another country, although he reside in a neutral State (*g*). The reason is that the proprietor has incorporated himself with the permanent interests of the nation, as a holder of the soil (*h*).

Neutral engaging in privileged colonial or coasting trade of the enemy.

98. A neutral, on the breaking out of hostilities, has the same rights of carrying on trade with either of the belligerents as he had before the war commenced, and therefore his property engaged in trade with the enemy is in general insurable in this country (*i*); but if instead of carrying on his trade on the ordinary footing of a foreign merchant in

(*f*) The Portland (1800), 3 C. Rob. 41; The Herman (1801), 4 C. Rob. 228; The Jonge Klassina (1804), 5 C. Rob. 297.

(*g*) The Phœnix (1803), 5 C. Rob. 20; The Vrow Anna Catharina (1804), 5 C. Rob. 161, 167. The Supreme Court of the United States assented to this rule in Bentzon *v.* Boyle (1815), 9 Cranch, 191. In Nigel Gold Mining Co. *v.* Hoade, [1901] 2 K. B. 849, Mathew, J., expressed the view that these decisions would not be followed now; but the rule was applied in the late war in The Asturian, [1916] P. 150.

(*h*) Per Lord Stowell, 5 C. Rob. at p. 167.

(*i*) See Bell *v.* Reid (1813), 1 M. & S. 726.

Sect. 98.

time of peace, he do so as a privileged trader of the enemy; or if the trade itself consist of a colonial carrying trade between the hostile mother country and any one of her foreign settlements to which neutral nations had not been admitted previous to the war, the neutral, in respect of such privileged or unusual trade, is regarded as an alien enemy, and cannot maintain an action here on a policy effected to protect it (*k*).

Consuls carrying on such trade.

The consul of a neutral nation in this country, if engaged in such privileged colonial or coasting trade of the enemy, loses his neutral character (*l*); and his consular residence does not protect his goods concerned in such trade from seizure and condemnation as enemy's property (*m*).

National character of a corporation.

99. The question what is the national character of a company incorporated under the law of an enemy has become one of great practical importance. A corporation is an entity having an independent legal existence (*n*), and there is authority for the rule that it derives its national character from the State under whose laws it is incorporated, whatever be the nationality of its members. Thus a ship owned by a British company, some of whose shareholders are aliens, can be registered as a British ship under the Merchant Shipping Act, although aliens are not qualified to own British ships, or shares in British ships (*o*). In Driefontein Consolidated Mines *v.* Janson (*p*), the plaintiffs were a Transvaal mining company, incorporated and registered according to the laws of the South African Republic, and carrying on in the territory of the latter the business of extracting gold from their mines. The company had a London office and committee of

Sect. 99.

management, and its shareholders were nearly all resident outside the Transvaal, and not subjects of the Republic. The question was raised whether the company was an enemy during the war between the Republic and this country, and although, except for the purposes of the judgment of Vaughan Williams, L. J., it was unnecessary to determine this question, as it was held that the loss took place before the commencement of hostilities, there was a large consensus of judicial opinion that the company was a subject of the Republic, and, therefore, during the continuance of the war, an enemy (*q*). But where a company registered in Natal, whose only property was a gold mine in the Transvaal, had received a supplementary incorporation in the Transvaal (the object of which was to enable the company to sue and be sued there in its corporate name), Mathew, J., held that it was a British company and could therefore recover under a policy of insurance for a loss which occurred after the war had commenced (*r*).

Daimler Co. *v.* Continental Tyre and Rubber Co.

The question of the national character of a corporation arose again during the late European war with reference to a company incorporated in England, which had been formed for the purpose of selling goods manufactured in Germany by a German company. The bulk of the shares were held by the German company, and the remainder (with the exception of one share) by German subjects resident in Germany. There were four directors, all German subjects, of whom three were resident in Germany and the fourth, who had previously resided in this country, left for Germany on the outbreak of war. The Court of Appeal held that the company, being incorporated under the laws of this country, must be regarded as a British corporation, and was entitled to sue during the war for the payment of a trade debt (*s*).

(*q*) See per Mathew, J., [1900] 2 Q. B. at p. 346; per Romer, L. J., [1901] 2 K. B. at p. 437; per Lords Davey, Brampton and Lindley, [1902] A. C. at pp. 498, 501, 505. *Contra*, A. L. Smith, M. R., [1901] 2 K. B. at pp. 426, 427; Vaughan Williams, L. J., *ibid.* at p. 433.

(*r*) Nigel Gold Mining Co. *v.* Hoade, [1901] 2 K. B. 849.

(*s*) Continental Tyre and Rubber Co. (Great Britain), Ltd. *v.* Daimler Co., Ltd., [1915] 1 K. B. 893.

Sect. 99.

This decision was unanimously reversed by the House of Lords (*t*), on the ground that the action was commenced by the Secretary without authority and ought to be struck out; but only two of the eight Law Lords before whom the appeal was heard, Lord Shaw and Lord Parmoor, agreed with the view that the British registration of the company was conclusive as to its national character. Lord Halsbury considered that the company was in substance a partnership of German traders (*u*), Lord Atkinson was of opinion that the national character of the company depended on its "place of residence," *i.e.*, on whether the business centre from which the affairs of the company were directed and controlled was in England or in Germany (*x*). This view was elaborated by Lord Parker, in whose judgment Lords Mersey, Kinnear and Sumner concurred. He formulated the following propositions:—

(1) A company incorporated in the United Kingdom is a legal entity, a creation of law with the status and capacity which the law confers.

(2) Such a company can only act through agents properly authorized, and so long as it is carrying on business in this country through agents so authorized and residing in this or a friendly country it is *primâ facie* to be regarded as a friend.

(3) Such a company may, however, assume an enemy character. This will be the case if its agents or the persons in *de facto* control of its affairs, whether authorized or not, are adhering to the enemy or taking instructions from or acting under the control of enemies.

(4) The character of individual shareholders cannot of itself affect the character of a company. The enemy character of individual shareholders and their conduct may, however, be very material on the question whether the company's agents, or the persons in *de facto* control of its affairs, are

(*t*) Daimler Co., Ltd. *v.* Continental Tyre and Rubber Co. (Great Britain), Ltd., [1916] 2 A. C. 307.
(*u*) [1916] 2 A. C. at p. 316.
(*x*) *Ibid.* at p. 319.

Sect. 99.

in fact adhering to, taking instructions from, or acting under the control of enemies. This materiality will vary with the number of shareholders who are enemies and the value of their holdings.

(5) In a similar way a company registered in the United Kingdom, but carrying on business in a neutral country through agents properly authorized and resident here or in the neutral country, is *primâ facie* to be regarded as a friend, but may, through its agents or persons in *de facto* control of its affairs, assume an enemy character.

(6) A company registered in the United Kingdom but carrying on business in an enemy country is to be regarded as an enemy.

The test of control has been applied in prize cases in determining the national character of the property of a corporation. Thus goods owned by a British company, of which all the shares except six were held by a parent German company and four of these six by the German directors of the parent company, were condemned as enemy property (*y*). Again, the fact that a ship was owned by a company registered under the laws of this country or of a neutral State and sailed under the British or the neutral flag has been held not to be conclusive. In either case, where the control of the company was in the hands of enemies, the vessel was condemned or detained as enemy property (*z*).

In conclusion, it is submitted that the commercial domicil of a company registered under the laws of this country or of a neutral country will be deemed to be hostile (1) if the company is *de facto* controlled by enemies, or (2) if it is carrying on its business in an enemy country (*a*).

Sect. 100.

Europeans residing and trading in Asiatic or African countries, with extra-territorial privileges.

100. Europeans, residing and trading under the protection of factories or colonial establishments in Asia or Africa were held to have the national character of the European mother State to which the establishment belonged, and under whose protection they lived and traded; the reason being that Europeans, so circumstanced, did not become the subjects of the Asiatic or African power in whose dominions such trading establishment was situated (*b*).

The factory system is now obsolete; but the principle was applied in the late war in the case of Europeans residing in Eastern ports, where they enjoy the privileges of extra-territoriality. A firm in Shanghai consisted of four partners, of whom two were British, and the other two German subjects. The British partners were registered at the British Consulate, but the firm was registered in the German Consulate as a German firm, and Sir Samuel Evans held that the firm must be regarded as an enemy house of trade (*c*); but the interest of the British partners in property of the firm seized as prize was released, on proof that on the outbreak of war they had taken reasonable steps to dissociate themselves from their German partners (*d*).

Such are some of the more important points in the jurisprudence of this country and the United States on the subject of national character, as affected by domicil or course of trade. It has not been deemed desirable further to encumber a work devoted to a special subject, by references to authorities which more properly range themselves under other heads of legal inquiry.

Lords decided that a foreign corporation may "reside" in this country within the meaning of the Income Tax Act, 1853.

CHAPTER VI.

COURSE OF BUSINESS IN SEA INSURANCE—RELATIONS BETWEEN ASSURED, BROKER, AND UNDERWRITER.

SECT.
Actual Course of Business as between Assured, Broker and Underwriter ..... 101—105
Legal Position ..... 106—109
Rights of Set-off, and application of Mutual Credit Clause in event of Bankruptcy ..... 110—118
Rights and Duties as between Assured and Broker ..... 119—123
Rights of Assured against Underwriter—What discharges the Underwriter ..... 124—129
Broker's Lien on Policy ..... 130—134

Employment of insurance brokers.

101. In this country almost all policies are effected by insurance brokers, whose business it is to act as middlemen between those merchants and shipowners who wish to insure their property, on the one hand, and the private underwriters or public insurance companies, on the other. The broker is the agent of the assured, not of the underwriter, and therefore he owes no duty in the transaction to the latter, on which an action for negligence can be founded (*a*). *Primâ facie*, the business of an insurance broker would seem to be limited to receiving instructions from his principal as to the nature of the risk, and the rate of premium at which he wishes to insure; communicating these facts to the underwriters; effecting the policy with them on the best possible terms for his employer; paying them the premium; and receiving from them whatever may be due in case of loss.

The usage, however, of our great commercial metropolis

(*a*) Empress Ass. Corp. *v.* C. T. Bowring & Co., Ltd. (1905), 11 Com. Cas. 107. See also Glasgow Ass. Corpn. *v.* Symondson (1911), 16 Com. Cas. 109. Sometimes, however, the broker may be the agent of both parties with regard to returns of premium. See *post*, § 116.

Sect. 101.

has introduced modes of transacting business between insurance brokers and underwriters in London, apparently intended to facilitate the transaction of insurance business on an extensive scale, by substituting, as far as possible, credits for payments, in all dealings between broker and underwriter; but one effect of the system has been to introduce a considerable degree of complexity into the relations subsisting between the assured, the broker, and the underwriter.

Provisions of the Act as to the course of business.

The provisions of the Marine Insurance Act, 1906, which concern these relations are contained in sects. 52, 53 and 54, and are as follows:—

When premium payable.

> Sect. 52. Unless otherwise agreed, the duty of the assured or his agent to pay the premium, and the duty of the insurer to issue the policy to the assured or his agent, are concurrent conditions, and the insurer is not bound to issue the policy until payment or tender of the premium.

Policy effected through broker.

> Sect. 53.—(1) Unless otherwise agreed, where a marine policy is effected on behalf of the assured by a broker, the broker is directly responsible to the insurer for the premium, and the insurer is directly responsible to the assured for the amount which may be payable in respect of losses, or in respect of returnable premium.
>
> (2) Unless otherwise agreed, the broker has, as against the assured, a lien upon the policy for the amount of the premium and his charges in respect of effecting the policy; and, where he has dealt with the person who employs him as a principal, he has also a lien on the policy in respect of any balance on any insurance account which may be due to him from such person, unless when the debt was incurred he had reason to believe that such person was only an agent (*b*).

Effect of receipt on policy.

> Sect. 54. Where a marine policy effected on behalf of the assured by a broker acknowledges the receipt of the premium, such acknowledgment is, in the absence of fraud, conclusive as between the insurer and the assured, but not as between the insurer and broker.

(*b*) An insurance is not a necessary for a ship, and therefore neither the broker nor the underwriter can proceed *in rem* under s. 6 of the Admiralty Court Act, 1840, against a foreign ship for premiums: The André Théodore (1904), 10 Asp. M. C. 94.

Sect. 101.

Further, as the course of business in marine insurance is to a large extent regulated by usage, sect. 87 of the Act (*c*) must be considered in connection with these provisions. For, as we have already seen in the chapter on the Construction of Sea-Policies, the usages of trade are often part of the contract. Indeed the rules contained in sect. 53 of the Act are themselves derived from mercantile usage (*d*).

Outline of course of business between assured, broker, and underwriter.

102. The actual course of the business of marine insurance, as carried on in London and elsewhere in this country, is as follows:—A broker on receiving orders from his principal to effect an insurance prepares what is commonly known as a "slip." This is merely a slip of paper containing rough notes relating to the intended insurance. It is, however, sufficiently precise to enable anyone conversant with the business to draw up, without difficulty and without going beyond its four corners, the policy which it is proposed to effect. The broker then takes the slip round to the various underwriters to whom he may be disposed to offer the business; these may be private Lloyd's underwriters, or they may be underwriters on behalf of companies, or some of one class and some of another. Those underwriters who are willing to accept the risk, whether private or representing companies, signify their willingness by initialing the slip for the amounts for which they are willing to become insurers. When the broker has succeeded in getting the slip initialed for the full amount required, it is then his duty to procure the execution of policies in accordance therewith. The old practice was, in so far as the initials on the slip were those of Lloyd's underwriters, for the broker after preparing the policy to take it round to the different underwriters in succession for their signature; owing, however, to the pressure of business and the shortage of staff during the recent war, a signing bureau was established under the authority of Lloyd's, but in a separate building; the broker takes the policy and slip to this bureau, where, after the policy has been examined

The slip.

(*c*) See *ante*, § 55. (*d*) *Ante*, § 66.

Sect. 102.

and compared with the slip, the signatures of all those underwriters who have initialed the slip are affixed by clerks. This system though very largely adopted has not yet become universal, and when policies are not signed in the bureau the old practice subsists under which the broker submits the policy to the individual underwriters. The insurance companies always prepare their own policies, and in order to enable them to do so, the broker fills up a form which is also called a slip, and sends one to each company. This slip is an entirely distinct document from the slip which we have already explained, and is merely a memorandum of the engagement which the particular company has already entered into by initialing the "slip" proper (*e*).

As soon as the policy is completed, the underwriters enter the risk in their books, and debit the broker with the premium.

Possession of policy.

103. The broker, having effected the policy, usually retains it in his possession (*f*). He may do so either as of right, in exercise of his lien for premiums, or as a matter of convenience; for insurance brokers are now very generally employed not merely to effect insurances, but to attend to all business relating thereto that may subsequently arise, which the possession of the policy enables them to do.

When a loss occurs in respect of which the assured desires to make a claim on the policy, he instructs the broker to do so, sending him the policy if it is not already in the broker's possession (*g*). The broker then ascertains (*h*) the percentage

(*e*) The term "slip" is used, in Liverpool at least, in yet a third sense, to denote the covering or insurance note, by way of provisional insurance, issued by a company in order to signify its acceptance of a risk, and its undertaking for the subsequent issue of a stamped policy. See Gow, Mar. Ins. App. Ca. and Cb.

(*f*) This is so more particularly as regards policies on ship. Those on goods are often handed over forthwith to the assured who then may pass them on to bankers or other parties, together with bills of lading, as security for advances or otherwise.

(*g*) In a recent case it was contended that an action cannot be maintained for a loss, unless the plaintiff has the policy in his possession; but

(*h*) See note (*h*), next page.

Sect. 103.

of the loss which ought to fall upon the policy—100 per cent. if it be a total loss, or a smaller percentage in case of an average loss—employing average adjusters if necessary, and endorses the ascertained percentage upon the policy, with the word "settled" prefixed. He then takes the policy, so endorsed, round to the several underwriters (*i*), who, unless they see reason for resisting the claim, sanction it with their initials and enter the amount to the broker's credit. This process is called "settling the claim." Any underwriter who is not satisfied as to the claim, or who proposes to resist it, simply refuses to attach his initials. Disputed claims are dealt with in the ordinary course of law. Of course, if the claim is one which it is known will be generally disputed, the process of ascertainment of the percentage and the attempt to settle will be postponed until after the question of liability has been determined (*k*).

"Settling the claim."

Payment of premium.

104. Sect. 52 of the Marine Insurance Act, as we have seen, provides that, unless otherwise agreed, the insurer is not bound to issue the policy until payment or tender of the premium (*l*). When, however, the insurance is made through a broker, the recognized course of business, as will appear

Channell, J., did not agree with this contention, although he admitted that non-production of the policy may be a ground for suspecting that some one other than the person putting forward the claim has an interest in the policy: Swan *v.* Maritime Ins. Co., [1907] 1 K. B. 117.

(*h*) In a great majority of cases this work has been already done by an average adjuster employed by the assured. As to the position and functions of an average adjuster, see Wavertree Sailing Ship Co. *v.* Love, [1897] A. C. 373.

(*i*) A system analogous to that explained in § 102 in regard to signing has been adopted by a large number of underwriters for the settlement of claims, but the bureau is not yet so largely used for settling as it is for signing.

(*k*) Such is the present practice. In order, however, to understand expressions which occur in some of the earlier cases, it should be noted that what is now called "settling the claim" used to be called "adjusting the policy." "Striking off the loss" was where the underwriter, on passing the loss to the credit of the broker, struck through his subscription to the policy with his pen. See 6th ed. p. 198, present ed. § 1241. These expressions and formalities are not now used.

(*l*) *Ante*, § 101.

Sect. 104.

presently, is such that the insurer may have no right to an immediate payment (*m*).

Accounts as between broker and underwriter.

The custom of the marine insurance companies is that the premium on all policies issued during the month falls due upon the 8th of the following month. Premiums are subject to a deduction of 5 per cent. brokerage and 10 per cent. discount (*n*). The 5 per cent. brokerage is of course retained by the broker; the 10 per cent. discount is allowed by the broker to his principal (*o*). Where, as is sometimes done in insuring with companies, the insurance is effected direct, without the intervention of a broker, both percentages are allowed by the company to the assured.

Losses and averages are paid by cheque in each case—the cheque being signed at the board meeting at which the claim is passed, and delivered to the broker on his calling for it. It is not the practice for brokers and the insurance companies to have cross accounts for premiums and for losses, and to settle balances. Separate cheques for each are written out and handed over (*p*).

In the case of Lloyd's underwriters, the premiums on insurances effected during the month likewise become due on the 8th of the following month. Claims fall due seven

(*m*) See Mar. Ins. Act, 1906, s. 87, *ante*, § 55.

(*n*) This 10 per cent. discount is calculated on the premiums after deduction of the 5 per cent. brokerage—the total deductions thus amounting to 14½ per cent.

(*o*) This custom, as a whole, was recognized by Scrutton, J., in Glasgow Ass. Corp. *v.* Symondson (1911), 16 Com. Cas. at p. 114, and was proved in Green *v.* Tughan (1913), 30 Times L. R. 64, Pickford, J. In an earlier case, when the right of the principal to the discount seems not to have been so well established, the Court of Appeal allowed the agents to retain the 10 per cent. discount which they had received for many years, during which the principal made no enquiry as to their remuneration: Baring *v.* Stanton (1876), 3 Ch. D. 502; see also Great Western Ins. Co. *v.* Cunliffe (1874), L. R. 9 Ch. 525.

(*p*) For a running contract of re-insurance, under which monthly losses were to be deducted from monthly premiums, and the balance paid to the brokers, and by them to trustees to secure the re-insurers against further losses, and for the position after the re-insuring company was ordered to be wound up, see In re Law Car and General Ins. Corp. (1911), W. N. 91, 101.

Sect. 104.

days after settlement. It is customary, however, to carry on current accounts, settling claims against premiums, and passing cheques for the balance due at the end of each quarter. When a total loss, or a heavy average loss occurs, the broker may, if he please, claim payment seven days after settlement; but he will in this case be expected to pay the underwriter all premiums due on the 8th of the current month. Lloyd's underwriters allow the same brokerage and discount as those allowed by the companies.

Accounts between broker and assured.

105. The broker usually keeps his account with the assured in a manner similar to that which governs his own relations with the companies. Thus, premiums for the month are due on the 8th of the succeeding month; and losses are payable as soon as the amounts are actually received from the underwriter, or if the amount of a loss is not actually so received, but merely placed by the underwriter to the broker's credit in current account, then seven days after settlement of such loss. The broker deducts from the claim a commission of 1 per cent. and remits the balance to the assured.

This practice, however, merely illustrates what is usual. There is no recognized or binding custom as to these matters, and in fact special arrangements are often made. For example, if a large steamer is insured for twelve months, or if a floating policy is taken out on a series of cargoes, the premiums payable by the broker to the underwriter may amount to several thousands of pounds, which it may be inconvenient to the assured to provide all at once at the inception of the risk. In such a case special arrangements are sometimes made between the broker and the assured for the premiums to be paid by instalments. When this is done, the assured usually gives the broker written authority to cancel the policy in the event of any instalment not being duly paid. The broker is thus enabled to protect himself by cancelling the policy and receiving from the underwriter the monthly return of premium, which its terms provide for.

Commissions *del credere*.

For greater security to their customers, insurance brokers

Sect. 105.

frequently guarantee the solvency of the underwriters. This exposes them to greater hazard, and of course entitles them to a higher, or as usually it is, an additional, commission upon the business they perform. In such cases the brokers are said to act *del credere*, and the percentage which they are entitled to receive is called a commission *del credere*. This commission they are legally considered to be entitled to immediately upon entering into the contract, without waiting to see whether such guaranty do in the event subject them to loss (*q*). "The commission," said Lord Ellenborough in such a case, "was earned and to be paid to the party for entering into the contract of guaranty, and not in respect of the event, which was perfectly collateral" (*r*).

The above sketch is only intended to explain generally the course of business actually adopted in our commercial world. We do not say that in all points such practice tallies with the law. In what follows we propose to indicate the extent to which the practice is consistent with the law, either by being in original accord therewith, or by having become engrafted thereon by constant usage.

Broker alone liable to underwriter for premiums.

106. By virtue of a custom which had existed for more than a hundred years, it became established law that the assured could not be sued by the underwriter for premiums (*s*), nor could the latter set off unpaid premiums in an action brought by the assured on the policy for losses. Accordingly, sect. 53 (1) of the Marine Insurance Act,

(*q*) Caruthers *v.* Graham (1811), 14 East, 578.

(*r*) *Ibid.* As to the general law relating to the liability of *del credere* agents, the reader is referred to a masterly exposition of the subject by Judge Duer, who, as usual, collects and exhausts all the authorities. 2 Duer, 331—339, especially 337, *in notis*. Since the publication of Duer's work, it has been settled, in accordance with his view, that the *del credere* contract between the agent and his principal is not within the Statute of Frauds: Couturier *v.* Hastie (1852), 8 Exch. 40. See Harburg India Rubber Comb Co. *v.* Martin, [1902] 1 K. B. 778.

(*s*) In the United States it was held in Mannheim Ins. Co. *v.* Hollander (1901), 111 Fed. R. 549, that, no usage similar to the English one having been proved, the assured was liable to the underwriter for the premium on a policy effected by the broker.

Sect. 106.

1906, declares that "unless otherwise agreed, where a marine policy is effected on behalf of the assured by a broker, the broker is directly responsible to the insurer for the premium, and the insurer is directly responsible to the assured for the amount which may be payable in respect of losses, or in respect of returnable premium."

Legal relation of the parties and their broker.

The position is briefly but comprehensively described by Bayley, J., in these words: "According to the ordinary course of trade between the assured, the broker and the underwriter, the assured does not in the first instance pay the premium to the broker, nor does the latter pay it to the underwriter. But, as between the assured and the underwriter, the premiums are considered as paid. The underwriter, to whom, in most instances, the assured are unknown, looks to the broker for payment, and he to the assured. The latter pay the premiums to the broker only, who is a middleman between the assured and the underwriter. But he is not merely an agent: he is a principal to receive the money from the assured, and to pay it to the underwriters" (*t*).

Effect of acknowledgment in policy of payment of premium.

By sect. 54 of the Marine Insurance Act, 1906, "where a marine policy effected on behalf of the assured by a broker acknowledges the receipt of the premium, such acknowledgment is, in the absence of fraud, conclusive as between the insurer and the assured, but not as between the insurer and broker."

Origin of rule that broker alone liable for premiums.

The earlier editions of this work appear to have confined the rule that, as regards premiums, the broker is the debtor of the underwriter to policies which, such as Lloyd's, contain an express acknowledgment by the underwriter of the receipt of premium from the assured. There is undoubtedly some judicial sanction for this view of the origin of the present state of the law. But a few years ago it was held that the rule

(*t*) In Power *v.* Butcher (1829), 10 B. & Cr. 340; see also per Parke, J., at p. 347. The course of dealing between the parties may be such that the liability of a third party to the broker for premiums is substituted for that of the assured, *e.g.*, the liability of the managing owner of a ship. See Lamont, Nisbet & Co. *v.* Hamilton (1907), Sess. Cas. 628.

Sect. 106.

under discussion was based, not upon the receipt clause, but upon a general custom, and that it applied accordingly to all policies of marine insurance, whether containing such receipt clause or not. The action was brought by an insurance company against the assured for premiums on a policy which, so far from containing the receipt clause, embraced an express promise by the assured to pay the premiums to the company, and for the latter it was argued that the custom, which admittedly obtained in the case of Lloyd's policies, to treat the broker and not the assured as liable for the premiums had no application to, and was in fact inconsistent with, the present policy. But Collins, J., after explaining the origin of the custom, rejected this contention. "It is a well-recognised practice in marine insurance," said the learned judge, "for the broker to treat himself as responsible to the underwriter for the premiums; by a fiction he is deemed to have paid the underwriter, and to have borrowed from him the money with which he pays. If that is a correct explanation of the origin of the custom, it is as applicable to this form of policy as to a Lloyd's policy. No doubt there is here a contract to pay by the assured, but by custom the broker is treated as personally liable, the same fiction being applicable, namely, that the broker has paid the premium, and has so absolved the assured from his liability, having first borrowed the money from the underwriter to make the payment." This decision was confirmed by the Court of Appeal (*u*).

Broker alone liable, even where policy contains express promise by assured to pay the insurer.

(*u*) Universo Ins. Co. of Milan *v.* Merchants' Marine Ins. Co., [1897] 2 Q. B. 93; see also Power *v.* Butcher, *ubi supra*, especially at p. 347, per Parke, J.; and Dalzell *v.* Mair (1808), 1 Camp. 533; De Gaminde *v.* Pigou (1812), 4 Taunt. 246. In Dalzell *v.* Mair, which was an action by the assured against the underwriter to recover back a premium where the risk had never attached, Lord Ellenborough said: "I should completely knock up the insurance business if I were to allow this acknowledgment [in the policy] to be impeached." In the last-mentioned case, which was an attempt by an underwriter, in an action by the assured, to set off premiums, Heath, J., said: "When the assured is admitted to have paid the premium, it is as between the assured and the underwriter actually paid." We have already suggested that the decision in Universo Ins. Co. *v.* Merchants' Mar. Ins. Co. is difficult to reconcile with established rules of construction (see *ante*, § 56), and the

Sect. 107.

107. It further follows from what has been above stated that, as a general rule, the assured is liable to the broker for premiums as for money paid, whether they have been in fact paid over by the broker to the underwriter or not. This is because, in accordance with the system which we have just explained, the premiums are, as between the broker and the underwriter, considered as paid. The broker, being thus deemed to have paid the underwriter, can at once recover the amount from the assured as money paid to his use (*x*). Similarly, in case the assured becomes entitled to claim a return of premiums, inasmuch as these are deemed to have been paid by the broker to the underwriter on account of the assured, they can at once be recovered from the underwriter by the assured as money had and received "without any reference as to whether or not the year during which the broker generally has credit has run out, so as to make them payable in cash by the broker to the underwriter" (*y*).

Assured at once liable to broker for premiums.

Of course, if there be fraud or collusion on the part of the assured, or of the assured and broker jointly, in their dealings with the underwriter, the acknowledgment in the policy will not be held binding (*z*).

108. As we have seen, the general rule is, that the broker, and not the assured, is the debtor of the underwriter for the premiums. "By the course of dealing," says Parke, J., "the broker gives the underwriter credit for the premium

The broker is the debtor of the underwriter for premuims.

qualifying words, "unless otherwise agreed," in sect. 53 (1) of the Mar. Ins. Act, 1906, leave that decision still open to review by the House of Lords.

(*x*) Power *v.* Butcher (1829), 10 B. & Cr. 347. See also Airy *v.* Bland (1774), 2 Park, Ins. 811. In the case of policies which are gaming or wagering contracts within the Gaming Act, 1845 (see *post*, § 315), it seems that the Gaming Act, 1892, would bar the right of the broker to recover the premiums from the assured even though he was not aware of the true nature of the transaction: see Tatam *v.* Reeve, [1893] 1 Q. B. 44.

(*y*) Per Blackburn, J., in Xenos *v.* Wickham (1863), 33 L. J. C. P. 18; 14 C. B. N. S. 452; Dalzell *v.* Mair (1808), 1 Camp. 532.

(*z*) Foy *v.* Bell (1811), 3 Taunt. 491; Mavor *v.* Simeon (1810), *ibid.* 497.

Sect. 108.

when the policy is effected, and he, as the agent of both the assured and the underwriter, is considered as having paid the premium to the underwriter, and the latter as having lent it to the broker again, and so becoming his creditor" (*a*).

I.e. generally the broker immediately concerned in effecting the policy.

Generally speaking, however, it is only the broker immediately concerned in effecting the policy to whom the underwriter can resort for premiums, on the plain principle that it is to him alone he has given credit for them (*b*).

Broker, to action by underwriter, has the same grounds of defence as the assured.

Being thus substituted for the assured, the broker generally has the same grounds of defence against the claim for the premium as the assured would have had if he had effected the policy without the intervention of a broker (*c*).

Premiums for an illegal insurance.

109. Hence a broker is only legally liable to the underwriter for premiums due on legal insurances. Therefore, in the case of premiums for re-insurance, which was then known by all to be illegal, where no money had passed, and the assured had ordered the brokers not to pay the underwriters on the ground of illegality, Lord Ellenborough held that no action could be maintained by the assignees of the underwriters against the brokers for the recovery of the premiums as money had and received to the use of the bankrupt. "The money," said his Lordship, "does not appear to have been actually paid into the defendants' (brokers') hands. In case of illegal transactions, it may always be stopped while it is *in transitu* to the person who is entitled to receive it. If, indeed, this had been a legal transaction, the money might perhaps have been considered as paid; but we will not assist an illegal transaction in any respect. We leave the matter

(*a*) Per Parke, J., Power *v.* Butcher (1829), 10 B. & Cr. 347; and per Blackburn, J., Xenos *v.* Wickham (1863), 33 L. J. C. P. 13, 17; 14 C. B. N. S. 452.

(*b*) In a case of Robson *v.* Wilson (1797), cited 1 Marsh. Ins. 301, where the assured had employed broker A., who in his turn employed broker B., to effect a policy, the Court allowed the underwriter to recover against broker A. when broker B. had become bankrupt; but this case is of doubtful authority.

(*c*) Per Lord Ellenborough, in Jenkins *v.* Power (1817), 6 M. & S. 282, 287.

Sect. 109.

as we find it: and then the maxim applies *melior est conditio possidentis*. We cannot consider this as money paid for the use of the bankrupt; no money has, in fact, been paid, but only an account stated" (*d*).

If the premiums had actually been paid to the brokers by their employers, in such case it seems that the action would be maintainable (*e*); and where the insurance is void under the Gaming Act, 1845, as being a gaming or wagering transaction, the Gaming Act, 1892, does not seem to bar the right to recover (*f*).

Losses paid to broker by mistake and not actually paid over by broker to his principal.

If an underwriter have, by mistake, paid a loss to the broker to which the assured is not entitled, he may recover it back as money had and received to his use, if the broker have not in fact paid it over to his principal. Merely passing it in account with his principal is not equivalent to paying it over, and no answer to such an action; *secus*, retaining a portion of the money in payment of an adjusted balance due to him from his principal (*g*).

Right of set-off.

110. In considering the right of set-off, it is as well to remember that the contract of marine insurance is still a

(*d*) Edgar *v.* Fowler (1803), 3 East, 222. So, where the language of the policy was large enough to comprise an illegal adventure, and the assured contemplated it, the underwriter was held not entitled to sue for the premium which had not been paid by the assured to the broker. Jenkins *v.* Power, *supra*.

(*e*) In Tenant *v.* Elliott (1797), 1 B. & P. 3, it was held in an action by the assured against the broker, that the defendant had no right to retain as against the plaintiff moneys paid to him by the underwriter as the amount of loss on an illegal insurance on the ground, as Judge Duer remarks, "that the person to whom moneys have been actually paid to the use of another has no right to inquire into the legality of the transaction out of which the payment arose." See 2 Duer, 366—371. See also per Lord Campbell, C. J., and Crompton, J., in Nicholson *v.* Good (1856), 5 E. & B. 999, 1015, 1017.

(*f*) See De Mattos *v.* Benjamin (1894), 63 L. J. Q. B. 248; and § 121, *infra*.

(*g*) Buller *v.* Harrison (1777), 2 Cowp. 565; *i.e.*, as Judge Duer observes, supposing the circumstances to be such that the broker had a right to revoke the credit he had given to the assured; 2 Duer, 269, n. (*a*); Holland *v.* Russell (1861), 1 B. & S. 424; 30 L. J. Q. B. 308; 4 B. & S. 14; 32 L. J. Q. B. 297.

Sect. 110.

contract sounding in unliquidated damages, even after an adjustment of a loss under the policy (*h*), and notwithstanding it be a valued policy (*i*). It consequently follows that any claim for such a loss cannot give a right of set-off, in the strict sense in which that term was used in the old statutes of set-off. This point is, however, not of so much importance as it used to be, inasmuch as by modern practice a defendant can by counterclaiming usually secure most, if not all, the advantages which he formerly could only obtain in cases where he was entitled to set-off (*k*).

In bankruptcy.

It is nevertheless still important, in the event of the bankruptcy of one of the parties, say of the underwriter or of the broker, to consider the question of the right of set-off in the wider sense (*l*) in which the expression is used in the Bankruptcy Act, 1914. The right depends on whether there have been, in relation to the policy, "mutual credits, mutual debts or other mutual dealings" between the parties within the meaning of sect. 31 of that Act, at the time of the receiving order (*m*).

Principle of the mutual credit clause.

The principle is this, that "where two persons have dealt with each other on mutual credit, and one of them becomes bankrupt, the account shall be settled between them, and the balance only payable on either side. . . . From the earliest practice to the latest provision by statute, the object seems to have been that the account should be stated as between merchant and merchant, and that whatever would be in

(*h*) Castelli *v.* Boddington (1852), 1 E. & B. 66; 22 L. J. Q. B. 5; Luckie *v.* Bushby (1853), 13 C. B. 864; Thompson *v.* Redman (1843), 11 M. & W. 487; Pellas *v.* Neptune Marine Ins. Co. (1879), 5 C. P. D. 34. See, however, Swan *v.* Marit. Ins. Co., [1907] 1 K. B. 117, 123.

(*i*) King *v.* Walker (1863), 2 H. & C. 384; 3 *ibid.* 209; 33 L. J. Ex. 167, 325.

(*k*) Similarly, Young *v.* Kitchin (1878), 3 Ex. D. 127 (approved in Government of Newfoundland *v.* Newfoundland Ry. Co. (1887), 13 App. Cas. 199), shows that in an action by the assignee of a debt a defendant with cross-claims is, as against the plaintiff, in as good a position whether his cross-claims are liquidated or unliquidated.

(*l*) See Parke, B., in Forster *v.* Wilson (1843), 12 M. & W. 203; see also Isberg *v.* Bowden (1853), 22 L. J. Ex. 322.

(*m*) In re Daintrey, Ex parte Mant, [1900] 1 Q. B. 546, C. A.

Sect. 110.

ordinary practice a pecuniary item in such account, should be the subject of set-off" (*n*).

Primâ facie no mutuality as regards claims for premiums and losses.

111. We have seen that the ordinary relations between the three parties to the contract result in this, that the broker is the debtor of the underwriter for premiums, and the underwriter the debtor of the assured for losses. *Primâ facie*, therefore, there is no such mutuality between the claim of the underwriter against the broker for the premium (as a claim of principal against principal) and the claim of the broker against the underwriter for losses and returns (a claim of agent against principal) as to entitle the broker (whether in cases of solvency or bankruptcy) to set off the latter claim against the former (*o*). Hence, in many of the cases, we shall observe the endeavour has been to show that this *primâ facie* objection did not apply, but that the broker, from his course of dealing, either generally or in the particular transaction, must be taken as standing in the place of the assured, and entitled, as principal, to claim losses and returns from the underwriter.

One of the earliest reported cases in which the effect of this clause (*p*) on claims arising out of policies of assurance, as between the assignees of the bankrupt underwriter and the broker, came before the Courts, was Wilson *v.* Creighton, decided in 1782. It was an action by the assignees of a bankrupt underwriter against an insurance agent for premiums passed in account in the usual way. The defendant claimed to set off losses and returns of premium due to him

Wilson *v.* Creighton.

(*n*) Per Tindal, C. J., in Gibson *v.* Bell (1835), 1 Bing. N. C. at pp. 753, 754; see also Rose *v.* Hart, 2 Smith's Leading Cases; Palmer *v.* Day, [1895] 2 Q. B. 618; In re Taylor, [1910] 1 K. B. 562. It is immaterial whether a debt is liquidated or not (Peat *v.* Jones (1881), 8 Q. B. D. 147); and even if the amount of a liability be not ascertainable until after the date of the receiving order, it may nevertheless be the subject of set-off: In re Daintrey, Ex parte Mant, *supra*.

(*o*) It is, however, a common practice for the broker, on receiving credit for a claim from the underwriter, to pay the assured forthwith. The reasoning in the text would not apply to such a case.

(*p*) Or the corresponding clause in the Act then in force. On the point of "mutuality" the old decisions are still of effect.

Sect. 111.

from the bankrupt on the same risks. He had not acted *del credere*, but simply as agent in this country for various foreign correspondents, effecting the policies on goods consigned by him to his principals abroad, to all of whom, except one, he was, at the time of action brought, in advance, more or less, on the insurance account between them. The Court (Lord Mansfield, Willes, Ashurst and Buller, JJ.) unanimously held that the losses and returns of premium were not the subject of set-off under the mutual credit clause, because there was no mutuality—the debts were in different rights and due to different parties (*q*).

Grove *v.* Dubois.

The next case in which the question arose was the often-cited one of Grove *v.* Dubois, 1786, also an action by the assignees of a bankrupt underwriter for premiums. The defendant had effected the policies in his own name with the bankrupt for foreign correspondents, unknown to the bankrupt, under a commission *del credere*, being debited in his underwriter's accounts for premiums, and always retained the policies in his own hands. Under these circumstances the Court of King's Bench held, that the defendant had a right, under the mutual credit clause, to the set-off he claimed (*r*).

Remarks on Grove *v.* Dubois.

112. In this case three points must be particularly noticed:—1st, the insurance agent had effected the policies in his own name, on account of whom it might concern, so that his employers were unknown to the underwriter; 2nd, he always retained the policies in his own hands; 3rd, he acted for his employers on a commission *del credere*. The ground of the decision, therefore, might well have been that the insurance agent appeared, from all these circumstances, to have been the only party of whom the underwriters knew anything in the transaction; in fact, as Lord Ellenborough says, in Cumming *v.* Forrester, "the dealing was with the

(*q*) Wilson *v.* Creighton (1782), cited in 1 T. R. 113, and reported in 3 Dougl. 132.

(*r*) Grove *v.* Dubois (1786), 1 T. R. 112.

Sect. 112.

defendant as a principal" (*s*), and therefore it might be inferred that, as he gave them credit for premiums, so they gave him credit for losses.

Lord Mansfield on the effect of a commission *del credere*.

Lord Mansfield, however, certainly put the decision of the Court entirely on the last of the above-mentioned circumstances. "The whole turns," says his Lordship, "on the nature of a commission *del credere*. Then what is it? It is an absolute engagement to the principal from the broker that makes him liable in the first instance" (*t*).

Opinions of Lord Ellenborough and Sir V. Gibbs.

Lord Ellenborough and Sir Vicary Gibbs, especially the latter, frequently professed their inability to understand the ground of the decision as thus stated by Lord Mansfield (*u*); they refused, however, to disturb the case, which, as it had been long acted upon, might have been attended with inconvenience; but, on the other hand, they carefully avoided applying it by analogy to other cases, as will sufficiently appear by the following decisions:—

Koster *v.* Eason, as to right of *del credere* broker to set off losses in an action by the assignees

113. The assignees of a bankrupt underwriter sued defendants, insurance brokers, for premiums due from them before the bankruptcy on the balance of their underwriting account with the bankrupt, upon nineteen policies of insurance which they had effected with the bankrupt. The defendants acted

(*s*) In Cumming *v.* Forrester (1813), 1 M. & S. 499. Again, in Parker *v.* Smith (1812), 16 East, 386, Lord Ellenborough speaks of Grove *v.* Dubois as having been determined on the special ground that the dealings with the broker in respect of his commission *del credere* were considered as virtually had with the assured themselves.

(*t*) 1 T. R. 115.

(*u*) Lord Ellenborough says: "I cannot conceive how a contract between A. and B. can vary the rights between B. and a third person, who is a stranger to it, and empower B. to set up a claim against him as derived out of that contract": 1 M. & S. 498. See also in Koster *v.* Eason (1813), 2 M. & S. 117; and Morris *v.* Cleasby (1816), 4 M. & S. 566; Hornby *v.* Lacy (1817), 6 M. & S. 166. Gibbs, C. J., declared that he had often endeavoured, but in vain, to discover the principle on which Grove and Dubois was founded. See Baker *v.* Langhorn (1816), 2 Marshall's R. at p. 216, *S. C.*, 6 Taunt. 519; see also Peele *v.* Northcote (1817), 7 Taunt. 478. The American jurists treat the case of Grove *v.* Dubois as clearly overruled on this point by the subsequent authorities. See 2 Duer, 375, who collects them all.

Sect. 113. of a bankrupt underwriter for premiums.

under a *del credere* commission for their employers; but this fact was not known to the bankrupt. The defendants claimed to be allowed to set off, as mutual credits, unadjusted losses due from the bankrupt, before his bankruptcy, on the account current between them, and for which they, the defendants, had given credit in account with their respective principals. It appeared that five out of the nineteen policies were effected by defendants in their own name and on their own account: as to these, the Court allowed the claim of set-off on the authority of Grove *v.* Dubois: four out of the nineteen policies were in the name, but not on the account, of the defendants; as to these also the Court held that the right of set-off might be claimed, because upon these policies the defendants could sue in their own names and on their own account, provided they had a lien on the policies, or had paid the losses over to their employers; and the bankrupt, by subscribing to a policy so effected, had consented that they should stand as principals, and be considered as giving him credit on the policy at their own risk and on their own account. The remaining ten out of the nineteen policies were neither in the name nor on the account of the defendants, and as to these the Court held, on the ground of want of mutuality of credit, that the claim of set-off could not be allowed; because upon these policies the defendants, even though they had a lien, or had paid over losses, could never sue in their own names, but only in the names of their principals, nor had the bankrupt consented that as to these policies they should ever stand as principals, so as to be considered as giving him credit on their own risk and on their own account: the guaranty of the bankrupt's solvency, given by defendants to their employers under the commission *del credere*, being a transaction to which the bankrupt was not privy, could not affect the rights of the parties (*x*). With regard to these ten policies also, the Court considered that the right of the defendants to set off losses was precluded by the fact that

(*x*) Koster *v.* Eason (1813), 2 M. & S. 112.

Sect. 113.

they had not actually paid over such losses to their principals, but only allowed them in account (*y*).

Parker *v.* Beasley, as to right of broker who has a lien on a policy to set off losses in an action for premiums by the trustee of a bankrupt underwriter.

114. An agent who has a lien upon a policy which he has effected in his own name, though not on his own account, may set off losses, as mutual credits, in an action brought against him by the trustee of a bankrupt underwriter for premiums, due before the bankruptcy, even though he has not a *del credere* commission; *e.g.*, the consignees of a cargo, having a lien thereon in respect of bills drawn on them on account of such cargo (*z*). "Here," said Lord Ellenborough, "if the parties had not had a lien, their names would have stood on the policy as mere naked names, not coupled with an interest; but they may have an interest not only by a *del credere* commission, but also by a lien" (*a*).

Davies *v.* Wilkinson.

Accordingly, in a similar action against a broker who had effected a policy in his own name at the request of a principal, who was indebted to him at the time in a greater sum than that which the broker claimed to set off in the action, the Court of Common Pleas held, on the authority of the case just cited, that, as the broker himself might have sued on the policy, and had a lien on it for more than the amount of his set-off, he might be allowed to reduce the claim of the assignees by availing himself of such defence, though he did not act under a *del credere* commission (*b*).

Lee *v.* Bullen.

In 1858 the principle underlying these decisions was again brought into question in the case of Lee *v.* Bullen. That was an action for premiums by assignees of a bankrupt underwriter against brokers, who pleaded a set-off for return of premiums and for losses. The policies had been effected by the defendants in their own names, "$\frac{\text{and}}{\text{or}}$ as agents," they had given the assured a *del credere* guaranty, and continued to hold the policies. Lord Campbell, C. J., said: "Both on principle and according to decided cases, I am

(*y*) *Ibid.* 119.
(*z*) Parker *v.* Beasley (1814), 2 M. & S. 423.
(*a*) *Ibid.* 426.
(*b*) Davies *v.* Wilkinson (1828), 4 Bing. 573.

Sect. 114.

quite clear that the facts raised a good defence. There was mutual credit between the parties; the underwriter trusts the brokers for the premiums, and they on the policy trust him that he will fulfil his engagement. The policy being effected in the names of the defendants, and they guaranteeing the solvency of the underwriters, the defendants are not merely nominal contractors, but had a real interest in the contract. This, therefore, is a case of mutual credit, both on principle and the decided cases. Koster *v.* Eason and Parker *v.* Beasley are expressly in point as to the construction to be put on the mutual credit clauses as between an underwriter and the person thus effecting the policy" (*c*).

Baker *v.* Langhorn.

115. Where, however, brokers, not having a *del credere* commission, effected the policy in their own names, but expressly on the face of the policy "as agents," Gibbs, C. J., held, that although they had always retained the policy in their own hands, they could not set off losses in an action by the assignees for premiums (*d*). "If," said the Chief Justice, "I underwrite for A. B. in his own name without proof that he is acting for another, I must take him to be the principal; but if he be acting expressly as agent, I know that he is not the principal, and that any contract I may enter into with him is not a contract of insurance" (*e*). The result was the same in a case where a broker effected a policy, not in his own name or account, but in the name and on the account of his principals, under a commission *del credere* (*f*), and it was proved that the policy had throughout remained in the hands of the assured. The underwriter having become bankrupt, his assignees sued the broker for premiums due before the bankruptcy: the broker claimed to set off losses which had not only accrued before the bankruptcy, but which had

(*f*) A declaration was written on the policy that it was agreed that the broker should guarantee the underwriters thereon.

Sect. 115.

actually been paid over by the broker to his employers before that event.

Sir Vicary Gibbs, however, disallowed his claim on the grounds,—

1. That the policy was not effected in the name of the broker at all.

2. That it was not left in his hands.

3. That the mere fact of its having been effected *del credere* could not alter the relations of the broker and the underwriter, nor let in the claim to set off; for the guarantee of the underwriter's solvency interested no one but the assured, who paid the broker accordingly his commission *del credere* (*g*).

Right of broker to make deductions in respect of returns of premium.

116. The cases hitherto considered have turned upon the right of the broker to deduct losses from premiums; those which follow relate to the broker's right to make a similar deduction in respect of returns of premium, and depend upon different principles.

Principles on which it rests.

The amount of premium ultimately payable to the underwriter may very frequently depend on contingencies which cannot for some time be ascertained; as, for instance, where goods coming from abroad are insured at a premium of ten guineas per cent., to be reduced to five if the ship sail with convoy, and to be further reduced in case of short interest; the amount of premium, in fact, payable cannot in such case be ascertained until it be known whether the ship, in fact, sailed with convoy or not, and whether the interest really falls below the amount insured (*h*).

Usage as to the allowance in account for

Accordingly, the general custom as between insurance brokers and underwriters was (*i*), that if on the settlement of

(*g*) Peele *v.* Northcote (1817), 7 Taunt. 478. See, too, Ex parte White (1871), L. R. 6 Ch. at p. 403, per Mellish, L. J.

(*h*) A more modern illustration would be the case of a steamer insured for twelve months with broad liberties of trading, say, at eight guineas per cent., with a return of one guinea per cent. should she be engaged solely in Eastern voyages.

(*i*) This custom is now quite extinct. Returns of premium are now dealt with as losses or averages. The underwriter is credited with the

Sect. 116. returns of premium.

their mutual account there were any returns of premium then pending, the balance of the account, instead of being paid over, became the first item of account for the ensuing year and the pending returns of premium, as they successively became due, were carried to the debit of the underwriter in such subsequent account, and the adjusted balance was not paid over to the underwriter until all returns of premium were actually ascertained and deducted (*k*).

Legal position.

Until the sum to be deducted for returns of premium is ascertained—that is, in other words, until the events are determined upon which the amount of premium, actually payable to the underwriter, depends—the broker is the mutual agent of the assured and the underwriters, for the one to pay and for the other to receive (*l*).

Either party may, indeed, determine this agency when he pleases: the assured by taking the policy out of the hands of the broker who has effected it (*m*), paying him, of course, what he owes him at the time, and placing it in the hands of another broker to get it adjusted (*n*); and the underwriter by at once calling on the broker for the full premium, leaving nothing in reserve in the broker's hands to answer any returns of premium that the underwriter, at a subsequent time, may be bound to pay the assured (*o*).

If, however, the underwriter do not determine the broker's agency before the event arises on which the return of premium depends, the broker still continues his agent for the deduction of such return from the full amount of premium; and, consequently, when the underwriter brings his action against

agreed initial premium, and if a return is afterwards found to be due, it is adjusted on the policy and credited to the broker, just as a loss would be adjusted or credited. It has nevertheless been thought necessary to retain in the text the passages and decisions relating to the old practice, for the sake of the principles which they illustrate.

(*k*) See Goldschmidt *v.* Lyon (1812), 4 Taunt. 534.

(*l*) Per Lord Ellenborough in Shee *v.* Clarkson (1810), 12 East, 510.

(*m*) See Mar. Ins. Act, 1906, s. 53 (1), *ante*, § 101, that the underwriter is directly responsible to the assured for losses.

(*n*) Per Mansfield, C. J., in Minett *v.* Forrester (1811), 4 Taunt. 543.

(*o*) *Ibid.* 544.

Sect. 116.

the broker for such full amount of premium, the broker is entitled in his defence to set off the amount of returns which, as his agent, he was authorized to deduct.

The single question, then, as to the broker's right to set off returns in an action for premiums was considered, under the old practice, to resolve itself into this: Was or was not his agency determined before the right to returns of premium accrued?

Hence, where the underwriter himself sued the broker for premiums, the Court held, that the broker, although not acting under a *del credere* commission, might deduct, by way of set-off, sums due for returns of premium, though it did not appear that the broker had either received the premiums from his principals or credited them with returns of premium; and although the returns of premium claimed to be deducted had never been adjusted as between the broker and the underwriter (*p*).

Death or bankruptcy of underwriter terminates broker's agency.

117. As, however, the authority thus given by the underwriter ceases *ipso facto* by his bankruptcy or his death, the broker cannot avail himself of this defence when the action is brought by the trustee of a bankrupt or the executors of a deceased underwriter, unless, indeed, the sums payable by way of returns of premium have been actually adjusted in account between the broker and the underwriter before the bankruptcy or the death.

Minett *v.* Forrester.

Thus, where the assignees of a bankrupt underwriter brought their action against a broker for premiums due on two policies of insurance, in respect of which he claimed to deduct, by way of set-off, certain sums for returns of premium, and it appeared that the events which entitled the broker to make this deduction had occurred and become known to him—on the one policy before the bankruptcy; on the other policy not till after that event; but that no adjustment had been made on either policy: the Court held, that, as the agency of the broker had been determined by the

(*p*) Shee *v.* Clarkson (1810), 12 East, 507.

Sect. 117.

bankruptcy of the underwriter, he was not entitled to this set-off either on the one policy or on the other (*q*). Upon the same principles the Court of King's Bench subsequently decided in a similar action the three following points:—

Parker *v.* Smith.

1. That no such returns of premium can be set off against a claim by the assignees (or now the trustee) of a bankrupt underwriter for premiums, even though forming part of an adjusted account, where the events entitling to such returns were not known to have happened until after the adjustment.

2. That no such set-off can be allowed where the events entitling to the return happened before the bankruptcy, but the amount of return claimed was never adjusted with the bankrupt.

3. That such set-off cannot be allowed in any case where the events entitling to the return are not known till after the bankruptcy (*r*).

Houston *v.* Robertson.

The Court of Common Pleas extended the same principles to actions brought by the executors of a deceased underwriter, and decided that no set-off could be allowed in respect of returns of premium, the events entitling to which were not known till after the underwriter's death (*s*). In a subsequent case they also explicitly decided that all these rules applied exactly in the same way, whether the broker acted under a *del credere* commission or not (*t*). And the same principles have been held to apply to a case where a broker was sued by the underwriter's trustee for sums which, subsequently to the bankruptcy, he had received on the underwriter's account for certain salvages on losses which, prior to his bankruptcy, the underwriter had paid. It was held by Collins, J., that he was not entitled to deduct from the amount so received by him payments to the assured for losses

Whether the broker be acting *del credere* or not makes no difference: Houston *v.* Bordenave.

(*q*) Minett *v.* Forrester (1811), 4 Taunt. 541; Goldschmidt *v.* Lyon (1812), 4 Taunt. 534.

(*r*) Parker *v.* Smith (1812), 16 East, 382.

(*t*) Houston *v.* Bordenave (1816), 6 Taunt. 451.

Sect. 117.

which he had made in pursuance of his *del credere* obligation (*u*).

Such, then, are the principal decisions that have taken place on the right of the broker to set off losses and returns of premium in actions brought against him by the underwriter for his premiums—decisions complicated from the variety of circumstances involved in them, and from the difficulty of reconciling the relations arising out of the actual course of dealing between the broker and the underwriter with those which flow from the general principle that the underwriter is debtor, not to the broker, but to the assured.

Summary of the positions established by the cases in respect, 1st, to setting off losses; 2nd, to setting off returns of premium.

118. The cases above discussed seem to support the following positions (*x*):—

1. In respect of setting off losses—

a. Where bankruptcy has intervened, and the action is brought on behalf of the creditors of the bankrupt underwriter, the broker who has effected the policy in his own name and on his own account, or in his own name, but on the account of his principals (provided in this last case he has also a lien on the policy to the extent of his set-off), may set off losses allowed to him on account by the underwriter before his bankruptcy, though unadjusted, because losses so allowed in account are mutual credits within the meaning of those words in the Statutes of Bankruptcy (*y*).

(*u*) Elgood *v.* Harris, [1896] 2 Q. B. 491.

(*x*) The summary which here follows is taken from the 2nd edition of this work, pp. 139, 140. It is conceived, however, that the modern tendency is rather to treat these and similar questions as questions of fact, each to be determined according to circumstances, the question in each case being, Did the broker contemplate having an interest in the policy, or was he acting merely as agent for the assured? In the former case he will be entitled to set off; in the latter he will not. The fact of the broker's receiving a *del credere* commission, the fact of the policy being expressed to be in his name, and of his retaining the policy in his own hands, are none of them conclusive, though each of them important pieces of evidence in his favour. Apart from other circumstances which might lead to a contrary conclusion, a modern tribunal would probably, upon proof of the several facts and circumstances detailed in the text, arrive at the several positions indicated—rather, however, as questions of fact than of law.

(*y*) Grove *v.* Dubois (1786), 1 T. R. 112; Koster *v.* Eason (1813),

Sect. 118.

b. But where he effects the policy both in the name and on account of his principals; or where, when effected in his own name, but on their account, he has no lien on it; or where he effects it in his own name, but expressly on the face of the policy as agent, he has no such right of set-off, even though he acts under a *del credere* commission (*z*).

c. For a *del credere* commission, being a contract wholly between the broker and the assured, cannot affect the mutual rights and liabilities of the broker and the underwriter; and therefore does not, *per se*, and without other requisites, entitle the broker to his right of set-off (*a*).

2. As to returns of premium (*b*)—

a. The broker, being the agent of the underwriter for deducting returns of premium in the account between them, may, in an action by the underwriter himself for premiums, set off sums due for returns of premium (*c*).

b. But the death or bankruptcy of the underwriter operates as a revocation of this agency, and the broker, therefore, cannot, in an action by the trustee in bankruptcy, or by the executors, set off unadjusted returns of premium, whether the events entitling to those returns were known before or after the death or bankruptcy (*d*).

Effect of leaving policy in the hands

119. In the usual course of business, the assured leaves the policy in the hands of the broker until the settlement of

2 M. & S. 112; Parker *v.* Beasley, *ibid.* 423; Davies *v.* Wilkinson (1828), 4 Bing. 573; Lee *v.* Bullen (1858), 27 L. J. Q. B. 161; 8 E. & B. 692, n.

(*z*) Koster *v.* Eason (1813), 2 M. & S. 112; Baker *v.* Langhorn (1816), 6 Taunt. 519; Peele *v.* Northcote (1817), 7 Taunt. 478.

(*a*) Peele *v.* Northcote (1817), 7 Taunt. 478; Houston *v.* Bordenave (1816), 6 Taunt. 451; Elgood *v.* Harris, [1896] 2 Q. B. 491.

(*b*) As has been already pointed out, the alteration in the course of business, by which returns of premium are now regarded and treated as losses on the policy, has rendered obsolete the distinction which was properly drawn by Arnould.

(*c*) Shee *v.* Clarkson (1810), 12 East, 507.

(*d*) Minett *v.* Forrester (1812), 4 Taunt. 541; Goldschmidt *v.* Lyon (1812), *ibid.* 534; Parker *v.* Smith (1812), 16 East, 382; Houston *v.* Robertson (1816), 6 Taunt. 448; Houston *v.* Bordenave (1816), 6 Taunt. 451.

Sect. 119.

claims. By doing so the assured probably holds the broker out as having authority, or in other words gives him ostensible authority, to act as his agent in all matters arising on the policy—to claim and receive returns of premium, to settle losses, and to receive the amount of them in cash, or, if the assured is cognizant of the usage at Lloyd's, to pass them in account—probably to do all that is incidentally necessary for carrying out the contract contained in the policy thus left in his hands (*e*). If, however, the insurer pays a loss to an agent of the assured without the production of the policy, he no doubt does so at his peril, and will be liable to pay it a second time if the agent had not in fact authority to receive the money (*f*).

of the broker.

Duty of broker thus entrusted with the policy.

Whenever the assured leaves the policy in the hands of the insurance broker for the purpose just explained, the broker is, in law, presumed to promise, in consideration of his commission, that he will use all reasonable diligence to procure from the underwriter a speedy settlement of the claim, and, without delay, collect and pay over to the assured the sums due. If he fail to do so, an action for damages at the suit of the assured will lie against him in respect of such failure (*g*).

May be sued for money received.

The broker, therefore, after thus allowing the loss in account, and so depriving the assured, when cognizant of the usage, of all legal remedy against the underwriter, will be liable to the assured for the amount, as money had and received to his use; and this although no proof be given that he has actually received any money from the underwriter, for in such action he will be estopped from saying that he has not such money in his hands for the plaintiff's use (*h*).

Sect. 120.

Unless assured has waived his right.

120. The assured, however, may be found, by his subsequent course of dealing, to have waived his right to resort to the broker. The following is a case of the kind:—The brokers, after a loss had occurred, allowed the underwriter's name to be struck off the policy, and he gave them credit in his books for the amount. They did not, however, take credit for it on their side of the account; and, on the underwriter's bankruptcy, which took place soon after, gave notice thereof to the assured, telling him he must prove for his loss under the commission. Six months after this the assured settled an account with the brokers, including the very policy in question, without making any complaint of the erasure of the underwriter's name, or any claim in respect of the loss. Lord Ellenborough ruled, that, under these circumstances, the assured must be considered to have waived his right against the broker, and to have elected to seek his remedy under the bankrupt's commission (*i*).

Broker who has paid a loss, or allowed it in account, cannot recover it back.

If an insurance broker, in case of a loss, pays the assured the full amount of the money subscribed, he cannot afterwards recover back any part of it on the ground that, before the loss happened, one of the underwriters became insolvent, and that he, the broker, was not aware of that fact when he paid the money (*k*). The same rule applies where the broker, instead of paying the loss over to his principal in money, has allowed it to him in account, especially if a considerable period has been suffered to elapse between such allowance and the claim to recover back the money (*l*).

When can broker set up defence of illegality.

121. An agent, to whom monies have actually been paid to the use of the principal, has no right to inquire into the legality of the transactions out of which the payment arose.

(*i*) Ovington *v.* Bell (1812), 3 Camp. 237.

(*k*) Edgar *v.* Bumstead (1808), 1 Camp. 411.

(*l*) Jameson *v.* Swainstone (1810), 2 Camp. 546, *in notis*. In this case two years had elapsed between the allowance of the loss in account and the attempt to recover it back by action. Mansfield, C. J., held, that after such a lapse of time the brokers, as between themselves and their principal, must be held to have received actual payment from the underwriters.

Sect. 121.

Hence, where a loss has actually been paid over by the underwriter to the broker, the latter cannot, to an action for money had and received by the assured, set up the illegality of the insurance (*m*). But where the money is not paid, but only allowed in account, as the course of dealing is not suffered to operate in illegal transactions, the money may always be stopped by the principal whilst in transitu to the person for whom it is intended; *e.g.*, premiums on illegal insurances may be stopped by the assured whilst in the hands of the broker (*n*).

Broker cannot dispute the title of his employer.

An agent cannot dispute the title of his principal; nor shall he, after accounting with his principal, and receiving money for him in that capacity, afterwards say that he did not so receive it, but for the benefit of some other person.

Roberts *v.* Ogilby.

An action was brought for money had and received, to recover from a policy broker the amount of a loss he had received from the underwriters on a policy effected on ship on behalf of the plaintiff, a part-owner and ship's husband. The other part-owners had never given the plaintiff any directions to insure for them, and the defendant, in effecting the policy, looked to the plaintiff alone as his employer. A loss having occurred, the defendant collected the amount thereof from the underwriters, but did not pay it over to the plaintiff, in consequence of having received notice not to do so from the other part-owners. On this evidence, a verdict having passed for the plaintiff, the Court refused to set it aside, on the plain ground that the plaintiff alone employed the defendant, and that the defendant, as his agent, having since received the money from the underwriters, must be held to have received it for his use (*o*).

(*m*) Tenant *v.* Elliott (1797), 1 B. & P. 3; Farmer *v.* Russell, *ibid.* 298. As regards policies which are gaming and wagering contracts within the Gaming Act, 1845 (see *infra*, § 315), the position does not appear to be affected by the Gaming Act, 1892. See De Mattos *v.* Benjamin (1894), 63 L. J. Q. B. 248; Burge *v.* Ashley, [1900] 1 Q. B. 744, approving O'Sullivan *v.* Thomas, [1895] 1 Q. B. 698.

(*n*) Edgar *v.* Fowler (1803), 3 East, 222; see *ante*, § 109.

(*o*) Roberts *v.* Ogilby (1821), 9 Price, 269.

Sect. 121.

Dixon *v.* Hamond.

Flowerden and Davidson were partners: Flowerden having mortgaged a ship which belonged to him in his separate right, Hamond, the defendant, paid off the debt, 900*l.*, and got his own name substituted for that of the former mortgagee as registered owner. Some time subsequently defendant effected an insurance for 2,800*l.* on the ship and freight, as agent for and by the direction of Flowerden and Davidson, and charged the partnership with the premiums. The ship having been lost, the underwriters paid the whole amount insured to defendant, as agent for Flowerden and Davidson, who refused to pay over the difference between the 900*l.* and the 2,800*l.* to the assignees of Davidson, the surviving partner, on the ground that, 1st, the defendant, being the sole registered owner of the ship, was not liable at all; 2nd, if he was, as the ship never belonged to the partnership, he was only liable to the executors of Flowerden, and not to the assignees of the surviving partner. The Court overruled both objections on the single ground, that as the defendant had received the money as the agent for the partnership, he could not, when claimed of him, be permitted to say that he had received it for the benefit of Flowerden alone (*p*).

Bell *v.* Jutting.

122. The case of Bell *v.* Jutting has been frequently cited (*q*) in support of the proposition that brokers will, generally speaking, be safe in paying over a loss to the party for whom they have effected a policy as for a principal, and whom alone they knew as such, even after notice—unless, indeed, satisfactory proof can be given that he only effected the policy as agent. The facts were that the defendants, as brokers, by directions of Brown, the charterer of the "Lady Hood," effected an insurance for 2,000*l.* on her freight. A total loss having ensued, the defendants collected the 2,000*l.*, and although they received notice, whilst part of the money was still in their hands, that the plaintiffs, as owners of the vessel, claimed the benefit of the insurance, they nevertheless

(*p*) Dixon *v.* Hamond (1819), 2 B. & Ald. 310.
(*q*) 2nd ed. of this work, p. 145; 6th ed. p. 209.

Sect. 122.

paid the balance over to Brown. The plaintiffs failed in an action to recover this sum, not, however, on the ground that the defendants were justified in paying the money to an agent, but because the Court held, on the facts, that Brown had effected the policy on his own account, and had never intended to act as the plaintiff's agent at all. The case, therefore, decides nothing with respect to the duties or liabilities of the broker towards an agent and his undisclosed principal (*r*).

123. We have already seen that the rule is that the assured is liable to the broker for premiums as for money paid, whether they have been paid over by the broker to the underwriter or not (*s*).

Where a policy by deed, instead of acknowledging receipt of the premium, contained a covenant from the brokers to pay it, and was expressed to be effected in consideration of that covenant, the Court held, that the premiums not paid by the broker before his bankruptcy to the underwriters could be recovered by his assignees from the assured, not, indeed, as money paid, but as "money due for premiums for policies caused and procured to be underwritten by the bankrupt" (*t*).

Assured cannot object to policy after voyage ended.

If a broker engages to effect an insurance with such names as should be to the satisfaction of the assured, it is no defence for the assured, after lying by till the voyage is completed, to set up against an action for premiums that the names of the underwriters had never been submitted to him for approval (*u*).

124. We now proceed to discuss the right of the assured to maintain an action on the policy for a loss.

Whether the usage of Lloyd's binds the assured.

We have already detailed the course of practice as to the settlement of claims in case of loss. Such a mode of settle-

(*r*) Bell *v.* Jutting (1817), 1 J. B. Moore, 155. The true effect of this case is pointed out by Duer, vol. ii. pp. 176, 361—363.
(*s*) See *ante*, § 107.

(*u*) Dixon *v.* Hovill (1828), 4 Bing. 665.

Sect. 124.

ment is binding by the usage of business upon the broker and the underwriter as between themselves. But whether it be of any binding effect upon the assured is a question of fact as to his assent to this kind of settlement.

We have seen that it is a usual thing for the assured to leave the policy in the hands of the broker. The effect is, probably, that he has ostensible authority to settle the loss and to receive the money (*x*). But it is of no effect whatever to bind the assured by the peculiar usages of Lloyd's (*y*).

What discharges the underwriter as to the assured.

125. Thus, if the underwriter pays the loss in money (*z*) to the broker who has been allowed to retain possession of the policy, and *à fortiori* to a broker to whom the policy has been expressly sent for the purpose of settling for the loss, the underwriter is thereby discharged at common law from any claim by the assured for the same loss (*a*). So he is, if the assured can be shown to have actually assented to the usage at Lloyd's in settling the claim, by allowing the amount to be credited by the underwriter to the broker in

(*x*) *Ante*, § 119. See per Blackburn, J., in Xenos *v.* Wickham (1863), 33 L. J. C. P. 13, 21; 14 C. B. N. S. 452. There is no clear judicial decision on the point. It arose in Sweeting *v.* Pearce, *infra*, §§ 126, 127, but in the event did not need to be decided. In the Court of Common Pleas, Cockburn, C. J., expressed the opinion that when the assured leaves the policy with the broker he is estopped from saying that the latter has no authority to receive payment for a loss (see 29 L. J. C. P. at p. 270); and Byles, J., agreed with this opinion (*ibid.* p. 272); but the judges in the Court of Exchequer Chamber carefully refrained from giving any opinion. Phillips (vol. i. s. 1882), Duer (vol. i. Lect. XI. ss. 8, 42), and apparently Arnould (§ 129, *infra*) agree with the view of Cockburn, C. J., and Byles and Blackburn, JJ. (*ubi supra*), which is also to some extent supported by the decisions that a broker who retains possession of the policy owes a duty to the assured to collect losses from the underwriters with diligence. See *post*, §§ 163, 164. It is apprehended that the legal position is the same whether the assured voluntarily leaves the policy in the hands of the broker, or the latter retains it in the exercise of his lien.

(*y*) As to this, see *post*, §§ 126—128.

(*z*) As to payment by bill, see Hine *v.* Steamship Ins. Syndicate (1895), 72 L. T. 79.

Sect. 125.

account (*b*); or if, from all the circumstances of the case, he must reasonably be presumed to have acquiesced in it (*c*).

The question involved in this is not appreciated in all its importance until the bankruptcy of the broker threatens one of the two other parties to the insurance with serious loss. Very strict views of the broker's authority, under any circumstances whatever, were at one time entertained by the judges, much to the prejudice of the underwriter (*d*). The leaning of the Courts, however, speedily altered. The right of the assured in such cases to recover from the underwriter is now a pure question of evidence, and depends solely upon the point whether the assured, upon a view of all the facts, must not be taken to have been cognizant of the usage, and an assenting party, therefore, to its observance (*e*). For the usage of Lloyd's as to settling losses in account, being "the usage of a particular place, or of a particular set of persons, cannot be binding on other persons, unless those other persons are acquainted with that usage and adopt it" (*f*).

Common law and Lloyd's usage contrasted.

126. The law applicable to this question is strikingly expounded by Bramwell, B., in the following passage, in delivering his opinion in the case of Sweeting *v.* Pearce (*g*):—

"This is a question," says the learned judge, "of authority. . . . . The legal presumption of authority given to a person who is to receive satisfaction for another for a money

(*b*) See Bartlett *v.* Pentland (1830), 10 B. & Cr. 760. This usage does not extend to dealings between the brokers and insurance companies: Hine *v.* Steamship Ins. Syndicate, *supra*.

(*c*) Andrew *v.* Robinson (1812), 3 Camp. 199.

(*d*) See the case before Lord Ellenborough of Jell *v.* Pratt (1817), 2 Stark. N. P. 67; and the cases before Lord Tenterden of Todd *v.* Reid (1821), 4 B. & Ald. 210; and Russell *v.* Bangley (1821), *ibid.* 395.

Sect. 126. demand is, that he is to receive it by payment of money only. It is also a rule of good sense. . . . . The custom [*i.e.*, of Lloyd's] set up is, that the persons who are by legal presumption to receive in money, and in money only, are not to receive in money. The custom therefore is in contradiction to the authority given to the agents by their principal. It is a custom not to do the thing which the law implies they are to do; that shows it to be unreasonable" [*i.e.*, if it were to be supposed to be binding on a person ignorant of it and consequently not assenting to it].

"There is a great distinction between this and the cases which have been relied upon for the defendant. If I set a man generally to do a thing, a custom may well apply to regulate the mode of doing it. Thus, with regard to usages of the Stock Exchange which have been referred to, if I tell a broker to purchase such and such stock, I impliedly engage him to deal upon terms upon which he can deal, that is, according to the usages of the place. If the tenor of my authority is to exclude the operation of any custom, I give him no authority to act according to the custom; but if the authority I give is consistent with the custom, then the custom comes into operation. Thus, in the case before us, when the plaintiff says to the broker 'Receive payment in money'; that means 'Receive it in money and not otherwise.'

"Mr. Arnould, in his work on Marine Insurance, 2nd edit. p. 81, says:—'It might have been considered not a very violent presumption that all parties resident in this country employing brokers to effect policies for them, in the common course of business, should be considered to have done so with reference to the usages established at Lloyd's.' I beg leave to say that I think it would have been an unreasonable presumption. I can well understand, if a man who knows of this usage of Lloyd's gives his policy to the broker, with instructions to do the needful, a jury might well find that he authorizes the broker to do the needful according to the custom. Probably Mr. Arnould meant no

more than that. But it would be a question for the jury in each case whether the presumption that the authority [was] to receive payment in money was rebutted by the principal's knowledge of the custom. . . . . This custom, in truth, goes not to say how the presumed authority to receive payment in cash is to be exercised; but that it should not be exercised at all." Sect. 126.

127. The case in which these observations were made was singularly suitable to bring out the antagonism between Lloyd's usage and the general law of the country. The London brokers had become bankrupt after debiting the underwriter with the loss as against a large sum due to him from them on account of premiums. This was in accordance with the usage, which the jury found to be generally known amongst merchants and shipowners effecting insurances, and would have been a bar to the action of the assured against the underwriter, if the usage were binding on the plaintiff. It was admitted, however, by the defendant, in accordance with the plaintiff's evidence, that, the policy being in the hands of the brokers for safe custody only, the ship's papers were delivered to them after the loss for no other purpose than to obtain an adjustment. The plaintiff was ignorant of Lloyd's usage, and had not intended his brokers should ever receive the money in payment for the loss. Under these circumstances it was determined in the Court below, and affirmed by the Exchequer Chamber, that the general law, and not the usage at Lloyd's, governed the case and entitled the plaintiff, notwithstanding the settlement with the broker, to recover against the underwriter (*h*). Sweeting *v.* Pearce.

In Bartlett *v.* Pentland (*i*), the plaintiffs, corn merchants in Plymouth, had a policy effected for them by a London broker with the St. Patrick's Insurance Company at their office in Lombard Street, London; a total loss having taken Bartlett *v.* Pentland.

(*h*) Sweeting *v.* Pearce (1861), 7 C. B. N. S. 449; 29 L. J. C. P. 265; (in error), 9 C. B. N. S. 534; 30 L. J. C. P. 109.

(*i*) Bartlett *v.* Pentland (1830), 10 B. & Cr. 760.

Sect. 127.

place, a pen was struck through the company's subscription to the policy, and the loss passed in account, as between broker and underwriter, in the usual way, the company being at that time indebted to the broker on the general account between them. The plaintiffs, although in the habit for thirty years of procuring insurances, were yet unacquainted with the usage at Lloyd's, and were misled by a false request of the broker to draw on him instead of the underwriter (*k*) three months' bills, which he accepted but never paid, having failed before they became due. Previous to his bankruptcy, the insurance company, which had all along been indebted to him on the general account between them (including many transactions besides the policy in question), settled such general account with him by paying in money the balance due to him for losses, including the loss in question, after deducting the amount of the premiums due to them from the broker. It was held that there was nothing in the case to raise any presumption against the plaintiffs, that they had given an implied authority to the broker to settle according to Lloyd's usage; and consequently that the money paid to the broker, being not a specific payment on account of a specific loss, but merely a general payment on a general account, was not to be deemed in law payment as against the assured. And it was further held that, notwithstanding the plaintiffs had been induced to give credit to the broker, and had not applied to the company until after the broker's failure, when the company had already settled their general account with him, yet, as the company had not been damnified by the laches of the plaintiffs, they could not be discharged by it (*l*).

When payment not a discharge.

When *laches* is a discharge.

Scott *v.* Irving.

128. In the next case of the same kind, the plaintiff, a merchant in Glasgow, had employed a London broker to procure an insurance for him at Lloyd's. A total loss having

(*k*) The practice of drawing bills, whether on brokers or underwriters, for the settlement of claims is now obsolete.

(*l*) Per Lord Tenterden, C. J., 10 B. & Cr. 770; accord. *per curiam*, Macfarlane *v.* Giaunocopulo (1858), 3 H. & N. 860; 28 L. J. Ex. 72.

Sect. 128.

occurred on the policy, the plaintiff wrote to the broker, enclosing a bill drawn on the broker, payable ten days after sight, and stating that he did not know at what date it was proper to draw for the balance, this being the first total loss he had ever had in London. The Court upon these facts held that the plaintiff was not cognizant of the usage of Lloyd's so as to be precluded from suing the underwriter even two years after the broker's insolvency; but that to the extent of a payment made in cash by the underwriter to the broker within the month on account of this loss the underwriter was discharged as against the assured, since the payment made was in strict accordance with his general authority to the broker (*m*).

Stewart *v.* Aberdein.

In the next case the plaintiffs were merchants at Liverpool, who, for a long course of years, had employed the same firm of London brokers to effect their insurance business in London, which was of a very extensive character. The London brokers kept both a general and also an insurance account with the plaintiffs, in the latter of which they debited them with all premiums, and credited them with all losses allowed in account by the different underwriters; and the balance, after deducting the premiums, was then carried into the general account with the plaintiffs. Some evidence was given that Lloyd's usage was well known in Liverpool. A loss on a policy effected with the defendant, who was an underwriter at Lloyd's, was settled and passed in account as between the brokers and the defendant in the usual way, and the defendant's name was struck off the policy. An adjustment of this and other losses having been obtained by the brokers, they advised the plaintiffs (to whom they were then considerably indebted on the general account) of the fact; and the plaintiffs then drew upon them for the amount (*n*). Shortly after this the London brokers, who were still greatly indebted to the plaintiffs, became bankrupt, and the plaintiffs thereupon immediately sued the defendant

(*m*) Scott *v.* Irving (1830), 1 B. & Ad. 605.

(*n*) This practice is now obsolete. See *ante*, § 127, note (*k*).

Sect. 128.

for the loss already mentioned as passed in account with the brokers. But the Court held that, under the circumstances, the plaintiffs' claim could not be supported, on the ground stated by Lord Abinger, "that there was sufficient evidence in the case of the knowledge of the plaintiffs of the custom, and of their authorizing the brokers to settle with the underwriters, and to give them credit on account for the loss, and to permit them to draw on the brokers for the amount" (*o*).

Opinion of Lord Abinger upon the general question.

Upon the general question, the Court were of opinion, that "where an insurance broker, or other mercantile agent, has been employed to receive money for another, in the general course of his business, and where the known general course of business is for the agent to keep a running account with the principal, and to credit him with sums which he (the agent or broker) may have received by credits in account with the debtors (the underwriters, &c.), with whom he also keeps running accounts, and not merely with monies actually received, ... it must be understood, that where an account is *bonâ fide* settled according to that known usage, the original debtor (*i.e.*, the underwriter) is discharged; and the agent (*i.e.*, the insurance broker) becomes the debtor, according to the meaning and intention, and with the authority, of the principal" (*p*).

Recent cases.

Unsuccessful attempts were made in two recent cases to bind the assured by a settlement in account between the broker and underwriter (*q*). In Matvieff *v.* Crosfield it was contended that Sweeting *v.* Pearce has been overruled by

(*o*) Stewart *v.* Aberdein (1838), 4 M. & W. 211.

(*p*) Per Lord Abinger, delivering the judgment of the Court in Stewart *v.* Aberdein (1838), 4 M. & W. 228. Duer is in many respects very dissatisfied with the report of this case (see remarks on it, 2 Duer, 260, 261); but although some of the reported expressions of Lord Abinger at N. P. and in Banc may be difficult to defend, yet the case, as Duer himself admits, is unexceptionable if only used as an authority for the position, that where the assured is fairly shown to be cognizant of the usage, he is bound by it.

(*q*) Legge *v.* Byas (1901), 7 Com. Cas. 16; Matvieff *v.* Crosfield (1903), 8 Com. Cas. 120.

Sect. 128.

Robinson *v.* Mollett (*r*), a case in which the House of Lords affirmed (though without applying) the rule that "if a person employs a broker to transact for him upon a market with the usages of which the principal is unacquainted, he gives authority to the broker to make contracts upon the footing of such usages, provided they are such as regulate the mode of performing the contract, and do not change their intrinsic character" (*s*). The judgments in Sweeting *v.* Pearce, however, expressly negative the application of this rule in the case of a Lloyd's usage which conflicts with the duty of an agent to receive payment in money; and Kennedy, J., held that Sweeting *v.* Pearce was not affected by Robinson *v.* Mollett.

Summary of the law on this point.

129. The following propositions seem to embrace the law on this subject:—

1. Unless the assured by evidence reasonably sufficient can be shown to be cognizant of this usage of settling claims in account and to have assented to it, he is not bound by it; but may recover against the underwriter, although the claim has, as between broker and underwriter, been settled, and passed in account.

2. Payment in cash by the underwriter to the broker of the balance of a general account is not payment as against the assured, if ignorant of Lloyd's usage. But a specific money payment by the underwriter to the broker in respect of the specific loss claimed by the assured in the action, and within the time appointed for cash payments, is, as against the assured, payment *pro tanto*.

3. If upon the facts of the case it is to be inferred that the assured was cognizant of this usage and assenting to it, he is bound by it, and cannot recover against the underwriter claims settled and passed in account as between underwriter and broker.

But the assured may lose his right to recover against the

(*r*) (1875), L. R. 7 H. L. 802.

(*s*) Per Lord Chelmsford, L. R. 7 H. L. at p. 836.

Sect. 129.

underwriter by suing in the name of the broker, since every defence which is good against the actual plaintiff is open to the defendant. Consequently, a settlement by passing the claim in account with the broker is a bar to the action when it is brought in the broker's name (*t*). But the assured has the right of action in his own name.

The broker's lien on the policy.

130. The policy, when effected, becomes in law the property of the assured, who may maintain trover for it, subject to any lien which the broker may have for premiums and commission, or for the general balance of his insurance account. In practice the policy, after being effected, is sometimes handed over by the broker to the assured, and afterwards remitted by the assured to him for the settlement of claims on the occurrence of a loss; or the broker himself, as is very generally the case, keeps it throughout in his own possession.

If the broker represents to the assured that he has effected a policy according to their orders, they may maintain an action of trover against him although such policy has never in fact been effected at all; and in such action the plaintiff shall prove his loss, as in an action against the underwriter, and the defendant shall not be permitted to say that no such policy exists (*u*).

Particular lien.

As regards the broker's lien for the premium and commission due in respect of a particular policy which he has himself effected, the law is thus stated by Phillips (*x*):—"The agent who effects a policy for his principal and advances the premium or becomes responsible for it, and retains the policy in his hands, has a lien upon it for his commission and the premium until the same are paid to him or he is supplied

(*t*) Gibson *v.* Winter (1833), 5 B. & Ad. 96. This is so wherever the action is brought in the name of one in trust for another (see the observations of Parke, B., in Wilkinson *v.* Lindo (1840), 7 M. & W. 87). So, the Judicature Act, 1873, s. 25, sub-s. 6.

(*u*) Harding *v.* Carter, before Lord Mansfield (1781), Park, Ins. 5; 1 Marshall, 309.

(*x*) 2 Phillips, s. 1909, quoted with approval in Fisher *v.* Smith (1878), 4 App. Cas. at p. 12.

with funds for the payment, whether his immediate employer is the assured himself or an intermediate agent, and in the latter case whether the intermediate agency was known or not known to the sub-agent claiming the lien." And this is so, even where the assured has paid the intermediary, in a case where the latter has not paid the broker (*y*). Sect. 130.

General lien.

131. His lien, however, for the balance of his general account depends on circumstances. Where he has been employed immediately by the assured himself, he has a lien on the policy, not only for the premium and commission due on the particular transaction, but for the amount of the general balance of his insurance account (*z*).

But where he is employed not immediately by the assured himself but by some intermediate agent, and he knows that to be the case, he has no lien on the policy in respect of his general balance against such his immediate employer. Where, however, he is ignorant that the policy is not really effected for the party by whom he is immediately employed, he may refuse to give it up to the assured until he is paid the amount of the general balance of his insurance account against his immediate employer. "The only question," says Gibbs, C. J., "is whether he knew or had reason to believe that the person by whom he was employed was merely an agent" (*a*).

(*y*) Fisher *v.* Smith, *ubi supra*.

(*z*) Whitehead *v.* Vaughan, and Parker *v.* Carter, cited in Cook's Bankrupt Laws, 547, 7th ed.; see also Olive *v.* Smith (1813), 5 Taunt. 56, where Gibbs, J., says: "I came to London in 1775. I was pretty early conversant with some business of that sort, and never remember any doubt to have existed in the profession whether a policy broker had a lien for his general balance on the insurance accounts."

(*a*) See the general rule as laid down by Gibbs, C. J., in Westwood *v.* Bell (1814), 4 Camp. 352, 353; and cf. Maspons *v.* Mildred (1882), 9 Q. B. D. 530, affd. (1883), 8 App. Cas. 874; and Cahill *v.* Dawson (1857), 3 C. B. N. S. 106; 26 L. J. C. P. 253. Duer, vol. ii. pp. 353—371, reviews all the cases and agrees with the rule as stated above. It is, however, forcibly contended by Phillips, vol. ii. s. 1916, that the sub-agent, even if ignorant of the true position of his immediate employer, cannot maintain a general lien. The rule, however, seems to be now well established.

Sect. 131.

The broker may, however, be precluded by his conduct from enforcing a general lien, though he was not aware when he made the assurance that his employer was only an agent. Thus, where a firm of brokers who had effected policies on the instructions of an intermediate party, were requested by the latter to hold the policies to the order of the plaintiffs, and wrote to them to say they would do so subject to their lien for unpaid premium, Scrutton, J., held that the brokers were estopped from asserting against the plaintiffs a general lien for the premiums of other insurances effected for the intermediaries (*b*).

132. It is not necessary, in order to deprive the broker of his general lien against his immediate employer, to show that he had express notice that the party so employing him was only an agent: it is enough if he was reasonably bound to infer this from the circumstances proved (*c*). The party, however, who seeks to deprive the broker of his lien, on the ground of his knowledge of agency, must make out the affirmative, for, in the absence of reasonable proof to the contrary, it will be presumed that the broker believed his immediate employer to be the principal (*d*).

Cahill *v.* Dawson.

D., at Liverpool, received orders from his principal abroad to effect an insurance on a cargo of fruit, but thinking to effect it more economically in London, wrote to L. there, who employed N. to procure the policy. A loss was afterwards paid on it to N., who retained the whole for his general balance against L., and D. was sued by his principal for negligence. It was held that, assuming D. to have been guilty of negligence in insuring at London instead of at Liverpool, the plaintiff's right to recover substantial damages from D. depended on whether L. had or had not shown to N. his letter of instructions, as, if he had, N. would not be

(*b*) Fairfield Shipbuilding Co. *v.* Gardner, Mountain & Co. (1911), 104 L. T. 288.

(*d*) Per Gibbs, C. J., in Westwood *v.* Bell (1814), 4 Camp. 353.

Sect. 132.

entitled to retain the money for his general balance of account (*e*).

Maanss *v.* Henderson.

An English merchant effected a policy for a neutral foreigner in his own name, but informed the broker at the time that the property was neutral, and the policy was effected with a warranty of neutrality. This was held a sufficient indication to the broker, at a time when this country was at war, that the English merchant was acting as agent, and not on his own account, so as to deprive the broker of any lien except for the premiums due on the particular policy (*f*).

Snook *v.* Davidson.

Trover for a policy: The plaintiffs had told Carter, an insurance broker, to effect several policies for them; instead of effecting them himself he employed the defendants, who were also insurance brokers, to do so, telling them at the time that they were for correspondents in the country: it also appeared from the policies themselves that they were in fact for the plaintiffs, as they were all filled up in their names: the defendants claimed to retain for the general balance of their insurance account with Carter; but Lord Ellenborough held that they could not do so, and the plaintiffs had a verdict on paying the amount due for premium and commissions on the policy for which the action was brought (*g*).

Lanyon *v.* Blanchard.

Action to recover a loss received by the defendant from the underwriters, on a policy effected by him as broker: The plaintiff, then abroad, had instructed one Crowgy to effect an insurance here, on goods which he, the plaintiff, had shipped and consigned to Crowgy for sale, together with the bill of lading unindorsed. Crowgy employed the defendant, as his

(*e*) Cahill *v.* Dawson (1857), 3 C. B. N. S. 106; 26 L. J. C. P. 253; Man *v.* Shiffner (1802), 2 East, 523.

(*f*) Maanss *v.* Henderson (1801), 1 East, 334.

(*g*) Snook *v.* Davidson (1809), 2 Camp. 218. Lord Ellenborough puts the case on the want of privity between Carter and the defendants, and says: "A sub-agent, employed as the defendants were, cannot acquire the broker's general lien." It is clear, from the observations of Gibbs, C. J., in Westwood *v.* Bell, that the real ground of decision was the same as in Maanss *v.* Henderson, viz., that defendants must have known Carter to be only an agent. See 2 Duer, pp. 354, 355. Phillips, however, vol. ii. s. 1916, declines to accept this view of the case, which he cites as an authority for the position that a sub-agent, whether ignorant or not of the true position of his immediate employer, can have no general lien.

Sect. 132.

broker, to effect the policy, representing to him at the time that he (Crowgy) had authority to indorse the bill of lading, which he accordingly did, to a person named by the defendant. Under these circumstances, the defendant claimed to retain for the general balance on his insurance account with Crowgy. Lord Ellenborough, however, ruled that he could not do so, and the plaintiff had a verdict, subject only to a deduction for the premium and other charges on the particular policy (*h*).

Westwood *v.* Bell.

133. Where, on the other hand, in an action of trover for a policy, it appeared that the plaintiff (through several intermediate agencies) had employed one Clarkson to effect the policy, and Clarkson, instead of doing so himself, had instructed the defendants, who were regular insurance brokers, to effect it, as for him, leading the defendants to believe that he was principal in the transaction, and the defendants accordingly effected the policy in their own names, "as agents," and debited Clarkson with the premiums; it was held that the defendants, as against the plaintiff, had a right of lien on the policy so effected for the amount of their general balance of their insurance account with Clarkson (*i*).

Mann *v.* Forrester.

In such a case the broker may still satisfy his lien, notwithstanding that before receiving the money he have notice that his immediate employer is only an agent. But if after

(*h*) Lanyon *v.* Blanchard (1811), 2 Camp. 597. Per Gibbs, C. J.: "In Lanyon *v.* Blanchard, the defendant must be taken to have had notice that the person who employed him was not the principal. The representation made by Crowgy that he had authority to indorse the bill of lading was abundantly sufficient to show that he was only an agent": in Westwood *v.* Bell (1815), 4 Camp. 353. As Duer ably puts it: "The unindorsed bill of lading was conclusive to show that the ownership of the goods was still vested in the plaintiff, the shipper, and that it could only be divested by an indorsement made by him, or by his authorized agent. It was this authority that Crowgy represented himself as possessing, and the representation was, in its very terms, an admission of agency": 2 Duer, p. 357. Note that the truth or falsehood of the representation was not the material point, but whether or not the representation, as believed and acted upon by the defendant, necessarily and in its very terms conveyed to his mind the notion that Crowgy, in procuring the insurance to be effected, was acting as agent, and not as principal.

(*i*) Westwood *v.* Bell (1815), 4 Camp. 349.

Sect. 133.

such notice he pay over the surplus to his immediate employer, the principal will nevertheless be entitled to recover the amount from him in an action for money had and received (*k*).

A mercantile agent in this country of a merchant abroad has a lien on the policy that he is authorized to effect, for the general balance due to him, or becoming due on his accounts with his principal, while the policy remains in his hands (*l*). If he has procured the policy to be effected through an insurance broker, this lien of his attaches on the policy while in the possession of the broker, for the possession of the broker in such case is regarded as that of his employer. The assignee, therefore, of such policy, who becomes so by the indorsement to him of the bill of lading, takes it subject to the correspondent's lien: if the amount of such lien exceeds that of the loss, the assignee of the policy, as against the broker, can recover nothing (*m*).

No general lien on policy left merely for safe custody.

If a policy be left in the hands of an agent merely as a depositary and for safe custody, he acquires no general lien thereon, although he may have advanced money to the assured without any other security than the policy (*n*).

General lien is only for the balance of the insurance account: demands, not the subjects of lien, may be items of mutual credit. Olive *v.* Smith.

134. It must be clearly understood that the general lien of an insurance broker is only for the balance of his insurance account: it does not comprehend transactions between the broker and his employer on a distinct account having no relation to insurance. In cases, indeed, where bankruptcy has intervened, demands which cannot be made the subject of lien may frequently be embraced as items of mutual credits, so as to enable the broker to avail himself of a substantial benefit although no lien attaches (*o*).

Such appears to have been the principle of decision in the case of Olive *v.* Smith: in the subsequent case of Rose *v.*

(*k*) Mann *v.* Forrester (1814), 4 Camp. 60.

(*l*) Godin *v.* London Ass. Co. (1758), 1 Burr. 493.

(*m*) Man *v.* Shiffner (1802), 2 East, 523.

(*n*) Muir *v.* Fleming (1822), 1 Dowl. & Ryl. N. P. C. 29. This was a case on a life policy, which had been left with defendant, he paying the premiums as they became due. So 2 Phillips, s. 1909.

(*o*) Olive *v.* Smith (1813), 5 Taunt. 56.

Sect. 134.

Hart the doctrine of mutual credit was limited to cases where the credits given must in their nature terminate in debts; but Gibbs, C. J., as the organ of the Court, was careful to state expressly that the principle so laid down would support Olive *v.* Smith, on the ground that in that case "the bankrupts were indebted to the defendants, and, being so indebted, delivered policies of insurance to them to collect losses under them, which, when so collected, would make the defendants their debtors for the amount" (*p*).

When lien of broker is lost,

The lien of an insurance agent, as of every other agent, depends at common law on the continuance of possession: when he voluntarily delivers up the policy to his principal, or to his order, his lien is extinguished; so it is if he parts with the policy wrongfully, as by pledging it as his own; but not so where it is taken from him by force, or fraud, or parted with by mistake (*q*).

and revives.

As a general rule, the lien of the broker revives where the policy comes again into his possession (*r*); but there are excepted cases. If, for instance, when the policy comes again into the broker's hands he knows, or has reasonable grounds to believe, that his immediate employer was a mere agent (he having been ignorant of the fact when he before held the policy), it seems that his general lien for the balance of his insurance account with his immediate employer will not revive with the re-possession of the policy, as against the claims of the party really assured (*s*). So, if during the time

(*p*) Rose *v.* Hart (1818), 8 Taunt. 499; 2 Smith's L. C.; and see, as to Olive *v.* Smith, the observations of Lord Brougham in Young *v.* Bank of Bengal (1836), 1 Moore's Ind. App. Cas. 87; and of Maule, J., in Dixon *v.* Stanfield (1850), 10 C. B. 413. It must be remembered that the words of the statute at present in force (s. 31 of the Bankruptcy Act, 1914) are wider than they were under the statute in force when many of the older cases were decided. Modern decisions have extended the applicability of the "mutual credits" clause: see, for example, In re Daintrey, [1900] 1 Q. B. 546; In re Taylor, [1910] 1 K. B. 562; Tilley *v.* Bowman, [1910] 1 K. B. 745.

(*q*) 2 Duer, 289. The learned jurist, as usual, supports these positions by incontestable authorities.

(*r*) Whitehead *v.* Vaughan, Cook's Bankrupt Laws, 547, 7th ed.; Levy *v.* Barnard (1818), 8 Taunt. 149; 2 J. B. Moore, 34.

(*s*) Levy *v.* Barnard (1818), 8 Taunt. 149; *S. C.*, 2 J. B. Moore, 34.

Sect. 134.

the policy has been out of the broker's possession, it has been assigned over by his employer in good faith and for a valuable consideration to a third party, the broker's general lien on the insurance account with his employer would not, it has been held in the United States, revive as against the claim of such assignee (*t*).

Broker under a *sub. duc. tec.* must produce policy, but his lien will be satisfied.

If an insurance broker, having a lien on a policy, be summoned as a witness to produce it under a *subpœna duces tecum*, in an action by his employer against the underwriter, he is compellable to produce the policy; but the Court will, if the plaintiff in such action obtain a verdict, prevent the money from being paid over to him until the broker's lien is satisfied (*u*).

This was probably the point decided in this case; but it is better, with Judge Duer, to speak doubtfully on the matter: 2 Duer, 290, 359, 360.

(*t*) Spring *v.* S. Carolina Ins. Co. (1823), 8 Wheat. 268, cited 2 Duer, 290.

(*u*) Hunter *v.* Leathley (1830), 10 B. & Cr. 858; *S. C.*, at N. P., Lloyd & Welsby, 125. It appears, by the Nisi Prius report, that the broker, after objection made, produced the policy "on an assurance from Lord Tenterden that if the plaintiffs recovered a verdict, the Court would prevent the money from being paid over to them till the witness's lien was discharged": Lloyd & Welsby, 125. This explains the meaning of what Lord Tenterden is reported to have said in banc: "We do not by this decision" (*i.e.*, that the broker was compellable to produce the policy) "deprive the party of his lien; he still has the policy in his possession, and has the same right of lien as before." His lordship obviously means that the Court would take care that the broker's lien should be satisfied out of the fruits of the judgment, if it passed for the plaintiffs; if it did not, he would, of course, be in the same position as before. See 2 Duer, 294, 297.

In Fairfield Shipbuilding Co. *v.* Gardner, Mountain & Co. (1911), 104 L. T. 288, Scrutton, J., expressed a doubt whether a lien on a policy gives a lien on the proceeds collected under it, though the plaintiffs had declined to take this point. There may be a possessory lien on a document, which is merely a right to hold it until a claim is satisfied, giving no right to obtain payment of any debt of which the document is evidence: see Rummens *v.* Hare (1876), 1 Ex. D. 169; West of England Bank *v.* Batchelor (1882), 51 L. J. Ch. 199. When, however, a broker, being in possession of a policy, is authorized to collect losses or returns of premiums, his right to retain the sum for which he has a lien out of moneys received by him under the policy has been expressly recognized in Mann *v.* Forrester, *ante*, § 133, and impliedly in Cahill *v.* Dawson, *ante*, § 132. See also Man *v.* Shiffner (1802), 2 East, 523, at p. 530, *ante*, § 133.

CHAPTER VII.

INSURANCE AGENTS GENERALLY—THEIR RIGHTS, DUTIES AND LIABILITIES.

	SECT.
Agents of the Assured	135
Their authority, express	135
implied	136—139
Ratification	140—143
Revocation of authority	144
Their Duties and Liabilities	145—162
Their Duties when Policy left	163—165
Agents of the Insurer	166
Their authority	166—168

Insurance agents acting for the assured.

135. In the last chapter we considered the actual course of sea insurance business as carried on in London and elsewhere in Great Britain, and the relative rights, duties and liabilities of insurance agents and their principals as affected thereby. In the present chapter an endeavour will be made to discuss the relations of insurance agents to their employers, first, as governed by the general principles of the law of agency; and, secondly, as affected by the general course of business in sea insurance, in so far as that has grown to be a custom.

Insurance agents may be employed either for the assured to effect, or for the underwriters to subscribe, policies. We will for the present confine our attention to insurance agents acting on behalf of the assured, and consider, in the first place, the nature of the authority under which they act. Insurance agents may procure policies to be effected either, first, in consequence of orders expressly given them by their employers; or, secondly, by virtue of an implied authority arising out of the relation in which they stand to the persons for whom, or the property on which, they procure the insurance to be effected; or, thirdly, insurance made by them

without the prior authority, may be ratified by the subsequent adoption, of the assured.

Their express authority.

First, with regard to persons procuring sea insurances to be effected at the express request, instance or direction of the assured. In these cases no difficulty can arise as to the authority to insure: every person who is specially requested or directed so to do by the party interested may effect a policy to protect the interests of his employer; if, indeed, he himself puts the policy in suit or founds any legal claim upon it, he must, of course, be prepared, in the first instance, to prove the express authority, as given, whether verbally or in writing. The questions that have arisen in these cases of express authority turn mainly on the point: Under what circumstances does the express order to insure impose on the agent the positive duty of causing the insurance to be effected? and this will be more properly considered when we are discussing the duties and liabilities of insurance agents.

Their implied authority.

136. As to the implied authority to insure arising out of the relation of the agent to the parties for whom, or the property on which, the insurance is effected, the following are some of the principal points that have been decided.

A partner has an implied authority to bind his co-partners by insurance;

A partner may, without express authority from the other members of the firm, procure an insurance to be effected for him and them on partnership property; and if, by his directions, such an insurance is effected "on account of the firm," all the members of such firm are liable to the broker, by whom the policy was so effected, for premiums and commissions (*a*).

but a part owner, as such, has not.

But the same rule does not apply to part owners, who cannot bind the other part owners by any policy originally effected without their authority, and not subsequently

(*a*) Hooper *v.* Lusby (1814), 4 Camp. 66. The vessels in this case, however, were not partnership property, though the defendants carried on business in partnership. It should seem that, in order to constitute a joint liability, a general partnership is not necessary; it will be sufficient if the defendants were special partners in the particular adventure intended to be protected by the insurance. See the *dicta* of the judges in Robinson *v.* Gleadow (1835), 2 Bing. N. C. 156.

Sect. 136.

adopted by their ratification. The reason of this difference is thus stated by Lord Ellenborough: "Each separate share in the ship is the distinct property of each individual part owner, whose business it is to protect it by insurance; so that the insurance of another cannot be binding on such proprietors without some evidence importing an authority by them" (*b*).

Not even where the part owner is ship's husband.

This is so even where the part owner, who has given orders for the insurance, is ship's husband, or managing owner, appointed by deed in the usual form to act discretionally for all the other owners. Nothing will make his insurance binding on the others, except either a particular direction from them to insure, or satisfactory proof that they approved and ratified the insurance after it came to their knowledge (*c*). Otherwise, the brokers can only look to him for premiums, and are liable to him alone for the amount received by them from the underwriters on account of losses (*d*).

Aliter, where the part owners are jointly interested in the adventure insured.

Where, indeed, all the part owners are jointly interested in the particular adventure insured, and the insurance is made by one of them, who is managing owner, for their joint account and benefit, they having full opportunity of learning what has been done, and never objecting to it, this is sufficient to warrant a jury in inferring a joint authority to insure, and will render all the part owners liable to the broker for premiums, notwithstanding the broker may have debited the managing owner only, and divided with him the profits of commission on effecting the insurance (*e*). Moreover, in the present day, there is no doubt that managing owners have, apart from express instructions, wider powers with respect to insurance, than formerly (*f*).

(*b*) Per Lord Ellenborough in Bell *v.* Humphries (1818), 2 Stark. 345. See French *v.* Backhouse (1771), 5 Burr. 2727.

(*c*) French *v.* Backhouse (1771), 5 Burr. 2727; Robinson *v.* Gleadow (1835), 2 Bing. N. C. 156.

(*d*) Roberts *v.* Ogilby (1821), 9 Price, 269.

(*e*) Robinson *v.* Gleadow (1835), 2 Bing. N. C. 156. Several of the judges put this decision on the ground, that though the defendants were not general partners, yet they were special partners in the adventure in which the ships insured were engaged.

(*f*) See Calafatis *v.* Olivier (1919), 36 T. L. R. 18. In that case Roche, J., held that where the managing owner has authority to insure, he owes a duty to a part-owner, who is a co-adventurer, to insure to a reasonable amount. In the C. A. (*ibid.* 223) the judges gave no opinion on this point.

Sect. 137.

137. Has a consignor or commission agent, to whom funds are remitted to purchase and ship goods for his employer, an implied authority, as such, in the absence of express orders, to insure such goods on behalf of his principal? No doubt such insurances are not unfrequently made in reliance on their being subsequently adopted by the principal. In the absence of any established course of dealing, prior authority or subsequent adoption, would such insurances be upheld, so as to give the agent who has effected them a right to charge the premium to his principal, or to demand a loss from the underwriter? As a general rule, and in accordance with ordinary mercantile practice, it seems that the answer to this question must be in the negative. Where orders are given to consign, and no orders given to insure, the practical inference generally would be, either that the principal meant to effect the insurance himself, or intended to remain uninsured. Exceptions to the general rule may, of course, be created by circumstances. An established course of dealing between the principal and agent, or the usage of a particular port or trade (*g*), may be reasonably held to confer an implied authority in the consignor to effect an insurance on behalf of his principal (*h*).

Implied authority of consignor to insure.

Duty of vendor to give notice of shipment.

137a. The same rule no doubt applies to a vendor of goods. It is, however, provided by the Sale of Goods Act, 1893 (*i*), that unless otherwise agreed, where goods are sent by the

(*g*) Duer adds (vol. ii. p. 103): "An authority to insure may probably arise by implication in all cases where, from special or unforeseen circumstances, the agent is justified in believing that the property, unless insured by himself, will be unprotected, and that his principal, if on the spot, would himself direct the insurance." Arnould (2nd ed. p. 167) adopted this on the high authority of Judge Duer; but it may be doubted whether authority could be implied from such a state of things, however reasonable it would be in the agent to insure, relying on the ratification of his principal.

(*h*) 2 Duer, 101—104.

(*i*) Sect. 32 (3).

Sect. 137a.

seller to the buyer by a route involving sea transit, under circumstances in which it is usual to insure, the seller must give such notice to the buyer as may enable him to insure them during their sea transit, and if the seller fails to do so, the goods shall be deemed to be at his risk during such sea transit. It has, however, been held that this provision does not apply to f.o.b. contracts (*k*), and also it does not usually apply to c.i.f. contracts (*l*). It is not quite easy, therefore, to see to what kind of business contract it is intended to apply.

Duty of vendor under c.i.f. contract to insure.

A seller of goods under a c.i.f. contract is bound to effect a valid policy on the particular goods sold. If the policy turns out to be invalid, he will be liable for the amount the purchaser would have recovered under a valid policy (*m*). An actual policy must be tendered. It is not sufficient for the seller merely to guarantee to hold the purchaser covered under a policy in the seller's possession. Moreover, the policy should cover only the goods sold and not include others (*n*). In the absence of a proper policy the purchaser may reject the goods, even after their safe arrival (*o*).

Implied authority of consignee to insure.

138. The same question may be put with regard to the implied authority of the consignee, as such, to insure. The answer to this question depends on the sense in which the word consignee is used. A consignee who has made advances has, it is clear, not only the right to effect an insurance on his own behalf, and to recover thereon to the extent of those advances, but he has also an implied authority to insure on

(*k*) Wimble *v.* Rosenberg, [1913] 1 K. B. 279; 3 K. B. 743 (C.A., Vaughan Williams, L. J., dissenting).

(*l*) Law & Bonar, Ltd. *v.* British American Tobacco Co., Ltd., [1916] 2 K. B. 605.

Sect. 138.

behalf of his consignor (*p*). But a mere naked consignee—one, that is, who has no personal interest in the property consigned to him, but is the mere transmittee of the bill of lading, with directions to sell or otherwise dispose of the goods to which it relates—has no implied authority (in the absence of any established course of dealing) to effect insurances on behalf of his consignor, at all events while the goods are in course of transit, and before they have reached his hands (*q*).

Implied authority of general agents of foreign merchants to insure.

Has the general agent of a foreign merchant an implied authority to insure on his behalf? Here, again, the answer to the question must depend on the extent of trust and authority embraced by the term general agency. Where the general agency consists in this, that a merchant in one country consigns all his goods intended for sale in another country to a particular merchant there resident, and effects through him all his purchases, this alone, without some evidence of a special course of dealing in regard to insurances, would not show that either correspondent had implied authority to insure on behalf of the other. But where the trust reposed is more extensive, as, for instance, where a foreign merchant employs a general agent to procure consignments, and make advances and shipments on his account, leaving the whole conduct and management of the business entirely in the agent's uncontrolled and unassisted discretion, no doubt an authority to insure on the foreign merchant's behalf would be implied as a necessary means of conducting the business of such an agency (*r*).

Implied authority to

139. An implied authority to insure may arise from the

(*p*) Wolft *v.* Horncastle (1798), 1 B. & P. 316; Carruthers *v.* Shedden (1815), 6 Taunt. 14; Smith *v.* Lascelles (1788), 2 T. R. 188; Craufurd *v.* Hunter (1798), 8 T. R. 23.

(*q*) 2 Duer, 104—111; see 2 Phillips, s. 1858.

(*r*) 2 Duer, 111—113. Judge Duer says: "Such agents as those last mentioned are to be found in all our principal cities; and their universal practice is either to insure themselves the shipments made to their principals, or to take an assignment of the policies that, for the security of their principals, they require to be effected": p. 113.

Sect. 139.

insure, arising from the peculiar situation of the property; as of master and supercargo in case of wreck, &c., or prize agents and the like.

peculiar situation of the property with which the agent effecting the insurance is entrusted. Thus, although the master, as such, has not in general an implied authority to effect insurance either on ship, freight, or cargo (*s*), yet there seems little doubt that cases may arise which would confer that authority on him. Where the ship is lost, but the cargo, or part of it, saved, under such circumstances as to make it impossible either to sell it at the place of disaster or to forward it to the port of destination, the master, if he had the chance of so doing, would be justified, as agent for all parties concerned, in sending it on to some other port for sale. In such a case, if there were no means of speedy communication with the owners, the law that confers the agency would seem also to confer upon the agent authority to insure (*t*). It has been intimated by a learned judge in the United States, that in a similar case a like authority would be implied in the supercargo (*u*). A merchant who has ordered goods from a foreign correspondent may refuse to receive them, if in excess of or not according to order; in such case, if he elect to re-ship them, he has, in the opinion of Lord Hardwicke, an implied authority to insure them on behalf of the consignor (*x*). Generally speaking, as we have seen, a mere order to consign or forward goods will not carry with it an implied authority to insure on behalf of the party giving the order. In a case, however, where an agent was empowered by the owners of a ship and cargo, captured as prize, to prosecute their claims in the foreign

(*s*) Craufurd *v.* Hunter (1798), 8 T. R. 23.

(*t*) 2 Duer, 101.

(*u*) Per Jones, J., in De Forest *v.* Fulton Ins. Co. (1828), 1 Hall, 84, cited in 2 Phillips, s. 1856.

(*x*) Cornwall *v.* Wilson (1750), 1 Ves. sen. 214. A buyer who rejects the goods owes no duty to the seller to return them (Sale of Goods Act, 1893, s. 36); and it may be doubted whether, in general, he is entitled, without instructions, to send them back at the seller's expense. See as to his duty, Couston *v.* Chapman (1872), L. R. 2 H. L. Sc. 250; Grimoldby *v.* Wells (1875), L. R. 10 C. P. 391. Mr. Arthur Cohen questions Lord Hardwicke's dictum: Laws of England, vol. xvii. § 699, note (*b*).

Sect. 139.

prize court, to make such compromise as he might deem advisable, and, in case of restitution, "to forward the ship to London:" it having been objected that these circumstances raised no implied authority in the agent to direct an insurance on the property after restitution, Lord Ellenborough held that the order to forward the ship to London was an authority to insure her (*y*).

Ratification equivalent to a prior authority.

140. The cases hitherto considered have been those in which a prior authority to insure has either been expressly given, or has been implied from the relation of the parties effecting the policy, either to those for whose benefit the insurance is intended, or to the property designed to be protected. It is not, however, essential to prove any prior authority, either expressed or implied. By sect. 86 of the Marine Insurance Act, 1906, "where a contract of marine insurance is in good faith effected by one person on behalf of another, the person on whose behalf it is effected may ratify the contract even after he is aware of the loss" (*z*). Such subsequent ratification is equivalent to a prior authority (*omnis ratihabitio retrotrahitur et mandato æquiparatur*) (*a*).

(*y*) Robertson *v.* Hamilton (1811), 14 East, 522. See the case stated and commented on, 2 Duer, 101, 102.

(*z*) The leading authorities are: Wolff *v.* Horncastle (1798), 1 B. & P. 316; Lucena *v.* Craufurd (1806), 2 B. & P. N. R. 269; Stirling *v.* Vaughan (1809), 11 East, 623; Routh *v.* Thompson (1811), 13 East, 274; Hagedorn *v.* Oliverson (1814), 2 M. & S. 485; Robinson *v.* Gleadow (1835), 2 Bing. N. C. 156; Watson *v.* Swann (1862), 11 C. B. N. S. 756; 31 L. J. C. P. 210; Boston Fruit Co. *v.* British & Foreign Mar. Ins. Co., [1906] A. C. 336.

(*a*) In Keighley, Maxted & Co. *v.* Durant, [1901] A. C. 240, the House of Lords held that the doctrine of ratification has no application where the person who made the contract did not profess at the time of making it to be acting on behalf of any principal. In Boston Fruit Co. *v.* British & Foreign Mar. Ins. Co., [1906] A. C. at p. 343, Lord Atkinson doubted whether since this decision the doctrine can survive that an insurance, if ratified, protects those whom the person dealing with the underwriter intended to be insured, when such intention was not communicated to the underwriter. As, however, the ordinary English policy professes in terms to be effected on behalf of other persons interested in the subject-matter insured, the editors submit that the decision in Keighley, Maxted & Co. *v.* Durant does not affect the right of the intended principal to ratify the contract. See *post*, §§ 172, 173.

Sect. 140.

Thus, although one part owner has no original implied authority from the rest to insure on their account, yet, if he does so, and they subsequently adopt the insurance, they are bound by it (*b*). So, although the captors of a prize have no original implied authority to insure, yet, if they do insure, for whom it may concern, and the Crown, in whom the legal interest vests, subsequently adopts the insurance, it is thereby rendered valid (*c*). Whether the clerk of a foreign consignee has, as such, a prior implied authority to direct an insurance to be effected by English correspondents of his master on a consignment made by them on account, and to the orders, of his employer, may be doubtful; but subsequent adoption by the foreign principal of the insurance so effected will amply warrant a jury in finding that such insurance was made with his authority (*d*).

Ratification of insurance may be implied from conduct.

141. With regard to the nature of the evidence required to establish the fact of ratification, positive proof of an express ratification is not needful. The adoption of the policy may be inferred from the conduct of him for whose benefit it was originally intended. If he means to reject it, he should express his dissent as soon as he is informed of the fact; if he fail in so doing, his adoption of the contract will, generally speaking, be inferred from his silence (*e*). At all events, this will be so in cases where those who have effected the insurance, instead of being mere strangers or volunteers, stand in such relations of business or correspondence as would give them, not indeed an implied authority to insure, but a

(*b*) French *v.* Backhouse (1771), 5 Burr. 2727; Robinson *v.* Gleadow (1835), 2 Bing. N. C. 156.

(*c*) Routh *v.* Thompson (1811), 13 East, 274. So of the Dutch Prize Commissioners, Lucena *v.* Craufurd (1806), 2 B. & P. N. R. 269.

(*d*) Barlow *v.* Leckie (1819), 4 J. B. Moore, 8.

(*e*) So Phillips (vol. i. s. 390). In view of the now-established doctrine in this country, that a principal may ratify even after knowledge of a loss (Mar. Ins. Act, 1906, s. 86, *ante*, § 140), this would probably be held to be law here; otherwise a party interested would be able to lie by for an indefinite time, and eventually elect to take the benefit of the insurance in case of a loss, or to repudiate liability for premiums in case of safe arrival.

Sect. 141.

reasonable ground for anticipating that the policy, when made, would be adopted by him for whom it was designed (*f*).

Evidence of ratification.

Thus, in the case of part owners: where no proof could be adduced of an express authority to insure, but evidence was given that the part owner insuring had "told all his co-partners that he had insured, and that they did not object to it" (*g*); or where it appeared that the part owner insuring had entered the premium in his books, which were open to the inspection of the other owners, and that they had actually inspected an extract made from these books relating to the insurance transaction without objecting to it; juries were held to be justified in finding that the part owner insuring had done so with the authority of his co-owners (*h*).

Conditional ratification.

142. A ratification, conditional in its terms, has been held in the United States to be equivalent to a prior authority as soon as the contingency on which it was to depend has happened. The general agent, at New York, of a merchant resident at Carthagena, having effected an insurance for him without instructions, gave him notice of what he had done. The Carthagena merchant wrote in answer, that, if other insurances which he had ordered should not have been made, and if the ship should not have arrived safe, he wished the policy to stand, otherwise to be cancelled. When this answer was received in New York the other insurance referred to had not been made, and the ship (which was then out of time) had not arrived; in fact, was totally lost. An action

(*f*) This distinction is suggested by Judge Duer, vol. ii. pp. 151—154. See also note (*v*) to sect. x. pp. 178—182, in which he discusses the question "whether the mere omission of the principal to reply to a letter of advice from a self-constituted agent is to be regarded as evidence of an adoption of the agent's act." The learned jurist takes the negative view.

(*g*) French *v.* Backhouse (1771), 5 Burr. 2727. The action here was by the ship's husband against his co-part-owners to recover back premiums on a policy effected by him on the owners' behalf.

(*h*) Robinson *v.* Gleadow (1835), 2 Bing. N. C. 156. The action was by the assignees of the broker against all the part owners for premiums. Park, J., however, seems to have considered the case as one of subsequent ratification rather than of original authority.

Sect. 142.

having been brought in the Superior Court of New York on the policy, Oakley, J., before whom the case was tried, held the ratification sufficient, and a judgment was recovered for the loss (*i*).

When the adoption must be made.

The adoption, as we have seen, may be made not only after a loss has taken place, but even after it has become known to the principal (*k*); and in one case the only evidence of adoption was a letter written by the principal two years after the making of the insurance, and nearly as long after he had become aware of the loss, expressing a hope that the party who had effected the policy had procured a final settlement from the underwriters (*l*). Accordingly, the Court of Appeal, when asked to review these cases in order to limit more narrowly the time for valid ratification, recognized the rule as one that had been long established, and no doubt found convenient in the case of marine insurance, and therefore refused to disturb it (*m*).

That, however, which is relied upon as a ratification must be done, said, or written by the principal after he is cognizant of the insurance. A general order to insure, given by the principal before knowledge of the particular insurance, though not received by the party insuring till after the policy was effected, cannot, it seems, be construed into an adoption of such policy (*n*).

(*i*) Bridge *v.* Niagara Ins. Co. (1828), 1 Hall, 247, cited 2 Phillips on Ins. s. 1868. In point of fact, a conditional order ceases to be so, and becomes positive, when, before receipt by the party who is to execute it, its conditions have been fulfilled.

(*k*) Mar. Ins. Act, 1906, s. 86, *ante*, § 140. Lucena *v.* Craufurd; Routh *v.* Thompson; Barlow *v.* Leckie, *ubi supra*, are all cases in which the principal ratified the insurance with knowledge of the loss. This rule is peculiar to marine insurances: Grover *v.* Mathews, [1910] 2 K. B. 401.

(*l*) Hagedorn *v.* Oliverson (1814), 2 M. & S. 485.

(*m*) Williams *v.* North China Ins. Co. (1876), 1 C. P. D. 757. In view of this decision, it is probably the law now, as stated by Phillips, vol. i. s. 390, that ratification, and consequent liability for premiums, is presumed in the absence of express repudiation within a reasonable time after notice. See *ante*, § 141, note (*e*).

(*n*) Bell *v.* Janson (1813), 1 M. & S. 201.

Sect. 143.

Ratification of an insurance effected by a voluntary agent.

143. It is, however, necessary, in order to justify an adoption or ratification of such a contract, that the "voluntary agent"—or, in other words, the party who has without authority effected the contract—should have intended to be acting on behalf of the person claiming to adopt or ratify it. He must also have intended to look to such person for the reimbursement of his necessary expenses in the transaction (*o*). "It is clear law," said Erle, C. J., "that no one can sue on a contract but the person who made it, or the person who ratified what purported (*p*) to be a contract made by his agent. . . . A very wide extension has been given to this principle . . . in respect of a policy of assurance, and persons who could not be named at the time, if intended to come within it, and so capable of being ascertained, have been allowed to be entitled to the benefit of the same: but they must have been such as were contemplated at the time when the policy was made" (*q*).

In Byas *v.* Miller, an insurance broker at Lloyd's was instructed by principals at Liverpool to reinsure goods for a voyage at a certain premium. He was unable to execute the order at the rate mentioned, but obtained from the defendant, an underwriter, a slip at a higher premium, and

(*o*) See 2 Duer, 135. The whole subject of voluntary agency and ratification is learnedly discussed in pp. 132—155.

(*p*) As to the meaning of this word, the Lords Justices in Durant *v.* Roberts, [1900] 1 Q. B. 629, took different views. The dissenting opinion of A. L. Smith, L. J., was approved by the House of Lords, Keighley, Maxted & Co. *v.* Durant, [1901] A. C. 240. The fact that a person who effects a policy in his own name is an insurance broker may, it is suggested, be enough to show that he professes to be acting for a principal.

(*q*) In Watson *v.* Swann (1862), 11 C. B. N. S. 756; 31 L. J. C. P. 210. Willes, J., in the same case, considered that the intended principal must be a person who is capable of being ascertained at the time the contract is made. Mathew, J., seems to have been of the same opinion. "It is imperatively necessary," he said in Byas *v.* Miller (1897), 3 Com. Cas. 39, "that the insurance should be intended to be effected by the agent on behalf of some person capable of identification, and responsible to the broker for the premiums that the broker undertakes to pay to the underwriter." See further on this point, *post*, §§ 171—173, and see also Keighley, Maxted & Co. *v.* Durant, *ubi supra*.

Sect. 143.

sent to the Liverpool firm a cover-note stating that he had reinsured provisionally for their account at the higher rate: this insurance, however, the Liverpool firm refused to accept. The broker shortly afterwards issued to the plaintiffs a fresh cover-note in respect of an interest which they had in the same goods, the defendant's name being inserted therein as underwriter; and within two or three weeks the goods were totally lost. A few days later a policy in the ordinary form was tendered to, and signed by, the defendant in accordance with the slip. The defendant never knew the names of the original principals of the broker, nor did he ever know, until after the loss, that the broker had appropriated the slip to clients for whom he was not acting at the time when the slip was signed. It was held, in accordance with the principles above stated, that there was no contract between the plaintiffs and the defendant (*r*).

When an express authority to insure may be revoked.

144. With regard to the revocation of an express authority to insure given to an agent, the time within which it may be made depends, of course, upon this: whether the agent, acting in pursuance of the authority, has conclusively bound himself to third parties before receiving notice of the revocation. If he have not, the revocation will be operative; if he have, it will be ineffectual. In this country no contract for sea insurance is valid unless it be expressed in a policy containing the particulars required by the Stamp Act, 1891 (*s*). Hence, the authority given to an insurance agent may be revoked, notwithstanding the initialing of the slip by the underwriters, at any time before the formal policy is subscribed; and if a broker, having procured a slip to be written on

(*r*) Byas *v.* Miller, *ubi supra*. The facts and the decision in Watson *v.* Swann were very similar. In Byas *v.* Miller, Mathew, J., seems to have considered that a purely speculative insurance cannot be ratified. Such a limitation of the rule is not unreasonable, and it is possible that the words "in good faith" in s. 86 of the Mar. Ins. Act, 1906, *ante*, § 140, may be construed as implying that the voluntary agent must have an honest belief that the intended principal expects, or would, if aware of the facts, expect that he will effect the insurance.

(*s*) See also Mar. Ins. Act, ss. 22—24.

Sect. 144.

terms within the scope of his original authority, afterwards receive an intimation from his principals that they will not consent to such terms, and, notwithstanding such notice, effect a policy on those terms, and pay the premiums to the underwriters, he cannot recover against his employers for the premiums so paid (*t*), nor for his commission (*u*).

Duties and liabilities of agents for the assured.

Agents paid and unpaid, skilled and unskilled.

145. The liability of insurance agents to their employers for negligence is determined by the general principles of the law of agency (*x*). All such agents, whether paid or unpaid, skilled or unskilled, are bound to exercise due care in the performance of the duties which they have undertaken. A greater degree of care, however, is required from a paid than from an unpaid, from a skilled than from an unskilled, agent. In other words, conduct which amounts to actionable negligence in a paid or in a skilled agent may not amount to such in one who is unpaid or unskilled. In view of recent authorities, this seems to be a better way of stating the law than to say that the one is liable for ordinary, but the other only liable for gross negligence (*y*).

Application of these principles.

The great majority of persons employed in the business of sea insurances are both paid and skilled agents, or, at all events, either the one or the other. Generally speaking,

(*t*) So held by Lord Ellenborough in Warwick *v.* Slade (1811), 3 Camp. 127. We have, however, elsewhere advanced the view that the slip may itself be a valid policy: if this view be correct, the revocation by the principals would be too late. See *ante*, §§ 37, 38.

(*u*) So Arnould, 2nd ed. p. 174. But no question of commission appears to have been raised in Warwick *v.* Slade, and the editors suggest that under the circumstances the principals might have been liable to pay, if not commission, at least damages for preventing the broker from earning it. The editors are, however, informed that it is not the practice to claim brokerage when the insurance is cancelled before the policy has been issued. Whether such practice amounts to a binding usage, they are unable to say.

(*x*) See Coggs *v.* Bernard and notes, in Smith's Leading Cases; Story on Agency, 149, 150. A broker who effects a contract of insurance with an underwriter is not his agent, and owes no duty of care or skill to him: Empress Ass. Corporation *v.* Bowring (1906), 11 Com. Cas. 107; Glasgow Ass. Corpn. *v.* Symondson (1911), 16 Com. Cas. 109.

(*y*) Cf. 2nd ed. of this work, pp. 174, 175.

Sect. 145.

therefore, the question of their liability for negligence turns on the point, whether they exerted such an amount of reasonable skill in effecting the policy as is ordinarily possessed and exercised by persons of common capacity, engaged in the same business or employment. From a policy broker, whose main occupation it is to manage sea insurance transactions, a higher degree of skill may fairly be claimed than from a merchant or commission agent, who may be expected, indeed, to possess a general knowledge of maritime and mercantile affairs, but no special knowledge of the business of sea insurance.

A person who accepts instructions to procure an insurance for another is bound to use reasonable care and skill to effect the policy. If he is unable to procure the policy, he must at once inform his principal of his inability to do so. Sometimes, however, the contract is not merely to use care and skill to effect a policy, but amounts to an undertaking to procure a policy at a named figure. It is a question of fact, which will generally depend upon a construction of documents, whether the contract is of the former or the latter description (*z*).

Liability of a party voluntarily undertaking to procure an insurance for another.

146. Notwithstanding doubts which at one time prevailed, it may now be considered as settled law, that a person who voluntarily and without consideration undertakes to effect insurances for another is liable for negligence in doing so, if he takes any steps towards performance of his undertaking (*a*). But if the person who voluntarily promises, without any kind of consideration, to procure an insurance never takes any steps whatever towards the performance

(*z*) See Hood *v.* West End Motor Car Packing Co., [1917] 2 K.B. at p. 47 (Scrutton, L.J.).

(*a*) Wallace *v.* Tellfair (1788), 2 T.R. 188, n., before Buller, J., at N.P., cited in Wilkinson *v.* Coverdale (1793), 1 Esp. 75. In the latter case Lord Kenyon held, that where the seller of a house had voluntarily undertaken to get a fire policy renewed for the plaintiff, and had in fact renewed it, but without procuring a proper indorsement, whereby plaintiff was deprived of the benefit of the insurance, this was actionable negligence.

Sect. 146.

of his promise, he is not liable to an action for the nonfeasance (*b*).

Three cases in which agents requested to procure insurance must do so.

Generally speaking, a person to whom an order to insure has been transmitted is under no obligation to accept the trust; but there are certain cases in which an express order to insure, not only may, but must be complied with.

1. Where a merchant abroad has effects in the hands of his agent or correspondent here, he has a right to expect that the agent will comply with an order to insure; because he is entitled to call his money out of the other's hands when, and in what manner, he pleases.

2. Where the merchant abroad has no effects in the hands of his correspondent here, but the course of dealing between them has been such that the one has been used to send orders for insurance, and the other to execute them, the former has a right to expect that his orders for insurance will still be obeyed, unless the latter give him notice to discontinue that course of dealing.

3. Where the merchant abroad sends bills of lading to his correspondent here, with an order to insure as the implied condition on which he is to accept the bills of lading, and the correspondent accepts the bills of lading, he must obey the order; for it is one entire transaction, and the acceptance of the bills of lading amounts to an implied agreement to perform the condition (*c*).

The rules thus stated are believed to be as universal in their observance as they are unquestionably well founded in justice and equity.

Where the obligation to insure arises from a previous

147. Where the obligation to insure arises from a previous course of dealing, and the agent has no funds in hand, Duer suggests that he would be excused from compliance if, when

(*b*) Thorne *v.* Deas (1809), 4 Johns. N.Y.R. 84—a decision of Chief Justice (afterwards Chancellor) Kent. Duer approves of this decision as a correct exposition of the law, though he remarks forcibly on the hardship which may thus be inflicted on the party who trusts to the promise of the volunteer. 2 Duer, 128—130; see the Carpenters' Case, Year Books, xi. H. iv. p. 33, ed. 1679.

(*c*) Per Buller, J., in Smith *v.* Lascelles (1788), 2 T.R. 189, 190.

Sect. 147.

course of dealing, and the agent has no funds in hand.

he receives the order, he has just grounds for believing that his correspondent is insolvent (*d*). This may be so; but in practice it will be the safer course for the agent to obey the order, unless his information of his correspondent's insolvency be of such a nature as to leave him no ground for doubt.

Where the insurances are out of the usual course.

Duer also thinks that "the obligation to insure that arises from a previous course of dealing can only apply to insurances similar to those that the agent had been in the habit of effecting. If the past assurances had all been effected in a time of peace, at a low rate of premium, and requiring in each case only a moderate advance, they would give the principal no right to expect that an order to insure in a time of war, not accompanied by a remittance of the necessary funds, would be obeyed" (*e*). It may be a question, however, how far this would be so held in this country, where an immediate advance in respect of the premium is hardly ever required in practice at the time of effecting the policy.

Where funds are remitted.

There can be no doubt as to another position of the very learned American jurist, "that where the necessary funds for procuring the insurance are remitted to a commission merchant or insurance broker, he is under an equal obligation to apply them to the purpose directed as where the funds are in his hands when the order is received" (*f*).

It also seems free from doubt that the duty of insuring may be imposed on an agent, even in the absence of express directions to insure, by the usage of the particular trade to which his agency and the insurance relate (*g*).

Agent instructed to insure will be liable for neglect to do so.

148. If an agent is employed by a foreign correspondent to procure an insurance under circumstances which, according to the rules laid down by Buller, J., in Smith *v.* Lascelles, give the correspondent a right to expect such orders will be complied with, a total failure to comply with such orders, without notice, will subject such agent to an action for all the loss which his correspondent may have sustained from the

(*d*) 2 Duer, 124.

(*f*) *Ibid.*
(*g*) *Ibid.* 127, 128.

Sect. 148.

Unless he give prompt notice of dissent.

non-insurance (*h*). It is his duty to give prompt notice of his refusal to act upon such orders, in order that his employer may not be deprived of the opportunity of effecting the insurance elsewhere. If, in consequence of his failure to give such notice, no insurance be made, the agent will be answerable to his employer for the loss arising from his neglect (*i*).

Hence, where a merchant in this country received from a merchant abroad, with whom he had no previous connection, a bill of lading, with a request to insure the goods, and the merchant, not wishing to take to the consignment, but without giving any notice to the consignor that he rejected it, handed over the bill of lading and the order to insure to a creditor of the consignor, who effected the insurance and received the goods, and afterwards became insolvent with the proceeds in his hands; it was held, that the merchant, who had his election either to accept or reject the bill of lading, was yet bound, if he accepted it, to comply with the terms of the consignment, and was liable for the consequences of not having done so (*k*). So also, in the event of any difficulties in procuring the insurance on the terms prescribed by the principal, it is the duty of the parties employed to give notice of such difficulties to their employer within a reasonable time.

Or of difficulties.

Callander *v.* Oelrichs.

149. The plaintiff, a merchant in this country, had instructed the defendants, who were his correspondents in America, to effect an insurance for him, on certain prescribed

(*h*) Smith *v.* Lascelles (1788), 2 T. R. 187; Smith *v.* Price, *coram* Erle, C. J. (1862), 2 F. & F. 748. See 2 Duer, 120.

(*i*) *Ibid.* Observations of Ashurst, J., 2 T. R. 188. See the general principle in Prince *v.* Clark (1823), 1 B. & Cr. 186. As to duty of seller of goods to give notice to buyer, so as to enable the latter to insure, see § 137A, *ante*.

(*k*) Corlett *v.* Gordon (1813), 3 Camp. 472. The action, however, was in trover and conversion, for allowing the creditor to obtain possession of the goods. It does not necessarily follow from this case that if the defendants had done nothing they would have been liable. The case might be different where there have been previous dealings between the parties. See the cases above cited.

Sect. 149.

terms (viz., that the insurers should be liable for every average loss above 10*l.* per cent.), upon a cargo of wheat shipped by him from London to Baltimore, and consigned to the defendants, to be sold on commission. The defendants attempted in vain to procure an insurance on the terms prescribed, but gave no notice to the plaintiff of their failure to do so, and instead thereof effected an insurance on the usual terms, by which the insurers were exempted from all liability for average. The Court of Common Pleas held, that the giving of such notice was part of the duty of the defendants, and that the plaintiff, therefore, was entitled to recover in an action brought against them for the breach of such duty (*l*). In this case the damage alleged was, that by reason of the defendants' failure in giving notice, the plaintiff had been prevented from effecting an insurance on the wheat on the terms proposed, and recovering for an average loss. As Judge Duer remarks, no proof appears to have been given that an insurance could have been effected on the terms proposed; as, however, by agreeing to refer the amount of damages, it was conceded that some *damnum* had been incurred, it must be taken to have been admitted that the protection which the plaintiff wished might, with due diligence and a proper exercise of discretion, have been procured (*m*).

A correspondent for a foreign house must show the skill and diligence of a prudent man of business.

150. A foreign principal has a right to expect the same amount of ordinary care, skill and diligence in procuring an insurance that the principal himself, as a man of common prudence and knowledge of business, might reasonably have been expected to exercise, had he been upon the spot and himself engaged in endeavouring to effect it. Hence, where the foreign correspondent of a mercantile firm in this country directed them to procure an insurance for him, without prescribing any limit of premium, and they limited the broker to so low a rate of premium that it was impossible to effect

(*l*) Callander *v.* Oelrichs (1838), 5 Bing. N. C. 58; 6 Scott, 761.
(*m*) 2 Duer, 222—225.

Sect. 150.

an insurance on such terms, they were held liable to their foreign employer for the loss arising from the failure to insure (*n*). On the same principle, where a policy had been effected, but the agents neglected to ascertain the solvency of the underwriters, and to communicate the names of the brokers, by whom it was effected in their own names, so that, when a loss on the property occurred, the assured were unable to obtain payment of the whole insurance money, the agent was held liable for the deficiency caused by the insolvency of the brokers and of one of the underwriters (*o*).

If, however, the agent does all that the foreign principal, on the spot and acting with due care, skill and diligence as a man of business, could reasonably be expected to do, he will not be liable for the consequences of a failure to procure insurance. Thus, where the correspondents in London of a foreign merchant, being directed by him to procure an insurance, and, having failed to do so at Lloyd's because the ship was not in Lloyd's register, ultimately caused it to be effected with a Newcastle company through the medium of the shipowners, who afterwards refused to deliver up the policy, or pay over a loss they had received on it from the underwriters, it was intimated to the jury by Buller, J., before whom the case was tried, that this afforded no ground of action against the agents for negligence in effecting the policy (*p*). "If," said the learned Judge, "the defendants had made a blunder in effecting the insurance, which would have avoided the policy, that would have been negligence; but the policy is a good one, and it was only owing to the knavery and insolvency of the shipowners that the plaintiffs have lost the benefit of it" (*p*).

How far must agent go in quest of insurance?

At the present day, Buller, J., would hardly be justified in the doubt, which he expressed in this case, whether the

(*n*) Wallace *v.* Tellfair (1788), 2 T. R. 188, *in notis*.
(*o*) Hurrell *v.* Bullard, *coram* Cockburn, C. J. (1863), 3 F. & F. 445.
(*p*) Smith *v.* Cologan (1788), at N. P., 2 T. R. 188, *in notis*. The verdict was given partly, if not principally, on the ground that the foreign correspondents had adopted the agents' acts.

Sect. 150.

defendants, who lived in London, were bound to seek insurance elsewhere than at Lloyd's, as, for instance, at the public metropolitan insurance offices. They would perhaps, however, not be bound to extend their endeavours beyond the limits of the metropolis. In the case of correspondents resident in provincial towns the obligation might be different.

151. In the United States the extent of the obligation to procure insurance has been well illustrated in the following case:—The correspondents in Boston of shippers at Surinam received orders to effect insurance on a valuable cargo. The ship was already out of time, and the insurance was declined, on that ground, by the insurers at Boston. The agents subsequently tried in vain to effect the insurance at several other places in the neighbourhood, and then wrote to New York for the same purpose, fixing a limit (but a very high one) to the rate of premium; part of the amount was eventually insured there at high premiums; the rest could not be done at the limit. An action having been brought against them for not having insured the whole amount, a verdict was found for the defendants under the direction of the Judge, on the ground that in their prompt endeavours to procure insurance at Boston and the other neighbouring ports, they had extended their efforts as far as their duty required, and that they were not liable for having failed in procuring a full insurance at New York, though such failure might possibly have been ascribed to their having set a limit on the premium (*q*).

A reasonable and average degree of skill is all that is required.

152. In none of these cases does the law require an extraordinary degree of skill on the part of the agent, but only such a reasonable and ordinary proportion of it as persons of average capacity in his situation and profession might fairly be expected to exert. In inquiries, therefore, as to his

(*q*) Sanches *v.* Davenport (1810), 6 Mass. R. 258; cited 2 Duer, 242—244; 2 Phillips, s. 1890. It might, however, now be considered reasonable to take steps which a hundred years ago would not have been required.

Sect. 152.

liability in case of loss, the question is, whether the act or omission complained of is inconsistent with that reasonable and proper degree of care, skill and judgment which persons of common prudence or ordinary ability might be expected to show in the situation and profession of the defendant (*r*).

Duty of broker to communicate material information.

Every policy broker of average capacity must know that there are matters on which all material information must be submitted to the underwriter. Hence, where a policy broker, who was supplied by his principal with the requisite information as to the time of sailing, omitted, through inadvertence, to forward it to a second broker, who at the wish of the principal was employed to effect the policy, it was held that the first broker was liable to his principal for the failure of insurance arising out of this neglect; for although he personally was to receive no remuneration, he had yet undertaken to employ the other (*s*).

Effect of withholding information, the materiality of which is a doubtful point.

Where, however, the materiality of the information is doubtful, or may fairly be a matter of divided opinion amongst persons conversant with the trade, it may reasonably be urged that a broker, though acting in the ordinary way as a paid agent, may be ignorant of the point without such a degree of negligence as to make him responsible for the failure of a policy he was directed to effect, owing to the withholding by him of such information (*t*).

153. Every policy broker is bound to know all the ordinary and formal details necessary to be complied with in order to make a sea-policy a legally valid instrument.

(*r*) Per Tindal, C. J., in Chapman *v.* Walton (1833), 10 Bing. 63.

(*s*) Seller *v.* Work (1801), 1 Marshall on Ins. 306. See Duer's remarks on this case, vol. ii. pp. 202, 203; see also Maydew *v.* Forrester (1814), 5 Taunt. 615, as to the point that, whenever the informa- concealed is unquestionably material, the broker will be liable; see also, as to what constitutes negligence, Wake *v.* Atty (1812), 4 Taunt. 493.

(*t*) See the observations of Lord Denman in Campbell *v.* Rickards (1833), 5 B. & Ad. 844, 845; see also Rickards *v.* Murdock (1830), 10 B. & Cr. 527.

Sect. 153.

Duty of broker to procure the delivery of a stamped policy.

Hence, a policy broker employed to effect a policy on a ship, having negotiated an insurance with the Newcastle Commercial Insurance Company on the terms directed, was held liable for not procuring a stamped policy, in consequence of which neglect the shipowner was unable to recover from the company in respect of a loss that subsequently took place (*u*).

Duty of broker to insert all usual and ordinary clauses.

Every policy broker, or other insurance agent, is bound, without any express directions, to insert in the policy all the ordinary risks and customary clauses, which are usual and proper in respect of the contemplated voyage. Thus, as it was shown to be the invariable practice in all voyages from Teneriffe to London to insert a clause giving liberty "to touch and stay at all or any of the Canary Islands," it was held that a London policy broker was guilty of actionable negligence in omitting this clause, and thereby causing the failure of the insurance (*x*).

Commencement of risk on goods must be properly described.

It has been repeatedly and notoriously decided, that a policy on goods, "beginning the adventure from the loading thereof on board," without any addition, only attaches on goods loaded at the port which is the terminus *a quo* of the voyage insured (*y*). So completely is this settled law, that all insurance brokers are bound to know and act on it. Hence, a London policy broker, being directed to effect a policy for a voyage "from Gibraltar to Dublin" upon goods which, by his instructions, clearly appeared to have been loaded on board at Malaga, was held liable for negligence in having effected the policy on such goods in the common printed form, "at and from Gibraltar to Dublin, beginning

(*u*) Turpin *v.* Bilton (1843), 5 M. & G. 455. By s. 97 of the Stamp Act, 1891, a broker writing any policy of sea insurance upon material not duly stamped, or otherwise offending against the true intent of the Act, forfeits all claim for brokerage and expenses, and is also liable to penalties.

Sect. 153.

the adventure upon the said goods and merchandise from the loading thereof aboard the said ship" (*z*).

Assured not always bound to read his policy to see whether broker has followed his instructions.

Moreover, when a broker of repute is employed to effect an insurance against certain risks, the client is entitled to rely upon his instructions being properly carried out. It is no answer for the broker to say, "I handed you the policy and you should have examined it and seen whether it gave you the protection you required." A broker was instructed to insure goods per steamship "Suwa Maru" and/or steamers, but by a mistake insured them only while on the "Suwa Maru." The policy was sent to the client, who did not examine it, though if he had done so the mistake should have been discovered. The goods were shipped on another steamer and were lost: but as they were only covered while on the "Suwa Maru," the loss was not recoverable under the policy. It was held that the broker was liable for the value of the goods as damages for breach of his contract to insure them as directed. "Business could not be carried on," said the learned Judge, "if, when a person has been employed to use care and skill with regard to a matter, the employer is bound to use his own care and skill to see whether the person employed has done what he was employed to do" (*a*).

Broker not liable where mistake due to uncertainty of law or practice.

154. The rule which we have been discussing regards what is ordinary, usual, and settled; when we leave the common beaten track it ceases to be applicable. As Judge Duer well expresses it, "The mistake of the agent, where the practice is unsettled, or the law uncertain, affords no evidence of that want of reasonable skill and ordinary diligence for which alone he is responsible" (*b*).

(*z*) Park *v.* Hammond (1814), Holt, N. P. 80; *S. C.*, 4 Camp. 344; 2 Marshall's R. 189; 6 Taunt. 495. This last report, as Duer points out, commits the absurd mistake of stating the risk under the policy to have been on the goods "from the loading thereof on board at Gibraltar": 2 Duer, 209, n. (*b*).

(*b*) 2 Duer, 214.

Sect. 154.

Unless the directions of his principal are clear and precise.

If the directions given be clear, precise and intelligible, the failure of the insurance agent to comply therewith is actionable, where it has caused damage to the principal, although the directions may embrace a partially illegal insurance. Thus, where clear directions were given by the plaintiffs (foreign merchants) to the defendants, (their London mercantile agents) to insure goods and also the premium, and the defendants insured the goods but not the premium; it was held that they were liable to the plaintiffs for not complying with this order to insure, and that they could not avail themselves of the defence that the order also directed them to insure against British capture, for although on that ground they might have renounced the order altogether, yet, having adopted it, they were bound to execute it as far as by law they might *secundum formam jubentis* (*c*).

All prior verbal communications are superseded by subsequent written instructions.

155. An agent who has faithfully followed express written instructions to insure will not be liable for having omitted to insert a provision in the policy which, according to the verbal communications of his principal, he might fairly have inferred to be necessary for the complete protection of the insured property. Thus, where the captain of a ship told a broker, in the course of conversation, that the ship was to carry simulated papers, but afterwards sent him written instructions for effecting a policy on the ship, in which nothing was said as to inserting a liberty to carry them, the broker was held not to be liable for negligence in not inserting the clause, though the ship was subsequently condemned for carrying such papers (*d*).

Where instructions are ambiguous

In case the orders of the principal are so ambiguous as to be susceptible of two distinct meanings, and the agent *bonâ fide* adopts one of them and acts upon it, it is not competent

(*c*) Glaser *v.* Cowie (1813), 1 M. & S. 52.

(*d*) Fomin *v.* Oswell (1813), 3 Camp. 357. "The captain," Lord Ellenborough remarked, "notwithstanding his prior conversation, might have resolved not to carry any such papers, or if he still meant to carry them, might not have wished that a leave for that purpose should have been inserted in the policy."

Sect. 155.

to the principal to complain of the act as unauthorized, because he meant the order to be read in the other sense, of which it is equally capable (*e*).

An agent acting under a general order to insure need only effect a policy in the general form.

156. An agent acting under a general order to insure is not bound to do more than effect an insurance in the form in general use at the place to which the order refers (*f*). If the principal wishes to have the insurance effected in a particular mode, or with a particular class of insurers, he should give specific instructions to that effect.

In the case, indeed, of a foreign principal, who is not proved to have, and cannot be presumed to have, a knowledge of the different usages of the various classes of insurers at the place to which the order refers, it might *à priori* have been fairly deemed part of the agent's duty, even though acting only under a general order to insure, to select that class of insurers with whom he might have secured the most complete protection on the most advantageous terms. If directed, for instance, under a general order, to insure a certain description of goods, which at some of the insurance offices of the place to which the order referred might be completely protected, and at others not, the premium in both cases being the same, and the solvency of the insurers equal, the agent would seem not to exercise the requisite amount of reasonable skill by insuring with the office which afforded the less complete protection.

Moore *v.* Mourgue.

The following case, however, is to the contrary:—The plaintiff (a merchant of Alicant) brought his action against

(*e*) Ireland *v.* Livingstone (1871), L. R. 5 H. L. 395.

(*f*) Cf. Yuill *v.* Scott-Robson, [1907] 1 K. B. 685; [1908] 1 K. B. 270, C. A., in which a seller of cattle who had contracted to insure them "against all risks" was held not to have satisfied the contract by procuring a Lloyd's policy in the usual form, containing the "free of capture" clause.

Where a sale contract contained a clause: "Insurance to be effected by (the sellers) all risks," Hamilton, J., held that they had satisfied the contract by effecting an insurance covering the entire quantum of damage, although it did not cover a loss of cargo improperly shipped on deck in breach of the contract of carriage: Vincentelli *v.* Rowlett (1911), 16 Com. Cas. 310.

Sect. 156.

the defendant (his agent in London) for not insuring his goods agreeably to his directions. The goods were a cargo of fruit: the plaintiff had given the defendant no particular directions how or with whom to insure, but only a general order "to insure the cargo." The defendant effected the policy with the London Insurance Office, who only insured fruit "free from particular average"—an exception not to be found in the policies of Lloyd's, or the Royal Exchange, who, however, insured fruit at the same premium as the London. An average loss having happened on the fruit, the plaintiff was precluded from recovering, owing to the exception. For the plaintiff it was contended, that though the order to insure was general, yet the defendant was bound to execute it in such a manner as would effectually answer the end proposed; that the very nature of the commodity showed it was liable to an average loss, a danger against which the defendant ought accordingly to have guarded; that, as there were two offices in London (Lloyd's and the Royal Exchange) where this exception was never put in, it was gross negligence in the defendant not to have insured with them. Lord Mansfield left it generally to the jury, that if they thought there was gross negligence, or that the defendant had acted *malâ fide*, they should find for the plaintiff, otherwise for the defendant; the jury found for the defendant, on the ground that they thought he had acted *bonâ fide* and to the best of his judgment, and this verdict the Court in Banc refused to disturb. "The plaintiff," said Lord Mansfield, "if he pleased, might have given orders to the defendant not to insure at the London Insurance Office, but at some other office where this exception would not have been insisted on. But he gives no directions at all. Therefore he left it to the discretion of his correspondent, who, if he meant no fraud, was at liberty to elect between the underwriters" (*g*). Unless we suppose that proof was given (of which no trace appears in the report) that the plaintiff, a foreign merchant, was cognizant of the different usages of the London Insurance

Remarks on Moore v. Mourgue.

(*g*) Moore *v.* Mourgue (1776), Cowp. 480.

Sect. 156.

Offices, this decision certainly seems unsatisfactory: the question is not only whether the agent acted *bonâ fide* in insuring as he did, but whether he exercised that reasonable amount of skill and diligence which could fairly be required of him: upon this point there is great weight in the following observations of Judge Duer: "A general order to insure implies a direction to make the insurance on the best terms that the agent, in the exercise of reasonable diligence, will be able to obtain, and binds the agent, at least, to that degree of diligence that a person of ordinary prudence is accustomed to employ in his own affairs. Certainly no person of ordinary prudence, about to determine on an insurance, would fail to ascertain the usual terms of the respective companies, or sets of underwriters, to whom he might apply; nor would fail, if the credit of the underwriters was equally solid, to effect his insurance at that office, whose terms, at an equal premium, secured to him the largest indemnity. Hence, an agent who, in acting for another, should omit to make the same inquiries, and pursue the same course, would be chargeable with such a want of reasonable and ordinary diligence as would render him justly liable for a resulting loss" (*h*).

Comber v. Anderson.

157. In the following case the plaintiff was a British merchant, and although the decision seems partly to have been based on acquiescence in the policy, yet Lord Ellenborough undoubtedly ruled that the plaintiff must be presumed cognizant of the tenor of the policies adopted by the different classes of insurers in London. The defendants, London insurance brokers, having received from the plaintiff, a merchant in Liverpool, general orders to insure a cargo of wheat, but no specific instructions as to how or with whom to insure, effected a policy with the Royal Exchange Assurance Company, who at that time left out of their memorandum the exception which makes them liable for an average loss on wheat in case of stranding. The ship having stranded, and the wheat having sustained an average loss, the plaintiff

(*h*) 2 Duer on Ins. 231; and see also pp. 229—232.

Sect. 157.

was precluded from recovering anything under the policy. He lay by for some time after the loss had happened, without complaining of the form of the policy, and then brought his action against the defendants for not having effected such a policy as would have secured to him an indemnity for average loss in case of stranding. Lord Ellenborough, as to this part of the case, said: the plaintiff must be taken to have been cognizant of the existence of the chartered companies and the tenor of their policies. If he wished that the policy on this cargo should not be effected on the terms of the Royal Exchange Assurance Company, he ought to have given special directions to the defendants for this purpose; and, at any rate, having been so late in reproaching them with what they had done, he had acquiesced in and adopted the policy which they had actually effected (*i*).

Is evidence of experts admissible to prove what a broker of reasonable skill would have done under the circumstances?

158. A question of some importance in relation to the subject of a broker's duty is whether the evidence of experts is admissible to show what a broker of reasonable skill would have done under the circumstances. In Rickards *v.* Murdock (*k*), which was an action against underwriters, the defendants called expert witnesses who deposed that in their opinion the whole of a certain letter ought to have been communicated by the broker who effected the insurance, and that the part omitted was material. Lord Tenterden admitted the evidence and left the question of materiality to the jury, who found for the defendants. Subsequently, Lord Tenterden and the Court of King's Bench held that the evidence was properly admitted. The assured then brought an action (*l*) against the broker for negligence and called similar evidence on his own behalf. The same Court, however, presided over by Denman, C. J., considered the evidence inadmissible. In the same year, another action (*m*) was tried in which a broker was charged with want of skill in not procuring a

Sect. 158.

proper alteration to be made in a policy according to instructions which he had received. Similar evidence was called for the defendant at the trial and the jury found for the defendant. The Court of Common Pleas, presided over by Tindal, C. J., held that the evidence was admissible.

Tindal, C. J., said: "The point to be determined is, not whether the defendant arrived at a correct conclusion upon reading the letter, but whether upon the occasion in question he did or did not exercise a reasonable and proper care, skill and judgment. This is a question of fact, the decision of which appears to rest on this further inquiry, viz., whether other persons exercising the same profession or calling, and being men of experience and skill therein, would or would not have come to the same conclusion as the defendant. For the defendant did not contract that he would bring to the performance of his duty, on this occasion, an extraordinary degree of skill, but only a reasonable and ordinary proportion of it; and it appears to us that it is not only an unobjectionable mode, but the most satisfactory mode of determining this question, to show by evidence whether a majority of skilful and experienced brokers would have come to the same conclusion with the defendant" (*n*).

Although this question, as far as authority is concerned, must still be regarded as doubtful in English law, yet it must be confessed that the opinion of Tindal, C. J., for the reasons he has so forcibly urged, appears most consistent with sound principle; it seems also to have been adopted as the preferable rule on the other side of the Atlantic (*o*).

(*n*) 10 Bing. at p. 63. This admirable judgment deserves a very careful and attentive perusal throughout.

(*o*) 1 Smith's Leading Cases, notes to Carter *v.* Boehm. As to the American decisions, see M'Lanahan *v.* Univ. Ins. Co. (1828), 1 Peter's Supreme Court R. 188; 3 Kent, 285, n. (*b*). Duer, vol. ii. pp. 780—788, gives a very learned review of the whole question. Cf. also, 2 Phillips, s. 2112. A similar question is discussed, and these and other cases referred to, in the chapter on "Concealment," where the point is whether expert evidence is admissible to show what facts are material, and, as such, necessary to be communicated. See *post*, § 626.

Sect. 161.

The agent is not liable where principal is not damnified.

161. In order to fix the liability of an insurance agent, it is not sufficient to show that the insurance directed has failed through his default; it must also be proved that his principal has been damnified by the failure. Hence, if an agent fails to procure an insurance directed by his principal, which, if made as directed, would not be binding on the insurer, the agent is not liable in damages (*p*) on the plain ground that his principal has not been damnified (*q*). If the neglect complained of be the non-communication of a material fact, the insurance agent may defend himself on the ground that, had the fact been communicated, it would have been impossible to procure an insurance at the premium limited in the instructions (*r*); but unless the policy, if made as directed, would have been wholly void or voidable, this defence, arising out of the absence of *damnum* to the principal, cannot be set up, as in the case of an agent directed to insure against British capture,—a direction which, if complied with, would only have avoided the policy *pro tanto* (*s*).

Insurance agent may avail himself of any defence open to the underwriters.

An insurance agent in this form of action may avail himself of any defence that would be open to the underwriters; as breach of warranty (*t*), unseaworthiness (*u*), deviations (*x*), and the like: the only exception to this rule is, that the agent cannot, of course, take advantage of any defence founded on his own act or default. So where a broker had been instructed to effect a p.p.i. policy, but omitted to give proper

Sect. 161.

information to the underwriters so that the latter successfully resisted a claim for payment (*y*), it was held by McCardie, J., and by the Court of Appeal that inasmuch as p.p.i. policies are void under sect. 4 of the Marine Insurance Act, the broker was not liable for his breach of duty (*z*).

Extent of liability.

The insuring agent's liability in such actions is, as a general rule, co-extensive with that of the underwriters if sued on the policy; thus he is entitled, in such action, to deduct from the damages the premium, and any other items which might have been deducted by the underwriter, such as (under the old practice) the one-half per cent. on the amount of loss (*a*).

It may sometimes be greater.

162. It may happen that the agent, in an action for negligence, is liable beyond the amount for which the underwriters would have been liable on the policy.

This may be for the costs of a previous action on the policy when brought at his desire or with his concurrence; and so it seemingly may be when the action on the policy, though brought without his concurrence, is defeated by some misconduct of his in effecting the insurance not disclosed to his principal until action brought (*b*). Not so, however, where the principal knows of the invalidity of the insurance and the misconduct of the agent, before suing, unless the suit be at the agent's request. Thus, where the principal sued the underwriters, although he knew that they had refused to pay on the ground that the agent had concealed a material fact, Lord Eldon would not suffer him to charge the agent with the costs, as the action was not necessary to entitle the

(*b*) 2 Duer, 330. This may sometimes be the case where the underwriters' ground of defence is concealment or misrepresentation by the agent.

Sect. 162.

principal to recover, and did not appear to have been brought at the desire or with the concurrence of the agent (*c*).

Insurance brokers were sued for negligence in not having communicated certain material letters to the underwriters, whereby the plaintiff, their principal, had failed in two actions on the policies, and incurred costs to a large amount in adition to very heavy losses. It appeared that the plaintiff had since offered the defendants permission to try on his behalf as many other actions as they liked on the policies, and that, on this offer being declined, he at once, without further communication with the defendants, paid back to certain of the underwriters the losses which they had paid over to him without suit. It was held that the plaintiff had a right so to do without waiting to resist an action at the suit of these underwriters, and that, having done so, he had a right to recover from the defendants the amount of the losses, so paid over, in addition to his other losses and costs of action (*d*).

Agent is entitled to the fruits of abandonment.

Judge Duer raises the question, whether, in cases of constructive total loss, it is necessary, in order to charge the agent, in an action for negligence, with the whole amount that would have been due under the policy, to vest the remains of the property in the agent by abandonment: he concludes that it is, on grounds in every way reasonable, seeing the principal is entitled in law against the defaulting agent to the extent and in form as if he were the underwriter on a valid policy, such as ought to have been effected (*e*).

Duties of insurance agent entrusted with the policy.

163. So much for the duties of the insurance agent as to effecting an insurance. If, after the insurance is effected, the agent, as is generally the case, keeps the policy in his own hands, another class of duties is imposed upon him, his negligence or unskilfulness in the discharge of which may also render him personally liable to the assured.

(*c*) Seller *v.* Work, 1 Marshall, Ins. 305, 306; *ubi supra*.
(*d*) Maydew *v.* Forrester (1814), 5 Taunt. 615.
(*e*) 2 Duer, 326, 327.

Sect. 163.

Generally speaking, the agent so entrusted with the policy after its execution is the substitute for the assured in all the relations of the latter with the underwriters, and has cast upon him the duty of enforcing the rights and protecting the interests of his principal in all matters arising out of the contract of insurance (*f*). Thus, according as circumstances may arise, it may be his duty to demand a return of the premium; to prepare and submit the proof of a loss, settle and adjust the amount, and at the proper time collect the various sums from the underwriters, and pay them over to his principals; where an abandonment is requisite, he must take care to give notice thereof in due time and in proper form. In this country these duties are generally discharged by professed insurance brokers, who, as we have already seen, are the parties usually employed in actually effecting the insurance. They will, however, equally be expected of any mercantile commission agent, who chooses to place himself in the same responsible relations to his principal.

Neglect of broker, having policy in his hands, to collect and pay over losses with due promptness. Bousfield *v.* Cresswell.

164. One of the most important of these subsequent duties of the insurance agent is to collect and promptly pay over losses to his principal. In an action against a broker for not having duly called on certain underwriters to settle the loss and pay the sums insured, there was no other evidence offered of such obligation, except that the policy remained in his hands after the loss. Lord Ellenborough: "If an insurance broker keeps the policy in his hands he shall be presumed to promise that he will collect the sum due from the underwriters on a loss happening, in consideration of the commission he receives for effecting the insurance. Here the broker, if he chose to part with his lien, might have handed

(*f*) 2 Duer, 245. "Perhaps," says Blackburn, J., "it may be put as high as to say that he is clothed with authority to do all that is incidentally necessary for carrying out the contract in the policy thus left in his hands. I do not wish to be understood as giving a decided opinion that he has so much authority, but there are at least grounds for so contending." Xenos *v.* Wickham (1863), 33 L. J. C. P. at p. 21.

Sect. 164.

over the policy to the assured, as soon as it was effected, and his responsibility would then have been at an end; but as he retained it he was bound to use all reasonable diligence to bring the underwriters to a settlement of the loss according to the usage of trade in this respect" (*g*).

Duty to give notice of abandonment.

165. The insurance agent is no doubt bound, as to giving notice of abandonment, by any express instructions received from his principal, and to carry them out with such reasonable skill as may fairly be expected of him. Where, however, he is left to his own discretion in the matter, the question whether he is liable in an action for not having given due notice of abandonment, must depend upon the circumstances of the case. In the case of principals living at too great a distance to be consulted on the matter, the agent having the policy in his hands would no doubt be held bound to act in their behalf by giving due notice of abandonment, where the circumstances are such as to require it. In such cases, if the agent have done all that his principal, as a prudent, careful and skilful man of business, if on the spot, could reasonably be expected to do, he will be free from liability; but if he have failed in this, he will be liable for the consequences of his negligence. In the case of principals living sufficiently near to be consulted, the agent, in a point of such difficult discretion as a question of abandonment frequently is, would always do wisely to refer to his employers for instructions. In Comber *v.* Anderson, the plaintiff, a merchant of Liverpool, had insured through the defendants, brokers in London, a cargo of wheat from Waterford to Liverpool. On going down the Waterford river on the 28th January, 1807, the ship struck and filled. The greater part of plaintiff's wheat was got out, but damaged 95 per cent. on its value. On the 2nd February the plaintiff

Comber *v.* Anderson.

(*g*) Bousfield *v.* Cresswell (1810), 2 Camp. 545. The usage of trade referred to by his Lordship is, that losses ought to be collected from the underwriters a month after the adjustment, and paid over forthwith to the assured.

Sect. 165.

wrote to the defendants a letter, which they received on the 4th, directing them, if any steps could be taken for his interest with the underwriters, "to do the needful," adding, "I should wish to abandon, if it be admitted of." The defendants, by return of post, wrote back to say, "that it would be imprudent to say anything to the underwriters without learning further particulars." The plaintiff did not write again till the 9th, when he neither complained of the abandonment not being made, nor directed the defendants to abandon. On the 18th of the same month they sent in a notice of abandonment, which was held to be too late (*h*).

It was contended for the plaintiff, that the defendants, after receiving the letter of the 2nd of February, ought to have given immediate notice of abandonment.

Lord Ellenborough, however, held, that no negligence could be imputed to the defendants for not abandoning before the 18th. The letter of the 2nd left it to the defendants' discretion to act as they should think most expedient; and, if the plaintiff was dissatisfied with their conduct, he ought at once to have said so. Instead of that he lay by till the 9th, and did not even then complain or give them any fresh orders. Had he positively required them to abandon, they would have been answerable for not complying with his request as soon as possible; but he had referred them to their own judgment, and it seemed as if he himself at the time had thought that they acted judiciously (*i*).

The above case appears to afford a good illustration of the principles that in this matter regulate the insurance agent's liability: he will not, in cases of difficulty, as questions of abandonment generally are, be held liable for not having exerted the best possible judgment that could, under the circumstances, have been found; it is enough if he acted with reasonable skill and discretion, and as his principal would probably have done had he himself taken the management of the business.

Sect. 165.

Broker has no authority to cancel a policy.

A broker has, in the absence of the express authority of his principal, no authority to cancel a policy, whether it be left in his hands or not (*k*).

Agents of the insurer.

166. Agents may be appointed for the purpose not only of effecting sea-policies for the assured, but also of subscribing them for the underwriters (*l*).

Evidence of authority.

As to what shall be satisfactory evidence of authority is a point on which there has been some little fluctuation in the decisions. Thus, where a broker called by the plaintiff proved that the defendant's name had been subscribed by one Hutchins, who was in the constant habit of subscribing policies in the defendant's name, and had done several for the witness and for others to his knowledge, Lord Kenyon ruled that this was sufficient evidence to charge the defendant without the production of the written authority under which he acted (*m*); but Lord Ellenborough, in a later case, held precisely similar evidence insufficient (*n*), unless it was also proved that the defendant had ratified such subscription, as, *e.g.*, by paying losses upon policies so subscribed (*o*).

A memorandum indorsed on a policy for change of voyage was signed by the agent of an insurance company. It was proved that the agent had signed similar memorandums on many other policies, and that his habit was to do so, and advise the company of it. This was held by Lord Tenterden to be sufficient proof of the agent's authority to sign such memorandums; and that the other policies on which the memorandums had been signed need not be produced (*p*).

(*k*) Xenos *v.* Wickham (in error) (1863), 14 C. B. N. S. 452; 33 L. J. C. P. 13; (1867), L. R. 2 H. L. 296.

(*l*) In Nicholson *v.* Croft (1761), 2 Burr. 1188, it was held that proof of subscription by an authorized agent will satisfy an allegation of signature by the principal. See also Cope *v.* Miller (1896), 1 Com. Cas. 296, and Mar. Ins. Act, 1906, s. 24, *ante*, § 26.

(*m*) Neal *v.* Erving (1793), 1 Esp. 61.

(*n*) Courteen *v.* Touse (1807), 1 Camp. 43, n.; and rightly, see 2 Duer, 341, n. (*a*).

(*o*) Haughton *v.* Ewbank (1814), 4 Camp. 88.

(*p*) Brockelbank *v.* Sugrue (1831), 5 C. & P. 21.

Sect. 166.

After an agent's authority to underwrite policies has expired, the principal may, nevertheless, be estopped from denying the continuation of the authority as against parties who had previously effected insurances with the agent, if the principal has not given them notice of the termination of the authority (*q*).

What is a sufficient execution of a power to sign policies.

167. Where a power was given to fifteen persons, "jointly or separately, to sign policies on such ships as they or any of them should think proper," after four of the original fifteen had died, a policy was executed, in the name of the principal, by four of the survivors, and this was held to be a sufficient pursuance of the authority (*r*).

Where the power of attorney was to execute policies on which the risk should commence from the day on which the ship was accepted by the association, the Court held that the agent had sufficiently complied with his power by executing a retrospective policy (with the clause "lost or not lost"), to commence on the day the ship had been accepted, although, at the time of so executing it, the agent and the assured were both aware that two average losses had, in the meantime, happened on the ship (*s*).

In virtue of a power "to underwrite any policy of insurance not exceeding 100*l.*, and to subscribe the same in his (the underwriter's) name, and to settle and adjust losses," the broker signed a slip for a policy within the terms of the power, and the Court were of opinion that the signature of the broker's clerk to the policy, made in pursuance of the slip, was a good execution of this power, this being a mere ministerial act. There was, however, in the same case, a ratification of this signature by the underwriter (*t*).

Limited authority.

168. The ostensible authority of an agent to underwrite policies may be controlled by local usage. A broker at

(*t*) Mason *v.* Joseph, 1 Smith, 406.

Sect. 168.

Liverpool, who had a written authority to underwrite for not more than 100*l*. by any one slip, underwrote a policy for 150*l*. The Court held that the principal was not bound by the subscription, inasmuch as it was common knowledge at Liverpool that such agents had only a limited authority (*u*).

An agent, whose original authority to subscribe a policy has been proved, has an implied authority to perform any subsequent act on behalf of his principal that the relation between the latter and the assured may render necessary.

The authority to sign involves that of settling claims, and of submitting to arbitration.

Thus: the authority to sign or subscribe a policy for the underwriter involves that of signing the adjustment of a loss (*x*). And an agent proved to have been in the habit of subscribing policies and settling losses, was held, by Gibbs, C. J., to have an implied authority to submit a dispute, concerning a loss, to arbitration (*y*).

These were cases of implied authority, arising out of the proved relationship subsisting between the underwriter and the agent. Where, however, the agent of the underwriters derives his authority from express instructions, which profess to define and regulate the duties of his agency, he cannot, as agent, bind his principal by any act which exceeds the limits of such instructions, much less by one that violates or contravenes them, unless the principal have held him out to the public as being invested with a general authority.

Authority of Lloyd's agents.

Thus: Lloyd's agents have no other authority than what they derive from the printed instructions under which they act. By these instructions Lloyd's agent was expressly forbidden to make up or sign any statement of average, either general or particular, as representative of the underwriters.

(*x*) Richardson *v.* Anderson (1805), 1 Camp. 43, n.; and per Blackburn, J., Xenos *v.* Wickham (1863), 33 L. J. C. P. 13—19.

(*y*) Goodson *v.* Brooke (1814), 4 Camp. 163. *Sed quære.* The report no doubt bears out the text, but it is a report *ex relatione* of another, and it seems contrary to Stead *v.* Salt (1825), 3 Bing. 101; Adams *v.* Bankart (1835), 1 C. M. & R. 681; confirmed by Hatton *v.* Royle (1858), 3 H. & N. 500; 27 L. J. Ex. 486, that even a partner has no implied authority to submit a partnership dispute to arbitration. Cf. also Thomas *v.* Atherton (1878), 10 Ch. D. 185.

Sect. 168.

Where, therefore, such an agent, in a foreign port, signed a certificate that certain sugars were damaged over 5 per cent., the Court held that he had exceeded his authority, and that the certificate so given was not binding on the underwriters (*z*). By the same instructions no Lloyd's agent "is to accept an abandonment as the representative of the underwriters"; and although such acceptance of an abandonment by a Lloyd's agent seemed in one case to have been regarded as binding in the Common Pleas (*a*), Lord Tenterden remarked that, in the case referred to, the instructions to Lloyd's agents could not have been before the Court (*b*).

CHAPTER VIII.

DESCRIPTION OF THE ASSURED IN THE POLICY— ASSIGNMENT OF THE POLICY.

	SECT.
Policies in Blank	169
Construction of 28 Geo. 3, c. 56	170
Ratification of Insurance	171
Who may avail themselves of an Insurance	172, 173
Assignment of Policy	174—181

Description of the assured in the policy.

169. We have already, in briefly noticing the main requisites of the policy, stated how the blanks in the common printed forms are generally filled up with the names either of the assured himself or of the insurance agent by whose instrumentality the policy is effected. We will now proceed to give, more at large, the history and present state of the law as it relates to the filling up of these blanks in the printed forms.

Practice of effecting policies in blank.

A practice appears to have sprung up in this country in the middle of the eighteenth century of effecting policies in blank; *i.e.*, without inserting the names either of the party for whom or by whom they were effected (*a*). In consequence of complaints on the part of the underwriters, an Act was passed in the year 1784 (*b*), directing that the name of the person interested, or of his agent, should in all cases be inserted in the policy.

25 Geo. 3, c. 44.

The provisions of this Act appear to have been founded on a misconception of the real nature of that grievance of which the underwriters complained. What the underwriters really wanted was merely to know the name of someone concerned in effecting the policy, no matter whether principal or agent,

(*a*) Pray *v.* Edie (1786), 1 T. R. 313; see also the judgment of Buller, J., in Wolff *v.* Horncastle (1798), 1 B. & P. 316, 321.

(*b*) 25 Geo. 3, c. 44.

Sect. 169.

to whom they could look as a responsible debtor. What the Legislature appears to have aimed at was, as far as possible, to compel a disclosure of the name of the person really interested as principal.

The Courts interpreted the Act strictly. Very soon after it was passed an underwriter took advantage of it to evade his contract on the ground that the agent's name was not inserted, *eo nomine*, as agent (*c*); and another policy was held void under the same law, because the names of all the parties interested were not inserted therein (*d*).

28 Geo. 3, c. 56.

170. This was evidently going too far. Another statute, therefore, was passed in the year 1787 (*e*), which provided that no policy should be effected without first inserting therein "the name or names, or the usual style and firm of dealing," either—1st, of one or more of the persons interested; or, 2nd, of the consignor or consignee of the property to be insured; or, 3rd, of the person resident in Great Britain who received the order for and effected the policy (*f*); or, 4th, of the person who gave the order to the agent immediately employed to effect it.

Marine Insurance Act, s. 23 (1).

The Courts of Law gave this Act the most liberal construction the words would bear (*g*), so that in practice it was reduced to a mere prohibition of policies in blank. Accordingly when it was repealed by the Marine Insurance Act, 1906, the simpler provision of sect. 23 (1) was substituted, which declares that "a marine policy must specify the name of the assured or of some person who effects the insurance on his behalf" (*h*).

(*c*) Pray *v.* Edie (1786), 1 T. R. 313.

(*d*) Wilton *v.* Reatson (1787), 1 Park, 16; Cox *v.* Parry (1786), 1 T. R. 464.

(*e*) 28 Geo. 3, c. 56.

(*f*) It was held in Bell *v.* Gilson (1798), 1 B. & P. 345, that an insurance broker was such a person; and in De Vignier *v.* Swanson, *ibid.* 346, n., that the person need not be described in the policy as an agent.

(*g*) See Wolff *v.* Horncastle (1798), 1 B. & P. 316.

(*h*) In Wolff *v.* Horncastle, *supra*, it was held that an agent who

Sect. 171. Ratification of an insurance.

171. Sect. 86 of the Marine Insurance Act, 1906, provides that "where a contract of marine insurance is in good faith effected by one person on behalf of another, the person on whose behalf it is effected may ratify the contract even after he is aware of a loss" (*i*).

Of course, as no act of one man can be ratified by another, unless that other is cognizant of what has previously been done, so the party for whom the insurance is intended to be made cannot, by any after authority to insure, be considered to adopt the previous insurance, unless at the time of giving such authority he knew as a fact that the prior insurance had been made. This, indeed, is so plain on principle, that it requires no authority to enforce it; and it is all that was really decided in the earlier case of Bell *v.* Janson, in which Lord Ellenborough had thrown doubt upon the application of the principle of ratification to the Act of 28 Geo. 3 (*k*). One of the points determined in Wolff *v.* Horncastle (*l*) was this: that the subsequent adoption of the policy by the party for whom it was intended to be made constituted the party making it a "person who received the order for and effected the policy" within the meaning of 28 Geo. 3, c. 56. It therefore seems clear that where a policy has been made, without any previous instruction or authority, by the broker, its adoption or ratification by his principal, after the fact of its having been so effected has been made known, is equivalent to a previous authority to effect it, and constitutes the party by whom the policy has been made a "person

employed the broker by whom the policy was effected was a person who received the order for and effected the policy, within the meaning of 28 Geo. 3, c. 56.

(*i*) See as to ratification, Lucena *v.* Craufurd (1808), 1 Taunt. 325; *S. C.*, in the House of Lords (1806), 2 B. & P. N. R. 269; Stirling *v.* Vaughan (1809), 11 East, 623; Routh *v.* Thompson (1811), 13 East, 274; Hagedorn *v.* Oliverson (1814), 2 M. & S. 485; Barlow *v.* Leckie (1819), 4 J. B. Moore, 8; and the cases cited *ante*, §§ 140—143. The law is the same in the United States; see per Kent, J., in Steinback *v.* Rhinelander (1803), 3 John. New York Cases, 281; 1 Phillips on Ins. s. 388; 3 Kent, Com. 256.

(*k*) Bell *v.* Janson (1813), 1 M. & S. 201.

(*l*) (1798), 1 B. & P. 316.

Sect. 171.

who effects the insurance" on behalf of his principal, within the meaning of sect. 23 (1) of the Marine Insurance Act, 1906 (*m*).

Who may avail themselves of an insurance.

172. We have seen that the parties really interested in the subject of the insurance are in our common forms of policy not generally described by name at all, but are comprehended under the clause by which the insurance is expressed to be made by the person effecting it, "as well in his own name as for and in the name and names of all and every other person and persons to whom the same (*i.e.*, the thing insured) doth, may, or shall appertain in part or in all."

Questions have been raised as to the parties who may avail themselves of these very broad and comprehensive terms. In the first place it is clear they must be persons who may lawfully be insured. In the next place they must be persons who, at some time during the risk, have an insurable interest in the property, either as the persons originally insured or as their assignees. Beyond this, it must be shown that the person effecting the insurance either intended it for their benefit, or at all events, did not intend it exclusively for the benefit of others having a conflicting or inconsistent interest, but meant it to apply generally, so as to cover the interests of those who should ultimately appear concerned (*n*): if this be shown, a subsequent adoption of the policy by the parties so intended to be insured, or so appearing ultimately concerned in interest, will be held equivalent to a previous order, and entitle them, under the words of the general clause, to avail themselves of the benefit of the insurance (*o*).

(*m*) For a curious illustration of the general principle, see Barlow *v.* Leckie (1819), 4 J. B. Moore, 8.

(*n*) "I agree that a policy may be made for the benefit of all such persons (*i.e.*, all persons to whom the subject-matter does, may, or shall appertain in part or in all). But where it has been established that in fact the person claiming the benefit was not such a person as those who effected the policy had in contemplation, Courts have disallowed his claim though he might be within the description" (per Lord Loreburn, L. C., in Boston Fruit Co. *v.* British and Foreign Mar. Ins. Co., [1906] A. C. 336, at p. 339).

(*o*) In this passage the text of the second edition is reproduced.

Sect. 172.

It is possible that sect. 26 (3) of the Marine Insurance Act, which declares that "where the policy designates the subject-matter insured in general terms, it shall be construed to apply to the interest intended by the assured to be covered," was intended to affirm the rule that a policy covers the interest of any person whose interest it was intended to protect, though the context suggests that the sub-section was perhaps intended to declare a different principle, and that "interest" is equivalent to "subject-matter" (*p*).

The intention of the party directing the insurance to be effected is the test.

173. The intention, at the time, of the party who directs the insurance to be effected is the great point to be ascertained in determining whose interests the policy can be applied to protect; and this point is to be determined, as a question of fact, upon a consideration of all the circumstances (*q*).

Where the intention of the party directing the insurance is to embrace the interests of any person whatever who may ultimately appear to be concerned, there can be no doubt that any person coming within that category, who subsequently chooses to adopt the policy, may obtain the benefit of it.

It implies that the person who procures the insurance need not, at the time when he insures, have a definite person in his mind as his intended principal; and Routh *v.* Thompson (1811), 13 East, 274, is a clear authority for the statement. See also Duer, vol. ii. p. 36, cited by Vaughan Williams, L. J., in Boston Fruit Co. *v.* British and Foreign Mar. Ins. Co., [1905] 1 K. B. at p. 647, and § 143, *ante*. The view of Mathew, J., as expressed in Byas *v.* Miller (1897), 3 Com. Cas. at p. 42, seems to be that a voluntary agent must intend to benefit a particular person, and this seems also to be the view of Willes, J., according to his judgment in Watson *v.* Swann (1862), 11 C. B. N. S. 756. For the rule laid down by the U. S. Supreme Court where the policy was expressed to be "on account of whom it may concern," see Hooper *v.* Robinson (1878), 98 U. S. 528.

(*p*) See *post*, § 252b.

(*q*) Grant *v.* Hill (1812), 4 Taunt. 380; Irving *v.* Richardson (1831), 2 B. & Ad. 193; Hill *v.* Scott (1895), 1 Com. Cas. 140, 200; Scott *v.* Globe Mar. Ins. Co. (1896), 1 Com. Cas. 370; Boston Fruit Co. *v.* British and Foreign Mar. Ins. Co., [1906] A. C. 336. The intention of the broker or other person who, upon instructions, effects the insurance is immaterial: *S. C.*, [1905] 1 K. B. 637, 648, per Mathew, J.; Small *v.* United Kingdom Mar. Mutual Ins. Assn., [1897] 2 Q. B. 42, 45.

Sect. 173.

Thus, where a prize agent abroad, who at the time did not know to whose benefit the prize would ultimately accrue, wrote directions to this country for the insurance to be made for the benefit of those concerned, and it ultimately turned out that the Crown had an insurable interest, and had adopted the insurance by an Order in Council, it was held that the nominal plaintiffs might recover in an action on the policy in which the interest was averred in the Crown alone (*r*). In a former action on the same policy, it having been stated as a fact, in the special case on which the argument proceeded, that the policy had been in reality effected on account of the captors, the plaintiffs failed, because the Court were of opinion that the captors had no insurable interest, and they considered themselves precluded, by the statement in the special case, from applying the benefit of the policy to any other parties than those for whom alone it was found to have been effected (*s*). **Routh *v.* Thompson.**

So where a party had insured 3,700*l.* on a ship in which he was interested only as mortgagee, and only to the extent of 900*l.*, Lord Tenterden left it to the jury to say, on the evidence, whether they thought he intended by the insurance to cover his own interest only, as mortgagee, or that also of the mortgagor. The jury having found that he meant only to insure his own interest, the Court would not permit the policy to be extended, by virtue of the general clause, so as to cover the interest of the mortgagor (*t*). In another case, where an insurance agent, being unable to effect such a policy as the plaintiff required, indorsed the risk on his own general policy, it was held that the plaintiff could not recover under it, as it had not been effected on his behalf, nor was it a contract purporting to be made for, and afterwards ratified by, him; the plaintiff was no party to the contract, and consequently could not put it in suit (*u*). **Irving *v.* Richardson.** **Watson *v.* Swann.**

(*r*) Routh *v.* Thompson (1811), 13 East, 274. See note (*o*), *supra*.

(*s*) Routh *v.* Thompson (1809), 11 East, 428.

(*t*) Irving *v.* Richardson (1831), 2 B. & Ad. 193.

(*u*) Watson *v.* Swann (1862), 11 C. B. N. S. 756; 31 L. J. C. P. 210; followed in Byas *v.* Miller (1897), 3 Com. Cas. 39.

Sect. 173.

Where a ship was demised by a charter-party which provided that the shipowners should pay for the insurance, but which was held on the construction of the whole instrument not to impose upon them a duty to insure for the benefit of the charterers, and there was no evidence outside of the charter-party that the shipowners intended, in effecting an insurance, to cover the interest of the charterers, the House of Lords held that the latter could not sue upon the policy (*x*).

In another case, teak logs were sold at a price "ex ship, payment against documents," and the buyer, having paid the price, took delivery of the logs ex ship, but while they were still afloat in the form of rafts a large part were driven out to sea by a gale and lost. The logs in question, together with some other logs, had been insured by the sellers for the voyage, by a policy which covered all risk of craft and raft. In an action by the buyer on the policy, it was held by the Privy Council that there was no evidence that the policy was effected on behalf of the buyer, or to cover his interest, and that consequently he could not maintain the suit (*y*).

The true rule, then, would appear to be, that any party to whom an interest in the property insured "doth, may, or shall appertain," at any time during the pendency of the risk, may, under the general words, by subsequent adoption, take advantage of the policy to protect such interest, if it appears from extrinsic evidence that the person directing the policy to be effected intended at the time to protect this particular interest, or at any rate to protect the interests generally of the parties who should ultimately appear to be concerned (*z*). The onus of proving that the plaintiff's interest was intended to be insured under these general words is on him (*a*).

(*x*) Boston Fruit Co. *v.* British and Foreign Mar. Ins. Co., *infra*.

(*y*) Yangtsze Ins. Ass. *v.* Lukmanjee, [1918] A. C. 585.

(*z*) See *ante*, § 172. This, of course, has no application to the question of assignment of a policy, as to which, see the following sections.

(*a*) Boston Fruit Co. *v.* British and Foreign Mar. Ins. Co., [1905] 1 K. B. 637, per Vaughan Williams, L. J., at p. 646; [1906] A. C. 336. Cf. Yangtsze Ins. Ass. *v.* Lukmanjee, *supra*.

Sect. 174.

A contract of insurance is not an incident of the thing insured.

174. Sect. 15 of the Marine Insurance Act, 1906, provides that—

> Where the assured assigns or otherwise parts with his interest in the subject-matter insured, he does not thereby transfer to the assignee his rights under the contract of insurance, unless there be an express or implied agreement with the assignee to that effect.
>
> But the provisions of this section do not affect a transmission of interest by operation of law (*b*).

A sea-policy, in its ordinary form, is not an incident of the property insured, so as to follow its transmission from hand to hand during the continuance of the risks; in other words, the purchaser of the property insured does not, by the simple fact of such purchase without more, entitle himself also to the protection of the policy. In order to enable a purchaser of the insured property to derive the substantial benefit of the insurance, there must have been an assignment to him of the policy by the party originally insured, or, at all events, an agreement or understanding to assign it, or to hold it for the benefit of the purchaser (*c*).

When and how policy is assignable.

175. The assignment of marine policies is dealt with in sects. 50 and 51 of the Marine Insurance Act, 1906, in the following terms:—

> Section **50.**—(1) A marine policy is assignable unless it contains terms expressly prohibiting assignment (*d*). It may be assigned either before or after loss.
>
> (2) Where a marine policy has been assigned so as to

(*b*) This qualification was, no doubt, inserted *ex abundanti cautela*. Except possibly in the case of death or bankruptcy it is difficult to suggest any transmission of interest by operation of law to which it is applicable: see, however, Chalmers & Owen, Mar. Ins. Act, 2nd ed. p. 23, where it is suggested that subrogation comes under the same category.

(*c*) See Mar. Ins. Act, 1906, s. 51, *infra*. The remedy was entirely at law, and not in equity. De Ghetoff *v.* London Ass. Co. (1730), 4 Brown's Parl. Cas. 436, Tomlin's ed.

(*d*) For a clause providing that a policy should "become cancelled" if the vessel insured were sold or transferred to new management, see Pyman *v.* Marten (1906), 22 Times L. R. 834.

pass the beneficial interest in such policy, the assignee of the policy is entitled to sue thereon in his own name; and the defendant is entitled to make any defence arising out of the contract which he would have been entitled to make if the action had been brought in the name of the person by or on behalf of whom the policy was effected.

(3) A marine policy may be assigned by indorsement thereon or in other customary manner.

Assured who has no interest cannot assign.

Section **51**. Where the assured has parted with or lost his interest in the subject-matter insured, and has not, before or at the time of so doing, expressly or impliedly agreed to assign the policy (*e*), any subsequent assignment of the policy is inoperative:

Provided that nothing in this section affects the assignment of a policy after loss.

Conditions of valid assignment before loss.

A valid assignment before loss supposes the co-existence of three things at the time of assignment:—(1) An insurable interest in the subject-matter of the policy in the assignor; (2) the continuance of the risk insured in the policy; (3) the assignment of an insurable interest in the subject-matter of the policy to the assignee, and its exposure to the perils during the continuance of the risk.

A cargo of linseed was insured from Constantinople to a port of call and discharge in the United Kingdom to be named, including all risk of craft or lighters to and from the brig, each lighter to be considered as if separately insured. Whilst it was on the voyage the cargo was sold in London to the plaintiffs on the following terms:—To be delivered at destined port in sound merchantable condition, and paid for in fourteen days from being ready for delivery by cash, less $2\frac{1}{2}$ per cent. discount, or on seller's option on handing shipping documents, less 5 per cent. The vessel to go to any safe floating port in the United Kingdom. A safe floating port was named. The ship had arrived there in February,

(*e*) An agreement to "keep the policy alive," or to "hold it" for the benefit of the assignee of the interest insured (see Powles *v.* Innes (1843), 11 M. & W. 10; *ante*, § 174; *infra*, § 178), implies, it is submitted, an agreement to assign it.

and the cargo was being landed in public lighters employed by the plaintiffs, when one of the lighters with her cargo on board was sunk, and would have been a loss within the meaning of the risk in the policy. The policy was assigned to the plaintiffs in the following June, and the assignment indorsed on it in the following October. The plaintiffs sued on it in their own names, but did not recover, because at the time of the assignment the assignor had no interest to assign, the same having ceased by delivery of the goods into the plaintiffs' lighter, and there was no agreement to assign the policy to them, which might otherwise have kept it alive for their benefit when they had become capable of taking an assignment (*f*).

Assignment after loss.

After a total loss, the property insured ceases to be covered by the policy; but there remains a right in the assured to recover damages from the insurer in respect of his loss. Although, technically, a claim for a loss under a policy is for unliquidated damages (*g*), the proposition that a right to unliquidated damages cannot be assigned has no application to policies of marine insurance, and the effect of an assignment after loss is to transfer this chose in action to the assignee (*h*).

Assignee may sue in his own name, or that of another.

176. When there had been an assignment of the policy, or an agreement to assign it or keep it alive for the benefit of the transferee of the thing insured, the transferee could not at common law sue in his own name on the policy, but an action could be brought by the party, by whom or on whose behalf the insurance was originally effected, as trustee for the transferee (*i*). In such cases, it was no objection to the right

(*f*) North of England Oil Cake Co. *v.* Archangel Maritime Ins. Co. (1875), L. R. 10 Q. B. 249.

(*g*) See Pellas *v.* Neptune Marine Ins. Co., *infra;* Baker *v.* Adam (1910), 15 Com. Cas. 227.

(*h*) Lloyd *v.* Fleming (1872), L. R. 7 Q. B. 299, 303; Swan *v.* Maritime Ins. Co., [1907] 1 K. B. 116, 123.

(*i*) Gibson *v.* Winter (1833), 5 B. & Ad. 96; Sparkes *v.* Marshall (1836), 2 Bing. N. C. 761; Powles *v.* Innes (1843), 11 M. & W. 10. The assignor could sue for a loss as trustee, even though he became bankrupt: Castelli *v.* Boddington (1852), 1 E. & B. 66, 879.

Sect. 176.

of the nominal plaintiff to recover, as trustee, on the policy, that the property had not been transferred, nor the policy assigned by him, until after the loss was known to all parties (*k*).

By 31 & 32 Vict. c. 86, s. 1, however, whenever a policy on ship, goods or freight had been assigned "so as to pass the beneficial interest in such policy to any person entitled to the property thereby insured," the assignee might sue on the policy in his own name. This provision was repealed by sect. 92 of the Marine Insurance Act, 1906, and re-enacted in sect. 50 (2) (*l*), with the omission of the words "to any person entitled to the property thereby insured." It is apprehended that the omission of these words makes no difference. The principle that the contract is one of indemnity implies that the beneficial interest in the policy cannot while it remains in force be severed from the interest insured. In other words, a person cannot retain the interest insured by the policy and assign the right to recover whenever a loss takes place to another person (*m*). The Court of Appeal held that sect. 1 of 31 & 32 Vict. c. 86 was merely intended to amend procedure, and not alter the rights of the parties (*n*), and the same construction is applicable to sect. 50 (2) of the Marine Insurance Act.

There is no reason why the assignee should not, as for-

(*k*) In Sparkes *v.* Marshall, *supra*, it was generally believed in December, 1831, that a missing ship was lost. The policy was transferred in April, 1832.

(*l*) *Ante*, § 175.

(*m*) The assured can, however, after a partial loss assign the amount recoverable in respect thereof to another person: Swan *v.* Maritime Ins. Co., [1907] 1 K. B. 116.

(*n*) Pellas *v.* Neptune Marine Ins. Co. (1879), 5 C. P. D. 34, C. A. Therefore the Court of Appeal held in that case that the insurers could not, in an action by the assignee of a policy, set off a debt incurred with them by the assured, as a set-off could not be pleaded to a claim for unliquidated damages, either under the statutes of set-off or in equity. In De Mattos *v.* Saunders (1872), L. R. 7 C. P. 570, it was held that the underwriters could not, as against an assured who was suing on behalf of third persons, set off under the mutual credit clause of 12 & 13 Vict. c. 106, a debt due to them from the assured.

merly, sue in the name of the assignor, or of the brokers named in it as effecting the policy; but in this case he sues subject to all rights of defence that may be set up against the nominal plaintiff (*o*). And so now, when he sues in his own name, he does so subject to those same rights, they being expressly preserved to the defendant by the provision in sect. 50 (2) of the Marine Insurance Act, 1906, that "the defendant is entitled to make any defence arising out of the contract which he would have been entitled to make if the action had been brought in the name of the person by or on behalf of whom the policy was effected" (*p*). Thus the underwriter can set up, against an innocent assignee of a policy, the concealment of a material fact on the part of the person by or on behalf of whom the policy was effected (*q*). Or he may set up the defence that the assignee was an alien enemy (*r*). He cannot, however, set off against an assignee any claims that he may have against the assignor under other policies, as such claims do not arise out of the contract sued upon (*s*).

177. "A marine policy may be assigned by indorsement thereon or in other customary manner" (*t*). The Act of

Mode and form of assignment.

(*o*) Gibson *v.* Winter (1833), 5 B. & Ad. 96; 2 Smith's L. C. 12th ed. p. 398. If inequitable defences, such as a release by the nominal plaintiff after assignment, be set up, the plaintiff may set out the true facts by way of reply: De Pothonier *v.* De Mattos (1858), E. B. & E. 461; and the Courts have interfered upon motion to protect the rights of the parties. See Gibson *v.* Winter, *supra*, and the cases therein cited in the judgment.

(*p*) The Judicature Act, 1873 (36 & 37 Vict. c. 66), s. 25, sub-s. 6, making choses in action assignable with a complete transfer of remedies to the assignee, does it with this reservation—"Subject to all equities which would have been entitled to priority over the right of the assignee." Notice of the assignment is required by this Act, which is not necessary under the Mar. Ins. Act, s. 50 (2).

(*s*) Baker *v.* Adam (1910), 15 Com. Cas. 227.

(*t*) Mar. Ins. Act, s. 50 (3). The learned author of this work stated that assignment of the policy might be made by delivery merely of the

Sect. 177.

31 & 32 Vict. gave a form of assignment, though it did not require that form to be followed, nor make indorsement imperative (*u*); but no form of indorsement is given in the Marine Insurance Act, 1906.

Time of indorsement.

When the assignment is made by indorsement, this may be put upon the back of the instrument, either at the time of the transfer of the property insured, or at any other time between the making of the policy and the bringing of the action (*v*).

Rights of parties after assignment of the insurable interest.

178. An absolute sale or transfer by the party originally insured of all his interest in the insured property before the loss, incapacitates him, or the party who has effected the insurance for him, from recovering on the policy on his own account; nor can he, or the party who has so effected the policy, sue thereon as trustee for the purchaser unless there have been either an assignment of the policy, or something which the Courts will consider as equivalent thereto, or as evidence of an agreement or understanding between the vendor and vendee that the policy should be kept alive for the benefit of the latter (*x*).

policy with intention to assign it (see 2nd ed. p. 211). The editors were, however, informed before the seventh edition of this work was published, that the modern practice is to indorse the assignment on the policy; and the case of Baker *v.* Adam (1910), 15 Com. Cas. 227, confirms their belief that mere delivery of the policy is not now a customary mode of assignment. It is possible, however, that the policy may be handed over without indorsement with the other shipping documents, as security for an advance: see De Mattos *v.* Saunders, *supra*, and the dictum of Channell, J., in Swan *v.* Maritime Ins. Co. (1906), 12 Com. Cas. 73, 79.

(*u*) The form given by the Act was as follows:—

I, A. B., of, &c., do hereby assign unto C. D., &c., his executors, administrators and assigns, the within policy of assurance on the ship, freight and the goods therein carried [or on the ship, or freight, or goods, as the case may be]. In witness whereof, &c.

(*v*) Of course, an assignment subsequent to the transfer of the property would be inoperative, if there had not been an agreement, express or implied, to assign the policy: Mar. Ins. Act, s. 51, *ante*, § 175.

(*x*) Hibbert *v.* Carter (1787), 1 T. R. 745; Delaney *v.* Stoddart (1785), *ibid.* 22; Powles *v.* Innes (1843), 11 M. & W. 10; North of England Oil Cake Co. *v.* Archangel Maritime Ins. Co. (1875), L. R. 10 Q. B. 249, stated *ante*, § 175.

Sect. 178.

Thus, where a part owner of a ship, after insurance and before loss, had by bill of sale absolutely transferred his share to a third party who was an entire stranger to the insurance, it was held that the plaintiffs, who had effected the policy under the vendor's directions, could neither recover as his agents under a count averring interest in him—for he had no interest left at the time of loss—nor as trustees for the purchaser of his share, because there were no facts stated in the case to warrant the inference that the policy had been handed over with the bill of sale, or that there had been an order on the broker to hand it over, or any understanding that the policy should be kept alive for the purchaser's benefit (*y*).

Powles *v.* Innes.

Right of assured in whom some interest remains.

179. Nothing short of an absolute transfer, however, of the insured property, will preclude the party originally insured from recovering on the policy, either for his own benefit or, even where there has been no assignment of the policy, and nothing that amounts to it, for the benefit of the transferee (*z*); a mere pledge of the bill of lading, as a collateral security, does not divest the assured of all his insurable interest. Thus, where Kerr, having consigned a cargo of produce to this country, and directed an insurance to be made thereon by the plaintiffs, his correspondents in London, subsequently, but before the policy was actually effected, assigned the bill of lading over to Dellprat, the Court of King's Bench, proceeding upon the ground that an indorsement of the bill of lading passed the whole property, at first held that the plaintiffs could not recover on the policy;—not as agents for Kerr, because he had absolutely divested himself of all interest before the policy was effected, nor as trustees for Dellprat, because there had been no transfer to him of the policy and no agreement to transfer it. Subsequently, however, on affidavits that Kerr had no intention to pass the whole property by indorsement of the bill of lading, but only

Sect. 179.

to bind it to the extent of the net proceeds, as a security for Dellprat's debt, which debt had since been paid on Kerr's behalf, a new trial was granted, and on the second trial, the facts appearing as set forth in the affidavits, the plaintiffs had a verdict for the whole amount of the loss (*a*).

Right of assignee limited by the assignment.

180. An assignee of a policy can only avail himself of the insurance to the extent to which the assignor has agreed to assign his rights to him.

A ship was chartered with grain from Galatz to Emden for orders, to discharge in a port of the United Kingdom, and the cargo-owners effected an insurance on the grain from Galatz to Emden and thence to the United Kingdom. The cargo was sold while on the voyage to Emden, the price "including freight and insurance to Emden," and the bill of lading and policy were delivered to the buyer. A loss having occurred between Emden and the port of discharge in the United Kingdom, the Court of Exchequer held that the buyer was only entitled to the insurance as far as Emden, and consequently that he could not recover against the underwriter for the loss (*b*).

Consent of insurer unnecessary.

Unless the policy (as is usually the case in insurances by mutual associations (*c*)) imposes such a condition, the consent of the underwriter is never necessary to the validity of an assignment of it (*d*).

Agreements to transfer insurances to

181. Where a policy is assigned to the purchaser of the insured property, it is usual to indorse on it a memorandum

(*a*) Hibbert *v.* Carter, *supra*.

(*b*) Ionides *v.* Harford (1859), 29 L. J. Ex. 36; see also Ralli *v.* Universal Marine Ins. Co. (1862), 31 L. J. Ch. 313, *post*, § 181.

(*c*) See, *e.g.*, Laurie *v.* West Hartlepool Thirds Indemnity Association (1899), 4 Com. Cas. 322.

(*d*) In Sparkes *v.* Marshall (1836), 2 Bing. N. C. 761, it was found as a fact that the defendants did not assent to the transfer of the property, or to the assignment of the policy. This practice of merchants with regard to marine policies accounts for the absence from the 31 & 32 Vict. c. 86, and the Mar. Ins. Act, of any such provision as is to be found in the Judicature Act, 1873, requiring notice to be given of the assignment of the chose in action. See 2 Duer, 62, 68, for clauses in American policies restricting the right of assignment.

Sect. 181.

to the effect that "the interest in this policy is transferred" to the purchaser. When a floating cargo (*i.e.*, a cargo at sea) is sold in London, it is generally on what are called "The London Floating Conditions," which comprise the delivery to the purchaser for his benefit of the policies which have been effected on the cargo (*e*), the understanding being that it is insured to the full value. If it be objected by the buyer that the vendor has committed a breach of his contract in handing over policies apparently short of the full value of the cargo, the question whether the policies are sufficient as regards amount is one of fact, and if the sum by which they fall short is small, the jury are entitled to find that the contract has been fulfilled (*f*). In another case a cargo of wheat, still afloat, was sold at a depreciated price, and the vendor indorsed over the policy for so much only as would cover the depreciated price, being part merely of the sum insured in a valued policy. The underwriters having paid the full amount of the insurance into Court, it was held that the buyer was entitled to the full sum, the wheat having been sold as insured, so that the full benefit of the insurance passed by the contract to the buyer (*g*). Again, where a contract for the sale of goods contained a clause "insurance for 5 per cent. over net invoice amount to be effected by sellers for account of buyers," and the sellers obtained an insurance for a larger amount, and handed the cover-note to the buyers, it was held that the buyers were entitled to retain the whole of the insurance money, which the underwriters

buyer of property.

(*f*) Tanvaco *v.* Lucas (1861), 1 B. & S. 185; 30 L. J. Q. B. 234; in error (1862), 3 B. & S. 89; 31 L. J. Q. B. 296.

(*g*) Ralli *v.* Universal Mar. Ins. Co. (1862), 31 L. J. Ch. 313; 2 John. & H. 159. The vendor claimed that by indorsing over the policy for only part of the amount insured, he had expressly reserved to himself, as against the buyer, an interest in the balance. If, however, the underwriters had not paid the full amount insured into Court, and the Court had decided against the buyer's claim to the balance, it is difficult to understand upon what principle the vendor could have based his claim thereto. Cf. Harland *v.* Burstall (1901), 6 Com. Cas. 113.

Sect. 181. were prepared to pay to them, and were not trustees for the sellers for the amount by which it exceeded the invoice price plus 5 per cent. (*h*). On the other hand, where a contract for the sale of a cargo of wheat contained a clause "seller to give policies of insurance . . . . for 2 per cent. over the invoice amount, and any amount over this to be for seller's account," and the sellers had effected policies sufficient to fulfil the contract, which were handed over to the buyers, and two additional honour policies on "increased profits," it was held that the sub-purchasers (to whom after a loss the sellers caused the honour policies to be sent to have the amount payable thereon adjusted) were not entitled as against the sellers to retain the sum collected by them on the honour policies. The contract of sale had been satisfied by handing over policies for the specified amount, and could not be construed as meaning that the sellers were bound to hand over other policies which they had effected (*i*).

It is an implied condition in a contract which provides that the seller shall hand over policies of insurance that the policies handed over are valid (*k*).

CHAPTER IX.

OF THE SHIP.

	SECT.
Naming Ship in Policy	182—184
Insurance on Goods by Ship or Ships	185
Floating Policies	186—188
Appropriation of Losses	189
Changing Ship when named	190
may discharge Underwriters	190—192

182. WE have already seen (*a*) that the name of the ship in which the voyage is to be performed must be accurately specified in every policy, on the ground that the underwriter has a right to be informed of everything material to the risk; the nature of which would obviously be very different upon ships of different degrees of seaworthiness. Reasons why the ship must be named in the policy.

It has also appeared that, although the name must generally be inserted with accuracy, yet, as it is only required to be so inserted for the purpose of identifying the ship, an error in the name will be unimportant, if it can be clearly shown that the underwriters were not misled by it, but that they really intended to insure a risk to be carried on in the very ship on which the loss occurred, the principle being that *nil facit error nominis cum de corpore constat* (*b*). Accordingly, in our common policies, after the names of the ship and master, come the words, "or by whatsoever other name or names the said ship, or the master thereof, is or shall be named or called."

The following cases show the degree of accuracy practically required on this subject:—An insurance was effected on ship, as on a ship called the "Leopard"; it appeared that the name Degree of accuracy required.

(*a*) *Ante*, § 16.
(*b*) See 1 Emerigon, 160: "Error nominis alicujus navis non attenditur, quando ex aliis circumstanciis constat de navis identitate."

Sect. 182.

of the ship was in fact the "Leonard," and that she had never been called the "Leopard"; it being proved, however, that the ship lost was the same that the underwriters intended to insure, the Court held, that by virtue of the above clause in the policy, the variance in the name had no effect on the validity of the insurance (*c*). So, where an American ship called the "President" was described in the policy as "the good ship called 'The American ship President'"; but it clearly appeared that the error had arisen from the blunder of the broker's clerk, and that the ship lost was really that on which the underwriters meant to insure, the error of name was held immaterial (*d*). And the decision of the Court was the same in another case, where a ship really called by the Spanish name of "Las Tres Hermanas," was described in the policy by an English translation of the name, as "The Three Sisters" (*e*).

Mistake as to age of ship.

183. The importance of accuracy in cases where the underwriter may be misled by a mistake in the name of the ship is well illustrated by a case in which an insurance was effected on goods on board the "Socrates." During the negotiation reference was made by the insurer to Veritas, and when it was found that Veritas contained the "Socrates, Albertson," a new Norwegian ship, and the "Socrate, Jean Card," an old French ship, he asked whether it was the Norwegian ship that was proposed, and he was told by the broker's clerk that he thought it was (*f*). The

(*c*) Hunter *v.* Molineux, before Lee, C. J. (1744), cited in 6 East, 385. It appears, from the judgment in Ionides *v.* Pacific Ins. Co. (1871), L. R. 6 Q. B. at p. 683, that, apart from the clause, "or by whatsoever name, &c.," the decision would have been the same.

(*d*) Le Mesurier *v.* Vaughan (1805), 6 East, 382.

(*e*) Clapham *v.* Cologan (1813), 3 Camp. 382.

(*f*) The Court considered this expression tantamount to an assertion that the ship was the Norwegian; but added that even if it were a representation as to an expectation or belief, there were no reasonable grounds for the belief. The rule applicable to such a representation, as declared by sect. 20 (5) of the Marine Insurance Act, 1906, is that it is true if made in good faith; but the Court refrained from stating whether they thought that a want of good faith must be imputed to the clerk. See as to representations of matters of belief, *post*, §§ 545, 546.

Sect. 183.

goods were in fact loaded on the French ship the "Socrate, Jean Card," and were lost during the voyage; it was held that the underwriter was not liable on the policy for this loss, on the ground of a misrepresentation as to the age of the ship in which they were carried (*g*).

Mistake in name of ship immaterial when goods insured by floating policy.

On the other hand, when goods are insured "by ship or ships," the underwriter engages, as will presently appear, to insure them by any ship on which they are loaded. Consequently in such an insurance a mistake made subsequently in the name of the ship is immaterial. Thus in the last-mentioned case the insurer had also initialed a slip for 5,000*l.* on hides by ship or ships; and afterwards, at the request of the broker, he initialed a slip for 2,445*l.* on hides by the "Socrates," this second slip being expressly made in order to be substituted for the slip "by ship or ships" already mentioned. The jury found that the parties, in entering into the contracts, both meant to insure the goods by the vessel on which they were actually shipped, whatever her name might be, and the assured recovered on the policy issued in respect of this insurance (*h*).

Importance of correct name with reference to maritime news.

One reason why accuracy in specifying the name of the ship may be required is that news calculated to make the underwriter cautious about undertaking the risk may have come to hand; he may have heard of storms, of losses, and of facts affecting particular ships; and consequently it is necessary that he should be able to identify the proposed ship in order to apply this information (*i*).

"Ship" in English policies applies to all builds of vessels.

184. If an underwriter were fraudulently misled by the designation of a vessel to suppose that he is insuring goods on board a *ship*, as distinct from a bark, brig, sloop, schooner and the like, the policy would be void (*k*). But as the

(*g*) Ionides *v.* Pacific Fire and Mar. Ins. Co. (1871), L. R. 6 Q. B. 674.

(*h*) Ionides *v.* Pacific, &c. Ins. Co. (1872), L. R. 7 Q. B. 517, Ex. Ch.

(*i*) See Bates *v.* Hewitt (1867), L. R. 2 Q. B. 595.

(*k*) 1 Emerigon, c. vi. s. 3, pp. 163, 164.

Sect. 184.

generic designation *ship* is used, probably invariably, in English policies for vessels of every build, it is difficult to see how, apart from fraud, any question of misrepresentation by the mere use of the generic term can arise.

Insurance on goods "on board ship or ships."

185. Cases frequently occur in which it is impossible to compel the insertion in the policy of the name of the ship in which the goods will be carried.

A merchant who has ordered goods from abroad may be anxious to effect an immediate insurance on them, while he is ignorant of the particular ship by which they may be sent. By the laws and practice of all maritime states, it is allowable under such circumstances to effect a policy on goods "on board ship or ships" (*l*).

This mode of insuring amounts to a representation of ignorance of the ship's name.

This mode of insuring, however, being an exception to the general rule, which requires the name of the ship in every case to be stated in the policy at the time of its subscription, can only be allowed in those cases in which the party effecting the insurance is *bonâ fide* and in fact ignorant of the name of the ship or ships by which the goods insured have been consigned.

It amounts, indeed, to a representation of such ignorance; and therefore, if a party who has adopted this mode of insurance knew, at the time of effecting the policy, the name of any one of the ship or ships on board of which the goods insured were really loaded, the withholding such name would vitiate the policy (*m*).

(*l*) In England the legality of this practice was declared, as far back as 1794, to be too well established to be disputed. Kewley *v.* Ryan (1794), 2 H. Bl. 348. In France it has been ably explained by Emerigon, c. vi. s. 5, "Assurance in quovis," vol. i. p. 173; see also Ordonn. tit. vi. art. 4; Code de Comm. art. 337; 3 Boulay-Paty, Droit Mar. 410—416. So in the United States, see 3 Kent, Com. 257, 258; 1 Phillips, s. 438. An insurance, however, of this kind, where the goods are specified, is not a "floating policy" within the definition in sect. 29 (1) of the Mar. Ins. Act, *infra:* see per Atkin, J., in Dickson *v.* Devitt (1916), 21 Com. Cas. 291.

(*m*) Lynch *v.* Hamilton (1810), 3 Taunt. 37; confirmed in error in Lynch *v.* Dunsford (1811), 14 East, 494, *infra,* § 607. It should be noted, however, that in this instance there was a report to the effect

Sect. 186.

Floating policies by "ship or ships."

186. It is now necessary to describe the system of insuring by floating policies, *i.e.*, policies in which the name of the ship is not specified. It is dealt with in sect. 29 of the Marine Insurance Act, 1906, in the following terms:—

> (1) A floating policy is a policy which describes the insurance in general terms, and leaves the name of the ship or ships and other particulars to be defined by subsequent declaration.
>
> (2) The subsequent declaration or declarations may be made by indorsement on the policy, or in other customary manner.
>
> (3) Unless the policy otherwise provides, the declarations must be made in the order of dispatch or shipment. They must, in the case of goods, comprise all consignments within the terms of the policy, and the value of the goods or other property must be honestly stated, but an omission or erroneous declaration may be rectified even after loss or arrival, provided the omission or declaration was made in good faith.
>
> (4) Unless the policy otherwise provides, where a declaration of value is not made until after notice of loss or arrival, the policy must be treated as an unvalued policy as regards the subject-matter of that declaration (*n*).

Use of floating policies.

Floating policies are very largely used by merchants at the present day, in order to cover all such property as the merchant expects to have at risk, to a certain specified amount, within stated limits of space and of time. Thus, a firm of merchants in London with a branch house in a foreign country will, at the beginning of their business year, take out a policy (*o*) upon all goods to be shipped on

that the ship in question had suffered a mishap. Her name, therefore, was a material fact of which the underwriters were entitled to be informed. See per Lawrence, J., 3 Taunt. at p. 38. The point for which the case was cited by Arnould is expressly declared by Mansfield, C. J., to be left undecided. See 3 Taunt. at p. 45; see also Knight *v.* Cotesworth (1883), 1 Cab. & Ell. 48.

(*n*) See *post*, § 360.

(*o*) A similar result is often effected in practice by "open covers." These are unstamped agreements to insure, and are commonly considered, whether rightly or wrongly, as binding in honour only. The insurance

Sect. 186.

their account up to an aggregate value of, say, 100,000*l.* within the ensuing twelve months for carriage between termini more or less specifically designated. The policy will then attach automatically on all shipments comprised within its terms up to the amount insured; "declarations" being meanwhile made upon the policy by indorsing thereon the names of the vessels and the particulars of the cargoes to which it applies. When the amount insured is exhausted by such declarations, the policy is said to be "fully declared" or "written off" (*p*). By virtue of the words "to be hereafter declared and valued," the assured is enabled to make the policy a valued one as regards any particular consignment by declaring and valuing before a loss; otherwise the amount of interest must be proved at the trial as in the case of an open policy (*q*). A firm of merchants will often have a succession of such floating policies, each one being expressed "to follow policy for £——, No. ——," the meaning of which is that, "there being consecutive policies, any loss declared is to be borne first by the earlier policies, and that it is not till after the earlier policy is exhausted that the underwriters on the policy which follows are to bear the balance of the loss, if any" (*r*). When the policy contains a stipulation to this effect, it seems clear that, while the earlier policies are unexhausted, no shipments of goods are within the terms of the later policy; for they are excluded by the stipulation. Therefore the provision of sect. 29 (3) of the Marine Insurance Act, 1906, that all consignments of goods within the terms of a floating policy must be declared, does not, under these circumstances, apply to the later policy.

is not regarded as legally binding until the goods are "put on stamp," *i.e.*, until the underwriter, in pursuance of his undertaking, issues a policy covering the particular consignment. See Gow, 229.

(*p*) McArthur, 3.

(*q*) See Mar. Ins. Act, 1906, s. 29 (4), *supra*. The valuation must be communicated to the underwriters before loss: Harman *v.* Kingston (1811), 3 Camp. 150.

(*r*) Per Lord Blackburn in Inglis *v.* Stock (1885), 10 App. Cas. at p. 269.

Sect. 186.

"The contract of an underwriter who subscribes a policy on goods by ship or ships to be declared is," said Blackburn, J., "that he will insure any goods of the description specified which may be shipped on any vessel answering the description, if any there be, in the policy, on the voyage specified in the policy, to which the assured elects to apply the policy. The object of the declaration is to earmark and identify the particular adventure to which the assured elects to apply the policy. The assent of the assurer is not required to this, for he has no option to reject any vessel which the assured may select, nor is it necessary that the declaration should do more than identify the adventure, and so prevent the possible dishonesty of a party insured, who might intend to apply the policy to particular goods, so that they should be at the risk of the assurers, and he should come on them if there was a loss; and then, when those goods had arrived safely, to pretend that he intended to apply the policy to another set of goods still subject to risks" (*s*).

Floating policies cannot be applied to interests not intended to be protected.

A floating policy cannot, however, be applied to an interest which it was not intended to cover. A shipowner, who ordinarily carried goods on terms excluding liability for negligence, was in the habit of effecting floating policies for the purpose of protecting goods which he was requested to insure on behalf of the shippers; and the policies were not intended to insure his personal interest as carrier of the goods. It was held that he could not declare on one of these policies for a loss of goods for which he was respon-

(*s*) Ionides *v.* Pacific Ins. Co. (1871), L. R. 6 Q. B. 674, at p. 682, cited with approval in Davies *v.* National Fire Co. of N. Z., [1891] A. C. 491. See also per Lord Blackburn in Inglis *v.* Stock (1885), 10 App. Cas. 263, 269. For an instance of such "possible dishonesty," see Rivaz *v.* Gerussi (1880), 6 Q. B. D. 222. Lord Blackburn's opinion that the assured may elect whether he will or will not disclaim a particular shipment is inconsistent with sect. 29 (3) of the Mar. Ins. Act, *supra*. See Dunlop *v.* Townend, [1919] 2 K. B. 127, where an insurer successfully defended an action on a policy on the ground that if all proper declarations had been made the policy would have run off.

Sect. 186.

sible, because in this instance he was carrying them under the ordinary liability of a common carrier (*t*).

Name should be subsequently declared.

187. With regard to the subsequent declaration by the assured of the name of the ship or ships when known to him, the practice generally is for the broker, on ascertaining the fact, to indorse the declaration of the name or names as a memorandum on the policy. It is not, however, necessary that this declaration should be in writing, nor will an error in the declaration either as to the name of the ship or as to other particulars be fatal to the contract (*u*).

A mistake in such declaration may be corrected.

Thus: a policy was effected for a voyage at and from Archangel to Great Britain, on goods to be thereafter valued and declared by ship or ships. The broker, having received wrong information as to the ships on which the goods were to be loaded at Archangel, wrote the following declaration on the policy and got it signed by the underwriters:—

"The interest attached to this policy is hereby declared to be shipped on board the 'Tweende Venner' and the 'Neptunus.'" Shortly afterwards the broker, discovering that the goods had, in fact, been shipped, not on board the "Tweende Venner" and the "Neptunus," but on board the "America," inserted a fresh memorandum in the policy, by which the interest was declared to be on board the latter ship. This the underwriter would not sign, and afterwards refused to pay a loss on the goods, on the ground that the policy had never attached on any goods shipped by the "America." But Lord Ellenborough and the Court of King's Bench held, that, as the declaration of interest need not have been in writing at all, the first declaration did not form any part of the contract, and that the mistake, being a mere blunder in the names of the ships first declared, might be corrected without any fresh stamp, and that the policy

(*t*) Scott *v.* Globe Mar. Ins. Co. (1896), 1 Com. Cas. 370. See now Mar. Ins. Act, 1906, s. 26 (3), discussed *infra*, § 252b.

(*u*) Mar. Ins. Act, 1906, s. 29, sub-ss. (2) and (3), *ante*, § 185.

Sect. 187.

attached upon the goods shipped on board the "America," in the same manner as if the first declaration had never been made (*x*).

Where port of loading unknown.

188. As the merchant may be ignorant of the name of the exact port at which the goods may be loaded on board, an insurance on goods "on board ship or ships" will attach on goods landed at any port within the limits of the voyage insured (*y*); though of course it would not cover a consignment sent from a different part of the world from that mentioned in the policy, or from any place, in short, not comprised within the limits of the risk, upon a fair construction of the terms of the policy (*z*).

Declaration before loss is not a condition precedent to plaintiff's recovery.

As a general rule, the name of the ship ought to be declared before notice of the loss. As, however, cases may occur in which this would not be possible, as where the assured does not ascertain the name of the ship till he hears of her loss, it is in no case a condition precedent to the plaintiff's right to recover on the policy (*a*). It was a recognized usage, now incorporated in sect. 29 of the Marine Insurance Act, 1906, that such a declaration may, and indeed must, be made, and if necessary rectified, even after the loss is known (*b*).

(*x*) Robinson *v.* Touray (1811), 3 Camp. 158; 1 M. & S. 217.

(*y*) Hunter *v.* Leathley (1830), 10 B. & C. 858. The policy in this case contained a very extensive licence to touch, stay and trade.

(*z*) 2 Valin, tit. vi. art. 4, p. 46; 3 Boulay-Paty, Droit Mar. 410; and his Comment. on Emerigon, vol. i. p. 175.

(*a*) Craufurd *v.* Hunter (1798), 8 T. R. 16; Harman *v.* Kingston (1811), 3 Camp. 150.

(*b*) Gledstanes *v.* Royal Exch. Ass. Co. (1864), 34 L. J. Q. B. 30; Ionides *v.* Pacific Fire and Mar. Ins. Co. (1871), L. R. 6 Q. B. 674; 7 Q. B. 517; and per Brett, J., Stephens *v.* Australasian Ins. Co. (1872), L. R. 8 C. P. 18, 23. See Dunlop *v.* Townend, [1919] 2 K. B. 127.

The usage on which s. 29 (3) of the Mar. Ins. Act, 1906, is based was stated in Stephens *v.* Australasian Ins. Co. in these words:—"According to the usage of the insurance business, when a policy is effected on goods by ship or ships to be thereafter declared, the policy attaches to the goods as soon as and in the order in which they are shipped; and directly the assured knows of the shipment of the goods, he is bound

Sect. 188.

Gledstanes *v.* Royal Exch. Ass. Co.

The plaintiffs were the agents in London of the Hong Kong Insurance Company, and had for some time kept that company re-insured with the Royal Exchange Assurance Company for all sums in excess of 5,000*l.* upon goods by any one ship under a Hong Kong policy. The manner was to effect a policy of re-insurance for 7,000*l.* or 10,000*l.* on goods by ship or ships, to be afterwards declared as particulars came to hand by the Calcutta mail. On the 15th of February, 1860, the Calcutta agent of the Hong Kong company wrote to the plaintiffs notifying an excess in the cargo of the "Red Gauntlet." On the 16th of March the "Red Gauntlet" was posted at Lloyd's as having been burned and scuttled, with partial salvage of her cargo. On the 17th of March the plaintiffs appropriated the residue of the sum insured by the policy then current to other shipments underwritten by the Hong Kong company; and on the 19th they effected a new policy for 10,000*l.* on goods by ship or ships, lost or not lost, which new policy was expressly declared "to succeed" the last current policy. On the 21st the plaintiffs received from Calcutta the letter of the 15th February, and then for the

to declare them to the underwriter on the policy, and to declare them in the order in which they are shipped. He is not entitled to declare some of the risks, and remain his own insurer as to the others. In case, by oversight or otherwise, the goods are declared on the policy in an order different from that in which they were shipped, the assured is bound to rectify the declarations, and make them correspond with the order of shipment. The underwriter would require to see the bills of lading, and could insist on the declarations being made to follow the sequence of the bills of lading. Declarations are often thus rectified, and sometimes even after loss."

The usage, as here stated, was held in the case of the Imperial Mar. Ins. Co. *v.* Fire Ins. Corp., Ltd. (1879), 4 C. P. D. 166, to be binding on a fire insurance company which had re-insured a marine insurance company against fire risks.

In a later case, Inglis *v.* Stock (1885), 10 App. Cas. 263, 269, Lord Blackburn said that if the assured had several adventures, all within the description in the policy, the assured might select at his pleasure which was to be protected by the policy, subject to the qualification that if there was nothing to show that the first adventure which came in safe was selected not to be under the policy, it must be taken to have been covered, though not declared. This differs to some extent from the rule in the Mar. Ins. Act, 1906, s. 29 (3).

Sect. 188.

first time learned that their Company had taken risks on the cargo of the "Red Gauntlet" in excess of 5,000*l.*, whereupon they immediately desired the defendants to apply the new policy to the "Red Gauntlet." This was refused by the defendant company; but the Court held, to the contrary, that the plaintiffs were entitled to have the policy of the 19th of March so applied (*c*). It is always expected, and it may be made an express condition, that the assured shall declare his interest at the earliest possible opportunity (*d*). Where a contract of insurance required such declarations to be made as soon as possible after the sailing of the vessel, it was held by the Privy Council that this was a promissory warranty and that failure to comply with it disentitled the assured to recover for a loss (*e*).

How loss was formerly applied where there were two or more policies effected on goods on board "ship or ships."

189. A very nice question has sometimes arisen as to the application of the loss when there are two or more policies of this loose description on different parcels of goods. In this country it was established by the following decisions, that the assured, in case of loss, had a right to apply either policy to a loss on board any ship he pleased that came within the terms of such policy.

Henchman *v.* Offley.

A merchant in India caused two insurances to be effected in London, one for 6,000*l.* on goods on board any ship or ships which should sail from Bengal to London between the 1st of November, 1779, and the 1st of July, 1780; the other on goods on board any ship or ships which should sail on the same voyage between 1st February and 31st December, 1780. He loaded goods to the amount of 4,889*l.* on board the "General Barker," and to the amount of 4,500*l.* on board the "Ganges," and entered a declaration before the Chief Justice in Bengal, that he had shipped on board the "General Barker" 4,889*l.* of the risk intended to be covered by the 6,000*l.* policy (*f*). Both ships sailed within the time men-

(*f*) Lord Mansfield overruled an objection taken at the trial to the admissibility of this declaration in evidence, and allowed it to be read.

Sect. 189.

tioned in both policies. The "Ganges" arrived safe, but the "General Barker" was lost. The plaintiff claimed a total loss under the 6,000*l.* policy. Lord Mansfield at the trial, and the Court in Banc, held that he had a right to apply the loss to the "General Barker," and he recovered accordingly 4,889*l.* (*g*).

Kewley *v.* Ryan.

Freeland and Rigby, a mercantile house at St. Vincent, directed the plaintiffs, their Liverpool correspondents, to get 1,260*l.* insured on cotton on board the "Elizabeth" from Granada to London; and 1,300*l.* on other cotton, which they intended to send by some other ship that would sail by the first convoy. The plaintiffs accordingly got 1,260*l.* insured in London on goods on board the "Elizabeth," and also 1,300*l.* on goods "on board ship or ships," viz., 700*l.* in Liverpool and 600*l.* in London. The 700*l.* policy, on which the action was brought, was "at and from Granada to Liverpool, on any kind of goods as interest should appear in ship or ships on account of Freeland and Rigby, warranted to sail on or before the 1st of August, 1793," without any exception of the goods on board the "Elizabeth." The "Elizabeth" arrived safe in Liverpool: the "Heart of Oak," on board of which the second cargo ultimately turned out to have been shipped, was totally lost on the voyage. Both ships had sailed before the 1st of August, the time warranted for sailing in the 700*l.* policy (*h*). The plaintiffs' claim for a total loss under this policy was resisted, mainly (*i*) on the ground "that, as a ship, answering the description in the 700*l.* policy and having on board property of Freeland and Rigby to the full amount therein insured, had arrived, this policy, being on ship or ships, might and ought to be applied to that ship, and was satisfied." The Court, however, held, that the assured had clearly a right to apply such an insurance to whatever ship they thought proper, within the

(*g*) Henchman *v.* Offley (1782), 2 H. Bl. 345, n.

(*h*) Marshall omits this circumstance, 1 Ins. 168.

(*i*) The other ground was the illegality of insurances on ship or ships, as to which, however, the Court entertained no doubt.

terms of it; and were therefore, under the circumstances, entitled to recover the whole sum therein insured (*j*). Sect. 189.

The rule that the assured may select the policy on which he will declare a particular shipment has no application where it is stipulated that one floating policy shall follow another (*k*). Moreover, as sect. 29 (3) of the Marine Insurance Act, 1906 (*l*), provides that the declarations under a floating policy must comprise all consignments within its terms, the rule seems to be no longer law (*m*); for when the assured has effected two or more floating policies not stated to be successive, it seems to follow from sect. 29 (3) that he must declare his shipments on all the policies on which it is possible to declare them. He cannot, of course, recover more in all than the value of the goods, and a difficulty arises, therefore, in determining when the policies become exhausted: must the whole value of each shipment be deducted for this purpose from the total sum insured by each policy, or must this value be divided rateably among the different policies?

Of changing the ship.

190. It is an implied condition of the policy, that the ship named therein should not, after the commencement of the risk, be changed without necessity or the consent of the underwriters; for such unnecessary or unsanctioned change of the ship produces an alteration of the risk, and therefore exempts them from liability (*n*).

(*j*) Kewley *v.* Ryan (1794), 2 H. Bl. 343; 1 Marshall, Ins. 168.

(*k*) See *ante*, § 186.

(*l*) *Ante*, § 185.

(*m*) Sir M. Chalmers and Sir Douglas Owen are of opinion that the rule, for which Henchman *v.* Offley and Kewley *v.* Ryan are clear authorities, had ceased to be law before the Act was passed; but the only reason given for this statement is that floating policies are now commonly effected "to follow and succeed." See Chalmers and Owen, Mar. Ins. Act, p. 44. No usage has been established, by virtue of which the rule can be treated as having ceased to apply to policies not expressed to be consecutive.

(*n*) Upon this subject, generally, consult Emerigon (c. xii. s. 16, vol. i. pp. 419—425), who discusses it with his usual masterly display of research and reasoning; see also Pothier, d'Assurance, Nos. 68, 69, 70, 71.

Sect. 190.

In insurances on ship.

If the policy be upon ship, it is clear that the liability of the underwriters will be at an end directly the specific subject of insurance has been wholly lost, as by foundering at sea; or wholly destroyed as a ship, either by shipwreck or irreparable damage.

In policies on goods, &c., an unnecessary change of ship will discharge the underwriters.

191. It is only, therefore, in policies upon other subjects of insurance, as, for instance, goods, freight, profits, &c., that any question as to the effect of changing the ship can possibly arise. With regard to these it may be laid down, that if either before the commencement of the voyage or during the course of it, the ship named in the policy be changed without necessity, or without the consent of the underwriters, they will be discharged from their liability (*o*). This rule holds good even though the substituted ship may be of larger dimensions or greater strength than that originally named in the policy, or though both ships perish on the voyage (*p*); for, by the fact that a given ship is named in the instrument, the underwriter has a right to say that he had some peculiar reasons for insuring a risk on that very ship which would not apply to any other.

Thus, if the underwriter has agreed to insure three several parcels of goods, each of the value of 1,000*l.*, one on board the "St. Joseph," another on board the "Triton," and a third on board the "Syren," making together 3,000*l.*, but the merchant afterwards loads these parcels all on board the "St. Joseph," the underwriter will only be liable upon the policy effected on goods on board the "St. Joseph," and that only to the extent of 1,000*l.*; and as to the remaining 2,000*l.* he will be discharged, although all the three ships may have perished in the course of the voyage (*q*).

192. By sect. 59 of the Marine Insurance Act, 1906—

Where, by a peril insured against (*r*), the voyage is

(*o*) 1 Emerigon, c. xii. s. 16, p. 419. See *post*, § 468.

(*p*) Emerigon, *ibid.* 420; Pothier, d'Assurance, No. 68, p. 111, par Estrangin.

(*q*) Code de Commerce, art. 361; 4 Boulay-Paty, Droit Mar. 132. See Dickson *v.* Devitt (1916), 21 Com. Cas. 291.

(*r*) If these words imply that where the transhipment is made necessary by a peril not insured against, the liability of the insurer does not continue, they seem, so far as the insurance is concerned, to impose a restriction upon the right to recover, for which, before the Act, there was no authority. For instance, if goods insured only against war risks or fire are necessarily transhipped in consequence of the ship being disabled by perils of the sea, does the insurance come to an end?

Sect. 192.

interrupted at an intermediate port or place, under such circumstances as, apart from any special stipulation in the contract of affreightment (*s*), to justify the master in landing and re-shipping the goods or other moveables, or in transhipping them, and sending them on to their destination, the liability of the insurer continues, notwithstanding the landing or transhipment (*t*).

Transhipment by consent, or under necessity.

The general rule, as stated previously in this work, is that if the underwriters consent to the change of ship, or if in the course of the voyage the ship becomes so disabled (*u*) as to be incapable, by any means at the master's disposal, of being repaired at all, so as to take on the cargo, the master, as agent for all concerned, may procure another ship in which to forward the cargo to its port of destination; and in such case the change of ship does not discharge the underwriters, on goods, freight, or profits, from their liability for loss on the subjects insured, which may occur subsequently to such change of ship. Many cases will occur in the later part of this work, under the head of Constructive Total Loss of Goods and Freight, which will serve to illustrate this position: we shall also have occasion, in considering the duties of the master, to discuss those cases of necessity which give him the right, if they do not impose upon him the duty, of forwarding the goods in another ship. This position was

(*s*) Wide powers of transhipment are sometimes given by the contract, especially by bills of lading for goods carried on a general ship. The transhipment must, however, be justifiable independently of the express terms of the contract of carriage, if the insurer's liability is to continue. Where, however, the contract of affreightment gave liberty to tranship, and the policy contained the clause "all liberties as per contract of affreightment," the C. A. held that the goods were covered after transhipment: Belgian Grain, &c. Co. *v.* Cox, [1919] W. N. 308.

(*t*) See *post*, § 468.

(*u*) See note (*r*), *supra*, as to the position when the ship is disabled by a peril not insured against.

Sect. 192. first established in this country by the case of Plantamour *v.* Staples (*x*), and has ever since been recognized (*y*). It is apprehended that, even where goods are insured "on board ship or ships," there is no general right to tranship. As soon as the shipment has taken place, the effect is the same as if the ship selected had been expressly named in the policy (*z*).

(*x*) (1781), 1 T. R. 611, n.; *S. C.*, 3 Dougl. 1.

(*y*) See the rule further discussed *infra*, § 207 *et seq.*; and cf. Shipton *v.* Thornton (1838), 9 A. & E. 314.

(*z*) See *infra*, § 468.

CHAPTER X.

OF THE MASTER.

	SECT.
Naming and Changing the Master	194
His Power to Borrow	195
to Hypothecate or Sell Cargo	196—200
to Sell Ship	201—204
to Sell the whole Cargo	205, 206
to Tranship	207
Is it his Duty to Tranship?	208—212
Effect of Transhipment	213—215
Master's Duties in Cases of Abandonment	216

Of the master.

193. It is not intended, in this place, to discuss those general duties of the master, which more properly form part of a treatise on shipping; it is proposed to notice such points only, in respect to the master, as have a bearing on the subject of sea insurance; and to this end we will consider—(1) The naming of the master in the policy, and subsequently changing him; (2) His power, in a port of distress, of hypothecating the cargo, or selling part of it, in order to repair the ship; (3) His power to sell the ship or the whole cargo; (4) His power, in case the first ship is disabled, of sending on the cargo in another; and (5) The relation in which he stands to the assured and to the underwriter in case of abandonment.

Of naming the master in the policy, and of subsequently changing him.

194. After the blank left in our common printed forms of policy for the name of the master come the following words: "or whosoever else shall go for master in the said ship, or by whatsoever other name or names the said ship, or the master thereof, is or shall be named or called."

From this clause it is abundantly evident, that it is no implied condition in our English policies either that the

Sect. 194.

master should be correctly named, or that the same master should continue on board throughout the voyage (*a*).

What change of master vitiates the policy.

The law is the same in France (*b*). Emerigon, however, limits the generality of the words to this extent, that they shall not apply to a master who is of any other nation, especially in time of war, so as to increase the risk of the underwriters, by substituting a belligerent as master instead of a neutral (*c*).

Thus there seems no doubt that another master may be substituted to command the ship, instead of him who is named in the policy, without the consent of the underwriters, and before the commencement of the voyage; provided always that the change be made in perfect good faith, and the substitute be competent (*d*). If the substitution can be shown to have been effected for any fraudulent purpose, it will, of course, vitiate the policy (*e*).

If in the course of the voyage, from death, disability, or other necessary cause, the master originally named in the policy be rendered incapable of acting, or if he abandon his command, the substitution of another captain in such case of necessity will, of course, make no difference to the policy (*f*). Even in such case the command ought not in time of war to be delegated to an enemy; nor, except in case of absolute necessity, if the ship be British, ought the appointment to

(*a*) The blank for the name of the master is now seldom filled up: *ante*, § 17.

(*b*) 1 Emerigon, c. vii. ss. 1, 2, 3, pp. 184—190.

(*c*) *Ibid.* p. 187; Boulay-Paty, in his Comment. *ibid.* p. 188, agrees with Emerigon in this construction of the clause. Arnould added: "This limitation seems very reasonable, and, should the case ever arise, would no doubt be ratified in our Courts." The Editors submit, however, that the shipowner is under no obligation to appoint a master of his own nation when, as under English law, an alien is not disqualified from acting as master.

(*d*) See Walden *v.* N. Y. Firemen's Ins. Co. (1815), 12 Johnson's R. 128; 3 Kent's Comm. 257.

(*e*) Boulay-Paty on Emerigon, c. vii. s. 2, p. 189. *Secus*, however, where the owners were not themselves parties to the fraud. See Dudgeon *v.* Pembroke (1874), L. R. 9 Q. B. 581.

(*f*) Emerigon, c. vii. s. 3, pp. 189, 190.

Sect. 194.

be conferred on any one that does not possess a British certificate of qualification for master on such a voyage (*g*).

Master's powers of borrowing under necessity.

195. The duty of the master, in case of damage to the ship, is to do all that can be done towards bringing the adventure to a successful termination, to repair the ship (if there be a reasonable prospect of doing so at an expense not ruinous), and to bring home the cargo, and earn the freight if possible (*h*). To accomplish this object of repairing his vessel, the master is authorized to bind his owner, by causing the repairs to be done on his credit, in which case the tradesman may sue the owner; or by borrowing money on his credit where that is necessary, in which case the lender has his remedy against the owner; or by selling a portion of the cargo, which is in effect borrowing from the shipper through the medium of a sale, and in this case the shipper may sue the shipowner; or the master may hypothecate part or the whole of the cargo, which gives a right to the proprietor of it to recover a compensation from the owner of the vessel. All these are merely modes of raising money by the agent of the shipowner for his account and for his use, to enable him to do his duty by repairing the ship, and in all the shipowner must repay the lender. The agency to borrow by these various modes, and so to bind his employer to the lender, is cast upon the master by the necessity of the case (*i*). He may also hypothecate the ship or the freight, or both, which gives the lender a right of arrest by Admiralty process. There is this one condition, however, imposed by the law on these various powers as an indispensable pre-requisite to their exercise, that the master is bound to communicate with the owner of the subject to be so dealt with, whenever such communication is under the circumstances practicable, and would not be

(*g*) Merchant Shipping Act, 1894, s. 92; cf. Emerigon, c. vii. s. 3, pp. 189, 190.

Sect. 195.

attended with such delay as must prove seriously detrimental to the interests involved (*j*).

Power to hypothecate or sell cargo.

196. It is not proposed to consider here the authority of the master to bind his owner by borrowing money to repair, or by causing repairs to be done on his credit (*k*), but merely to notice a few points connected with his power to hypothecate and sell the cargo, or part of it. With regard to his right to hypothecate, it is now clear law, that,—to use the language of Lord Stowell, in the celebrated case of The Gratitudine —in cases "of instant, unforeseen, and unprovided necessity," the master having no other means whatever of procuring funds, may hypothecate not the ship only, but the cargo also, in order to raise money for the repairs of the ship (*l*). In such cases the master, who, in the ordinary course of things, is a stranger to the cargo, except for the purposes of safe custody and conveyance, has forced upon him the character of agent and supercargo, not by the immediate act and appointment of the owner, but by the general policy of the law (*m*).

The extent of this agency, thus created by necessity, is only to bind the owner of the cargo, or (in cases of hypothecation) the cargo itself, to the lender of the money: it does not bind the owner of the cargo as against the owner of the ship (*n*).

(*j*) See Carver on Carriage by Sea, s. 316, and cases there cited; to which may be added Australian Steam Nav. Co. *v.* Morse (1872), L. R. 4 P. C. 222; The Gipsy (1864), 33 L. J. Ad. 185; Maclachlan's Shipping, 5th ed. 59, 164. Such communication is not required, when it is not necessary under the law of the flag: The Gaetano and Maria (1882), 7 P. D. 137, C. A. When the master does not know who the owner of the cargo is, he will satisfy his obligation by communicating with the shipper of the cargo, or his agent: Klein *v.* Lindsay, [1910] S. C. 231.

(*k*) The authorities are collected in Maude & Pollock on Shipping, 4th ed. p. 564; and see Carver, s. 310.

(*l*) The Gratitudine (1801), 3 C. Rob. 240. See The Pontida (1884), 9 P. D. 177.

(*m*) The Gratitudine, *supra*.

(*n*) "The case of The Gratitudine dealt only with the authority of the master in respect of binding the cargo to the lender of the money, it determined nothing as to the relative rights of the owners of the ship, and of the cargo, *inter se*;" per Patteson, J., delivering the judgment

Sect. 197.

Benson *v.* Duncan.

197. An attempt was made in one case to carry the doctrine of Lord Stowell beyond this limit, and to contend that the act of the master, in necessarily and justifiably hypothecating the cargo, bound the owner thereof so as to preclude him from recovering against the owner of the ship for loss incurred in consequence of the hypothecation. The facts were shortly these: The master of the "Lord Cochrane," a ship damaged by perils of the seas, hypothecated at a foreign port (Pernambuco), by one bottomry bond, for necessary repairs, the ship, freight, and cargo, amongst which were the plaintiff's goods. The ship and freight realized less than the sum borrowed, and the plaintiff, being obliged to contribute towards the difference, and also to pay his proportion of the costs of a suit instituted in the Court of Admiralty by the obligee of the bond, brought his action against the defendant, as owner of the ship, on an implied promise to indemnify. The Court of Exchequer were unanimously of opinion that the plaintiff might maintain such action, on the simple principle, that as between him and the defendant (the shipowner), his cargo had been pledged to secure the defendant's debt, and therefore, as the plaintiff had been compelled to pay the debt through the medium of the pledge, he must be reimbursed by the defendant (*o*). The point was decided the same way by the Court of Exchequer Chamber on a bill of exceptions (*p*). Patteson, J., who delivered the judgment of that Court, thus stated the law as to the authority of the master and the liability of the shipowner:—

Master agent of shipowner.

"In ordering the repairs of the ship, the master acts exclu-

of the Exchequer Chamber in Benson *v.* Duncan (1849), 3 Exch. 655. The passage in the text is taken from the 2nd ed. p. 229, but Arnould was probably wrong in suggesting that the master could involve the cargo-owner in any personal liability for the money borrowed for repairs of the ship.

(*o*) Duncan *v.* Benson (1847), 1 Exch. 537; *S. C.*, 17 L. J. Exch. 238.

(*p*) The bill of exceptions raised two substantial questions, viz., whether, as against the owners of the ship, the master, under the circumstances, had authority (1) to order the repairs; (2) to execute the bottomry bond. The Court of Exchequer Chamber held in the affirmative on both.

Sect. 197.

sively as the agent of the owner of the ship, and no other person but the owner of the ship and his agent can have any authority to order the repairs. The owner of the cargo cannot insist on such repairs being made, for the shipowner is absolved from his contract to carry if prevented by perils of the sea, and he is bound by it if prevented by inherent defects in the ship. Being, then, the agent of the shipowner in ordering the repairs, how can he be the agent of any one else in borrowing money to pay for them? If, in order to borrow that money, he is obliged to hypothecate not only the ship but the cargo, he, in effect, borrows money on the cargo for the benefit of the shipowner, just as much as he would have done had he sold a part of the cargo to raise the necessary funds, in which case it is not doubted that the shipowner must have indemnified the owner of the cargo" (*q*).

Power to hypothecate strictly confined to cases of necessity.

198. The exercise of this power of hypothecation must be very strictly watched, and rigorously confined to cases of necessity. The master must, in the first instance, endeavour to raise the money upon the credit of his owners: it is only when he cannot otherwise obtain the money, that he will be justified in hypothecating (*r*). The ship and freight must always be resorted to in the first instance, even though the bond be upon the cargo alone (*s*), and even where there is an earlier bond on ship alone, and subsequent bonds include cargo, the latter will be enforced against the ship alone, even though the result may be to exhaust the proceeds of the ship and leave nothing to satisfy the earlier bond (*t*). The right to hypothecate is not absolutely confined to cases arising in a country other than that of the owner's residence. The master may, in cases that otherwise justify such a step, hypothecate, even although the ship is in a port of the country where his owners reside, provided he have no means of communicating

(*q*) Benson *v.* Duncan (1849), 3 Exch. 665, 666; *S. C.*, 18 L. J. Exch. 172, 173.

(*t*) *Ibid.*; The Priscilla (1859), Lush. 1; 1 L. T. 272; Carver on Carriage, s. 318.

with them, and there is no other mode of escaping from the pressure of the necessity (*u*). Sect. 198.

Power to hypothecate, not to mortgage or pawn.

199. This power of the master is apparently confined solely to hypothecation, strictly and properly so called, as distinct either from a mortgage, which transfers the property, or a pledge or pawn at common law, which gives a lien on the chattel, and is void without actual possession. Hypothecation gives a maritime lien, which exists independently of possession, and which can be enforced against the subject of it, through the medium of legal process on the termination of the voyage: it is also essential to the validity of hypothecation, that the sea risk should be incurred by the lender, and that the privilege or claim should take effect only in the event of the ship's safe arrival (*x*).

Hence, where the master, besides drawing bills on his owners, also executed an instrument which purported to be an hypothecation of ship, cargo, and freight, whereby the merchant forbore to take maritime interest, and the master took on himself and his owner the risk of the voyage, making the money payable at all events, it was held that this was beyond the scope of his authority as agent, and did not, therefore, bind his owner to the merchant who had advanced the money (*y*).

But as instruments of hypothecation are the creatures of necessity and distress, and usually contain the language of commercial men and not of lawyers, they receive a liberal construction. It is not, therefore, necessary that the risk should be mentioned in express terms; it is sufficient, if it can be fairly and reasonably inferred from the whole document,

Sect. 199.

that it was the intention of the parties to make the repayment of the money dependent on this contingency (*z*).

Power to sell portion of cargo in port of distress for repairs.

200. The sale of a portion of the cargo by the master, for the repairs of the ship in a port of distress, stands on the footing of a forced loan from the owner of the goods through the medium of a sale, and is only to be resorted to in cases of necessity (*a*).

It can only be exercised in a port of distress, for the sole purpose of enabling the ship (or a substituted ship as it should seem) to proceed with the cargo, or the residue of it, on the voyage chartered or insured: hence, if the master unduly puts an end to the voyage insured, it has been held in the United States, and apparently on very good grounds, that the master is not justified in selling any part of the cargo for repairs for a new voyage (*b*).

Amount which the owner of the goods sold is entitled to recover.

The owner of the goods, if the ship afterwards arrives at her destination, is entitled to recover against the shipowner in respect of the goods so sold: and he may claim, at his option, either the price for which the goods actually sold at the port of distress (*c*), or, the amount for which they would have sold at the port of discharge (*d*).

But the owner of goods sold for repairs at a port of distress, is only entitled to recover the amount which they would have realized at the port of discharge, in case of the ship's arrival there (*e*); whether, if the ship be lost, or fails to arrive at her

(*z*) The above passage was adopted literally by Arnould from Maude & Pollock on Shipping. See 4th ed. p. 571; see also The Great Pacific (1868), L. R. 2 A. & E. 383; The Haabet, [1899] P. 295.

Sect. 200.

port of destination after the repairs, to procure which the goods were sold, the owner of the goods can recover against the shipowner the price for which they actually sold at the port of distress, seems an open question in our Courts (*f*).

Right of sale for repairs can only extend to part of cargo.

As this power of selling the goods of the shipper for the repairs of the ship is conferred for the sake of ultimately procuring the arrival of some part of the cargo in the repaired ship, it is obvious that it can only extend to the sale of part of the cargo and not of the entirety; for it cannot be presumed to be for the interest of the shipper that the whole should be sold, in order to enable the ship to proceed empty to her port of destination (*g*).

But the whole cargo may be hypothecated.

On the other hand, the master may well hypothecate the entirety of the cargo, for the hypothecation of the whole may be for the benefit of the whole, because it may enable the whole to be brought to a proper market, where it may realize far more than the amount raised on hypothecation and the expenses of the loan (*h*). It will be sufficient here to have pointed out thus generally the extent and limits of this power, reserving any particular instances of its exercise for a more detailed examination in subsequent parts of this work (*i*).

Power of the master to sell ship, or the whole cargo.

201. The point of the preceding inquiry was, the extent of the power vested in the master to hypothecate the ship and

(*f*) See the judgment of the Court in Atkinson *v.* Stephens. Lord Tenterden inclines to the opinion of Emerigon as the more reasonable, viz., that the money is only payable in case of the ship's arrival, on the ground that the merchant is thus not placed in a worse condition than if his goods had not been sold, but had remained on board. See Abbott on Shipping, 5th ed. p. 246; 14th ed. p. 551. It seems, nevertheless, to be always competent for the merchant to consider himself as having lent to the shipowner the money which the sale of his goods actually fetched, and to recover this amount, at least, in any event. See Hopper *v.* Burness (1876), 1 C. P. D. 137; cf. also Maclachlan on Shipping, pp. 491—494.

(*g*) Freeman *v.* East India Co. (1822), 5 B. & Ald. 617: *per curiam*, Duncan *v.* Benson (1847), 1 Exch. 537.

(*i*) See chapters on "Total Loss" and "Abandonment."

Sect. 201.

cargo, or to sell part of the cargo for the purpose of repairing the ship and enabling her to prosecute her voyage. The cases now to be considered are those in which, where the further prosecution of the enterprise has become hopeless—where the ship cannot be repaired or the cargo forwarded—a still further extension is given to the powers of the master, and he is held justified, from the paramount necessity of the case, in selling the ship or the whole of the cargo, or both.

Nothing but a case of absolute and supreme necessity, such as sweeps all ordinary rules before it, can justify the master in such sale. He is employed, as servant of the owners, to navigate the ship, and, as agent for both the shipowner and the merchant, to carry the goods to their port of destination; his disposal by sale of that which he is thus entrusted solely to navigate or convey, would in ordinary cases be the mere unauthorized act of a servant manifestly exceeding his commission. Extreme emergencies, however, may arise in which the master, being at a distance from his home port, and without any opportunity of consulting either the shipowner or the merchant, has no alternative left him, acting with perfect good faith as a prudent and skilful man, and for the best interests of all concerned, but to sell the property entrusted to his charge. What those circumstances of emergency are, we shall have frequent occasion to consider in treating the question of constructive total loss; we, therefore, confine ourselves here to a brief statement of the nature of this power, and the limitations on its exercise (*k*).

Nature of this power as vested in the master by the necessity of the case.

202. The nature of the power has been thus expressed by Parke, B.: "The master has, by virtue of his employment, not merely those powers that are necessary for the navigation

(*k*) The statement which follows is retained in substance from the 2nd ed. pp. 235—237. In the chapters on "Absolute and Constructive Total Loss," the editors have ventured to discuss certain points in connection with this subject which appeared to them to be controversial; for instance, what constitutes such a necessity as will justify the master in selling.

Sect. 202.

of the ship, and the conduct of the adventure to a safe termination, but also a power when such termination becomes hopeless, and no prospect remains of bringing the vessel home, to do the best for all concerned, and therefore to dispose of her for their benefit" (*l*).

Limitations on this power, as it relates to sale of ship.

Thus, if the ship is driven ashore and wrecked to pieces, or broken up so as no longer to retain the character of a ship at all, the master will clearly be justified in selling the remains of the wreck (*m*).

It is not, however, necessary that the ship should be thus absolutely destroyed in order to justify a sale by the master.

If by the perils of the sea she be reduced to such a condition that, although her timbers still hold together, yet the master, after the utmost endeavours, is compelled to renounce all hope of repairing her so as to bring her home, either from the physical impossibility of extricating her from the peril at all with the utmost exertion of force he can command, or from his inability to find the necessary funds for the purpose, in such cases, if the danger is imminent, and delay likely to prove destructive, the master will be justified in selling the ship as she lies, although at the time of sale she may still retain the character of a ship (*n*).

Thus, to take the case put by Lord Stowell, in The Fanny and Elmira, of a ship cast away in a foreign country, where there is no correspondent of the owners, and no money to be had on hypothecation to put her in repair, and all this at such a distance from the home port that the ship may rot before the master can hear from his owners, our Courts in such a case have held a sale by the master to be justifiable (*o*).

Sect. 203.

Sale of ship only justified by extreme necessity.

203. The exercise, however, of this power is most jealously watched by the English Courts, and rigorously confined to cases of extreme necessity: such a necessity, that is, as leaves the master no alternative as a prudent and skilful man, acting *bonâ fide* for the best interests of all concerned, and with the best and soundest judgment that can be formed under the circumstances, except to sell the ship as she lies (*p*).

If he come to this conclusion hastily, either without sufficient examination into the actual state of the ship (*q*), or without having previously made every exertion in his power, with the means then at his disposal, to extricate her from the peril, or to raise funds for her repair (*r*), he will not be justified in selling, even though the danger at the time appear exceedingly imminent (*s*).

A mere difficulty in procuring the necessary funds for the purpose of the repairs (*t*), or the necessary materials (*u*), although it may be very considerable, and such as to impose great sacrifice of time and money, will not justify the master in selling instead of repairing; unless the difficulty is insurmountable by any means within the master's disposal at the time and on the spot, he is bound to repair.

If, indeed, it is clearly manifest, as a matter not of probable conjecture, but of absolute moral certainty, that, although the ship is not, in the literal sense, irreparable, yet the cost of repairing her, so as to keep the sea, will exceed her value when

Sect. 203.

repaired, the master, as agent for the owners, will be justified in selling her (*x*). The excess, however, of the cost of repairs above her value must be no mere measuring cast, no subject of probable conjecture, it must be so far certain that no prudent owner, if on the spot and uninsured, would hesitate for a moment, in the exercise of a sound discretion, to sell the ship as she lay, rather than attempt to repair her (*y*); neither will it be sufficient to justify the master in selling under such circumstances, that he acted *bonâ fide*, and for the best interests of all concerned: the sale will not be justified unless the master in selling acted upon the best and soundest judgment that could be formed under the existing circumstances (*z*).

In the United States.

204. In the United States, the limitations upon the exercise of this power do not seem to be very certainly defined: in some cases a more extensive liberty than that allowed by the English rule has been avowedly conceded; and the position advanced, that the master may sell in all cases where he has good reason to believe that the owner would elect to abandon, *i.e.*, in all cases of constructive total loss (*a*). On the other hand, the stricter doctrine of the English law has been asserted and maintained in decisions of the Courts of Massachusetts (*b*), which derive additional sanction from the opinion of Chancellor Kent, who declares "the strict rule to be the one best supported by reason and authority" (*c*).

(*x*) Cambridge *v.* Anderton (1824), 4 Dowl. & Ryl. 203; 1 C. & P. 213; Ryan & Mood. 60; 2 B. & Cr. 691. Sect. 204.

In France, the sale of the ship by the master is permitted in the sole case of "innavigability legally certified" (*innavigabilité légalement constatée*), that is, as Boulay-Paty explains it, upon the report of experienced navigators appointed to act as surveyors by the local authorities, and followed by a formal condemnation in the local tribunals (*d*).

In one case in the United States, the power of the master to sell was limited to stranding on a foreign coast (*e*); but it has since been decided there, by Story, J., that in a case of overwhelmingly urgent necessity, the master has a right to sell the vessel as well on a home as on a foreign shore, and whether the owner's residence be near or at a distance (*f*).

Power of master to sell the whole cargo.

205. The power to sell the whole cargo.

This depends on exactly the same principles as the power to sell the ship, and, like it, can only be exercised in cases of extreme necessity.

In the admirable language of Lord Stowell, "though the master, in the ordinary state of things, is a stranger to the cargo, except for the purposes of custody and conveyance; yet in cases of instant and unforeseen and unprovided necessity his character of supercargo or agent is forced on him by the general policy of the law, unless the law can be supposed to mean that valuable property in his hands is to be left without protection or care. Suppose the case of a ship driven into port with a perishable cargo; or suppose the vessel unable to proceed, or to stand in need of repairs, what must be done? The master, in such case, must exercise his judgment, whether it would be better to tranship the cargo, if he has the means, or to sell it: he is not bound to tranship, he may not have the means of transhipment, but even if he has, he may act for the best in deciding to sell. If he has

(*d*) 2 Boulay-Paty, 86; Code de Com. art. 237. See, however, Lyon-Caen & Renault, vol. v. s. 137, as to a sale in a place where the legal formalities cannot be observed.

(*e*) Scull *v.* Briddle (1808), 2 Wash. Circ. Court R. 150.

(*f*) The brig Sarah Ann (1835), 2 Sumner's R. 206, cited 3 Kent. Com. 174, n. (*d*).

Sect. 205.

not the means of transhipment, he is under an obligation to sell the cargo, unless it can be said that he is under an obligation to let it perish" (*g*).

Where the ship is disabled, and the cargo, being sea-damaged and of a perishable nature, is in danger of being destroyed by the rapid progress of putrefaction if not sold, it is the master's right, if not his duty, immediately to sell it (*h*); and the duty, it seems, would be equally imperative, or, at all events, the right equally clear, in such case, even where the ship is not permanently disabled, but capable, after repair, of taking on the cargo (*i*). But a sale even of perishable goods is not justifiable, unless it be practically impossible to obtain the instructions of their owner before they perish (*k*).

Power to sell strictly limited.

206. The power of sale, however, where the ship is not disabled, or where there exist means of transhipment, must be strictly confined to cases in which the cargo is of a perishable nature, and has suffered so much sea-damage as renders it physically impossible, that, if sent on, it can arrive in specie at its port of destination (*l*).

Where the original ship is disabled, but there exist means of transhipment, and the cargo is not of a perishable nature, and not sea-damaged, the master will not be justified in selling, but is bound, or, at all events, entitled to tranship (*m*).

Where the original ship is disabled, and there exist no means of transhipment, or hope of any,—as where the ship is cast away on some desolate and unfrequented coast, or if the cost of saving and transhipping and sending home the cargo

Sect. 206.

would be more than its worth when landed at its port of destination—the master might possibly be held empowered to sell the cargo, even though it were neither sea-damaged nor of a perishable nature (*n*). But if not otherwise justifiable, a sale will not be justified by a decree of a Vice-Admiralty Court ordering it (*o*).

"In our opinion," say James and Cotton, L. JJ., "purchasers of cargo from a master cannot justify the sale, unless it is established that the master used all reasonable efforts to have the goods conveyed to their destination as merchantable articles, or could not do so without an expenditure clearly exceeding their value after their arrival at their destination." In this case, the insurers of cargo filed a bill against the purchasers of cargo to have the purchase set aside and the purchasers treated as salvors only. The plaintiffs were successful (*p*).

The master is not the agent of the shipper for purpose of creating *pro ratâ* freight.

The justifiable sale by the master of a perishable cargo at a port of distress transfers the property, and binds the shipper, on the ground that the character of agent for the shipper is necessarily devolved on the master by the emergency; but the master cannot in such case be considered as the agent of the shipper for the purpose of receiving the damaged goods at the port of distress, dispensing with their further carriage, and thereby entitling the shipowner to *pro ratâ* freight. The presumption that he is agent for the shipper in such cases in selling the goods is incompatible with the presumption that he is also agent for the shipper in dispensing with their further carriage, "for the agency of the master from necessity, arises from his total inability to carry the goods to the place of destination, which dispensed with the performance of that primary duty altogether; and the right to freight *pro ratâ* arises from the presumed waiver on the part

of the shipper of the performance of a duty which the master (on behalf of the shipowner) was ready to execute" (*q*).

Power of the master, in case the first ship is disabled, to send on the cargo in another.

207. The subject of which we now come to treat has been in some degree anticipated in our discussion of the continuing liability of the underwriter, notwithstanding the shifting of the goods, in cases of necessity, into a ship different to that named in the policy.

In the first place, it is now clearly established in English law, in conformity with the Continental and American authorities, that in cases where the original ship is disabled by the perils of the seas the master is empowered to procure another ship in which to forward the goods to their destination, and on their arrival by such substituted ship, the owner is entitled to receive from the merchant the whole amount of freight which he might have claimed, had they arrived on board the original ship (*r*).

Shipton *v.* Thornton.

This position was first directly established in English law by the case of Shipton *v.* Thornton (*s*); in that case the "James Scott," a general ship of which the plaintiff was owner and master, had taken on board at Singapore certain goods, of which the defendant was owner, under bills of lading according to which they were to be delivered to him in London. The "James Scott" sailed from Singapore with the goods on board, but having suffered much injury from tempest was obliged to put into Batavia to refit, where she was found to be so disabled that it became necessary to tranship the goods, and they were accordingly forwarded by two other vessels, the "Mountaineer" and "Sesostris,"

(*s*) 9 A. & E. 314.

Sect. 207.

by which they were duly delivered to the defendant at London.

The freight payable for the transport of these goods from Batavia to London, in the "Mountaineer" and "Sesostris," was less than it would have been had it been sent on thence in the "James Scott." The defendant paid the freight actually due for their carriage by the "Mountaineer" and "Sesostris," but refused to pay the higher rate of freight that would have been due had they been sent on in the "James Scott" (*t*): the plaintiff brought this action for the difference, and the Court of Queen's Bench, after a very elaborate discussion of the whole question and a copious reference to foreign authorities, held that he was entitled to recover what he claimed, on the ground that, where transhipment is necessary, the master is at all events empowered, if not bound, to send on the cargo in a substituted ship for the purpose of earning freight (*u*).

Master's duty to his owners to tranship?

208. In the case just cited, inasmuch as the freight by the substituted was lower than that by the original ship, it was obviously to the interest of the shipowners that the master should effect the transhipment and so earn the whole freight. It was therefore clearly a duty which the master owed to his employers, the shipowners, to take this course.

When the freight by the substituted ship is higher.

Where, however, the transhipment and conveyance by a substituted ship can only be effected at a higher than the original amount of freight, it may not be for the interest of the shipowner to tranship. In such a case, therefore, it is difficult to see how, merely as between the master and shipowner, there can be any duty on the master to take measures which will not be for his employers' benefit.

Does he owe a duty to cargo owners to tranship?

209. But there are other considerations to which weight must be given. It may be the law that the master, though owing no duty to his employers, may nevertheless under

(*t*) The freight due for their transport by the "James Scott," from Singapore to Batavia, was also paid.

(*u*) Shipton *v.* Thornton (1838), 9 A. & E. 314.

Sect. 209.

certain circumstances owe a duty to the owners of the cargo, and that in their interest he may be bound to tranship, although at a higher rate of freight than they had agreed to pay to the owners of the original vessel.

It never has been formally decided in this country whether, under any circumstances, he is bound to do so.

"By the Rhodian law (*x*), it is left discretionary, as it is by the laws of Oleron (*y*), and would appear to be so left by the ordinance of Wisby, did not a subsequent article, copied also into the Hanse Ordinance (*z*), bear testimony of a contrary disposition, thereby agreeing with the maritime law of Amsterdam (*a*). According to the interpretation put by Vinnius upon the Roman law, the master is thereby under no obligation to procure another ship when that by which he contracted to carry the goods is disabled (*b*). But the Antwerp (*c*) and Rotterdam (*d*) Ordinances, as translated by Magens, employed the strongest terms of obligation. The French law is so framed as to leave the intention thereof in doubt (*e*), and the most distinguished jurists of that country divided in opinion, Valin (*f*) and Pothier (*g*) holding that he is no further bound to procure another vessel than by losing his freight if he omit to do so, while Emerigon (*h*), followed by Pardessus (*i*), and Boulay-Paty (*k*), maintained that, by the express language of the law and the nature of the trusts reposed in the master, it is his duty to hire another vessel,

Sect. 209.

if it be possible, for the cargo, and that he is answerable in damages if he neglect it" (*l*).

Statement by Chancellor Kent of the law as to this point in the United States.

210. Chancellor Kent (*m*), stating the law of America, says: "In this country we have followed the doctrine of Emerigon and the spirit of the English cases, and hold it to be the duty of the master, from his character of agent of the owner of the cargo, which is cast upon him from the necessity of the case, to act in the port of necessity for the best interest of all concerned; and he has powers and discretion adequate to the trust, and requisite for the safe delivery of the cargo at the port of destination. If there be another vessel in the same or in a contiguous port, which can be had, the duty is clear and imperative upon the master to hire it; but still the master is to exercise a sound discretion adapted to the case."

The same learned jurist adds: "He may tranship the cargo, if he has the means, or let it remain. He may bind it for repairs to the ship. He may sell part, or hypothecate the whole. If he hires another vessel for the completion of the voyage, he may charge the cargo with the increased freight, arising from the hire of the new ship. . . . The master may refuse to hire another vessel, and insist on repairing his own; and whether the freighter be bound to wait for the time to repair, or becomes entitled to his goods without any charge of freight, will depend upon circumstances. What would be a reasonable time for the merchant to wait for the repairs cannot be defined, and must be governed by the facts applicable to the place and time, and to the nature and condition of the cargo. A cargo of a perishable nature may be so deteriorated as not to endure the delay for repairs, or may be too unfit and worthless to be carried on. The master is not bound to go to a distance to procure another vessel, and encounter serious impediments in the way of putting the cargo on board another vessel. His duty is only

(*l*) The above paragraph is abbreviated from Maclachlan on Shipping, 5th ed. pp. 479, 480.

(*m*) 3 Kent, Com. 212.

Sect. 210.

imperative when another vessel can be had in the same or in a contiguous port, or at one within a reasonable distance, and there be no great difficulties in the way of a safe reshipment of the cargo."

English authorities as to duty of master to tranship.

211. As to the English authorities, Lord Tenterden appears to have thought that where the cargo is perishable, and the master has no opportunity of consulting the merchant, he ought either to tranship or sell, according as the one or the other course will be more beneficial to the merchant, and sums up the case a little later on by saying, "in general, he is to do that which a wise and prudent man will think most conducive to the benefit of all concerned" (*n*). And such was the view of Lord Denman and the Court of Queen's Bench, expressed in the case of Shipton *v.* Thornton (*o*), as follows: "For it must never be forgotten that the master acts in a double capacity, as agent of the owner as to the ship and freight, and agent of the merchant as to the goods; these interests may sometimes conflict with each other; and from that circumstance may have arisen the difficulty of defining the master's duty under all circumstances in any but very general terms. The case now put supposes an inability to complete the contract on its original terms in another bottom, and, therefore, the owner's *right* to tranship will be at an end; but still, all circumstances considered, it may be greatly for the benefit of the freighter that the goods should be forwarded to their destination, even at an increased rate of freight; and, if so, it will be the duty of the master, as his agent, to do so. *In such a case* the freighter will be bound by the act of his agent, and, of course, be liable for the increased freight. The rule will be the same whether the transhipment be made by the shipowner or the master; and, in applying it, circumstances make it necessary on the one hand to repose a large discretion in the master or owner, while the same circumstances require that the exercise of that large discretion should be very narrowly watched."

(*n*) Abbott on Shipping, 5th ed. pp. 240, 243; 14th ed. pp. 528, 530.

(*o*) (1838), 9 A. & E. at p. 337.

Sect. 212.

212. There are, however, undoubtedly dicta to be found in our reports to a different effect from those already quoted. For example, in Metcalfe *v.* The Britannia Ironworks Co. (*p*), Cockburn, C. J., appears to have said: "If the master desires to earn the entire freight, he must cause the ship to be repaired, or send on the cargo in another vessel. But if he chooses to forego the freight, he is not bound to do either." But this can hardly be regarded as a deliberate expression of opinion by that learned judge, as it is clear that three years afterwards (*q*) he regarded the point at present under discussion as being still an open question.

Result of authorities.

On the whole, it is submitted that the weight of authority in England, as in America, is in favour of the position that under certain circumstances, the master may owe a duty to the owners of the cargo, even where he owes none to his own employers, to tranship. For instance, where the cargo is perishable, where there is an emergency, and it is impossible to obtain instructions, it is his duty to remember the double capacity in which he acts, and to take such measures for the protection of the cargo as the exercise of a sound discretion may dictate (*r*). If, after the exercise of such a discretion, under such circumstances, he forms the opinion that the right thing to do is to tranship, and that this course can be adopted without prejudicing the interests of his owners, it is his duty to do so. And in such a case he will have power to bind the cargo-owners to pay any freight, which he may on their behalf have properly agreed to pay.

Whose agent is the master when he transhipsº

213. The question whether the master, if he tranship, is acting as the agent of his owners or of the freighters was discussed in Matthews *v.* Gibbs (*s*), and appears to be a question of fact in each case. It is a natural presumption, if the

Sect. 213.

freight of the substituted ship be lower than the freight of the original ship, that in hiring her he is agent for his owners, and that he is agent for the freighters if he *bonâ fide* send on the goods at an increased freight. Where the transhipment is effected on the shipowner's behalf, the latter remains under the same liabilities with respect to the completion of the voyage as were imposed upon him by his original contract of carriage (*t*).

Is underwriter on goods liable for increased freightº

214. Where the cargo is forwarded in the freighter's interest at an increased freight, is such increased charge to be made good by the underwriters on the goods? This is a question which was not dealt with by Lord Denman in Shipton *v.* Thornton.

In France the law upon this point is, that such excess of freight by the substituted ship, together with all expenses of unloading, warehousing, and reloading the goods, shall be made good by the insurer up to the amount of his subscription (*u*).

In the United States it has been decided that the underwriter on goods is not liable for the loss occasioned by such extra freight, because he only guarantees the safe arrival in specie of the goods (*x*); to which Phillips adds, that such loss seems to be not a proximate, but only an indirect consequence of the perils insured against (*y*).

Arnould was of opinion (*z*) that on these grounds the underwriter would in this country be exempt from liability in respect of this claim; which, moreover, seemed to him to fall clearly within the principle established by the case of Baillie

(*t*) The Bernina (1886), 12 P. D. 36.
(*u*) 1 Emerigon, c. xii. s. 16, p. 426; Code de Commerce, art. 392, 393; and see a very able statement of the French law as to this point in 2 Boulay-Paty, Droit Mar. tit. viii. s. 8, Du Fret en Cas de Radoub, et d'Innavigabilité du Navire, pp. 398—416.

Sect. 214.

v. Moudigliani (*a*), that the underwriter on goods can never be affected by any loss occasioned by the payment of freight. It is not clear, however, that this case has any relation to the payment of extra freight, which, we may remark, may have to be taken into consideration in determining whether there is a constructive total loss of goods (*b*). When, in consequence of a peril insured against, the voyage cannot be accomplished in the original ship, it seems that the excess of the expense to which the owner of the goods is put in bringing them to their destination over the freight which he would have had to pay in the ordinary course is a loss directly due to such peril. The practice of underwriters has been to pay such excess as particular charges (*c*), and as one of the objects of an insurance on goods is to guarantee that the goods shall reach their destination, it is submitted that this practice is correct in principle (*d*). It is certainly not inconsistent with the provisions of the Marine Insurance Act, 1906 (*e*).

Duty of master to check progress of damage,

215. In this country it has been held, in respect of perishable cargo sustaining such damage as may, if not checked, go on increasing, that the master, being in an intermediate port, is not entitled to proceed on his voyage with such damaged cargo on board, the progress of the damage being unchecked, and that if he do so he or his owners are liable for the further loss that ensues in consequence (*f*). If in such a case, instead of proceeding on his voyage with the damaged cargo, he

(*a*) (1785), 2 Marshall, Ins. 736; 1 Park, Ins. 116.

(*b*) Farnworth *v.* Hyde (Ex. Ch.) (1866), L. R. 2 C. P. 204.

(*c*) See Booth *v.* Gair (1863), 15 C. B. N. S. 291; 33 L. J. C. P. 99; and the remarks of Willes, J., in Kidston *v.* Empire Ins. Co. (1866), L. R. 1 C. P. 548—550.

(*d*) When the policy is against total loss only, the owner of goods cannot, however, recover the excess of freight, except where a total loss has been prevented by the expenditure: Booth *v.* Gair, *supra;* Great Indian Peninsular Rail. Co. *v.* Saunders (1862), 2 B. & S. 266; 31 L. J. Q. B. 206.

(*e*) See the definition in s. 64 (2), *post,* § 869, of particular charges, which are recoverable under the suing and labouring clause: s. 78, *post,* § 870.

(*f*) Notara *v.* Henderson (1870—2), L. R. 5 Q. B. 346; 7 Q. B. 225.

Sect. 215.

incurs expense in checking the progress of the damage, he is entitled to be recouped by the owner of the goods, who has a right of action over against his underwriter, under the sue and labour clause of the policy, notwithstanding the damage actually sustained does not reach the memorandum percentage, provided it appear that but for such expenditure the damage would have increased until it had become a loss for which the insurer was answerable (*g*). In short, if it appear that a loss which would have fallen on the insurer has been prevented or mitigated by the expenditure of money, the insurer is liable for the expense. Accordingly, where the vessel, in consequence of the perils insured against, was properly abandoned at an intermediate port, and the goods were transhipped and carried on to their destination at a heavy cost for incidental charges and for freight, the underwriter on freight was held liable for the whole of this expense, because thereby a total loss of the original freight was prevented (*h*).

and liability of underwriters for expense of doing so.

Of the powers and duties of the master in cases of abandonment.

216. By a clause invariably inserted in our common forms of policy, "the assured, his factors, servants, and assigns," are allowed, or, as the law construes it, are bound, "in case of any loss or misfortune," to make every exertion in their power "for the defence, safeguard and recovery" of the property which is the subject of the insurance. In almost all cases of "loss or misfortune," the duty of acting for the benefit of all concerned, under the emergency, is thrown upon the master. If the casualty should prove to be of such a nature as to justify the assured in giving notice of abandonment, a question may, and frequently does, arise as to whose agent the master is in taking the steps which in his judgment are necessary under the circumstances. This question will be more fully noticed when we come to treat on the subject of abandonment; the principle, however, upon which it

(*g*) Per Willes, J., in Kidston *v.* Empire Marine Ins. Co. (1866), L. R. 1 C. P. 535.

(*h*) Kidston *v.* Empire Marine Ins. Co. (1866), L. R. 1 C. P. 535; 2 C. P. 357; cf. Rose *v.* The Bank of Australasia, [1894] A. C. 687.

Sect. 216. depends is, that as the effect of a notice of abandonment, if accepted, or made on good grounds, is to entitle the underwriter to take over the interest of the assured in whatever remains of the subject-matter insured as from the moment of the loss (*i*), the master will be considered, if the ownership has thus vested in the underwriter, as the agent of the latter in all acts done by him from that time, within the authority given to him by the clause (*k*).

If no effective notice of abandonment is given, the master, in all that he does within the scope of his duty, is the agent of the assured (*l*); and it is his duty, as such, to take such measures as may be reasonable for the purpose of averting or minimizing a loss (*m*).

Seamen's and Master's Wages and Effects	244, 245
Disbursements	246, 247
Miscellaneous	248
Shares in Companies	249
Shipowner's Liability for Damages	250
Description of Nature and Extent of Risk usually unnecessary	251, 252

What may and may not be insured.

217. GENERALLY speaking, everything which is exposed to risk by the perils of the seas may be made the subject of a contract of marine insurance, unless its insurance is prohibited by law—including in this term the general law maritime, and the rules of international law so far as they form part of the law of the land. "Subject to the provisions of this Act," it is declared in sect. 3 (1) of the Marine Insurance Act, 1906, "every lawful marine adventure may be the subject of a contract of marine insurance" (*a*).

In this chapter we will consider what may be insured, and what is covered by the description in the policy of the usual subjects of insurance, leaving to another part of the work the consideration of those things the insurance of which is unlawful, owing to the prohibited nature of the traffic, or voyage, for or on which they are insured. The reason for this arrangement is that, as the prohibition of insurance in these latter cases generally arises not from anything in the nature

(*a*) For the meaning of "marine adventure," see s. 3 (2) of the Act, *ante*, § 1.

Sect. 217. of the things themselves considered as subjects of insurance, but solely from the illegality of the risk on which they are embarked, it seems more natural to treat of them, under the general head of the illegality of the risk, in that division of the work devoted to the discussion of the causes that avoid the insurance.

Ships and goods have always, and universally, been regarded as the proper and main subjects of insurance, and in dealing with them it will only be necessary to consider what is covered by a policy on "ship" or "goods" respectively.

What is covered by a policy on ship.

218. In our common printed forms the policy, after stating that it is effected "upon any kind of goods and merchandises," proceeds thus—"and also upon the body, tackle, apparel, ordnance, munition, artillery, boat, and other furniture, of and in the good ship or vessel called the," &c.

When the insurance is intended to be confined to the ship alone, this is generally effected by inserting, either at the foot or margin of the policy, the words "on ship"; or by stating in the valuation clause that, as between the assured and underwriters on the particular policy, the subject of insurance is agreed to be the ship, or as many sixty-fourth shares thereof as the assured owns. The effect of either mode of specifying the subject of insurance is to obliterate, as it were, such other words of the general form as are inapplicable to the specified subject (*b*). It is hardly necessary to remark that a policy in this form on ship alone, even when effected by one who is owner both of the ship and cargo, cannot extend to protect the latter (*c*).

Not any part of the cargo.

(*b*) See Robertson *v.* French (1803), 4 East, 130, 140, 141; Haughton *v.* Ewbank (1814), 4 Camp. 89; and the other cases cited *ante*, § 73, which lay down the general principle which subordinates the printed portions of the policy to the effect of those in manuscript. Thus, the interest of a mortgagee, if misdescribed as bottomry, would remain uncovered by the policy, although there are printed words in the policy which would cover a mortgage notwithstanding the misdescription in manuscript. See Simonds *v.* Hodgson (1829), 6 Bing. 114; and *S. C.* (in error), per Lord Tenterden (1832), 3 B. & Ad. 50.

(*c*) 1 Marshall, Ins. 328; per Smith, L. J., Field SS. Co. *v.* Burr, [1899] 1 Q. B. 585.

Sect. 218.

Policies on hull and machinery.

Sometimes a policy is made upon the hull and machinery of a steamship, and in valued policies on steamships it is a common practice to have separate valuations of hull and machinery. It is unnecessary to mention the machinery in the policy, for the term *ship* in a policy upon a steamship covers the machinery as well as the hull (*d*). The object of the separate valuation is to provide that for certain purposes, in particular as regards average, the hull and the machinery are to be considered separately insured (*e*).

Sched. I. Rule 15 of Marine Insurance Act.

219. Schedule I. of the Marine Insurance Act, 1906, contains Rules for the construction of policies in the ordinary form, which apply where the context does not otherwise require. No. 15 of these Rules provides that "the term 'ship' includes the hull, materials and outfit, stores and provisions for the officers and crew, and, in the case of vessels engaged in a special trade, the ordinary fittings requisite for the trade, and also, in the case of a steamship, the machinery, boilers, and coals and engine stores, if owned by the assured" (*f*).

Provisions are comprised as part of the ship, under the word "furniture."

The clause "and also upon the body, tackle, &c.," in this policy made it unnecessary before the Act to decide whether fittings or stores were covered by the word "ship." Thus it was held that the provisions put on board the ship, when she sails, for the use of the crew on the voyage, are comprehended under the word "furniture," and protected by an insurance on the "body, tackle, apparel, ordnance, furniture," &c. of the ship in the common printed form (*g*). The contrary position had been erroneously inferred from the case of Robertson *v.* Ewer, which decided no such point, but merely established that the underwriter on ship could not be liable

(*d*) Mar. Ins. Act, 1906, Sched. I. r. 15, *infra*. See per Kennedy, J., in Roddick *v.* Indemnity Mutual Marine Ins. Co., [1895] 1 Q. B. 842.

(*e*) See Oppenheim *v.* Fry (1863), 3 B. & S. 873; in the Ex. Ch. (1864), 5 *id.* 348; 33 L. J. Q. B. 267.

(*f*) Cf. s. 16 of the Act, *post*, § 365, by which the insurable value of a ship includes also money advanced for seamen's wages. See s. 30 (2).

(*g*) Brough *v.* Whitmore (1791), 4 T. R. 206.

Sect. 219.

for the consumption of such provisions while the ship was detained by an embargo (*h*).

Stores and tackle also included in insurance on ship.

It was admitted, in Brough *v.* Whitmore, that all the ship's stores and tackle were also included in the insurance on ship in the common form (*i*).

And outfit in the sense of stores and provisions.

The word "outfit" is sometimes used to denote the necessary stores and provisions put on board the ship for the use of the crew on the voyage; and, in this sense, outfit is included in a general insurance on ship. It is in this sense that Lord Ellenborough uses the word when he says that hull and outfit are both protected by an insurance on ship (*k*).

Not so the fishing stores for whaling voyages.

In whaling voyages, however, the word "outfit" has a peculiar sense, and means the fishing stores of the ships so employed; *i.e.*, the harpoons, lances, spears, and whale lines, for the purpose of catching whales and seals on the voyage, and the casks, cisterns, boilers, &c. for preparing and containing the oil and blubber: in a word, all the instruments and apparatus necessary for taking the fish, and preparing and bringing home their animal produce (*l*). It is established, in accordance with the general custom of whaling voyages, that outfits in this sense are not protected by a general insurance in the common form on the "body, tackle, apparel, &c. of the ship" (*m*); and the practice in

Mode of insuring

(*h*) Robertson *v.* Ewer (1786), 1 T. R. 127; and see per Buller, J., 4 T. R. 210. Maclachlan said that if provisions for the crew are laid in double, for reasons of economy or necessity, the policy on the ship will only cover the provisions for the voyage insured; the provisions in excess being cargo. Rule 15, *supra*, may be construed in accordance with this opinion. He also said that provisions intended for the use of passengers, although incidental to the earning of passage money, are not covered by an insurance on ship, but should be insured *eo nomine*. Arnould, 6th ed. p. 48; and see McArthur, Ins. 58. This view is confirmed by Rule 15.

(*i*) 4 T. R. 206. The doubts expressed by Lord Esher, M. R., and Smith, L. J., in Roddick *v.* Indemnity Mutual Marine Ins. Co., [1895] 2 Q. B. 380, whether the word "ship" alone covers provisions or stores, are removed by Rule 15.

(*k*) Hill *v.* Patten (1807), 8 East, 373, 375; Forbes *v.* Aspinall (1811), 13 East, 323, 325.

(*l*) 8 East, 375; Gale *v.* Laurie (1826), 5 B. & Cr. 156.

(*m*) Hoskins *v.* Pickersgill (1783), 3 Dougl. 222; 1 Marshall, Ins. 241; 1 Park, Ins. 126. Admitted in the case of The Dundee by Lord Stowell (1823), 1 Hagg. Ad. R. 109, 123 (see 1 Marshall, Ins. 241); and by Lord Tenterden in Gale *v.* Laurie (1826), 5 B. & Cr. 156, 164. See Hill *v.* Patten (1807), 8 East, 373, 375. It is possible that some of these stores are "fittings" requisite for the special trade in which the vessels are engaged, within the meaning of Rule 15, *supra*.

Sect. 219.

whaling risks in the United States.

the United States, accordingly, is stated by Phillips to be to describe the different interests insured in a fishing voyage as "ship, outfit, and cargo" (*n*).

Fittings and damage.

According to McArthur, temporary dunnage, ballast or fittings are in practice not treated as covered by a general policy on ship, but the rule is different when they are in permanent use on a ship regularly employed in a particular trade (*o*). It is probable that the words "vessels engaged in a special trade" in Rule 15 will, at any rate to some extent, be construed in accordance with this practice, so that fittings required specially for a single voyage will not be covered by the common policy.

The word "furniture," in a time policy on a ship employed in the grain trade, has been held to cover separation cloths and dunnage mats required for the proper carriage of grain cargoes, although in the particular voyage, not being in use, they were temporarily stowed away in the fore-peak (*p*).

Bunker coals and engine stores.

220. The bunker coals and engine stores of a steamship necessary for the voyage are covered by an insurance for a voyage in the common form (*q*). When the insurance is for time, it seems that proper effect will be given to the words of the policy and to Rule 15 by allowing the policy to cover a reasonable quantity of coals and stores, regard being had to the service on which the ship is engaged, and average adjusters usually allow such a quantity.

Roddick *v.* Indemnity Mutual Mar. Ins. Co.

In Roddick *v.* Indemnity Mutual Marine Insurance Co., the question arose whether a time policy on the "hull and

Sect. 220.

machinery" of a steamship covered her bunker coals and stores. Evidence was given that in a voyage policy an insurance on hull covers, according to the practice of underwriters, the coals and stores necessary for the voyage described in the policy. Kennedy, J., however, held that, in a time policy at any rate, they were not covered by the term "hull" (*r*), and this judgment was affirmed in the Court of Appeal (*s*). Further, the learned judge thought that, even in a voyage policy, this extended meaning of the word "hull" could not be adopted, and both Lord Esher and Smith, L. J., seem to have been of the same opinion (*t*). It may be remarked, however, that policies simply on hull and machinery are not common. There are often words in the policy which show that the intention was to insure such stores, &c. as would be covered by a policy in the ordinary form.

The boat.

221. The "boat" is included by name as part of the ship in the common policies of insurance (*u*); hence, in a policy on ship in the common form upon the "body, tackle, apparel, munition, ordnance, boat, and other furniture" of the ship, Lord Lyndhurst would not admit evidence of a usage to show that underwriters never paid for boats outside the ship slung upon the quarters, on the ground that, though "usage may be admissible to explain what is doubtful, it is never admissible to contradict what is plain" (*x*).

In this case it had been proved that such slinging of the boat was proper and necessary in voyages of the description insured against: if it could be shown that the boat was carried in any way which, while exposing it to extraordinary risk, was not proper and necessary, it might fairly be considered that, as in the case of goods carried on deck, the

(*x*) Blackett *v.* Royal Exch. Ass. Co. (1832), 2 Cr. & J. 244, 250.

Sect. 221.

underwriter would not be liable unless informed by the policy of the nature of the risk. Thus, in a case decided in the United States it seems to have been assumed that, if it could be shown that carrying boats slung at the stern davits, besides being a dangerous, was also an unusual mode of carrying them on the voyage insured, the underwriter, under the common form of policy, could not be liable for their loss (*y*).

What is covered by a general insurance on "goods" or "merchandise."

222. According to Rule 17 in Schedule I. of the Marine Insurance Act, 1906, "the term 'goods' means goods in the nature of merchandise, and does not include personal effects or provisions and stores for use on board." The Rule continues: "In the absence of any usage to the contrary, deck cargo and living animals must be insured specifically, and not under the general denomination of goods." Thus, in most cases, the merchant who wishes to insure his merchandise against sea risks need only give a general description of it as "goods" or "merchandise" (*z*).

Successive cargoes shipped in the course of the same voyage.

Hence it is laid down by the French jurists, and apparently on sound principles, that if, under such a general form of insurance, the ship, in the course of the voyage insured, and under liberty given her in the policy, touches at an intermediate port, and there lands the goods which were on board at the commencement of the risk, and takes on board others on account of the assured, such substituted goods are covered by the general words of the policy (*a*).

So, in this country, although after a policy has been once effected on a particular subject of insurance, it cannot, in consequence of the stamp laws, be so changed in its terms as to be made to attach on a totally different subject, "Yet it is not to be inferred from hence," says Lord Ellenborough, "that shifting or successive cargoes on board the same ship,

(*y*) Hall *v.* Ocean Ins. Co. (1839), 21 Pick. 472; cited 1 Phillips, s. 465.
(*z*) Pour que telle assurance soit valable, il suffit que l'aliment du risque existe lors du sinistre. 1 Emerigon, c. x. s. 1, p. 296.

Sect. 222.

in the course of the same continued adventure, as in the African and other trades, out and home, may not properly be the subject of insurance under the word 'goods'; for in some of these cases the successive cargoes—*i.e.*, of English goods, African articles of traffic, and, lastly, West India produce—are, according to the course of such trading adventures, one continued subject-matter of insurance under the one name of 'goods'" (*b*).

Goods subject to leakage, perishable articles, and contraband are insurable under a general policy in this country.

223. The law of France is, that goods subject to deterioration or leakage must be specifically described in the policy (except where the assured is ignorant of the nature of the cargo at the time of effecting the insurance); otherwise no loss is recoverable upon such goods under the general description. The same rule is extended to perishable articles and to contraband of war, by the laws of other foreign states (*c*).

No such rule exists in this country. As to articles liable to leakage or deterioration, the underwriters, by the common memorandum, expressly exempt themselves either from all liability for particular average losses, or from liability for such losses not amounting to a certain percentage. As to contraband of war, although the underwriter might avoid the insurance, unless he were told of the nature of the intended risk, yet it has never been decided that the contraband character of the cargo must be specified in the policy.

Bullion, coin and jewels put on board for the purposes of commerce.

224. Considerable doubt appears at one time to have been entertained whether money, bullion or jewels could be insured under the general denomination of "goods, wares and merchandise." This doubt, in all probability, arose from mis-

(*b*) Hill *v.* Patten (1807), 8 East, 373, 377; see also Tobin *v.* Harford (1863), 32 L. J. C. P. 134; in error (1864), 13 C. B. N. S. 791; 34 L. J. C. P. 37.

(*a*) to s. 14, vol. i. p. 9; and in Nolte's edition of Benecke, vol. i. pt. ii. tit. iii. c. ii. pp. 549—552.

Sect. 224.

taken theories of the balance of trade, which led to the notion that all exportation of such commodities, as articles of trade, was detrimental to the common weal. There is now, however, no doubt that, when put on board as merchandise, they may be insured, in this country, under the general description of goods and merchandise (though in actual practice they are generally insured under a specific description); it being at the same time understood that the underwriter is not liable for the risk of a clandestine exportation (*d*). The laws of some Continental states require these commodities to be specifically designated in the policy (*e*).

Bank notes and bills of exchange.

Bank notes and bills of exchange should, it seems, be specifically described (*f*). A policy "on goods" means only such goods as are merchantable (*merces*), *i.e.*, cargo put on board for the purposes of commerce (*g*). Hence it is that clothes and other personal effects are not covered by a general policy on goods and merchandise, nor the ship's provisions (*h*), even though the ship carries nothing but passengers (*i*).

(*d*) For an instance, see the case of Da Costa *v.* Firth (1766), 4 Burr. 1966. "Goods, wares and merchandise" will cover dollars, if entered at the custom-house: per Dampier, J. (1815), in Manning's Dig. Index to N. P. Rep. 164, n. 5, 2nd ed.; see also 1 Magens, art. 15. p. 10. Phillips points out (vol. i. s. 432) that there is no reason for this exception of clandestine trade which is made by the text-writers, saying that the fact that the trade is prohibited appears to involve the question of concealment, or the legality of the contract, rather than that of the sufficiency of the description.

(*e*) Dutch Code, art. 596; Spanish Code, art. 745.

(*f*) Per Dampier, J., Manning's Index, 165; Palmer *v.* Pratt (1824). 2 Bing. 185.

(*g*) So stated by underwriters in Ross *v.* Thwaites, before Lord Mansfield (1776), 1 Park, 23, 24; and so defined by Best, C. J., in Brown *v.* Stapyleton (1827), 4 Bing. 121. "Wares or cargo for sale," per Lord Ellenborough in Hill *v.* Patten (1807), 8 East, 375. See, however, Wilkinson *v.* Hyde, *infra*.

(*h*) Mar. Ins. Act, 1906, Sched. I. r. 17, *ante*, § 222; Ross *v.* Thwaites (1776), 1 Park, 23. It is submitted, however, that the personal effects of persons on board are covered, if shipped as cargo. See 1 Parsons, Ins. 521. It was not disputed in Wilkinson *v.* Hyde (1858), 3 C. B. N. S. 30; 27 L. J. C. P. 116, that a policy on goods covered an emi-

(*i*) Brown *v.* Stapyleton (1827), 4 Bing. 119, 122.

Sect. 224.

Money and jewels attached to the person.

"In merchandise," says Park, J., "is included all property of great value, unless attached to the persons of the passengers" (*k*). Thus jewels, ornaments, cash, &c. not designed for trade, but carried about, or belonging to the persons of those on board, do not (as the better opinion seems to be) fall within the general description of goods and merchandise; and in case of loss would not, it seems, be recoverable under a policy on goods in the general form (*l*).

Goods on deck are not covered by a general policy "on goods," unless there is a usage.

225. The reason why goods carried on deck are not usually covered by a general insurance in the common form on goods and merchandise is that they are exposed to a greater hazard than goods carried in the ordinary way (*m*); if, indeed, they are carried on deck by virtue of a general custom of the particular trade on which the insurance is effected, the underwriter is presumed to be acquainted with such usage without having notice of it, and therefore may fairly be supposed to undertake the risk of their being so carried on deck. As, however, the custom only applies to certain descriptions of goods in any trade (*n*), it may be doubtful whether, even in this case, the goods ought not to be specifically described in the policy, in order that the underwriter may be apprised that he is to run the extra risk. In the only case in which the point directly arose, the insurance was declared by the policy to be "on forty carboys of vitriol" (*o*). The observa-

grant's outfit. In Duff *v.* Mackenzie (1857), 3 C. B. N. S. 16; 26 L. J. C. P. 313, the master insured his clothes, charts, instruments, &c. as master's effects, and this seems the proper way to describe them. Provisions are covered by the common policy on ship. Stevens on Average, 60; *ante*, § 219.

(*n*) In Apollinaris Co. *v.* Nord Deutsche Ins. Co., [1904] 1 K. B. 252, a general custom to carry deck cargo on Rhine voyages was established, and the insurer was held to be liable for such cargo.

(*o*) Da Costa *v.* Edmunds (1815), 4 Camp. 142. So in the instance

Sect. 225.

Observations of Lord Lyndhurst.

tions of Lord Lyndhurst on this point are well deserving of attention. "Goods carried on deck," he says, "are not in the part of the ship where goods are usually carried; they are in more than usual peril, and an usage that they are not covered by an ordinary policy on goods, but that they require a distinct explanation to the underwriter, of the part of the ship in which they are to be carried, or (where that will imply the same information) of the nature of the goods, is not at variance with any part of the policy, is essential to the information which the underwriter ought to receive, to enable him to estimate the risk and calculate the premiums, and is a portion of that fairness which ought to be rigidly observed upon all these contracts" (*p*).

The general conclusion arrived at by Phillips is, that, if by the description of the voyage, or the character of the article specified in the policy, the underwriter may be presumed to be apprised of a usage to carry it on deck, the policy will attach to it so carried (*q*). This appears very fairly to represent, if not the actual doctrine of the authorities, at all events the result of established principles.

The language of Rule 17 in Schedule I. of the Marine Insurance Act, 1906 (*r*), literally construed, does not alto-

given by Phillips, in which an insurance on "outfits and catchings" was held to cover "blubber" remaining on deck, to be "tried" according to the usage of the whale fishery. Here, as Phillips remarks, "there is an uniform usage to carry on deck, and also an indication by the description of the subject and the voyage, that the part of the subject in the form of 'blubber' is to be on deck": 1 Phillips, s. 460. In the two cases of Gould *v.* Oliver (1837), 4 Bing. N. C. 134, and Milward *v.* Hibbert (1842), 3 Q. B. 120, the point decided was, that goods carried on deck by the usage of trade are entitled, if jettisoned, to contribution in general average; but there is nothing in either case upon the point how far such goods are insurable under the general description.

(*p*) Per Lord Lyndhurst, C. B., in Blackett *v.* Royal Exch. Ass. Co. (1832), 2 Cr. & J. 250.

(*q*) 1 Phillips, s. 460 *ad finem*. Phillips considers that when an article is sometimes carried on deck, and sometimes in the hold, there is no usage to carry on deck of which the underwriter is bound to take notice. Da Costa *v.* Edmunds (1815), 4 Camp. 142, however, in which it appeared that vitriol was carried either on deck or below, is not consistent with this opinion.

(*r*) *Ante*, § 222.

Sect. 225.

gether agree with the foregoing statement, which is reproduced from the second edition of this work. It implies that deck cargo must be insured specifically, unless the usage be not merely to carry the cargo on deck, but to insure it when so carried under the general denomination. In a recent case, however, in the Court of Appeal (*s*), Lord Sterndale, M. R., and Atkin, L. J., expressed the view that the law has not been altered by Rule 17, although, as the latter said, the more natural meaning of the language of the Rule is that which has just been mentioned.

It has been doubted whether the rule that deck cargo is not in general covered by an insurance on "goods" has any application to inland voyages by river or canal (*t*); and inasmuch as the reason for the rule, viz., the increased hazard when goods are carried on deck, does not exist, the doubt seems to be well founded.

The produce of the whale fishery in whaling ships is covered by "goods" or "merchandise."

226. In whaling voyages the only cargo, properly so called, on board the ship, from first to last, is in general the homeward-bound cargo, consisting of the immediate produce and result of the fishing adventure; such proceeds, therefore, may be covered under the general designation of "goods and merchandise" (*u*).

Not so the outfit.

Outfit in such voyages principally consists of the apparatus and instruments necessary for taking fish, seals, &c., and the disposing of them when taken in such a manner as to bring home the oil, whalebone and other animal produce of the adventure. Outfit, therefore, in such a voyage cannot be considered as "goods" in any proper sense of that word; *i.e.*, as Lord Ellenborough defines it, "as part of the wares or cargo for sale laden on board the ship"; accordingly it cannot be recovered under a general policy on goods (*v*).

(*s*) Gaunt *v.* Brit. & Foreign Ins. Co., Ltd., [1920] 1 K. B. 903.
(*t*) Apollinaris Co. *v.* Nord Deutsche Ins. Co., [1904] 1 K. B. 252.
(*u*) Hill *v.* Patten (1807), 8 East, 373. So held also in the United States, in a case where the insurance was "on the cargo of a ship for a whaling voyage." Wolcott *v.* Eagle Ins. Co. (1827), 4 Pick. 429.
(*v*) Hill *v.* Patten (1807), 8 East, 373.

Sect. 227.

Nor live stock or provender.

227. It has been held in the United States that a general insurance on "cargo" will not cover provender taken on board for live stock, which constituted a great part of the cargo (*w*); nor will it cover the live stock itself (*x*).

Live stock must be specifically described.

With regard to live stock, the rule has been the same in this country; such interest being always, in fact, described specifically. Thus, where a general policy on goods was intended to cover live stock, the insurance was declared, at the foot of the policy, "to be on thirty mules, ten asses, and thirty oxen," &c. (*y*); and in another case, where a policy was effected "on goods, as per annexed statement, valued at 2,800*l.*," the horses insured were specifically valued in the statement (*z*). As we have seen, the Marine Insurance Act, 1906, declares that living animals must, in the absence of any usage to the contrary, be insured specifically (*a*).

General practice, when the cargo consists of few commodities, to specify.

228. Although the commodities already mentioned comprise the greater number of those which must be specifically designated in the policy, yet in practice, whenever the cargo consists of few commodities, or where the goods are valued by the hogshead, pipe, bale, &c., it is almost invariable to specify the commodities by name and number. This is generally done by writing at the foot or on the margin of the policy "on woollen goods," "on piece goods," "on one hundred tierces of coffee," "on twenty hogsheads of sugar," adding also the mark of each bale, cask, &c. (*b*); or it may be done by altering the valuation clause so as to meet the views of the parties.

(*w*) Wolcott *v.* Eagle Ins. Co. (1827), 4 Pick. 429, cited 1 Phillips, Ins. s. 452; and see Brown *v.* Stapyleton (1827), 4 Bing. 119.
(*x*) Wolcott *v.* Eagle Ins. Co., *supra*, cited 1 Phillips, s. 453.
(*y*) Lawrence *v.* Aberdein (1821), 5 B. & Ald. 107.
(*z*) Gabay *v.* Lloyd (1825), 3 B. & Cr. 793.
(*a*) Sched. I. r. 17, *ante*, § 222.
(*b*) De Symonds *v.* Shedden (1800), 2 B. & P. 153. In Brown *v.* Fleming (1902), 7 Com. Cas. 245, Bigham, J., held that a policy on "228 cases whisky" covered the labels on the bottles and the straw in which the bottles were packed.

Sect. 228.

When goods are specified the description must be accurate. "Hats" not covered by "piece goods."

It must be carefully borne in mind that, whenever the goods are specified in the policy, if no property of the assured be on board which fairly answers the description given, the policy will not attach (*c*). Thus, if an insurance be made on goods described in the policy as "piece goods," and by the invoice it appears that the goods really shipped were "hats," the underwriter will not be liable for any loss on the hats (*d*): so an insurance on tortoiseshell will not cover a loss on indigo, &c. (*e*).

Nor a manufactured article by the separate ingredients of it.

If an insurance purports to be effected on several ingredients, described *nominatim* in the policy, which enter into the composition of a manufactured article, such policy will not cover a loss on the manufactured article itself, which is a new product, and has a distinct appropriate name: thus, though oil and barilla both enter into the composition of soap, yet an insurance on oil and barilla will not cover a loss on soap (*f*). An insurance, however, effected on the raw material of a simple fabric, or utensil, into the composition of which no other ingredient enters to any extent, will, according to Emerigon, cover a loss on such fabric or utensil: thus, an insurance on "gold" or "silver" will, according to this doctrine, cover the loss of a gold cup or silver spoons (*g*).

(*c*) A clause providing that the assured should be held covered at a premium to be arranged in case of any incorrect definition of the interest insured, was held to protect him only where there was no intentional misdescription: Hewitt *v.* Wilson, [1914] 3 K. B. 1131; [1915] 2 K. B. 739; and see Hood *v.* West End Motor Car Packing Co., [1916] 2 K. B. 395; [1917] 2 K. B. 46. "Interest insured" in this clause means subject-matter insured, and not insurable interest: Hewitt *v.* Wilson, *ubi supra*.

(*d*) Hunter *v.* Prinsep (1806), per Sir J. Mansfield, 1 Marshall, Ins. 323.

(*e*) 1 Emerigon, c. x. s. 1, p. 294.

(*f*) 1 Emerigon, c. x. s. 3, p. 306.

(*g*) *Ibid.*, *ubi supra*. Maclachlan suspected "that this is a solitary instance of a peculiar *usus loquendi* as to the precious metals, and that it will not bear to be extended." Arnould, 6th ed. p. 30. There are few things, except metals, which can be restored to their original form; but Emerigon's distinction, which is derived from the Roman law of accession, is intelligible, and, if the principle be sound, is there any good reason for limiting it to the precious metals? Where a policy

Sect. 229.

Freight. Meaning of the word in insurance law.

229. The next subject demanding our attention is freight. The word freight in insurance law has a more extensive signification than in the general law of shipping, and is used comprehensively to denote "the benefit derived by the shipowner from the employment of his ship" (*h*).

Freight, strictly speaking, as between the shipowner and the freighter, is the price to be paid by the latter to the former for the carriage of goods in the ship, and is only payable on the arrival of the goods at their port of destination; but in policies of insurance it also denotes that which is less properly called freight, viz., the price agreed to be paid by the charterer to the shipowner for the hire of his ship, or a part of it, under a charter-party or other contract of affreightment (*i*), and also the benefit which the shipowner expects to derive from the carriage of his own goods in his own ship, in the shape of their increased value to him at the port of delivery (*k*). As Lord Tenterden observes with respect to the meaning of the term "freight," it is the same thing to the shipowner whether he receives the benefit of the use of his ship by a money payment from one person who charters the whole ship; or from various persons who put specific quantities of goods on board; or from persons who pay him the value of his own goods at the port of delivery, increased by their carriage in his own ship (*l*).

Definition of freight in Mar. Ins. Act.

Rule 16 in Schedule I. of the Marine Insurance Act, 1906, states that in the ordinary policy "the term 'freight' includes the profit derivable by a shipowner from the employment of his ship to carry his own goods or moveables (*m*), as well as

contained a warranty against more than a certain quantity of "iron cargo," the Court of Appeal held that the warranty applied to a cargo of steel blooms. Hart *v.* Standard Marine Ins. Co. (1889), 22 Q. B. D. 499.

(*l*) 1 B. & Ad. 48.

(*m*) "Moveables" means any moveable tangible property, other than

Sect. 229.

freight payable by a third party, but does not include passage money" (*n*). Both freight in the strict sense of the word and the price paid for the hire of a ship under a charter-party are no doubt covered by the words "freight payable by a third party."

Expected freight is a lawful subject of insurance in this country.

230. In whichever of these three senses the word is used, it has long been a clearly established principle in this country that expected freight is a lawful subject of marine insurance. "It would, indeed, be extraordinary," says Chambers, J., in Lucena *v.* Craufurd, "if freight could not be made the subject of protection by an instrument which had its origin in commerce, and was introduced for the very purpose of giving security to mercantile transactions; it is a solid substantial interest ascertained by contract, and arising out of labour and capital employed for the purposes of commerce" (*o*).

The party insuring must have an inchoate right to the freight.

As we shall see more at large hereafter, the party who insures freight must have an inchoate right to it, in order to entitle him so to insure; *i.e.*, he must be in such a position with regard to the expected freight that in the ordinary course nothing would prevent him from ultimately having a perfect right to it but the intervention of the perils insured against, or other maritime perils incident to the voyage (*p*).

If, by the perils of the sea, the shipowner is prevented from realizing that which, but for the intervention of those perils, he would have earned, it is but fair and reasonable that he should have the means of protecting himself, by a policy of marine insurance, against the loss he is thus exposed to. For this reason, in this country, in America, and now in most of the Continental states, the shipowner is allowed to effect

the ship, and includes money, valuable securities, and other documents: Mar. Ins. Act, 1906, s. 90.

(*n*) The definition of freight in the interpretation clause, s. 90, is literally the same.

(*o*) 3 B. & P. 102.

(*p*) The question when this inchoate right begins belongs to the subject of insurable interest, and is fully discussed under that head, *post*, § 265 *et seq.*

Sect. 230.

an insurance on that freight which he expects to earn, and which he may be prevented from earning by maritime perils.

French law.

231. The French legislature, proceeding rather on scholastic refinements than mercantile considerations, used to prohibit all insurance of expected or future freight (*q*), on the ground that expected freight is a mere contingency in which there is no present existing interest; that it is but a gain which the assured may miss making, not a property which he can risk losing. By a law of the 12th August, 1885, however, the law of France as to the insurance of expected gains has been completely altered, and the net freight (*le fret net*) is now insurable (*r*).

Advances on freight.

232. Sect. 12 of the Marine Insurance Act, 1906, declares that "in the case of advance freight, the person advancing the freight has an insurable interest, in so far as such freight is not repayable in case of loss." Therefore sums paid by the charterer or his agent as an advance of part of the freight are insurable by him in this country. The question that usually arises as regards payments by the charterer is whether the sum paid is an advance of freight (in which case it cannot be recovered back if the goods are lost on the voyage by excepted perils), or merely a loan which the shipowner must repay though no freight be subsequently earned; and this question usually depends, as we shall see hereafter, on the particular terms of the charter-party (*s*).

Contingency freight.

The owner of goods who, if they arrive sea-damaged, will still have to pay full freight for their carriage will, by reason

(*q*) "Fret à faire," Ord. de la Marine, tit. vi. art. 15. "Fret des marchandises existant à bord," former art. 347 of the Code de Commerce.

(*r*) See Code de Commerce, art. 334.

(1875, 1876), 1 App. Cas. 209; De Silvale *v.* Kendall (1815), 4 M. & S. 37; Manfield *v.* Maitland (1821), 4 B. & Ald. 582; Winter *v.* Haldimand (1831), 2 B. & Ad. 649; Wilson *v.* Martin (1856), 11 Ex. 684; Hicks *v.* Shield (1857), 7 E. & B. 633; 26 L. J. Q. B. 205; Williams *v.* North China Ins. Co. (1876), 1 C. P. D. 757; The Red Sea, [1896] P. 20, C. A.; Maclachlan, Merchant Shipping, 5th ed. pp. 575—577.

Sect. 232.

of the damage, lose in whole or in part the benefit which he would otherwise derive from the enhancement of the value of goods by their carriage to their destination. Sometimes cargo-owners protect themselves against such loss by a policy on "contingency freight," *i.e.*, the freight payable on the delivery of the goods (*t*); but the insurance in such case is not really one on freight. It is substantially one on an interest in the goods akin to an insurance on profits.

Freight may be insured for part of the voyage or time.

It was laid down by Lord Kenyon, at Nisi Prius, that freight could not be insured for part of the intended voyage (*u*); but this position, for which no ground of principle ever existed, was subsequently overruled by Lord Ellenborough and the Court of King's Bench, and it is now quite clear that freight, like any other subject, may be insured either for part or for the whole of the voyage or of the time over which it is likely to extend (*v*); indeed, it may perhaps be insurable even for a previous and independent voyage or period of time (*x*). A portion only of the freight at risk on a particular voyage may also be insured (*y*).

Freight must be insured *nominatim*.

233. Freight must be insured *eo nomine* in the policy, which is generally adapted to an insurance on this interest by inserting the words "on freight" at the foot or in the margin of the instrument (*z*).

(*t*) The policy usually contains a clause stating that "the freight insured under this policy being payable at port of destination, the amount shall be treated as an additional valuation of cargo, and this insurance is to cover only particular average on such additional value over and above the amount claimable in the usual way on the goods themselves." When no freight is payable in the event of the loss of the goods or ship, the assured has obviously no insurable interest in the "contingency freight" so far as total loss is concerned: see Kung *v.* Methuen (1907), 24 Times L. R. 145, C. A.

(*u*) Murdock *v.* Potts (1795). See 1 Marshall, Ins. 322; 2 Park, Ins. 634.

(*v*) Taylor *v.* Wilson (1812), 15 East, 324; Hall *v.* Brown (1814), 2 Dow, 367; Michael *v.* Gillespy (1857), 2 C. B. N. S. 627; 26 L. J. C. P. 306.

(*x*) See *post*, § 513.

(*y*) Griffiths *v.* Bramley-Moore, C. A. (1878), 4 Q. B. D. 70.

(*z*) Frequently the insurance is expressed to be on "freight chartered $\frac{\text{and}}{\text{or}}$ as if chartered, on board or not on board." See as to the meaning of this clause, per Lord Esher, M. R., in The Bedouin, [1894] P. 1, 12; the judgments in Williams *v.* Canton Ins. Office, [1901] A. C. 462; per Hamilton, J., in Scottish Shire Line, Ld. *v.* London & Provincial, &c. Ins. Co., [1912] 3 K. B. 51, 62. The words "as if chartered" do not cover expected freight not yet contracted for: *ibid.* p. 63. See also, as to the meaning of "on board or not on board," New York & Cuba Mail SS. Co. *v.* Royal Exch. Assn. (1907), 154 Fed. Rep. 315.

Sect. 233.

What is covered by the word "freight."

Such a policy would cover not only freight in its strictest acceptation, but also the chartered hire of the vessel (whether a gross sum for the whole voyage, or a fixed sum per month payable as long as the voyage lasts) (*a*), and the benefit derived by the shipowner from carrying his own goods in his own vessel (*b*).

Advance freight.

The charterer may insure advance freight—*i.e.*, money advanced by him to the shipowner under their agreement as part payment of the freight—specifically, *e.g.*, as "advances on account of freight," or "advances against freight" (*c*). It used to be thought that advances against freight at the time of loading could not be insured by the charterer simply as "freight"; the reason being that several eminent judges have said that such a payment is not freight (which is not earned until the goods are delivered), but money paid for taking the goods on board and undertaking to carry them (*d*). Arnould, however, thought that the charterer could insure advance freight *eo nomine* as freight, though it might be safer to insure it specifically; and his opinion is supported

(*a*) Etches *v.* Aldan (1827), 1 Man. & R. 157; *S. P.*, Clark *v.* Ocean Ins. Co. (1835), 16 Pick. 289. For an insurance of such monthly hire specifically as "chartered or hire moneys," see Manchester Liners *v.* British & Foreign Mar. Ins. Co. (1901), 7 Com. Cas. 26.

(*b*) Mar. Ins. Act, 1906, Sched. I. r. 16, *ante*, § 229. See Flint *v.* Flemyng (1830), 1 B. & Ad. 45, 48; Devaux *v.* J'Anson (1839), 5 Bing. N. C. 519.

(*c*) Wilson *v.* Martin (1856), 11 Ex. 684; 25 L. J. Ex. 217; Williams *v.* North China Ins. Co. (1876), 1 C. P. D. 757, 761.

(*d*) See Blakey *v.* Dixon (1809), 2 B. & P. 321; Winter *v.* Haldimand (1831), 2 B. & Ad. 649, 653, 658; Etches *v.* Aldan (1827), 1 Man. & R. 157; Kirchner *v.* Venus (1859), 12 Moore, P. C. C. 361, 390; per Blackburn, J., Allison *v.* Bristol Mar. Ins. Co. (1876), 1 App. Cas. 229.

Sect. 233.

by high judicial authority (*e*). Rule 16 in Schedule I. of the Marine Insurance Act, 1906 (*f*), does not profess to be exhaustive, and therefore it does not prevent the insurance of advance freight simply as "freight."

In a case before the Privy Council, where a charterer had insured an advance of freight by a policy on disbursements, it was not questioned that the subject of the insurance was properly described, and the assured recovered for a loss (*g*). It is not, however, the practice in this country to insure advance freight as disbursements. The owner of goods who has made an advance of freight sometimes insures the goods and the advance by the same policy, the amount of the insurance on the advance freight being expressly stated (*h*).

The charterer who carries goods on freight, or the owner who sells his ship, reserving the freight, may insure by a policy on freight.

234. It has been doubted in the United States whether a charterer who hires a vessel for a voyage at a certain rate per month, payable on completion of the voyage, can insure, under a general policy on freight, the freight payable to him for carrying the goods of other persons (*i*); and also whether such a policy will cover the interest of a party who has sold his vessel, reserving to himself a right to receive the freight for the voyage insured (*k*). The ground of this doubt is the same in both cases, viz., that the assured has not the same stake in the safety of the ship as though he were owner; and that the underwriters, when asked to insure freight generally, may presume that they are dealing with the owner of the ship. The objection, however, is not well founded; for the

(*e*) See Arnould, 2nd ed. p. 272; Allison *v.* Bristol Mar. Ins. Co. (1876), 1 App. Cas. 209; per Lord Chelmsford, p. 223; Lord Hatherley, p. 239; Lord O'Hagan, p. 251; *per cur.* Hall *v.* Janson (1855), 4 E. & B. 509; per Byles, J., Trayes *v.* Worms (1865), 19 C. Sect. 234.

charterer or former owner must be regarded as owner *pro hâc vice*, having as much interest in the ship's arriving so as to earn freight as the owners would have if insured to the full value of the freight to be earned (*l*).

Passage money. At common law no liability when ship lost to forward passengers.

235. In some respects similar to freight, in others very different, is our next subject of insurance—passage money (*m*). It differs from freight in point of practice, if not of principle, by a very important usage that requires it to be paid before sailing. Yet "no liability is by the common law thrown upon the owner or master of a ship, if the ship be lost, to forward passengers to their place of destination. Nor usually is there any obligation to do this imposed by the actual contract between the parties" (*n*). A passenger who has paid his passage money under these conditions has an insurable interest analogous to that of the merchant upon freight paid in advance.

Statutory liabilities.

The law has been materially altered by statute; and it is now in many cases the duty of the owner, charterer, or master of a ship to have the passenger carried to his destination even when the vessel is lost (*o*). The Merchant Shipping Act, 1894, expressly provides that no insurance in respect of any steerage passage or of any steerage passage or compensation money which any person is by the Act made liable to provide or pay, or in respect of any other risk under Part III. of the Act, shall be invalid on account of the nature of the risk or interest insured (*p*).

(*l*) See 1 Phillips, ss. 339, 480. For insurances by a charterer of his expected profit on subletting the ship, see *post*, § 239.

(*m*) See, generally, Maclachlan on Shipping, c. vii. *Passengers*. The insurability of passage money is recognized in s. 3 (2) (b) of the Mar. Ins. Act, 1906, *ante*, § 1.

(*n*) Per Lord Campbell, C. J., in Gibson *v.* Bradford (1855), 4 E. & B. 586, 589; 24 L. J. Q. B. 159, 160; Gillan *v.* Simpkin (1815), 4 Camp. 241. If, however, the ship be lost before the voyage commences, the passenger is entitled at common law to recover the passage money, as for a total failure of consideration: per Gibbs, C. J., Gillan *v.* Simpkin (1815), 4 Camp. 241.

(*o*) Merchant Shipping Act, 1894, ss. 331—335. The Act repealed the Passenger Acts then in force.

(*p*) Merchant Shipping Act, 1894, s. 335.

Sect. 235.

Under a policy against all costs, charges and liabilities to which the owner or charterer might be subjected under sections 46, 47, 48, 49, 50 and 51 of the repealed Passengers Act, 15 & 16 Vict. c. 44, the owner recovered against the underwriter for money expended in forwarding the passengers to their ultimate port from New Providence, off which place the vessel in the course of her voyage had been totally lost (*q*). A year after, under another policy "on passage money of emigrants, to pay a loss *pro rata* subject to (the same clauses almost as in the foregoing case) and against these risks only," the owner sought to recover the money spent in provisions for the emigrants during six weeks' stay at Fayal whilst the ship was being repaired after sea damage, and failed in his suit simply because his obligation to maintain the passengers during the detention was imposed by a section not included in the policy (*r*).

Passage money is not covered by a policy on "freight," unless the context of the particular policy necessitates a different construction (*s*). A ship was partly laden with goods, and also carried a number of coolies whose passage money was only payable on arrival. The shipowner took out a policy on freight, the risk to attach "from the loading of the said goods or merchandise on board the said ship." It was contended, but not established, that by the custom of the particular trade freight included passage money. In this state of facts, and on the construction of the policy, the Court of Common Pleas held that the freight of the merchandise only was insured (*t*).

Insurance on profits.

236. Insurances on expected profits are lawful in this country (*u*) and in the United States, and are in general

(*q*) Gibson *v.* Bradford (1855), 4 E. & B. 586; 24 L. J. Q. B. 159. See New Zealand Shipping Co. *v.* Duke, [1914] 2 K. B. 682, for a modern form of policy covering disbursements on account of passengers.

(*u*) See Mar. Ins. Act, 1906, s. 3 (2) (b), *ante*, § 1.

Sect. 236.

expressly allowed by the commercial codes of the Continental States (*x*). For the same reasons which led to the prohibition of insurances on freight, the law of France forbade insurances on expected profits (*y*); but the law of the 12th August, 1885, introduced a more liberal rule, and profits are now insurable in France (*z*).

Principle upon which they are insurable, as expressed by Lawrence, J.

The grounds upon which profits are insurable are expressed with admirable force and clearness in the following passage from Lawrence, J.'s, judgment in the case of Barclay *v.* Cousins. "As insurance is a contract of indemnity, it cannot be said to be extended beyond what the design of such species of contract will embrace, if it be applied to protect men from those losses and disadvantages which but for the perils insured against the assured would not suffer; and in every maritime adventure the adventurer is liable to be deprived, not only of the things immediately subjected to the perils insured against, but also of the advantages to be derived from the arrival of those things at their destined port. If they do not arrive, his loss is not merely that of his goods . . ., but of the benefits which, were his money employed in an undertaking not subject to the perils, he might obtain without more risk than the capital itself would be liable to: and if when the capital is subject to the risks of maritime commerce it be allowable for the merchant to protect that by insuring it, why may he not protect those advantages he is in danger of losing by their being subjected to the same risks? It is surely not an improper encouragement of trade to provide that merchants, in case of adverse fortune, should not only not lose the principal adventure, but that that principal should not, in consequence of such bad fortune,

(*x*) See the Codes of Holland, art. 593; Spain, arts. 743, 748; Germany, art. 779; Russia, art. 545; Scandinavia, art. 230; Belgium, art. 191.

(*y*) See 1 Emerigon, c. viii. s. 9, pp. 236—239, and the former art. 347 of the Code de Com.

(*z*) Code de Com. art. 334. In Spain and Denmark, also, profits were formerly uninsurable, but in those countries also the law has been altered. See the Spanish and Scandinavian Codes, *ubi supra*.

Sect. 236.

be totally unproductive; and that men of small fortunes should be encouraged to engage in commerce by their having the means of preserving their capitals entire" (*a*).

Such are the principles upon which insurances on expected profits are allowed in this country.

Profits may be insured either in valued or open policies. The assured must prove that some profit would have been made.

237. Profits may be insured equally by valued and by open policies (*b*); but, whether insured by one or the other, the assured cannot recover unless he prove that but for the intervention of the perils insured against some profit would in fact have been realized by the sale of his goods on arrival (*c*).

The ordinary policy does not cover loss of profits on goods not shipped.

238. He must also, said Arnould, prove that the goods from the sale of which the profits were expected to arise were at one time or other actually exposed to the perils of the sea (*d*). It was so held in one case, where the policy was in the ordinary form, with the term "beginning the adventure from the loading of the goods" (*e*); but the Court admitted in that case, and in the later case of Halhead *v.* Young (*f*), that by a properly framed policy the assured may protect himself against a loss due to the happening of some event before shipment of the goods.

McSwiney *v.* Royal Ex. Ass. Co.

The facts in McSwiney *v.* Royal Exchange Assurance Co. were as follows. McSwiney, who had bought 6,000 bags of rice to arrive from Madras by the ship "E. B." before the end of May, effected an insurance at and from Madras to London on profit on rice loaden on or to be loaden on the

(*a*) Per Lawrence, J., delivering the judgment of the Court in Barclay *v.* Cousins (1802), 2 East, 544.

(*b*) Eyre *v.* Glover (1812), 3 Camp. 276; 16 East, 218.

(*c*) Hodgson *v.* Glover (1805), 6 East, 316; Eyre *v.* Glover, *supra*. The law is different in the United States. See Patapsco Ins. Co. *v.* Coulter (1830), 3 Peters' Supreme Court R. 222; 1 Phillips, Ins. s. 318. It is there a conclusive presumption that some profit would have accrued had the goods arrived, and upon this the valuation in the policy attaches. 1 Parsons, Ins. 194, 195.

(*d*) 2nd ed. p. 255; 6th ed. p. 38.

(*e*) McSwiney *v.* Royal Exchange Ass. Co. (1849), 14 Q. B. 634; *S. C.*, in error (1850), *ibid.* 646.

(*f*) (1856), 6 E. & B. 312; 25 L. J. Q. B. 290.

Sect. 238.

"E. B." When 1,200 bags were on board, the other 4,800 bags being ready to be shipped, the "E. B." was disabled by perils of the sea and prevented from performing the voyage, and the rice on board was spoiled. McSwiney's purchase thus became inoperative. The policy was in the ordinary form, and the adventure was to begin from and after the loading on board. The Exchequer Chamber held that the policy only attached to the rice which was on board, and also that the losses insured against were only losses by perils of the seas directly affecting the goods and consequently the profits on the goods. Therefore, even if the rice on shore had been covered by the policy, the loss of profit on such rice was not caused by a peril of the seas within the meaning of the policy (*g*). The Court, however, said: "We have no doubt that the plaintiff might have recovered, in the events which have happened, a total loss, if he had been insured by a policy properly adapted to the case, and so drawn as to cover his special interest from the time that the rice was appropriated by the vendors and ready to be shipped at Madras, and also to assure him against losses of the expected profits, not merely by the loss of all the rice by perils of the seas, but by the loss of any part of it, or the loss of the ship, or delay of the voyage beyond the month of May; in any of which contingencies this special interest in profits would have been entirely defeated" (*h*).

Opinion of Court that profits are insurable before goods shipped.

Halhead *v.* Young.

H. contracted to buy a cargo of timber at Quebec, and chartered a ship then on her way to New York to proceed thence to Quebec and take the cargo to Liverpool. He effected a policy "on profit on cargo" for a voyage from New York to Quebec and thence to Liverpool, beginning the adventure from the loading of the goods. The ship was lost between New York and Quebec; in consequence of which the cargo which was ready at Quebec could not be shipped during the shipping season, and the plaintiff lost his profit. The Court of Queen's Bench held that the policy had not

(*g*) McSwiney *v.* Royal Exchange Assurance (1849), 14 Q. B. 634, 646.

(*h*) 14 Q. B. 660. Cf. Wilson *v.* Jones (1867), L. R. 2 Ex. 139.

Sect. 238.

attached; but they were of opinion that where the profits of a purchaser of goods depend on the contingency of a particular ship carrying them on a particular voyage a policy might be framed to indemnify him for a loss of profits caused by the ship being lost before she reaches the port of loading (*i*).

Profits on cargo are sometimes insured by a policy with a clause "to pay on non-arrival of the cargo at its destination," to which sometimes the words "in such ship" (*i.e.*, the ship in which they are intended to be carried) are added (*j*).

Profits on charter.

239. A charterer who enters into a sub-charter or contracts to carry goods in the ship may insure his expected profit, which is properly described as "profit on charter" (*k*), or "difference of freight" (*l*).

Profits from use of ship.

Whether a shipowner can insure the profit which he expects to make by the use of his ship is a question which has not been determined (*m*). In a case where the plaintiff contended that the benefit to be derived from the use of a ship is insurable, although there be no actual contract for freight, Walton, J., agreed that a shipowner has an interest in the use of his vessel, and may insure against loss through

(*i*) Halhead *v.* Young (1856), 6 E. & B. 312; 25 L. J. Q. B. 290. In this case an attempt was made by parol evidence to set up a different risk from that which was expressed in the policy, but it failed.

(*j*) In Wyllie *v.* Povah (1907), 12 Com. Cas. 317, the clause without the words "in such ship" was adopted. The ship became a total wreck in the course of the voyage; but the goods were carried to their destination in another ship, and tendered to the assured, the purchasers, who refused to accept them as they seem to have been entitled to do under the contract of sale. Pickford, J., held that they could not recover.

(*k*) See Asfar *v.* Blundell, [1895] 2 Q. B. 196; C. A., [1896] 1 Q. B. 123, for the nature of such an insurance.

(*l*) See Smith *v.* Fenning (1898), 3 Com. Cas. 75. The contract was "to pay a total loss in the event of the steamer being unable to fulfil her charter, through inability to load by November 20," and Kennedy, J., held that the assured could not recover where a part-cargo had been loaded before that date.

(*m*) It is clear that he cannot insure such profit as "freight" unless he has entered into a binding contract for freight: see *post*, § 269.

his being deprived of such use by perils of the sea, or other causes (*n*). Sect. 239.

240. A party may also insure the sums which he is to receive by way of commission on the sale of merchandise; and if the merchandise from the sale of which such commissions were to arise was only prevented from arriving at the place of sale by the perils insured against, the assured may recover to the extent of his loss (*o*). Commissions.

It was held in 1809 that the goods from the sale of which the commissions are to arise must also have been on board at the time of the loss (*p*). There is, however, a close analogy between profits and commissions; and it is submitted, on the authority of the later cases relating to the insurance of profits, that on a properly framed policy the assured may recover although the goods were not on board at the time of the loss, provided that he had an insurable interest.

The commission or brokerage which a ship's husband or shipbroker expects to earn under a binding contract can, no doubt, be insured if the earning thereof is liable to be prevented by maritime perils affecting the ship (*q*).

241. Profits and commissions to arise from the sale of goods are really an interest in the goods themselves, and in one sense an insurance on them is an insurance on goods (*r*). It is, however, well established that such profits or commissions are not covered by a policy on *goods* or *merchandise;* Profits and commissions must be specifically named.

(*n*) Manchester Liners *v.* British and Foreign Mar. Ins. Co. (1901), 7 Com. Cas. 26, 33. See also per Mathew, J., in Lawther *v.* Black (1900), 6 Com. Cas. 5, 8, and *post*, § 288.

Sect. 241.

they must be specifically named (*s*). This rule is absolute in England (*t*). In the United States it appears to have been held that "a right to a certain percentage, proportion, or share of a cargo as commissions or profits is covered by a policy on 'property'" (*u*).

Lloyd's form of policy is adapted, as usual, by insertion of the words *profits* or *commissions* in the margin; or in the valuation clause, adopting or adapting the language of the clause according as the subject of the policy is valued or not (*x*).

Bottomry and respondentia loans.

242. Loans on bottomry and respondentia, though themselves a species of insurance, may yet be the subjects of insurance, inasmuch as they are an interest exposed to risk from the perils of the sea (*y*).

Who can insure them.

Sect. 10 of the Marine Insurance Act, 1906, declares that "the lender of money on bottomry or respondentia has an insurable interest in respect of the loan." The lender alone can insure the sum advanced: the nature of the contract shows this. The condition of the bond is that if the ship perishes the borrower is to pay him nothing; if it arrives safely he pays the capital and the maritime interest. The lender, therefore, risks his capital and interest, and may consequently insure them (*z*). Where the loan is made repayable in any event, the lender cannot insure it as a bottomry loan (*a*).

(*s*) So resolved by all the judges in Lucena *v.* Craufurd (in Dom. Proc.) (1806), 2 B. & P. N. R. 315; Anderson *v.* Morrice (1875), L. R. 10 C. P. 609, 622, 624. For the reason see Mackenzie *v.* Whitworth (1875), 1 Ex. D. 36, 43. See, however, Buchanan *v.* Faber (1899), 4 Com. Cas. 223; *post*, "Disbursements," § 246.

Sect. 242.

The borrower clearly cannot insure the sum advanced, for the risk of its loss does not fall upon him, and as in case of loss of the ship he would have nothing to pay the lender, were he to receive the whole sum insured from the underwriters he would have a direct interest in the destruction of the vessel (*b*).

The law in France.

In France, though the capital lent on bottomry was insurable, the maritime interest which the lender on bottomry is to receive on the prosperous termination of the voyage used not to be, on the ground, as Pothier expresses it, that such interest is a gain, which the lender will miss making if the ship perishes, and not a loss by the perils of the sea (*c*). Now, however, the maritime interest (*le profit maritime*) is insurable in France as well as the sum lent (*d*).

In this country and the United States.

In this country, and also in the United States, a more liberal practice has always prevailed, and both bottomry and respondentia interest have always been lawful subjects of insurance.

Respondentia and bottomry loans must be specifically insured.

243. It has always been said that respondentia and bottomry loans must be specifically described in the policy; they cannot be insured under the general denomination of goods. Lord Mansfield based this rule on the custom of merchants (*e*); but Kent, J., has also suggested, as a reason for the rule, "that the risk is peculiar, as there is neither average nor salvage; and a capture does not mean a temporary taking only, but one that occasions a total loss" (*f*). It is doubtful whether the latter ground can now be con-

Sect. 243.

sidered sufficient; but, notwithstanding sect. 26 (2) of the Marine Insurance Act, 1906, on the ground of usage it will apparently still be necessary, by reason of sect. 26 (4), to insure bottomry and respondentia loans specifically (*g*).

Unless there be a usage to the contrary.

Yet if it can be shown to be the usage of any particular course of trade to insure these interests under the general words, they may be recovered under a policy containing such words only. Thus, on the ground of such a custom of the East India trade, an East India captain was permitted to recover, at respondentia interest, money he had laid out for the use of the ship, under the general words "goods, specie, and effects on board" (*h*).

The specific description should be true.

Of course, if the instrument of hypothecation be not in law what it is described in the policy to be, the policy is invalid. The Court of Common Pleas, therefore, upon the construction of such an instrument, being of opinion that it was not a bottomry bond, because it made the lender's claim under it depend, not on the arrival of the ship, but on the arrival of the master, held that the lender could not recover under a policy "on bottomry" (*i*). The Court of King's Bench, in error, admitted that, had the Court of Common Pleas been correct in their construction of the instrument, the policy as framed would not have covered the interest of the lenders (*k*).

Stainbank v. Fenning.

The master of a ship borrowed money in a foreign port for necessary repairs and disbursements, to secure which he drew bills on his owner, and executed what purported to be an hypothecation of ship, cargo, and freight. By this instrument the lender forbore all interest beyond the amount necessary to insure the ship and cover the advances; and the master took upon himself and his owner the risk of the voyage, making the money payable at all events, and subjecting the ship to seizure and sale in the event of the bills being refused acceptance or dishonoured. The Court held, that as this was

Sect. 243.

not such an hypothecation as would be enforced by the Court of Admiralty, the merchant had no insurable interest in the ship (*l*). The interest was described in this policy as "1,500*l*. advances for repairs and disbursements, the whole valued at 1,675*l*., including premiums of insurance." *Semble* that this was not a good description whether the insurance was to be taken as on the ship in respect of the advance, or on the debt (*m*).

Seamen's wages formerly not insurable. The maritime law of England.

244. Seamen have been debarred by the laws of most, if not of all, maritime states from insuring their wages, the reason being the belief that such an insurance might tempt them in time of danger not to exert themselves to the utmost for the preservation of the ship. By the law of England it was an implied condition of the seaman's contract with the shipowner that his wages were dependent on the earning of freight by the ship. This rule was generally expressed by saying that freight is the mother of wages. Therefore, when a ship was lost in the course of a voyage, the seaman was usually a loser to the extent of the wages already earned by him, and also (except when he obtained another ship) in respect of the wages which he would have earned during the remainder of the voyage. Yet, on grounds of policy, as has just been said, the insurance of his wages, or of any commodities which he was to receive at the end of the voyage in lieu of wages, was not permitted (*n*).

The Merchant Shipping Acts.

The law relating to the earning of wages was altered by the Merchant Shipping Act, 1854. Wages are no longer dependent on freight being earned, and seamen are now

Sect. 244.

entitled, in the event of the ship being lost, to be paid their wages until the time of the loss (*o*). Thus the loss of the ship cannot now be the immediate cause of a loss of wages already earned. Such loss of wages can only be directly due to the inability of the shipowner to pay his debt to the seaman; but indirectly it may be caused by the loss of the ship, as the seaman's lien on the ship for his wages may become valueless (*p*). But the loss of the ship may still involve a loss of the wages which the seamen would have earned during the remainder of the voyage, or of the period of time for which they were engaged.

Wages are now insurable.

In a previous edition of this work (*q*), Maclachlan raised the question whether, as a result of the alteration in the law made by the Merchant Shipping Act, 1854, seamen's wages became insurable. It is, however, unnecessary to repeat his arguments, which the present editors did not think convincing; for when the Marine Insurance Act, 1906, was passed there was a consensus of opinion that seamen should be allowed to insure their wages, and sect. 11 declares that "the master or any member of the crew of a ship has an insurable interest in respect of his wages" (*r*).

Goods purchased by seamen with their wages.

Even when they were debarred from insuring their wages, seamen were allowed to insure any goods which they might have purchased with their wages and shipped on board (*s*).

Goods they are privileged to carry (United States).

So it has been held in the United States that a mariner, who has the privilege of carrying a certain quantity of goods, may insure them (*t*).

(*o*) 17 & 18 Vict. c. 104, ss. 183, 184; repealed by the Merchant Shipping Act, 1894, and therein re-enacted by ss. 156, 157.

(*p*) The seaman retains his lien on the wreck (The Neptune (1824), 1 Hagg. Ad. 239); but he has no claim for his wages out of the owner's insurance on the lost vessel. The Lady Durham (1835), 3 Hagg. Ad. 196.

(*q*) 6th ed. p. 44.

(*r*) In France seamen's wages have been insurable since the Law of 1885 (Code de Com. art. 334), and they are also insurable in Belgium (Code, art. 191).

(*s*) 1 Emerigon, c. viii. s. 10, 240; 1 Park, 11.

(*t*) Galloway *v.* Morris (1802), 3 Yeates, R. 445.

Sect. 245.

245. All that has been said of the crew's wages applied to all officers of lower rank than the master, *e.g.*, the mate (*u*).

The master's wages and commissions insurable.

The master, however, was regarded as a person of too much trust and character to be rendered indifferent to the fate of the adventure merely by having secured his own interest in it. He was, therefore, allowed to insure his wages, or his commissions, or any interest he might have in the vessel as part owner (*x*); and his right to insure his wages is, as we have seen, affirmed in sect. 11 of the Marine Insurance Act, 1906 (*y*).

Master's effects.

The master may insure his personal effects; they must, however, be specifically mentioned, and are not protected by a policy on goods (*z*).

Seamen's effects.

There is no decision as to the insurability of seamen's effects; but it is impossible to suppose that the prohibition against insuring wages, which the Legislature has removed, would now apply to personal effects, especially as it was conceded that seamen might insure merchandise on board belonging to them (*a*).

(*a*) After seamen's wages, Arnould in the 2nd edition (vol. i. p. 259) dealt with slaves as a subject of insurance. He mentioned that the practice of insuring slaves as articles of traffic was prohibited in this country in 1806 by 47 Geo. 3, c. 36, s. 5. They must therefore, he said, be more properly classed with those subjects the insurance of which is prohibited by the positive laws of our own country than with those which in their own nature are not insurable. Although the practice required to be suppressed by a positive prohibition, and when he wrote was still permitted in other states, "it will yet be allowable in writing, as an Englishman to Englishmen," he said, "to consider the statute which exterminated the practice as a mere affirmation of the law of nature, and to declare that a man, whatever be his race or colour, cannot, from the nature of things, be made the subject of insurance as an article of merchandise."

Sect. 246.

Disbursements.

246. In modern times "disbursements" have become a common, and important, subject-matter of insurance. Inasmuch, however, as the policies are usually "honour" or "p. p. i." policies, and for an agreed valuation, they have given rise to comparatively little litigation, and there is consequently a dearth of legal decision as to what items of loss are properly recoverable thereunder. In its ordinary sense, a disbursement means an expenditure of money. In this sense it may be said that all expenditures the benefit of which will be lost, or the object of which will be frustrated, by marine perils would be properly covered by a "disbursement" policy, and these alone (*b*). But inasmuch as money expended cannot be itself at risk, this statement is probably subject to the qualification that a disbursement, to be insurable, must be represented by some interest in the tangible property at risk, *i.e.*, in the ship or the property on board (*c*). Yet it was

Ordinary meaning of "disbursements."

Meaning of term

(*b*) Where a charterer who had made an advance of freight for the ship's purposes protected himself by a policy on disbursements, it was not disputed that the subject was properly described, and the assured recovered. Currie *v.* Bombay Native Ins. Co. (1869), L. R. 3 P. C. 72. It is not, however, usual to insure advance freight as disbursements. For an instance of an insurance on disbursements made to cover an expenditure on coal, engine-room stores, provisions and port charges, see Roddick *v.* Indemnity Mutual Marine Ins. Co., [1895] 1 Q. B. 836; 2 Q. B. 380. The editors have been informed that in some trades when a ship has sustained damage and been repaired, it is usual for the assured to effect a policy on "disbursements" against total loss only, in respect of the repairs, for the benefit of his underwriter, who invariably pays the premium.

(*c*) See Moran *v.* Uzielli, [1905] 2 K. B. 555. In that case the plaintiffs, who were agents for a foreign ship, the owners of which were indebted to them for advances for her necessary disbursements, effected a policy "on disbursements" for a voyage of the ship to this country. It was admitted that the plaintiffs' interest, if insurable, was sufficiently described, and Walton, J., held that as the plaintiffs had a right to enforce their claim for advances by an action *in rem* and the arrest of the ship, they had an insurable interest and could recover to the extent of the advances. On the other hand, where the managing owner of a British ship, who had no lien on her, insured the amount of the company's indebtedness to him by policies or disbursements, Lord Shaw said that any payments made under these insurances would not be payments made to indemnify him for loss, but would be of the nature of presents: Thames & Mersey Mar. Ins. Co. *v.* "Gunford" Ship Co., [1911] A. C. 529, 542. In Price *v.* Maritime Ins. Co., [1901] 2 K. B. 412, the

Sect. 246.

stated by Bigham, J., that the term is used at Lloyd's in a sense which in some respects is undoubtedly wider, and in other respects is probably narrower, than the meaning now suggested. The learned Judge said that it was a "compendious term commonly used to describe any interest which is outside the ordinary and well-known interests of 'hull,' 'machinery,' 'cargo,' and 'freight,'" and that it would cover the commission and brokerage which the managing owners and insurance brokers of a ship expected to earn in the future (*d*). Expected commission and brokerage, however, can clearly in no sense be said to be expenditures; therefore, if the learned Judge be correct, disbursements must in this case be used in a wider sense than the ordinary meaning of the word. On the other hand, the learned Judge intimated that the term does not include all expenditures, but only such as are not covered ordinarily by insurances on hull, machinery, cargo, and freight. In this respect the meaning of the word is limited by the learned Judge to something less than its ordinary meaning.

according to Bigham, J.

Object of disbursement policies.

247. As a matter of fact, however, policies on disbursements are largely used in practice to insure that the shipowner may recover additional sums in respect of his adventure beyond the amount covered by his insurances on ship and freight; and irrespective of any particular items of expenditure or obligation (*e*). Such insurances are probably always made against total loss only. Thus the object of the assured is in reality to increase the insurance on the ship without increasing the valuation in

plaintiffs who had advanced money to the master of the ship on the security of the ship and freight, effected a policy "on advances in the ship or vessel C."

(*d*) Buchanan *v.* Faber (1899), 4 Com. Cas. 223.

(*e*) See Thames & Mersey Mar. Ins. Co. *v.* "Gunford" Ship Co., [1911] A. C. 529; Gow, Mar. Ins. 232. In the case of steamship, according to Mr. Gow, the policies are usually on time, and, as he points out, a time policy on disbursements can scarcely be intended to insure any real interest in disbursements.

Sect. 247.

the policies (*f*). The question has been raised—What is the real subject-matter of insurance in a disbursement policy? The answer to this inquiry is attended with some difficulty, especially when it is sought to give a special or customary meaning to the word. It can only be proved that a word has an extraordinary or technical meaning in a particular trade or business by calling experts engaged in such trade or business to give evidence that such peculiar meaning has become well recognized and established by general usage. But inasmuch as nearly all disbursement policies are valued, and contain the "p. p. i." clause, whereby the underwriter agrees that he will not contend that the assured has no interest in the thing insured (in effect that he will pay the amount at which the disbursements are valued without any inquiry as to the nature of the claim), it is difficult to see that there can be scope for sufficient controversy on the subject in business circles to establish a technical meaning which our Courts would recognize.

Difficulty in establishing a technical meaning of "disbursements."

Usually policies on disbursements are expressed to be free of average or against total loss only. In the case of Lawther *v.* Black (*g*), the question, what is covered by a policy on disbursements "warranted free from all average," was considered by Mathew, J. The assured maintained that he intended by such a policy on a voyage to South America to insure the profits which he expected to realize from the homeward voyage of the ship. The underwriter maintained that a policy on disbursements, warranted free from all average, is, by custom, an extra insurance on the ship against total loss only, and he called witnesses to prove the alleged custom. As regards the contention of the assured, the learned judge said that it would be a straining

Policy on disbursements against total loss only.

Lawther v. Black.

(*f*) The club insurances on freight are partly of a similar nature. It is commonly provided that in the event of the loss of the ship the amount insured shall be deemed the shipowner's interest at risk, and that he shall be paid such amount whether the ship be laden, in ballast, or under a time charter. Such an insurance seems to be a wager policy: see *ante*, § 81, note.

(*g*) (1900), 6 Com. Cas. 5; affirmed on appeal, *ibid.* 196.

Sect. 247.

of language to say that the policy covered the expectation of profit to be earned on the homeward voyage, though he was not prepared to say that such an interest could not be protected by a properly worded policy. He also declined to find that the meaning which the underwriters said the term disbursements had acquired by custom had been proved by the evidence. He then proceeded to consider a list of disbursements which the assured had produced, covering stores, port dues, dry dock and painting expenses, rope-maker's accounts, and the cost of insurance. A part of this expenditure, as the learned Judge pointed out, was represented either by stores or by the enhanced value of the ship. The ship had not been lost, and there was no clear evidence as to what had become of the stores and outfit. He therefore held that there had not been a total loss of the items mentioned in the list of disbursements, and that the assured could not recover.

Shipowner's policy on disbursements.

The decision is thus, to some extent, an authority for the proposition that a policy on disbursements by a shipowner covers all expenditures of money incurred in equipping the ship, or for other purposes of the voyage. On this point it agrees with the view expressed in a later case by Walton, J. In the case of an ordinary shipowner's policy, said the learned Judge, "the disbursements represent expenditure by the shipowner either on his ship, or for the purpose of earning his freight, and such policies are in the nature of insurances of the shipowner, either upon his ship or upon his freight" (*h*). If this be the proper construction of a policy on disbursements, there are some peculiarities of the insurance which deserve notice. An expenditure on repairs or permanent fittings is represented by some part of the value of the ship at the beginning of the voyage; an expenditure on stores may be represented by stores on board at the time of the loss, which are covered in a policy on the body, tackle, &c. of the ship in the common form, but perhaps not

(*h*) Moran *v.* Uzielli, [1905] 2 K. B. 555, 558.

Sect. 247.

in a policy on hull and machinery only (*i*). Other items, again—such as payments in respect of port charges—will be ultimately defrayed out of freight; and therefore, if there be some freight at risk which is covered by insurance, these items are also indirectly covered by the policies on freight. The result is, that there may often be in fact, though not in form, a double insurance—*i.e.*, where the ship and freight are already fully covered by the ordinary policies on ship and freight (*k*). This was said to be the result in the case

(*i*) See *ante*, § 220.

(*k*) A difficult question which arises on these disbursement policies against total loss only is as to the meaning of the term "total loss." The question does not admit of a satisfactory answer, because it is at present quite uncertain what is covered by the term "disbursements." Underwriters maintain that by total loss is meant "total loss of the ship," and the loss under a policy on disbursements is frequently expressed to be payable only in case of the actual or constructive total loss of ship. *Primâ facie*, total loss must mean total loss of the thing insured. If the thing insured be not the ship as a whole, but that part of the value of the ship to its owner which represents the expenditure, this construction seems to be inadmissible, unless it be proved that the words "total loss" in a policy on disbursements have acquired a well-known technical meaning which limits the right of the assured to recover to cases where the ship itself has been lost. If the intention of the parties (assuming that it can be carried out by a policy on disbursements) is to effect an extra insurance on the ship, "total loss" may well mean total loss of the ship. In Lawther *v.* Black, as we have seen, the underwriter brought forward evidence of a custom under which a disbursement policy, when against total loss only, is understood to be on the ship; but Mathew, J., did not find it necessary to decide whether the evidence established the alleged custom. Sometimes, as in Moran *v.* Uzielli, *supra*, the policy is expressed to be on disbursements against the risk of total loss of ship only. For a clause providing that a total loss paid by underwriters on hull and machinery should constitute a total loss under a policy on disbursements, see Andersen *v.* Marten, [1907] 2 K. B. 248. The question, what is covered by a disbursement policy against total loss only, arose in the United States, in International Nav. Co. *v.* Atlantic Mut. Ins. Co. (1900), 100 Fed. R. 304. Brown, D. J., after hearing evidence on this question, held that such a disbursement policy was not "another insurance upon the premises aforesaid" within the meaning of a policy on the ship against partial, as well as total, loss: affirmed on appeal (1901), 108 Fed. R. 988. Cf. Brown *v.* Merchants' Mar. Ins. Co. (1907), 152 Fed. R. 411, in which the Circuit Court of Appeals held that the underwriters of a policy against total loss only on "disbursement $\frac{\text{and}}{\text{or}}$ increased value," who had paid for a total loss, were

Sect. 247.

of The Gunford (*l*), where the vessel was insured on a valuation on ship, largely in excess of the amount which could have been recovered on an open policy, and the freight was insured on a valuation exceeding its gross amount. The owners had in addition effected a valued honour policy on disbursements for 4,600*l.*, and they produced a list of the payments on account of which they sought to justify this insurance. "So far as these payments consisted of current working expenses necessary to earn freight," said Lord Robson, "they were covered by the insurance on the gross freight, and so far as they consisted of repairs, outfit, and insurance premium on hull, they would ordinarily be included in the policy on ship and materials. This policy was therefore an over-insurance by double insurance. The plaintiffs could not legally avail themselves of it to enforce recovery of any sum in excess of the indemnity allowed by law" (*m*).

Miscellaneous subjects of insurance.

248. There is sometimes a difficulty in accurately describing the subject of the insurance, and yet substantial accuracy is requisite in every case where a specific description is necessary.

A policy on "bills of exchange" will not cover instruments not legally bills.

The case of Palmer *v.* Pratt is an extreme illustration of the degree of accuracy at one time required in this respect. The policy was effected "upon any kind of goods and merchandise," &c. in the common printed form, for a voyage from London to Calcutta, and the insurance, by a memorandum on the face of the policy, was declared to be "on two bills of exchange": as, however, it appeared that the supposed bills were drawn on a contingency, being made payable at thirty days after the ship's arrival at Calcutta,

entitled to share with the insurers on ship in a fund recovered in a collision suit.

(*l*) Thames & Mersey Mar. Ins. Co. *v.* "Gunford" Ship Co., [1911] A. C. 529.

(*m*) [1911] A. C. at p. 549. See also Lord Alverstone's judgment, *ibid.* pp. 535, 536. Lord Shaw condemned disbursement policies which are duplications of insurances on freight as "a gamble, discountenanced by sound principle and not enforceable by law": *ibid.* p. 545.

Sect. 248.

the Court held that such instruments, being mere waste paper, were improperly described as bills of exchange, and that therefore, on this ground, their value, in case of loss, could not be recovered under such a policy (*n*).

As Phillips well remarks, "this construction was very strict on the assured," and, as a precedent, would probably not now be followed. Lord Campbell, in delivering judgment in the case of Hall *v.* Janson, appears to lay down a far more sensible rule. "Great latitude," he says, "is allowed in describing the interest on a policy of insurance, provided that the nature of it is intelligibly disclosed" (*o*).

A policy "on specie and returns" will not cover an advance by charterer.

The ship "Leonidas" was chartered for a voyage from Buenos Ayres to Canton and back, at a gross sum payable, not as freight properly so called, but as the price of the hire of the ship for the voyage. Part of this sum was paid, as stipulated by the charter-party, by the charterer's agents at Canton, to cover the port charges and incidental expenses of the ship there. The charterers, who had shipped on board the vessel at Buenos Ayres a large sum of dollars to be invested in produce at Canton, being desirous of securing their interest in the adventure, caused a policy to be effected, in the common form, for the proposed voyage, "on specie, &c. shipped on board the 'Leonidas' in the River Plate, and on the same or the returns thereof, as interest might appear, in any description of merchandise," &c. The Court of King's Bench held, that under a policy so framed the assured could not recover, in addition to what is usually recoverable as the value of goods in an open policy, the sum paid at Canton, under the charter-party, for the port charges, &c. (*p*). Lord Tenterden, however, in the course of the argument, intimated that, although such sum could not be recovered under a mere policy on merchandise, yet it might have been insured as

(*n*) Palmer *v.* Pratt (1824), 2 Bing. 185. A strong decision, for the underwriter was fully informed of the real facts as to the drawing and payment of the bills.

money paid for shipment of goods to be transported to Buenos Ayres (*q*); and in delivering the judgment of the Court he said: "We have no doubt that these payments might have been made the subject of a special and distinct insurance" (*r*). Sect. 248.

A policy "on money advanced on account of freight" will cover advances for necessary repairs abroad,

In a case where the policy described the insurance to be "on money advanced on account of freight," the shipowner was allowed to recover in respect of advances made for necessary expenses incurred by the master at a foreign port for repairs, and loading and unloading cargo, on the terms that the loan should be deducted from the freight or repaid if the freight were not ultimately earned. Lord Campbell, delivering the judgment of the Court, said: "There seems no reason why the money advanced may not be insured as freight, as well as the money to grow due on the charter, which is undoubtedly insurable as freight, although not properly freight, and rather the price of the hire of the ship. Nor do we see how we can be called upon to infer that the expression 'money advanced on account of freight' necessarily indicates that the insurance is effected by the shipper, and that the freight paid in advance is at his risk, not at the risk of the shipowner" (*s*). A similar policy will cover bills drawn abroad against freight by captains and accepted by agents here. The agents in this country of foreign principals having accepted bills drawn abroad by the captain of a ship, taken up by their principals for a general cargo, against freight, it was held that they had an insurable interest in respect thereof, and that such interest was well described in the policy as "an advance on account of freight" (*t*).

and bills drawn abroad against freight.

249. A shareholder in the Atlantic Telegraph Company effected a policy to secure himself against loss in the laying down and working of a cable between the Irish and American coasts; and in the valuation clause (the policy being in the

Share in company uninsurable.

(*q*) *Ibid.* 654.

Sect. 249.

form usual at Lloyd's) occurred the only specification of the subject of insurance in these words: "The said ship, &c. goods and merchandise, &c. . . . . are, and shall be, valued as on one 1,000*l.* share in the Atlantic Telegraph Company, said share valued at 1,100*l.*" Stopping here, the policy would have been construed as being on a subject—a share in a company—incapable of exposure to, and consequently not covered by a policy against, maritime risks. But this other sentence followed: "In case of loss, the part saved to be sold or appraised for the benefit of the underwriters." The Court, regarding the whole in the light of these latter words, held that it was a policy on the cable, and that the assured under the circumstances was entitled to recover for an average loss if above 3 per cent. (*u*).

As shares in an incorporated company cannot be exposed to maritime perils, it seems to follow that they cannot be the subject of maritime insurance (*x*); and as the shareholder in such a company has no property in the estate or chattels of the company, such a chattel as the Atlantic Cable, though exposed to maritime perils, cannot for him be the subject of a valid policy (*y*). But it has been held that his right to a share of the profits of such a company gives him an insurable interest in an adventure such as that of laying the Atlantic Cable, which interest, by the use of suitable language, may be covered by a policy of insurance (*z*).

In Wilson *v.* Jones (*a*), a shareholder in the Atlantic Telegraph Company, before the cable had been laid, effected a

(*u*) Paterson *v.* Harris (1861), 1 B. & S. 336; 30 L. J. Q. B. 354. There was no plea on the record to the insurable interest of the claimant.

(*x*) See *per cur.* Paterson *v.* Harris (1861), 1 B. & S. 354, 355; 30 L. J. Q. B. 361.

(*y*) See *post*, § 307.

(*z*) Cf. Mar. Ins. Act, 1906, s. 3, which declares (sub-s. 1) that every lawful marine adventure may be the subject of a contract of marine insurance, and (sub-s. 2 (b)) that there is a marine adventure where the earning of any pecuniary benefit is endangered by the exposure of insurable property to maritime perils.

(*a*) (1866), L. R. 1 Exch. 193; in error (1867), L. R. 2 Exch. 139.

Sect. 249.

policy to cover his interest in the concern, describing the subject of insurance in a cloud of ambiguous words, as follows:—"The said ship, &c., goods and merchandises, &c., for so much as concerns the assured by agreement between the assured and assurers, on this policy, are and shall be valued at 200*l.* on the Atlantic Cable, value say on twenty shares, valued at 10*l.* per share." Then on the margin, over against the statement of perils insured against, were written these words: "It is hereby understood and agreed that this policy, in addition to all perils and casualties herein specified, shall cover every risk and contingency attending the conveyance and successful laying of the cable." Having regard to these latter words, both the Court of Exchequer and the Court of Exchequer Chamber held that the subject intended to be insured was the plaintiff's interest in the adventure, and that this might be the subject of a valid policy of marine insurance (*b*).

Share in company owning ship.

A ship is now frequently the property, not of individuals (each holding severally one or more of the sixty-four shares into which the property is legally divided), but of a limited company. From what has just been said, it appears that a shareholder in the company cannot insure his shares in it against maritime risks. Moreover he cannot, apparently, effect a valid insurance on the ship itself, for want of an insurable interest (*c*). Yet the company may be a "single-ship company," whose only asset is the ship; she may not be insured or may be inadequately insured by the company, and her loss may therefore either render the shares valueless or greatly depreciate their value. The decision in Wilson *v.* Jones suggests that by a properly worded policy a share-

(*b*) Reference was made by Blackburn, J., to the language of Lawrence, J., in Barclay *v.* Cousins (1802), 2 East, 544; and in Lucena *v.* Craufurd (1806), 2 B. & P. N. R. 301. For an instance where an insurance was held to be on the goods, as distinct from any adventure, see Moore *v.* Evans, [1917] 1 K. B. 458; [1918] A. C. 185, distinguishing Mitsui *v.* Mumford, [1915] 2 K. B. 27; both, however, being cases of non-marine insurance.

(*c*) *Post*, § 307.

Sect. 249. holder can protect himself against loss due to the depreciation of his shares consequent on maritime perils affecting the ship.

Shipowner's liability for loss of life, injury and damage.

250. A shipowner may become liable to pay large sums in consequence of loss of life, injury to person, or damage to property caused by the improper navigation of his vessel. Sect. 506 of the Merchant Shipping Act, 1894, expressly recognizes the validity of insurances by shipowners against their liability to pay damages for such loss of life, injury or damage, in the cases enumerated in sect. 503 of the Act (*d*), and sect. 3 (2) (c) (*e*) of the Marine Insurance Act, 1906, recognizes in general terms the right of a person interested in insurable property to protect himself against his liabilities in respect thereof.

In policies on "ship" it is now usual for the shipowner to insure himself in part or in whole by the collision clause against the liability to pay damages in consequence of a collision between his ship and any other vessel, and against the costs of litigation arising out of such a collision (*f*).

The shipowner's liability to pay damages, so far as it is not covered by policies in the ordinary form, is usually insured with mutual associations, called Protection and Indemnity Associations; and there are some other risks and liabilities, not within the scope of the ordinary insurances, which are also undertaken by such associations (*g*).

Designation of subject-

251. With regard to the designation of the subject-matter

(*d*) *Ante*, § 7.

(*e*) *Ante*, § 1.

(*f*) *Ante*, § 10. Sometimes the collision clause also covers liability for damage caused by the ship insured to buoys, moorings, piers, bridges, &c. See, *e.g.*, Shelbourne *v.* Law Investment and Insurance Corporation (1898), 3 Com. Cas. 304.

(*g*) The Workmen's Compensation Act, 1906, has imposed upon shipowners large liabilities for injuries sustained by seamen in their employment; but they are seldom insured by policies effected against the ordinary marine risks. The protecting and indemnity associations undertake to indemnify their members against claims for compensation under the Act, which it is beyond the scope of this work to discuss.

Sect. 251. matter in policy.

of the insurance in the policy, sect. 26 of the Marine Insurance Act, 1906, lays down the following rules:—

(1) The subject-matter insured must be designated in a marine policy with reasonable certainty.

(2) The nature and extent of the interest of the assured in the subject-matter insured need not be specified in the policy.

(3) Where the policy designates the subject-matter insured in general terms, it shall be construed to apply to the interest intended by the assured to be covered.

(4) In the application of this section regard shall be had to any usage regulating the designation of the subject-matter insured.

The manner in which the various subject-matters of insurance are described had already been sufficiently indicated.

The nature of the interest of the assured need not generally be described.

That the nature of the interest of the assured need not be specified is well established (*h*). Thus, where a policy expressed to be "5,000*l.* on cotton" was a re-insurance, but it was not so expressed on the face of it, nor was any notice of this fact given to the underwriter, the Court of Appeal held that the interest of the assured did not need to be described. "The assured here had a direct interest in the safe arrival of the cotton, not in any way a collateral interest in something else after the cotton arrived. It was, though not a property in the cotton, an interest in the cotton created and evidenced by a binding legal contract between them and the owners of that cotton; and if the mode in which they acquired that interest had been stated in the policy, it would have in no way altered the effect of the defendant's contract, which would still have remained a contract to indemnify against all damage sustained by the cotton in consequence of any of the perils insured against" (*i*).

(*h*) See per Lord Tenterden in Crowley *v.* Cohen (1832), 3 B. & Ad. 478, 485.

(*i*) Mackenzie *v.* Whitworth (1875), 1 Ex. D. 36, 44; below, L. R. 10 Ex. 142.

Sect. 251.

The extent of the interest need not be specified.

So, also, it is a well-established rule that a party interested only to a certain extent in property, which he owns in common with others, may effect insurance generally without specifying his interest, and will recover for such interest as he has (*k*). Thus, a mortgagee may recover under a policy on ship to the extent of his mortgage (*l*); or one of several part-owners of a ship may insure the freight generally without specifying what share he has in the ship, and he may declare generally and recover for such interest as he has (*m*).

Interest in ship and freight.

Cases on rule that interest need not be specified.

252. The above positions have received abundant illustration in the jurisprudence of this country and the United States (*n*). Thus, with regard to the nature of the interest, Lord Mansfield, in the case of Glover *v.* Black, after deciding, solely on the ground of the usage of merchants, that the interest of the lender on bottomry and respondentia must be specifically described in the policy, adds: "But we by no means say that, under an insurance on goods at large, a man may not be permitted to give in evidence a mortgage or other special lien" (*o*). "I admit," says Park, J., "that a party who has only a special interest in goods may recover, in respect of that interest, on a general insurance" (*p*).

In Carruthers *v.* Shedden a general insurance "on coffee" had been effected by a London broker, "by order and for account of N. D. & Co.," a London mercantile firm, who were themselves beneficially interested in seven-sixteenths of the coffee, but who had also an insurable interest in the whole of it as consignees of the cargo, and as having a lien on the whole for advances. The Court held that, under the general form of policy, N. D. & Co. might protect all these different species of interest; that the nature of the several

(*k*) The principle is laid down, 1 Emerigon, c. x. s. 1, p. 299.

Sect. 252.

interests need not be expressed in the policy; and that the assured were not bound to elect on which they would proceed (*q*).

Upon the same principle, a general policy "on goods" (*r*) has been held sufficient to cover the interest of carriers on goods entrusted to their care, so as to protect them against loss arising from damage done to such property by the perils insured against, whereby they were obliged to make compensation to the owners, and were, besides, put to other expenses (*s*). It was objected that such a policy could not cover such an interest, since it merely purported to protect goods against the usual risks to which the owners of goods are liable; whereas the loss alleged was one arising out of a risk to which carriers are liable. But the Court, although Lord Tenterden admitted that it might have been better if the policy had expressly shown that the object was to indem-

(*q*) Carruthers *v.* Sheddon (1815), 6 Taunt. 14; *S. C.*, 1 Marshall, R. 416.

(*r*) The policy, which was intended to cover the interest of plaintiffs, as barge-owners, in the property carried to and fro for hire in their barges for a year, was a common printed form of policy on ship and goods, filled up and altered in a very clumsy manner so as to adapt it to the object in view. By it the plaintiffs were insured for twelve months "by canal navigation boats, containing goods, at work between London, Wolverhampton and Birmingham, &c., backwards and forwards, and in any rotation, upon goods, and on the body and tackle, &c., on thirty boats, as per margin." In the valuation clause it was declared that the subject of insurance was agreed between the parties to be "twelve thousand pounds on goods as interest shall appear hereafter."

(*s*) Crowley *v.* Cohen (1832), 3 B. & Ad. 478; *S. P.*, Joyce *v.* Kennard (1871), L. R. 7 Q. B. 78. Cf. Cunard SS. Co. *v.* Marten, [1902] 2 K. B. 624; [1903] 2 K. B. 511, in which Bigham, J., and the Court of Appeal held that an insurance by shipowners "against liability of any kind to owners of cargo up to 20,000*l.*" was not an insurance on the cargo, but a contract to indemnify them in full to the amount of 20,000*l.* in respect of their liability as carriers. These cases were distinguished by Sankey, J., in Holman *v.* Merchants' Mar. Ins. Co., [1919] 1 K. B. 383, where a policy on "increased value" effected with the object of protecting the shipowner against claims for salvage, general average, &c., based on a value of his vessel in excess of that declared in his hull and machinery policies, was held to be a policy on the ship itself and not against the shipowner's liability.

Sect. 252.

nify the plaintiffs as carriers, were yet unanimously of opinion that it was sufficient in its present form, on the ground that it is only necessary to state accurately the subject-matter, not the interest which the assured has in it (*t*).

The rule in the United States is to the same effect.

The decisions upon this subject in the United States go to the full extent of the English law (*u*).

The nature of the interest need not be described though it affects the risk.

252a. There is some authority for saying that where the peculiar nature of the interest increases or alters the character of the risk, the nature of the interest should be specified in the policy (*v*); and the rule that bottomry and respondentia loans must be specifically described has, as we have seen, been explained on the ground that the risk is peculiar (*x*).

In view of the unqualified statement in sect. 26 (2) (*y*), that the interest of the assured need not be specified, the principle that the peculiar nature of the interest may require to be stated in the policy cannot now be accepted as law. Nevertheless, it is apprehended that where the risk is of an exceptional kind, the insurer may be entitled to avoid the insurance, if the nature of the interest has not been disclosed to him (*z*).

Except by usage, as

On the ground of usage it will apparently still be neces-

(*t*) In Joyce *v.* Kennard, *supra*, the fact that the insurance was of a carrier's interest was specifically stated in the policy.

(*u*) See the cases collected, 1 Phillips, Ins. ss. 419 *et seq.*

(*v*) See per Blackburn, J., in Mackenzie *v.* Whitworth (1875), 1 Ex. D. 36, 42. See also per Lord Ellenborough in Routh *v.* Thompson (1809), 11 East, 428, 433.

(*x*) See *ante*, § 243. When the Marine Insurance Bill left the House of Lords, sub-sect. 2 of sect. 26 contained a proviso that when an insurance is effected by a lender on bottomry or respondentia, the nature of his interest must be specified. The sub-section was amended in the House of Commons by omitting the proviso, and adding the words "but when the interest is of such a kind as to affect the character of the risk it must be stated; and in particular a loan on bottomry or respondentia is not effectually insured by a policy on ship or goods, unless the nature of the interest is stated." The amendment was not accepted by the House of Lords, but the proviso was not restored.

(*y*) Ante, § 251.

(*z*) See *post*, Part II., Chap. II., "Concealment."

sary, by reason of sect. 26 (4), to insure bottomry and respondentia loans specifically (*a*).

Sect. 252a. in policies on bottomry and respondentia loans.

Policy applies to interest intended by assured to be covered. Mar. Ins. Act, s. 26 (3).

252b. There is a difficulty in construing sect. 26 (3) of the Marine Insurance Act, 1906, which says that "where the policy designates the subject-matter insured in general terms, it must be construed to apply to the interest intended by the assured to be covered." The difficulty is to give a precise meaning to the word "interest" in this vague proposition. It may be suggested that "interest" is in this sub-section equivalent to "subject-matter." To construe "interest" as simply denoting "subject-matter" is, however, to give a forced meaning to the word, to suppose that Parliament, though using in the same sub-section two different expressions, yet meant the same thing by both of them (*b*), and involves a proposition which could not formerly have been maintained. For instance, where the assured simply insured "freight," and did not earn the freight which he intended to insure, but completed the voyage and earned freight under another contract of affreightment, it was held that the policy applied to the freight which had been earned, although he had not intended to insure it (*c*). The sub-section is founded on a passage in the opinion of Brett, J., in Allison *v.* Bristol Marine Insurance Co. (*d*), and when read in the light of that passage may be construed

(*a*) See Glover *v.* Black (1763), 3 Burr. 1394; 1 Wm. Bl. 399, *ante*, § 243.

(*b*) Dunlop Brothers & Co. *v.* Townend, [1919] 2 K. B. 127. The learned judge (Bailhache, J.) said that "interest" was used in the sub-section in its strict and proper sense, so that where the interest covered might be that of an owner, or of a consignee, or any other person pecuniarily interested, it was a question in each case what interest it was actually intended to cover.

(*c*) See Everth *v.* Smith, *post*, § 1166.

(*d*) (1875), 1 App. Cas. 209, at p. 216. See Chalmers & Owen, Mar. Ins. Act, 2nd ed. p. 40. "Wherever the subject-matter of a policy is described in it in general terms," said Brett, J., "it is to be taken to cover the interest which is within its terms, which the assured has at risk, unless the contrary appears to have been the intention of the assured from other parts of the policy, or other proof."

Sect. 252b. to bear the following meaning:—Where the policy designates the subject-matter insured in general terms, it must be construed to apply to the subject-matter described in the policy, so far as the assured has an interest therein which he intended to cover. For such a proposition there is no doubt authority (*e*), but it could not before the Act have been accepted without qualification. Thus, it has been held that a valued policy on freight must be construed as referring to the freight of a full cargo, although the assured intended (but without communicating his intention to the insurers) only to insure the freight of a smaller shipment of goods (*f*). The question may arise whether, by reason of the wide language of the sub-section, the assured will in future be entitled in a similar case to recover the full amount of his valuation (*g*).

In order that this may not be so, it might be necessary to hold that the words "it must be construed to apply to the interest intended by the assured to be covered" do not necessarily mean that the policy is to apply exclusively to such interest, and therefore do not oust the rule that a valuation of freight refers to a full cargo unless the contrary intention is communicated to the insurer.

Another interpretation, based on the context, was recently suggested by Kennedy, L. J. (*h*), viz., that the principal object of the sub-section is to prevent an assured, who has only a limited interest in the subject-matter which is designated by the policy in general terms, from being prejudiced by such generality of designation, provided that the designation is not inappropriate (*i*). The learned Lord Justice

(*e*) See Feise *v.* Aguilar (1811), 3 Taunt. 506; Forbes v. Aspinall (1811), 13 East, 323; Allison *v.* Bristol Mar. Ins. Co. (1875), 1 App. Cas. 209; Williams *v.* North China Ins. Co. (1876), 1 C. P. D. 757.

(*f*) Denoon *v.* Home & Colonial Ass. Co. (1872), L. R. 7 C. P. 341.

(*g*) See per Kennedy, L. J., in Reliance Mar. Ins. Co. *v.* Duder, [1913] 1 K. B. 265, 275.

(*h*) The purpose of the section, as appears by the marginal note, said the Lord Justice, is to deal with "designation of subject-matter": *ibid.*

(*i*) *Ibid.* See also Chalmers & Owen, Mar. Ins. Act, 2nd ed. p. 42, where it is stated that the sub-section was intended to protect the assured against technical objections to the description of the interest insured.

added that, having regard to the words "interest intended by the assured to be covered," those who introduced the sub-section into the Act may also have had in view the one class of cases in which the "intention" of one of the parties to the contract—*i.e.*, the assured—is under the very terms of the contract matter of inquiry in regard to rights under the contract, viz., the class in which (the insurance having been effected in the common form by insurance brokers "for and in the name and names of all and every other person or persons, &c.") the persons for whose benefit the policy is available have to be ascertained (*j*).

However this may be, a majority in the Court of Appeal have expressed the view that the sub-section does not mean that an insurer is entitled to exclude the assured from the benefit of the insurance of any of the risks which are within the terms expressed in the written policy, by showing that at the time when the insurance was effected, the assured "intended" in his own mind to cover only some of them.

In the case which elicited this opinion, a ship was insured by two policies for a voyage from New South Wales "to port or ports . . . . on the West Coast of South America," and by a later policy, subscribed by the same underwriters for a voyage "at and from Valparaiso and/or port or ports . . . . on the West Coast of South America" to Europe, the "risk to commence from expiration of previous policy." The underwriters effected a policy of re-insurance in which the voyage was described exactly as in the later policy, viz., "at and from Valparaiso and/or port or ports . . . . on the West Coast of South America" to Europe. The ship was chartered to carry a cargo from New South Wales to the West Coast, to be discharged at Valparaiso or at a safe port

(*j*) See *ante*, § 172. An objection to this interpretation is that the sub-section states a general rule, not a rule for the construction of a particular clause in the policy, the appropriate place for which would have been the First Schedule of the Act.

Sect. 252b.

as ordered. She discharged a portion at Valparaiso, and then, by arrangement with the charterers, proceeded with the rest of the cargo on board towards Tocopilla, another West Coast port, where she was to complete her discharge and load a cargo under another charter-party for a European port. She was lost on the way to Tocopilla, and it was held that the shipowners were entitled to recover for the loss on the policies for the voyage from New South Wales (*k*). The underwriters then sued on the policy of re-insurance, and were met by the defence that they only intended to re-insure their risk under the policy from the West Coast to Europe, and could not recover by reason of sect. 26 (3) of the Act. Bray, J., held on the evidence that the defendants had not proved that the intention of the plaintiffs was only to re-insure their liability under the later policy, and that, as the loss had occurred on the voyage described in the policy of re-insurance, the plaintiffs were entitled to recover (*l*). His decision was affirmed on the same grounds by the Court of Appeal (*m*). It was therefore unnecessary for the Court to decide the point of law, with regard to which the meaning of sect. 26 (3) was material; but as this point had been fully discussed, Kennedy, L. J. (in a judgment in which Cozens-Hardy, M. R., concurred), gave his reasons for thinking that the defendants' contention was unsound. The learned Lord Justice referred to the fundamental rule that where a contract has a plain natural meaning, it is not permissible to alter its effect according

(*k*) Kynance SS. Co. *v.* Young (1911), 16 Com. Cas. 123. This action was on another but similar policy for the voyage from New South Wales to the West Coast. The point was taken by the underwriters that at the time when the policy was effected the shipowners only contemplated a discharge at one port, and that the general words in the policy describing the voyage must be limited by their intention at such time (p. 130). Scrutton, J., held that the assured did not mean to shut himself out from varying the charter-party in its mode of performance. See his remarks (p. 131) as to the suggested limitation of general words in the policy by the intention of the parties.

(*l*) Reliance Marine Ins. Co. *v.* Duder (1911), 17 Com. Cas. 24.

Sect. 252b.

to the intention of one of the two contracting parties, or to adduce evidence in order to show such intention; and, as we have already said, his view was that the sub-section does not enable the underwriter to assert that the assured did not intend to cover a risk which is within the terms of the policy. In another action, however, which was subsequently brought in respect of the same voyage, where the re-insurance policy sued upon made it clear that the intention was in fact to cover the homeward voyage from Valparaiso and not the cross-voyage from New South Wales, it was held by Sankey, J., that the re-insurer was not liable, also that evidence extrinsic to the policy was admissible to identify the policy which was being re-insured and to show that the intention was to re-insure the homeward voyage, such intention having been communicated to the defendant (*n*).

Insuring the Underwriter's Solvency	329
Double and Over Insurance	330—335

Of insurable interest generally.

253. THE definition of the contract of marine insurance in sect. 1 of the Marine Insurance Act, 1906, viz., a contract whereby the insurer undertakes to indemnify the assured against marine losses (*a*), embodies the principle that it is a contract of indemnity. It is obvious that a contract which purports to provide an indemnity for the assured against loss becomes, when perverted to the purposes of one who has no interest in the subject insured in respect of which he can suffer loss, nothing better than a bet or wager upon the event of the voyage or adventure described in the policy. Such policies, with no interest to justify the assured in

(*a*) See *ante*, § 1.

making them, came into frequent use in the reign of Charles the Second, and in the time of Queen Anne our Courts of Justice unfortunately pronounced them to be valid and legal. An Act of Parliament (19 Geo. 2, c. 37) afterwards declared them illegal in respect of British ships and their cargoes, and thus reduced the policy once more to a contract of indemnity; and now by sect. 4 of the Marine Insurance Act, 1906, a contract of marine insurance is void where the assured has no insurable interest, and enters into the contract without any expectation of acquiring one (*b*).

Description of insurable interest.

254. It is very difficult to give any definition of an insurable interest, and the Marine Insurance Act, 1906, does not purport to do so exhaustively. Sect. 5 deals with it in the following terms:—

> (1) Subject to the provisions of this Act, every person has an insurable interest who is interested in a marine adventure (*c*).
>
> (2) In particular a person is interested in a marine adventure where he stands in any legal or equitable relation to the adventure or to any insurable property at risk therein, in consequence of which he may benefit by the safety or due arrival of insurable property, or may be prejudiced by its loss, or by damage thereto, or by the detention thereof, or may incur liability in respect thereof.

Therefore, in order to have an insurable interest, it is not necessary to have an absolute vested ownership or property in that which is insured: it is sufficient to have a right in the thing insured, or to have a right or be under a liability arising out of some contract relating to the thing insured, of such a nature that the party insuring may have benefit from its preservation, or prejudice from its destruction (*d*).

(*b*) See *post*, § 314. By sect. 92 of the Act, the statute of 19 Geo. 2 is repealed.

(*c*) For the meaning of "marine adventure," see s. 3 of the Act, *ante*, § 1.

(*d*) See the *dicta* of Lawrence, J., in Lucena *v.* Craufurd (1806),

Sect. 254. Lawrence, J., in Lucena v. Craufurd.

An insurable interest is thus described by a Judge of the highest legal reputation:—"A man," says Lawrence, J., "is interested in a thing to whom advantage may arise or prejudice happen from the circumstances which may attend it; and whom it importeth that its condition as to safety or other quality should continue. Interest does not necessarily imply a right to the whole or a part of a thing, nor necessarily and exclusively that which may be the subject of privation, but the having some relation to, or concern in, the subject of the insurance; which relation or concern, by the happening of the perils insured against, may be so affected as to produce a damage, detriment or prejudice to the person insuring. And where a man is so circumstanced with respect to matters exposed to certain risks or dangers as to have a moral certainty of advantage or benefit but for those risks or dangers, he may be said to be interested in the safety of the thing. To be interested in the preservation of a thing is to be so circumstanced with respect to it as to have benefit from its existence, prejudice from its destruction. The property of a thing and the interest derivable from it may be very different. Of the first the price is generally the measure; but by interest in a thing, every benefit and advantage arising out of or depending on such thing may be considered as being comprehended" (*e*).

Ownership of a thing may

255. The plainest instance of an insurable interest is the

2 B. & P. N. R. 302; and of Lord Eldon, *ibid.* 321; Crowley *v.* Cohen (1832), 3 B. & Ad. 478. For a possible exception in the case of captors to the rule that an insurable interest depends on some right relating to the thing insured, see *post*, §§ 301—303.

(*e*) Lucena *v.* Craufurd (1806), 2 B. & P. N. R. 269, 302; see also the same learned Judge's decision in Barclay *v.* Cousins (1802), 2 East, 544; also 1 Marshall, Ins. 101, 102; 1 Phillips, Ins. ss. 172 *et seq.*; 3 Kent, Com. 276, 277. It may be remarked that some of these observations of Lawrence, J., are more applicable to insurances on tangible objects than to insurances on such subjects as disbursements or commissions. It may also be remarked that the statement, that benefit from the existence of a thing, or prejudice from its destruction, gives an insurable interest, can probably only be accepted with the limitation that there must be some legal relation between the assured and the thing insured. See *post*, §§ 257, 257a.

Sect. 255. be indefinitely modified.

ownership of a chattel. The variety of ways in which this ownership may be modified suggests, again, the various questions, some of them of considerable nicety, by which the inquiry as to the insurable interest of the assured may be perplexed. The chattel owned may be held in trust; or may be subjected to incumbrances, such as mortgages and liens; or to rights in other persons, as by deed of demise or contract of charter-party; or it may be sold under a reservation of rights or liabilities in the vendor; or may be possessed so conditionally (*f*) as to be liable to defeasance at the will of another; or to seizure for a forfeiture incurred before the voyage described in the policy (*g*). In all these instances an insurable interest undoubtedly exists, and independent insurable interests may co-exist in several persons at the same time; but whether under certain circumstances an insurable interest does exist in a particular person may be a somewhat difficult question.

Defeasible or contingent interest is insurable. Mar. Ins. Act, s. 7.

255a. Sect. 7 of the Marine Insurance Act, 1906, declares that—

> (1) A defeasible interest is insurable, as also is a contingent interest.
>
> (2) In particular where the buyer of goods has insured them, he has an insurable interest, notwithstanding that he might, at his election, have rejected the goods, or have treated them as at the seller's risk, by reason of the latter's delay in making delivery or otherwise (*h*).

Sub-sect. (2) is an example of an interest defeasible by the act of the assured (*i*). Another instance of a defeasible

(*f*) Per Lord Ellenborough, Stirling *v.* Vaughan (1809), 11 East, 619, 629.

(*g*) Wilkes *v.* People's Fire Ins. Co. (1859), 19 N. Y. 184; 1 Phillips, s. 195; per Lord Eldon, Lucena *v.* Craufurd (1806), 2 B. & P. N. R. 319, 320.

(*h*) See Sparkes *v.* Marshall (1836), 2 Bing. N. C. 761, and the remarks of Lord Chelmsford and Lord Hatherley on this case in Anderson *v.* Morice (1876), 1 App. Cas. 713, 727, 735; Colonial Ins. Co. of New Zealand *v.* Adelaide Mar. Ins. Co. (1886), 12 App. Cas. 128, 140.

(*i*) See Chalmers & Owen, Mar. Ins. Act, 2nd ed. p. 16.

Sect. 255a.

interest is the right of captors to their prize under the Prize Acts, which was held to be an insurable interest before condemnation, though defeasible before that event by the release of the Crown, or by sentence of restoration (*k*). It is difficult to say precisely what is covered by the term "contingent interest." The expression occurs in the opinion of seven judges in Lucena *v.* Craufurd, and they seem, from a preceding remark, to have considered the interest of a captor a contingent one (*l*). It may be suggested that a liability gives rise to a contingent interest (*m*), and that such expectancies and inchoate rights as are insurable (*n*) may also be regarded as contingent interests.

Vested interest in possession not necessary.

256. A vested interest in possession is not necessary to give the right of insuring. An expectancy, coupled with a present existing title to that out of which the expectancy arises, is an insurable interest. Inchoate rights founded on titles subsisting at the time of loss are insurable interests: thus freight, payable either on the arrival of the goods or under a charter-party, is insurable by the shipowner, provided his title to the freight has accrued, so that only the intervention of the maritime perils will in the ordinary course prevent him from earning it. Thus, again, profits expected to arise out of the sale or disposal of the goods on their arrival are insurable by the owner of the goods, provided that but for the perils of the voyage a profit will be made

(*k*) See Lucena *v.* Craufurd (1806), 2 B. & P. N. R. at p. 295; Stirling *v.* Vaughan (1809), 11 East, 619, 628. The insurable interest which Walton, J., held in Moran *v.* Uzielli, [1905] 2 K. B. 555, to result from the right to bring an action *in rem* against a ship, is defeasible by the sale of the ship; see The Henrich Björn (1886), 11 App. Cas. 270.

(*l*) See Lucena *v.* Craufurd, *ubi sup.*

(*m*) See Chalmers & Owen, Mar. Ins. Act, 2nd ed. p. 16, where it is said that re-insurance is a good example of a contingent interest. It seems, however, unnecessary, in view of s. 5 (2) of the Mar. Ins. Act (*ante*, § 254), to consider whether the interest arising from a liability is a contingent one, and re-insurance is specifically dealt with in s. 9 of the Act (*post*, § 322).

(*n*) *See infra*, § 256.

Sect. 256.

on them. Again, commissions the earning of which will be prevented only by the perils of the voyage are insurable, though there is generally a total absence of ownership of the chattel from which the commissions are derivable. In fact, every kind of interest that may subsist in, and be dependent upon, things exposed to the dangers to which mercantile adventures are subjected may be protected by a policy of insurance effected on account and for the benefit of those who are so far interested in the things thus exposed to sea risks as to have a benefit from their preservation, or damage from their destruction (*o*).

The expectation of an expectation is not an insurable interest.

257. But although a vested interest in possession is not necessary to entitle a party to insure on his own account, yet where the interest insured is the expectancy of benefit to arise out of the safe arrival of some subject of insurance, a title to such subject must be subsisting in the assured at the time of loss to enable him to recover (*p*). The expectation of benefit to arise from some subject in which the party insuring is not actually interested, but only expects to be interested, is the mere expectation of an expectation, and is not an insurable interest. Such would be the expectation of commissions to arise out of the sale and disposal of a homeward cargo not contracted for at the time of the ship's loss (*q*). So also the expectation of profit to arise out of the sale of goods which have neither vested nor will vest on arrival in the party insuring, under any legal contract, is not an insurable interest (*r*).

Expectation of profit on goods.

Insurable interest

A liability in case of the loss of a thing gives an insurable interest in the thing to the person on whom the liability

(*o*) See the opinions of the Judges generally, and of Lawrence, J., in particular, on the fifth question submitted to them by the House of Lords in Lucena *v.* Craufurd (1806), 2 B. & P. N. R. 289—310.

(*p*) This is the original text; but it would be more correct to say "yet where the interest insured is the expectancy of benefit to arise out of the safe arrival of some insurable property, some legal right in relation to such property must be subsisting," &c. For a possible exception to this principle, see *post*, §§ 301—303. See also Moran *v.* Uzielli, [1905] 2 K. B. 555, and the remarks on that case, *infra*, § 257a.

(*q*) See Buchanan *v.* Faber (1899), 4 Com. Cas. 223.

(*r*) Stockdale *v.* Dunlop (1840), 6 M. & W. 224.

Sect. 257. arising from a liability.

rests (*s*). Thus, the liability of carriers or of insurers to compensate or indemnify in respect of losses affecting property carried or insured by them is an interest in the property which is insurable (*t*).

Does the right to arrest insurable property give an interest?

257a. There is a decision of Walton, J. (*u*), which does not agree with the statement that when the interest insured is the expectancy of benefit to arise out of the safe arrival of some subject of insurance, the assured, in order to recover, must have a title to such subject at the time of loss, or some legal right in relation thereto. The agents in the United Kingdom of a foreign ship effected an insurance for a voyage of the ship from Vancouver to any ports in the United Kingdom "on disbursements." At the date of the policy the owners of the ship were largely indebted to them for advances in respect of necessary ship's disbursements; and the learned Judge held that the agents, having an existing right to enforce their claim for such advances in respect of necessaries supplied to the ship, by an action *in rem*, and in such an action to arrest the ship (*x*), had an insurable interest in the ship to the extent of such advances. It is clear that if the assured had gained a lien on the ship they would, to the extent thereof, have had an insurable interest. It is, however, submitted that the circumstance that a person will, if he takes legal proceedings, obtain a lien on insurable property does not give an insurable interest. If it did, the result would seem to be that every judgment creditor would have an insurable interest in all the property of his debtor which was capable of being taken in execution. The decision of the learned Judge does not obtain

(*s*) Mar. Ins. Act, 1906, s. 3, (2) (c), *ante*, § 1; s. 5 (2), *ante*, § 254.

(*t*) Crowley *v.* Cohen (1832), 3 B. & Ad. 478; Mackenzie *v.* Whitworth (1875), 1 Ex. D. 36. So the liability of captors to pay costs and charges if they had taken possession improperly, and also their liability to render back property which should turn out to be neutral: per Lord Eldon in Lucena *v.* Craufurd (1806), 2 B. & P. N. R. 323.

(*u*) Moran *v.* Uzielli, [1905] 2 K. B. 555.

(*x*) This "existing right" would cease if the ship were sold to a *bonâ fide* purchaser: see The Henrich Björn (1886), 11 App. Cas. 270.

Sect. 257a.

any support from the definition of an insurable interest in sect. 5 of the Marine Insurance Act, 1906 (*y*); for it can hardly be maintained that a person who, if he begins an action *in rem*, will have a right to arrest insurable property, stands thereby in any "legal or equitable relation" to the property. It is true that the definition in sect. 5 does not profess to be exhaustive; but the proposition that the possibility of obtaining a lien upon property is a right which gives an insurable interest, seems to the editors unduly to extend the legal conception of an insurable interest (*z*).

When the interest must attach.

258. With regard to the time when the interest must attach, sect. 6 of the Marine Insurance Act, 1906, lays down the following rules:—

> (1) The assured must be interested in the subject-matter insured at the time of the loss though he need not be interested when the insurance is effected:
>
> Provided that where the subject-matter is insured "lost or not lost," the assured may recover although he may not have acquired his interest until after the loss, unless at the time of effecting the contract of insurance the assured was aware of the loss and the insurer was not.
>
> (2) Where the assured has no interest at the time of the loss, he cannot acquire interest by any act or election after he is aware of the loss (*a*).

The interest must be

Formerly the rule was laid down to be that the assured,

(*y*) *Ante*, § 254.

(*z*) The learned judge adopts the view that the definition of insurable interest has been continually expanding: [1905] 2 K. B. 563, citing Chalmers & Owen, Mar. Ins. Dig. 2nd ed. p. 11. In the United States it has been decided that advances for repairs of a ship give no insurable interest, unless when secured by a lien: see *post*, § 310. It has also been held there that a general creditor has no insurable interest in the property of his debtor: Vancouver Nat. Bank. *v.* Law, &c. Ins. Co. (1907), 153 Fed. R. 440.

(*a*) Anderson *v.* Morice (1875—6), L. R. 10 C. P. 609, 620, 623; 1 App. Cas. 713, 726, 733, 749. In this case the assured bought a cargo of rice under a contract by which the property did not pass until the whole cargo was shipped. The ship was lost with part of the cargo on board, and it was held that the assured, who afterwards paid for the lost cargo, could not recover from the underwriters: see *post*, § 283.

Sect. 258.

subsisting at the time of loss.

besides being interested at the time of the loss, must also be interested at the time of effecting the policy (*b*); but it is now established that an insurable interest subsisting at the time of loss is sufficient (*c*); indeed, it is every day's practice to effect insurances in which the allegation of interest at the time of effecting the policy could not be made with any degree of truth, as, for instance, where goods are insured on a return voyage long before they are bought (*d*).

It must, however, be proved in all cases, that the party for whose benefit the policy was made was interested in the subject of insurance at the time of loss. Where, therefore, interest being averred in three part owners of a ship, it appeared that one of them had, before the loss, parted with his share to one of the other part owners, it was held that there was no right of action in the three jointly (*e*). If, however, the party in whom interest is averred has parted with his interest after the loss, the underwriter cannot, on that ground, resist his claim on the policy (*f*).

Loss before interest acquired may be recoverable.

259. As the proviso to sect. 6 (1) of the Marine Insurance Act, 1906, shows, the rule that the party insuring must be interested at the time of loss does not apply to a policy containing the "lost or not lost" clause, so as to preclude a party who has become interested after the loss from recovering for loss which occurred before his interest commenced, when the loss in question falls on him (*g*). If, however, the assured effects an insurance with knowledge of a loss and without

(*b*) Lucena *v.* Craufurd (1806), 2 B. & P. N. R. 295; see also Marsh *v.* Robinson (1804), 4 Esp. 98.

(*c*) Arnould stated that the interest must also be subsisting "during the risk," but the editors submitted in the seventh edition that the words "during the risk" were superfluous; for, to enable the assured to recover, the loss must have been during the risk—*i.e.*, within the limits of place or time prescribed in the policy; and it is surely immaterial whether the interest came into existence at the moment of the loss or at some time before. Their view is confirmed by the language of sect. 6 (1).

Sect. 259.

disclosing his information to the underwriter, the latter, if at that time ignorant of the loss, can avoid the policy (*h*).

A partial interest may be insured.

259a. Sect. 8 of the Marine Insurance Act, 1906, declares that—"A partial interest of any nature is insurable."

The term "partial interest" may be construed as meaning an undivided or "hotchpot" interest in the subject-matter insured (*i*), *e.g.*, the interest of a part owner (whether joint tenant or tenant in common) of insurable property (*k*), or the interest of one of a body of adventurers in their common adventure (*l*). It may also be construed more widely so as to cover other interests which do not extend to the full value of the subject-matter insured, *e.g.*, the interest of a party having a mortgage or lien on insurable property, in respect of the amount of his lien (*m*).

The power to abandon, a suggested test of insurable interest.

260. The power to abandon has been suggested as a test of an insurable interest; but it is not a certain criterion, as there are insurable interests in things which from their nature are incapable of abandonment, as profits, disbursements, bottomry, and respondentia (*n*). If, however, the nature of the subject admits of abandonment, an incapacity to abandon certainly shows a want of insurable interest in the subject of insurance at the time of the loss; for an abandonment is nothing else than a divesting out of the assured of all the interest he had in the thing insured at the moment of the loss, on condition of his being paid by the underwriters the whole amount of the insurance (*o*).

(*h*) See *post*, §§ 575, 609.

(*i*) See Robertson *v.* Hamilton (1811), 14 East, 522; Inglis *v.* Stock (1885), 10 App. Cas. 263, 274, *post*, § 284.

(*k*) Thus, the registered owner of one or more sixty-fourth shares in a ship, who is a tenant in common of the ship with the owners of the other shares, can protect his interest by a separate insurance.

(*l*) Wilson *v.* Jones (1867), L. R. 2 Ex. 139.

(*m*) See *post*, §§ 292, 298.

(*n*) See the opinions of the judges generally, and of Lawrence, J., in particular, on the fifth question submitted to them by the House of Lords in Lucena *v.* Craufurd (1806), 2 B. & P. N. R. 289—310; see also the opinion of Lord Eldon, *ibid.* 315—327.

(*o*) See the observations of Lawrence, J., in Lucena *v.* Craufurd

Sect. 260.

Interest must be directly liable to the perils insured against.

An interest, in order to be insurable against particular perils, must be such as to be immediately, and not only by way of consequence, affected by those perils. Thus, if profits, by evidence of the state of the market, would have been secured but for the loss of the goods on the voyage, commissions but for the same calamity, freight but for the disabling of the ship by the perils of the sea, they are insurable. A person, however, who advances money in this country to a British shipowner for the repair of his ship acquires thereby no insurable interest, unless the money be secured by some such legal interest in the vessel as a mortgage, or bottomry lien, and yet the loss of the ship may by way of consequence involve the loss of the money (*p*).

Insurable interest of shipowner and charterer in ship.

261. The owner has in all cases an insurable interest in the ship. Even where he lets her out under a contract of affreightment to a charterer who covenants, in case of loss, to pay him her full value, he has a right to insure to the full amount; for he is not bound to trust exclusively to the credit of the charterer (*q*). The charterer also has, in such case, an insurable interest in the ship to the full extent of his liability. Thus, in the United States, where the owner of one-half of a schooner hired the other half, with a covenant that, in case of her being lost within the terms of the charter-party, he would pay the other part owner the value of his moiety, he was held to have an insurable interest to the full value of the ship (*r*).

Shipowner's interest in freight.

262. Generally speaking, the shipowner alone has an insurable interest in freight, whether by that word be meant

(1806), 2 B. & P. N. R. 312; and Conway *v.* Gray (1809), 10 East, 536, where the want of power to abandon, and the absence of insurable interest in goods, are apparently treated as resting on the same ground.

(*p*) For a further illustration of the principle under consideration, see Wilson *v.* Jones (1863), L. R. 1 Ex. 193; in the Ex. Ch. (1867), L. R. 2 Ex. 139; *post*, § 307. As regards advances to the owner of a foreign ship, see Moran *v.* Uzielli, [1905] 2 K. B. 555, *ante*, § 257a.

(*q*) Hobbs *v.* Hannam (1811), 3 Camp. 93.

(*r*) Oliver *v.* Greene (1807), 3 Mass. R. 133; cited 1 Phillips, s. 325.

Sect. 262.

freight properly so called, or the chartered hire of his ship (*s*).

Charterer's interest in freight.

In some cases, however, the charterer may have an insurable interest in freight. Where he relets the ship, or puts her up as a general ship for the transport of other people's goods on freight, there seems no doubt that, as he stands, *pro hâc vice*, in the position of a shipowner, he has an insurable interest in the freight (*t*) he so expects to earn (*u*). Moreover, as the shipowner has an insurable interest in the benefit which he expects to derive, or the profit he expects to make, by carrying his own goods in his own ship, and may protect this interest by an insurance on freight (*x*), there is no reason why the charterer, when he stands in the same position, may not do the same (*y*).

(*s*) As to insurances by cargo-owners on "contingency freight," see *ante*, § 232.

(*t*) The American case of Mellen *v.* National Ins. Co. (1829), 1 Hall, 452, cited 1 Phillips, Ins. ss. 337, 480, decided that a charterer could not insure his interest under the description of freight; but it appears wrongly decided. See the observations of Phillips, vol. i. s. 480. In United States Shipping Co. *v.* Empress Ass. Co., [1907] 1 K. B. 259, it was not disputed that the charterer could insure his interest as freight.

(*u*) Arnould added (2nd ed. vol. i. p. 311): "At all events, for the surplus by which such freight exceeds the sum he has engaged to pay the shipowner as charter-money." This qualification agrees with Phillips' opinion, if it means that where by the operation of the same peril the charterer loses the freight which he would otherwise receive, and is discharged from his liability to pay freight to the shipowner, he is, on the principle of indemnity, only entitled to recover such surplus. See 1 Phillips, s. 337; see also 1 Parsons, 175. In U. S. Shipping Co. *v.* Empress Ass. Co., *supra*, Channell, J., held, however, that a charterer was entitled on a policy on freight to recover the gross freight which he would have received under a sub-charter, without deducting the hire which he would have had to pay to the shipowner. The decision was affirmed on a question of fact, [1908] 1 K. B. 115. See also Mar. Ins. Act, 1906, s. 16 (2), *infra*, § 365, where it is stated in general terms that in insurance on freight the insurable value is the gross amount of the freight at the risk of the assured.

(*x*) Flint *v.* Flemyng (1830), 1 B. & Ad. 45; Devaux *v.* J'Anson (1839), 5 Bing. N. C. 519. See Mar. Ins. Act, 1906, Sched. I. rule 16, *ante*, § 229.

(*y*) The contrary was held in the American case of Mellen *v.* National Ins. Co. (1829), above cited: but the case of Flint *v.* Flemyng was not adverted to.

Sect. 262.

A charterer who wishes only to insure the surplus of the freight which he expects to receive over the freight which he will have to pay, can do so by a policy on "profits on charter," or "difference of freight" (*z*).

Owner who sells his ship, reserving right to the freight.

The vendor of a ship who reserves his right to the freight being earned at the time is in a similar situation to a charterer who takes goods on freight, and ought, therefore, to have an insurable interest in such freight (*a*).

Charterer's interest in dead freight.

A charterer who agrees to pay dead freight, in case the ship be prevented by political or other circumstances from discharging her outward, or shipping her return, cargo, has an insurable interest to the same extent, and may protect himself by a policy properly framed to cover his liability under the terms of the charter-party (*b*). The risk insured against in this case was the contingent determination of the adventure by the foreign government at the port of discharge, and it was insured for the charterer; the shipowner might also have insured his interest in the freight under a common policy against ordinary risks (*c*).

Advance freight.

263. Sect. 12 of the Marine Insurance Act, 1906, declares that—

> "In the case of advance freight, the person advancing the freight has an insurable interest, in so far as such freight is not repayable in case of loss."

Charterer's interest in advances on freight.

A charterer who advances money under the terms of the charter-party in part payment of the freight has, therefore, an insurable interest in the money so advanced; for as such money cannot, in case of the loss of the ship or cargo, be recovered back, the loss of the ship or cargo involves the loss

(*z*) See *ante*, § 239.

(*a*) The contrary has been decided in the United States (Riley *v.* Delafield (1811), 7 Johns R. 522); but this decision, as Phillips has ably pointed out, does not rest on satisfactory grounds. See 1 Phillips, Ins. s. 480.

(*b*) Puller *v.* Staniforth (1809), 11 East, 232; see also Puller *v.* Glover (1810), 12 East, 124; Puller *v.* Halliday (1810), 12 East, 494.

(*c*) See the observations in 1 Phillips, Ins. s. 336.

Sect. 263.

of the benefit which the charterer expected to derive from the payment (*d*). But in order to give him such an insurable interest it must appear, by fair and reasonable inference from the words in the charter-party, that the money advanced is an advance in part payment of the freight.

When, as is usually the case, the advance is made under a stipulation in the charter-party, the question whether the advance is a mere loan to the shipowner to be repaid in any event, and therefore not insurable by the charterer, or whether it is an advance in part payment of freight, which the charterer therefore can insure, depends on the construction of the charter-party alone. An advance which is not stipulated for in a charter-party will be treated as made on account of freight if it clearly appears, from the transaction between the parties, that this was their intention (*e*).

As soon as the advance freight becomes due, the charterer's insurable interest therein commences; for even though a loss should take place before any payment has been made, the charterer is liable to pay the advance freight (*f*).

When an advance is part payment of freight.

264. No rule can be laid down to determine generally when an advance is a part payment of freight. When the question is one of the construction of the charter-party, such construction should not depend "on strict grammatical form, or on the apparent meaning of any one phrase in (the charter-party) taken by itself, but on the apparent expressed meaning, as to practical results, of the whole. It should be construed by considering the terms of it, and the decisions in former cases of terms similar, though perhaps not identical" (*g*).

(*g*) Per Brett, J., *ubi supra*. On the question, when an advance

Sect. 264.

The following cases are instructive examples:—

Cases on the point.

De Silvale v. Kendall.

The covenant as to payment of freight in a charter-party on a ship bound from Liverpool to Maranham and back, was to the following effect:—"Such freight to be paid as follows, viz., 120*l*. British sterling for freight of the outward cargo to Maranham, and as much cash as may be found necessary for the ship's disbursements at Maranham, to be advanced by the charterer or his agents to the master when required, free from interest or commission, &c., and the residue of such freight to be paid on the delivery of the cargo in Liverpool," &c.: Lord Ellenborough and the Court of King's Bench held, that under the special terms of this charter-party the money advanced must be held to have been advanced specifically on account of freight, and therefore, upon the loss of the ship before any freight earned, could not be recovered back by the charterer from the owner as money had and received (*h*). "In this case," as Lord Tenterden remarks, "the instrument was studiously framed so as to make the freighter lose the money advanced by him unless the owner reaped the benefit by the ship's coming home safe" (*i*).

Manfield v. Maitland.

Where, however, the charter-party did not on the face of it clearly and distinctly import that the sum advanced was a payment on account of freight, but merely contained the words, "The captain to be supplied with cash for the ship's use," the Court held, that the charterer had no insurable interest in bills of exchange drawn on him by the master in respect of cash so supplied, it not appearing by the charter-

is held to be on account of freight, see, in addition to the cases cited *supra*, Hicks *v.* Shield (1857), 7 E. & B. 633; 26 L. J. Q. B. 205; Williams *v.* North China Ins. Co. (1876), 1 C. P. D. 757; Byrne *v.* Schiller (1870, 1871), L. R. 6 Ex. 20, 319; 40 L. J. Ex. 177; Watson *v.* Shankland (1873), L. R. 2 H. L. (Sc.) 304; The Red Sea, C. A., [1896] P. 20; Weir *v.* Girvin, [1900] 1 K. B. 45; Carver, ss. 564—566.

(*h*) De Silvale *v.* Kendall (1815), 4 M. & S. 37. Lord Ellenborough and Dampier, J., lay some stress upon the words "free from interest and commission," as showing that the money advanced was not intended to be a loan.

(*i*) Per Abbott, C. J., in 4 B. & Ald. 585.

Sect. 264.

party to be advanced as a part payment of freight (*j*). But where the freighters of a general ship paid her disbursements abroad, and by the request of the owners took the captain's bill, drawn against freight, on the consignees of the cargo in this country, in discharge of such disbursements, it was held, that as the freighters had agreed to advance on credit of the freight, which was distinctly pledged by the captain's bill, they had an insurable interest in freight, and might recover on a policy describing their interest as "an advance on account of freight" (*k*).

Wilson v. Martin.

By a charter-party the freighters were to pay, for the use of the ship "for the voyage, 10,000 dollars in manner following:—viz., in China, all the sums that might be necessary for the payment of port charges and other incidental expenses (the latter not to exceed 2,000 dollars), and the balance at thirty days after the ship's return to the port at Buenos Ayres": and Lord Tenterden admitted that the freighters had an insurable interest in payments made under this stipulation by their agents at Canton in respect of port charges and incidental expenses, and that they might insure such payments as "money paid for shipment of goods to be transported to Buenos Ayres" (*l*).

Winter v. Haldimand.

Effect of term "subject to insurance."

A stipulation in the charter-party that an advance is "subject to insurance," or subject to a deduction on account of insurance, is sufficient to show that it is a payment on account of freight, and not a mere loan (*m*). The term "subject to insurance" does not imply any liability on the part of the shipowner to insure on behalf of the charterer,

(*j*) Manfield *v.* Maitland (1821), 4 B. & Ald. 582; see also Saunders *v.* Drew (1832), 3 B. & Ad. 445.

Sect. 264.

but only that a sum equal to the premium is to be allowed to the latter, who can insure if he chooses (*n*).

Where advance freight was only payable "if required," it was considered by the Court of Appeal that the charterer could have no insurable interest therein until he should become liable to pay it, and that there could be no such liability until after a requirement had been made (*o*).

Insurable interest in freight usually confounded with duration of risk.

265. We will now consider when the insurable interest of the shipowner (or of the charterer who is in the position of a shipowner) in the freight begins. The question whether the assured on freight has at the time of the loss an insurable interest in the freight is one which is often treated in the cases and text-books in a way which causes a difficulty in distinguishing it from the question of the duration of the risk under a policy on freight. Yet these questions are different ones. Whether there be an insurable interest is a matter independent of the policy. In the absence of an insurable interest, the assured cannot maintain an action, however the policy be worded. If, on the other hand, he had an insurable interest, the question arises whether the loss occurred within the limits of place or time fixed by the policy. Arnould confined himself in this chapter to a statement of general principles, and afterwards discussed at length the question of insurable interest in freight in connection with that of the duration of the risk. The present editors have thought it advisable to deal fully with the question of insurable interest in its proper place, especially as in their opinion the author's statement of the law on the subject was not altogether supported by the authorities.

Arnould's doctrine as to insurable interest in freight.

266. Arnould, in the second edition of this work (*p*), stated the law as to insurable interest in freight in the following terms:—"In order to give an insurable interest on freight, there must be, 1. A title, either legal or equitable, in the party insuring, subsisting at the time of loss, in the subject out of the ownership of which the right to freight accrues, *i.e.*, the ship. 2. There must be, at the time of loss, an inchoate right to the freight; in other words, the position of things must be this, that but for the intervention of the loss freight would have been realized by the party insuring.

(*n*) Watson *v.* Shankland (1873), L. R. 2 H. L. (Sc.) 304; per Manisty, J., Rodocanachi *v.* Milburn (1886), 17 Q. B. D. 316, 321.
(*o*) Smith *v.* Pyman, [1891] 1 Q. B. 742.
(*p*) Vol. i. pp. 287—289.

Sect. 266.

"First, then, the party effecting an insurance on freight must have a title in the ship, either legal or equitable, subsisting at the time of loss; 'for the right to freight results from the right of ownership, and if the assured have no title to the ship they have no interest in the freight' (*q*).

"Secondly, at the time of the loss there must be an inchoate right to the freight in the party insuring; in other words, he must be so situated with respect to it as that he would certainly have earned freight but for the intervention of the loss. The principle here is, that where nothing intervenes between the subject insured and the possession of it but the perils insured against, the person so situated may insure the safety of such subject of insurance, for he has an interest to avert the perils insured against (*r*). . . . .

"The word freight, in policies of insurance, means, as we have already had occasion to observe, either, 1. Freight properly so called, *i.e.*, the sum paid to the shipowner for the transport of goods in his ship; or, 2nd. The price agreed to be paid by charter-party for the hire of the ship, which is, strictly speaking, rather to be called charter-money than freight.

"The shipowner's right to freight in the former case does not accrue—in other words, he has no inchoate right to freight—and therefore no insurable interest thereon, unless the goods or a part of them are actually loaded on board the ship before

(*q*) Camden *v.* Anderson (1794), 5 T. R. 709; and see *S. C.* (1796), 6 T. R. 723; (1798), 1 B. & P. 272; see also Marsh *v.* Robinson (1802), 4 Esp. 98.

Sect. 266.

the loss; 'or are so situated with respect to the ship as to create a well-grounded expectation of freight being realized' (*s*).

"The true proposition, in fact, as far as regards freight properly so called, is this: that, in order to give the shipowner an insurable interest in such freight, he must prove that but for the intervention of the perils insured against some freight would have been earned, either by showing that some of the goods for the transport of which it was to be paid were actually put on board, or that there was some contract for putting them on board, that the ship was ready to receive the goods, and the goods ready to be shipped under such contract, before the loss (*t*).

"On the other hand, where the freight intended to be insured is the price of the hire of the ship under a charter-party, the cases show that the inchoate right to such freight vests in the shipowner directly the ship has broken ground on the voyage described in the charter-party; from that moment nothing can intercept the earning of freight under the terms of the charter-party, except the breaking-up of the voyage by the perils insured against; and, consequently, from that moment the shipowner has an insurable interest in the freight which but for the intervention of such perils he has thus put himself in a position to earn (*u*).

"The shipowner has an insurable interest in the profit he expects to make by carrying his own goods in his own ship, and this interest he may protect by a general policy on freight (*x*).

"The charterer, as we shall see more at large hereafter, has an insurable interest in protecting himself against the liability of having to pay dead freight, under the covenants of a charter-party, to the full amount of the sum he has covenanted so to pay" (*y*).

Sect. 266.

Misleading expressions in relation to insurable interest in freight.

267. We propose to consider in detail the cases cited by Arnould (*z*) on the question when the insurable interest commences. Before doing so, however, we think it advisable to draw attention to certain expressions which have been generally used both by Judges and text-writers, but which in their literal sense bear a meaning which it is safe to say they could not be intended to convey. We refer to such expressions as that the assured must prove that he "would certainly have earned freight but for the intervention of the loss," or that "but for the perils insured against some freight would have been earned," or that "nothing could intercept the earning of the freight under the terms of the charter-party except the breaking-up of the voyage by the perils insured against" (*a*). There need not be a *certainty* that but for the loss freight would have been earned. All that can be required is, that in the ordinary course of things, each party performing his contract, some freight would have been earned (*b*). Thus, if a ship be lost while sailing under the terms of a charter-party to her port of loading, the shipowner

Not necessary that earning of freight would have been certain but for loss.

(*y*) Puller *v.* Staniforth (1809), 11 East, 232.

(*z*) 2nd ed. vol. i. pp. 522—532.

(*a*) *Supra.*

(*b*) Thus, Lawrence, J., says that an insurance may be to protect men against the loss by uncertain events of the advantage or profit which but for such events they would acquire *according to the ordinary and probable course of things.* Lucena *v.* Craufurd (1806), 2 B. & P. N. R. 269, 301. So also, in Davidson *v.* Willasey (1813), 1 M. & S. 313, 317, Le Blanc, J., speaks of "a contract for freight, under which, except for the wrongful act of the party with whom he has contracted, he (the assured) would be in a condition to earn his freight if the voyage were not stopped by a peril insured against." See also per Richardson, J., in Truscott *v.* Christie (1820), 2 Brod. & B. 320, 532. In Rankin *v.* Potter (1873), L. R. 6 H. L. 83, where the claim was for a total loss of freight by perils of the sea, it appeared that the charterer became insolvent after the ship was damaged, but before she was abandoned, and had actually failed to supply a cargo: the House of Lords held, that this did not prevent the assured from recovering. See L. R. 6 H. L. 154, 160, 167.

Sect. 267. has, as will presently appear, an insurable interest in the freight to be earned under the contract; and he can, therefore, recover the consequent loss of freight under a properly worded policy, although if the loss had not taken place he might still have lost the freight through the subsequent insolvency of the charterer, and the latter's inability to provide a cargo or pay dead freight (*e*). Again, the use of the words "perils insured against" in the expressions cited above is obviously incorrect. A more accurate term would be "perils insured against or other perils incident to the voyage." Thus, if the insurance were against capture only, it could not be said that nothing but a capture could intercept the earning of the freight. Yet a loss by capture would none the less be recoverable under the policy.

Insurable interest in freight proper.

268. The insurable interest in freight properly so called (*i.e.*, the price to be paid to the shipowner by the owner of goods on their arrival for their carriage in the ship) will first be considered.

Earliest case, Tonge *v.* Watts.

In the earliest reported case, it was decided by Lee, C. J., that the assured could not recover for the freight of goods ready to be shipped, but not yet loaded on board, at the time of the loss (*d*); but a more liberal rule was established by the later cases.

Montgomery *v.* Eggington.

The first case which extended the rule laid down by Lee, C. J., was Montgomery *v.* Eggington, which established that, where part of the goods were actually on board at the time of the loss, and all were ready to be shipped, the policy attached on the whole freight. The insurance was on freight valued at 1,500*l.*: when only 500*l.* worth of freight was on board, the ship was driven from her moorings and lost, but goods to the amount of the rest of the freight were ready to be shipped, and were lying on the quay for that purpose, at the time of the loss. The jury, under the direction of Lord Kenyon, found a verdict for the whole sum, which the

(*c*) Rankin *v.* Potter (1873), L. R. 6 H. L. 83.
(*d*) Tonge *v.* Watts (1746), 2 Str. 1251.

Court of King's Bench, on motion for a new trial, refused to disturb (*e*). Sect. 268.

Parke *v.* Hebson.

The same principle was applied in other cases. Thus, an insurance was effected on the freight of a general ship, which was to complete her lading at a number of different ports, and to be paid freight for the same according to the terms usual in the colonial trade. The ship, after having taken on board part only of her return cargo, was lost at Jamaica, while passing from port to port in that island in order to complete it. It appeared, however, that, although only part of the cargo was shipped at the time of the loss, yet contracts had previously been made for the whole of the residue: upon this evidence plaintiff was allowed to recover for the whole freight (*f*).

Truscott *v.* Christie.

A shipowner insured freight and passage money for a homeward voyage "at and from Madras and all ports and places in the East Indies to the United Kingdom." He had agreed with the government of Madras to carry goods for them on board his ship at certain freight, and also to fit her up with an extra deck, and make other alterations for the purpose of accommodating 200 invalids, whom the company engaged to send home in his ship at a fixed rate of passage money. He had commenced making the alterations, had received on board the greater part of the cargo, and had shipped water for 100 invalids, when, before the alterations were completed, or any of the invalids embarked, the ship was driven from her moorings and totally disabled. The Court held that he was entitled to recover the whole freight for all the goods that were to be shipped under the contract,

(*e*) Montgomery *v.* Eggington (1789), 3 T. R. 362. Lord Kenyon, in Thompson *v.* Taylor (1795), 6 T. R. 482, thus distinguishes this case from that of Tonge *v.* Watts: "In the case in Strange, the inception of the contract would have been the taking of the goods on board; but as the loss happened before the goods were put on board, there was no inception of the contract, and the plaintiff was nonsuited: but in the case of Montgomery *v.* Eggington there was an inception of the contract, because part of the goods had been put on board."

(*f*) Parke *v.* Hebson (*circa* 1820), cited 2 Brod. & B. 326.

Sect. 268.

and passage money for as many invalids as his ship would have carried, on the ground that he had a contract for both the freight and the passage money, and that he had begun to execute his part of the contract, the completion of which would have entitled him to his money, and had been prevented by perils of the sea (*g*).

Cases in which the assured recovered though no goods had been shipped.

In these cases some portion of the goods from the carriage of which freight was to arise had been actually shipped on board at the time of the loss; in later cases the assured recovered for the freight for the whole cargo though no part had been shipped, but the whole had been purchased or contracted for at the time of the loss. Thus, where freight was insured for a homeward voyage "at and from the Island of Granada to London," and the ship was lost while she was proceeding from one port of Granada to another, before she had discharged all her outward cargo, and before any of the homeward cargo had been actually shipped on board, but it appeared that a full homeward cargo had been contracted for at the time of the loss, it was not disputed that the risk had attached on the whole freight for the homeward voyage (*h*).

Warre *v.* Miller.

Flint *v.* Flemyng.

So, where freight was insured on a homeward voyage "at and from Madras to London," and the day after the ship had finished discharging her outward cargo at Madras she was totally lost by the perils of the sea, and no part of the homeward cargo was then shipped, but the captain had purchased for the ship a quantity of red wood to be laden on board, and a mercantile house at Madras had also engaged to ship a quantity of saltpetre, the Court held, that the plaintiff was entitled to his full freight for the red wood and saltpetre (*i*).

Devaux *v.* J'Anson.

An insurance was effected on freight "from Calcutta or any port or place on the Coromandel Coast to Bourbon;" the ship, on arrival at Coringa, on the Coromandel Coast, was taken into dry dock for repairs: during which the supercargo purchased, on behalf of the owners, a return cargo to

(*g*) Truscott *v.* Christie (1820), 2 Brod. & B. 320.
(*h*) Warre *v.* Miller (1825), 4 B. & Cr. 538.
(*i*) Flint *v.* Flemyng (1830), 1 B. & Ad. 45. See *post*, § 269.

Sect. 268.

Bourbon, which was warehoused at a place seven miles from Coringa, and was there lying ready to be conveyed on board the ship on the day when she was reported ready for sea. On that day she was still in the dock, but on being floated into the river would have been ready to receive her cargo; but in attempting to leave the dock she was so much damaged that she was obliged to be broken up and sold. Under these circumstances, the Court of Common Pleas held, that as the whole of the return cargo was purchased and ready to be put on board at the time of the ship's loss, and as that loss was occasioned by a peril within the policy, the plaintiffs were entitled to recover the full freight on the whole of the return cargo (*k*).

It must be observed that in this case the intended cargo was the property of the shipowners. There could not, therefore, be any contract for its shipment or for the payment of freight for its carriage. Under such circumstances, all that the Court deemed it necessary to determine with regard to the cargo was, that it must have become the property of the parties insured (*l*) by a contract made with a view to its being sent on board, and must actually be in a state of readiness, reference being had to the nature and description of the voyage insured, to be put on board when the ship arrived at the place of loading (*m*).

The form of the contract of affreightment is immaterial,

269. As to the contract under which the cargo is to be shipped on board, all that is required is, that it should be valid and binding at law; its form is not material (*n*).

provided there is a binding contract.

It is, however, essential, where the plaintiff seeks to recover the whole freight for a cargo only part of which, or none of which, has been actually loaded on board, that he should prove the existence of some actual binding contract for shipping such cargo.

(*k*) Devaux *v.* J'Anson (1839), 5 Bing. N. C. 519.
(*l*) "Freighters" must be substituted for "parties insured," to make this statement applicable where the shipowner is not the cargo-owner.
(*m*) Devaux *v.* J'Anson (1839), 5 Bing. N. C. 539.
(*n*) Per Lord Ellenborough in Patrick *v.* Eames (1813), 3 Camp. 441.

Sect. 269.

Patrick v. Eames.

Thus, under a policy on freight, the ship had sailed from Sierra Leone with the intention of taking in a complete cargo of orchella weed from the Cape de Verd Islands, and was lost when only 150 bags had been shipped on board, and it did not appear that any more orchella weed was then ready to be loaded (*o*), or that any binding contract, whether verbal or otherwise, had been made for supplying it; Lord Ellenborough held, that the plaintiff was only entitled to the freight on the 150 bags actually shipped (*p*). So in the case of Flint *v.* Flemyng, in addition to the red wood which the captain had purchased, and the saltpetre which the mercantile house had formally contracted to put on board, it was proved that a partner in that house had also engaged verbally to ship on board ninety tons of light goods. With regard to these ninety tons, the Court ordered a new trial, because the question was not distinctly submitted to the jury, whether there was any binding contract for shipping those goods (*q*).

Flint v. Flemyng.

Two other cases were cited by Arnould to establish the proposition that the assured cannot recover for a loss of freight unless the ship was at the time of the loss ready to receive the cargo and the cargo ready to be shipped. One was Forbes *v.* Aspinall, in which the facts were as follow.

Forbes v. Aspinall.

A policy was effected on freight valued at 6,500*l.*, for a homeward voyage "at and from any port or ports in Hayti to Liverpool, or the ship's port of discharge in the United

(*o*) It was proved that persons were actually engaged in the different islands in picking and preparing it. See the report.

(*p*) Patrick *v.* Eames (1813), 3 Camp. 441.

(*q*) Flint *v.* Flemyng (1830), 1 B. & Ad. 45. The principle of these cases was applied by Hamilton, J., in Scottish Shire Line, Ld. *v.* London & Provincial Mar. Ins. Co., [1912] 3 K. B. 51. This was an insurance on freight "chartered or as if chartered," and the plaintiffs contended that under the words "as if chartered" they were entitled to recover for a loss of the freight of cargo which the ship was expected to load, but for which there was not a binding contract. "I cannot find," said the learned judge (p. 65), "that the words 'freight, or chartered freight, or freight as if chartered' have ever been applied to the expectation, however well founded, that a ship's agent will procure a cargo for her, where there is no actual binding engagement to that effect."

Sect. 269.

Kingdom." There was no charter-party; and the ship, which was a general or seeking ship, sailed from Liverpool to Hayti with a cargo intended for barter. At Jacmel, in Hayti, she bartered away part of her outward cargo, and took in exchange fifty-five bales of cotton as part of her homeward lading. She was proceeding from Jacmel to Aux Cayes, another port in Hayti, to barter away the rest of her outward cargo and complete her lading home, when, with the great bulk of her outward cargo still on board, she was totally lost by the perils of the sea. It did not appear that any goods were ready, or had been contracted for, at Aux Cayes, to be loaded on board the ship at the time of the loss; and the Court held, that the plaintiffs could only recover for a part of the agreed value of the freight in the same proportion as the fifty-five bales bore to a full cargo (*r*). Lord Ellenborough— after distinguishing the case from those in which the freight was secured under a charter-party, and in which, consequently, the risk on the whole freight commenced by the inception of the voyage—went on to show in what the case before the Court differed from Montgomery *v.* Eggington and the other decisions by which that case was supported and confirmed. "There," said his Lordship, "a full cargo was ready to be laden, and the ship in a state ready to receive it; and nothing but the perils insured against did or (as it appears) could prevent its being received; here it was uncertain whether any additional cargo could have been ever procured, and the outward cargo must also have been discharged before the homeward cargo could have been completed. So that the ship was not ever in a condition to receive her homeward cargo, even if the cargo had been ready, which it never was, to have been put on board."

Lord Ellenborough's judgment.

Arnould, after citing this passage, states (*s*) that the grounds upon which this decision proceeds are:—

1. That, as in this case there was no entire contract for

(*r*) Forbes *v.* Aspinall (1811), 13 East, 323. Forbes *v.* Cowie (1808), 1 Camp. 520, was the same case, only on an open instead of on a valued policy, and the result was the same.

(*s*) 2nd ed. vol. i. p. 531.

Sect. 269.

freight under a charter-party for the whole voyage out and home, the right to the whole freight did not accrue by the inception of the outward voyage. 2. That none of the cargo in respect of which freight was claimed was ever ready for the ship. 3. That, even had it been so, the ship at the time of the loss was not in a state of readiness to receive the cargo (*t*).

The real ground of the decision seems, however, to be that, except as to the fifty-five bales on board, there was no contract at the time of the loss under which the shipowner could claim freight. "In a case, therefore, circumstanced as this is," Lord Ellenborough said in conclusion, "where the valuation was with reference to freight upon a *complete* cargo; where a complete cargo, or anything like a complete cargo, never was in fact obtained, and for all that appears never might have been obtained; where there was no contract by any person to load a complete cargo or pay dead freight, but the ship was a mere seeking ship; we cannot feel ourselves warranted in saying that there has been a total loss by any peril insured against of that which the insurance was intended to cover" (*u*).

Williamson *v.* Innes.

The following were the facts in the remaining case. A policy was effected on freight for a homeward voyage "at and from Algoa Bay to London." There was a charter-party. The ship, after she had arrived at Algoa Bay, and had unloaded there all the outward cargo destined for that place that she safely could, was just about commencing to load on board her homeward cargo, which was there lying ready for her, when she was lost by a hurricane. The report of Lord Lyndhurst's ruling merely states that he told the jury that if the ship was in a condition to begin to take in her homeward cargo, the plaintiff was entitled to recover; if not, then the verdict ought to be for the defendants; and the jury found for the plaintiff (*x*).

(*t*) See, as to the ship, per Tindal, C. J., in Devaux *v.* J'Anson (1839), 5 Bing. N. C. 538.

(*u*) 13 East, 331.

Sect. 270.

Result of the cases on insurable interest in freight proper.

270. The question must now be considered, whether these cases establish the proposition that the assured on freight, in order to show an insurable interest, must prove that "the ship was ready to receive the goods, and the goods ready to be shipped under the contract" (*y*).

Must the ship be ready to receive the cargo?

First, must the ship be ready to receive the goods? In Parke *v.* Hebson (*z*), the ship, having taken on board part of her cargo, was lost while proceeding to another port to load other goods which had been contracted for. She was certainly not ready to receive those goods, yet the shipowner recovered the freight on them. In Truscott *v.* Christie (*a*), the ship at the time of the loss was being altered to make her able to accommodate 200 invalids. The alterations were not completed, and the point was taken that at the time of the loss the ship was not ready to receive the invalids. The Court, however, held that the assured could recover on a policy on the passage money, to which obviously the same principles must apply as to a policy on freight. The ground of the decision was, that there was a contract for the passage money, and that something was done under the contract. In Warre *v.* Miller (*b*), the ship had not unloaded all her outward cargo; but as it was not disputed at the trial that the risk had attached, the Court would not allow the point to be taken that the ship was not ready, and therefore the case cannot be relied on as an authority. In Devaux *v.* J'Anson (*c*), again, the loss took place while the ship was still in the dry dock in which she had been repaired. It is true that Tindal, C. J., did say that the ship was ready to receive her cargo; but it is difficult to reconcile this statement with the fact that she was not yet at the actual place where she was to take the cargo on board (*d*).

(*y*) *Ante*, § 266.

(*b*) (1825), 4 B. & Cr. 538.

(*c*) (1839), 5 Bing. N. C. 519.

(*d*) It may, however, be argued that the term "ready" is used in a somewhat different sense, which does not require that the vessel

Sect. 270.

Against these decisions there are only a passage in Lord Ellenborough's judgment in Forbes *v.* Aspinall (*e*) (the true *ratio decidendi* of which case seems to have been that there was no contract for the return cargo) and the reported ruling of Lord Lyndhurst in Williamson *v.* Innes (*f*). As to the latter, it may be remarked, it was only a *nisi prius* ruling. The freight was chartered freight, and the ruling, as reported, is opposed to the cases on chartered freight, such as Barber *v.* Fleming (*g*) and Foley *v.* United Fire and Marine Insurance Co. (*h*), as well as to the cases already considered (*i*).

Must the cargo be ready to be shipped?

271. Again, must the cargo be ready to be shipped before the insurable interest commences, or is it enough that there is a binding contract for freight? It was unnecessary to decide this point in Forbes *v.* Aspinall (*k*), as the cargo was not contracted for. In Parke *v.* Hebson (*l*) and Flint *v.* Flemyng (*m*), only the question whether there was a contract seems to have been considered. In Devaux *v.* J'Anson (*n*), the point whether the cargo was ready to be shipped was discussed; but that was the case of a shipowner insuring the freight of his own goods, to which, as has already been suggested and as will be shown hereafter, different considerations apply (*o*). The case is therefore not a true authority to prove that where the shipowner does not carry his own

should be at the precise spot where the loading will commence: see Leonis SS. Co., Ltd. *v.* Rank, Ltd., [1908] 1 K. B. 499.

(*e*) (1818), 13 East, 323, 331. See the remarks of Tindal, C. J., in Devaux *v.* J'Anson (1839), 5 Bing. N. C. 519, 538, as to the bearing upon the case of the fact that the ship was not ready to load.

(*f*) (1831), cited 8 Bing. 81.

(*o*) *Post*, § 277.

goods the cargo must be actually ready. All that the cases really establish on the point is that there must, at the time of the loss, be a valid contract under which goods are to be loaded, and on principle this seems all that should be necessary (*p*). The shipowner is entitled to assume that the goods contracted for will be ready at the proper time (*q*). Sect. 271.

It is submitted that these cases do not establish the rule that the insurable interest in freight proper only begins when the ship is ready to receive the goods, and the goods are ready to be shipped. They show that there is at any rate an insurable interest when the assured, having a valid contract for freight, has taken steps towards the earning of the freight. The view that under these circumstances there is an insurable interest is supported by the decision of the Court of Queen's Bench in Barber *v.* Fleming (*r*). That was a case of chartered freight, but the decision is of general application, as it did not depend on the question whether there had been an inception of the charter-party contract. Whether it may not be possible to state the rule even more broadly will be considered presently (*s*).

Insurable interest in chartered freight.

272. We have now to consider insurable interest in chartered freight, *i.e.*, in a fixed sum stipulated to be paid to the shipowner by the terms of a charter-party for the use of his ship, or part of it, on an entire voyage therein described.

Under such a contract the ship may earn freight though no goods may ever be put on board, and the question whether, at the time of loss, she had taken any goods on board for the voyage insured, or whether any were contracted to be shipped, does not arise.

Result of the cases.

A series of cases shows that there is an inchoate right to such freight, and therefore an insurable interest from the inception of the voyage described in the charter-party (*t*).

(*p*) See 1 Parsons, pp. 169, 178.

(*q*) See Rankin *v.* Potter (1873), L. R. 6 H. L. 83; and *ante*, § 267.

(*s*) See *post*, § 279.

(*t*) Thompson *v.* Taylor (1795), 6 T. R. 478; Horncastle *v.* Suart

Sect. 272.

On this principle, when by the terms of the charter-party the ship is to proceed from A. to B., and at B. load a cargo for C., there has been held to be an insurable interest in the freight of this cargo, as soon as the ship breaks ground at A. to proceed to B.

Thompson v. Taylor.

In the first of this series of cases the facts were as follow: A shipowner who insured half the freight of his ship on a voyage "at and from London to Teneriffe, and at and from thence to the Bay of Honduras," has chartered the ship to sail from London to Teneriffe, where she was to take wine on board and carry it out to the West Indies; freight for the whole voyage to be paid at the rate of 35*s.* per pipe. The ship sailed from London on her voyage under the charter-party; and before her arrival at Teneriffe, and, of course, before any of the wine was taken on board, she was captured by the French. The Court held that the insurable interest and the risk upon the freight had commenced directly the ship sailed from London on her voyage by which the freight was to be earned. Lord Kenyon said: "As the plaintiff had begun to perform his part of the contract, as he had done something under it which, if matured, would have entitled him to his freight, I think he may recover under this policy, which was an insurance on that freight" (*u*).

Previous voyage incorporated by the charter-party.

273. A previous voyage may be incorporated into the charter-party, so that there is an inception of the voyage described in the charter-party during the performance of the prior voyage.

Rankin v. Potter.

By charter-party it was agreed that the "Sir William Eyre," then on a voyage from the Clyde to New Zealand, should proceed to New Zealand with a cargo for owners'

Sect. 273.

benefit, and thence to Calcutta, and there load a cargo for Liverpool for the freighter. The owners of the ship effected a policy on homeward chartered freight from Calcutta to Liverpool, at and from the Clyde to Otago, New Zealand, and for thirty days in port there after arrival. At New Zealand the vessel grounded, and received such damage by sea perils as to become a constructive total loss, and in the result she was not repaired, and the homeward freight was not earned. It was not disputed that there was an insurable interest in such freight, and the House of Lords decided that the plaintiff was entitled to recover under the policy (*x*).

Foley v. United Fire and Marine Ins. Co.

A vessel when about to sail with cargo from Calcutta to Mauritius was chartered to carry a cargo of rice from Akyab to the United Kingdom. The charter-party stipulated that she should "with all convenient speed sail on her present voyage to Mauritius, and having discharged her cargo there," should proceed to Akyab and there load the rice. She arrived at Mauritius in good safety, and when about two-fifths of her cargo were discharged, she was wrecked with the residue on board. Upon a policy on chartered freight "at and from Mauritius to rice ports," the Exchequer Chamber held that the shipowner could recover. "It is the express condition in the charter-party," said Kelly, C. B., "that the voyage shall commence at Calcutta, and the inchoate right to freight attached when the voyage from Calcutta commenced." There being thus an insurable interest, it followed that the risk under the policy began upon the arrival of the ship at Mauritius (*y*).

Contract may be entire though there be separate payments of freight.

274. When a ship is chartered for a double voyage, as from A. to B., and from B. to C., or back to A., the contract is none the less an entire one because separate sums are to be paid as freight for the different parts of the voyage (*z*). Therefore the shipowner's interest in the whole

(*x*) Rankin *v.* Potter (1873), L. R. 6 H. L. 83.

(*y*) Foley *v.* United Fire and Marine Ins. Co. of Sydney (Ex. Ch.) (1870), L. R. 5 C. P. 155.

(*z*) Horncastle *v.* Suart (1806), 7 East, 400; Davidson *v.* Willasey

Sect. 274. freight commences at the inception of the first part of the voyage.

Horncastle v. Suart. A shipowner effected an insurance on the freight of his ship for a voyage at and from Dominica to London. He had previously chartered the ship for a voyage from London to the Island of Dominica and back to London, on the terms of being paid half the net freight of the outward voyage, if it exceeded 1,000*l.*, but if not, then he should be paid 500*l.*; and, as to the homeward freight, the charterers covenanted to load a full cargo at the current freight, or, if the cargo should not be full, to pay dead freight for the deficiency. The ship was captured at Dominica before she had unloaded all her outward cargo. A full cargo of produce had been procured by the charterer's agents at Dominica, and was ready to be loaded on board the ship there. The Court held that as the voyage had commenced under which the freight was to be earned according to the terms of the charter-party, which made it one entire contract, the assured was entitled to recover for the homeward freight (*a*).

Davidson v. Willasey. Upon the same principle, where an insurance was effected on the homeward freight of a West Indian ship, chartered for a voyage out and home, on the terms of taking in a full cargo of produce for the homeward voyage, and the ship, after arriving at her out-port of discharge in the West Indies, was lost there, when she had taken on board only half her homeward cargo; the Court held that as there had been, at the time of loss, an inception of the entire voyage out and home, the risk had attached on the homeward freight, and the whole was recoverable (*b*).

Atty v. Lindo. A shipowner insured the outward freight of a West Indian ship "at and from London to Jamaica, with liberty to touch at Madeira, and discharge and take on board goods there." Under her charter-party, the ship was to sail from London,

(1813), 1 M. & S. 312. See also Ellis *v.* Lafone (1853), 8 Exch. 546; 22 L. J. Ex. 124.

(*a*) Horncastle *v.* Suart (1806), 7 East, 400.

(*b*) Davidson *v.* Willasey (1813), 1 M. & S. 312.

Sect. 274. with a cargo, which she was to dispose of at Madeira, and there receive from the charterers' agents wine to be taken on to Jamaica. The freight or hire for the whole voyage was 135*l.*, to be paid at Madeira, on delivery of the London cargo, in wine to be taken on board, and carried on, with the rest, to Jamaica, free of freight, under the denomination of freight wine. The ship at Madeira had taken in part of her Jamaica cargo, but not the freight wine, when she was blown out to sea and captured by the French.

The assured recovered the whole amount insured, on the ground that as soon as the ship broke ground from London on the voyage, an inchoate right to the whole freight attached, which was defeated only by the intervention of a peril insured against (*c*).

Ellis v. Lafone. The principle is illustrated by the following case. A ship, then at Monte Video, was chartered to proceed to the Falkland Islands, to sail thence to Santa Cruz and there load part of her cargo, and then to proceed to Monte Video and complete her cargo, and with it to proceed to Havre. Freight was to be paid at the rate of 250*l.* a month, the first payment of 250*l.* to be made when the ship sailed from the Falkland Islands (*d*). The charterer accordingly paid this sum of 250*l.* The ship took her cargo on board at Santa Cruz and Monte Video, and was afterwards lost on the voyage to Havre. The charterer had effected a policy on advance freight from Monte Video to Havre, on which he claimed this sum of 250*l.* It was contended that this was a separate sum paid for the voyage to the Falkland Islands; but the Exchequer Chamber held, that it was part of an entire sum payable for the whole voyage insured, and therefore remained at risk until the ship arrived at Havre (*e*).

Insurable interest before

275. In the cases that have been considered there had

(*c*) Atty *v.* Lindo (1805), 1 B. & P. N. R. 236.

(*d*) This was not the original charter-party, but it is a sufficiently correct statement, for the purpose of the text, of the contract as altered by agreement between the parties.

(*e*) Ellis *v.* Lafone (1853), 8 Exch. 546; 22 L. J. Ex. 124.

Sect. 275.

commencement of charter-party voyage.

been an inception of the voyage described in terms in the charter-party. The next case to be mentioned shows that there may be an insurable interest in freight, although the ship is not yet on the voyage so described.

Barber v. Fleming.

A ship, stated to be lying at Bombay, was chartered for a voyage from Howland's Island to the United Kingdom with a cargo of guano. A policy was effected "on freight chartered or otherwise" at and from Bombay to Howland's Island, while there and thence to the United Kingdom. The ship sailed in ballast from Bombay to Howland's Island, and was lost on the voyage thither. The charter-party had been entered into on the 7th of August, and the ship was required to be at Howland's Island on or before the 1st June of the following year; but it was not stipulated that she should said direct or by any particular route. On this ground the underwriter contended that nothing had been done under the charter-party to make the freight an inchoate interest. The Court of Queen's Bench, however, held, that as the ship had sailed from Bombay to Howland's Island in order to earn the freight under the charter from there to the United Kingdom, the interest in the chartered freight had commenced, and that the plaintiff could recover under the policy for its loss (*f*).

Cockburn, C. J., treated the voyage from Bombay to Howland's Island as part of the whole voyage necessary to earn the freight.

"From the moment," he says, "that a vessel is chartered to go from port A. to port B., and at port B. to take a cargo and bring it home to England, or to take it to any port, which I will call port C., for freight, the shipowner having got such a contract, has an interest unquestionably in earning the freight secured to him by the charter; and having such an interest it is manifest that that interest is insurable; and he loses the freight and benefit of his charter just as much by the ship being disabled on her voyage to the

(*f*) Barber *v.* Fleming (1867), L. R. 5 Q. B. 59.

Sect. 275.

port at which the cargo is to be loaded, and from which it is to be brought, as he would lose it by the disaster arising from the perils insured against between the port of loading and the port of discharge. It is therefore an appreciable tangible interest, and I entertain no doubt that it can be insured" (*g*).

Blackburn, J., said: "There is a policy of insurance made upon a voyage 'from Bombay to Howland's Island and from thence to England.' That is the description of the voyage. The nature of the thing insured is 'freight chartered or otherwise.' So that upon the face of the policy there is a bargain between the assured and the underwriters by which, if during that voyage, by one of the perils insured against, freight is lost, the underwriters should pay. We have, therefore, to see whether there was freight lost during the voyage, which involves the question whether this chartered freight had come into existence at the time the accident happened which caused the alleged loss; whether at that time the interest had commenced. When there is an insurance upon freight, so long as the matter remains merely contingent, so long as the shipowners have only a good hope of getting freight, no freight is in existence; and if the ship is lost there would be no loss of freight, inasmuch as the freight had never come into existence, and all that the shipowners have lost is the hope of earning the freight. But on the other hand, the law seems perfectly settled by a variety of cases, as I find it laid down by Mr. Phillips, in his book on Insurance, at s. 328, where he says: 'In regard to the commencement of this interest (on freight), it is a general rule that it commences, not only by the vessel sailing with the cargo on board, but also when the owner or hirer, having goods ready to ship, or a contract with another person for freight, has commenced the voyage, or incurred expenses and taken steps towards earning the freight.' I think that is the accurate rule. When a shipowner has got a contract with

(*g*) Barber *v.* Fleming (1867), L. R. 5 Q. B. 67.

Sect. 275.

another person under which he will earn freight, and has taken steps and incurred expense upon the voyage towards earning it, then his interest ceases to be a contingent thing, but becomes an inchoate interest, and is an interest which, if afterwards destroyed by one of the perils insured against, is lost, and ought to be paid for by the underwriters."

In answer to the argument that the interest had not commenced because the charter-party did not require the ship to stail at once or direct to Howland's Island, the learned judge said: "The spirit and reason of the rule are, that the interest commenced, not because the man acted under compulsion of the contract, but because he has acted so far under the contract as to show it is no longer speculative, but he had actually begun to do something which makes the inchoate interest attach, and makes it a real thing; and it seems to me that as soon as the ship, although not bound to go direct from Bombay to (Howland's Island), had begun to sail there, the interest had sufficiently attached" (*h*).

Cockburn, C. J., and Blackburn, J., both referred to the following passage in Phillips on Insurance, s. 335: "A vessel being chartered from A. to B., the interest in the freight commences under the charter-party on the vessel's sailing for A., either in ballast or with a small quantity only of goods for B." Phillips does not consider the case of a ship sailing for A. with a full cargo; and in Barber *v.* Fleming it was not necessary to decide whether, if the ship had been carrying a cargo to Howland's Island, there would have been an insurable interest in the freight from Howland's Island to the United Kingdom. It is submitted that this would have made no difference, for there is authority for saying that an act done for the purpose of one voyage may also be an act of preparation for the next voyage (*i*). In such a case, however, it would have been advisable to insure the freight from

(*h*) L. R. 5 Q. B. at p. 73.

(*i*) Warre *v.* Miller (1825), 4 B. & Cr. 538; Foley *v.* United Fire and Marine Ins. Co. of Sydney (1870), L. R. 5 C. P. 155, 160, 164.

Howland's Island specifically (*k*). Under an insurance on freight simply, it might have been argued that only the freight of the cargo carried from Bombay to Howland's Island was recoverable in case of a loss on that part of the insured voyage (*l*).

Sect. 275.

Insurable interest when ship let on time charter.

276. When a ship is let on a time charter, the usual stipulation is that she shall be placed at the disposal of the charterer at a given port. Barber *v.* Fleming (*m*) shows that under such a charter-party the shipowner has an insurable interest in the chartered hire or freight when he sends the ship to such port for the purpose of placing her at the charterer's disposal. The charter-party generally provides for monthly payments of the freight at a given rate. The contract is, however, usually an entire one, and, therefore, when the insurable interest has begun, there can be no doubt that it extends to the freight for the whole agreed period, or such part of it as still remains at risk (*n*). The general practice is to insure this chartered hire or freight by a time policy on freight with a "diminishing clause," *i.e.*, a clause by which the amount insured is reduced monthly as each payment becomes due (*o*).

Insurable interest in freight of shipowner's own goods.

277. When the shipowner wishes to insure as freight the benefit to be derived from the carriage of his own goods, the case is obviously very different from that of an insurance on the goods of others. There is no contract, and therefore no cargo-owner's obligation to provide a cargo, or shipowner's to load one. As the shipowner cannot call upon someone else to supply cargo he would be insuring a mere expectation, unless he has goods of his own which he is in a position to

(*k*) In Rankin *v.* Potter (1873), L. R. 6 H. L. 83, the ship carried a cargo on the outward voyage, and the insurance was on "homeward chartered freight."

(*l*) See post, § 358.

(*m*) (1869), L. R. 5 Q. B. 59; *ante*, § 275.

(*n*) See Horncastle *v.* Suart (1806), 7 East, 400; Ellis *v.* Lafone (1853), 8 Exch. 546; 22 L. J. Ex. 124; *ante*, § 274.

(*o*) See Gow, Mar. Ins., p. 233.

Sect. 277.

ship. The cases show that to give him an insurable interest he must have goods definitely intended for shipment, which are so far ready that he will be able to ship them in the ordinary course when the ship reaches her loading place (*p*). In Devaux *v.* J'Anson (*q*), the ship was not actually ready to take the goods on board, as the casualty which caused the loss of freight, for which the assured recovered, occurred while she was preparing to leave a dry dock (*r*). In answer, however, to the objection that the ship was not ready, the Court held that she was "quite ready to go to sea and to receive the cargo on board, that nothing remained to prevent her sailing, but the getting her out of dock" (*s*). The Court did not, however, actually determine that readiness of the ship was essential.

Rule 3 (d) in the first schedule of the Marine Insurance Act, 1906 (*t*) provides that when the freight of goods belonging to the shipowner is insured by the ordinary English policy "at and from" a particular place, the risk attaches as soon as the cargo is in readiness and the ship is ready to receive the cargo. This rule supports the view that the insurable interest does not begin until the ship is ready to take the goods on board, but the editors submit that it is not necessarily conclusive on the question of insurable interest (*u*).

Result of the authorities.

278. In conclusion, it is submitted that the following propositions are supported by the authorities:—

(1.) In respect of freight in the strict sense of the word, the shipowner has an insurable interest when,

(*p*) Flint *v.* Flemyng (1830), 1 B. & Ad. 45; Devaux *v.* J'Anson (1839), 5 Bing. N. C. 519. The facts of the latter case are set out *ante*, § 268.

(*q*) *Supra.*

(*r*) See, however, *ante*, § 270, note (*d*).

(*s*) In Flint *v.* Flemyng, *supra*, the ship had finished discharging her outward cargo the day before the loss. Whether she was in other respects ready to receive her homeward cargo does not appear.

(*t*) See *infra*, § 279a.

(*u*) See their remarks, *ibid.*

having a valid contract for the carriage of goods, he takes steps towards the earning of the freight. Sect. 278.

(2.) In respect of chartered freight, he has an insurable interest when there is an inception of the voyage described in the charter-party, or when he does something for the purpose of performing his contract, as by sending the ship to the port of loading to ship the cargo.

Is there an insurable interest in freight as soon as the contract is made? Tendency of the decisions.

279. The further question may be raised, whether an insurable interest in freight may not commence at an earlier period. The series of cases on the subject began in 1746 with Tonge *v.* Watts, in which the Court held that the insurable interest did not begin until the goods were actually loaded. The cases on freight proper show how the Courts, wherever there was an actual contract for freight, invariably relaxed the rule laid down in Tonge *v.* Watts sufficiently to enable the assured to recover. As regards charter-party freight, the principle first applied in 1795, in Thompson *v.* Taylor, that there is an insurable interest in the whole freight as soon as the chartered voyage has begun, enabled the Courts to decide every case before Barber *v.* Fleming in favour of the assured. In Barber *v.* Fleming, where the voyage described in the charter-party had not begun, the Court went beyond this principle and declared that the shipowner had an insurable interest when the ship was on her way to her loading port for the purpose of fulfilling her charter (*x*).

It may be urged that when a shipowner has made a contract under which he will in the ordinary course earn freight, he ought at once to be entitled to protect himself against a loss of that freight by the maritime risks to which his ship is exposed (*y*). If, for instance, a shipowner has

(*x*) In Ward *v.* Weir (1899), 4 Com. Cas. 222, Mathew, J., said: "There is abundant authority that during the pendency of the outward voyage the homeward freight may be insured."

(*y*) Cockburn, C. J., meant, perhaps, to state as broad a principle as this when he said, in Barber *v.* Fleming: "From the moment that a vessel is chartered to go from port A. to port B., and at port B. to take

Sect. 279.

entered into a very lucrative charter-party, by which his ship is let for six months, there being only a stipulation that she shall be placed at the charterer's disposal on or before a given day, the shipowner, however, being left free to employ her as he thinks fit in the meanwhile, he may be prevented from earning freight under this charter-party by the loss of or damage to his ship in the course of an interim voyage. If he has effected a policy so worded as to cover a loss of this freight by the perils of the interim voyage, ought he not to be able to recover under the policy?

Principle of indemnity relaxed in insurances on freight.

Against this contention there is, no doubt, the weighty argument that freight is not altogether a profit, but is only earned by the expenditure of money, and that to allow a shipowner to recover for a loss of freight, when he has, perhaps, incurred no expense for the purpose of earning it, is to depart from the principle that insurance is a contract of indemnity (*z*). Blackburn, J., in Barber *v.* Fleming, and Phillips, whom he quotes with approval, make the insurable interest in freight commence when expense is incurred to earn the freight (*a*). Yet the principle of indemnity was long ago departed from in insurances on freight, when the right of the assured to recover in all cases the gross freight was recognized, and it is now clearly possible to recover for a loss of freight when little or no expense has been incurred

a cargo and bring home that cargo to England, or to take it to any port, which I will call port C., for freight, the shipowner, having got such a contract, has an interest unquestionably in earning the freight secured to him by the charter; and having such an interest, it is manifest that that interest is insurable": L. R. 5 Q. B. at p. 67. The context, however, makes it doubtful whether the learned Chief Justice did not intend his remarks to refer only to a ship already at A. or on the way from A. to B. This passage from the judgment of Cockburn, C. J., was quoted with approval by Martin, B., in Foley *v.* United Fire, &c. Ins. Co. (1870), L. R. 5 C. P. 163. See also per Lord Esher, M. R., in The Copernicus, [1896] P. at p. 239: "No doubt as soon as a shipowner has got a binding contract with somebody to put goods on board his ship, he has an insurable interest."

(*z*) This argument could not be used in the case of a policy on profits of charter.

(*a*) See Barber *v.* Fleming (1869), L. R. 5 Q. B. 59, 71; 1 Phillips, s. 328.

Sect. 279.

by the assured. Thus, if a ship on an outward voyage from A. to B. be chartered to complete that voyage, and then take a homeward cargo from B. to A., the homeward freight can at once be insured and recovered if the ship be lost the next day (*b*).

As we have already pointed out, all the cases on insurable interest, in which there has been an actual contract for freight, have been decided in favour of the assured. The legal conception of insurable interest has been continuously expanding (*c*), and possibly the Courts may on some future occasion continue this process of expansion, and hold that the existence of a contract for freight in itself gives an insurable interest in the freight. But the existing authorities do not support this extension of the rule.

If, however, it should be considered that the wide principle cannot be supported, there are strong grounds for thinking that the profits which a shipowner expects to make on a contract of affreightment may be insurable as soon as the contract has been made (*d*).

The Marine Insurance Act and insurable interest in freight.

279a. It is now necessary to consider the bearing of the Marine Insurance Act, 1906, upon the subject of this discussion. In Rule 3 of the rules for the construction of the policy in Schedule I., which must be applied unless the context otherwise requires, the following rules are laid down with reference to the attachment of the risk on freight:—

> (c) Where chartered freight is insured "at and from" a particular place, and the ship is at that place in good safety when the contract is concluded, the risk attaches

(*b*) It may, however, be said that the expenses of the outward voyage are in every case incurred partly or in whole for the homeward voyage. See per Cockburn, C. J., in Barber *v.* Fleming (1869), L. R. 5 Q. B. 67.

(*c*) See per Walton, J., in Moran *v.* Uzielli, [1905] 2 K. B. 563.

(*d*) In Manchester Liners *v.* British and Foreign Mar. Ins. Co. (1901), 7 Com. Cas. 26, 33, Walton, J., expressed the view that a shipowner has an insurable interest in the use of his ship, independent of any particular contract of affreightment; but was seemingly of opinion that such interest is not insurable as freight. See, further, *infra*, § 288.

Sect. 279a.

immediately. If she be not there when the contract is concluded, the risk attaches as soon as she arrives there in good safety.

(d) Where freight, other than chartered freight, is payable without special conditions and is insured "at and from" a particular place, the risk attaches *pro ratâ* as the goods or merchandise are shipped; provided that if there be cargo in readiness which belongs to the shipowner, or which some other person has contracted with him to ship, the risk attaches as soon as the ship is ready to receive such cargo.

There is nothing in Rule 3 (c) which conflicts with the principles relating to the commencement of the insurable interest in chartered freight which the editors have deduced from the decisions. As regards the insurable interest in freight, other than chartered freight, however, Rule 3 (d) must not be overlooked. The question whether the assured had at the time of the loss an insurable interest, and the question whether the risk has attached under the policy, have usually been treated together (*e*). If, as was Arnould's view, the *ratio decidendi* of the cases was that the risk under a policy "at and from" the place of loading attached when the ship was at such place as soon as there was an insurable interest in the freight, it may be argued that Rule 3 (d) is based on the view that, as regards freight proper and the freight of the shipowner's goods, the insurable interest does not begin until the cargo is in readiness, and the ship is ready to receive it, and that the rule disregards the decisions which, in the opinion of the editors, extended the principle laid down by Arnould. Inasmuch, however, as the Act nowhere lays down any rule in relation to the commencement of the insurable interest in freight, it is submitted that Rule 3 (d) does not affect these decisions so far as they determine the question of insurable interest. If this be correct, and the insurable interest do commence before the ship and cargo are ready, it will be possible, notwithstanding

(*e*) See, for instance, Arnould, 2nd ed. pp. 287—289, 522 *et seq.*, and the remarks, *ante*, § 265.

Rule 3 (d), to recover under a properly worded policy for any loss of freight which has occurred after the commencement of such interest. Sect. 279a.

280. A shipowner who has entered into recognizances in the Admiralty Court to pay the salvors of ship and cargo has a lien on, and therefore an insurable interest in, the cargo for the average contribution due to him from its owners (*f*). He may also protect himself by insurance against charges imposed by the Merchant Shipping Act in respect of the carriage of passengers (*g*). He has, besides, an insurable interest in respect of liabilities consequent on the casualties enumerated in Part VIII. of the Merchant Shipping Act, 1894 (*h*), and of other liabilities resulting from casualties happening in the course of the navigation of his ship.

Shipowner's insurable interest in average contribution.

In liabilities under Passenger Acts, &c.

281. A party seeking to recover on a policy must, as we have already seen, have been interested in the subject of insurance at the time of loss (*i*). If, therefore, the insurable interest depends upon a sale, the vendee must have acquired a complete title to the thing insured before the loss, or it must be at his risk under the contract of sale, otherwise he can recover nothing on his policy; and, on the same grounds, the vendor, if he have not absolutely parted with all his interest before the loss, may still recover in respect of such interest as remains in him at that time.

Insurable interest of vendor and vendee.

Thus, where the owner of a ship had sold her under an agreement that he would pay the purchaser 500*l.* if a loss happened within three months, the Court held that to this

Vendor retaining interest in chattel.

(*f*) Briggs *v.* Merchant Traders' Association (1849), 13 Q. B. 167. It was held that the interest was sufficiently described as "average expenses." Cf. Dodwell *v.* Munich Ass. Co. (1903), 123 Fed. R. 841; affd. (1904), 128 Fed. R. 835.

Sect. 281.

extent he still had an interest in the safety of the ship, and therefore might recover against the members of a mutual insurance society, to which he belonged, for such amount of contribution as, by the rules of the society, he was entitled to receive (*k*).

Insurable interest in goods usually depends on property.

282. When the buyer and seller of goods do not live in the same place, it is generally necessary, in order to determine who has an insurable interest during the transit, to ascertain when the property passes to the buyer. This question belongs to the law relating to the sale of goods, and only a few leading principles will be stated here, in the terms of the Sale of Goods Act, 1893 (*l*).

Rules in Sale of Goods Act as to transfer of property.

Where there is a contract for the sale of specific or ascertained goods, the property in them is transferred to the buyer at such times as the parties intend it to be transferred (*m*). Where the contract is unconditional and the goods are specific goods in a deliverable state, the property passes when the contract is made (*n*).

Where there is a contract for the sale of unascertained or future goods by description, and goods of that description and in a deliverable state are unconditionally appropriated to the contract, either by the seller with the assent express or implied of the buyer, or by the buyer with the assent of the seller, the property passes to the buyer (*o*). Such unconditional appropriation takes place when, in pursuance of the contract, the seller delivers the goods to the buyer or to a carrier or other bailee for the purpose of transmission to the buyer, and does not reserve the right of disposal (*p*).

(*k*) Reed *v.* Cole (1764), 3 Burr. 1512.

(*l*) See generally the Sale of Goods Act, 1893 (56 & 57 Vict. c. 71), ss. 18—26, as to the transfer of property in goods and as to the title to goods; also Benjamin on Sale, bk. ii. cc. 2—6, pp. 313—401, 5th ed.

(*m*) Sale of Goods Act, s. 17. See Anderson *v.* Morice (1876), 1 App. Cas. 713; Reid *v.* Macbeth, [1904] A. C. 223.

(*n*) Sale of Goods Act, s. 18, r. 1.

(*o*) Sale of Goods Act, s. 18, r. 5 (1); see Sparkes *v.* Marshall (1836), 2 Bing. N. C. 761; Healy *v.* Howlett, [1917] 1 K. B. 337; Pignataro *v.* Gilroy, [1919] 1 K. B. 459.

(*p*) *Ibid.* r. 5 (2). See Fragano *v.* Long (1825), 4 B. & Cr. 210;

Sect. 282.

If the seller of goods by the terms of the contract or appropriation reserves the right of disposal of the goods until certain conditions are fulfilled, then, notwithstanding the delivery of the goods to the buyer or to a carrier or other bailee for transmission, the property does not pass to the buyer until the condition is fulfilled (*q*). When goods shipped are by the bill of lading deliverable to the order of the seller or his agent, the seller is *primâ facie* deemed to reserve the right of disposal (*r*).

Where the seller of goods draws on the buyer for the price and transmits the bill of exchange and bill of lading together to him, to secure acceptance or payment of the bill of exchange, the buyer is bound to return the bill of lading if he does not honour the bill of exchange; and if he wrongfully retains the bill of lading the property in the goods does not pass to him (*s*).

Mitchel *v.* Ede (1840), 11 A. & E. 888; 9 L. J. Q. B. 187; Tregellas *v.* Sewell (1826), 7 H. & N. 574; Joyce *v.* Swann (1864), 17 C. B. N. S. 84; Castle *v.* Playford (Ex. Ch.) (1872), L. R. 7 Ex. 98; Mirabita *v.* Imperial Ottoman Bank (C. A.) (1878), 3 Ex. D. 164; Colonial Ins. Co. of New Zealand *v.* Adelaide Marine Ins. Co. (1886), 12 App. Cas. 128.

(*q*) Sale of Goods Act, s. 19 (2). See Mitchel *v.* Ede (1840), 11 A. & E. 888; 9 L. J. Q. B. 187, and the cases in the next note.

(*r*) *Ibid.* s. 19 (2). See Wait *v.* Baker (1848), 2 Ex. 1; 17 L. J. Ex. 307; Ogg *v.* Shuter (C. A.) (1875), 1 C. P. D. 47. In Joyce *v.* Swann (1864), 17 C. B. N. S. 84, the *primâ facie* inference was negatived by the jury, and their finding that the seller had taken the bills of lading in his own name only as agent for the buyer was upheld. See Seagrave *v.* Union Marine Ins. Co. (1866), L. R. 1 C. P. 305, another action on a policy in respect of the same loss, in which the evidence was somewhat different. The *primâ facie* inference is not negatived by the mere fact that the ship belongs to or is chartered by the buyer. Turner *v.* Trustees of Liverpool Docks (Ex. Ch.) (1851), 6 Ex. 543; 20 L. J. Ex. 393; Gabarron *v.* Kreeft (1875), L. R. 10 Ex. 274, 280, 285. When the property has already passed by an unconditional appropriation, the fact that the bills of lading afterwards make the goods deliverable to the order of the seller does not destroy the effect of the appropriation. Sparkes *v.* Marshall (1836), 2 Bing. N. C. 761; and see Coxe *v.* Harden (1803), 4 East, 211.

(*s*) Sale of Goods Act, s. 19 (3); Shepherd *v.* Harrison (1871), L. R. 5 H. L. 116. The buyer may, however, by transfer of the bill of lading give a good title to an innocent transferee. S. 25 (2); see Cahn *v.* Pockett's Bristol Channel Co. (C. A.), [1899] 1 Q. B. 643.

Sect. 283.

Cases on insurable interest in goods. Anderson *v.* Morice.

283. The following cases illustrate the application of these rules to questions of insurable interest:—

A. entered into a contract for the purchase of a cargo of Rangoon rice. The bought note, as far as is material, was in these terms: "Bought . . . . the cargo of . . . . rice, per 'Sunbeam' . . . . Payment by sellers' draft on purchaser at six months' sight, with documents attached." A. insured the cargo "at and from Rangoon." The "Sunbeam" was loading the agreed cargo in the Irrawaddy River, off Rangoon, and had received on board the larger portion thereof, when she was lost with the rice then on board. In the Common Pleas it was held that, when the rice was appropriated to the contract by putting it on board, an insurable interest therein passed to the buyer, the plaintiff. In the Exchequer Chamber it was held that the contract, being for the cargo of rice per the "Sunbeam," and the time for making out the shipping documents (which were to be attached to the sellers' draft) not having arrived at the time of the loss, no interest had passed to the buyer, or would pass until the complete cargo was loaded on board. In the House of Lords the law lords were equally divided, and therefore the judgment of the Exchequer Chamber was affirmed, and A. did not recover on the policy (*t*).

Colonial Ins. Co. of New Zealand *v.* Adelaide Marine Ins. Co.

M. & G. agreed to purchase a cargo of wheat, free on board at Timaru, at 4*s.* 7*d.* per sack. They chartered a steamer, which began to load at Timaru, and before the loading was completed the ship and cargo were there lost. The Privy Council held that delivery from time to time to the master of the ship vested the property in the wheat as it was delivered in the buyers, and consequently that the latter had an insurable interest in the cargo on board at the time of the loss. They distinguished Anderson *v.* Morice (*u*) on the ground that there the vendors sold a particular cargo on a ship chartered by them. "The cargo to be purchased in

(*t*) Anderson *v.* Morice (1874), L. R. 10 C. P. 58; in the Ex. Ch. (1875), *ibid.* 609; (1876), 1 App. Cas. 713.

(*u*) *Supra.*

Sect. 283.

that case was an entire thing . . . . and would not be in existence until the whole cargo should be put on board." "The master of the 'Sunbeam' received it on their account, and not on account of the purchasers. The purchasers' right was to depend on the shipping documents, which were to be under the direction of the sellers. In the present case . . . . the contractors were delivering it (the wheat) to the purchasers in pursuance of their contract to put it free on board, the master of the vessel which had been chartered by them being their agent to receive it on their account" (*x*).

In general goods are at risk of owner.

284. Unless otherwise agreed, goods are at the seller's risk until the property is transferred to the buyer, and from the time of such transfer they are at the buyer's risk, whether delivery has been made or not (*y*). Therefore, in general, if under a contract of sale the property in sea-borne goods does not vest in the buyer until arrival, he has no insurable interest in them during the transit. If, however, by the contract, the goods are to be at his risk during the voyage, he has an insurable interest in them during the same (*z*).

In contract of sale the parties may agree otherwise.

Similarly, the parties may agree that the property in goods shall vest in the buyer at the time of shipment; but that the goods shall be at the seller's risk during the transit, or that the price shall not be paid unless they arrive safely. Obviously the seller has an insurable interest in this case (*a*).

Inglis *v.* Stock.

D. & Co. sold to the plaintiff, Stock, 200 tons of sugar, f. o. b. at Hamburg; payment to be by cash in London in exchange for bills of lading. D. & Co. had already sold to B. 200 tons of the same quality of sugar on the same terms, and the plaintiff ultimately became the purchaser from B.

Sect. 284.

of this parcel also, with no other change of terms except a slight increase of price. The plaintiff engaged room for both parcels of sugar on board a steamer trading from Hamburg to Bristol, and D. & Co. by their agent at Hamburg shipped sugar for both contracts in bags, without allocating the bags to the respective contracts. They intended, according to their usual practice, of which the plaintiff had knowledge, to make such appropriation on the arrival of the sugar in England. The sugar was totally lost on the voyage to England, and D. & Co., in England, after hearing of the loss, allocated the various bags to the two contracts. The plaintiff declared for both parcels under a floating policy, and in an action on the policy the underwriters contended that he had no insurable interest. In the Court of Appeal, Brett, M. R., held that, as no appropriation of a specific portion of the goods had been made at the time of the loss, the property had not passed; but that, under such a course of dealing as existed between the parties, when part of a cargo in bulk had been sold "free on board," the goods were at the risk of the buyer, and therefore the plaintiff had an insurable interest. Baggallay, L. J., thought this correct; but he and Lindley, L. J., decided the case on the ground that, apart from the effect of the "f. o. b." condition, the goods were at the buyer's risk (*b*).

The House of Lords affirmed the judgment of the Court of Appeal, also on the ground that the goods when shipped were at the buyer's risk (*c*). Lord Selborne's decision seems to be based on the "f. o. b." condition; while Lord Blackburn said that whether the sugar arrived or not the plaintiff was bound by his contract to pay for it on presentation of the bills of lading. In answer to the argument that there was no insurable interest because there had been no allocation of bags to the two contracts, Lord Blackburn said he could see no reason why an undivided interest in a parcel of goods might not be described as an interest in goods just as much

(*b*) Stock *v.* Inglis (1884), 12 Q. B. D. 564; 53 L. J. Q. B. 356.
(*c*) Inglis *v.* Stock (1885), 10 App. Cas. 263.

Sect. 284.

as if it were an interest in every portion of the goods (*d*). Sect. 8 of the Marine Insurance Act, 1906, which declares that "partial interest of any nature is insurable," seems to affirm Lord Blackburn's view on this point (*e*).

Agreement to take risk may be implied from acts of parties.

285. An arrangement by which the buyer undertakes the risk before the property in the goods passes to him may be implied from the acts of the parties, when not inconsistent with the express terms of their agreement (*f*); but these acts, said Lord Chelmsford, must manifest the intention of the parties without ambiguity (*g*). In Anderson *v.* Morice (*h*), the sellers having sent a telegram advising the buyers as to insuring, and the latter having effected an insurance "at and from Rangoon," it was contended that thereby the intention of the buyer to take the risk as soon as any rice was shipped was established. Lord O'Hagan and Lord Selborne thought that such an intention was proved, while Lord Chelmsford and Lord Hatherley were of a contrary opinion.

It is submitted, adopting the construction of the contract which prevailed (viz., that what was sold was a complete cargo, and therefore the property did not vest until the whole cargo was on board), that the decision of Lord Chelmsford and Lord Hatherley is sound. While the ship remained at Rangoon, after the loading was complete, the cargo would have been at the buyer's risk. Therefore the fact that, after being warned, he insured the cargo "at Rangoon" does not necessarily show that the parties had intended the risk to be his during the time of loading. And the principle laid down by Lord Chelmsford that where the acts, and not the express contract of the parties, are relied on to prove that goods are not at the owner's risk, the acts must be free from ambiguity,

Sect. 285.

is essentially a reasonable one, though in this case it may have led to a hard result.

Effect of stoppage *in transitu*.

286. When an unpaid seller of goods exercises the right of stoppage *in transitu*, his act does not amount to a rescission of the contract, so as to deprive the buyer of the property which he has acquired in the goods; but it gives the seller a lien on the goods for the price (*i*). It follows that the exercise of the right of stoppage *in transitu* does not put an end to the insurable interest of the buyer; for he remains the owner of the goods subject to the lien, and is in the same position as a mortgagor who has an insurable interest to the full value of the property (*k*).

The seller who has exercised the right of stoppage *in transitu* has obviously an insurable interest, to the extent at least of his lien.

Parsons is of opinion that an unpaid seller of goods has an insurable interest in them until they reach the buyer, on the ground that he has a lien until this takes place (*l*). It seems clear, however, that an unpaid seller who has parted both with the possession of the goods and the property in them, has in general no insurable interest until he exercises his right of stoppage. He has no right to stop the goods unless the buyer is insolvent, and not even then if the buyer has sold them and transferred the bill of lading or other document of title (*m*). It would be contrary to the principles on which an insurable interest depends if a seller who had parted with the property and possession could insure the goods and, if they were lost and the buyer afterwards became insolvent, recover their value, since at the time of the loss he had no right to take possession. Even if the buyer became insolvent and the goods were afterwards lost, the vendor not having exercised the right of stoppage, the latter, it is submitted, could not recover on an insurance; he had not gained a lien, and the loss made it impossible for him ever to acquire one (*n*).

(*i*) Sale of Goods Act, 1893, ss. 44, 48; cf. Booth SS. Co., Ltd. *v.* Cargo Fleet Iron Co., Ltd., [1919] 2 K. B. 570. For the duration of the transit, see s. 45 of the Act.

(*k*) *Post*, § 299. Arnould seems to have limited his right or that of his assignees to recover, to losses occurring before the right of stoppage was exercised (2nd ed. vol. i. p. 310). The principle stated in the text seems to the editors, however, to be clear.

(*l*) 1 Parsons, Ins. 232.

(*m*) Sale of Goods Act, 1893, s. 47.

Sect. 286.

Insurable interest in profits.

287. An insurable interest in profits, it has been said, is constituted by "an expectancy coupled with a present existing title" (*o*). If the term "a present existing title" implies that the property in the goods from which profits are expected to arise must at the time of the loss be in the assured, the use of this term is not accurate (*p*). It is in general, however, true that the existence of an insurable interest depends on ownership in this sense, that unless the assured is or has been the owner of the goods, he must have entered into a binding contract for the purchase of them (*q*).

A vague possibility of realizing profits, which may or may not be made, will not suffice (*r*). In this country the right to recover on the policy is dependent on proof that profits would have been made if the goods had arrived. In the earliest cases, indeed, such as Grant *v.* Parkinson, and Barclay *v.* Cousins, the Court was satisfied with evidence of a general probability of the profitable issue of the adventure founded on the course and character of the trade in which it was made (*s*); but in subsequent cases the Courts adopted a stricter rule.

Thus in Hodgson *v.* Glover, where the policy was on "profits" upon an adventure from Liverpool to the African

(*n*) See, however, Moran *v.* Uzielli, [1905] 2 K. B. 555, *ante*, § 257a.

See the observations of Lawrence, J., *ibid.*, p. 550.

Sect. 287.

coast, the outward cargo to be bartered for slaves, and the slaves to be carried on in the ship to the West Indies for sale, the Court nonsuited the plaintiff, because he did not show that, if no loss had intervened and the slaves had all got to a market, any profit would have been produced (*t*).

Accordingly, in the next case of a similar kind which came before the Court, and in which the profit insured was upon sale of a homeward cargo of flax shipped at Riga for Hull, care was taken to allege in the declaration, and to prove at the trial, that the flax, had it arrived sound, would have realized a profit to the amount insured (*u*). This case accordingly gives the rule which should be observed in pleading and in preparing the evidence.

In the United States.

In America the rule is different, and several cases there decided establish the doctrine, which has been adopted by the Supreme Court of the United States, that it is a conclusive presumption arising on proof of ownership of the goods shipped that they would have realized a profit in the foreign market (*x*). Thus, where three-eighths of the goods were lost, the Court held it to be a loss of that proportion of the profits, without inquiring whether there would have been any profits had the goods arrived (*y*).

Insurable interest in profits, when the goods are not the property of the assured.

288. It has been said that the assured must have not only an expectancy of profit, but, coupled therewith, a present existing title to the subject-matter out of which the profits are expected to arise (*z*). "The doctrine," says Mr. Justice

(*t*) Hodgson *v.* Glover (1805), 6 East, 316. In this case Lawrence, J., differing from what he had said in Barclay *v.* Cousins, where the adventure was exactly similar, agreed with the rest of the Court, and said: "The case is defective in not showing that if there had been no shipwreck there would have been some profit."

(*u*) Eyre *v.* Glover (1812), 16 East, 218.

(*x*) Patapsco Ins. Co. *v.* Coulter (1830), 3 Peters' Sup. Court R. 222; 1 Phillips, Ins. s. 318; 1 Parsons, Ins. 195.

(*y*) Loomis *v.* Shaw (1800), 2 Johns. Cas. 36.

(*z*) "I admit," says Parke, B., "that profits may be insured, but that is on the ground that they form an additional part of the value of the goods in which the plaintiff has already an interest": see Stockdale *v.* Dunlop (1840), 6 M. & W. 224, 232.

Sect. 288.

afterwards Chancellor) Kent, "that runs through all the cases, is, that the assured must have an interest in the subject-matter from which the profits are to proceed, in order to prevent the policy from being considered a wager" (*a*).

There can, however, be no doubt that an insurable interest in profits on goods may exist, although the goods are not, at the time of the loss, the property of the assured (*b*). Thus, where a purchaser of goods "to arrive" sold them before shipment on the same terms, but at a higher price, the Exchequer Chamber had no doubt that he had an insurable interest in his profit; yet the property in the goods would at no time be in him (*c*). *A fortiori*, the assured in profits has an insurable interest, when there is a contract under which the goods will, on arrival, become his property (*d*). We have seen, however, that unless the goods, out of which such profit is to arise, were actually shipped on board at time of loss, he cannot protect such interest under a policy in the common form with the clause "beginning the adventure in the said goods from the loading thereof on board" (*e*).

Insurable interest of shipowner in use of his ship.

Whether a shipowner has an insurable interest in the profit which he expects to make by the use of his ship on a voyage or during a period for which he has not entered into a contract for freight is a question which has not been determined. There is some authority for the view that he has an insurable interest in the use of his ship (*f*); but if this view be correct,

(*a*) Per Kent, J., in Abbott *v.* Sebor (1802), 3 John. Cas. (N. Y.) 39.

(*b*) See Mar. Ins. Act, 1906, s. 5 (2); *ante*, § 254.

(*c*) McSwiney *v.* Royal Exchange Ass. Co. (1850), 14 Q. B. 646, 659; see also 1 Parsons, Ins. 191—194.

(*d*) It is, in fact, in cases of this kind that insurances on profits are usually effected. A buyer of goods to whom the property has already passed, and who wishes to insure his profits, usually takes out a valued policy on goods, and includes the profits in his valuation.

(*e*) McSwiney *v.* Royal Exchange Ass. Co. (1849), 14 Q. B. 634; in error (1850), *ibid.* 646; *S. C.*, 18 L. J. Q. B. 193; *S. P.*, Halhead *v.* Young (1856), 6 E. & B. 312; 25 L. J. Q. B. 290; *ante*, § 238; where the facts of these cases are set out; see also per Willes, J., in Wilson *v.* Jones (1867), L. R. 2 Ex. 139, 146.

(*f*) Per Walton, J., Manchester Liners *v.* British and Foreign Marine Ins. Co. (1907), 7 Com. Cas. 26, 33; *ante*, § 239.

Sect. 288.

it is apprehended that he could only recover in an exceptional case, in which there is definite proof that the profit would have been realized if perils of the sea had not intervened; *e.g.*, where the vessel is lost on her way to a port, where the shipowner intends to put her "on the berth" to load a general cargo, and there is evidence that a remunerative cargo would in the ordinary course have been obtained.

Insurable interest of lender on bottomry and respondentia.

289. Sect. 10 of the Marine Insurance Act, 1906, declares that—"The lender of money on bottomry or respondentia has an insurable interest in respect of the loan."

By the contract of bottomry, if the ship be lost, the lender loses all his money; but if the ship arrive in safety, then he receives back his principal, and also the premium or maritime interest agreed upon. The lender on bottomry has a lien on the ship, and an insurable interest in her safety, and accordingly money lent on bottomry may, when so described, be the subject of marine insurance (*g*).

The insurable interest of the lender in these cases will depend upon the validity of the bottomry bond. In order to give an insurable interest the money secured by the instrument of hypothecation must, upon a fair construction of its terms, be made to depend on the arrival of the ship (*h*).

Simonds v. Hodgson.

Where the words of the instrument were, "I bind myself, my ship and tackle, &c., to pay the sum borrowed . . . after my arrival at the port of London"; . . . "and I do hereby make liable the said vessel, her freight and cargo, whether she do or do not arrive at the above-mentioned port of London": it was contended that, as the master had thus bound himself personally, the payment of the sum borrowed never depended on the arrival of the ship; and, consequently, that the lender had no such interest in the risk of the voyage as to entitle him to insure the money lent. The Court of King's Bench, however, reversing the judgment of the Court

(*g*) *Ante*, §§ 242, 243.

(*h*) In The Haabet, [1899] P. 295, Bucknill, J., held that an instrument was a valid bottomry bond, although the loan became payable if the vessel put into a port of refuge.

Sect. 289.

of Common Pleas, held that the words "my arrival" must be taken to mean, not the personal arrival of the master, but his arrival in the ship; and the clause "whether she do or do not arrive in the port of London," to mean not "whether she be lost or not," but "whether she arrives in the port of London or some other port"; they were of opinion, therefore, that the loss of the ship involved the loss of the money lent, and therefore that the lender might insure his interest by a policy on "bottomry" (*i*).

Stainbank v. Fenning.

The master of a ship which had put into a foreign port of distress to refit, borrowed money of a merchant there for necessary repairs, to secure which he drew bills on his owner, and executed what purported to be hypothecation of ship, cargo and freight. But this instrument made the money payable at all events, and it was, therefore, held that the lender had no insurable interest (*k*).

Insurable interest of lender on respondentia.

Respondentia is a loan upon the goods, to be repaid to the lender, together with the marine interest, if the goods arrive; not to be paid if they are lost; the insurable interest, therefore, of the lender on respondentia, stands on the same ground with that of the lender on bottomry, viz., that he has a direct interest in the arrival of the goods.

Insurable interest of borrower on bottomry and respondentia.

290. "The borrower on bottomry and respondentia," said Arnould, "has no insurable interest in the property pledged, except in as far as the value of such property exceeds the amount for which it is pledged. If pledged to its full value, it is obvious that the borrower can have no insurable interest in its safety; for in such case, if the property arrives, it goes

(*i*) Simonds *v.* Hodgson (1829), 6 Bing. 114; in error (1832), 3 B. & Ad. 50; cf. Price *v.* Maritime Ins. Co., [1901] 2 K. B. 412, C. A.

(*k*) Stainbank *v.* Fenning (1851), 11 C. B. 51; Stainbank *v.* Shepard (1853), 13 C. B. 418. The description of the subject of insurance in the policy ran thus: "The said ship, goods and merchandizes, &c., for so much as concerns the assured by agreement between the assured and assurers in that policy, are and shall be 1,500*l.* advances for repairs and disbursements; the whole valued at 1,675*l.*, including premiums of insurance."

Sect. 290.

to satisfy the debt; if lost by the risks within the hypothecation, the borrower is discharged" (*l*).

Mr. Arthur Cohen, in discussing this passage, has, however, pointed out that the soundness of the principle stated therein may be questioned (*m*). This follows from the fact that if the bottomry bond be in the ordinary form, the money lent on bottomry is due in every case except that of an absolute total loss (*n*). If the shipowner is himself the borrower, and has made himself personally liable on the bond in case of the ship's arrival, it follows that in the case of any damage or loss not amounting to such a loss, he may, in the result, suffer to the extent of the damage which his ship has sustained; and on this ground he ought to have an insurable interest in his ship in respect of such damage. When, as is the usual case, the master is the borrower, and has made himself personally liable to pay the amount due under the bond, the shipowner may, if the ship arrives damaged, have to indemnify the master against any claim that may be made against him. In this case also the shipowner may be a loser to the extent of the damage which his ship has suffered, and ought to be able to protect himself against loss in consequence of such damage.

It may also be argued that, apart from any question of the shipowner's personal liability on the bond, or his liability to indemnify the master, the shipowner has an insurable interest on the following ground in respect of damage which the ship may sustain on the voyage: he has the right to redeem his ship by discharging the bond, and should therefore be entitled to protect himself against the loss which he will suffer in the exercise of this right if the ship should suffer damage.

Insurable interest of consignees,

291. "There are different sorts of consignees: some have a power to sell, manage, and dispose of the property, subject

(*l*) 2nd ed. vol. i. p. 299.

Sect. 291.

only to the rights of the consignor; others have a mere naked right to take possession" (*o*); others, again, it may be added, though not entrusted to sell, are yet interested in the property, as having a lien or claim upon it for their advances. It is obvious that the rights of these different kinds of consignees to effect an insurance must vary with the various relations in which they stand to the property and to the consignor.

factors or agents.

Different kinds of consignees.

With regard to consignees who have a mere naked right to take possession, without being either entrusted to sell on commission, or having a lien for their advances, Lord Eldon says, "I will not say that they may not insure if they state the interest to be in their principal"; and they may do so, under sect. 23 (1) of the Marine Insurance Act, 1906, in their own names on account of the consignors, who will be bound by the policy so effected if they have already authorized it, or, if they subsequently adopt it, after notice (*p*).

Naked consignees.

But such mere naked consignees have no insurable interest so as to enable them to effect the policy in their own names, and on their own account, and to recover upon it, averring the interest to be in themselves. They have no legal property in the subject-matter of the insurance; they are not beneficially interested in it; and they can therefore only effect the insurance on account of those who are so interested and so entitled; and must aver the interest to be in those on whose account the insurance was made (*q*).

Consignees having a lien or charge.

292. Sect. 14 (2) of the Marine Insurance Act, 1906, declares that "a mortgagee, consignee, or other person having an interest in the subject-matter insured may insure on behalf and for the benefit of other persons interested as well as for his own benefit."

(*o*) Per Lord Eldon, Lucena *v.* Craufurd (1806), 2 B. & P. N. R. 324.
(*p*) Wolff *v.* Horncastle (1798), 1 B. & P. 316.
(*q*) See the admirable remarks of Lawrence, J., in his celebrated judgment in Lucena *v.* Craufurd (1806), 2 B. & P. N. R. 307; per Willes, J., in Seagrave *v.* Union Marine Ins. Co. (1866), L. R. 1 C. P. 307, 319, 320; and see a very able note of Judge Duer, 2 Ins. n. 2 to s. 10, pp. 160—174.

Sect. 292.

Thus, consignees who have a lien or claim on the property in respect of advances, or commission agents to whom it is entrusted for the purposes of sale, or indorsees of the bill of lading to whom a general balance is due, can effect an insurance on their own account and recover, averring the interest to be in themselves, to the amount of their lien, claim, or balance (*r*). They can also, by the same insurance, protect both their own interest and the interests of other parties in the property (*s*).

What they can recover on an averment of interest in themselves.

It is not settled whether an equitable mortgagee, or a consignee of goods to whom the legal property in goods has not passed, but who is beneficially interested in the whole of them, can recover the full value on such an averment, or whether he must also aver the interest of the other parties. On this point the Court of Common Pleas were equally divided in the latest case, in which the question was fully discussed and all the authorities considered (*t*).

Indorsee of bill of lading.

The effect of the assignment of a bill of lading depends on the intention of the parties (*u*).

Primâ facie, the indorsement and delivery of a bill of lading vests the whole property and interest in the goods in the indorsee (*x*), and gives him, from the moment of indorsement, an insurable interest in them to the full extent of their value. If, however, it be established that the assignment of the bill of lading is only intended to have a limited effect, as, *e.g.*, to be a pledge of the goods, the whole property does not pass (*y*), and the assignor still has an insurable interest in the goods. Thus where the purpose of the transfer of a bill of lading was to bind the net proceeds of the consignment in

(*r*) Ebsworth *v.* Alliance Marine Ins. Co. (1873), L. R. 8 C. P. 596; Godin *v.* London Ass. Co. (1758), 1 Burr. 489; 1 W. Bl. 103.

(*y*) Sewell *v.* Burdick (1884), 10 App. Cas. 74.

Sect. 292.

the hands of the consignor's agents, the consignor, notwithstanding such transfer, recovered for their loss (*z*).

It has been held in the United States, that where one takes a bill of lading to secure advances of money on a shipment of goods, and makes out the invoice in his own name, the shipper of the goods has still an insurable interest in them to their full value (*a*).

From the principle that a creditor who has a lien on the subject of insurance has an interest to the extent of his lien, it follows that any creditor to whom goods are consigned as a collateral security has an insurable interest in them to the amount of his debt (*b*).

Pledgee of consignee.

So where the bill of lading is pledged by the consignees of the goods as a security for advances to them, the pledgee has an insurable interest in the goods; and may sue in his own name on a policy effected by the consignees, under his instructions, in their own names "for account of whom it may concern," and deposited with him as an additional security (*c*).

Cases on insurable interest of consignee, commission agent, or indorsee of bill of lading.

293. That a consignee of goods who is entrusted as a commission agent to sell them, or who has accepted bills on them, or has a general balance against the consignor, has an insurable interest in such goods, at all events to the extent of his claim, is a position which has received frequent illustration in our jurisprudence.

Wolff *v.* Horncastle.

Thus, where the general agents of the consignor, on the

(*z*) Hibbert *v.* Carter (1787), 1 T. R. 745.

(*a*) Locke *v.* North American Ins. Co. (1816), 13 Mass. R. 61; 1 Phillips, s. 286.

(*b*) Wells *v.* Philadelphia Ins. Co. (1822), 9 Serg. & Rawle, 103; 1 Phillips, s. 292.

(*c*) Sutherland *v.* Pratt (1843), 12 M. & W. 16. Where an action was brought on a policy on goods by a bank claiming as pledgees from an alien enemy, the Court of Appeal, while agreeing that the plaintiffs as pledgees had an insurable interest, held that under the circumstances they could not recover either as originally assured, for want of proof that the policy had ever been intended to cover their interest, or as assignees, because they were affected by the infirmity of the title of the pledgors, under sect. 50 (2) of the Mar. Ins. Act: Bank of New South Wales *v.* South British Ins. Co. (1920), 4 Lloyd's List L. R. 266, 384.

Sect. 293.

refusal of the consignees to accept the goods, retained the bills of lading in their own hands, and accepted bills on account of the consignment to the amount of 300*l*., they were held to have an insurable interest to the amount of their acceptances, on the ground, as stated by Buller, J., that "a debt which arises in consequence of the article insured, and which would have given a lien upon it, does give an insurable interest" (*d*).

Hill *v.* Secretan.

The house of De la Torre, in Spain, consigned a cargo of wool, with the bill of lading indorsed, to Du Bois & Son in London, directing them to hold part of it for Hill & Co. of Exeter. Hill & Co. had given no orders for the wool, but De la Torre & Co. were indebted to them in the sum of 500*l*. The Court held that, under these circumstances, Hill & Co. had clearly an insurable interest in that part of the wool which was held by Du Bois & Son as trustees for their benefit, and might recover under a count averring the interest to be in themselves (*e*).

Where, however, the consignor directed the consignees to hold, not the goods, but the proceeds of the goods, to the use of his creditor, this was held, in the United States, not to give such creditor an insurable interest in the goods (*f*).

Robertson *v.* Hamilton.

294. Two British ships, the "Ross" and the "Atlantic," having, with their cargoes, been captured by the Spaniards, the plaintiffs (who were owners of the "Ross"), the owners of the "Atlantic," and the proprietors of the cargoes gave a joint authority to one Cowan to endeavour to obtain restitution. Cowan, by giving up part of the cargoes to the captors, obtained restitution of the rest, together with the two ships, in a mass, for the benefit of all concerned. He

(*d*) Wolff *v.* Horncastle (1798), 1 B. & P. 316, 323.

(*e*) Hill *v.* Secretan (1798), 1 B. & P. 315.

(*f*) Murray *v.* Columbian Ins. Co. (1814), 11 Johnson's R. 302. This was apparently on the assumption that the creditor could not under the circumstances have claimed possession of the goods. Phillips (vol. i. s. 291) says that the creditor has an insurable interest, and cites Hill *v.* Secretan, *supra*.

Sect. 294.

drew bills on the plaintiffs for his general expenses, which the plaintiffs accepted and paid; and he also, together with the rest of the property, consigned to them the "Atlantic" (of which they were not owners), in order, as he expressed it, to simplify the concern. Lord Ellenborough and the rest of the Court were of opinion that they had a clear insurable interest in the "Atlantic"; they were the original owners of one of the captured ships, and after the whole of the captured property had been redeemed *en masse* at their expense they became interested in the whole. They were also the consignees of the ship in question from Cowan; and having as such consignees accepted and paid bills for the expenses of restoring this ship, conjointly with the rest of the property, they had on this ground likewise a clear insurable interest. The Court accordingly held that the plaintiffs could recover the whole amount of the insurance; in trust, however, as to the surplus over their advances for those interested with themselves in the whole (*g*).

General principle as to consignees.

295. As a general principle, then, there can be no doubt that consignees of the goods being in advance to the consignors, or under acceptances for them, may insure, in their own name (*h*), to the full value of the goods, and apply the proceeds of the policies to their own benefit to the extent of their claims in respect of such advances or acceptances, holding the residue in trust for the consignors if they intended when effecting the policies to cover the interest of the latter (*i*).

Consignee claiming under policy effected to

It has been held, however, that such a consignee is so far identified in interest and right with his consignor as not to be able to apply with effect to his own interest, which is

(*g*) Robertson *v.* Hamilton (1811), 14 East, 522.

(*h*) Arnould added "and on their own account." See on this point *ante*, § 292.

(*i*) See, in addition to the cases already cited, Carruthers *v.* Sheddon (1815), 6 Taunt. 14. The same position is established in the United States. De Forest *v.* The Fulton Ins. Co. (1828), 1 Hall's R. 84; cited 1 Phillips, Ins. s. 311.

Sect. 295.

protect the interest of the consignor.

derived out of that of the consignor, an insurance which was effected in order to cover the interest of the latter, but which, owing to the intervention of some principle of law, cannot be available for such purpose.

Conway v. Gray.

Thus, Townsend, an American merchant, had consigned to Conway & Co., of Liverpool, a cargo of American produce for sale, and assigned to them the bill of lading. Conway & Co. effected an insurance on the cargo, in their own names, "as interest might appear," and debited Townsend with the premiums; they were then, and down to the time of loss, in advance to Townsend on account of the cargo, and had a general balance against him to a greater amount than the sum insured. The goods were detained in the United States under an American embargo; whereupon Conway & Co. gave notice of abandonment, and in an action on the policy averred the interest in the first count of the declaration to be in themselves. Lord Ellenborough and the Court of King's Bench, while admitting that a consignee so circumstanced might insure on his own account, held that, as the consignor himself, being an American citizen, could not insure against acts done by the Government of his own country, so the consignees, though British subjects, were likewise incapacitated from applying the policy to their interests, and enforcing payment, as though it had been made on their account (*k*).

General agents of a purchaser entitled to benefit of insurance.

296. The general agents of a purchaser of goods, who, by his directions and at his cost, have effected an insurance on the goods in order to cover bills drawn on them by him in favour of the seller, need only apply the proceeds of such policy to the payment of such drafts as far as the state of their accounts with the purchaser may enable them to do so without loss to themselves, and are entitled to hold the

(*k*) Conway *v.* Gray (1809), 10 East, 536. As regards the right of the consignor to recover, the case has been overruled by the Exchequer Chamber in Aubert *v.* Gray (1862), 3 B. & S. 163, 169; 32 L. J. Q. B. 50. The decision is, however, not affected as regards the principle for which the case is cited in the text.

Sect. 296.

residue to their own benefit (*l*). "It has never been decided," says Bayley, J., "that a person not bound to insure, but who elects to insure in order to cover payments if the goods do not arrive, may not apply the proceeds of the policy to his own use. The premium for the insurance comes out of the general means of the party effecting it, and diminishes the fund applicable to the claims of general creditors. As between them and the seller of the particular goods, they certainly would be entitled to the money secured by the policy" (*m*).

Insurable interest of consignee in his commission.

297. A consignee has an insurable interest in the commission which he expects to earn on goods consigned to him, but must specifically describe his interest (*n*). The mere expectation, however, that goods will be consigned to a person of course gives him no insurable interest in the commission which he hopes to earn (*o*).

Knox v. Wood.

It seems to have been decided by Lord Ellenborough that there is no insurable interest in commissions unless the goods on which they are to be earned are already on board the ship. A merchant effected an insurance at and from Bristol to Jamaica and back to Dublin, on commission to arise upon the sale in Dublin of produce expected to be shipped at Jamaica for the homeward voyage, under an agreement between himself and a Jamaica house. He chartered a ship to load the produce. She was, however, captured on her outward voyage; but being released she proceeded to Jamaica, and found that her cargo had been forwarded by another ship.

(*l*) Neale *v.* Reid (1823), 1 B. & Cr. 657. The text is Arnould's (2nd ed. p. 305), and for that reason is retained here. The editors, however, after a careful perusal of the case, submit that the decision was misunderstood by the learned author; that the case was not one in which the agents were setting up any rights on their own account, and that the question was simply whether the vendor or the creditors of the purchaser were entitled to the benefit of the insurance. See Park, 8th ed. p. 579; Phillips, § 296. (*m*) 1 B. & Cr. 662.

(*n*) Per Lord Kenyon, Flint *v.* Le Mesurier (1796), 2 Park, Ins. 563; Lucena *v.* Craufurd (1806), 2 B. & P. N. R. 315.

(*o*) Knox *v.* Wood (1808), 1 Camp. 543. See per Bigham, J., Buchanan *v.* Faber (1899), 4 Com. Cas. 223.

Sect. 297.

Meanwhile she had also lost the season, and had to return home in ballast. In an action to recover the loss of commission, it was held that the plaintiff had no insurable interest in such commission; and Lord Ellenborough said: "It strikes me that this was a mere expectation. The expectation is frustrated by the capture, and the interest was never on board; this is an insurance of the expectation of an expectation." The defendant accordingly had a verdict; and on motion for a new trial the Court were clearly of opinion that the plaintiff had not an insurable interest when the loss happened. Lord Ellenborough on that occasion said: "This case carries us into the land of dreams; and, if supported, would introduce the practice of insuring a 20,000*l.* prize in the lottery without purchasing a ticket" (*p*).

If the case was decided on the ground that the plaintiff had no contract for the consignment to him of a cargo by this ship, its authority cannot be questioned (*q*). If, however, as the report in Campbell implies, there was a binding contract under which the plaintiff was entitled to have the vessel loaded, it would seem on principle that the plaintiff had an insurable interest in the commission which but for the perils of the voyage he would in the ordinary course of things have earned (*r*). He would have been entitled to assume that the cargo would be loaded if the ship arrived at Jamaica (*s*).

(*p*) Knox *v.* Wood (1808), 1 Camp. 543; 2 Park, Ins. 564.

(*q*) The report in Park bears out this view.

(*r*) See per Mathew, J., in Ward *v.* Weir (1899), 4 Com. Cas. 216, 222. Phillips questions the decision in Knox *v.* Wood, 1 Phillips, s. 311. Other points might, however, be raised on this insurance. One (if, as is probable, the policy was in common form) is that the risk only attached on the loading of the goods. This depends on a further question, viz., whether commissions can, like profits, be deemed to be part of the value of the goods so as to make the clause as to the goods applicable. Another is, that the loss was due merely to a retardation of the voyage, and that the policy ought, therefore, to have been specially framed to cover such a risk. See M'Swiney *v.* Royal Exchange Ass. Co. (1850), Ex. Ch. 14 Q. B. 646. The case was, however, clearly not decided on either of these grounds.

(*s*) Rankin *v.* Potter (1873), L. R. 6 H. L. 83.

Sect. 297.

Insurable interest of shipbrokers.

A shipbroker to whom by agreement a ship is addressed, so that if she arrives at the port where he carries on his business he will earn brokerage, has an insurable interest in his brokerage during the voyage of the ship to the port (*t*). A mere hope or expectation, however, on the part of the broker that the owner of a ship will continue to employ him gives him no insurable interest in the brokerage, which he hopes to earn on the arrival of the ship (*u*).

Insurable interest of mortgagor and mortgagee.

298. The rule with regard to the insurable interest of mortgagor and mortgagee is thus stated in sect. 14 (1) of the Marine Insurance Act, 1906:—

> Where the subject-matter insured is mortgaged, the mortgagor has an insurable interest in the full value thereof, and the mortgagee has an insurable interest in respect of any sum due or to become due under the mortgage.

From the general principle, that any creditor having a claim on property pledged to him for advances has an insurable interest to the extent of his claim, it follows that a mortgagee of ship or goods has a distinct insurable interest in the mortgaged property, and may recover in an action upon a policy effected for his benefit, averring the interest to be in himself, to the full amount of the mortgage debt. At the same time the equitable title that still remains in the mortgagor is in him an insurable interest which he may protect by a separate insurance.

Thus, a factor resident in this country, to whom goods and freight have been mortgaged by his foreign principal for advances, may, upon consignment to himself of the goods, with the bill of lading indorsed, insure the legal interest in the property on his own account, and the equitable interest remaining in his principal on account of the latter (*x*).

(*t*) Watts *v.* Bacon, *coram* Mathew, J., 18th Jan. 1900.

(*u*) Per Bigham, J., Buchanan *v.* Faber (1899), 4 Com. Cas. 223.

(*x*) Smith *v.* Lascelles (1788), 2 T. R. 187.

Sect. 298.

Amount which mortgagee can recover.

Although the ownership of the mortgagee is distinguished in the register from the absolute ownership (*y*), the mortgagee of a ship may protect his interest therein by a general policy on the ship in the common form: and he may insure to the full value of the ship, but can only recover to the extent of his mortgage debt, unless in effecting the policy he intended to cover, not his own interest only, but that of the mortgagor also (*z*).

The amount recoverable under an open policy effected by a mortgagee depends upon his intention in effecting the policy. Sect. 14 (2) of the Marine Insurance Act, 1906 (*a*), declares that a mortgagee "may insure on behalf and for the benefit of other persons interested as well as for his own benefit." If he intended it to cover the whole interest, both legal and equitable, he may recover the whole amount of the insurance, under trust as to the surplus, to held it for the mortgagor; if he intended it only to cover his own interest as mortgagee, and the insurance is for more than the mortgage debt, he can recover to the extent only of his charge (*b*). If, under such circumstances, he have recovered the whole sum in an action on the policy, and retains the surplus, it may be recovered back from him by the underwriters (*c*).

The mortgagor's interest.

299. The mortgagor has an insurable interest in the mortgaged property to its full value, because in case of loss he would not only be deprived of the thing insured, but still remain liable for the mortgage debt: hence the mortgagor of the ship has been held to have an insurable interest, though the ship be mortgaged to her full value (*d*).

(*y*) See now the Merchant Shipping Act, 1894, s. 34.

(*z*) Irving *v.* Richardson (1831), 2 B. & Ad. 193; *S. C.* at N. P., 1 Mood. & R. 153.

(*a*) *Ante*, § 292.

(*b*) So in Carruthers *v.* Sheddon (1815), 6 Taunt. 17, Gibbs, C. J., told the jury to consider what amount of interest the policy was in fact intended to cover by those who caused it to be effected.

(*c*) Irving *v.* Richardson (1831), 2 B. & Ad. 193.

(*d*) See Alston *v.* Campbell (1779), 4 Brown's Parl. Cas. 476; Hutchinson *v.* Wright (1858), 25 Beav. 444; 27 L. J. Ch. 834; Higginson *v.* Dall (1816), 13 Mass. R. 96; cited 1 Phillips, Ins. s. 286. The circumstance that in form the registered deed of mortgage is an absolute transfer of the ship does not affect the mortgagor's insurable interest. Hutchinson *v.* Wright, *supra;* and see Ward *v.* Beck (1863), 32 L. J. C. P. 113. In Ins. Co. *v.* Stimson (1880), 103 U. S. 25, the question of the insurable interest of mortgagor and mortgagee was considered.

Sect. 299.

Mortgagor insuring as trustee for mortgagee.

When the mortgagor has covenanted to insure the mortgaged property on account of the mortgagees, he is, of course, a trustee for them of the proceeds of the policy (*e*). The owner, by a duly registered deed to which he and two trustees were the only parties, assigned six ships to the trustees for securing sums of money expressed to be lent by them, but which in fact were lent by the plaintiffs, and covenanted to ensure each vessel in the sum of 1,500*l.* at the least, and on request, to assign the policies to the trustees. He did insure in his own name through a broker who knew of the mortgage, but to whom he misrepresented the object of the insurance. Upon the loss of one of the ships and the bankruptcy of the owner, the plaintiffs obtained a decree in equity declaring their right to the proceeds of the policies, and setting aside the broker's general lien and the claim of the bankrupt's assignees under the reputed ownership section of the statute (*f*).

When the indorser of a bill of lading is in the position of a mortgagor.

The indorser of a bill of lading who did not intend to pass his whole property in the goods by the assignment, but only to give a charge on their net proceeds, stands in the same position as a mortgagor, and retains an insurable interest to their full value, since he continues to be as directly concerned in the safety of the goods as he was before assigning the bill of lading (*g*). A consignee of goods who has a lien on them for a debt is in the position of a mortgagee. The question of the insurable interest of consignees has already been considered (*h*).

(*e*) See as to the right of the mortgagor or the assignees of his interest to sue on the policy, when he has handed it over to the mortgagee, Swan *v.* Maritime Ins. Co., [1907] 1 K. B. 116; 12 Com. Cas. 73.

(*h*) *Ante*, §§ 291 *et seq.*

Sect. 300.

Insurable interest of a trustee.

300. There is no doubt that a trustee, having the legal interest in the thing insured, may insure, in respect of such interest, to the full value of the goods (*i*).

Insurable interest of captors, prize agents, &c.

301. The insurable interest of captors, prize agents, &c. in captured property has been the subject of very elaborate and refined discussion in the English Courts.

Le Cras *v.* Hughes, or the Omoa case.

The first case in which the question arose was that of Le Cras *v.* Hughes, before Lord Mansfield, generally known in insurance law as the Omoa case. A detachment of the sea and land forces of Great Britain jointly captured the fort of Omoa and two Spanish ships then lying under its protection. One of these ships, together with her cargo, was insured on account of the officers and crews of the British ships "at and from Omoa to London," and was lost on her homeward voyage. An action being brought on the policy, averring the interest to be in the officers and crews of the ships, two questions were made—1. Whether the sea officers had an insurable interest under the then Prize Act (19 Geo. 3, c. 67); 2. Whether possession of the ship would entitle them to insure upon the bare contingency of a future grant from the Crown.

The consideration of the second question became unnecessary, except speculatively, for Lord Mansfield was clearly of opinion that the officers and crew had an insurable interest under the Prize Act. The objection on this point being that the capture was not a sole capture by the sea forces, but a capture by the land and sea forces jointly, Lord Mansfield said: "The Act gives to the officers, seamen, marines and soldiers on board every ship of war the sole property in all ships and goods which they shall take during war, after condemnation. It does not require that the seamen only shall take; where soldiers assist, their right may be doubtful, but that does not lessen the right of the navy" (*k*).

(*i*) Per Lord Eldon, in Lucena *v.* Craufurd (1806), 2 B. & P. N. R. 324. See also per Brett, J., in Ebsworth *v.* Alliance Marine Ins. Co. (1873), L. R. 8 C. P. 596, 638.

(*k*) Le Cras *v.* Hughes (1782), 1 Marshall, Ins. 105; 2 Park, Ins. 568; 3 Dougl. 81. See the judgment of Lord Ellenborough in Routh *v.* Thompson (1809), 11 East, 433, 434. That captors of a prize in case of joint capture had an insurable interest in such prize under the 45 Geo. 3, c. 72, was held in Stirling *v.* Vaughan (1809), 11 East, 619.

Sect. 301.

"As to the second ground," Lord Mansfield proceeded to say, "the Crown always makes the grant, and there is no instance to the contrary. Here the possession is in the assured, and a certain expectation of receiving the property captured from the Crown, which gives him an interest in its arrival" (*l*).

Query, whether captors have an insurable interest on the ground of an expectation.

302. The position thus advanced by Lord Mansfield, "that possession, coupled with the expectation of future benefit, founded on the contingency of a future grant from the Crown, but warranted by universal practice, amounts to an insurable interest," has been considerably shaken by the observations of succeeding and scarcely less eminent judges. "If the Omoa case," says Lord Eldon, in Lucena *v.* Craufurd, "was decided upon the expectation of a grant from the Crown, I never can give my assent to that doctrine. That expectation, though founded on the highest probability, was not interest, and it was equally not interest whatever might have been the chances in favour of the expectation. That which was wholly in the Crown, and which it was in the power of his Majesty to give or withhold, could not belong to the captors so as to create any right in them" (*m*). Lord Ellenborough, in Routh *v.* Thompson (*n*), and Tindal, C. J., in Devaux *v.* Steele (*o*), both seem to consider that, after these observations of Lord Eldon's, the doctrine of Lord Mansfield, if it can still be treated as a binding authority, must be considered incapable of being extended, and as confined to cases falling strictly within the same circumstances (*p*).

(*l*) Le Cras *v.* Hughes (1782), 1 Marsh. Ins. 105; 2 Park, Ins. 568; 3 Dougl. 81.

(*m*) Lucena *v.* Craufurd (1806), 2 B. & P. N. R. 323.

(*n*) 11 East, 434.

(*o*) 6 Bing. N. C. 358, 370, 371.

(*p*) Sect. 5 of the Mar. Ins. Act, 1906 (*ante*, § 254), in which there is a definition of insurable interest (which, however, does not profess to be exhaustive) does not affect this question. The section contained an

Sect. 303.

Result of the authorities.

303. If the law, therefore, on this subject be that possession, coupled with the expectation of a future grant from the Crown, gives an insurable interest, it is so only in cases where a long and uniform course of practice can be shown for the Crown always to make such grant and no instance can be given to the contrary (*q*).

Lord Eldon, however, pointed out other grounds on which the right of the captors to insure might have been put. "The captors," said his Lordship, "not only had the possession, but a possession coupled with the liability to pay costs and charges, if they had taken possession improperly, and also a liability to render back property which should turn out to be neutral" (*r*). It was upon this very ground that Lord Kenyon had previously put the insurable interest of captors in the case of Boehm *v.* Bell (*s*).

Lucena *v.* Craufurd.

304. The next case to be considered is the famous one of the Dutch Commissioners, which, for more than eight years, was litigated in the English Courts of law, and in the House of Lords gave rise to one of the most elaborate and ingenious legal discussions ever raised upon a point of maritime law (*t*).

The facts were:—Holland having been in 1794 occupied by the armies of the French Republic, with whom we were then at war, our Government, by an Order in Council of

additional sub-section which declared that "a prospect or possibility of loss or gain, which is not founded on any right or liability in, or in respect of, the subject-matter insured, is not insurable"; but it was struck out in Committee.

(*q*) See Devaux *v.* Steele (1840), 6 Bing. N. C. 358.

(*r*) 2 B. & P. N. R. 323.

(*s*) Boehm *v.* Bell (1799), 8 T. R. 154. See the judgment of Lord Kenyon, *ibid.* 161.

(*t*) The case first came before the Court of King's Bench under the name of Craufurd *v.* Hunter in 1798, 8 T. R. 13. It came before the Exchequer Chamber as Lucena *v.* Craufurd, in 1802, 3 B. & P. 75; before the House of Lords, under the same name, in 1806, 2 B. & P. N. R. 269. It then came before Lord Ellenborough at the Sittings after Michaelmas Term, 1806, on the *venire de novo*, and was ultimately disposed of by the House of Lords on the 29th June, 1808, as Lucena *v.* Craufurd, 1 Taunt. 325.

Sect. 304.

February, 1795, directed that all Dutch ships bound to and from the ports of Holland should be seized for the purpose of being brought into this country and there provisionally detained. With a view to provide for the custody of such ships, an Act was passed empowering his Majesty in Council to appoint commissioners for the care, management, sale, or other disposal, according to his Majesty's instructions, of all Dutch ships or cargoes "which had been, and might be thereafter, detained in or brought into the ports of the United Kingdom"; and on the 15th June, 1795, a commission issued under this Act to Craufurd and others, appointing them to act as commissioners for the purposes specified in the Act. Before this commission was issued, a man-of-war, acting under the Order in Council of February, 1795, had captured a fleet of Dutch merchantmen and carried them into St. Helena for the purpose of being brought into this country. Accordingly, in July, four of these ships sailed from St. Helena with their Dutch cargoes on board for this country; and on the 22nd of August (*u*) Craufurd and his co-commissioners, having received notice to that effect, caused an insurance to be effected on these ships and their cargoes on their own account, under the name and style of "The Honourable Commissioners for the Sale of Dutch Property." All the four ships thus insured, together with their cargoes, were totally lost before arriving in this country; one of them, however, the "Zeelelye," was not so lost till after the 15th of September. This date is important, because on that day a proclamation of reprisals—in other words, an open declaration of war—was made by his Majesty against the United Provinces.

Craufurd and his co-commissioners then brought an action upon the policy, averring the interest, in the first count of the declaration, to be in themselves "as such commissioners"; in the second count, to be in the Crown.

Question in the case.

The main question in the case was, whether the plaintiffs,

(*u*) 1 Taunt. 329.

Sect. 304.

under the circumstances, had an insurable interest, under the commission, in the ships and cargoes insured before their arrival in this country. It would be impossible to report at length, and useless to attempt to abridge, the able and ingenious disquisitions to which this question gave rise; the reader is referred to the reports at large, especially to the judgment of Chambre, J., in the Exchequer Chamber (*x*), of the same learned Judge (*y*), of Lawrence, J. (*z*), and of Lord Eldon (*a*), in the House of Lords.

Judgment of the Court of King's Bench.

In the Court of King's Bench, Lord Kenyon and the rest of the Court held that the plaintiffs had an insurable interest sufficient to sustain the first count of the declaration, either as trustees for the Crown or for the parties who should ultimately be entitled, as consignees, or as prize agents; and judgment accordingly was given for the plaintiffs for the whole sum. In the Exchequer Chamber this judgment was affirmed by a majority of the Judges, Chambre, J., however, delivering a very forcible opinion the other way.

Judgment of the majority in the Exchequer Chamber.

The grounds on which the majority founded their judgment were substantially the same as those which had prevailed with the Court of King's Bench; and rested on the principle "that an inchoate interest, though imperfect till a given contingency shall take place, is nevertheless insurable" (*b*).

Chambre, J., on the other hand, rested entirely on the fact that, under the terms of the Act and the commission, the powers of the commissioners were strictly limited to the case of Dutch ships actually brought into the ports of the United Kingdom and provisionally detained there; that, as the ships had never been brought into this country at all, they had never become the objects of the plaintiffs' authority under the commission, and consequently that the plaintiffs had no such interest therein as to entitle them to insure.

Opinion of the majority

Before the House of Lords, eight of the Judges were of

(*x*) 3 B. & P. 99—105.
(*y*) 2 B. & P. N. R. 298—300.
(*z*) *Ibid.* 300—307.
(*a*) *Ibid.* 315—326.
(*b*) 3 B. & P. 98.

Sect. 304.

opinion, upon the same grounds as before, that the plaintiffs had an insurable interest sufficient to sustain the first count; "they had a contingent interest, and, supposing the intentions of the Crown to remain unaltered, nothing stood between them and the vesting of that contingent interest but the perils insured against" (*c*).

of the Judges in the House of Lords.

Opinions of Chambre and Lawrence, JJ., and judgment of the House of Lords.

Chambre, J., adhered to his former opinion, which was supported by Lawrence, J., by the great authority of Lord Eldon, by Lord Erskine, and, as is inferred rather from the known course of his subsequent decisions than from anything that fell from him at the time, by Lord Ellenborough (*d*). To these learned persons the plaintiffs' claim of interest seemed to have "no other foundation than a mere naked expectation of acquiring a trust, or charge, respecting the property, without a scintilla of present right, either absolute or contingent" (*e*). By the letter of the commission and the statute, they remarked, the plaintiffs' care was confined to ships which had been detained, or might be brought into the ports of this kingdom; so that, until arrival here, no Dutch property was clothed with those circumstances which designated it to be the object of their commission, and made it their duty to interfere in its preservation (*f*). Under these circumstances, they professed themselves unable to conceive an interest dependent on a thing, with which thing the persons supposed to be interested had nothing to do (*g*); and Lord Eldon, in particular, declared he could "not point out what is an interest unless it be a right in the property, or a right derivable out of some contract about the property, which in either case may be lost upon some contingency affecting the possession or enjoyment of the party" (*h*). Notwithstanding this clear declaration of opinion, the House of Lords did not

Venire de novo.

(*c*) 2 B. & P. N. R. 289—298.
(*d*) Chambre, J., 2 B. & P. N. R. 298—300; Lawrence, J., 300—307; Lord Eldon, 315—326; Lord Ellenborough, 397; Lord Erskine, 328.

Sect. 304.

directly reverse the decision of the majority of the Judges, but, upon the advice of Lord Eldon, sent the case down for a new trial under a *venire de novo* on the following collateral ground.

The declaration of hostilities against the United Provinces took place on the 15th of September, and the "Zeelelye," one of the ships insured, was not lost till the 20th of September. Damages, nevertheless, had been assessed at a total sum in respect of all the ships, including the "Zeelelye." As, however, the House of Lords were clearly of opinion that whatever insurable interest (if any) the plaintiffs, as commissioners, might ever have had, had at all events been taken out of them by this declaration of hostilities, which vested the ownership of all captured property in the Crown *jure belli*, it followed that the plaintiffs had no interest in the "Zeelelye" at the time of her loss, and the finding of the jury, inasmuch as it gave general damages partly made up of the loss on the "Zeelelye," was erroneous.

Final result of the case.

The cause, accordingly, came on for trial before Lord Ellenborough on the *venire de novo*, when a verdict was found for the plaintiffs upon the second count of the declaration, which averred the interest to be in the king (*i*).

Cases since Lucena *v.* Craufurd.

305. Although, however, the House of Lords in this case avoided a decision diametrically opposed to the opinion of a majority of the Judges, yet the subsequent course of our jurisprudence sufficiently shows the influence of this discussion to have been adverse to all claims of interest founded on mere contingent grants from the Crown (*k*).

Routh *v.* Thompson.

Thus: in pursuance of an Order in Council, of September, 1807, by which all Danish ships were directed to "be detained

(*i*) 2 B. & P. N. R. 329. A bill of exceptions was taken to his Lordship's judgment, which was, however, affirmed by the House of Lords without calling upon counsel in reply on 29th June, 1808. Lucena *v.* Craufurd, 1 Taunt. 325.

(*k*) What was determined by this celebrated case, and the application of the rule so determined, was canvassed anew in the case of Ebsworth *v.* Alliance Marine Ins. Co. (1873), L. R. 8 C. P. 596; but the discussion, as the Court was equally divided, ended without result.

Sect. 305.

and brought into port," a Danish ship was seized by a British privateer and carried into Lisbon. Thence, after repairs and the sale of her original cargo, she was despatched by the captors with another cargo to London on the 3rd of November, the very day on which a formal declaration of hostilities had been made by Great Britain against Denmark. Subsequently an insurance was effected on account of the captors, and, the ship and cargo being totally lost, an action was brought on the policy. Interest was averred in the captors, which it was contended that they had on two grounds:—(1) Because they had a possession, coupled with a well-grounded expectation of a grant from the Crown; (2) Because such possession rendered them liable, either to the Crown or to the foreign owner, for the safe custody of the ship, and therefore gave them an interest in her safety.

As to the first, it was answered, that the ship was taken, not as a prize of war after a declaration of hostilities, but merely under an Order in Council "to detain and bring into port"; that, even if the ship had arrived in safety, the captors would have had nothing "but the chance of a grant": the Court accordingly held that they had no insurable interest on the short ground, "that a man has no right to an indemnity because he has lost the chance of receiving a gift."

A mere chance not an insurable interest.

As to the second ground, which, it will be recollected, was the foundation of Lord Kenyon's decision in Boehm *v.* Bell, and approved of by Lord Eldon in Lucena *v.* Craufurd, it was held by Lord Ellenborough to be inapplicable; because a formal declaration of hostilities had intervened before the loss, which at once vested the right of ownership in the Crown, put an end to all claim on the part of the foreign owners, and freed the captors, as agents for the Crown, from all liability for acts done within the scope of their authority, which it did not appear that they had in any degree exceeded (*l*). As, however, there was no fraud in the captors in effecting the policy, nor anything illegal in the voyage or

(*l*) Routh *v.* Thompson (1809), 11 East, 428.

Sect. 305. insurance, the assured were held entitled to recover back the premiums (*m*).

Secus, of a vested right. Stirling *v.* Vaughan.

In the case just cited, the captors had no claim to prize under any Prize Acts, for the ship was taken before the declaration of hostilities. Where they had such claim, they were held to have an insurable interest in ships taken as prize before condemnation, *e.g.*, under the Prize Act (45 Geo. 3, c. 72), s. 3, which vested the property in the captors after condemnation, subject to the right of the Crown to release the prize before condemnation, and to the effect of a sentence of restoration by a Court of Admiralty (*n*).

Policy effected by prize agent may be adopted by the Crown.

306. Whether the insurance and the loss took place before or after open declaration of war or order for reprisals; whether the parties insuring effected the policy under the orders and expressly on account of the captors, or otherwise; the Crown has in all cases an insurable interest in ships lawfully detained and captured under any Order in Council: and if such insurance was made for the benefit of all whom it might concern, the Crown, by a subsequent ratification, may adopt the insurance (*o*).

Express ratification not necessary.

It would seem by what fell from the Court in the case of Stirling *v.* Vaughan, and upon the principle that the law will presume, if nothing appears to the contrary, that every person accepts what is for his benefit, that captors, in every case of legal capture, have an implied authority to insure on behalf of the Crown, and may, therefore, in all such cases, recover on a count averring the interest to be in the Crown, without any express subsequent ratification by it (*p*).

Law in the United States.

The law in the United States as to this subject seems to

(*m*) Routh *v.* Thompson (1809), 11 East, 428.

(*n*) Stirling *v.* Vaughan (1809), 11 East, 619. The Naval Prize Act now in force, 27 & 28 Vict. c. 25, declares (s. 55) that nothing in the Act shall give the captors any right in prize ships or goods, and that they shall continue to take only such interest (if any) as may be granted them by the Crown.

(*o*) Lucena *v.* Craufurd (1808), 1 Taunt. 325; Routh *v.* Thompson (1811), 13 East, 274, 284, 285. See *ante*, § 140.

(*p*) Stirling *v.* Vaughan (1809), 11 East, 623.

be, that an insurable interest in prizes can be acquired only by an actual grant from the government (*q*). **Sect. 306.**

Insurable interest of shareholders.

307. Ships are now usually owned, not by individual shareholders, but by limited liability companies, whose whole property often consists of a single ship. The question whether a shareholder in an incorporated company has an insurable interest in the property owned by the company is therefore not without practical importance. The shareholder in a ship-owning company, to apply the much quoted test of Lawrence, J., is undoubtedly interested in the preservation of the ship, inasmuch as he has "benefit from its existence, prejudice from its destruction." Yet there is no case, except that of a captor, which is considered an exceptional one (*r*), where the validity of an insurance of a chattel has been recognized, unless the assured had some legal or equitable title to or charge upon the actual thing insured, or was under some contractual liability to indemnify another person in case of its loss or of damage to it.

Their relation to the property of the company.

It has been decided that the property of an incorporated company is not the property of its shareholders; for the company is not a mere collection of individuals, but itself a legal personage (*s*). On this ground it has been held, that although an alien is not qualified to own a British ship, either wholly or in part, yet a British company is not disqualified from being the registered owner of a British ship by the fact that one of its shareholders is an alien (*t*).

The consequence seems to be that the insurable interest in a ship or other property belonging to a company is only in

(*q*) See the observations of Story, J., in The Joseph (1813), 1 Gallison, 558; 1 Phillips, ss. 320 *et seq.*

(*r*) The judgment of Walton, J., in Moran *v.* Uzielli, [1905] 2 K. B. 555, seems to create another exception. See as to this case, *ante*, § 257a.

(*s*) R. *v.* Arnaud (1846), 9 Q. B. 806; 16 L. J. Q. B. 50; Myers *v.* Perigal (1852), 2 De G. M. & G. 599; 22 L. J. Ch. 431. See also Salomon *v.* Salomon & Co., [1897] A. C. 22; Janson *v.* Driefontein Consolidated Mines, Ltd., [1902] A. C. 484; Harburg India Rubber Comb Co. *v.* Martin, [1902] 1 K. B. 778.

(*t*) R. *v.* Arnaud, *supra*.

Sect. 307. the company itself, not in the individual shareholders; and this was the view expressed by the Exchequer Chamber in Wilson *v.* Jones, in which the policy was effected to protect the interest of a shareholder in the Atlantic Cable Company (*u*).

The insurable interest of shareholder in the company's adventure.

In that case, however, the Court held that a shareholder in the Atlantic Telegraph Company had an insurable interest in the benefit which he expected to derive from the success of the adventure of laying the cable. His interest in that adventure, which in the policy was valued at the nominal value of his shares, was held to be protected by the ingeniously worded policy, which has elsewhere been set out (*x*).

Shares in company not exposed to maritime risks.

It has been said that shares in a company cannot be insured against maritime risks on the technical ground that being of an incorporeal nature, they cannot be exposed to those risks, nor are they directly liable to be lost in consequence of them (*y*).

Undoubtedly, however, shares in a company owning a ship are liable to be depreciated, or to become valueless, in consequence of casualties affecting the ship, and it may well be argued that a shareholder is as much interested in the safety of the ship as the shareholders in the Atlantic Telegraph Company were in the laying of the cable. The opinion has already been expressed that a shareholder can protect himself against such depreciation by a properly worded policy (*z*).

(*u*) (1867), L. R. 2 Ex. 139; see per Willes, J., p. 144. The *dictum* of Smith, M. R., in Driefontein Consolidated Gold Mines, Ltd. *v.* Janson, [1901] 2 K. B. 419, 427, that the beneficial ownership in the property of the plaintiff company belonged to the shareholders is inconsistent with the authorities cited in note (*s*), *supra*. In Paterson *v.* Harris (1861), 1 B. & S. 336; 30 L. J. Q. B. 354, a shareholder recovered for a loss of part of the Atlantic cable; but there was no plea traversing his interest in the cable, and the question now discussed was not raised.

(*x*) *Ante*, § 249.

(*y*) Paterson *v.* Harris (1861), 1 B. & S. 354, 355; 30 L. J. Q. B. 361.

(*z*) *Ante*, § 249. In Pole *v.* Fitzgerald (1752), Willes, 641, Willes, C. J., held that there cannot be an insurance on a voyage, on the ground that it was impossible to estimate the loss of a voyage; but he was speaking of a loss of hypothetical profits of a voyage, which might never have been earned. See the remarks of Lawrence, J., on this case, 2 B. & P. N. R. p. 301.

Sect. 308.

308. We have seen (*a*) that the master has an insurable interest in his wages, and may effect a policy on these and on any commissions he is properly entitled to (*b*).

Master's wages and commission.

Master buying ship or cargo.

It seems that in the United States, the Courts, regarding him in the relation of a confidential agent, have held that if he buys on his own account ship or cargo, when sold in case of misfortune abroad, he has no insurable interest therein, unless the purchase be ratified by those whom it may concern (*c*).

Seamen's wages.

Sect. 11 of the Marine Insurance Act, 1906, enables seamen and officers under the master to insure their wages, and this enactment will no doubt apply to any profits which they are to receive in lieu of wages (*d*).

Seamen's merchandise, by American law.

In the United States a seaman is allowed to insure any goods put on board by him as merchandise, notwithstanding the freight of these be a perquisite and so form a part of his wages (*e*).

Insurable interest of carriers.

309. A shipowner or other carrier has an insurable interest in the goods which he carries in respect of his liability for loss or damage that may happen to them during transit (*f*).

Of owner of property who is indemnified against loss.

At the same time the insurable interest of the owner of the goods is not affected by the existence of this liability. The general rule is thus stated in sect. 14 (3) of the Marine Insurance Act, 1906:—

> The owner of insurable property has an insurable

(*a*) Mar. Ins. Act, 1906, s. 11; *ante*, § 245.

(*b*) King *v.* Glover (1806), 2 B. & P. N. R. 206; and see Hawkins *v.* Twizell (1856), 5 E. & B. 883; 25 L. J. Q. B. 160.

(*c*) Copeland *v.* Mercantile Ins. Co. (1828), 6 Pick. 198; Barker *v.* Marine Ins. Co. (1821), 2 Mason, 369.

R. 8 C. P. 18; Hill *v.* Scott (C. A.), [1895] 2 Q. B. 713; Munich Ass. Co. *v.* Dodwell (1904), 128 Fed. R. 410.

Sect. 309.

interest in respect of the full value thereof, notwithstanding that some third person may have agreed, or be liable, to indemnify him in case of loss (*g*).

Miscellaneous cases of insurable interest.

310. There are other cases of insurable interest which cannot be ranged under any of the foregoing heads.

The owner of the cargo has no insurable interest in the ship.

A party interested in cargo alone has no insurable interest in the ship; for the goods may arrive safe though the ship be lost, and *vice versâ*. Hence, where the owners of the cargo effected a policy on goods, with a memorandum declaring the insurance to be "on money expended for reclaiming ship and cargo"; "the loss to be paid in case the ship does not arrive" at the port of destination; it was held that the assured had no insurable interest in the subject insured, against the event sought to be provided for by this policy (*h*).

Bills of exchange.

A bill of exchange drawn by the captain abroad to cover ship's disbursements gives the holder no lien on the ship by British law (*i*). It follows that he has no insurable interest in the ship; and the opinion to the contrary expressed by Gibbs, C. J., in Tasker *v.* Scott (*k*) seems to be an *obiter dictum* unnecessary to the case before him. The question really at issue was whether the holder of the bill could recover the premium from the master of the ship on the ground that the latter had authorized him to insure.

Instead of borrowing at respondentia, captains engaged in the East India Company's trade had, since the year 1810,

(*g*) See Hobbs *v.* Hannam (1811), 3 Camp. 93, a case of an insurance by a shipowner, to whom the charterer had undertaken to pay the value of the ship if lost during the voyage. The doctrine of subrogation will, of course, prevent the assured from recovering in all more than the value of his property: see *post*, Part III., Chap. IX., "Subrogation."

(*h*) Kulen Kemp *v.* Vigne (1786), 1 T. R. 304. The expenditure, it may be noticed, was ordered by the Admiralty Court to be a charge on the cargo.

(*i*) It seems to be otherwise by French law. Castrique *v.* Imrie (1861), 8 C. B. N. S. 405; (1870), L. R. 4 H. of L. 414. This law was in that case applied by a French Court to a British ship, no doubt erroneously; but as the judgment was *in rem*, it was held binding on the Courts of this country. The remedy, if any, was by appeal to the Cour de Cassation in France.

(*k*) Tasker *v.* Scott (1815), 1 Marsh. R. 556; *S. C.*, 6 Taunt. 234.

Sect. 310.

practised the following mode of raising money to pay for their outward investments. Bills were drawn for the required amount upon the captain's agents in India, payable in so many days after the ship's arrival outwards; these bills, drawn in two sets, were indorsed to the person in this country who had made the required advances. One set was left with him; the other set, together with the goods, consigned to the captain's agents, was taken out in the ship, and the indorsee of the bills then effected insurance on them for his own benefit: the understanding was, that if the ship arrived safe the bills were to be paid; if she did not arrive they were not to be paid. After the practice had prevailed some time a case came before the Court of Common Pleas in which the indorsees of bills so drawn and insured sued the underwriter, describing them as "bills of exchange," and averring the total loss of ship, goods, and the set of bills on board of her: Best, C. J., held that upon such policy the assured could recover nothing; the instruments, being drawn on a contingency, were not bills, but so much waste paper; the plaintiffs had lost nothing by them, because they could have recovered nothing by them; they had, therefore, no insurable interest, because they had nothing at risk (*l*).

Money advanced for repairs.

It has been decided in the United States that advances for repairs of ship give no insurable interest in the ship, unless when secured by a lien by law or contract (*m*).

Interest of insurer.

An insurer has, for the purpose of re-insurance, an insurable interest in the thing insured. In view of the importance in modern times of the question of re-insurance, the subject will presently be dealt with as a whole at some length (*n*).

(*l*) Palmer *v.* Pratt (1824), 2 Bing. 185. "I quite concur with Mr. Phillips," said Arnould, "that this is, both in itself and in reference to the grounds of the judgment, a very unsatisfactory decision." See 1 Phillips, s. 203, n.; see also Lowry *v.* Bourdieu (1780), 2 Dougl. 468.

(*m*) Buchanan *v.* Ocean Ins. Co. (1826), 6 Cowen, 318; 1 Phillips, s. 202. See, however, Moran *v.* Uzielli, [1905] 2 K. B. 555, *ante*, § 257a.

(*n*) *Post*, §§ 322—328.

Sect. 311.

Wager policies. Definition of a wager policy.

311. The term *Wager Policy* relates to the form of the instrument as well as to the nature of the contract.

A wager (or honour) policy may be defined to be one in which the parties, by express terms, disclaim, on the face of it, the intention of making a contract of indemnity.

Form of wager policies.

Such a policy is generally known by having one or other of the following clauses written on the face of it:—"Interest or no interest," or "Without further proof of interest than the policy," or "This policy to be deemed sufficient proof of interest," or any other terms which purport either to entitle the assured to recover against the underwriters a stipulated sum of money, whether he has any interest in the ship or cargo or not; or to bind the underwriter not to require any proof of the assured's interest other than the policy itself (*o*). As, moreover, in these cases there is nothing actually at risk which can be sea-damaged or abandoned, such policies frequently also contain the clause, "Free of all average, and without benefit of salvage."

Wager policies were at one time deemed legal.

It has been made a subject of very learned inquiry whether such policies were legal at common law. It will at present be sufficient to give what is now firmly established as the true result of the authorities, viz.:—

1. That by the law of England, as it stood at the time of passing the Act of 19 Geo. 2, c. 37, a wager policy properly so called, *i.e.*, one in which the parties, by express terms, such as the words "interest or no interest," or "without proof of interest," disclaimed making a contract of indemnity, was then (contrary to older determinations) deemed a valid contract of insurance (*p*).

(*o*) See the judgment of Best, C. J., in Murphy *v.* Bell (1828), 4 Bing. 569—572. A clause of this kind is usually called a "p.p.i." (policy proof of interest) clause, and the policy containing it is also known as a "p.p.i." policy.

(*p*) This point was established by Assievedo *v.* Cambridge (1710), 10 Mod. 77; Depaba *v.* Ludlow (1721), 1 Comyns, 360; Dean *v.* Dicker (1746), 2 Str. 1250. They were also recognized as legal by Lord Mansfield, and were held legal at common law in Ireland in Keith *v.* Protection Ins. Co. of Paris (1882), 10 L. R. Ir. 51.

Sect. 311.

A policy in the common form was always a policy upon interest.

2. That a policy, containing no such clause disclaiming or dispensing with the proof of interest, but effected in the common form, was, at common law, as it still is, considered to be a contract of indemnity only, upon which the assured could never recover without averment and proof of interest (*q*).

19 Geo. 2, c. 37.

312. About the year 1746 wager policies became so prevalent that the Legislature, wisely considering it to be against the policy of this country, as a great maritime state, to permit parties who had no interest in the safety of British ships and cargoes, by means of these policies, to give themselves a direct interest in their loss, interfered by the 19th Geo. 2, c. 37, to suppress the practice.

That Act prohibited the making of insurances on British ships and their cargoes "interest or no interest," or "without further proof of interest than the policy," or "without benefit of salvage to the insurer," or by way of gaming or wagering (*r*). Such insurances, as the preamble recites, had been found to be productive of many pernicious practices; such as the "fraudulent loss, destruction or capture of great numbers of ships, with their cargoes"; the "encouragement of the exportation of wool, and the carrying on of many prohibited and clandestine trades, which, by means of such insurances,

(*q*) For this latter position, see the observations of Lord Eldon in Lucena *v.* Craufurd (1806), 2 B. & P. N. R. 321, dissenting from the *dictum* of Lord Kenyon in Craufurd *v.* Hunter (1798), 8 T. R. 23, in which that learned judge had said "that a person at common law might have insured without interest." The position, as stated in the text, was laid down as law by Chambre, J., in Lucena *v.* Craufurd (1802), 3 B. & P. 101, and was finally established by the judgment of the Exchequer Chamber in Cousin *v.* Nantes (1811), 3 Taunt. 513, in which the *dictum* of Lord Kenyon and the case of Nantes *v.* Thompson (1802), 2 East, 385, founded upon it, were decisively overruled.

(*r*) The following is the text of this provision:—"Be it enacted that no assurance or assurances shall be made by any person or persons, bodies corporate or politic, on any ship or ships belonging to his Majesty or any of his subjects, or on any goods, merchandises or effects laden or to be laden on board of any such ship or ships, interest or no interest, or without further proof of interest than the policy, or by way of gaming or wagering, or without benefit of salvage to the assurer; and that every such assurance shall be null and void to all intents and purposes."

Sect. 312.

have been concealed"; the introduction of "a mischievous kind of gaming, under pretence of insuring against the risk on shipping and fair trade."

Hence it appears, as pointed out by Best, C. J., that gaming was by no means the sole evil which the Legislature, by this Act, proposed to remedy; but its object also, and perhaps chiefly, was to prevent policies in this form from being used to protect persons who were carrying on an illegal traffic, or made the means of profiting by the wilful destruction and capture of ships (*s*).

Mar. Ins. Act, 1906, s. 4.

313. This Act has been repealed by sect. 92 of the Marine Insurance Act, 1906, sect. 4 of which deals with wager policies and insurances in general made by way of gaming and wagering in the following terms:—

> (1) Every contract of marine insurance by way of gaming or wagering is void.
>
> (2) A contract of marine insurance is deemed to be a gaming or wagering contract—
>
> (a) Where the assured has not an insurable interest as defined by this Act (*t*), and the contract is entered into with no expectation of acquiring such an interest; or
>
> (b) Where the policy is made "interest or no interest," or "without further proof of interest than the policy itself," or "without benefit of salvage to the insurer," or subject to any other like term:
>
> Provided that, where there is no possibility of salvage, a policy may be effected without benefit of salvage to the insurer (*u*).

Changes which it effects.

An important change has been effected by this section. 19 Geo. 2, c. 37, in terms only prohibited wager policies on British ships and their cargoes (*x*), and was held not to

(*s*) Per Best, C. J., in Murphy *v.* Bell (1828), 4 Bing. 569, 570.

(*t*) See *ante*, § 254.

(*u*) This proviso gives effect to the opinion of nine of the judges in Lucena *v.* Craufurd (1806), 2 B. & P. N. R. at p. 310. There seems to be no possibility of salvage in insurances on profits or commissions.

(*x*) It was held to apply to other subjects of insurance as well as

Sect. 313. Insurances on foreign ship.

extend to foreign vessels (*y*). There is no such limitation in the Marine Insurance Act, under which every insurance by way of gaming and wagering within the meaning of sect. 4 is void.

Wager policies now void in Ireland.

Another change effected by the Marine Insurance Act, 1906, is that wager policies are now void in Ireland. The Irish Court had previously held that 19 Geo. 2, c. 37, was not extended to Ireland by the Irish Act, 21 & 22 Geo. 3, c. 48, and consequently that wager policies, being legal at common law, were valid (*z*).

313a. Wager policies, as we have seen, were expressly prohibited by 19 Geo. 2, c. 37, and under that Act were considered illegal (*a*).

Wager policies not illegal under Mar. Ins. Act, 1906.

Sect. 4 (1) of the Marine Insurance Act, 1906, however, merely declares that they are void. As wager policies were not illegal at common law, the result seems to be the same as has been held to follow, as regards wagering contracts, from the similar provision of the Gaming Act, 1845, s. 18,

"ship" and "goods." In a certain sense a marine insurance must in general be either on the ship or on the goods on board of her; for being against maritime perils, it must be against loss caused by some event which physically affects some tangible property at risk. Accordingly, for the purposes of the Act, an insurance was deemed to be on the thing physically at risk, the loss of which involved the loss of the subject-matter insured. Thus policies on "profits," "commissions," and "cash advances" were held to be within the Act. See Smith *v.* Reynolds (1856), 1 H. & N. 221; 25 L. J. Ex. 337; De Mattos *v.* North (1868), L. R. 3 Ex. 185; Allkins *v.* Jupe (1877), 2 C. P. D. 375; Mortimer *v.* Broadwood (1869), 17 W. R. 653; Berridge *v.* Man On Ins. Co. (1887), 18 Q. B. D. 346. In fact it was no doubt correct to say that the Act made every marine policy relating to a British ship void, which on the face of it was a wager policy.

(*y*) Thellusson *v.* Fletcher (1780), 1 Dougl. 315.

(*z*) Keith *v.* Protection Marine Ins. Co. of Paris (1882), 10 L. R. Ir. 51.

(*a*) Allkins *v.* Jupe (1877), 2 C. P. D. 375; Gedge *v.* Royal Exchange Ass. Corpn., [1900] 2 Q. B. 214. See also Lowry *v.* Bourdieu (1780), 2 Dougl. 468; Andree *v.* Fletcher (1789), 3 T. R. 266. In Tasker *v.* Scott (1815), 6 Taunt. 234, Gibbs, C. J., held, on the contrary, that a person who authorized another to effect a wager policy was liable to repay him the premium, on the ground that 19 Geo. 2, c. 37, made the insurance not illegal, but only unavailable.

Sect. 313a.

i.e., though void, they are not illegal under the Act of 1906 (*b*). A later statute, however, the Marine Insurance (Gambling Policies) Act, 1909 (9 Edw. 7, c. 12) (*c*), prohibits certain insurances, which in the Act are termed "contracts by way of gambling on loss by maritime perils," by making them criminal. It is now an offence to effect a contract of marine insurance without having any *bonâ fide* interest, direct or indirect, either in the safe arrival of the ship in relation to which the contract is made or in the safety or preservation of the subject-matter insured, or a *bonâ fide* expectation of acquiring such an interest. The offender is liable, on summary conviction, to imprisonment for not more than six months, with or without hard labour, or to a fine not exceeding 100*l*., and also to forfeit to the Crown any money he may receive under the contract (*d*). It is also an offence under this Act, entailing the same penalties, for any person in the employment of the owner (*e*) of a ship, not being a part-owner, to effect a contract of marine insurance in relation to the ship, "interest or no interest," or "without further proof of interest than the policy itself," or "without benefit of salvage to the insurer," or subject to any other like term (*f*). Further, any broker or other person through whom, and any insurer with whom, an insurance is effected is also guilty of an offence, punishable in like manner, if

When prohibited by Mar. Ins. Act, 1909.

(*b*) In Cheshire *v.* Vaughan, [1920] 3 K. B. at p. 251, Bankes, L. J., says that it may well be that the making of a p.p.i. policy is against public policy in spite of the repeal of the statute of 1745, which declared that such contracts should be illegal, and the substitution of sect. 4 of the Act of 1906 which speaks of them as being void, because the mischief aimed against is the same. For the effect of the Gaming Act, 1845, see Fitch *v.* Jones (1855), 5 E. & B. 238; per Lush, J., Haigh *v.* Sheffield Town Council (1874), L. R. 10 Q. B. 102, 109; Beeston *v.* Beeston (1875), 1 Ex. D. 13; per Hawkins, J., Read *v.* Anderson (1882), 10 Q. B. D. 100, 104; per Bowen, L. J., Bridger *v.* Savage (1885), 15 Q. B. D. 363, 367; Powell *v.* Kempton Park Racecourse Co., [1899] A. C. 143, 170, 196; Hyams *v.* Stuart King, [1908] 2 K. B. 696, 707, 727.

(*c*) For the text of this Act, see Vol. II. Appendix A.

(*d*) Mar. Ins. Act, 1909, s. 1, sub-s. 1 (a).

(*e*) "Owner" includes "charterer": Mar. Ins. Act, 1909, s. 1 (8).

(*f*) Mar. Ins. Act, 1909, s. 1, sub-s. 1 (b).

Sect. 313a.

he acted with knowledge that the insurance was one prohibited by this Act (*g*). Proceedings under the Act cannot be instituted without the consent in England or Ireland of the Attorney-General, or in Scotland of the Lord Advocate; nor can they be instituted against any person (except one in the employment of the shipowner who has effected an honour policy), until an opportunity has been afforded him of showing that the contract was not one prohibited by the Act, and any information given by him for that purpose is not admissible in evidence against him (*h*).

Thus the Act of 1909 prohibits, without any qualification, insurances in relation to a ship effected by means of honour policies by persons in the employment of the owners, other than part-owners. Even if the assured had an insurable interest, that fact would afford no defence to a charge under sect. 1, sub-s. 1 (b). On the other hand, it seems that an insurance effected by a person who has a genuine interest, direct or indirect, in the subject-matter insured cannot be within sub-s. 1 (a), even though the insurance be made on a valuation so excessive as to render the contract one by way of gaming or wagering within the meaning of the Marine Insurance Act, 1906, s. 4, or of the Gaming Act, 1845, s. 18 (*i*). But when proceedings have been taken under sect. 1, sub-s. 1 (a) of the Act of 1909 against any person who has effected a policy with a "p.p.i." or like clause, the onus of proving that he has not committed an offence of effecting a contract by way of gambling is thrown on him (*j*). One effect of the Act is, no doubt, that a broker who has committed an offence by knowingly making a contract prohibited by the Act cannot claim any remuneration or any indemnity from his principal for payments made by him in respect of the transaction (*k*).

(*g*) *Id.* s. 1 (2).

(*h*) *Id.* s. 1 (4).

(*i*) See *infra*, §§ 314, 319.

(*j*) Mar. Ins. Act, 1909, s. 1 (5).

(*k*) See Thacker *v.* Hardy (1878), 4 Q. B. D. 685, 687.

Sect. 314.

Effect of no expectation of interest.

314. Sect. 4 (2) (a) of the Marine Insurance Act, 1906, declares, as we have seen, that a contract of marine insurance is deemed to be a gaming or wagering contract, where the assured has not an insurable interest, and the contract is entered into with no expectation of acquiring one. The words "where the assured has not an insurable interest" apparently relate to the time when the contract is made. By sect. 6 (1) of the Act it is not necessary that the assured should have an insurable interest at this time (*l*). Therefore if he effects the insurance, believing that he will acquire such an interest, and acquires it before the loss, he can recover. But it seems to follow from sect. 4 that if he insures at a time when he has no insurable interest and does not expect to acquire one, he cannot even recover when at the time of the loss he has an insurable interest, though the policy contains no express terms which show that it was intended to be a gaming or wagering contract. Under the Act of Geo. II. it was held that all policies must be taken to be on interest, unless something was stated showing the contrary, and were not valid, whether on foreign or British ships, unless the assured had an interest; and that it was not possible to recover by action upon them without averment of interest, and proof thereof when that averment was traversed (*m*).

Are wager policies void under the Gaming Act, 1845?

315. Whether a policy expressly admitting interest is void under the Gaming Act, 1845 (8 & 9 Vict. c. 109), s. 18, which provides that all contracts or agreements by way of gaming or wagering shall be null and void, is a question which no underwriter has raised (*n*). Arnould seemed to think that the policy is void under this Act (*o*). In support of this view it may be argued that the form itself of the policy shows that it was not intended to be a contract of

(*l*) See *ante*, § 258.

(*m*) Cousins *v.* Nantes (1811), 3 Taunt. 513.

(*n*) The materiality of this question lies in the fact that it is only in respect of contracts void under this particular statute that the Gaming Act, 1892, has any application.

(*o*) 2nd ed. vol. i. p. 333, n.

Sect. 315.

indemnity. Yet the stipulation that proof of interest is dispensed with is not inconsistent with there being an insurable interest in the assured; and as a matter of fact it is well known that these policies are constantly effected on behalf of persons who have an interest in the subject of the insurance, sometimes, perhaps, on account of some difficulty in proving interest (*p*).

It is submitted that a policy in which interest is admitted is not void under the Gaming Act, 1845 (and therefore that the Gaming Act, 1892, has no application to it), if in fact the assured has or expects to acquire such an interest as shows that he did not intend to make a wager (*q*). If such a policy

(*p*) See per Kennedy, J., in Gedge *v.* Royal Exchange Ass. Corporation, [1900] 2 Q. B. 214, 223. The fact that there may be a real insurable interest is, no doubt, the reason why Bigham, J., after consulting Mathew, J., announced that he would, with the consent of the parties, hear a case in which the policy contained a "p.p.i." clause, as if the policy did not contain the clause. Buchanan *v.* Faber (1899), 4 Com. Cas. 227, n. In a later case, where there was no agreement that the clause should be deemed to be deleted, and the assured was relying on the fact that the Act of George II. was not pleaded to enable him to recover without having any insurable interest, Kennedy, J., held that he was bound to take notice of the illegality and the fact that the insurance was a mere wager. Gedge *v.* Royal Exchange Ass. Corporation, *supra*. Wager policies are no longer prohibited in terms, as they were by 19 Geo. 2, c. 37; they are only declared to be void (see *infra*, note (*q*)). Yet, even though it be not pleaded that a "p.p.i." policy is void under sect. 4 of the Mar. Ins. Act, 1906, or under the Gaming Act, 1845, it seems, according to the decision of the Divisional Court in Luckett *v.* Wood (1908), 26 Times L. R. 617, to be the duty of the Court, in an action on the policy, to take notice of the fact that the contract is not enforceable. See also North-Western Salt Co. *v.* Electrolytic Alkali Co., [1913] 3 K. B. 422; [1914] A. C. 461.

(*q*) "The Act," said Willes, J., "has no application to a contract upon a matter in which the parties have an interest." Wilson *v.* Jones (1867), L. R. 2 Ex. 139. Cf. however, Lord Shaw's *dictum* in Thames & Mersey Mar. Ins. Co. *v.* "Gunford" Ship Co., [1911] A. C. at p. 543. It may be pointed out that under the Gaming Act, 1892, any promise, express or implied, to repay any sum of money paid in respect of a contract made void by 8 & 9 Vict. c. 109, or to pay any money by way of commission, reward, or otherwise in respect of such contract or of any services in relation thereto, is null and void. See Tatam *v.* Reeve, [1893] 1 Q. B. 44; 62 L. J. Q. B. 30; De Mattos *v.* Benjamin (1894), 63 L. J. Q. B. 248; Saffery *v.* Mayer, [1901] 1 K. B. 11. In Tasker *v.* Scott (1815), 6 Taunt. 234, Gibbs, C. J., held

Sect. 315.

has hitherto not been within the Gaming Acts, it is apprehended that it is not brought within those Acts by sect. 4 (2) of the Marine Insurance Act, 1906, which declares that every policy containing a "p.p.i." clause is deemed to be a gaming or wagering contract. The definition of such a contract for the purposes of the Marine Insurance Act, 1906, cannot, it is submitted, enlarge the meaning of the term "contracts by way of gaming or wagering" in the Gaming Act, 1845 (*r*).

Dictum that wager policies vitiate other insurances.

315a. The "Gunford" case, in which insurances on a vessel were held to be avoided by the concealment of a large over-insurance by means of "p.p.i." policies on disbursements, elicited a remarkable *dictum* of Lord Shaw of Dunfermline's that such policies, apart from the effect of their non-disclosure, vitiate all other insurances effected by the same assured on the same adventure (*s*). "It is necessary," said his Lordship, "to examine fundamentally the position of an owner who has made legitimate insurances upon ship, cargo, or freight, and also made separate gambling insurances. My Lords, it appears to me that, whenever owners enter into gambling transactions of this kind, these transactions themselves are not only invalid, but they infect and invalidate the entire insurances which the same assured have made upon vessel, freight, or cargo. The reason of that is this: the

that a person who authorized another to effect a wager policy was liable to repay him the premium, on the ground that 19 Geo. 2, c. 37, made the insurance, not illegal, but only unavailable. In Allkins *v.* Jupe (1877), 2 C. P. D. 375, the Court of Common Pleas held that wager policies were rendered illegal by 19 Geo. 2, c. 37. Sect. 4 of the Mar. Ins. Act, 1906, however, only declares that wager policies are void. Read *v.* Anderson (1884), 13 Q. B. D. 779 (C. A.), is therefore an authority in support of the liability of the assured to repay the premium, if the Gaming Acts be not applicable, unless the agent in effecting a wager policy was guilty of an offence under the Marine Ins. Act, 1909 (see *ante*, § 313a). But see the expression of opinion of Bankes, L. J., cited *ante* in note (*b*) to § 313a.

(*r*) Mr. Arthur Cohen comes to the same conclusion on this point: see Halsbury's Laws of England, vol. xvii. § 746.

(*s*) Thames & Mersey Mar. Ins. Co. *v.* "Gunford" Ship Co., [1911] A. C. 529, 543. This question was not raised by the appellants' case; they relied entirely on the concealment.

Sect. 315a.

voyage is one, and the ship, its earnings, its cargo, its crew, all are involved in that one and single hazard which has been undertaken and which is by the gambling transaction improperly weighted towards loss—a loss which, falling upon the ship, would not rest there, but spread to unsalved cargo and to freight, not to speak of the peril to human life which would be thus encountered. The line of plain duty for all parties to the contract is that the ship shall be preserved; but when a gamble has been made by one of the parties for gain upon the event of loss of ship, although the subject of the particular gamble be not the ship itself, the interest of that party is that the ship shall be destroyed. This hazard against the life of the vessel humbly appears to me to taint every policy entered upon by the same gambling adventurer, and no such policy thus depending upon the same hazard is enforceable. The rule governing this is simple and familiar, namely, that the law will not enforce a transaction which is thus tainted by conflict between duty and self-interest. The rarity and difficulty, my Lords, of a right adjustment of the wavering balance swayed by self-interest have been memorably phrased. But the law does not attempt the task; the penalty against such a conflict between interest and duty is the invalidation of the bargain. I remark, however, that the foregoing observations are not directed to the case of insurance upon ships in which third parties have acquired, in ignorance of the other and over-insurances and in good faith and for valuable consideration, separate interests. The rights of such parties would require to be separately and fully considered."

The editors are not aware that there is any direct authority, except this *dictum*, for the general proposition that an insurance otherwise valid will be vitiated by the gambling nature of an independent insurance effected by the same assured.

Cases on 19 Geo. 2, c. 37.

316. We will now consider some of the cases on the question what policies are or are not within the prohibition contained in the first section of 19 Geo. 2, c. 37, and the fourth section of the Marine Insurance Act, 1906.

Sect. 316.

Kent v. Bird.

Where the surgeon of an East Indiaman agreed to pay 20*l.* to a passenger in the same ship at the next port she should reach, provided that if she did not save her passage to China, the passenger should pay him 1,000*l.* within one month after her arrival in the river Thames, without reference to any property; this agreement was held void, as being a contract by way of gaming or wagering within the first section of the stat. 19 Geo. 2, c. 37, though the surgeon had some goods on board which were liable to suffer by the loss of the season (*t*).

Lowry v. Bourdieu.

Lowry, having advanced to Lawson, the captain of an East India ship, 26,000*l.* on the security of a common money bond, effected a policy for the amount, which appeared on the face of it to be "on Captain Lawson's bond for 26,000*l.*"—"in case of loss no other proof of interest to be required than the bond, warranted free of average, and without benefit of salvage to the insurer,"—Lord Mansfield, Ashurst, J., and Buller, J., held that this was void, as a gaming policy under the statute. "The plaintiffs," observed his Lordship, "say, 'We mean to game, but we give our reason for it: Captain Lawson owes us a sum of money, and we want to be secure in case he should not be in a situation to pay us.' It was a hedge; but they had no interest: for if the ship had been lost, and the underwriters had paid, still the plaintiffs would have been entitled to recover the amount of the bond from Lawson" (*u*).

Rule.

317. Any policy which by express terms dispensed with all proof of interest was held to be within the Act of 19 Geo. 2, c. 37, and void, though the clause by which the proof of interest was dispensed with was not in terms identical with those specified in the first section, even when it

(*t*) Kent *v.* Bird (1777), 2 Cowp. 583. The 20*l.* which the surgeon had paid by way of premium was returned. See also Gedge *v.* Royal Exchange Ass. Co., [1900] 2 Q. B. 214.

(*u*) Lowry *v.* Bourdieu (1780), 2 Dougl. 468. Willes, J., only thought it an unavailable, not an illegal, insurance; the rest of the Court, however, holding it illegal, the premium was not returned.

Sect. 317.

Murphy v. Bell.

was manifest that the insurance was not a gaming one (*x*). Hence, where a policy of insurance stipulated "that the goods insured were and should be valued at five tierces coffee, valued at 27*l.* per tierce, say 135*l.*, that policy to be deemed sufficient proof of interest," the Court of Common Pleas held that the policy was void, for the object of the statute was to prevent insurances in which the policy was to be proof, not of the amount, but of the existence of interest (*y*).

"Any other like term."

Sect. 4 (2) of the Marine Insurance Act, 1906, expressly includes in the definition of gaming and wagering contracts policies subject to any term like those previously specified.

Insurance to be paid "in full."

It has been held that a stipulation in one of the Institute Time Clauses that, in the event of a total loss of ship, the freight insurance should be paid "in full" was not equivalent to a stipulation that it should be paid "without benefit of salvage" (*z*).

Valued policies not within the Act:

318. It was thought at one time that all valued policies were within 19 Geo. 2, c. 37, on the ground that frauds by the wilful loss or destruction of ships and cargoes might be accomplished by means of policies in which a higher value is put on the articles insured than they were worth; but the distinction between wager and valued policies is very clear. If the policy dispenses with all proof of the existence of interest, it is a wager policy, and void; but where the policy contains on the face of it no such dispensation, but only saves the plaintiff the trouble of showing the amount of his interest, leaving him still to prove some interest, it is a valued policy and good (*a*).

(*x*) Murphy *v.* Bell (1828), 4 Bing. 567; Berridge *v.* Man On Ins. Co. (C. A.) (1887), 18 Q. B. D. 346. In the latter case the clause was "Full interest admitted." In Grant *v.* Parkinson (1782), 2 Park, 561, the terms of an insurance on profits were: "In case of loss it is agreed that the profits shall be valued at 1,000*l.*, without any other voucher than the policy." The Court held that the last words were mere surplusage, referring to the valuation, not the interest, and that the policy was valid. (*y*) Murphy *v.* Bell, *supra*.

(*z*) Coker *v.* Bolton, [1912] 3 K. B. 315, Hamilton, J.

(*a*) Lewis *v.* Rucker (1761), 2 Burr. 1171; Murphy *v.* Bell (1828), 4 Bing. 572.

Sect. 319.

unless valuation enormously exaggerated.

319. If, indeed, there appears to be an enormous disproportion between the real value of the articles insured and that inserted in the policy as their agreed value between the parties—for instance, if, in the words of Lord Mansfield, "it should come out in proof that a man had insured 2,000*l*., and had interest on board to the value of a cable only"—such policy, it was said, would have been within 19 Geo. 2, c. 37, and on that ground void, though the underwriter was aware of the extent of the over-valuation (*b*). Such a case is not covered by the definition of a gaming and wagering contract in sect. 4 (2) of the Marine Insurance Act, 1906 (*c*). It is however, submitted that sect. 4 (2) is not exhaustive, and has, therefore, not the effect of preventing such a policy from being void under sect. 4 (1) (*d*). Of course, if the underwriter was kept ignorant of the excessive valuation he might avoid the policy on the ground of such concealment (*e*).

Exceptions made by 19 Geo. 2, c. 37, abolished by the Mar. Ins. Act.

320. From the prohibition of all wager policies on British ships and goods, 19 Geo. 2, c. 37, made an exception in the case of insurances on privateers and on effects from places in the possession of the Crowns of Spain and Portugal. As we have seen, the Marine Insurance Act, 1906, which repeals the whole Act of 19 Geo. 2, declares all wager policies, without exception, to be void.

Incidents of a wager policy.

It has been held that there can be no abandonment under a wagering policy (*f*); also that a recapture, after the ship has been in an enemy's port, will not avail the underwriter (*g*).

(*b*) Lewis *v.* Rucker, *quâ supra*. "In the absence of proof," said Willes, J., "that the value fixed by the contract is so exaggerated as to be a mere cloak for gambling, in representing more than any possible interest which the assured could have in the ship and outfit, or that the exaggeration was fraudulent with a view to cheat the underwriter, the latter is bound in case of total loss to pay the agreed sum." (Memorandum printed as App. LVII. to vol. ii. of the Report of the Unseaworthy Ships Commission of 1874; cited by Mathew, J., in Herring *v.* Janson (1895), 1 Com. Cas. 177.)

(*c*) *Ante*, § 313.

(*d*) This submission is not inconsistent with the language of s. 27 (3) of the Mar. Ins. Act, 1906, *post*, § 338; and the *dicta* of Lord Shaw and Lord Robson in Thames & Mersey Mar. Ins. Co. *v.* "Gunford" Ship Co., [1911] A. C. at pp. 542, 548, were probably not intended to apply to the case under discussion.

(*e*) *Post*, § 604.

Sect. 320.

Wagering policies are illegal in most foreign countries.

321. It is not only in our own country that insurances by way of wager are held illegal; in most countries their illegality is equally established by general mercantile usage or positive enactment.

In France.

In France, though not prohibited in express terms, they were held unlawful as opposed to the spirit of the Ordonnance de la Marine (*h*) and the text of the Code Civil (*i*). When the provisions of the Code de Commerce were under the consideration of the French legislature, an attempt was made to procure the protection of the law for this species of contract, but it was immediately checked by the indignant exclamation of the Imperial orator, that "it was not for a great nation like France to legalize the immorality of gambling contracts (*des paris*)" (*k*).

In the United States.

In the greater number of the United States of America these policies, though not prohibited by positive statute, have invariably been considered illegal (*l*). In New York,

(*f*) Kulen Kemp *v.* Vigne (1786), 1 T. R. 304.

(*g*) Dean *v.* Dicker (1746), 2 Str. 1250.

(*h*) L. 3, t. 6, art. 22, 23; 2 Valin, Comment. sur l'Ordonnance de la marine, vol. ii. p. 73, ed. 1766; pp. 286—290, ed. Becane, A.D. 1829.

(*i*) Code Civil, art. 1965, 1966, which declares all wagers illegal. The Code de Commerce, says Boulay-Paty, cannot be more indulgent on this point than the Code Civil, Droit Mar. tom. iii. tit. x. p. 238. They seem now to be impliedly prohibited by art. 334 of the Code de Commerce as altered in 1885. The article formerly began: "L'assurance peut avoir pour objet" (the various subjects of insurance); now it runs: "Toute personne intéressée peut faire assurer," &c.

(*k*) See Estrangin, note to Pothier, Traité d'Assurance, p. 14; Boulay-Paty, *quâ supra*, note by M. Becane to his edition of Valin, tom. ii. p. 285.

(*l*) 1 Phillips, Ins. ss. 5, 7, 211; 3 Kent, Com. 277, n. (*d*). According to American law "p.p.i." policies are not necessarily treated as wagering policies; they are deemed to be policies on interest, if the parties so intended: Brown *v.* Merchants' Mar. Ins. Co. (1907), 152 Fed. R. 411. See also 1 Phillips, s. 7.

Sect. 321.

however, they were held legal (*m*), but are now prohibited by the revised statutes of that State (*n*).

Re-insurance.

322. After an insurance has been made, the underwriter may, by the law and practice of all countries (*o*), have the whole amount at risk (or, as in France, the whole minus the premium) re-insured to him by some other underwriter. The object of this is to enable him to indemnify himself against the consequences of his own act, whenever he finds he has undertaken a risk on imprudent terms or bound himself to a greater amount than he may be able to discharge (*p*). If he gives a less premium for the re-insurance than he receives on the original policy, he gains the difference; he gains nothing if he gives the same premium, and suffers a loss if he gives more, as may sometimes happen, to cover a dangerous risk.

Formerly illegal in this country.

This means of protection for insurers was formerly illegal by the law of this country. About the middle of the eighteenth century this practice of re-insurance, having in this country come to be employed as a mode of speculating in the rise and fall of premiums, and being likely to be used as a cover for wager policies, was declared by the 4th section of the 19 Geo. 2, c. 37, unlawful, unless the insurer were insolvent, bankrupt, or dead. This was repealed and re-insurances made lawful by the 27 & 28 Vict. c. 56, s. 1 (*q*).

Now permitted.

Now by sect. 9 of the Marine Insurance Act, 1906—

Mar. Ins. Act, 1906, s. 9.

(1) The insurer under a contract of marine insurance has an insurable interest in his risk, and may re-insure in respect of it.

(2) Unless the policy otherwise provides, the original assured has no right or interest in respect of such re-insurance.

(*m*) Juhel *v.* Church (1801), 2 Johnson's Cases, 333.

(*n*) N. Y. Rev. St. Pt. I. c. xx. tit. viii. ss. 8, 9, 10, cited in Kent's Com., *ubi supra*.

(*o*) Re-insurances are expressly sanctioned by most of the Continental Commercial Codes. See that of France, art. 342; Spain, art. 749; Italy, art. 426; Germany, art. 779; Holland, art. 271; Scandinavia, art. 230. They are permitted in the United States, 3 Kent, Com. 278. See also 1 Emerigon, c. viii. ss. 14, 15, 16, pp. 252—261; 3 Boulay-Paty, Droit Mar. 429—446; 1 Benecke, 281—289.

(*p*) A policy of re-insurance is, however, not a mere contract of indemnity. See Nelson *v.* Empress Assurance Corporation (1905), 10 Com. Cas. 237 (C. A.), *infra*, § 323.

(*q*) This statute was repealed by 30 & 31 Vict. c. 23, the schedule to which again repealed 19 Geo. 2, c. 37, s. 4.

Sect. 323.

323. There have been several decisions in our Courts within the last few years upon policies which happened, in fact, to be policies of re-insurance. This is a circumstance which is interesting as illustrating the large extent to which policies of this nature are now used. The decisions themselves, however, do not turn as a rule upon questions peculiar to re-insurance, and will be found to be noticed in their proper places so far as they illustrate any points of marine insurance law in general. The law relating to contracts of re-insurance is, generally speaking and apart from special circumstances, the same as that which governs the original contract.

The re-insurance contract.

The thing which the re-assured insures is the thing originally insured. In this thing he has an insurable interest to the extent of the liability which he may incur under and by reason of his original contract of insurance (*r*). As it is, apart from usage, never necessary in a contract of insurance to describe the interest of the assured, but is sufficient to specify simply what is the thing insured, it follows that a contract of re-insurance need only show that the thing intended to be covered is ship, freight, goods, or whatever it may be; it is not as a matter of law necessary that it should appear on the face of it to be a contract of re-insurance (*s*).

(*r*) See per Buckley, L. J., in British Dominions Gen. Ins. Co., Ltd. *v.* Duder, [1915] 2 K. B. at p. 400. It is doubtful whether this view is consistent with the language of Mathew, L. J., in Nelson *v.* Empress Assurance Corp. (1905), 10 Com. Cas. at p. 240, that "a policy of re-insurance is a policy on an interest in the subject-matter of the insurance, that interest being different from that protected by the original policy and acquired by the fact that the assured is the underwriter under the original policy."

(*s*) Mar. Ins. Act, 1906, s. 26, *ante*, §§ 251, 252; Mackenzie *v.* Whitworth (1875), L. R. 10 Ex. 142; 1 Ex. D. 36 (C. A.). By the 19 Geo. 2, c. 37, the policy was required to express that it was a re-insurance, and this remained the law till 1867.

Sect. 323.

In English policies, however, it is now an almost universal practice to insert in re-insurance policies a clause (the effect of which will be discussed hereafter) by which this particular circumstance is specially called to the underwriter's attention (*t*). And though, generally speaking, it seems unnecessary to disclose the fact that the risk is one of re-insurance, there might in a particular case be circumstances attending the original contract which would affect the mind of a re-insurer. If, for instance, the original assured were known to the original insurer to be a person who on previous occasions had attempted to defraud his underwriters, it might be incumbent on the original insurer to disclose to a re-insurer the character of the original assured, and therefore also the fact that the risk is one of re-insurance (*u*).

Definition of re-insurance.

324. Re-insurance is defined to be a contract by which, in consideration of a certain premium, the original insurer throws upon another the risk for which he has made himself responsible to the original assured, to whom, however, he alone remains liable on the original insurance (*x*).

Totally distinct from the original insurance.

Sect. 9 (2) of the Marine Insurance Act, 1906, states that "unless the policy otherwise provides, the original assured has no right or interest in respect of such insurance." Thus, in general, the contract of re-insurance is totally distinct from and unconnected with the original insurance (*y*); the original assured has no kind of claim against the re-insurer, or against

(*t*) In Mackenzie *v.* Whitworth, *ubi supra*, a Liverpool jury refused to find for an underwriter upon the issue that the fact that the contract is one of re-insurance must be disclosed. A Commons' amendment to sect. 18 of the Marine Insurance Bill declared that "the fact that a policy is effected by way of re-insurance is material," but it was not agreed to by the House of Lords.

(*u*) Cf. New York Bowery Fire Ins. Co. *v.* N. Y. Fire Ins. Co. (1837), 17 Wend. 359.

(*x*) 1 Emerigon, c. viii. s. 14, p. 252; 3 Boulay-Paty, Droit Mar. 329.

(*y*) See Nelson *v.* Empress Assurance Corporation (1905), 10 Com. Cas. 237, in which the Court of Appeal held that the original insurer cannot bring the re-insurers in as third parties to an action on the original policy.

Sect. 324.

any moneys paid by the re-insurer to the re-assured (*z*). The re-assured remains solely liable on the original insurance and alone has any claim against the re-insurer (*a*).

Hence, supposing the original insurer to have become bankrupt and the assured to have been paid a small dividend out of his estate, the re-insurer is still liable to pay the whole amount of the re-insurance to the trustees of the original insurer and not merely the dividend (*b*).

The re-assured, in order to recover against the re-insurers, must prove the loss in the same manner as the original assured must have proved it against them (*c*). The re-insurers are entitled to raise all defences which were open to the re-assured against the original assured (*d*), and they are also entitled in the action to have from the re-assured all the information and assistance which the latter were

Defences open to re-insurers.

(*z*) Herckenrath *v.* The American Mut. Ins. Co. (1848), 3 Barb. Ch. N. Y. 63; 1 Parsons, 301.

(*a*) Le premier contrat subsiste tel qu'il a été concu, sans novation ni altération. La réassurance est absolument étrangère à l'assuré primitif, avec le quel le réassureur ne contracte aucune sorte d'obligation: 1 Emerigon, c. viii. s. 14, p. 252.

(*b*) Herckenrath *v.* The American Mut. Ins. Co., *ubi supra;* 2 Phillips, s. 1752; 1 Parsons, 300; Emerigon, 253. See also In re Law Guarantee, &c. Soc., [1914] 2 Ch. 617, 649; British Union and Nat. Ins. Co. *v.* Rawson, [1916] 2 Ch. 476. In In re Eddystone Marine Insurance Co., [1892] 2 Ch. 423, where the policy of re-insurance contained the words "to pay as may be paid thereon," the re-assured, who had paid nothing to the original assured, were nevertheless held entitled to recover the whole sum from their re-insurers. So, in the United States, Allemannia Ins. Co. *v.* Firemen's Ins. Co. (1907), 209 U. S. 326. In British Dominions Gen. Ins. Co. *v.* Duder, [1915] 2 K. B. 394, the Court of Appeal, reversing Bailhache, J., [1914] 3 K. B. 835, held that insurers who had effected a compromise in respect of a total loss for less than 100 per cent. were bound to give the benefit of such settlement to their re-insurers, though the latter had refused to assent thereto. See as to this case the judgment of Pickford, L. J., in British Union and Nat. Ins. Co. *v.* Rawson, *supra*.

(*c*) Chippendale *v.* Holt (1895), 65 L. J. Q. B. 104; 1 Com. Cas. 197; 1 Parsons, 301.

(*d*) See Marten *v.* Steamship Owners' Underwriting Association (1902), 7 Com. Cas. 195, in which Bigham, J., held that in an action for a constructive total loss the re-insurers could set up a clause in the original policy providing that the insured value of the ship should be taken to be her repaired value.

Sect. 324. entitled to have from the original assured (*e*). If the original insurance was in fact void, this affords a good defence to the re-insurers, although there may have been no irregularity in connection with the contract of re-insurance, and although the re-assured may not have availed themselves of the defect in the original policy and may actually have paid thereon (*f*); for the re-assured, not being themselves really liable, had no insurable interest. Whether or not the same reasoning would be applied to a case where the original insurance was not void, but voidable merely, and where the orginal insurer has elected to waive the irregularity and has affirmed the contract after becoming aware of it, is a different question. It might be considered, under such circumstances, that no such election to affirm the contract should be allowed to prejudice the re-insurer, unless he also has agreed thereto, or should preclude him from contending that the original insurer need not, but for such election, have come under any liability on his contract.

It may even happen that a re-insurer has additional defences which were not open to the re-assured; for example, the original insurance may have been regularly effected, but the re-insurance may be voidable for concealment (*g*) or misrepresentation, or on any other grounds.

325. Likewise it appears that there may be cases in which the liability of a re-insurer may, even as regards amount,

(*e*) Thus the re-insurers are entitled to an affidavit of ship's papers, though they be not in the custody of the plaintiffs: China Traders Ins. Co. *v.* Royal Exchange Ass. Co., [1898] 2 Q. B. 187 (C. A.).

(*f*) The position is apparently the same even when the policy contains the clause "to pay as may be paid thereon": Chippendale *v.* Holt, *ubi supra*. See per Bigham, J., Western Assurance Co. of Toronto *v.* Poole, [1903] 1 K. B. 376, 386. So in a contract of life insurance, where the re-insurance contract provided that the original insurers were to make the settlement in the event of a claim being made: Australian Widows Fund Life Ass. Soc., Ltd. *v.* National Mutual Life Ass. of Australasia, Ltd., [1914] A. C. 634.

(*g*) See Property Ins. Co. *v.* National Protector Ins. Co. (1913), 18 Com. Cas. 119. A possible example is New York Bowery Fire Ins. Co. *v.* N. Y. Fire Ins. Co. (1837), 17 Wend. 359.

and even where the policies are in the same terms, be either greater or less than that of the re-assured (*h*). This result seems to be brought about by the operation of the suing and labouring clause. Sect. 325.

Effect of suing and labouring clause in re-insurance contracts.

For example, let us suppose A., a shipowner, to abandon his vessel to B., his underwriter, who has in turn re-insured with C. B. spends 1,000*l*. in fruitless endeavours to save the vessel, which is worth 10,000*l*. B. only pays A. 10,000*l*., the value of the vessel, but by virtue of the suing and labouring clause recovers 1,000*l*. beyond that sum from C. It is surprising, however, to note that if C. have re-insured with D., the latter is not necessarily liable for the whole of the 11,000*l*. which C. has paid B., even although all the policies contain the suing and labouring clause, and although C.'s re-insurance with D. was for the same amount as B.'s re-insurance with C. For in order to entitle C. to recover the additional 1,000*l*. from D., the former would have to show that he or his agents had sued or laboured for the safety of the vessel. But inasmuch as the expense was incurred not by C. but by B., it seems to follow that C., although he has properly paid 11,000*l*. to B., nevertheless can only recover 10,000*l*. from D. This somewhat anomalous result seems to follow from the decision of the Court of Appeal in Uzielli *v.* The Boston Marine Insurance Co. (*i*). The facts of that case may be shortly summarized as follow. The "Rosa Middleton" was insured at Lloyd's for 1,500*l*. The Lloyd's underwriters re-insured with the plaintiffs, who in their turn re-insured with the defendants for the sum of 1,000*l*. The vessel became a constructive total loss,

Uzielli *v.* Boston Marine Insurance Co.

(*h*) Phillips, vol. ii. s. 1751, citing Herckenrath *v.* American Mut. Ins. Co., 3 Barbour's Ch. R. 63, probably goes too far in stating that a re-insurer is never liable beyond the amount for which the insurer is legally liable.

(*i*) (1884), 15 Q. B. D. 11. See Bigham, J.'s, remarks on this case in Western Assurance Co. of Toronto *v.* Poole, [1903] 1 K. B. 376. In British Dominions General Ins. Co. *v.* Duder, [1915] 2 K. B. 394, the Court of Appeal express their difficulty in understanding this case, and in particular why the difference between the 88 per cent. and the 100 per cent. was held to be recoverable.

Sect. 325.

which the Lloyd's underwriters compromised by a payment of 88 per cent. They had, however, spent sums amounting to 24 per cent. in getting the ship off, and were entitled to recover the total, or 112 per cent., by virtue of the suing and labouring clause, from the plaintiffs. For this 112 per cent. the plaintiffs then brought their action against the defendants, claiming accordingly the sum of 1,120*l.*, and relying on the suing and labouring clause, and also on the clause by which the defendants undertook to pay as might be paid on the policy entered into between the plaintiffs and the Lloyd's underwriters. Mathew, J., gave judgment for the plaintiffs for the whole sum claimed, but the Court of Appeal held that the suing and labouring clause did not apply, and that the other special clause extended the liability of the defendants to 1,000*l.*, the sum for which they had insured, but not beyond (*k*).

Amount recoverable on open policy of re-insurance.

326. A question has been raised amongst foreign jurists as to whether, in an open policy of re-insurance, the re-assured is entitled to recover the whole amount of the original insurance without deducting therefrom the premiums of the original insurance or the premium of the premium. Emerigon (*l*) supported the practice, which was stated by Arnould (*m*) to prevail in every other foreign country except France, whereby the whole amount was recoverable. But Pothier (*n*), Valin (*o*), Estrangin (*p*), and Boulay-Paty (*q*) were all opposed to Emerigon on the point upon the ground that, the premium of the original insurance having been already paid to the underwriter, he runs no risk upon it and therefore cannot insure it.

(*k*) The special clause is here noticed incidentally only; it is proposed to discuss it in more detail subsequently.

Sect. 326.

Re-insurer not entitled to notice of abandonment.

In cases of constructive total loss the re-assured need not give notice of abandonment to the re-insurer (*r*).

Expense of resisting original claim.

It has been held in the United States that the amount of loss recoverable on a policy of re-insurance will include the expense of resisting the claim of the original assured, provided the original insurer was justified in contesting the claim (*s*).

The re-insurance clause, "to pay as may be paid thereon."

327. It now remains to consider the effect of a clause which is found almost universally in policies of re-insurance. The clause is to the following effect:—"Being a re-insurance, subject to the same clauses and conditions as the original policy, and to pay as may be paid thereon" (*t*).

It has been decided that this clause does not preclude the re-insurer from insisting upon proper proof that a loss strictly within the terms of the original policy has taken place. Where, therefore, the plaintiffs, who were the original insurers, had accepted a notice of abandonment, and actually in good faith paid their assured for a constructive total loss, it was held that these facts alone did not entitle them to recover from their re-insurers, without proof that a constructive total loss had in fact occurred (*u*). Conversely, where the liability of the original insurer is once established, it is not necessary that he should prove actual payment. The trustee, therefore, of an insolvent underwriter, though he may have paid nothing, or only a small dividend, on the original policy, may nevertheless, notwithstanding the clause, recover from the re-insurers to the full extent of the liability which they have undertaken (*x*).

(*r*) Mar. Ins. Act, 1906, s. 62 (9). See *post*, § 1191.

(*x*) See *ante*, § 324.

Sect. 327.

Re-insurer not liable, beyond his subscription, for suing and labouring expenses.

This clause does not enable the original underwriter to recover from his re-insurer to an extent beyond the subscription of the latter. Thus, as we have already seen, in Uzielli *v.* The Boston Marine Insurance Co. (*y*), an underwriter had paid a loss amounting in all to 112*l.* per cent., of which amount 88 per cent. was payable in respect of the constructive total loss of the vessel, and the remaining 24 per cent. for suing and labouring charges. He had re-insured for 1,000*l.* only, but sought to recover 112*l.* per cent. or 1,120*l.*, on his policy of re-insurance. It was held, first, for reasons which we have already explained, that the re-insurer was not liable under the suing and labouring clause; and secondly, that the special clause which we are now considering could not render him liable beyond the amount which he had agreed to re-insure. He was accordingly held liable for 1,000*l.* and no more.

The precise effect of the clause under consideration has not been judicially determined. In one case, Bigham, J., expressed his view as to the effect of a policy of re-insurance on ship containing this clause in the following terms:—"The re-insurer, when called upon to perform his promise, is entitled to require the re-assured first to show that a loss of the kind re-insured has in fact happened; and, secondly, that the re-assured has taken all proper and business-like steps to have the amount of it fairly and carefully ascertained. That is all. He must then pay. There is nothing in his contract either express or implied which entitles him to have the ship or to deal with it in any way: though he is, no doubt, entitled to require that the original underwriter should realise it in such a way as to reduce the loss as much as may be reasonably possible. Nor is he entitled to rip up the settlement between the shipowner and the original underwriter, except upon the ground that it is dishonest, or has been arrived at carelessly. So long as liability exists, the mere fact of some honest mistake having occurred in fixing the exact amount of

(*y*) (1884), 15 Q. B. D. 11.

Sect. 327.

it will afford no excuse for not paying. He has promised 'to pay as may be paid thereon.' Such is, in my opinion, the meaning and effect of these re-insurance policies" (*z*). If this view be correct, the result is anomalous. The re-insurer is entitled, notwithstanding his promise "to pay as may be paid thereon," to say that the original insurer was not liable to pay anything. Yet he may not say that as regards part of the claim the original insurer was under no liability to pay.

Where original policy and re-insurance policy contain different clauses.

328. Difficult questions have arisen where the policy of re-insurance, while expressed to be subject to the clauses and conditions of the original policy, has been found to contain clauses which are inconsistent with them. Of course, if the re-insurance policy contains a special clause by which it is obviously intended to limit the risks covered by the original policy—as, for example, where the re-insurance is expressed to be against total loss only, or against fire risks only—the risks will be limited accordingly (*a*). But sometimes the intention of the parties has not been so obvious. In Joyce *v.* Realm Marine Insurance Co. (*b*), the original insurance was on cargo, for voyages both outward and homeward between Liverpool and West African ports, and it was declared that outward cargoes should be considered as homeward interest twenty-four hours after the vessel's arrival at her first port of discharge. The re-insurance policy was upon cargo, at and from West African ports to the vessel's ports of discharge in

Joyce *v.* Realm Insurance Co.

(*z*) Western Assurance Co. of Toronto *v.* Poole, [1903] 1 K. B. 376, 386.

(*a*) See Chippendale *v.* Holt and Marten *v.* Steamship Owners' Underwriting Association, *ante*, § 327. Where the clause, after stating that the re-insurance was against total or constructive total loss only, ended with the words "but to follow hull underwriters in event of a compromised or arranged loss being settled," and a claim against these underwriters for a constructive total loss or in the alternative for a partial loss had been compromised for a considerable sum, Bray, J., held that the re-insurers were liable: Street *v.* Royal Exchange Ass. (1913), 18 Com. Cas. 284; affirmed 19 Com. Cas. 339 (C. A.).

(*b*) (1872), L. R. 7 Q. B. 580.

Sect. 328.

the United Kingdom, "to commence from the loading of the goods at as above." Goods shipped at Liverpool were lost more than twenty-four hours after the ship's arrival at her first port of discharge in West Africa. The re-insurers contended that their risk had not attached, inasmuch as the goods had not been loaded on the coast of Africa. The Court of Queen's Bench, however, held that the clause in the original policy prevailed, and that the re-insurers were therefore liable.

Franco-Hungarian Insurance Co. v. Merchants' Marine Insurance Co.

In 1888 Day, J., appears to have held that where a twelve months' policy expired on 1st June, 1883, subject, however, to a "continuation clause," which provided that if at the expiration of the twelve months the ship should be at any place other than her home port of discharge in Europe, the risk should be prolonged until her arrival at such port, the clause under discussion did not extend the liability of re-insurers so as to render them responsible for a loss which took place after the expiration of the twelve months, and was only covered by the continuation clause. He considered that time was of the essence of a contract of this description, and that the clause only incorporated such conditions as were applicable to an insurance ending on the 1st June, 1883 (*c*).

Charlesworth v. Faber.

In Charlesworth *v.* Faber (*d*) the same question was litigated, and Bigham, J., held that the "continuation clause," being a usual one, was incorporated in the policy of re-insurance. The learned Judge distinguished the previous case on the ground that no evidence appeared to have been given before Day, J., to show that the clause was in common use; but such evidence would apparently have been irrelevant, according to the *ratio decidendi* of the case, and the two judgments cannot thus be reconciled.

Marten v. Nippon Sea Insurance Co.

Charlesworth *v.* Faber is, however, in agreement with the

(*c*) Franco-Hungarian Ins. Co. *v.* Merchants' Mar. Ins. Co. (1888), Shipping Gazette Weekly Summary, 15th June, 1888. The statement of the case is taken from McArthur, p. 336. The validity of a "continuation clause" has been established by legislation: see *post*, § 440.

(*d*) (1900), 5 Com. Cas. 408.

Sect. 328.

earlier decision of Bigham, J., in Marten *v.* The Nippon Sea Insurance Co. (*e*). The original policy, which was on goods at and from Liverpool to Guayaquil until there discharged and safely landed, contained in the margin what is called the "warehouse to warehouse" clause, whereby all risks whatsoever are included until the goods are safely delivered to the consignee. The re-insurance policy contained the usual clause by which the risk is made to determine on the discharge and safe landing of the goods, also the common re-insurance clause. It was held that the "warehouse to warehouse" clause, being such a common clause that the re-insurers ought to have known that it was in the original policy, was incorporated into the policy of re-insurance.

Property Insurance Co. v. National Protector Insurance Co.

The judgment of Scrutton, J., in a recent case seems to be founded on the view that the "rubber" clause has the effect of incorporating unusual as well as usual conditions in the original policy, but that if the original policy contains unusual clauses, the existence of which has not been disclosed to the re-insurer, he may avoid the re-insurance on the ground of concealment. This view accords best with the wording of the clause. In the case in question the clause ran:—"subject without notice to the same clause and conditions, &c." The original insurance in this case gave liberty to navigate the Canadian lakes, and the learned Judge held that the clause giving this liberty was so unusual that ordinarily it ought to be disclosed; but he also held that the effect of the words "without notice" was that the re-insurers waived information as to unusual conditions in the original policy, and were liable for a loss which occurred while the insured vessel was in the lakes (*f*).

To which of several insurances the

328a. The "rubber" re-insurance clause often contains a blank space intended to be filled up by words identifying the

(*e*) (1898), 3 Com. Cas. 164.

(*f*) Property Ins. Co. *v.* National Protector Ins. Co. (1913), 18 Com. Cas. 119. The "original insurance" in this statement of this case was itself a re-insurance.

Sect. 328a.

re-insurance policy applies. Lower Rhine Co. v. Sedgwick.

very policies which it is intended to re-insure. Where this space is filled up, it seems clear that the re-assured will only be protected against liabilities incurred under those particular policies. Where the space is not filled up, the presumption will be that the re-insurance is only against risks actually existing at the date of the re-insurance policy, and not against other liabilities which the original insurer may subsequently undertake in relation to the same subject-matter. At any rate, if subsequent policies are to be covered, they must not differ in their terms from those of the original policies (*g*).

Reliance Mar. Ins. Co. v. Duder.

In a recent case the re-insurance was expressed to be "subject to the same terms, clauses and conditions as the original policy or policies." The original assured had effected two insurances on ship for a voyage from Australia to the West Coast of South America, and a third insurance, with the same underwriters, at and from ports on the West Coast to Europe, "risk to commence from expiration of previous policy." The re-insurance policy was for a voyage at and from the West Coast to Europe, the termini being described exactly as in the third policy. A loss took place on the West Coast, for which the shipowners were paid under the two earlier policies; but it also occurred within the limits of space and time covered by the words of the re-insurance policy. In answer to a claim on this policy, the re-insurers set up the defence that the original insurers had only intended to re-insure their risk under the third policy, and that they could not recover by reason of sect. 26 (3) of the Marine Insurance Act, 1906. The Court of Appeal, however, while holding that an intention only to cover this risk had not been proved, also said that as the loss was within the terms of the policy of re-insurance, evidence was not admissible of an intention,

(*g*) The Lower Rhine Co. *v.* Sedgwick, [1898] 1 Q. B. 739; [1899] 1 Q. B. 179. The facts of the case are somewhat complicated, but the decision supports the above conclusions. See, as to the grounds of the decision, per Kennedy, L. J., in Reliance Mar. Ins. Co. *v.* Duder, [1913] 1 K. B. 265, 277.

Sect. 328a.

not communicated to the re-insurer, to re-insure only the risk under one of the original policies (*h*). Where, however, the intention to cover only the third risk could be gathered from the re-insurance policy itself as well as from other evidence, and such intention had not only been communicated to the re-insurer, but had been thoroughly discussed by the parties, it was held by Sankey, J., that the evidence to this effect was admissible, and that the re-insurer was not liable for a loss which was covered by the two insurances on the voyage from Australia (*i*).

Of insuring the solvency of the underwriter.

329. Besides re-insurances, properly so called, *i.e.*, insurances effected by one underwriter with another to secure himself, the assured may also, if he pleases, insure the solvency of the underwriter with whom he has effected the policy. As, however, this practice tends greatly to lessen the profits of the voyage by multiplying the charges of it, it will not frequently be resorted to in any country and appears never to have been in use in our own, though it is neither prohibited by statute nor illegal at common law (*j*).

Double insurance.

330. Double insurance takes place when the assured makes two or more insurances on the same subject, the same risk and the same interest (*k*). It is therefore a totally different

(*h*) Reliance Marine Ins. Co. *v.* Duder, [1913] 1 K. B. 265, Cozens-Hardy, M. R., and Kennedy, L. J. (Buckley, L. J., *dubitante*). See, further, as to this case, *ante*, § 252b. A similar view was expressed by Bray, J., in Scottish National Ins. Co. *v.* Poole (1912), 18 Com. Cas. 9, viz., that the policy of re-insurance applied to any original policy which the original insurers had subscribed at the time when the re-insurer executed the policy, and which corresponded with the terms of the slip that he had initialed.

(*i*) Janson *v.* Poole (1915), 84 L. J. K. B. 1543.

(*j*) Park on Ins. vol. ii. p. 599, seems to have thought that it would be void as a wager policy under the statute; but Arnould (2nd ed. p. 343) agreed with Benecke that it would be difficult to discover any satisfactory ground for this opinion. Policies guaranteeing the solvency of third parties other than underwriters are sometimes effected at Lloyds: see Seaton *v.* Burnand, [1900] A. C. 135; Hambro *v.* Burnand, [1904] 2 K. B. 10.

(*k*) See Union Mar. Ins. Co. *v.* Martin (1866), 35 L. J. C. P. 181, for a case in which the question arose whether there was a double

Sect. 330.

thing from a re-insurance, which, as we have seen, is effected by the underwriter to secure himself from having to pay a loss.

Double insurances are not prohibited by the law maritime unless made fraudulently: in fact, a moment's consideration will show that they are in many cases of necessary use.

A merchant, who expects consignments from abroad, may be ignorant of their exact value; he may, in the first instance, have effected an insurance on them only to an amount which subsequent information may lead him to think inadequate to cover their full value, and on that ground he may be desirous of effecting a further insurance; or he may have insured as much as he is able in one place, and being desirous of further security may then proceed to effect additional insurances elsewhere. If it turns out that the whole amount insured is greater than the whole value of the interest at risk, this is called an over-insurance.

Over-insurance.

Mar. Ins. Act, s. 32.

The legal position when there has been a double insurance resulting in over-insurance is now regulated by sects. 32 and 80 of the Marine Insurance Act, 1906. Sect. 32 is as follows:—

> (1) Where two or more policies are effected by or on behalf of the assured on the same adventure and interest or any part thereof, and the sums insured exceed the indemnity allowed by this Act (*l*), the assured is said to be over-insured by double insurance.
>
> (2) Where the assured is over-insured by double insurance—
>
> (a) The assured, unless the policy otherwise provides, may claim payment from the insurers in such order as he may think fit, provided that he is not entitled to receive any sum in excess of the indemnity allowed by this Act;

insurance, or whether the second of two overlapping policies effected with the same insurer was in substitution for the earlier one. As to the "same subject," see the remarks, *infra*, § 331, on disbursement policies.

(*l*) For the insurable value on which the measure of indemnity (*infra*, § 338) depends, see Mar. Ins. Act, 1906, ss. 16, 27, *infra*, Part I., Chap. XIII.

Sect. 330.

> (b) Where the policy under which the assured claims is a valued policy, the assured must give credit as against the valuation for any sum received by him under any other policy without regard to the actual value of the subject-matter insured (*m*);
>
> (c) Where the policy under which the assured claims is an unvalued policy he must give credit, as against the full insurable value, for any sum received by him under any other policy;
>
> (d) Where the assured receives any sum in excess of the indemnity allowed by this Act, he is deemed to hold such sum in trust for the insurers, according to their right of contribution among themselves.

By sect. 80:—

> (1) Where the assured is over-insured by double insurance, each insurer is bound, as between himself and the other insurers, to contribute rateably to the loss in proportion to the amount for which he is liable under his contract (*n*).
>
> (2) If any insurer pays more than his proportion of the loss, he is entitled to maintain an action for contribution against the other insurers, and is entitled to the like remedies as a surety who has paid more than his proportion of the debt (*o*).

According to sect. 32, to constitute an over-insurance by double insurance the policies must be on the same adventure and the same interest of the assured. It is possible, in fact, that an insurance on disbursements, though nominally on a different subject-matter from ship or freight, is intended to cover expenditures which are made to earn the freight, and therefore covered by the insurance on the gross freight, or which are made for items ordinarily included in the insurance on ship. In such a case it seems that the policy on

(*m*) See *infra*, §§ 349—352, for the effect of different valuations.

(*n*) See the remarks of Hamilton, J., on this provision in American Surety Co. *v.* Wrightson (1910), 16 Com. Cas. 37, 54.

(*o*) See *infra*, § 354, for the adjustment of the contributions when the policies contain different valuations.

Sect. 330.

disbursements is on the same interest of the assured as that covered by one or the other of the policies on ship or freight, and that there may be an over-insurance by double insurance within the meaning of sect. 32. There are *dicta* in the "Gunford" case to this effect (*p*). When, however, as was done in this case, and is almost invariably done, the insurance on disbursements is made by a "p.p.i." policy, it is submitted that the disbursement policy cannot be taken into account in order to determine, for the purposes of sect. 32, whether there has been an over-insurance. It is implied in sect. 80, which provides for contribution between the different sets of insurers, that the policies are valid policies.

Rule of contribution in case of over-insurance.

331. The rule that now prevails in this country may therefore be summarized as follows: In case of over-insurance the different sets of policies are considered as making but one insurance, and are good to the extent of the value of the effects put in risk; the assured can recover on the different policies no more than their value, but he may sue the underwriters on any of the policies, and recover from those he so sues to the full extent of his loss, supposing it to be covered by the policy on which he elects to sue, leaving the underwriters on that policy to recover a rateable sum by way of contribution from the underwriters on the other policy (*q*).

Davis v. Gildart.

Hence where a merchant, the value of whose whole interest was 2,200*l*., first effected a policy on this interest at Liverpool for 1,700*l*., and then (without fraud) another policy on the same interest (*r*) at London for 2,200*l*., he was allowed to recover the whole amount on the London policy, and the

(*p*) See Thames & Mersey Mar. Ins. Co. *v.* "Gunford" Ship Co., [1911] A. C. 529, per Lord Alverstone, C. J. (p. 536), and Lord Robson (p. 549).

(*q*) Newby *v.* Reid (1763), 1 W. Bl. 416; Rogers *v.* Davis, and Davis *v.* Gildart (1776), cited 1 Marshall, Ins. 140, 141; 2 Park, Ins. 601. As regards the amount of the contribution, difficulties may arise when some of the policies cover other subject-matters in addition to those covered by a different set: see American Surety Co. *v.* Wrightson (1910), 16 Com. Cas. 37.

(*r*) But for a different risk, see Rogers *v.* Davis, *quâ supra*.

Sect. 331.

London underwriters were allowed to recover a rateable amount by way of contribution from the Liverpool underwriters (*s*).

Rule in France and the United States.

The rule of contribution in cases of over-insurance by double insurance was established by Lord Mansfield (*t*). It is not the rule which formerly prevailed in this country, which now prevails in France, and which in the United States is generally rendered binding on the parties to the second policy by an express clause relating to prior insurance.

That rule is, in the words of the Code de Commerce, "that where there exists several contracts (N.B., not necessarily 'policies') (*u*) of insurance effected without fraud on the same subject, if the first contract insures the total value of the subject at risk, it alone shall be enforced." The insurers who have signed the subsequent contracts are freed from liability, and only receive $\frac{1}{2}$ per cent. on the sum insured.

If the whole value of the subject insured is not covered by the first contract, those insurers who have signed the subsequent contracts shall be responsible for the surplus in the order of the date of their respective signatures (*v*).

Formerly the rule in this country.

So in this country it was once pleaded, and "proved by all the exchange," to be the custom of merchants "that where a policy is subscribed by a number of underwriters, and the goods are not equal in value to the sums subscribed (taken together), the underwriters in case of loss shall be liable in the order in which they subscribe, and the remaining underwriters shall be exonerated from all liability and return the premium, deducting $\frac{1}{2}$ per cent." (*w*).

The American clause.

The common law rule in the United States is that laid

(*s*) Davis *v.* Gildart, *quâ supra*.

(*t*) In Newby *v.* Reid, *supra*.

(*u*) Each subscription to the policy forms a new contract if it bears a separate date.

(*v*) Code de Commerce, art. 359.

(*w*) The African Co. *v.* Bull (1690), 1 Show. 132; see also Malynes, Lex Mercatoria, 112. But the rule in France was never applied to several subscriptions to one policy, unless they bore different dates; and this probably is the true meaning of the English rule.

Sect. 331. down by Lord Mansfield; but the law as it anciently prevailed in England, and is now established in France, is deemed by the American merchants so preferable, in point of simplicity and convenience, that clauses are very generally introduced into their policies to prevent the rule of contribution, and to make the insurers responsible according to the order of date of their subscriptions.

The following clause has been used in the second policy for this purpose:—"It is further agreed, that if the assured shall have made any other assurance upon the premises prior in date to this policy, the assurers shall be answerable only for so much as the amount of such prior insurance may be deficient."

The following is a form adapted to the first policy:—"In case of any subsequent assurance, the insurer shall, nevertheless, be answerable for the full extent of the sum subscribed by him without right to claim contribution from subsequent assurers" (*x*).

In France and the United States policies prior in time bear the loss.

In France and in the United States (in cases where this rule has been adopted), it has been decided that, even where the second policy is dated on the same day as the first, inquiry may be made as to which of the two was actually first effected in point of time, and that which was so will alone bear the loss (*y*).

This rule, however, does not in France extend to different subscriptions of uniform date to the same policy; for if they all bear one date they make but one contract, and the whole body of the underwriters, in case the sum insured in such policy exceeds the value at risk, contribute rateably to the loss and return a rateable share of premium for the excess (*z*).

Rule as to return of

332. Sect. 84 (3) (f) of the Marine Insurance Act, 1906,

(*x*) 3 Kent, Com. 281.

(*y*) 4 Boulay-Paty, Droit Mar. 122, 123; Brown *v.* Hartford Ins. Co. (1808), 3 Day's R. 58; cited 1 Parsons, 287; Potter *v.* Marine Ins. Co. (1822), 2 Mason's R. 475; cited 3 Kent, Com. 281.

(*z*) 4 Boulay-Paty, Droit Mar. 116, 117.

Sect. 332. premium in case of over-insurance.

declares that, subject to the other provisions of the section relating to the return of premium, "where the assured has over-insured by double insurance, a proportionate part of the several premiums is returnable" (*a*).

This rule is, however, subject to a limitation expressed in the following proviso:—

> Provided that, if the policies are effected at different times, and any earlier policy has at any time borne the entire risk, or if a claim has been paid on the policy in respect of the full sum insured thereby, no premium is returnable in respect of that policy, and when the double insurance is effected knowingly by the assured no premium is returnable.

The reason why, where two sets of policies of different date are effected on the same property, the underwriters on the later set in point of date are alone called on for a rateable return of premium, if these policies were effected after the risk had attached on the earlier set, is that as the underwriters on the first set of policies were at one time liable to the whole extent of the sum therein insured, so they are fairly entitled to retain the whole premium (*b*).

The provision that there is no return of premium if the full sum insured has been paid on the policy seems to have made a change in the law. The insurer has a claim for contribution under sect. 80, and the only reason that can be suggested for the provision is that if he be compelled to pay in full, he does run the risk of not recovering the contributions of other underwriters in case of their becoming insolvent (*c*). The provision that there is to be no return of premium when the double insurance has been effected knowingly also effects a change of law, which seems to have been made with the object of discouraging double insurance (*d*).

(*a*) See 2 Marshall, Ins. 649.

(*b*) Fisk *v.* Masterman (1841), 8 M. & W. 165.

(*d*) See Chalmers & Owen, Mar. Ins. Act, 2nd ed. 136.

Sect. 333.

Insurances of different interests in the same subject.

333. Although in cases of double insurance, properly so called, *i.e.*, where the same person insures the same interest by several policies on the same risk, he cannot recover more than an indemnity—*i.e.*, more than the real or declared value of the thing insured, under all the policies put together—yet it is different where two or more persons insure the same thing against the same risks on distinct interests.

In such case each of the parties, having such distinct interests in the thing insured, may effect insurance in respect thereof to the full value of the thing insured, and each in case of loss may recover to the full extent of his interest.

This, as Lord Mansfield remarks, "is by no means within the idea of a double insurance, which is where the same man is to receive two sums instead of one, or the same sum twice over for the same loss by reason of his having made two insurances upon the same goods or the same ship;" whereas the case now referred to is the insurance by two different persons of two different interests each to the whole value.

Effect of doctrine of subrogation.

The doctrine of subrogation must, however, apply in cases where more than the value of the thing insured is recovered from the underwriters, so that in the result the whole sum retained by the assured will be no more than such value. The principle is well illustrated by the following passage from the judgment of Cotton, L. J., in an action arising out of a fire insurance:—

"The rule is perfectly established in the case of a marine policy," said the learned Lord Justice, "that contribution only applies where it is an insurance by the same person having the same rights, and does not apply where different persons insure in respect of different rights. The reason of that is obvious enough. Where different persons insure the same property in respect of their different rights, they may be divided into two classes. It may be that the interest of the two between them makes up the whole property, as in the case of a tenant for life and remainderman. Then if each insures, although they may use words apparently insuring the whole property, yet they would recover from their respective insurance companies the value of their own interests, and of course those values added together would make up the value of the whole property. Therefore it would not be a case either of subrogation or contribution, because the loss would be divided between the two companies in proportion to the interests which the respective persons assured had in the property. But then there may be cases where, although two different persons insure in respect of different rights, each of them can recover the whole, as in the case of a mortgagor and mortgagee. But wherever this is the case it will necessarily follow that one of these two has a remedy over against the other, because the same property cannot in value belong at the same time to two different persons. Each of them may have an interest which entitles him to insure for the full value, because in certain events, for instance, if the other person becomes insolvent, it may be he would lose the full value of the property, and therefore would have in law an insurable interest; but yet it must be that if each recover the full value of the property from their respective offices with whom they insure, one office must have a remedy against the other" (*e*).

Godin *v.* London Ass. Co.

334. The following case was quoted by Arnould as a good illustration of the principle:—

Meybohm, of St. Petersburg, was in debt for advances both to Amyand, of London, and to Tamesz, of Moscow. Under these circumstances, Meybohm wrote to Amyand, to the effect that he should send him goods, as per invoice, and directing him to insure. Amyand, accordingly, who had already insured to a certain extent on the expected consignment, effected a further insurance, thus making the aggregate sum insured by him more than sufficient to cover the full value of the consignment, but less than the amount of the balance then due to him from Meybohm in account. Meybohm shipped the goods as per invoice, but instead of

(*e*) North British, &c. Ins. Co. *v.* London, Liverpool & Globe Ins. Co. (1877), 5 Ch. D. 583.

Sect. 334.

indorsing the bill of lading to Amyand he indorsed it to Tamesz, to whom at that time he was also indebted to a greater amount than the value of the goods shipped.

Tamesz subsequently procured a policy to be effected with the London Assurance Company, by Godin & Co., to the full value of the goods, the brokers informing the company of the prior insurance by a prior consignee and that both parties wished to be safe. The ship and goods having been lost, the Court (the judgment of which was delivered by Lord Mansfield) held that Tamesz could recover the full amount of his insurance (*f*).

Remarks on this case.

That Tamesz, indeed, as indorsee of the bill of lading and in advance to Meybohm to a greater amount than the sum insured in the policy, had a clear insurable interest to the full extent of his claim, and therefore might recover the whole sum insured, is a position that can hardly be disputed. Whether Amyand could also recover on the policies effected by him was a point not before the Court, and therefore not decided. Lord Mansfield intimated a pretty clear opinion that he could, on the ground that, as a factor to whom a balance was due, he had under the circumstances an insurable interest distinct from the interest of Meybohm. At all events, his Lordship was clear that, assuming Amyand to have insured as agent only, he had a lien on the policies to the extent of his general balance.

Arnould thought (*g*) that Lord Mansfield was right in both points, notwithstanding the doubts of Marshall as to the former position (*h*); but considered it safer to regard the case as a mere illustration of the undoubted principle, "that where each of two parties, having distinct interests, in the subject to its full value, insures upon it to its full

(*f*) Godin *v.* London Ass. Co. (1758), 1 Burr. 489; 1 W. Bl. 103; 2 Park, Ins. 603 *et seq.*; 1 Marshall, Ins. 143.

(*g*) 2nd ed. p. 352.

(*h*) 1 Marshall, Ins. 145. Judge Duer, vol. ii. p. 163, n., cites Godin *v.* London Ass. Co., with other cases, as an authority for the position that the insurable interest of a factor or consignee is limited to his advances constituting a lien on the property.

Sect. 334.

value, independently of the other, it is not a case of double insurance" (*i*).

Maclachlan maintained, however, that Amyand would not have been able to recover on his policy. "Amyand," he said, "*primâ facie* at the moment of the shipment had an insurable interest, and he was justified, therefore, in insuring on his own account. But Meybohm held in his hand the power of diverting the goods from Amyand, and exercised this power by indorsing the bill of lading to Tamesz for a debt greater than the value of the goods. That was the annihilation of any insurable interest held by Amyand, without the intervention of any of the perils insured against, and made his policy thenceforward of no effect" (*j*). The conclusion that at the time of the loss Amyand had ceased to have an insurable interest seems sound, and Lord Mansfield's opinion to the contrary is, of course, only an *obiter dictum* (*k*).

Discovery of over-insurance.

335. To enable the defendant to discover whether there was in any case a double or over-insurance, 19 Geo. 2, c. 37, s. 6, entitled him to call upon the plaintiff to declare in writing within fifteen days what sum he had insured on the whole, and how much he had borrowed on bottomry and respondentia for the voyage in question, or any part of it. This provision was not often put into use, perhaps because in most cases the underwriter was able to obtain the information he required by the order for discovery of ship's papers (*l*); and it has not been re-enacted by the Marine Insurance Act, 1906, which has repealed the whole of 19 Geo. 2, c. 37.

(*i*) Phillips, vol. i. p. 209. 3rd ed.

(*j*) Arnould, 6th ed. vol. i. p. 120.

(*k*) Phillips (1 Ins. s. 311) seems to agree with Lord Mansfield's opinion.

(*l*) See as to this order, *post*, vol. ii. § 1271.

CHAPTER XIII.

VALUATION OF INSURABLE INTERESTS.

	SECT.
Theoretical Principle of Valuation	336, 337
Practical Principle	338
Valued Policies—	
Effect of Valuation	339—355
On Ship	356, 357
On Freight	358
On Goods	359—361
Open Policies—	
Estimation of Interest and Adjustment	362—364
On Ship, Freight, Goods, &c.	365—368a

336. THE next point to be considered is the mode of estimating the insurable value of the interest at risk, with a view to procuring indemnity for the assured in case of loss.

Theoretical principle of valuation for the purposes of insurance.

Insurance being a contract of indemnity, it should seem that the true principle upon which the interest protected by a policy of insurance ought to be valued, is that which in case of loss will give the assured, as nearly as possible, a complete indemnity against the consequences of such loss.

The object, therefore, of such valuation ought in theory to be to place the assured, in case of loss, in exactly the same situation as he would have been in if no loss had taken place.

Applied to insurance on ship and freight.

337. To apply this principle to the case of ship, goods, and freight.

The ship, in view of modern commerce, is regarded by the shipowner, generally speaking, not so much as an instrument for carrying on his own traffic, as in itself a source of emolument, either by being used as a general ship for the purpose of carrying goods for freight, or by being let out on hire at a stipulated sum under contracts of affreightment. Out of such freight or hire the shipowner has to pay the seamen's wages, to furnish provisions, to

Wear and tear of the ship,

Sect. 337.

and other deductions from the freight.

defray the expenses of the voyage, and to make good that diminution in the value of the ship and her apparel which necessarily takes place more or less in the course of every voyage, and which is familiarly called the wear and tear of the ship. What remains of the freight, after deducting these charges and outgoings, is the net profit of the voyage which the shipowner makes by the employment of his capital fixed in the ship.

Now, on the principle of valuation just adverted to, it is plain that the ship, for the purposes of insurance, ought to be estimated at her value after deducting the wear and tear of the voyage, for that is what the ship would have been worth to her owner on arrival but for the loss against which the insurance is intended to indemnify him.

In the same way with regard to freight, the true mode of estimating its value for the purposes of insurance on the above principle would be to take it at that sum, and no more, which the shipowner might calculate on receiving on the safe arrival of the ship—*i.e.*, the net freight, deducting seamen's wages and the other expenses of earning it—because, in case the ship is lost, that is all the shipowner loses (*a*).

As applied to insurances on goods.

So again with regard to goods, in order to put the merchant in the same situation as though no loss on his goods had taken place—in other words, to procure him a complete indemnity—it is clear that the value of the goods should be estimated, for the purpose of insurance, at the price which they would actually have produced had they arrived undamaged at their port of destination.

338. Such, unquestionably, as was very ably and unanswerably pointed out by Benecke, is the only mode of

(*a*) This is Arnould's text; but it would be more accurate to say that on principle the amount recoverable for a loss of freight ought to be the gross freight, less the expenses which would have been incurred after the time of the loss to earn the freight, but which, by reason of the loss, have been saved. For instance, in the case of a steamship, the expenses already incurred for coaling at an intermediate port ought not to be deducted. But as regards expenditures on stores, &c. included in the value of the ship, see *infra*, § 338, note (*c*).

Sect. 338.

estimating the value of the interest at risk by which complete and absolute indemnity can in all cases be procured for the assured (*b*). Yet this, be the reason what it may, is not the principle of valuation which has been generally adopted in the practice of this or any other country. Parties engaged in the business of marine insurance are deemed to have contracted for an indemnity of a more limited description; and the object sought to be attained by the ordinary open policies on ships and goods, both in this and other countries, is to put the assured not in such a position as he would have been in if no loss had been incurred, but in the same situation he was in at the commencement of the risk.

Practical principle of valuations not to put the assured in the same situation as if no loss had occurred, but to replace him in the same situation as he was in at the outset of the adventure.

It is upon this basis that the insurable value of the interest at risk is invariably calculated in all open policies effected in this country. The worth of the thing insured to its owner at the outset of the risk covered, with the expenses of the insurance, is in all open policies its estimated value for the purposes of insurance.

The assured on ship and freight generally receives more, and the assured on goods less, than an indemnity.

As the ship in the course of every voyage is more or less diminished in value by wear and tear before the loss takes place; and as the goods would in most instances, but for the loss, have realized a higher sum at their port of destination than at their port of loading; it is very obvious that by this mode of insurance the assured on ship and on freight, in case of loss, will in all probability receive more than an indemnity, and the assured on goods less (*c*).

(*b*) Principles of Indemnity, cc. i. ii. pp. 1—70, to which the reader is referred for a full exposition of the application of this principle to practice. See also McArthur, 2nd ed. p. 68 n. (*h*), where the advantages of valuing the various interests at the beginning and at the end of the voyage respectively are contrasted.

(*c*) McArthur (p. 68) points out an additional reason to account for the fact that the shipowner benefits by a loss, the fact being, as he states, that an owner who insures his ship and freight to the full extent which the law allows (as to which see § 365, *post*) is in reality effecting a double insurance on certain of the component parts of his insurable interest. "The expenditure in outfit, stores, provisions, and advances on account of crew's wages, which the law includes in the value of the ship, is also included in the gross freight, so that it is doubly insured." In principle, such expenditure should either be excluded in estimating the value of the ship, or it should be deducted from the gross amount of the freight.

(*d*) For the reason, see *ante*, § 9.

(*e*) *I.e.*, sect. 4, which avoids policies made by way of gaming and wagering, and sect. 18, which provides that the assured must disclose all material circumstances. See *infra*, § 342.

Sect. 338.

Policies for the purposes of this chapter may be divided into two classes, valued and open or unvalued, as policies of the latter class are called in the Marine Insurance Act, 1906 (*d*).

Difference between valued and open or unvalued policies.

The difference between these two classes of policies, as regards their form and effect, is indicated in sects. 27 and 28 of the Marine Insurance Act, 1906, the terms of which are the following:—

Mar. Ins. Act, 1906, s. 27.

Section 27.—(1) A policy may be either valued or unvalued.

(2) A valued policy is a policy which specifies the agreed value of the subject-matter insured.

(3) Subject to the provisions of this Act (*e*), and in the absence of fraud, the value fixed by the policy is, as between the insurer and the assured, conclusive of the insurable value of the subject intended to be insured, whether the loss be total or partial.

(4) Unless the policy otherwise provides, the value fixed by the policy is not conclusive for the purpose of determining whether there has been a constructive total loss.

Sect. 28.

Section 28. An unvalued policy is a policy which does not specify the value of the subject-matter insured, but, subject to the limit of the sum insured, leaves the insurable value to be subsequently ascertained, in the manner herein-before specified.

We shall discuss these policies in their order, but first it is advisable to set out certain other provisions of the Marine Insurance Act, 1906, which are material to the discussion. They are contained in sects. 67 and 68 of the Act.

By sect. 67—

Measure of indemnity

(1) The sum which the assured can recover in respect of a loss on a policy by which he is insured, in the case of an unvalued policy to the full extent of the insurable

Sect. 338.

value, or, in the case of a valued policy to the full extent of the value fixed by the policy, is called the measure of indemnity (*f*).

(2) Where there is a loss recoverable under the policy, the insurer, or each insurer if there be more than one, is liable for such proportion of the measure of indemnity as the amount of his subscription bears to the value fixed by the policy in the case of a valued policy, or to the insurable value in the case of an unvalued policy.

Indemnity for total loss.

By sect. 68—

Subject to the provisions of this Act and to any express provision in the policy, where there is a total loss of the subject-matter insured,—

(1) If the policy be a valued policy, the measure of indemnity is the sum fixed by the policy:

(2) If the policy be an unvalued policy, the measure of indemnity is the insurable value of the subject-matter insured.

Valued policies.

339. The statutory form, and usually every other form, of policy in this country contains the following clause:—

"The said ship, &c., goods and merchandises, &c., for so much as concerns the assured, by agreement between the assured and assurers in this policy, are and shall be valued at ——" (*g*).

The difference between an open and valued policy in form is solely this: that in a valued policy this blank is filled up with the sum at which the parties agree to fix the amount of the insurable interest; in an open policy it is left in blank.

Effect of valuation.

The difference in effect between a valued and an open policy is that under an open policy, in case of loss, the assured must prove the actual value of the subject of insur-

(*f*) "Measure of indemnity" is a new conventional expression introduced by this section.

(*g*) In a policy on freight the two words "as under" were added to this clause, and lower down in the margin was written "1,300*l*. on freight"—held, that this was not a valued policy: Wilson *v.* Nelson (1864), 5 B. & S. 354; 33 L. J. Q. B. 220; and see also Asfar *v.* Blundell, [1895] 2 Q. B. 196.

ance; under a valued policy he need not do so, the valuation in the policy being conclusive between the parties (*h*). Sect. 339.

Thus, in Barker *v.* Janson (*i*), a vessel that had been worth 8,000*l*. was so much injured at sea that she was not worth repairing; this, however, being unknown at home, she was insured while in that condition by a time policy for 6,000*l*., valued at 8,000*l*., and after it attached she was totally destroyed by perils insured against. In this case the valuation was held binding and the policy valid. And in a later case (*k*), the vessel was driven on shore and was so badly damaged as to amount to a constructive total loss. Whilst in that condition she was completely destroyed by fire. It was held, first that her owners could recover as for a loss by fire, and secondly that, the policy being a valued policy, they could recover the full amount at which she was valued.

The rule that the valuation is conclusive between the parties applies equally in favour of the underwriter. For instance, in North of England Insurance Association *v.* Armstrong (*l*), a policy had been effected on the "Hetton" for 6,000*l*., the vessel being valued at 6,000*l*. The "Hetton" was sunk by the "Uhlenhorst," whereupon the plaintiffs, who were the underwriters on the "Hetton," paid the defendants, the owners of the "Hetton," the sum of 6,000*l*. for this loss. The defendants then, under instructions from the plaintiffs, took proceedings in the Court of Admiralty, and recovered 5,000*l*. from the owners of the "Uhlenhorst," this sum being apparently the limit of the liability of the latter. The whole of this sum was claimed by the plaintiffs as salvage. The defendants contended that the real value

(*h*) Mar. Ins. Act, 1906, ss. 27, 28, *supra*. § 338; Barker *v.* Janson (1868), L. R. 3 C. P. 303; North of England Ins. Assoc. *v.* Armstrong (1870), L. R. 5 Q. B. 244; Thames & Mersey Mar. Ins. Co. *v.* "Gunford" Ship Co., [1911] A. C. 529; Lewis *v.* Rucker (1761), 2 Burr. 1167; Shawe *v.* Felton (1801), 2 East, 109.

(*l*) (1870), L. R. 5 Q. B. 244.

Sect. 339.

of the "Hetton" at the time of her loss was 9,000*l.*, and therefore they were entitled to participate in the said sum of 5,000*l.*; and it was urged on their behalf that, if the plaintiffs' contention were correct, it would follow, had the owners of the "Uhlenhorst" been compelled to pay the full value of 9,000*l.*, that the underwriters would have been entitled to the whole, though they had only paid 6,000*l.* The Court regarded this anomaly (*m*) as one arising necessarily out of the peculiar nature of valued policies, and held that the underwriters were entitled to the whole sum (*n*).

The same principle was also applied in the underwriter's favour, in a later case where a vessel was undervalued in a policy and became liable to contribute to general average and salvage expenses. The SS. "Balmoral" was valued in the policy at 33,000*l.*, but her real value for the purpose of contribution was ascertained to be 40,000*l.*, and on this latter figure contribution was accordingly paid by her owners. It was held by the House of Lords, in an action by the owners against the underwriters to recover the whole amount of such contribution, that the valuation in the policy was binding and that the owners were only entitled to recover $\frac{33}{40}$ths of the ship's contribution (*o*).

Valuation applies in cases of partial, as well as total, loss.

340. As is expressly stated in sect. 27 (3) of the Marine Insurance Act, 1906 (*p*), the rule whereby the valuation in the contract is conclusive between the parties is the same, whether

(*m*) This point is further discussed in the chapter on "Subrogation," *post*, Vol. II. § 1230.

(*n*) The correctness of this decision was doubted by Lord Blackburn in Burnand *v.* Rodocanachi (1882), 7 App. Cas. 333, at p. 342; and it is perhaps not consistent with the reasoning of Lord Selborne at p. 335. The decision that the valuation is conclusive as between the parties is, however, confirmed by the language of sects. 67 and 68 of the Mar. Ins. Act, 1906, *ante*, § 338, and it was followed in Thames & Mersey Mar. Ins. Co. *v.* British & Chilian S.S. Co., [1915] 2 K. B. 214; [1916] 1 K. B. 30 (C. A.); *post*, § 1230. See also Bruce *v.* Jones, *infra*, § 351; The St. Johns (1900), 101 Fed. R. 469.

(*o*) The S.S. Balmoral Co. *v.* Marten, [1902] A. C. 511. See *post*, Vol. II. § 1006.

(*p*) *Ante*, § 338.

Sect. 340.

the loss be total or only partial (*q*). There was an opinion at one time entertained by writers of eminence that though conclusive in cases of total loss, yet it was not so in cases of average loss, but that in such cases the policy was to be opened. By this was meant that the agreed valuation was to be set aside as the standard and the basis of the underwriter's liability and the actual amount of interest at risk proved, just as in the case of an open policy.

Erroneous doctrine as to "opening the policy."

For instance, supposing a particular average loss to take place on a valued policy on goods, *insured to the full amount of their valuation*, and the damage ascertained to amount to one-fourth; according to the doctrine in question, it would be necessary for the assured, instead of at once calling upon the underwriters for a fourth part of the amount insured, to prove the insurable value of the goods, *i.e.*, their prime cost, together with the premiums of insurance, &c., just as though the policy were an open one, and the underwriters would, in case the agreed valuation proved to be greater than such insurable value, only be liable to pay a fourth of the latter.

This doctrine, wholly repugnant to the true construction of the valuation clause (*r*), appears to have arisen out of a *dictum* of Lord Mansfield, in the case of Erasmus *v.* Banks, where that great Judge is reported to have said, "an average loss opens the policy" (*s*). The phrase is unhappy, and suggestive of error, in consequence of the meaning attached to the words "open the policy." It is quite clear, however, that the meaning of the expression is simply that in case of an average loss the parties must necessarily go out of the policy to ascertain the extent of the damage done to the goods.

True meaning of opening the policy.

Of course, in the case of the goods being partially damaged, the policy alone can never show what the underwriter ought to pay; for the amount due from him is the

(*q*) See Mar. Ins. Act, 1906, ss. 70, 71, *post*, Vol. II. Pt. III. Chap. V., for its application to partial losses of freight and goods.

(*r*) Irving *v.* Manning (1848), 1 H. L. Cas. 287; 6 C. B. 391; 1 C. B. 168; 2 C. B. 784. Phillips (vol. ii. s. 1203) discusses the point.

(*s*) Cited in Shawe *v.* Felton (1801), 2 East, 113.

Sect. 340.

same percentage on the sum he has agreed to insure, as the damage which the goods have suffered is upon their value: in other words, the proportion of the whole sum insured which the underwriter has to pay in case of loss, must depend upon the proportion in which the goods are damaged: as the one sum cannot be ascertained without fixing the other, and as the damage the goods have sustained can never be made out except by calculations wholly extrinsic to the policy, every policy, whether open or valued, must in this sense be opened in every case of average loss (*t*).

Opening the policy, then, in this sense, means nothing more than resorting to extrinsic evidence, in order to ascertain the amount of damage sustained by the subject insured, so as to fix one element in calculating the amount of indemnification to which the assured is entitled; it is, in fact, merely ascertaining the percentage of damage sustained by the thing insured.

It has in fact long been established that a valuation has precisely the same effect in cases of particular average as it has in cases of total loss, viz., to relieve the assured from proving the prime cost, or insurable value (*u*).

There is moreover another sense in which the use of the phrase "opening the policy" has been used by a learned American judge. In cases of particular average on ship, the usual measure of the underwriter's liability is the repair bill, assuming always that its amount does not exceed the amount of the insurance (*x*). In particular average on goods, the amount of such liability is ascertained, in effect, by taking the proportion of loss to the sound value and then taking the same proportion of the amount for which the goods are insured (*y*). Judge Addison Brown points out that the

Sect. 340.

result of these rules of adjustment is that "the policy value has no bearing upon the settlement of the amount to be paid by each underwriter, but only upon the amount of insurance that may be lawfully taken out; since each policy, up to the valuation, will pay the same amount, whether the valuation is high or low. Over-valuation in the policy, indeed, authorizes over-insurance to the same extent, if not fraudulent; because the insurer is estopped from asserting any excess in the valuation. The owner, if insured above the actual value of his goods, will thereby realize from the insurer more than his actual loss. But the mode of settlement on each policy is precisely the same as upon an open policy; that is, to pay the same proportion of the insurance that the loss bears to the sound value; and if any one policy does not insure more than the actual value, which rarely happens, it will pay the same amount that it would pay if the policy were open. Hence the maxim as to goods, that 'a partial loss opens the policy,' which to the above extent is correct" (*z*).

The value in the policy is always conclusive.

341. In cases of total loss, the value in the policy has always been held as the conclusive standard of indemnity (*a*). Nor is it any exception to this rule, save in appearance, that where a ship, insured in a valued policy, was sold under an Admiralty decree in a collision suit for less than the amount in the policy, the assured did not recover more than she sold for, on this obviously just ground, that the contract in the

(*z*) Per Brown, D. J., in Internat. Nav. Co. *v.* Atlantic Mut. Ins. Co. (1900), 100 F. 304. The following note at the end of his judgment explains how the valuation is a factor which is eliminated in the course of the calculation:—"If v represents the policy value of goods, s the sound value at port of discharge, d the difference or loss as ascertained by sale, and p the amount insured by any particular policy, then each underwriter by the above rule must pay $\frac{d}{s} \times v \times \frac{p}{v} = \frac{dp}{s}$. This shows that the amount payable on any valued policy is independent of v, the policy value."

(*a*) Shawe *v.* Felton (1801), 2 East, 109; Irving *v.* Manning (1847), 1 H. L. Cas. 287; 6 C. B. 391; *S. C.*, 1 C. B. 168; 2 C. B. 784. See Mar. Ins. Act, 1906, s. 68 (1), *ante*, § 338.

Sect. 341. running-down clause was to bear what the assured should be liable to pay, and should pay (*b*).

It is also established, that the valuation is binding generally, and not merely in cases where the question is as to the amount of payment to be made by underwriters in case of a loss. Thus where a vessel was valued at 3,750*l*., and the policy provided that the assured should keep one-fifth uninsured, it was held that there was a breach of this stipulation as soon as there was an insurance for an amount exceeding four-fifths of 3,750*l*., although the shipowner was prepared to prove that the vessel was really worth 5,000*l*. (*c*).

There is, by English law, no exception to the rule under discussion. As long as the contract of insurance remains unimpeached, the valuation in the policy can under no circumstances be opened; or, to use the words of Cockburn, C. J. (*d*), "Where the value is stated in the policy in a manner to be conclusive between the two parties, the insurer and the insured, as regards the value, then in respect of all rights and obligations which arise upon the policy of insurance, the parties are estopped" from disputing the value stated.

Certain foreign codes differ from our law on this point. Thus in Germany (*e*) an excessive valuation may be reduced at the instance of the underwriter; and by the Dutch (*f*), Belgian (*g*), Italian (*h*), and Spanish (*i*) commercial codes, amongst others, an over-valuation may under certain circumstances be rectified.

Effect of over-valuation in certain cases.

342. In our own country language has undoubtedly been

used not only by text writers (*k*), but also by judges (*l*) of eminence, implying that an agreed valuation may in certain cases be set aside, and another apparently substituted; and the language of sect. 27 (3) of the Marine Insurance Act, 1906, also suggests that this may be so (*m*). It is clear, however, that by the law of this country no attack can be successfully made upon the valuation which will not also avoid the policy *in toto* (*n*). In such cases the object of attack is in reality not the valuation, but the policy itself, on the ground of irregularities relating to the valuation. It appears that there are three cases in which irregularities in the valuation may have the effect of avoiding the policy: (1) Where the subject of insurance has been fraudulently over-valued, with the object of cheating the underwriter (*o*): (2) Where circumstances show that the object was not to effect a *bonâ fide* insurance, but to gamble; (3) Where, apart from fraud in the assured, there is such an over-valuation of the interest of the assured in the adventure as alters the nature of the risk, making it, for example, one of a speculative, and not of an ordinary business nature, and it is found that this

Sect. 342.

The valuation will not be set aside, but the policy itself may be avoided.

(*k*) *E.g.*, Arnould, 2nd ed. pp. 361, 362; and in America, Phillips, ss. 1182, 1183; but see *contra*, 1 Parsons on Mar. Ins. p. 261.

(*l*) *E.g.*, Lord Ellenborough, as reported by Stevens on Average, 183. 5th ed.: "The valuation can only be opened where it is very exorbitant, or some proof of fraud can be established"; and again in Marshall *v.* Parker (1809), 2 Camp. 69: "Without evidence of fraud, I cannot disturb the valuation." So, too, per Bovill, C. J., in Barker *v.* Janson (1868), L. R. 3 C. P. 303: "An exorbitant valuation may be evidence of fraud; but when the transaction is *bonâ fide*, the valuation agreed upon is binding." So, also, per Willes, J., in Lidgett *v.* Secretan (1871), L. R. 6 C. P. 616, 629. "In the absence of fraud or wagering, it seems to me that the value is to be taken to be the conventional sum to be paid in the event of the loss"; and per Lord Robson in Thames & Mersey Mar. Ins. Co. *v.* "Gunford" Ship Co., [1911] A. C. at p. 548.

(*m*) See sect. 27 (3), *ante*, § 338. The sub-section admits, however, of the construction that except in certain cases, for which see § 342, *infra*, the parties are precluded from giving evidence that the insured value is not the true one.

(*n*) See also the American authorities, cited 1 Parsons, 261, 262.

(*o*) "Had this over-valuation been tainted by fraud, the contract of insurance could not have been enforced": per Lord Shaw in Thames & Mersey Mar. Ins. Co. *v.* "Gunford" Ship Co., [1911] A. C. at p. 542.

Sect. 342.

was a material fact which ought to have been, but was not, disclosed to the insurer.

Fraudulent over-valuation.

Thus in Haigh *v.* De la Cour (*p*) a fraudulent over-valuation of goods, made with intent to cheat the underwriters, was held to vitiate the policy. The actual value on board was only 1,400*l.*; the valuation in the policy was 5,000*l.*; the invoices were proved to be fictitious and the bills of lading to have been interpolated, after they were signed, by the captain; the ship was run away with, and carried to the West Indies (having been insured for Pernambuco), and the goods there disposed of by a person whom the assured had put on board as a supercargo. A very high valuation is, however, not necessarily fraudulent (*q*).

Over-valuation by way of gaming.

Similarly, an over-valuation made in order to cover a gambling transaction will avoid the whole contract. This matter has already been dealt with in the chapter on wager policies (*r*). Here it will be sufficient to quote Lord Mansfield, who, after agreeing that upon valued policies "the merchant need only prove some interest to take it out of the stat. 19 Geo. 2, because the adverse party has admitted the value," adds: "If indeed it should come out in proof that a man had insured 2,000*l.*, and had interest on board to the value of a cable only, there never has been, and, I believe, never will be, a determination that by such an evasion the Act of Parliament may be defeated" (*s*). It is to be observed that in cases of this nature the policy will be just as much avoided even if both parties to the contract were throughout fully cognizant of all the facts. The ground of avoidance is not any unfair conduct of the one party towards the other, but the policy of the enactments directed against wagering or gaming transactions.

Over-valuation not disclosed, and such as to alter the nature of the risk.

Thirdly, an over-valuation may under certain circumstances entitle the underwriter to avail himself of the doctrine of concealment (*t*), so as to avoid the policy. A good example of this is afforded by the case of Ionides *v.* Pender (*u*), where goods had been valued at an amount greatly exceeding any sum which they could possibly have realized. There were suspicious circumstances in the case, but the jury were unable to agree as to whether the assured's intentions were fraudulent. Evidence, however, from Lloyd's was produced to the effect that it was material for underwriters to know the extent of an over-valuation so excessive, as such speculative risks were either declined altogether, or only undertaken at high premiums. The jury found that the over-valuation was a material fact which had not been disclosed to the underwriters, and the Court of Queen's Bench affirmed a verdict which had been entered accordingly for the defendants (*x*).

It is obvious that in all these cases the question is not one of opening the valuation, but as to the validity of the policy.

Excessive valuation of ship.

343. No positive rules can be laid down as to what constitutes such an excess in valuation as will necessitate disclosure, or taint the transaction with fraud. A valuation which considerably exceeds the selling value of a ship is not necessarily fraudulent or so excessive as to need to be disclosed. In the case of the "Gunford" (*y*), though the selling value of the ship was about 9,000*l.* and the valuation in the policies 18,500*l.*, the appellants did not allege fraud, or rely on the non-disclosure of the difference between the valuation and the selling value. It is impossible to say what view the House of Lords would, if the question had been raised, have taken of this exceedingly high valuation. But Lord Shaw, who referred to the valuation, said: "Where there is heavy over-valuation fraud is, *a priori*, not very far to seek. But fraud

(*y*) Thames & Mersey Mar. Ins. Co. *v.* "Gunford" Ship Co., [1911] A. C. 529, *supra*, § 342.

Sect. 343.

is not here pleaded: and upon the general question it ought to be remembered that to the insurer (*sic*) using a ship as part of the going concern of a business a statement of value going much beyond the amount to be realized if the concern was stopped and the asset put upon the market is intelligible and legitimate." And Lord Robson also expressed the view that there may be legitimate business reasons for a discrepancy between the selling value and the insured value (*z*). Moreover it must be remembered that underwriters are usually in a position to form a fairly accurate estimate of the real value of the ship, and that there are often reasons why they prefer a high valuation so long as they do not consider it a temptation to the assured (*a*).

Excessive valuation of goods.

In Ionides *v.* Pender it was stated, in evidence by underwriters (*b*), that an addition of 25 or even 30 per cent. to the invoice value of the goods would not, but that any addition beyond this would, make the risk speculative. Yet each case must depend on its own circumstances, and in each case the question must be determined as one of fact. As Mr. Gow (*c*) pertinently observes: "Cases have occurred in the history of commerce in which the insurance of four times the amount of invoice would be quite justifiable; for instance, that of shipments of silver to Japan, made for the purpose of obtaining in exchange gold at the Japanese ratio of 4 to 1, when the prevailing ratio in the rest of the world was about $15\frac{1}{2}$ to 1. Similarly, in such insurances as those of contraband cargoes, or cargoes destined to run a blockade, one can imagine a very high valuation put on goods whose value would be enormously enhanced by their mere arrival at their intended destination."

(*z*) [1911] A. C. pp. 542, 548. See also per Willes, J., in Lidgett *v.* Secretan (1870), L. R. 6 C. P. p. 627.

(*a*) The higher the valuation, the greater is the immunity of the insurer from small claims, under the warranty against average under 3 per cent. (see *post*, Vol. II. §§ 882, 892, 900); and the greater, also, is the difficulty of establishing a constructive total loss by reason of the cost of repairs exceeding the repaired value, if the policy contains the usual clause stipulating that the insured value shall be taken as the repaired value (see *post*, Vol. II. §§ 1091, 1132, 1133.

(*b*) L. R. 9 Q. B. at p. 535. (*c*) Marine Insurance, p. 69.

Sect. 343.

Valuation of goods may include expected profits.

Apart from special circumstances, however, Lord Ellenborough suggested that in fixing the valuation, "the assured, if he wish to keep fairly within the principle of insurances, which is merely to obtain indemnity, will, in the case of goods, never go beyond the first cost, adding thereto only the premium and commission, and, if he see fit, the probable profit; and, in the case of freight, he will not go beyond the amount of what the ship would earn, with the premiums and commissions thereupon" (*d*).

With regard to the case of goods, his Lordship, after adverting to the rule that, in open policies on goods, nothing more can be recovered than the invoice price plus the premiums, &c., and remarking that, as goods are generally sent to a profitable market, this rule, in case of loss, operates favourably for the underwriter, adds, "the assured may obviate this inconvenience by making the policy a valued one, or by stipulating that, in case of loss, the loss shall be estimated according to the value of like goods at the port of delivery" (*e*): thus distinctly admitting that the assured may value his goods in the policy so as greatly to exceed the invoice price, and to cover the expected profit. And, indeed, as Stevens remarks, this is the real advantage that valued policies on goods hold out to the merchant (*f*).

Mode proposed by Benecke.

344. Benecke, agreeably to the principles already pointed out in the last section, shows how, by means of a valued policy, the merchant may cover, not only the profits he expects to make on his goods at the port of delivery, but also, in case of their arriving there in bulk, but sea-damaged, may protect himself against the loss to which he would otherwise be exposed, from having to pay full duty, freight, and landing charges (*g*). Thus, supposing the sum required to be insured

(*d*) Forbes *v.* Aspinall (1811), 13 East, 327.

(*e*) Usher *v.* Noble (1810), 12 East, 639.

(*f*) Stevens on Average, 179.

(*g*) Sometimes the owner of goods protects himself against the loss due to his having to pay the full freight by a policy against particular average on "contingency freight." See *ante*, § 232.

Sect. 344.

on the goods themselves (*i.e.*, so as to cover their prime cost, premiums of insurance and commission) to be 2,000*l.*; freight payable on their arrival, 200*l.*; expected profit, 400*l.*; duty and landing charges at the port of delivery, 100*l.*, the full duty and freight being payable on damaged goods arriving in bulk); then 2,700*l.* would be the sum required to be insured altogether. The plan recommended by Benecke is, to value at 2,700*l.*, and add this clause:—"Of these 2,700*l.*, 2,000*l.* are on the goods, 200*l.* on freight, 400*l.* on expected profit, 100*l.* on duty and landing charges" (*h*).

This clause, though unobjectionable, appears unnecessary in English policies, where, according to the liberal practice that prevails in the business of insurance, it seems very unlikely that any attempt would be made to set aside a valuation which was *bonâ fide* only intended to procure for the assured a complete indemnity in case of loss.

The valuation in the policy does not preclude the inquiry, whether or not the whole of the interest to which such valuation refers, has, in fact, been at risk.

345. The value fixed by the policy is conclusive of the insurable value "of the subject intended to be insured" (*i*). It does not preclude the inquiry whether in fact the assured had an insurable interest in the whole of the subject of valuation, or whether the whole interest valued was ever at risk.

Moreover, sect. 75 (2) of the Marine Insurance Act, 1906, expressly declares that—

> Nothing in the provisions of this Act relating to the measure of indemnity shall affect the rules relating to double insurance, or prohibit the insurer from disproving interest wholly or in part, or from showing that at the time of the loss the whole or any part of the subject-matter insured was not at risk under the policy.

(*h*) Benecke, Pr. of Indem. pp. 24, 29. In Thames and Mersey Co. *v.* Pitts, [1893] 1 Q. B. 476, the merchant valued his cargo at a certain figure, and declared that a certain portion of such valuation was "for advance on freight." It was held that the policy was to be treated as one policy on valued goods, and not as a policy by which goods and advanced freight were separately insured.

(*i*) Mar. Ins. Act, s. 27 (3), *ante*, § 338.

Sect. 345.

For instance, if something has formed a constituent in the estimate of value in which the assured had no insurable interest (*e.g.*, if freight, paid in advance, were included in the valuation expressed in a policy on freight effected for the shipowner), it is clear that the underwriter, to the extent of this element of the value, would not be liable; and whether it was so or not may be investigated without infringing the valuation in the policy (*k*). Still more is it competent to the underwriter to show that the assured had no interest at all (*l*). The parties are only bound by the valuation as far as it goes; and if only part of the interest to which the valuation in the policy refers has ever been at risk on board, the assured, in case of loss, can only recover upon a proportionate amount of the valuation. For instance, if goods, the prime cost of which, including premiums and commissions, is 4,500*l.*, are valued in the policy at 5,000*l.*, and it should turn out that of these goods only two-thirds, or 3,000*l.* worth, were ever really shipped on board, the assured, in case of loss, would only recover the same proportion of 5,000*l.*, the sum valued, that 3,000*l.* is of 4,500*l.*, *i.e.*, two-thirds, or 3,333*l.* 6*s.* 8*d.* (*m*).

"The valuation," says Lord Ellenborough, "in case of goods, looks to all the goods intended to be loaded; and, in case of freight, it looks to the freight upon all the goods the ship is intended to carry on the voyage insured: and if, by the perils insured against in a valued policy on goods, part only of the goods intended to be covered be lost, the valuation must be opened, and the assured can only recover in respect of that part; and so if, by the perils insured against, the freight of part only of the goods to be carried be lost, the assured can only recover, in respect of that loss, according to

(*k*) Williams *v.* North China Ins. Co. (1876), 1 C. P. D. 757; The Main, [1894] P. 320.

(*l*) Shawe *v.* Felton (1801), 2 East, 109; Burnand *v.* Rodocanachi (1882), 7 A. C. 333, per Lord Selborne.

(*m*) Phillips, s. 1196.

Sect. 345.

the proportion which that part bears to the whole sum at which the entire freight was estimated in the valuation" (*n*).

Rule illustrated by case of a policy on freight; Forbes *v.* Aspinall.

346. Accordingly, in the case from which these remarks are taken, insurance having been made on freight "at and from Hayti to Liverpool," valued at 6,500*l.*, and it appearing that the vessel was lost off the coast of Hayti, when the freight of only fifty-five bales of cotton was at risk, which formed but a small part of the cargo intended to be shipped on board her, and on which the freight was valued, the Court would not allow the assured to recover the whole amount of the valuation, but only such a proportion of it as the fifty-five bales bore to the full cargo intended to be loaded, and on which the freight was estimated (*o*).

By policy on goods; Rickman *v.* Carstairs.

Again, in the case of a policy on homeward cargo, it appeared that at the time of the loss, which was total, a considerable proportion of the homeward cargo was not on board, and that which was shipped was not equal to the value in the policy. At the same time enough of the outward cargo still remained on board to make up the amount named in the valuation. As this, however, was not covered by the policy, the Court, adopting the principle that the underwriter is only bound by the valuation when the whole of the intended cargo is on board, held that the assured was entitled to recover, not the whole amount of the insurance, but only such proportion of it as the value of the homeward cargo, the freight of which was at risk at the time of the loss, bore to a full homeward cargo (*p*).

Tobin *v.* Harford.

Under a time policy on ship valued at 2,000*l.*, and on cargo valued at 8,000*l.*, containing all the clauses proper to the barter trade on the coast of Africa, outward cargo to be considered homeward interest twenty-four hours after arrival at first port or place of trade, the ship reached Kinsembo with a cargo on board worth 6,226*l.*, of which part was there dis-

(*n*) In Forbes *v.* Aspinall (1811), 13 East, 327. See the judgment of Blackburn, J., in Tobin *v.* Harford (1864), 34 L. J. C. P. 40.

(*o*) Forbes *v.* Aspinall, at p. 323.

(*p*) Rickman *v.* Carstairs (1833), 5 B. & Ad. 651.

charged to the value of 3,952*l.*, and then without loading other cargo, after being more than twenty-four hours at Kinsembo, sailed for Congo with the residue, and was lost on the way. The assured claimed 8,000*l.* in respect of the "cargo," interpreting that word in the policy as signifying any goods on board at the time of the loss. The Court, however, held that the valuation in the policy was of a substantially full cargo, and that the plaintiff could only recover, as for an average loss, an aliquot part of that sum, corresponding to the proportion which the goods on board bore to a full cargo, and that if this proportion could not be found, the underwriters would be liable as upon an open policy underwritten for 8,000*l.* (*q*). Sect. 346.

Denoon *v.* Home and Colonial Ass. Co.

Similarly under a policy "upon chartered freight, valued at 7,000*l.*, at and from Sydney to Calcutta and London," the remainder of the voyage was abandoned at Calcutta on account of the bankruptcy of the charterers, and the vessel took 360 coolies and part cargo of rice for Mauritius. Thereupon the voyage described in the policy was altered by indorsement, and it was further indorsed as follows:—"The within interest is now declared to be on freight valued at 2,000*l.*" The subscription of 1,000*l.* by the defendants remained unaltered. When near Mauritius the vessel was wrecked; there was a total loss of the rice and of the freight of it; the greater part of the coolies were saved, and their passage-money was paid, but some were lost, and with them their passage-money. The question was what under this policy in these circumstances the assured was entitled to recover.

The Court, after holding that the word "freight" did not, as was contended by the defendants, include the passage-money, held further that inasmuch as there was not a full cargo on board or any estimation in the policy of what the freight of a full cargo would have been, the policy must be dealt with as an open policy, and, consequently, that the assured was entitled to recover in the proportion of 1,000*l.*

(*q*) Tobin *v.* Harford (1864), 32 L. J. C. P. 134; in error, 34 L. J. C. P. 37; 13 C. B. N. S. 791; 17 C. B. N. S. 528.

Sect. 346.

to 2,000*l.*, or one-half of the whole freight on board, not exceeding 1,000*l.*, that is, one-half of 1,412*l.*, being in fact 706*l.* (*r*).

In the United States.

These principles have received abundant illustration in the Courts of the United States. Thus, where seventy-four mules were insured, valued at 11,000 dollars, and only thirty-five mules were actually shipped, the assured, in case of loss, was only allowed to recover thirty-five 74th parts of 11,000 dollars (*s*).

Practical difficulties in applying this rule.

347. As to the rule thus well established, there is yet in many cases a difficulty about its practical application, arising out of the question, "what is a cargo, sufficient to entitle the jury to say, that that has been shipped to which the valuation in the policy refers?" (*t*).

In case of average loss.

A difficulty was also at one time felt as to the principle upon which the amount of loss should be adjusted, but the following satisfactory solution of it, suggested in the argument in Rickman *v.* Carstairs, has since been accepted and sanctioned with the approval of the Court of Common Pleas and of the Exchequer Chamber (*u*). The passage is this:—"Even supposing the policy to be opened, the valuation will not be altogether inoperative; for it will prevent any dispute as to the value of the whole contemplated cargo. Thus, if a valued policy on sugar be opened, on the ground of only four-fifths of the intended cargo having been shipped and lost, the underwriter will pay, not a value to be now put on the lost sugar, but four-fifths of the sum underwritten" (*x*).

Where, however, it is impossible to ascertain the proportion which the cargo actually shipped bears to that intended to be

(*r*) Denoon *v.* Home and Colonial Ass. Co. (1872), L. R. 7 C. P. 341. See further, as to this case, *ante*, § 252b.

(*u*) Tobin *v.* Harford (1864), 32 L. J. C. P. 134, 136; 13 C. B. N. S. 791; in error, 34 L. J. C. P. 37.

(*x*) 5 B. & Ad. 662.

shipped, it does seem to follow from the cases already cited that the valuation will be inoperative. Sect. 347.

Valuation of ship is immaterial in questions of constructive total loss.

348. As we have seen (*y*), sect. 27 (4) of the Marine Insurance Act, 1906, declares that "unless the policy otherwise provides (*z*), the value fixed by the policy is not conclusive for the purpose of determining whether there has been a constructive total loss." The question, in order to ascertain whether a wrecked or stranded ship is so damaged as to entitle the assured to recover as for a total loss, upon giving due notice of abandonment, is not, will the cost of repairs exceed the value in the policy? but, will the cost of repairs exceed the ship's value when repaired? (*a*). "When this test has been applied, and the nature of the loss thus determined, the quantum of compensation is then to be fixed. In an open policy the compensation must then be ascertained by evidence. In a valued policy the agreed total value is conclusive: each party has conclusively admitted that this fixed sum shall be that which the assured is entitled to recover in case of a total loss" (*b*).

Effect of the valuation where there is a double insurance.

349. As we have already seen, sect. 32 (2) of the Marine Insurance Act, 1906, in which the results of double insurance are set out, provides that:—

> (a) The assured, unless the policy otherwise provides, may claim payment from the insurers in such order as he may think fit (*c*), provided that he is not entitled to receive any sum in excess of the indemnity allowed by this Act;

(*y*) *Ante*, § 338.

(*z*) The "Institute" Clauses provide that "in ascertaining whether the vessel is a constructive total loss the insured value shall be taken as the repaired value."

(*a*) See *post*, § 1124.

Sect. 349.

(b) Where the policy under which the assured claims is a valued policy, the assured must give credit as against the valuation for any sum received by him under any other policy without regard to the actual value of the subject-matter insured.

Where the valuation is the same in both policies, there is little difficulty. The assured cannot recover in the whole more than the valuation, although the subject insured be proved to be really worth more (*d*). For instance, if he have insured his vessel in one policy for 3,000*l*., and in another for 4,000*l*., and the valuation in each be 6,000*l*., he cannot recover in the aggregate more than 6,000*l*., even though he prove the vessel to be really worth 7,000*l*. or more (*e*). He may, however, proceed first on whichever of the two policies he pleases, and then recover on the other policy the deficiency up to the 6,000*l*., leaving the underwriters on the two to adjust between themselves all questions of contribution. In the instance we have given, it appears that he would have a good claim for a return of premium in respect of the 1,000*l*. insured in excess of what he is entitled to recover.

Effect of several insurances on the same subject-matter, where the policies contain different valuations.

350. As, however, the valuation is only conclusive between the parties to the same policy, difficulties arose in cases where the assured had protected his interest in the subject of insurance by two or more valued policies containing different valuations.

The first reported case of this kind is Bousfield *v.* Barnes (*f*). A vessel was valued in one policy at 8,000*l*., and insured for 6,000*l*.; in another policy she was valued at 6,000*l*. and insured for 600*l*. A total loss took place, and the underwriters on the first policy paid 6,000*l*., being the whole sum insured. The owners then brought an action on the second policy, and proved the real value of the vessel to have exceeded 8,000*l*. Lord Ellenborough, in answer to a

(*d*) Mar. Ins. Act, 1906, ss. 67, 68; *ante*, § 338.

(*f*) (1815), 4 Camp. 228.

claim by the underwriters to treat the 6,000*l*. already received under the first policy as salvage, held that the real value being over 8,000*l*., the plaintiff had therefore an interest to which he might still apply the policy on which the action was brought (*g*). Sect. 350.

351. A similar point arose in Bruce *v.* Jones (*h*), the decision in which case virtually over-ruled that in Bousfield *v.* Barnes. A shipowner had effected four policies on the same ship: the first was for 725*l*. on a valuation of 3,000*l*.; the second was for 500*l*. on a valuation of 3,000*l*.; the third was for 3,450*l*. on a valuation of 5,000*l*.; and the fourth was for 2,400*l*. on a valuation of 3,200*l*. A total loss took place, and the assured received 3,126*l*. under the first three policies. He then sued on the fourth, and the question was how much was recoverable thereon. Willes, J., directed the jury that insurance was a contract of indemnity, and that for the purposes of the action 3,200*l*. must be taken to be the real value of the ship,—that the sum received on the other policies, whatever were the valuations therein, must therefore be deducted from such value, and that the plaintiff was only entitled to recover the difference. The jury having accordingly found a verdict for 74*l*., the plaintiff obtained a rule calling on the defendant to show cause why there should not be a new trial on the ground of misdirection as to the measure of damages. Amongst other contentions put forward on behalf of the plaintiffs, it was urged that the payments made under the other policies must be taken into consideration, if at all, not as payments of so much cash, but merely as payments in respect of proportionate parts of the total loss sustained; so that, for instance, a sum of 500*l*. which had been paid by the underwriters on the first policy, the valuation wherein was 3,000*l*., should be regarded not as a payment of 500*l*. cash, but as a payment of one- Bruce *v.* Jones.

(*g*) In America the case of Kenny *v.* Clarkson, 1 Johns. 385, is to the same effect. Other cases are cited in 1 Parsons, p. 264, where the point is discussed.
(*h*) (1863), 1 H. & C. 769; 32 L. J. Ex. 132.

Sect. 351.

Anomalous result.

sixth of a total loss, leaving five-sixths to which the other insurances might be applied (*i*). It was further pointed out that the contention of the underwriters would lead to this surprising anomaly,—that the whole sum recoverable would be less or greater, according as recovery were had in the first instance under policies of the greater or lesser valuation.

The Court (*k*), admitting this anomaly, decided nevertheless that the underwriters were entitled to treat the whole sum received by the assured under the other three policies as salvage, and that the total sum recoverable was the difference between such sum and the agreed value, namely, 74*l.* (*l*).

352. A rule which makes the aggregate sum recoverable on all the policies depend on the order in which recovery thereon is had may be considered unsatisfactory (*m*), and it is clear that an assured might be placed in a very awkward position, if the underwriter on the policy containing the greater valuation were to admit a claim and the underwriter on the policy with the smaller valuation were to contest his liability. Nevertheless, the effect of sect. 32 (2), (a) and (b), of the Marine Insurance Act, 1906, seems to be that the rule laid down in Bruce *v.* Jones is definitely established.

Practice of average adjusters.

353. It is in accordance with the decision in Bruce *v.* Jones (*n*) that in all ordinary cases average adjusters in this country allow an assured to recover to the extent of the highest valuation, provided always that such amount be fully subscribed for in the aggregate. It is recognized, however, that the right of an assured to recover to this extent might be prejudiced, if he were to be so ill-advised or unfortunate as to have previously received payment upon a policy containing a higher valuation.

(*n*) (1863), 1 H. & C. 769; 32 L. J. Ex. 132.

Sect. 354.

Adjustment of contribution between underwriters on policies differently valued.

354. The question how the total sum recovered by the assured should finally be apportioned as between the different underwriters, where there are several policies with different valuations, is not solved by the provisions of the Marine Insurance Act, 1906, which relate to the question of contribution (*o*). Nor is there any direct authority or established practice on this point. The difficulty may be well put by a simple illustration. Let us suppose that a ship is insured in two policies, A. and B. In policy A. she is valued at 8,000*l.*, and is insured for 6,000*l.*; in policy B. she is valued at 7,000*l.* and insured for 4,000*l.* A total loss takes place, and the assured, having recourse in the first instance to policy B., recovers under the two policies 8,000*l.* in all. How is the liability under the two policies adjusted as between the respective sets of underwriters? The editors are informed that the average adjuster will probably state the case in the following form (*p*):—

A. If 8,000*l.* pays 8,000*l.*, 6,000*l.* insured would pay	£6,000
B. If 7,000*l.* pays 7,000*l.*, 4,000*l.* insured would pay	4,000
Total	£10,000

But inasmuch as the total sum to be made up is not 10,000*l.* but only 8,000*l.* (*q*), the amount payable by each set of underwriters must be proportionately reduced, so that eventually

A. pays $\frac{6000}{10000}$ of 8,000*l.* =	£4,800
B. pays $\frac{4000}{10000}$ of 8,000*l.* =	3,200
	£8,000

(*o*) Sects. 32 (2) (d), 80, *ante*, § 330. See American Surety Co. *v.* Wrightson (1910), 16 Com. Cas. 37, 54.

(*p*) It is apparent that in cases of total loss this formula has very little utility. The result is based solely on a comparison of the amounts respectively subscribed, without any regard to the valuation in B. policy.

(*q*) There would also be a claim for return of premium on 2,000*l.* over-insured.

Sect. 354.

And similarly, to take a case where the loss has been partial only, let us suppose that, upon the same policies, a loss takes place in respect of which the shipowner is entitled to be recouped to the extent of 4,000*l.* Then,

A. If 8,000*l.* pays 4,000*l.*, 6,000*l.* insured would pay	£3,000
B. If 7,000*l.* pays 4,000*l.*, 4,000*l.* insured would pay	2,286
Total	£5,286

Therefore, as before,

A. pays $\frac{3000}{5286}$ of 4,000*l.*, or	£2,270
B. pays $\frac{2286}{5286}$ of 4,000*l.*, or	1,730
	£4,000

In ordinary cases of partial loss, the method above indicated seems to be free from objection. In cases of total loss (*r*), however, as has been already observed, it involves the anomaly that an important part of the contract contained in B. policy, namely, the agreed valuation, is entirely ignored, and that the underwriters on that policy are made to contribute towards a sum in excess of any figure with which they have in any way agreed to be concerned. To such cases a somewhat different method of adjustment, which certainly seems to be free from these objections, is stated by Judge Carver (*s*) to be more properly applied. The sum of 1,000*l.* by which the valuation in A. exceeds that in B. is made to fall on A. alone, and only the balance of 7,000*l.* is treated as the subject of adjustment as between A. and B. This balance of 7,000*l.* is then apportioned between A. and B. according to their subscriptions, that of A. being of course reduced by the 1,000*l.*

Alternative method.

(*r*) The following objection applies also to cases of partial loss so great as to exceed the agreed valuation in any of the contributory policies.

(*s*) See pp. 130—133 of the Report of the Eighteenth Conference of the International Law Association held at Buffalo, U.S.A., in 1899 (Clowes & Sons, Ltd. 1900). Lowndes on Mar. Ins. 2nd ed. s. 38, appears to support the same view.

which he is deemed to have already contributed. In the result it will be found that Sect. 354.

A. pays 1,000*l.* plus $\frac{5}{9}$ of 7,000*l.*	= £4,889
B. pays $\frac{4}{9}$ of 7,000*l.*	= 3,111
	£8,000

Of the two methods suggested, the editors are disposed to prefer that of Judge Carver, who formulates (*t*) the position in the following terms:—

(1.) "In case of partial loss (*u*), the contribution is to be in proportion to the liabilities under the several policies in respect of that loss.

(2.) "In case of total loss, so much of the amount paid under any policy, as is ascribable to the part of the valuation therein which is covered by other policies, is to be contributed to by those policies in proportion to their liabilities in respect thereof."

355. The valuation is stated in sect. 27 (3) of the Marine Insurance Act, 1906 (*x*) to be conclusive of the insurable value of the "subject intended to be insured." It must therefore be understood that the valuation in the policy is not necessarily the whole estimated value of the subject of insurance, but only of the interest the assured has in such subject.

The valuation in the policy is only a valuation of the interest of the assured in the subject of insurance.

Hence, where insurance was made on goods "valued at 19,000*l.*," of which the assured owned four-ninths, it was contended that the valuation was intended for the entire property; and, accordingly, that the interest of the assured was to be taken as four-ninths of that sum; but the Court

(*t*) Marine insurance proposals in Report of Buffalo Conference at p. 178, as amended for the Rouen Conference, 1900.

(*u*) The partial loss, however, ought not to exceed the valuation in any of the contributory policies; if it does, the adjustment should be regulated by the rule which follows.

(*x*) *Ante*, § 338. See also sect. 26 (3) of the Act, *ante*, § 252b, which provides that the policy "shall be constructed to apply to the interest intended by the assured to be covered."

Sect. 355.

said, "We must take it that the value insured is the value of the assured's interest" (*y*).

Valued policies on ship and freight.

356. From the difficulty of proving the insurable value of the ship in case of loss, almost all policies on ship are valued. The value is generally calculated in this country by estimating the ship's worth to her owner at the outset of the risk, including stores, outfit, and money advanced for seamen's wages, taking care to cover the whole with premiums and commissions (*z*).

However much the ship may be damaged by wear and tear, and consumption of her stores and provisions at the time of loss, even though the loss takes place at the very termination of a long voyage, yet the valuation so calculated determines the amount recoverable in case of loss (*a*).

Shipowner, in case of total loss, often receives more than an indemnity.

As, moreover, it is frequently the practice in this country to value the freight also by a separate policy at its gross amount, without any deduction of the expenses of earning it, it is very clear that upon this principle, in case of loss, the shipowner receives far more than an indemnity.

(*y*) Feise *v.* Aguilar (1811), 3 Taunt. 506. See New York and Cuba Mail SS. Co. *v.* Royal Exch. Ass. (1907), 154 Fed. R. 315, in which the Circuit Court of Appeals held that the valuation in a time policy on freight was not intended to cover prepaid freight, but only the freight at the risk of the assured at the time of the loss.

(*z*) Stevens on Average, 190. So long as the ship is comparatively new, the owner, in estimating her worth, has regard principally to what she cost him, making allowance for her earnings; as she gets older the tendency is to consider her more and more as a freight-earning machine, and her worth as the present value of her future freights plus her breaking-up price. See Lowndes on Marine Insurance, 2nd ed. p. 13; Gow, Mar. Ins. p. 74. As to the valuation of a ship as "part of the going concern of a business," see *ante*, § 343.

(*a*) Shawe *v.* Felton (1801), 2 East, 109. When the valuation in the policies is less than the real value of the vessel, the insurances are sometimes supplemented by an "increased value policy," under which the shipowner is insured for an amount additional to that insured by the ordinary policies: for policies of this kind, see Holt Hill (Sailing Ship) Co. *v.* U. K. Marine Mutual Ins. Ass. (1919), 35 T. L. R. 367; Holman *v.* Merchants' Mar. Ins. Co., [1919] 1 K. B. 383. See also, *post*, Vol. II. § 1005, n. (*f*).

Sect. 357. Examples.

357. For example, suppose a ship chartered for a four months' voyage to be worth to her owner, in the port of loading, including rigging, &c., 2,000*l.*; provisions, 80*l.* more; petty expenses at port of loading, 18*l.* additional; seamen's wages, paid in advance to the extent of one-half, 75*l.*; making altogether, 2,173*l.*; add a premium on this sum at 3 per cent. and premium on premium, viz., 67*l.* 4*s.*, and the sum which the assured would be entitled to receive on the policy on ship in case of a total loss is 2,240*l.* 4*s.*

So much for the policy on ship; but now as to the freight. Suppose the gross freight for the whole voyage, without deducting the expenses of earning it, to be 650*l.*; premium at 3 per cent., &c., 20*l.* 2*s.*, making together 670*l.* 2*s.*, which is the amount recoverable for freight, calculated according to the principle observed in this country in respect of open policies. Therefore the amount recoverable in respect of ship and freight under the two policies is 2,910*l.* 6*s.*

In order to show how much this exceeds an indemnity, let us see what the shipowner would net in case the ship arrived and full freight was earned. Taking the wear and tear of the ship for the four months' voyage at the moderate sum of 100*l.*, the ship would be worth to her owner on arrival (2,000*l.* - 100*l.*) 1,900*l.*

Then as to freight, taking the expenses at the port of destination to be 25*l.*, and the seamen's wages for the last two months to be 75*l.*, these two items payable out of the gross freight of 650*l.* would reduce the net amount of freight to 550*l.* The sum, therefore, that the shipowner would net by the ship's safe arrival earning freight would be, for the ship, 1,900*l.*; for the freight, 550*l.*; making the total net value of the ship and freight to the owner on safe arrival, 2,450*l.* But in case of total loss he would receive 2,910*l.* 6*s.*, *i.e.*, he would be a gainer by the total loss of his ship to the extent of 460*l.* 6*s.* (*b*)—"a great inducement indeed to many," as

(*b*) A seaman's wages, in case of wreck or loss of ship, are now payable for the full time of service prior thereto, unless barred by proof that he has not exerted himself to the utmost to save ship, &c.; the

Sect. 357. Benecke exclaims, "to convert a partial into a total loss!" (*c*).

Valued policies on freight.

358. Notwithstanding the theoretical difficulties attendant on the practice of insuring ship and freight separately (*d*), freight is still regularly insured in separate policies, and valued therein at a sum sufficient to cover its estimated gross amount.

In the United States.

But freight, as well as other subjects, may be valued even above its gross amount; and in one case in the United States the Court are reported to have said, "The parties agree that the freight shall be valued at a sum which eventually proves to be three times the value of the carriage of the goods, but we do not perceive that the estimate was made unfairly"; and it was adjudged that the underwriters should pay a loss according to the valuation (*e*).

Where the voyage is made up of distinct stages, and there is but one valuation.

The following question has arisen, and been a good deal discussed in the Courts of the United States:—

Suppose a policy to be on time, or on a voyage having intermediate stages, at each of which freight is earned and becomes due, independently of the circumstance of the vessel's arriving at subsequent stages; suppose, also, that the freight of the whole voyage, or for the whole time, is valued in gross—is this valuation to be applied to the aggregate amount of all the freights, or to the amount of each severally?

Phillips, after a learned examination of the authorities, states the result to be "in favour of such valuation being applied to the freight successively pending on the separate passages, and not to the aggregate freight for all the

Merchant Shipping Act, 1894, ss. 157, 158, re-enacting similar provisions in the Merchant Shipping Act of 1854. The difference, therefore, would not now be quite so great as stated in the text.

(*c*) Principles of Indem. c. ii. "As to Insurances on Ships," from which the whole of the above calculations are taken.

(*d*) As to which, see Benecke, Pr. of Indem. c. ii. pp. 57—60; c. iv. pp. 133—136; and Dallas, C. J., in Case *v.* Davidson (1816), 2 Brod. & B. 387.

(*e*) Coolidge *v.* Gloucester Marine Ins. Co. (1819), 15 Mass. R. 341; cited 2 Phillips, s. 1267.

passages" (*f*). He concludes that the doctrine applicable to the subject is that "a valuation of freight in a time policy, or one for successive passages, is presumed to be of that successively pending;" but this presumption, he thinks, may be rebutted by showing that the valuation is applicable to the aggregate amount of the successive freights. Sect. 358.

If there is any provision in the charter-party suspending the earning of freight till the completion of the homeward passage (as was frequently the case with ships chartered for the voyage out and home in the East India Company's trade), and the freight for the whole voyage be valued at a gross sum, it seems that the whole sum valued may be recovered whether the loss take place on the passage out or home (*g*).

Modern use of valued time policies on freight.

Freight is now frequently insured in valued policies, which are intended by both parties to be of constant effect during the whole period or voyage covered, quite independently of the ship's engagements. Thus it is one of the Institute Clauses in Freight Policies both for a voyage or for time that "in the event of the total loss, whether absolute or constructive, of the vessel, the amount underwritten by this policy shall be paid in full, whether the steamer be fully or only partly loaded or in ballast, chartered or unchartered" (*h*), and Club Insurances on freight contain a similar provision. The effect of such an insurance is obviously to entitle the shipowner to receive a fixed sum in the event of a total loss, not necessarily of any freight at all, but of his ship; and this is no doubt the intention of the parties also. The rule appears to make a policy framed in accordance therewith a contract of insurance by way of gaming and

(*f*) 2 Phillips on Ins. s. 1208. See New York and Cuba Mail SS. Co. *v.* Royal Exch. Ass. (1907), 154 Fed. R. 315, *ante*, § 355, note (*y*).

(*g*) Williams *v.* London Ass. Co. (1813), 1 M. & S. 318.

(*h*) See Appendix B. In Coker *v.* Bolton, [1912] 3 K. B. 315, at p. 320, Hamilton, J., said that in his opinion this clause was introduced for the purpose of meeting the hardship that had long been felt to exist, where a shipowner, who had given notice of abandonment and consequently lost his right to the freight subsequently earned, was precluded from suing on the policy on freight.

Sect. 358.

wagering, void therefore under sect. 4 of the Marine Insurance Act, 1906. Be this as it may, the object of the members of the Association is not to gamble with one another, but in this indirect way to increase the amount receivable in case of total loss of hull, which in their actual policies on hull they may have found it convenient to under-assess.

Valued policies on goods.

359. Valued policies on goods are stated by Stevens to have originated in insurances on colonial produce, of which, as no invoice could be had (no purchase having been made), a valuation was necessarily adopted such as would indemnify the planter in case of loss. The practice, being found very convenient on account of its enabling the merchant to include in the valuation a fair mercantile profit on his goods, which he could not do by an open policy, was extended to classes of goods to which the original reasons for its adoption would not apply.

Specific valuations.

When the cargo consists of different kinds of colonial produce, as sugars, coffees, tobacco, &c., it is more usual, because more convenient for the purpose of adjustment in case of loss, to value each species of produce separately; as "on sugars valued at 500*l*., on coffee valued at 600*l*.," or "on 100 hogsheads of sugar valued at," &c. Sometimes the valuation is at so much per hogshead, tierce, barrel, bale, hundredweight, &c. This is followed in most instances with appropriate clauses, "to pay average on each species, as if separate interests, separately insured," or "to pay average on each 10, 15, 20 hogsheads, &c., succeeding numbers, as if separately insured" (*i*). We shall see hereafter that the purpose of these specific insurances is in case of a partial loss to enable the assured to recover notwithstanding the memorandum clauses, and that the single word "effects" (*k*), or "goods" (*l*), describing the subjects of insurance, does

Sect. 359.

not prevent the policy being construed distributively, when such word is descriptive of various kinds of goods or articles (*m*). It is quite otherwise if such word be descriptive of a homogeneous cargo only, such as linseed (*n*) or rice (*o*), notwithstanding it is packed in separate bags or packages; and the effect of such a policy is not altered by indorsement afterwards of a declaration of the ship, and of the packages and their separate value (*p*).

When goods are valued at so much per lb., this must be understood of the lb. of the place where the policy is made (*q*).

Goods "to be hereafter declared and valued."

360. When the assured expects goods from abroad, but does not know the kind or the amount, he generally procures a floating policy to be effected "on goods to be hereafter declared and valued."

Such declaration before loss is not a condition precedent to the right of the assured to recover; yet "unless the policy otherwise provides, where a declaration of value is not made until after notice of loss or arrival, the policy must be treated as an unvalued policy as regards the subject-matter of that declaration" (*r*).

Valuation must be made and communicated to underwriter before loss.

Under a policy in this form, a clerk of the assured wrote out and signed a declaration of interest and value on a separate piece of paper, which he wafered to the policy, but it did not appear that this had been shown to the underwriter before the loss was known, and Lord Ellenborough held there was no declaration, and consequently that it was an open policy (*s*).

Sect. 360.

As we have seen elsewhere, a mistake made in declaring may be corrected without the assent of the underwriters, if made in good faith (*t*).

Applied to the proceeds or returns of the outward cargo.

Questions have arisen in the United States whether a valuation in a policy on goods for the voyage out and home applies to the proceeds or returns purchased by the sale of the outward cargo. This is a question of intention, and consequently to be determined upon a construction of the instrument in view of the circumstances of the case. "In the absence of any collateral considerations," says Phillips, "I conclude the preferable doctrine to be, that a valuation of the outward cargo in a policy for the round voyage is to be presumed to be a valuation of its whole proceeds for the return voyage or for subsequent passages" (*u*).

Premium.

Generally speaking, a valuation at a round sum is taken to include the premium, and this whether the valuation be on the subject in gross, or by the weight, measure, or piece, except where the contrary appears from the language of the policy, or from the scale of the valuation (*x*).

A stipulation as to rate of exchange does not make a valued policy.

361. Where goods are expected from abroad, and no value is put upon them in the policy, but it is only stipulated that the coin of the foreign port of loading at which they are invoiced shall be reduced into our own money, at so many shillings the dollar, livre, rupee, &c., it seems that this ought not to be taken as a valued, but as an open policy; for it contains no fixed valuation of the goods, but only an ascertainment of the value in our money of the foreign currency

be an agreement as to valuation;" Gledstanes *v.* Royal Exchange Ass. Co. (1864), 34 L. J. Q. B. 30, 31.

(*t*) Mar. Ins. Act, 1906, s. 29 (3), *ante*, §§ 185, 187.

(*u*) See McKim *v.* Phœnix Ins. Co. (1807), 2 Wash. Circ. Court R. 89; Haven *v.* Gray (1815), 12 Mass. R. 71; Whitney *v.* American Ins. Co. (1824), 3 Cowen, 210; 5 Cowen, 712; 2 Phillips, ss. 1197, 1198; 1 Parsons, 270.

(*x*) This is the received doctrine in the United States; 2 Phillips, s. 1201. The learned author cites Mayo *v.* Maine Fire and Marine Ins. Co. (1815), 12 Mass. R. 259, where the Court concluded, from the scale of valuation merely, that the premium was not intended by the assured to be included.

Sect. 361.

in which their invoice value is expressed. Accordingly it has been held in America, that the invoice value, thus calculated, must have the premium added to it, in order to ascertain the insurable value, just as in an open policy (*y*).

By sect. 72 of the Marine Insurance Act, 1906—

Apportionment of valuation where different kinds of property covered.

> (1) Where different species of property are insured under a single valuation, the valuation must be apportioned over the different species in proportion to their respective insurable values, as in the case of an unvalued policy. The insured value of any part of a species is such proportion of the total insured value of the same as the insurable value of the part bears to the insurable value of the whole, ascertained in both cases as provided by this Act (*z*).
>
> (2) Where a valuation has to be apportioned, and particulars of the prime cost of each separate species, quality, or description of goods cannot be ascertained, the division of the valuation may be made over the net arrived sound values of the different species, qualities, or descriptions of goods (*a*).

Thus, in the case of damage to goods, the insurable value of the different kinds of goods having been ascertained, the valuation is applied to each kind in the same proportion; and the percentage of damage sustained by any one kind of goods must then be applied to their portion of the value, in order to ascertain the amount due thereon from the underwriter.

(*y*) Ogden *v.* Columbian Ins. Co. (1813), 10 Johnson's R. 273, cited 2 Phillips, s. 1201. Benecke thought otherwise, but the rule in the text seems preferable. Pr. of Indem. 159.

(*z*) See s. 16, *post*, § 365.

(*a*) The provisions of this section are based on a rule of the Association of Average Adjusters. In one case in the United States the judges were equally divided in opinion whether a valuation in the lump on ship, cargo and freight in one policy, without specifying how much on each, was not void for uncertainty. Stocker *v.* Harris (1807), 3 Mass. R. 415; 2 Phillips, s. 1203. Arnould was of opinion that the valuation may be set aside, if it be impossible to ascertain, by the invoice or otherwise, in what way the valuation was intended to be apportioned on different parts of the cargo: 2nd ed. Vol. I. p. 376. It is, however, unlikely that a case will occur which cannot be settled by applying the alternative rule in sub-sect. (2).

Sect. 361.

If only part of the interest at risk is valued, it is easy to ascertain what amount that is not valued is covered, by deducting the amount of the valuation from the sum insured.

Rule of adjustment where different subjects of insurance are separately valued in one policy, and only one subject is put at risk.

If several articles be insured at one sum, with a distinct valuation on each, as supposing ship and cargo insured for 5,500*l.*, calculating the ship at 1,500*l.*, and no part of the cargo to be taken on board, so that the risk on that never attaches; then, if the ship be lost, the assured shall recover such proportion of the sum insured as 1,500*l.*, the value put upon the ship, bears to 5,500*l.*, the value put upon the whole (*b*). The mere fact, however, that goods are valued at a certain sum, of which a certain portion is expressed to be in respect of advanced freight, does not necessarily prevent the whole valuation from being applied to the goods alone (*c*).

Of open policies.

362. In an unvalued or open policy the value of the interest at risk is not fixed in the policy, but is estimated by a certain standard, and in case of loss is made out by proof.

Estimation of interest.

As will presently appear, the amount of insurable interest in all open policies is the sum which measures its worth to the assured at the commencement of the risk, *plus* the charges of the insurance (*d*). The indemnity contemplated by this mode of estimation puts the assured as nearly as possible in the same position as he was in at the outset of the adventure, and before effecting the insurance, without paying any regard to the profit he may have missed making, or to the wear and tear which his property has or would have sustained.

Premium and premium thereon should be included.

It is clear that, upon this principle of indemnity, the charges of insurance should include the premium paid upon it, and also the premium upon the premiums down to the total extinction of the risk; otherwise the sum received by the assured in case of loss, as an indemnity, will not really

(*b*) Amery *v.* Rodgers (1794), 1 Esp. 208.

(*c*) Thames and Mersey Co. *v.* Pitts, [1893] 1 Q. B. 476.

(*d*) Sect. 13 of the Mar. Ins. Act, 1906, declares that "the assured has an insurable interest in the charges of any insurance which he may effect."

put him in the same position he was in before effecting the insurance. Sect. 362.

For example, suppose goods, the invoice price of which, together with shipping charges, amounts to 1,000*l.*, to be insured at 5 per cent.; it is plain that the merchant, by insuring 1,050*l.* is not fully covered; for the premium for insuring 1,050*l.* at 5 per cent. will be 52*l.* 10*s.*, and the whole sum at risk would thus be 1,052*l.* 10*s.*, while all that could be recovered, in case of a total loss upon the above supposition, would be 1,050*l.*; it is plain, therefore, that the assured, who wishes to be completely protected from loss, must go further, and insure the premium of the premiums, down to the extinction of the risk.

Practical rule.

363. The simplest practical rule for ascertaining the sum necessary for this purpose is as follows:—the premium being contained in the sum which the underwriter pays, the assured for his indemnification can clearly only receive that sum deducting the premium; hence, every 100*l.* meant to be insured must be so insured minus the premium. As this residue is to 100*l.*, so is the amount of interest intended to be insured to the sum required to be insured in order fully to protect it. Thus, suppose the amount of interest intended to be insured (no matter whether in ship, freight or goods, for the rule now under consideration extends to all alike) to be 1,000*l.* and the premium to be 5*l.* 5*s.* per cent.

Then, according to the rule, from the sum of	£100	0	0
Deduct premium	5	5	0
Leaves	£94	15	0

Then, as 94*l.* 15*s.* is to 100*l.*, so will 1,000*l.* be to the sum required to be insured, in order completely to cover the interest at risk, or about 1,055*l.* (*e*).

But besides the premium and premiums of premium, it is requisite also to cover the expenses of the policy; *i.e.*, the

(*e*) Stevens on Average, 193; Benecke, Pr. of Indem. 119, 120.

Sect. 363.

stamp duty and the broker's commission, if effected by a broker (*f*). We have therefore, as before, on 100*l*., premium 5*l*. 5*s*., stamp duty, say 6*d*. (in case of a policy for twelve months), and the broker's commission ½ per cent.; *i.e.*, 5*l*. 15*s*. 6*d*. is to be deducted from the 100*l*., and the proportion is, as 94*l*. 4*s*. 6*d*.:100*l*. :: 1,000*l*. to the sum required to be insured, that is 1,062*l*.

Whatever be the subject-matter insured, whether ship, freight, goods, or profits, as the premium and the premium upon premium are always thus included in estimating the amount of the insurable interest, it follows, that in case of a stipulation for a return of premium on a certain contingency, the whole premium is, nevertheless, to be added in estimating the amount of the interest; since the assured may in the result be liable to pay the whole premium, or, which comes to the same thing, he may not be entitled to a return of any part of it (*g*).

Adjustment on open policies in cases of total and partial loss.

364. In case of total loss, the assured under an open policy is entitled to recover to the full extent of the value thus calculated, supposing the sum insured to amount to so much (*h*). In cases of partial loss the percentage of damage done to the subject insured having been first ascertained, the assured is entitled to recover the same percentage of the insurable value calculated as above; it being, of course, in every case understood that the underwriter is only proportionably liable upon the particular sum he has himself agreed to insure (*i*).

Thus, if an underwriter has insured 200*l*. on an open policy on goods, the estimated insurable value of which is 1,000*l*., and the ascertained amount of sea-damage 10*l*. per cent. on

(*f*) The modern practice, however, is to include broker's commission in the premium: see per Channell, J., in United States Shipping Co. *v.* Empress Ass. Co., [1907] 1 K. B. 259, 262.

(*g*) 2 Phillips on Ins. s. 1221.

(*h*) Mar. Ins. Act, 1906, ss. 67, 68, *ante* § 338.

(*i*) This is the rule in cases of particular average on goods: Mar. Ins. Act, 1906, s. 67. In case of ship there is no calculation of percentage of damage: the underwriter pays his proper proportion of the repair bill: Mar. Ins. Act, 1906, s. 69.

Sect. 364.

what they would have fetched at the port of delivery had they arrived there sound, the underwriter pays as his share of the indemnification 10*l*. per cent. on the sum he has insured, *i.e.*, 20*l*.; in the same way, in case of total loss, he would have paid 200*l*. If the aggregate of the sums insured equals the whole amount of insurable value, the assured receives 10*l*. per cent. on 1,000*l*., *i.e.*, 100*l*.; if it is less than this, he is his own insurer for the part uncovered by the policy (*k*), if more, it is an over-insurance.

Proof of interest at risk.

The mode of proving the amount of insurable interest under an open policy in case of loss is;—for the goods, by the production of the invoice, bill of lading, policy, &c.;—for the ship, by the production of reports and estimates of surveyors, bills of sale, &c.;—for the freight, by the production of the manifest, bill of lading, charter-party, &c.

Measure of insurable value in an open policy—

365. The rules which are followed in estimating the value of the subject-matter insured for the purposes of an open policy are thus set out in sect. 16 of the Marine Insurance Act, 1906:—

> Subject to any express provision or valuation in the policy, the insurable value of the subject-matter insured must be ascertained as follows:—
>
> (1) In insurance on ship, the insurable value is the value, at the commencement of the risk (*l*), of the ship, including her outfit, provisions and stores for the officers and crew, money advanced for seamen's wages, and other disbursements (if any) incurred to make the ship fit for the voyage or adventure contemplated by the policy, plus the charges of insurance upon the whole (*m*). **on ship;**

(*k*) Mar. Ins. Act, 1906, s. 81, *post*, § 1215.

(*l*) The words "at the commencement of the risk" are unfortunate. In a policy "at and from" a particular port, the risk may well commence before her outfit, provisions, or stores are put on board (see *post*, § 475), and before the necessary disbursements are made.

(*m*) The items hereby expressly included were not, in the opinion of certain learned judges of the Court of Appeal, included, prior to the Act, in an insurance simply on "ship." See Roddick *v.* Indemnity Mutual Ins. Co., [1895] 2 Q. B. 380. It was probably only by reason

Sect. 365.

The insurable value, in the case of a steamship, includes also the machinery, boilers, and coals and engine stores if owned by the assured (*n*), and, in the case of a ship engaged in a special trade, the ordinary fittings requisite for that trade (*o*):

on freight;

(2) In insurance on freight, whether paid in advance or otherwise, the insurable value is the gross amount of the freight at the risk of the assured (*p*), plus the charges of insurance (*q*).

of the general words "tackle, apparel, ordnance, munition, artillery, boat and other furniture," which form part of the ordinary English policy, that such items were covered. There is a discrepancy between this provision and rule 15 of the 1st schedule to the Act, in which money advanced for seamen's wages is not included in the items covered by the term "ship" in the ordinary policy. On this point there is no judicial authority before the Act, but in Stevens on Average, p. 190, it is stated that such advances are included, and Stevens' statement was adopted by Arnould (2nd ed. Vol. I. p. 381; 7th ed. § 365) and by McArthur (Ins. p. 67). See generally *ante*, §§ 218—221, for what is covered by a policy on "ship."

(*n*) Ordinarily the coals and engine stores are provided by the shipowner, whether the vessel be under charter or not. Sometimes, however, the ship is let to a charterer, on the terms that the latter is to supply the coals and stores on his own account, and in this case they are not covered by an insurance effected to protect the shipowner's interest. It is not easy to see why the words "if owned by the assured," assuming them to be necessary here, were not also inserted after the words "provisions and stores for the officers" in the preceding paragraph of the sub-section.

(*o*) These words possibly alter the law as to whaling, and other similar voyages. See *ante*, § 219.

(*p*) When during the voyage or time for which the insurance was effected there are successive shipments of goods, the question will arise whether or not the whole amount of the insurance must be applied to the freight at the risk of the assured at the time of the loss. If, for instance, a shipowner having at the commencement of the insured voyage only 500*l*. freight at risk, takes on board at an intermediate port additional cargo, the freight of which is the same in amount, will he, in the event of the whole cargo being lost, recover 1,000*l*. on his freight policy, or only 500*l*., the amount at risk at the commencement of the voyage? The result, it is apprehended, will in each case depend on the intention of the assured when he effected the insurance, and the wording of the policy. See Mar. Ins. Act, 1906, s. 26 (3), *ante*, § 251 *et seq.*; and see also *ante*, §§ 245, 246, 258, and *post*, §§ 367, 519.

(*q*) See per Lord Ellenborough, Forbes *v.* Aspinall (1811), 13 East, 326; Palmer *v.* Blackburn (1822), 1 Bing. 61; United States Shipping Co. *v.* Empress Assurance Corporation, [1907] 1 K. B. 259; [1908] 1 K. B. 115 (see § 262, note (*u*), *ante*); Stevens on Average, 192. The same rule appears most generally to obtain in the United States, though in some of the States the insurable value of freight is taken to be two-thirds of its gross amount. See 2 Phillips, s. 1238. It is obvious that the rule by which gross freight is payable in case of a loss may in many cases give the assured much more than a mere indemnity. In United States Shipping Co. *v.* Empress Ass. Corporation, *supra*, Channell, J., held that in a charterers' policy on freight the commission for obtaining the charter could not be included in the valuation.

Sect. 365.

(3) In insurance on goods or merchandise, the insurable value is the prime cost of the property insured, plus the expenses of and incidental to shipping and the charges of insurance upon the whole (*r*).

on goods;

(4) In insurance on any other subject-matter, the insurable value is the amount at the risk of the assured when the policy attaches, plus the charges of insurance (*s*).

or other subjects of insurance.

The prime cost of goods is generally evidenced by the invoice price, but is not conclusively fixed by it (*t*). In the United States it has been laid down on several occasions, that the market price of the goods at the commencement of the risk, is the true basis of calculation, and that the prime cost or invoice price furnishes no satisfactory rule of indemnity in any case where it exceeds, or is less than, this market value. "Suppose," says Washington, J., "the property to be destroyed within an hour after the risk has commenced, what is it the owner loses? Precisely as much as it is worth, or would have commanded in the market at the time and place of shipment. If the

The invoice, and not the market price of the goods at the port of shipment.

(*r*) See Usher *v.* Noble (1810), 12 East, 646; Tuite *v.* Royal Exchange Co. (1747), 1 Park, 224, 225; 1 Marshall, 232; Stevens on Average, 178 *et seq.*; Benecke, Pr. of Indem. 12—14; 2 Phillips, s. 1232.

(*s*) The application of this rule to a policy on profits may have a curious result when the amount to be earned depends on fluctuating market prices. Thus, if goods could only have been sold at a loss at the time of shipment, but would have realized a profit if sold at the time of the loss or of their expected arrival, can the assured recover nothing on an open policy on profits? Moreover, the rule also seems inapplicable to a policy on commissions, when the amount thereof will depend on the sale of the goods during the voyage or upon arrival.

(*t*) 2 Phillips, s. 1229.

Sect. 365.

property cost him less than it was worth when shipped he loses (in case of total loss) as well the first cost as the increased value for which he is entitled to claim indemnity from the insurer" (*u*). In theory this is unquestionably true, but as a practical rule, the prime cost, as evidenced by the invoice price, is by far the most convenient standard.

Invoice price in foreign money.

366. When the invoice price of goods shipped from a foreign port, where there is no current rate of exchange, is expressed in the currency of the foreign country to which such port belongs, the true mode of ascertaining the insurable value is to estimate what would be the worth of the foreign money in which the invoice value is expressed, supposing that it had been shipped in specie, instead of the goods, to the port of destination: *i.e.*, the invoice value of the goods is to be ascertained by calculating what the foreign coin in which it is expressed would be worth to the consignee of the goods, after paying the premium of its insurance, the freight and other expenses of its transportation (*x*).

On the other hand, if there is a current rate of exchange at the foreign port of loading, the most equitable measure of the insurable value of the goods appears to be the rate of the exchange at the commencement of the risk (*y*).

Thellusson v. Bewick.

In one case, however, in this country, Lord Kenyon acted upon a different rule; a policy was effected in September, 1791, on sugar shipped from a French port: at the time of effecting the policy, the exchange in England on the French crown of 3 livres was 24*d.*; at the time of settling the loss, in January, 1792, it had fallen to $7\frac{3}{4}d.$ Lord Kenyon held that as in case the exchange had risen the assured would have had the benefit of the rise, so in case of a fall they

(*u*) See 2 Phillips, s. 1229, citing Carron *v.* Marine Ins. Co. (1811), 2 Wash. C. C. R. 468. In one case the invoice value was taken, though higher than the actual cost to the assured. See *ibid.*; Coffin *v.* Newburyport Marine Ins. Co. (1812), 9 Mass. R. 436.

(*x*) See Magens on Ins. vol. i. p. 41, s. 40; Benecke, Pr. of Indem. 119.

(*y*) 2 Phillips, s. 1231.

Sect. 366.

must submit to the loss; and he decided that the insurable value of the sugars must be estimated and the loss paid upon the rate of exchange at the time of the adjustment, *i.e.*, at $7\frac{3}{4}d.$ the French crown (*z*).

Goods purchased by barter.

If the goods are purchased by barter in a foreign port, with which there is no mode of estimating the rate of exchange, the French Code provides that the amount of interest shall be the cost and charges of the goods given in barter (*a*), by which word "charges" is meant the expenses of transporting and shipping them (*b*).

Drawback.

When goods are entitled to a drawback on exportation, a question has been raised whether in estimating the insurable value of such goods under an open policy the amount of this drawback is to be deducted. The Courts of the United States have held that it is not, on the ground that, though it may enter into the estimate of the value of the goods for exportation, it is no part of their actual market price at the port of departure (*c*); and these decisions seem conformable to sound principle (*d*).

Of policies to cover fluctuating interest.

367. Where the provisions of the policy show that it is intended to cover any interest that the assured may have at risk within the limits of the time or the voyage for which the policy is effected, the amount of insurable interest fluctuates at different periods of the risk, and the loss must be apportioned between the parties in the proportion which the sum insured bears to the amount of insurable interest on board at the time of loss.

Crowley *v.* Cohen.

For example, the plaintiffs, barge-masters, having several

(*z*) Thellusson *v.* Bewick (1793), 1 Esp. 77. The rate of exchange at the commencement of the risk appears a preferable standard. In France the rule is to value the goods at the rate of exchange current at the time of subscribing the policy. Code de Commerce, art. 338.

(*a*) Code de Commerce, 339.

(*b*) Benecke, Pr. of Indem. 119.

(*c*) See these cases collected, 2 Phillips, s. 1235.

(*d*) Weskett says that when goods are entitled to a bounty on exportation the bounty is to be deducted, but the other seems the better rule. See Weskett's Digest, art. "Fish," No. 1.

Sect. 367. boats constantly engaged in carrying goods for hire by canal between London and Birmingham, for the purpose of protecting their interest as carriers, caused themselves to be insured for twelve months, "by canal navigation boats, containing goods, at work between London, Wolverhampton, Birmingham, &c., backwards and forwards, and in any rotation, upon goods, and upon the body, tackle, &c., on thirty boats, as per margin of the policy," &c. The policy proceeded—"The said ship, &c., goods and merchandises, &c., for so much as concerns the assured, are and shall be (here the printed words 'valued at' were struck out) 12,000*l*., on goods, as interest may appear hereafter, to pay average on each package or description, as if separately insured, &c., the claim on this policy warranted not to exceed 100*l*. per cent." At the bottom of the policy was written "3,000*l*. only to be covered by the policy in any one boat on any one trip."

The facts were that within the time limited in the policy one of the thirty boats mentioned in the margin of the policy had sunk in the canal, with 1,700*l*. worth of goods on board of her, which was the loss in respect of which the action was brought; and that at the time of the loss every one of the thirty boats named in the margin had carried goods to the amount of 12,000*l*. and upwards, so that about 360,000*l*. worth of goods had been carried to and fro by the boats named in the policy between the commencement of the risk and the loss in question.

Under these circumstances the underwriters contended:—

1. That as soon as goods to the amount of 12,000*l*. had been carried by all the boats, or, at all events, by each boat, the policy was exhausted.

2. That, supposing the policy not to be so limited, still the underwriters were liable only for that proportion of the loss which 12,000*l*., the sum insured, bore to the whole amount of the goods carried by all the boats during the year for which the policy was effected (say 360,000*l*.); for that must be taken as the whole insurable interest of the assured.

The Court, however, as to the first point, held that it was

plainly inconsistent with the object of the policy and the real nature of the transaction, which was "in effect equivalent to a fresh insurance taking place at the time when each boat started, and governing all that were then afloat,—only that instead of a renewed insurance the object was attained by a continuing policy." As to the mode of calculating the indemnity, the Court held that the whole value of the goods afloat at the time of the loss must be taken, and the plaintiffs recover such a proportion of the loss as 12,000*l*. might bear to the value of all the property on board all the boats at the time of the accident, supposing that value to exceed 12,000*l*.; if not, then the plaintiffs would be entitled to the whole amount lost (*e*).

Sect. 367.

The true measure, therefore, of the insurable interest in such a policy is the amount at risk at the time of the loss (*f*).

Joyce v. Kennard.

368. In another case, the policy being differently framed, and indeed not properly a marine policy at all, there was a different result. The policy, an ordinary Lloyd's policy, was "lost or not lost at and from all or any of the wharves, banks, quays and places of arrival and departure in the river Thames, and any merchant or steam vessel of any description therein, comprising the whole extent of the said river, from Wandsworth downwards to the Victoria Docks, including all or any intermediate docks and wharves, and *vice versâ* until on board any merchant or steam vessel, barge or boat, or otherwise landed at any wharf, &c. The risk to commence on the 25th September, 1869, and to terminate on the 24th September, 1870, including both days, upon any kind

(*e*) Crowley *v.* Cohen (1832), 3 B. & Ad. 478. The same principle was laid down by Story, J., in a similar case in the United States. See Columbian Ins. Co. *v.* Catlett (1827), 12 Wheaton, 383; 2 Phillips, s. 1228.

(*f*) Where the master of a ship had insured his effects by a time policy, Pickford, J., held that the policy covered all his effects at the time of the loss, including the clothes and watch which he was at that time wearing on shore: Anstey *v.* Ocean Mar. Ins. Co. (1913), 19 Com. Cas. 8.

Sect. 368.

of goods and merchandise in craft of every description, &c. The ship, and goods, and merchandise, &c., by agreement, &c., are and shall be valued at on all goods and produce as interest may appear." The sum stated in the margin was 2,000*l.* At the bottom of the policy was written as follows:—"To cover and include all losses, damages, and accidents, amounting to 20*l.* and upwards, in each craft, to goods carried by Messrs. Joyce, as lightermen, or delivered to them to be waterborne, either in their own or other craft, and from (*sic*) which losses, damages, and accidents, Messrs. Joyce may be liable or responsible to the owners thereof, or others entrusted. It is agreed that the amount of each underwriter's liability shall not exceed the amount of his subscription." The defendants underwrote this policy for 100*l.*

During the continuance of the risk in this policy, a loss, damage, or accident, within the meaning of it, had occurred to goods loaded on board one of the assured's craft, called the "Lord Cardigan," to the amount of 1,100*l.*, for which the assured were liable to the owners thereof and which they had paid. The total value of the goods at the time on board the "Lord Cardigan" was 2,906*l.*, and the total value of the goods on board that and the other barges at the same time was 20,000*l.* and upwards.

The Court said this was not an ordinary marine policy, but a policy of a mixed nature, by which the defendant indemnified the plaintiffs against any liability to the extent of the sum underwritten, which they might incur, as carriers, to the owners of the goods entrusted to them. It was, therefore, held, on the language of the policy, that the defendant was liable for the full amount underwritten by him (*g*).

Cunard SS. Co. *v.* Marten.

In another case (*h*) the plaintiffs, having agreed to carry a cargo of mules under a contract without a negligence clause,

(*g*) Joyce *v.* Kennard (1871), L. R. 7 Q. B. 78. See also Ursula Bright SS. Co. *v.* Arnsinck (1902), 115 Fed. R. 242.

(*h*) Cunard SS. Co. *v.* Marten, [1902] 2 K. B. 624; [1903] 2 K. B. 511.

Sect. 368.

effected an insurance with the defendant against "liability of any kind to owners of mules up to 20,000*l.*, owing to the omission of the negligence clause in contract." The insurance was made by the ordinary form of Lloyd's policy, and Walton, J., and the Court of Appeal held that it was not a policy on the mules, but a contract of indemnity under which the plaintiffs were entitled to recover in full any loss, up to 20,000*l.*, which they might incur.

Holman *v.* Merchants' Mar. Ins. Co.

In a recent case (*i*) a vessel, which was insured by ordinary policies for 39,000*l.* and valued therein at the same sum, was further insured by an increased value policy for 1,855*l.* The latter policy was stated to be "upon increased value of hull, machinery, &c.," and contained a marginal clause which declared that the insurance was against the risks of total loss and was "to include also any liability which may attach to the shipowner in consequence of the hull and machinery being valued for contribution to general average or salvage charges at more than the insured valuation. . . ." During the currency of the policy the shipowner became liable in respect of salvage services and general average expenditure for a total sum exceeding 13,000*l.*, but by reason of the valuation of the vessel in the salvage action and her contributory value in the general average adjustment both largely exceeding 39,000*l.*, the amount which he recovered under the ordinary policies was only 8,260*l.* It was contended for the assured, on the authority of Joyce *v.* Kennard and Cunard SS. Co. *v.* Marten, that the policy was a contract of indemnity against liability and that he was entitled to recover the full amount of the insurance; but Sankey, J., held that the policy was only an insurance on the *res* with the ordinary ancillary clauses, and that the insurers were only liable for the excess amounts of the salvage and general average in the proportions which 1,855*l.* have to the total excess valuation and the total excess contributory value respectively.

(*i*) Holman *v.* Merchants' Mar. Ins. Co., [1919] 1 K. B. 383.

Sect. 368a.

Measure of indemnity in insurances against liabilities.

368a. Sect. 74 of the Marine Insurance Act, 1906, declares that—

> Where the assured has effected an insurance in express terms against any liability to a third party, the measure of indemnity, subject to any express provision in the policy, is the amount paid or payable by him to such third party in respect of such liability.

The preceding section affords some examples of insurances against liabilities. Other express insurances against liabilities are contained in the suing and labouring clause and the running-down clause, which will be discussed hereafter (*k*).

General provisions as to measure of indemnity.

A general provision of the Act which has some bearing on the valuation of insurable interests is contained in sect. 75, as follows:—

> (1) Where there has been a loss in respect of any subject-matter not expressly provided for in the foregoing provisions of this Act, the measure of indemnity shall be ascertained, as nearly as may be, in accordance with those provisions, in so far as applicable to the particular case.
>
> (2) Nothing in the provisions of this Act relating to the measure of indemnity shall affect the rules relating to double insurance, or prohibit the insurer from disproving interest wholly or in part, or from showing that at the time of the loss the whole or any part of the subject-matter insured was not at risk under the policy.

(*k*) See Vol. II. §§ 792 *et seq.*, §§ 864 *et seq.*

CHAPTER XIV.

THE VOYAGE INSURED.

SECT.

The Voyage insured distinguished from the Voyage of the Ship ... 369
Deviation and Change of Voyage 370, 371
Description of the Voyage insured ..... 372—375

Of the voyage insured, and the voyage of the ship. Difference between time and voyage policies.

369. USUALLY the risk undertaken by the underwriter is defined by certain limits of time or certain points of locality specified in the policy as the limits or termini of the risk (*a*). When the risk is limited by time, the policy is called a time policy; when by local termini, it is called a voyage policy (*b*).

Termini of a voyage policy.

In voyage policies, of which we are now treating, the *terminus a quo*, or place at which the risk commences, is usually, in the common policies on ship, the port of departure; in the common policies on goods, the port of loading, which frequently, but not necessarily, is the same place. The *terminus ad quem*, or point at which the risk ends, is the port of the ship's destination, or the port or ports of the cargo's discharge.

The voyage insured.

That which is limited or described in the policy, by these termini, is the voyage insured (*viaggium*); a technical term, which must be carefully distinguished from the actual voyage of the ship (*iter navis*) (*c*). The distinction is important.

The voyage insured (*viaggium*) is a transit at sea from the *terminus a quo* to the *terminus ad quem* in a prescribed course

(*a*) 2 Emerigon, c. xiii. p. 39; 2 Benecke, System des Assecuranz, c. viii. p. 203, ed. 1807.

(*b*) Mar. Ins. Act, 1906, s. 25 (1), *ante*, § 9.

(*c*) Casaregis, Disc. 67, No. 31, as cited 2 Emerigon, c. xiii. s. 5, p. 60.

Sect. 369. of navigation (*iter viaggii*), which is never set out in any policy, but virtually forms part of all policies, and is as binding on the parties thereto as though it were minutely detailed.

The voyage of the ship.

The voyage of the ship (*iter navis*) is the course of navigation on and in which the ship actually sails.

If the ship, in fact, sails in the prescribed course from the *terminus a quo* to the *terminus ad quem*, the voyage of the ship and the voyage described in the policy are identical.

Deviation.

370. If the ship, without entirely abandoning the prosecution of the voyage described in the policy (*viaggium*), yet voluntarily, and without justifying cause, departs from the prescribed course of that voyage (*iter viaggii*), this is a deviation, and the underwriter is liable for no loss occurring after the point (frequently called the dividing point) at which the ship first quits the prescribed course (*d*).

Abandonment, or change of voyage.

If the ship either originally sail on a different voyage from that described in the policy, or if, after sailing, she entirely abandons all intention of prosecuting the voyage described in the policy, this is an abandonment or change of voyage, which avoids the policy from the moment the intention of so abandoning it is definitely formed (*e*); for it is an elementary principle in this branch of insurance law that the underwriter cannot be liable for a loss which does not take place in the course of prosecuting the very voyage described in the policy (*f*).

Illustrations of the distinctions between— the voyage insured and the voyage of the ship.

371. The following simple illustrations may serve to place these distinctions in a clearer point of view:—

1. As to the voyage insured, and the voyage of the ship.

(*d*) Mar. Ins. Act, 1906, s. 46, *post*, § 376.

(*e*) Mar. Ins. Act, 1906, ss. 43, 44, 45, *post*, § 380. The learned author of this work used the terms "change" and "abandonment" of voyage indifferently, as applicable in either case. In the Mar. Ins. Act "change of voyage" denotes only an abandonment thereof after the risk has attached; see sect. 45 (1). No special term is used to describe the abandonment of the voyage before the risk has attached.

(*f*) Roccus, No. 18, cited 2 Emerigon, c. xiii. p. 39.

Sect. 371. Suppose the ship to sail under a charter-party on a voyage from London to Sydney and back; a merchant who expects goods to be sent by her on her homeward voyage from Sydney to London, effects a policy on them on board the ship for a voyage "at and from Sydney to London": in this case, the voyage of the ship is the round voyage from London to Sydney, out and home: the voyage insured, or rather (for this is the more accurate mode of expression) the voyage on which the subject is insured, is only the home voyage from Sydney to London.

2. As to deviation and abandonment or change of voyage.

Between a deviation and change of voyage.

A ship insured on a voyage from London to Cadiz, sails from London with the intention of proceeding, not to Cadiz, but to Jamaica, or after sailing some distance with an intention of proceeding to Cadiz, changes that intention, and resolves to proceed to Jamaica.

In either case, as the voyage insured ceases to exist directly the purpose of prosecuting it is finally abandoned, any loss which may accrue afterwards does not take place in the course of prosecuting the voyage described in the policy; that is, not under those conditions on which the underwriter agreed to be responsible: the assured, therefore, ceased to be protected by the policy from that time (*g*). Even though, in the case supposed, the loss may take place while the ship is still sailing on the common course which leads indifferently either to the original *terminus ad quem* (Cadiz), or the substituted port of destination (Jamaica), yet the underwriter is equally freed from liability, for the voyage insured is broken up, not by altering its course, but by altering its termini (*h*).

Again, supposing the ship to have been insured (say from London to Jamaica), and the prescribed or customary course

(*g*) 3 Boulay-Paty, Droit Mar. tit. x. s. 9, p. 415.

(*h*) Si avant le départ, la destination était changée, le voyage sera rompu et l'assurance sera nulle, *etiamsi intra limites itineris destinati navis se contineat*. Casaregis, Disc. 67, No. 24; 2 Emerigon, c. iii. s. 11, p. 82; confirmed by Woolridge *v.* Boydell (1778), 1 Dougl. 16; Way *v.* Modigliani (1787), 2 T. R. 30.

Sect. 371.

of such voyage to be to sail to the south of St. Domingo, instead of which the ship, without any clause in the policy permitting her so to do, or without any necessity, or justifying excuse, sails to the north of that island: this is a deviation. Here the course actually taken by the ship (*iter navis*) differs from the prescribed course of the voyage insured (*iter viaggii*); the risk run is different from that which the underwriter agreed to take upon himself; and he is, therefore, liable for no loss that takes place after the ship has passed the dividing point at which the track to Jamaica by the south of St. Domingo branches off from that by the north (*i*).

Description of the voyage insured in the policy.

372. The voyage insured must be accurately described in a voyage policy; that is, the local limits of the risk, the *terminus a quo,* or port where the voyage is to commence, and the *terminus ad quem*, or port where it is to conclude, must be each of them specified in the policy, which will be vitiated by any material failure in this respect (*k*). Thus, if the *terminus ad quem* or port of ultimate destination be left in blank, even though this were done for the purpose of deceiving the enemy, and private instructions were given to the captain as to the port for which the ship was really destined, the policy is nevertheless void (*l*).

How the limits of the termini must be ascertained.

Where there is any doubt as to the precise mercantile limits of any place named in the policy, as one of the termini of the voyage, such doubt, as we have already seen, must be cleared up by the evidence of mercantile men (*m*).

(*i*) The whole subject of deviation and abandonment of voyage will be considered more at length in the next chapter; meanwhile the attention of the student may be directed to the thirteenth chapter of Emerigon's great work, an admirably arranged magazine of legal learning and accurate thought. Boulay-Paty, in his Cours de Droit Mar. vol. iii. tit. x. s. 9, has done little more than copy his distinguished predecessor.

(*k*) A terminus may, however, be described in general terms, as "at and from her port of loading" within a specified area, or "to any port in the Baltic," as in Uhde *v.* Walters (1811), 3 Camp. 16.

(*l*) Stamp Act, 1891, s. 93; Molloy, book ii. c. 7, s. 14, cited 1 Marshall on Ins. 328.

(*m*) *Ante*, Chap. III., on the construction of the policy.

Sect. 372.

Thus, such evidence has been admitted to prove that the Gulf of Finland is, in the mercantile world, considered to be within the Baltic (*n*), and that Mauritius, although regarded by geographers as belonging to Africa, yet, in the common acceptation of mercantile men, is to be considered one of the East Indian Islands (*o*).

The proper course of the ship need not be described.

373. This description of the voyage insured by its termini is all that is necessary in the policy; it is not requisite, and in practice is never attempted to describe the track which the ship ought to take, for this, being fixed by general mercantile usage, is considered to be familiar to all mercantile men, and is as binding upon the parties to the policy as though it were inserted therein. The termini of the voyage insured must, however, be so clearly specified in the policy, that by means thereof, aided by a knowledge of the course of navigation prescribed by mercantile usage, both parties may know clearly when the subject of insurance will be within the protection of the policy.

Leave to touch at any place between the termini must be specially given.

Moreover, if it be desired that the ship should have the power of putting into any intermediate ports or places, the permission to do so must be clearly expressed in the policy by a clause in which the ports where, and the purposes for which, it is desired that the ship should have this power, must be accurately set forth. Of these clauses and their construction we shall treat at large elsewhere, and will here notice merely the more ordinary modes of describing the termini of the voyage insured.

Distinction between insuring "from" and "at and from" the *terminus a quo.*

374. As appears from the common printed form of policy, the voyage insured is in this country generally made to commence, not simply "from," but "at and from" the *terminus a quo*. The reason for this is, that, under an insurance simply from the *terminus a quo*, the voyage insured, and consequently the risk, does not commence until the ship

(*n*) Uhde *v.* Walters (1811), 3 Camp. 16.

(*o*) Robertson *v.* Clarke (1824), 1 Bing. 445. See note at the end of the report, p. 451, *ibid.*

Sect. 374.

actually sails on her voyage from that port; whereas, under the mode of insurance commonly adopted by virtue of the word "at" the ship is protected during the whole time that she is in the harbour of the *terminus a quo* preparing for the voyage insured (*p*).

Insurances for a round voyage.

375. Ships are very frequently insured in one policy and at one fixed premium for the round voyage out and home. In such cases the form generally adopted is to insure "at and from" the home port of loading "to" the out port of discharge, "and at and from" such out port (naming it), or "and at and from thence," back again to the home port or any other port of discharge which the parties may agree to name.

The voyage insured one and entire.

When the ship is thus insured for a voyage out and home, although she makes two separate passages (*itinera*), *i.e.*, from the home to the out port and then back again, yet the voyage insured (*viaggium*) is one and indivisible, and the underwriter is responsible for any loss that may happen in the whole course of its duration. The voyage insured is one, though the passages made by the ship are several.

This principle, which is incontestably established in the law of marine insurance, is thus expressed by Casaregis: *Falsum est omnino in casu nostro quod itus et reditus considerari debent pro diversis viagiis, sed pro unicâ tantum navigatione vel viaggio. Quia viaggium vel navigatio, cum sit nomen juris ac universale, potest complecti plura itinera* (*q*).

However complicated the voyage of the ship may be rendered by liberty given to touch and stay at intermediate ports, or by being broken up into a variety of successive stages, yet the voyage insured, if comprised between two specified termini and insured for one entire premium, is one

(*p*) Motteux *v.* London Ass. Co. (1739), 1 Atkyns, 545; Forbes *v.* Wilson (1800), 1 Marshall, Ins. 148; 1 Park, 472.

(*q*) Disc. 67, No. 28, cited 2 Emerigon, c. xiii. s. 3, p. 52. For an illustration of this in our own jurisprudence, see Bermon *v.* Woodbridge (1781), 2 Dougl. 781.

Sect. 375.

and indivisible (*r*). Thus, where a ship was insured "at and from" Honfleur to the Coast of Angola, during her stay and trade there, at and from thence to her port or ports of discharge in St. Domingo, and at and from St. Domingo back again to Honfleur, at a premium of 11 per cent., Lord Mansfield and the Court of King's Bench determined, on great consideration, that as the premium here was entire and indivisible, so it was one voyage and one entire risk (*s*).

(*r*) 2 Emerigon, c. xiii. s. 3, p. 52.

(*s*) Bermon *v.* Woodbridge (1781), 2 Dougl. 781.

CHAPTER XV.

DEVIATION AND CHANGE OF RISK (*a*).

	SECT.
The general Doctrine of Deviation	376—379
Change of Voyage	380—389
Deviation—	
Without License Clauses	390—397
In relation to License Clauses	398—411
By Delay	412—417
By Cruising	418—424
Causes which justify a Deviation	424a—435

Of the general doctrine of deviation.

376. In almost all voyages, as we have already seen, experience and usage have prescribed a certain course of navigation, as the safest, directest, and most expeditious mode of proceeding from one of the termini to the other. The course thus prescribed is the lawful course of the voyage insured: and, being a matter of general mercantile notoriety, is presumed to have been contemplated by the parties to the policy at the time of entering into their contract, and is, therefore, considered as much to form part of the policy, as though it were in express terms set forth therein.

An implied condition of the policy that there shall be no deviation.

In every contract of insurance by a voyage policy, the meaning of the parties is, in law, taken to be that the assured shall enjoy the protection of the policy, only as long as he strictly pursues this regular course of the voyage insured, and carries it on to its termination with all safe, convenient, and practicable expedition (*b*). It is only upon this condition,

(*a*) The subject of this chapter affects voyage policies only. In a case on a fire policy on a ship while in a dock, it was suggested by Blackburn, J., that a departure from the prescribed locality would only suspend the risk until the ship returned to the locality—not terminate it, as in the case of a voyage policy. Pearson *v.* Commercial Union Ass. Co., in the Ex. Ch. (1873), L. R. 8 C. P. 548, 549; *S. C.*, in the House of Lords (1876), 1 App. Cas. 498.

(*b*) 3 Kent, Com. 312.

Sect. 376.

never expressed, but universally implied, that the underwriter agrees to indemnify the assured; any failure, therefore, to comply with it, alters the nature of the risk which the underwriter has assumed, and frees him from liability for subsequent loss (*c*). This tacit understanding not to depart from the lawful course of the voyage insured is technically called an implied condition not to deviate (*d*).

Implied condition that there shall be no delay.

This implied condition extends as well to the time in which the voyage insured ought to be completed, as to the track or course of navigation by which it ought to be pursued. The understanding implied in the contract between the parties is not only that the ship, in sailing between the termini of the voyage insured, shall follow the course which custom has prescribed; but also that she shall commence and complete the voyage with that reasonable expedition which the underwriter has a right to expect (*e*).

Mar. Ins. Act, s. 42.

The law on this subject is thus stated in sects. 42, 46, 47 and 48 of the Marine Insurance Act, 1906:—

Delay in attachment of risk.

> Sect. 42.—(1) Where the subject-matter is insured by a voyage policy "at and from" or "from" a particular place, it is not necessary that the ship should be at that place when the contract is concluded, but there is an implied condition that the adventure shall be commenced within a reasonable time, and that if the adventure be not so commenced the insurer may avoid the contract.
>
> (2) The implied condition may be negatived by showing that the delay was caused by circumstances known to the insurer before the contract was concluded, or by showing that he waived the condition (*f*).

(*c*) 2 Emerigon, c. xiii. s. 16, p. 98. For the effect of a deviation on a fire policy on a ship, see n. (*a*), *ante*.

(*d*) Cf. 2 Emerigon, c. xiii. s. 15, p. 94; 2 Benecke, System des Assecuranz c. viii. s. 2, p. 234; 3 Kent, Com. 312. The language of Emerigon is marked with all his usual terseness and perspicuity. "Le navire change de route lorsqu', au lieu de suivre la voie usitée, il en prend une différente, sans perdre toutefois de vue l'endroit de sa destination"; *loc. cit.* Phillips defines deviation in more comprehensive terms, as "the enhancing or varying from the risks insured against." 1 Phillips, s. 977.

(*e*) 3 Kent, Com. 315.

(*f*) As to delay in the commencement of the risk, see *post*, §§ 479, 483.

Sect. 376.

Sect. 46. Deviation.

Sect. 46.—(1) Where a ship, without lawful excuse, deviates from the voyage contemplated by the policy, the insurer is discharged from liability as from the time of deviation, and it is immaterial that the ship may have regained her route before any loss occurs.

(2) There is a deviation from the voyage contemplated by the policy—

(a) Where the course of the voyage is specifically designated by the policy, and that course is departed from; or

(b) Where the course of the voyage is not specifically designated by the policy, but the usual and customary course is departed from.

(3) The intention to deviate is immaterial; there must be a deviation in fact to discharge the insurer from his liability under the contract.

Sect. 47. Order of ports of discharge.

Sect. 47.—(1) Where several ports of discharge are specified by the policy, the ship may proceed to all or any of them, but in the absence of any usage or sufficient cause to the contrary, she must proceed to them, or such of them as she goes to, in the order designated by the policy. If she does not there is a deviation (*g*).

(2) Where the policy is to "ports of discharge," within a given area, which are not named, the ship must, in the absence of any usage or sufficient cause to the contrary, proceed to them, or such of them as she goes to, in their geographical order. If she does not there is a deviation (*h*).

Sect. 48. Delay in voyage.

Sect. 48. In the case of a voyage policy, the adventure must be prosecuted throughout its course with reasonable despatch, and, if without lawful excuse it is not so prosecuted, the insurer is discharged from liability as from the time when the delay became unreasonable (*i*).

(*g*) See *post*, §§ 394, 395.

(*h*) See *post*, § 393.

(*i*) Hitherto the word "deviation" has in legal language been used to include delay. See Hartley *v.* Buggin (1781), 2 Park, Ins. 652; 3 Dougl. 39; and Company of African Merchants *v.* British and Foreign Mar. Ins. Co. (1873), L. R. 8 Ex. 154, where it was held that delay was covered by a plea of deviation. See also Hyderabad (Deccan) Co. *v.* Willoughby, *infra;* Thames & Mersey Mar. Ins. Co. *v.* Van Laun, [1917] 2 K. B. 48, note, followed in Hood *v.* West End Motor Car Packing Co., [1917] 2 K. B. 38 (C. A.). As the word "deviation" in its proper sense implies the idea of space or locality, it is an unhappy

Sect. 376. Deviation clause.

A clause by which the underwriter agrees to hold the assured covered in case of deviation, or of change of voyage, at an extra premium, is now commonly inserted in policies (*k*), and is one of the Institute Clauses (*l*). Such a clause, though it provides that notice must be given of a deviation, can be invoked after a loss (*m*); and where the clause stipulated that due notice should be given on receipt of advice of a deviation, and the assured, knowing that his ship had been lost, only gave notice many months later, Hamilton, J., thought that as nothing could have been done on receipt of the notice, it was given sufficiently early (*n*). Even when the clause does not expressly require notice to be given, it has been held by the House of Lords that it is an implied term of the contract that notice shall be given within a reasonable time after the assured has been advised of the deviation (*o*).

Sect. 31 (2) of the Marine Insurance Act, 1906, provides that—

> Where an insurance is effected on the terms that an additional premium is to be arranged in a given event, and that event happens but no arrangement is made, then a reasonable additional premium is payable.

use of the term to make it cover delay, which refers to time; and there is no need for the fiction that an unjustifiable delay amounts to a deviation. In the Mar. Ins. Act, 1906, deviation is not defined as including delay.

(*k*) See Hyderabad (Deccan) Co. *v.* Willoughby, [1899] 2 Q. B. 530; Simon, Israel & Co. *v.* Sedgwick, [1893] 1 Q. B. 303, *post*, § 380, n. (*d*), § 387; Maritime Ins. Co. *v.* Stearns, [1901] 2 K. B. 912. It is apprehended, notwithstanding that in the Mar. Ins. Act of 1906 the term "deviation" does not cover delay, that the term ought in the deviation clause still to be construed, as in Hyderabad (Deccan) Co. *v.* Willoughby, and in Thames & Mersey Mar. Ins. Co. *v.* Van Laun, [1917] 2 K. B. 48, note, to cover delay, in accordance with its well-established legal meaning. See note (*i*), *supra*.

(*l*) See Institute Voyage Clauses, Appendix B.

(*m*) Greenock SS. Co. *v.* Maritime Ins. Co., [1903] 1 K. B. 367, 374; Mentz, Decker & Co. *v.* Maritime Ins. Co., [1910] 1 K. B. 132; 15 Com. Cas. 17.

(*n*) Mentz, Decker & Co. *v.* Maritime Ins. Co., *supra*. *Sed quære:* see Thames & Mersey Mar. Ins. Co. *v.* Van Laun, *infra*.

(*o*) Thames & Mersey Mar. Ins. Co. *v.* Van Laun, [1917] 2 K. B. 48, note. The House of Lords held that a notice given fourteen days after receipt of information was not given within a reasonable time. See also Hood *v.* West End Motor Car, &c. Co., [1917] 2 K. B. 38.

Sect. 376.

The additional premium ought to be such as it would have been reasonable to charge at the time of the deviation or change of voyage, if the parties had then been aware of it (*p*).

Not necessary that risk should be increased.

377. It is not necessary to prove that the risk has been enhanced by the delay, or deviation. The underwriter only undertakes to indemnify the assured upon the implied condition, that the risk shall remain precisely the same, as it appears to be on the face of the policy, as interpreted by usage. Directly, by the act of the assured or his agents, this risk is in any degree varied, even though it be not increased, the underwriter's liability ceases by the breach of the condition on which alone he engaged to be liable: it is on this ground that every voluntary and unnecessitated departure from the prescribed course of the voyage, by which the risk is varied, has been held to be a deviation, whether the risk be thereby increased or not (*q*).

The loss need not be connected with the deviation.

On the same principle it was held not to be necessary, in order to discharge the underwriter, that the subsequent loss should be shown to be in any, even the remotest, degree connected with the prior deviation; the ship after the deviation may have returned in perfect safety to the direct course of the voyage, without having sustained the slightest injury in consequence of her departure from it; and yet on the ground that the risk incurred was thereby varied from the risk insured, the underwriter was held to be discharged from his liability for any loss subsequent to the deviation (*r*).

Deviation does not avoid the policy *ab initio*.

378. Deviation does not, however, like unseaworthiness, discharge the underwriter from liability on the policy, *ab initio*; he still remains liable for all loss incurred prior to the

(*p*) See Greenock SS. Co. *v.* Maritime Ins. Co., [1903] 1 K. B. at p. 375; Mentz, Decker & Co. *v.* Maritime Ins. Co., [1910] 1 K. B. at p. 135.

(*q*) Hartley *v.* Buggin (1781), 3 Dougl. 39, Lord Mansfield's judgment.

(*r*) Elliot *v.* Wilson (1776), 4 Br. Pr. Cas. 470; Davis *v.* Garrett (1830), 6 Bing. 716. See the principle expounded by Lord Campbell, C. J., in Thompson *v.* Hopper (1856), 6 E. & B. 948; 26 L. J. Q. B. 22.

Sect. 378.

deviation. The reason is, that the implied condition of seaworthiness relates to the state of the ship at the commencement of the risk, and is a condition precedent to the underwriter's liability on the policy; the implied condition not to deviate relates to the conduct of the ship in the course of the voyage, and cannot by relation be carried back, so as to exempt the underwriter from liabilities incurred prior to its being broken (*s*).

Intention to deviate does not discharge the underwriter.

There must, as we have already seen, be an actual deviation, in order to discharge the underwriter; a mere intention to deviate, never executed, is not sufficient (*t*).

The deviation must be voluntary.

Moreover, the departure from the usual course of the voyage must be voluntary, in order to make it a deviation (*u*); but it will be considered voluntary if it take place through the gross ignorance of the captain (*x*).

Notice to underwriter of intended deviation.

379. As the description of the voyage by its termini implies the condition that the regular course of the voyage will be pursued, it seems to follow that notice to the underwriter of an intention to depart from the usual course (no liberty to do so being given by the policy) will not prevent the underwriter from maintaining that such departure is a deviation from the voyage insured (*y*).

No implied waiver of a prior deviation.

It has even been held that if the underwriters insure a ship for a voyage, after she has sailed on it, and after notice that

(*u*) Mar. Ins. Act, 1906, s. 49 (1) (b), *infra*, §§ 424a, 425.

(*x*) Phyn *v.* Royal Exch. Ass. Co. (1798), 7 T. R. 505.

(*y*) It has been held in the Court of Appeal that under a bill of lading contract it is a deviation to proceed to a port out of the regular course of the voyage, though notice of an intention to do so was given to the shipper of goods at the time when the bill of lading was given. Leduc *v.* Ward (1888), 20 Q. B. D. 475. Phillips considers that the underwriter ought not to be allowed to set up the defence of deviation, on the ground that it would be a palpable fraud on his part to subscribe and receive the premium, intending at the same time to avoid payment of a loss by alleging a deviation represented to be intended. 1 Phillips, s. 1041.

Sect. 379. she has already deviated from its course, they will be discharged by the deviation from any subsequent loss (*z*).

Distinction between a deviation and abandonment of voyage.

† 380. The definition of what constitutes deviation requires that it should be distinguished from what is called abandonment or change of voyage. The great distinction between a deviation and a change or abandonment of voyage is, that in the former the original voyage, as described in the policy, is not given up or lost sight of, while in the latter it is.

† "A deviation," says Chancellor Kent, "is not a change of the voyage, but of the proper and usual course of performing it. The voyage insured is never lost sight of in cases of deviation, actual or intended. If, however, the original place of destination be abandoned, in order to get to another port of discharge, the voyage itself becomes changed, because one of the termini of the voyage is changed. The identity of the voyage is gone, and a new and distinct voyage is substituted" (*a*).

Provisions of Mar. Ins. Act as to abandonment of voyage.

The results of the abandonment of the insured voyage are thus stated in sects. 43, 44 and 45 of the Marine Insurance Act, 1906:—

Alteration of port of departure.

> Sect. 43. Where the place of departure is specified by the policy, and the ship instead of sailing from that place sails from any other place, the risk does not attach.

(*z*) Redman *v.* Loudon (1814), 3 Camp. 503; *S. C.*, 5 Taunt. 462; 1 Marshall, R. 136. The contrary has been ruled in the United States. Coles *v.* Marine Ins. Co. (1812), 3 Wash. C. C. R. 159. Phillips supports the American decision. See 1 Phillips, s. 1041. Maclachlan agrees with the English decision, but seems to suggest that the policy might be rectified. Arnould, 6th ed. vol. i. p. 452. As to rectification, see *ante*, § 41.

(*a*) In New York Firem. Ins. Co. *v.* Lawrence (1816), 14 Johnson's R. 46, and 3 Kent, Com. 317. The editors submitted, in the seventh edition of this work, that even though the intention of ultimately proceeding to the *terminus ad quem* of the voyage be not given up, the departure from the usual course may be so great that the voyage is really different from that described in the policy. This seems to be the view of Parsons (Ins. vol. ii. p. 41), of Phillips (vol. i. s. 992), and of Buller, J., in Way *v.* Modigliani (1787), 2 T. R. 30, 32, and perhaps of Arnould himself. See *post*, § 382, note (*n*). Sect. 45 of the Mar. Ins. Act, 1906, however, seems to make the change of destination the only test of a change of voyage.

Sect. 380.

Sailing for different destination.

> Sect. 44. Where the destination is specified in the policy, and the ship, instead of sailing for that destination, sails for any other destination, the risk does not attach (*b*).

Change of voyage.

> Sect. 45.—(1) Where, after the commencement of the risk, the destination of the ship is voluntarily changed from the destination contemplated by the policy, there is said to be a change of voyage.
>
> (2) Unless the policy otherwise provides, where there is a change of voyage, the insurer is discharged from liability as from the time of change, that is to say, as from the time when the determination to change it is manifested; and it is immaterial that the ship may not in fact have left the course of voyage contemplated by the policy when the loss occurs.

Definition of a change of voyage.

As we have already pointed out (*c*), the expressions "change" and "abandonment" of voyage have commonly been used indifferently when, either before or after the commencement of the risk, the assured abandons all thought of proceeding to the port of destination originally prescribed by the policy. In the Marine Insurance Act, 1906, however, the term "change of voyage" is only used to denote an abandonment of the voyage after the risk has attached, and it is now, therefore, advisable to use it in this restricted sense. For this restricted use there was some authority before the Act (*d*).

(*b*) It is submitted that in the case of a policy "at and from" a place, sect. 44 must be read together with sect. 45, *i.e.*, if the voyage was abandoned after the time when, according to ordinary principles, the risk has commenced "at" the *terminus a quo*, the case is one of change of voyage. Consequently the underwriter is liable for any loss which may have occurred "at" the *terminus a quo* before the voyage was changed, and the assured is not entitled to a return of premium, as he would be if the case were governed by sect. 44.

(*c*) *Ante*, § 370, note (*e*).

(*d*) See Simon, Israel & Co. *v.* Sedgwick (C. A.), [1893] 1 Q. B. 303, in which case a clause holding the assured covered at an extra premium in case of "change of voyage," was held to be inoperative where the ship sailed for a *terminus ad quem* other than that mentioned in the policy. So also, in Maritime Ins. Co. *v.* Stearns, [1901] 2 K. B. 912, Mathew, J., held that "change of voyage" in the deviation clause did not cover delay in the attachment of the risk.

Sect. 380.

There is, however, no necessity to limit the use of the term "abandonment of the voyage," which may with propriety be employed, whether the voyage was given up before the risk could attach or after its attachment.

Effect of change or abandonment of voyage.

The effect of an abandonment of the voyage is to discharge the underwriter from all liability on the policy from the moment the purpose of so abandoning the voyage is definitely formed (*e*). Hence, if the purpose be fixed before the commencement of the risk, the policy is void *ab initio*, and the risk never attaches; if it be not formed till after the risk attaches, the underwriter is discharged from all liability for losses which may accrue subsequently to its having been formed, although such loss may take place while the ship is still on the track common both to the voyage insured and to that which is substituted for it (*f*).

Definition of an intention to deviate.

An intention to deviate, on the other hand, may be defined to be a purpose to depart from the true course of the voyage without giving up the design of ultimately proceeding to the *terminus ad quem;* however decisively such an intention may be formed, yet the underwriter remains liable for all loss incurred prior to its being actually carried into effect; *i.e.*, as long as the vessel is on the direct course of the voyage insured, and before she has reached the dividing point (*g*).

(*e*) So Arnould, 2nd ed. vol. i. p. 397. The Marine Insurance Act, 1906, s. 45 (2), uses the word "manifested."

(*f*) See 2 Emerigon, c. xiii. ss. 11 and 14, pp. 82, 92. Both the sections here referred to must be consulted in order to discover that the French law is identical with ours on the present subject. In the former of these sections the learned author discusses what he calls "*le voyage rompu avant le départ;*" in the second "*le voyage changé.*" See also 2 Benecke, System des Assecuranz, 314—325. In the United States the Court of Errors, in a case of N. Y. Firemen's Ins. Co. *v.* Lawrence (1816), 14 Johns. 46, reversing the decision below, held that the voyage was changed from the moment the master had determined upon a new destination, although he had not entered upon the altered route when his ship was captured. 1 Phillips, s. 966, where the author offers reasons against the decision.

(*g*) See Woolridge *v.* Boydell (1778), 1 Dougl. 16 (*a*); Thellusson *v.* Fergusson (1780), 1 Dougl. 361; Kewley *v.* Ryan (1794), 2 H. Bl. 343.

Sect. 381.

Cases illustrating difference between abandonment of voyage and intention to deviate. Woolridge *v.* Boydell.

381. The following case well illustrates the difference between an abandonment of the voyage and an intention to deviate:—A ship, insured "from Maryland to Cadiz," cleared out for Falmouth, in this country, gave bonds to land her cargo in Great Britain, and sailed with the intention of making Falmouth her port of destination: she was captured while on the common course both to Falmouth and Cadiz. It was contended that this was a mere case of intended deviation. The Court, however, said that it was a change of voyage; that on which the vessel sailed was different from the voyage insured, and they accordingly held the underwriter not to be liable for the loss, though it had taken place before the ship passed the dividing point (*h*). Lord Mansfield thus distinguished the case from that of an intended deviation:—"In all cases of that sort the *terminus a quo* and *ad quem* are certain and the same; but in the present case the *terminus ad quem* has been altered, for there was no intention of going into Cadiz at all."

Cases of intended deviation.

On the other hand, the principle that, if the *terminus ad quem* be not abandoned, a mere intention to deviate, not carried into effect, still leaves the underwriter liable for all loss that takes place before the ship has passed the dividing point, is illustrated by the following cases (*i*):—

Thellusson *v.* Fergusson.

The master of a vessel insured "from Guadaloupe to Havre" had, in pursuance of his instructions, formed the intention of sailing first to Brest, as the safest way, in time of war, of getting to Havre, which latter place still continued the port of the ship's ultimate destination; this was held to be a mere intention to deviate, leaving the underwriter liable for the loss of the ship before she had reached the dividing point at which the course to Brest diverges from that to Havre (*j*).

(*h*) Woolridge *v.* Boydell (1778), 1 Dougl. 16 (*a*).

(*i*) Foster *v.* Wilmer (1746), 2 Str. 1249; Carter *v.* Royal Exch. Ass. Co., cited *ibid.;* Thellusson *v.* Fergusson (1780), 1 Dougl. 361; Kewley *v.* Ryan (1794), 2 H. Bl. 343; Heselton *v.* Allnutt (1813), 1 M. & S. 46; Hare *v.* Travis (1827), 7 B. & Cr. 15.

(*j*) Thellusson *v.* Fergusson (1780), 1 Dougl. 361. If the master

Sect. 381.

Kewley *v.* Ryan.

So, where a vessel insured from "Granada to Liverpool" took out clearances for Cork, at which place the master was instructed and intended to put in, though bound ultimately for Liverpool, and the ship was lost before reaching the dividing point, the Court held that the voyage continued the same; the design of putting into Cork being only an intention to deviate, which could not discharge the underwriter from the loss (*k*).

Hare *v.* Travis.

Goods were insured from Liverpool to London, but the master had taken in goods for Southampton, and did put in there. The Court held this a deviation which discharged the underwriters from subsequent loss, but not from loss occurring before the ship diverged from the course of her voyage to London in order to go into Southampton (*l*).

A ship driven by stress of weather into a port to which she intended to deviate.

Where a ship sailed with an intention to deviate by putting into an intermediate port, but before she turned off for that purpose was overtaken by a storm and driven into that very port, this was held no deviation, and of no effect on the underwriter's liability (*m*).

Test of distinction between intention to deviate and to abandon the voyage.

382. It is sometimes a matter of very nice discrimination to draw the line between an intention to deviate and an abandonment of the voyage; the test in all cases is whether the *terminus ad quem*, specified in the policy, remains the ultimate place of intended destination; if it does, then the design, though formed before sailing, of putting into any other port, or taking an intermediate voyage, in the way to such ultimate place of destination, does not amount to an abandonment of the voyage (*n*).

acted *bonâ fide* and reasonably for the purpose of avoiding capture, the insurance would have remained in force even after the ship left the direct course to Havre. See *post*, § 432.

(*k*) Kewley *v.* Ryan (1794), 2 H. Bl. 343.

(*l*) Hare *v.* Travis (1827), 7 B. & Cr. 14.

(*m*) Kingston *v.* Phelps (*circa* 1795), cited 7 T. R. 165; so held also in the United States, Hobart *v.* Norton (1829), 8 Pick. Mass. R. 159.

(*n*) Arnould's words were "does not necessarily amount to a change of voyage"; and the word "necessarily" suggests that he did not think the test mentioned in the text under all circumstances conclusive. See, however, the editors' note, *ante*, § 380.

Sect. 382.

Heselton *v.* Allnutt.

In one case, where the voyage insured was "from Heligoland to Memel," it appeared that the ship sailed with a preponderating purpose to proceed to Memel, but with orders to go into Gottenburg to learn whether it would be safer to proceed to Memel or to Anhalt; and the ship was afterwards captured in sailing from Heligoland to Gottenburg, while on the direct course both to Anhalt and to Memel. Lord Ellenborough held that there was only an intention to deviate to Gottenburg, and that the contingent purpose of going to Anhalt was not a change of voyage, and consequently that the underwriters were not discharged (*o*). His Lordship considered that, as the original port of destination had not been definitively abandoned, there had, in this case, been "a good inception of the voyage under a fluctuating purpose."

Thames & Mersey Mar. Ins. Co. *v.* Van Laun.

382a. In a case decided shortly before the Marine Insurance Act came into force, the House of Lords seem to have gone beyond the previous authorities in expressing the view that the insured voyage had been abandoned (*p*). The respondents had contracted to deliver a cargo of Australian cattle at a port in Northern China for the use of the German Government, though not by direct agreement with the Government, there being two intermediate contractors. The cattle under the contract were to be shipped in October; but the respondents only shipped them in November. In the bills of lading, Taku was made the port of delivery, and the master was given power, if Taku was unsafe by reason of ice, to land the cattle at any other safe port. The respondents effected two policies of insurance with the appellants on the cattle against mortality during transit. One policy was expressed to be from Australia "to the vessel's port or ports of discharge in China," and gave leave for the ship "to proceed and sail to and touch and stay at any ports or places whatsoever in the course of her said voyage for all necessary purposes." The

(*p*) Thames & Mersey Mar. Ins. Co. *v.* Van Laun (1905), now reported [1917] 2 K. B. 48 n. The editors' summary of the very complicated facts of the case is based on the policies and a verbatim transcript of Kennedy, J.'s, judgment at the trial.

Sect. 382a.

other policy was for a voyage from Australia "to China Ports"; it contained a similar license clause and an additional clause which gave liberty "to proceed to and call at any ports or places on this side and beyond the port of destination backwards and forwards for all purposes." On the 16th December, 1900, the vessel arrived at Wei-hai-Wei, where the master heard that Taku was blocked by ice. He was ordered by the assured to wait for further instructions. The German Government had previously intimated that in consequence of the delay in shipment they would not accept the cattle, and fruitless negotiations followed between all the parties concerned. At the same time the assured were also making inquiries as to the possibility of disposing of the cargo by sale afloat at Wei-hai Wei or at Vladivostok. On the 25th December the master, being in want of water, went to Chefoo. Legal proceedings having been taken in Germany, the Court on the 2nd January, 1901, authorized the sale of the cattle without prejudice to the rights of the parties, and on the 3rd the assured telegraphed to the master to proceed to Shanghai. The ship arrived at Woosung on the 6th, and was kept there by the agents of the assured until the 16th, when by the agents' order she was taken up to Shanghai and at once commenced to land the cattle. During all this time there was great mortality among the cattle, and on the 26th, owing to an outbreak of rinderpest, the authorities ordered their discharge to be stopped, and the cattle remaining on board to be thrown into the sea. The action having been brought to recover for the loss of the cattle, Kennedy, J., held that there was a deviation, by reason of the delay at Wei-hai-Wei while the assured were trying to find a way out of the financial complications in which they were involved and were discussing the feasibility of selling the cargo afloat or sending the cargo to Vladivostok or elsewhere. He considered, however, that there was no proof of such a formal or definite intention not to send the cargo to a Chinese port of destination as would amount to an abandonment of the insured voyage. On the ground of delay and other grounds the learned judge gave

Sect. 382a.

judgment for the defendants (*q*). This decision was reversed by the Court of Appeal (*r*), but was restored by the House of Lords. Lord Halsbury, L. C., said that there was a clear deviation, and that he would be prepared to find as a fact that the voyage was abandoned, and that the real object of keeping the master waiting for orders was to see whether the cattle could not be disposed of to greater advantage than by attempting to deliver them in pursuance of bills of lading. Lord Macnaghten and Lord James concurred in this judgment, and expressly stated that in their opinion the voyage had been abandoned. Lord Robertson also concurred in the Lord Chancellor's judgment. Lord Davey agreed with Kennedy, J., that there had been a deviation, and inclined, though less strongly than the other Law Lords, to the view that the detention of the ship at Wei-hai-Wei amounted to an abandonment of the voyage. "It is often a nice question on the facts," he said, "whether an interruption of the voyage amounts to a deviation only or is a change of voyage. The usual test is whether the ultimate *terminus ad quem* remains the same. In the present case it may be doubted whether the detention of the ship at Wei-hai-Wei and Chefoo, not for any purpose connected with or for the purposes of the voyage insured, but for the reason and under the circumstances disclosed by the evidence, did not amount to an abandonment of that voyage. It may be that Shanghai was a port to which the master might have taken the ship when he found that the port of Taku was ice-bound, but he went there and was, in fact, ordered to go there for a purpose different from that contemplated in the original voyage."

The Lords appear to have been of opinion, though without deciding the case on this ground, that as regards a policy on cargo, the abandonment of the intention to deliver the cargo under the bill of lading contract amounts to a change of voyage, although the assured has not given up the intention

(*q*) There is an epitome of his judgment in the Shipping Gazette, 2nd April, 1903.

(*r*) See Shipping Gazette, 10th Nov., 1903.

Sect. 382a.

of landing the goods at a port which is covered by the description of the *terminus ad quem* in the policy. For this proposition the Marine Insurance Act, 1906, does not afford any support. Section 45 of the Act, the only section which deals with the point, says that there is a change of voyage where after the commencement of the risk the destination of the ship is voluntarily changed from the destination contemplated by the policy—not the destination contemplated by the contract between the cargo-owner and the shipowner (*s*).

A forced intermediate voyage has no effect. Driscol *v.* Passmore.

383. The forced interposition of an intermediate voyage will not discharge the underwriters if there be no abandonment of the original adventure, but the ship be lost while prosecuting it (*t*).

A ship was insured on a round voyage "from Lisbon to Madeira, from Madeira to Saffi on the coast of Africa, in ballast, and thence back to Lisbon with a cargo of wheat," and an insurance on the freight of the wheat "from Saffi to Lisbon" was effected on a representation that the ship, which was then at Madeira, was about to pursue her voyage to Saffi immediately. Instead, however, of doing this, the captain was forced by his crew, alarmed by reports of Moorish cruisers, to take the ship back from Madeira to Lisbon. On his arrival at Lisbon the charterers insisted on his taking the ship direct from that port to Saffi in ballast, which he accordingly did, loaded a cargo of wheat at Saffi, and was captured while sailing on his homeward passage from Saffi to Lisbon. In an action on the freight policy, the Court were clearly of opinion that there had been no abandonment of the original adventure; and, moreover, that as, when taken, she

(*s*) In Kynance SS. Co. *v.* Young (1911), 16 Com. Cas. 123, Scrutton, J., refused to restrict the duration of the voyage described in the policy by reference to the charter-party. The ship was insured for a voyage to a port or ports of discharge in South America, while the charter-party only provided for a discharge at one port. The shipowner and the charterer afterwards agreed to have the cargo discharged at two ports, and the learned judge held that a loss on the voyage from the first to the second port was covered.

(*t*) See Mar. Ins. Act, 1906, s. 49 (1) (b); *post*, § 424a.

was sailing from Saffi for Lisbon, the voyage actually insured in the freight policy, the underwriters were not discharged (*u*). Sect. 383.

In general an intermediate voyage discharges the underwriter.

384. If, however, the ship, without justifying cause, after accomplishing part of her voyage insured, sails on a distinct intermediate voyage, not allowed by the usage of trade, and neither subordinate to nor connected with the voyage contemplated as the principal object of the contract, she will be considered as having, for the time at least, given up all intention of proceeding to her primary destination, and the underwriter will be discharged from all loss that may take place after she has engaged on such intermediate voyage, although the captain may still intend ultimately to proceed to the original *terminus ad quem* (*v*).

Way *v.* Modigliani.

How strictly this rule is enforced appears from the following case:—A ship, insured "at and from the 20th October, 1783, from any ports in Newfoundland to Falmouth or her port or ports of discharge in England," sailed on the 1st of October from her port in Newfoundland to fish on the Banks, where she continued fishing till the 7th, on which day she sailed from the Banks to England. On the 20th October she was sailing on a course common both to a voyage from the Banks to England and from Newfoundland to England, and on this course she continued until and at the time of the loss for which the action was brought.

Buller, J., held, that as the voyage insured was from Newfoundland to England direct, and that on which the ship sailed was from Newfoundland to the Banks, and then to England, the ship had never sailed on the voyage insured, and the policy had never attached (*x*). Ashhurst, J., held,

(*u*) Driscol *v.* Passmore (1798), 1 B. & P. 200.

(*v*) Bottomley *v.* Bovill (1826), 5 B. & Cr. 210; see also Hamilton *v.* Sheddon (1837), 3 M. & W. 49.

(*x*) Way *v.* Modigliani (1787), 2 T. R. 30; see *ante*, § 380, note (*a*). Phillips and Benecke doubt the decision on the same ground, viz., that the *terminus a quo* of the risk was the 20th of October, before which day the vessel was "on the specified voyage": but was she so? She was on the same *iter*, but not on the same *viaggium*. See Benecke, System des Assecuranz, vol. ii. p. 331; and 1 Phillips, s. 992.

Sect. 384.

that either the ship sailed on a different voyage, or there had been a deviation. The grounds on which the remaining judge, Grose, J., decided do not appear clearly in the report.

Evidence of intention to abandon voyage.

385. Whether, in point of fact, the intention to abandon the original destination of the voyage had been definitively adopted at the time of the loss is sometimes a nice question of evidence, and the fact of sailing does not necessarily enter into the determination of it (*y*). The conduct of the assured while the ship is still in port may be such as, in case of a policy "at and from," will alter his relations with the underwriter entirely.

"When a person," says Lord Eldon, "is insured 'at and from' a port, the probable continuance of the ship in that port is in the contemplation of the parties to the contract. If the owners, or persons having authority from them, change their intention, and the ship is delayed in that port for the purpose of altering the voyage and taking in a different cargo, the underwriters run a different risk, if such change of intention is not to affect the contract" (*z*).

Tasker v. Cunningham.

The case alluded to was this:—A British ship, being expected to arrive in Cadiz with a cargo of fish, her owners sent instructions to their agents there to ballast the ship, after she had discharged her cargo, with salt, and procure freight for her, if possible, to Clyde. When the ship arrived, the French army had got possession of the saltpans round Cadiz, so that no salt could be procured. The agents thereupon wrote to the owners that they had resolved, with the concurrence of the captain, to despatch the ship to Liverpool to load with salt for Newfoundland. The owners accordingly insured the ship "at and from Cadiz to her port or ports of discharge in St. George's Channel, including Clyde." Much time having been spent in discharging the fish at Cadiz the

(*y*) For a good illustration of this, see Hall *v.* Brown (1814), 2 Dow, 367, a case which stands too much on its own particular circumstances to be of any value except as an illustration.

(*z*) 1 Bligh, 100.

Sect. 385.

agents, thinking that the ship would arrive too late at Newfoundland if sent first to Liverpool for salt, resolved, after consulting with the master, to load the ship with what salt they could procure at Cadiz, and despatch her direct for Newfoundland. They again wrote to the owners of this proposed alteration. About a week after the date of this last letter, the ship, while still in the bay of Cadiz, and before she had entirely discharged the fish, or taken any steps towards commencing the direct voyage from Cadiz to Newfoundland, was taken by the French and burnt where she lay.

Upon this state of facts, the Scotch Court three times decided that the ship, when so destroyed, was still under the protection of the policy; but the House of Lords finally reversed their decision on the ground that a fixed determination had been formed to abandon the voyage insured before the loss took place (*a*).

What is evidence of a definite intention to change the voyage.

Lord Eldon, in the course of his judgment, said: "It appears throughout the correspondence that the captain and the agents had taken upon themselves to direct and alter the destination of the ship with the acquiescence, at least, of the owners. . . . Undoubtedly a mere meditated change does not affect a policy; but circumstances are to be taken as evidence of a determination; and what better evidence can we have than that those who were authorized had determined to change the voyage? In my opinion the voyage was abandoned, and I have the highest authority in Westminster Hall to confirm that opinion" (*b*).

Rule in the United States as to effect of change of voyage.

386. In the United States it was decided by the Supreme Court of New York, and in the Court of Errors, against the opinion of Chancellor Kent, that the assured may recover for any loss which may happen before the determination to change the voyage is manifested by some act whereby the risk insured against is affected and changed; and that consequently, though all intention of proceeding to the *terminus*

(*a*) Tasker *v.* Cunningham (1819), 1 Bligh, 87.

(*b*) *Ibid.* 99, 102.

Sect. 386.

ad quem may have been entirely abandoned at the time of loss, yet, if the vessel be lost before she reach the dividing point, this must be regarded as having only the same effect as an intention to deviate, and will not discharge the underwriter from antecedent loss (*c*).

But the English rule seems better founded on principle.

This decision appears entirely irreconcilable with the principle which has been either admitted or acted on in all the English cases, and is affirmed in the Marine Insurance Act, 1906, viz., that the identity of the voyage depends on its termini, and that directly the intention has been deliberately formed of abandoning the *terminus ad quem* of the original voyage, the vessel is sailing on a new voyage, and is out of the protection of the policy (*d*).

Abandonment is not retrospective in effect.

On the other hand, it is clearly implied in the provisions of the Act that the underwriter will be liable for all loss incurred prior to the manifestation of a definitive purpose of abandoning the original voyage, and that it is only where the purpose of changing the voyage has been fixed before the commencement of the risk that it can avoid the policy *ab initio*.

Change of voyage where both sea and land transit.

387. Where a marine policy on goods covered a land transit following a sea voyage, the Court of Appeal has held that to determine whether the policy ever attached, the *terminus ad quem* of the sea voyage only must be taken into consideration. Therefore, where the insurance was on goods from the Mersey to any port in Spain this side of Gibraltar, and thence by inland conveyance to any place in the interior, and the goods destined for Madrid were shipped to a port on the east side of Gibraltar, they held that the risk had never attached (*e*).

(*c*) Lawrence *v.* Ocean Ins. Co. (1814), 11 Johns. 240; N. Y. Firemen's Ins. Co. *v.* Lawrence (1816), 14 Johns. 46; cited 1 Phillips, Ins. s. 966, where the learned writer, who erroneously states that Chancellor Kent's judgment was concurred in by the rest of the Court, dissents from it.

(*d*) See 3 Kent, Com. 317, where the English rule is approved.

(*e*) Simon, Israel & Co. *v.* Sedgwick (C. A.), [1893] 1 Q. B. 303.

Sect. 387.

The policy contained a clause, now very common, to the effect that deviation or change of voyage was to be held covered at a premium to be arranged; but the Court held that this stipulation did not apply, as the ship had never sailed on the voyage insured, and the policy, therefore, had never attached (*f*).

What is not change of voyage.

388. The mere fact of taking in goods, and clearing out for a different port to that named in the policy, as the *terminus ad quem*, does not *per se* amount to a change of voyage; for this may have been done with the design of putting into such port in the way to the original terminus, and of ultimately carrying out the original adventure. In this case it would be a mere intention to deviate, and not a change of voyage; and the assured would still be liable for all loss incurred before passing the dividing point (*g*). So, *à fortiori*, it is no change of voyage for a ship insured to two or more named ports of discharge to take in goods and clear out for only one of them (*h*).

Shortening the voyage.

With regard to shortening the voyage, it appears that a ship insured to several successive ports may terminate the voyage at one of the nearer ports without vitiating the policy (*i*); but it is otherwise if, being insured to a single port, she sail with a fixed purpose not to go beyond a nearer port not contemplated in the policy. Thus, Emerigon, after stating it as a general principle that a mere shortening of the voyage will not avoid the policy, adds, "provided that, at the outset, the voyage insured was not abandoned (*rompu*) by a change of destination" (*k*).

Sect. 389.

Middlewood *v.* Blakes.

389. The case of Middlewood *v.* Blakes, though it more properly belongs to the doctrine of concealment, may, in consequence of the discussion to which it has given rise, be conveniently mentioned here. In that case it appeared that usage in respect of the voyage insured (from London to Jamaica) left the captain, on arriving at a certain point, the choice of one of three tracks (one to the north, and two to the south of St. Domingo), all equally leading to the *terminus ad quem*. In the particular case the captain, by orders from his owners (not communicated to the underwriter), took the northernmost track in order to touch at Cape Nicola Mole, a port in that track, but out of the direct course from London to Jamaica; but while still pursuing a direct course to Jamaica, and before having turned off to make Cape Nicola Mole, the ship was lost by capture. On these facts, Lord Kenyon told the jury that in his opinion the underwriter was discharged, "because at the time the ship was captured she was bound to a different place to that to which she was insured" (as she had not abandoned Jamaica as the ultimate *terminus ad quem*, this seems hardly correct), "and with a view to which the captain, under compulsion of his orders, had taken this particular track, and was not left at liberty to exercise his judgment at the dividing point for the benefit of all concerned, as the underwriters had a right to insist on." The jury found for the underwriter, being, as they stated, unanimously of opinion "that the concealment of the intention to go to St. Domingo vitiated the policy." Lord Kenyon, Ashhurst, J., and Grose, J., supported the verdict on the ground of concealment; they thought the circumstance, "that the discretion of the captain had been taken away," ought to have been communicated. Lawrence, J., thought this ground not tenable. Had the ship been lost before reaching the dividing point of the three tracks, he should have held the underwriters bound, on the ground that there would then have been only an intention to deviate; as she was lost after passing that point, he thought them discharged, and on the following ground:—"When the ship

Sect. 389.

came to the dividing point she was subjected to a risk, for which the underwriters did not make themselves responsible, for at that moment they were entitled to have the benefit of the captain's judgment, whether he would go to the north or to the south" (*l*).

Cases of deviation irrespective of the clauses giving a liberty to touch and stay.

390. In proceeding to examine more in detail the various decided cases by which the doctrine of deviation has been illustrated in English jurisprudence, we will confine our attention, in the first instance, to those instances of deviation which consist in a local divergence from the direct course of the voyage, and do not specially turn on the construction of the clauses giving a liberty "to touch, stay, or trade."

In the absence of any usage the ship must sail direct.

In the absence of any usage or stipulation to the contrary, the contract is invariably understood to be that the ship should proceed from one terminus of the voyage insured to the other, in a direct course, with all due expedition, and without touching at any interjacent port, or pursuing any intermediate adventure. Anything that she does to the contrary of this without such justification as shall be considered hereafter, or without leave expressly given in the policy, however trifling in extent or duration, is a fatal deviation, although the ship afterwards return to her proper course without having sustained the slightest damage in consequence of having thus departed from it (*m*).

(*l*) Middlewood *v.* Blakes (1797), 7 T. R. 162. For an elaborate discussion of this case, see 2 Duer on Ins. pp. 491—498. Judge Duer considers that the case cannot be put as one of deviation. He says that the majority in the Court of King's Bench placed their decision upon the true ground; but also considers that the case may be put on the ground of change of risk; for "where the master is bound to deviate, the voyage on which he sails is different in its very inception from that which the policy describes and is meant to cover" (p. 497). "I confess," says Arnould, "it appears better, on the whole, to rest the decision where the majority of the Court put it, on the ground of concealment." 2nd ed. vol. i. p. 408, n. Applying the provisions of sect. 46 of the Mar. Ins. Act, 1906, to the facts of the case, there does not seem to have been a deviation at the time of the loss, but only a possible intention to deviate.

(*m*) See Fox *v.* Black (1767), 2 Park, 620; Townson *v.* Guyon (temp. Lord Mansfield), *ibid.*; Clason *v.* Simmonds (1741), cited 6 T. R.

Sect. 391.

Effect of usage.

391. Where, however, by the usage of trade it is customary in the course of the voyage insured to stop at interjacent ports, though out of the direct course, it is no deviation to stop there, though leave for that purpose be not expressly reserved; for, upon the principles already developed, such stopping is considered to be a regular part of the voyage insured, and to have been contemplated by the parties to the policy. It takes place in the words of the Marine Insurance Act, 1906, s. 46 (2) (b) (*n*), in the "usual and customary course" of the voyage. But for this purpose the usage must be precise, clear, and established. Thus, when all ships sailing through the Sound had to stop at Elsinore to pay the Sound dues, this was no deviation, though no liberty so to stop was reserved in the policy (*o*).

But a stoppage at the Isle of Man by a ship insured from Liverpool to the West Indies was held not to be justified by proof that ships insured on that voyage had occasionally, but not customarily, stopped there before (*p*). So in the United States, two instances of stopping at an intermediate port, not named in the policy, by other ships engaged in the same trade was held inadequate to prove a usage or justify a departure from the direct course (*q*).

On the same principle, in the East India and Newfoundland trades it was repeatedly held to be no deviation to engage in intermediate voyages, although no liberty was given in the policy so to do (*r*). In fact, where the termini only of the

533; Parr *v.* Anderson (1805), 6 East, 202; 3 Kent, Com. 312. Phillips says (vol. i. s. 989) that the law does not regard such inconsiderable circumstances as "a delay of an hour, or a deviation of a mile." There is much to be said in favour of his rule, but his statement is not borne out by the authorities. Even if the rule "*De minimis*," &c. can be applied in questions of deviation, it must be remembered that a deviation which may be of no importance in the case of a steamer may greatly affect the voyage of a sailing ship. See *post*, § 560.

(*o*) Cormack *v.* Gladstone (1809), 11 East, 347.

(*p*) Salisbury *v.* Townson, Millar, Ins. 418.

(*q*) Martin *v.* Delaware Ins. Co. (1808), 2 Wash. R. 254; Condy's Marshall, 186, n.

(*r*) As to the East Indian trade, see Salvador *v.* Hopkins (1765), 3

Sect. 391.

voyage insured are indicated by the policy, and the parties to the contract have done nothing else towards indicating its course, the sole guide in determining what that course should be is mercantile usage; and nothing can be considered a deviation which only follows that course which usage has sanctioned.

Where the policy expressly excludes or is inconsistent with the usage.

392. Where, however, the policy itself, besides indicating the termini of the voyage, specifically designates the course which the ship shall take in sailing between them, such directions must be followed with the most scrupulous and literal exactness, and the slightest failure to comply with them will amount to a fatal deviation (*s*).

Hence, where liberty is given in the policy to touch at any one specified intermediate port, it will be a deviation to put into any other than that named in the policy, though calling at such port may be sanctioned by usage apart from the policy, and though neither the risk nor premium would have been increased had such port been substituted for that named in the clause. *Expressio unius est exclusio alterius.*

Elliott *v.* Wilson.

It seems to have been usual for vessels sailing from Carron for Hull, in going down the Firth of Forth, to touch at different places for the purpose of taking in and delivering goods, particularly at Burrowstowness, Leith and Morrison's Haven. A merchant desirous of insuring goods on a voyage from Carron to Hull directed his broker to effect an insurance with liberty in the policy "to call as usual" (which would have enabled the ship to touch at all or any of the three places above mentioned); instead of this the broker, contrary to the directions of the merchant, and without his knowledge, insured them from "Carron to Hull, with liberty to call at Leith." The premium was the same as though the general liberty to call as usual had been inserted in the policy.

Burr. 1707; Gregory *v.* Christie (1784), 3 Dougl. 419; 1 Park, 104; 1 Marshall, Ins. 273; Farquharson *v.* Hunter (1785), 1 Park, 105; 1 Marshall, Ins. 274. As to the Newfoundland trade, see Vallance *v.* Dewar (1808), 1 Camp. 503; Ougier *v.* Jennings (1800), *ibid.* 505, n.

(*s*) Mar. Ins. Act, 1906, s. 46 (2) (a), *ante*, § 376.

Sect. 392.

The ship on her voyage passed by Leith, but put into Morrison's Haven, and afterwards, without damage, got safe again into the direct course of the voyage from Carron to Hull, and had been proceeding on such course for about a day, when she was overtaken by a storm and wrecked, with a total loss of the cargo.

The Scotch Courts, upon this state of facts, decreed that the underwriters should pay the loss, but the House of Lords reversed their judgment, on the ground that putting into Morrison's Haven, under a policy which contained no liberty so to do, but, on the contrary, gave express permission to put into another named port, was a deviation, discharging the underwriters from all further liability (*t*).

When the ship must take ports in their geographical order.

393. As is stated in sect. 47 (2) of the Marine Insurance Act, 1906—

> Where the policy is to "ports of discharge," within a given area, which are not named, the ship must, in the absence of any usage or sufficient cause to the contrary (*u*), proceed to them, or such of them as she goes to, in their geographical order. If she does not there is a deviation.

Clason *v.* Simmonds.

Thus where a ship, insured on a voyage "from London to her ports of discharge within the Straits (of Gibraltar) as high as Messina," sailed on her voyage, with a freight for Marseilles, but with instructions to go also to Genoa, Leghorn and Naples, and on arriving off Marseilles, her first port of discharge in geographical order, was prevented by contrary winds from putting in there, and therefore proceeded first to Genoa and then to Leghorn, from which latter

(*t*) Elliot *v.* Wilson (1776), 4 Brown's P. Cases, 470.

(*u*) The decisions do not help to explain the effect of the words "sufficient cause to the contrary." A reference is probably intended to sect. 49 (1) of the Act, *post*, § 424*a*, in which the causes which excuse a deviation are set out; but then one would expect the same term to be used as in sect. 46 (1), *ante*, § 376, viz., "lawful excuse." Moreover, an express reference does not seem necessary in order to make the provisions of sect. 49 (1) applicable.

Sect. 393.

place she was making her way back to Marseilles, when she was captured; a special jury found this sailing back to Marseilles to be a deviation, which determined the policy from the moment of her leaving Leghorn (*x*).

When the policy determines the order of the ports.

394. Again, as is declared in sect. 47 (1) of the Marine Insurance Act, 1906—

> Where several ports of discharge are specified by the policy, the ship may proceed to all or any of them, but in the absence of any usage or sufficient cause to the contrary (*y*) she must proceed to them, or such of them as she goes to, in the order designated by the policy. If she does not, there is a deviation.

Beatson *v.* Haworth.

Thus: A ship, insured on a voyage "at and from Fisherow to Gottenburg, and back to Leith and Cockenzie," was on her homeward passage, with goods on board both for Leith and Cockenzie (*z*). Cockenzie lies nearer to Gottenburg than Leith, and is about a mile and a half out of the direct course between the two; there appeared to be no settled course of trade as to the order of calling at the two places on such a voyage as this. The ship put first into Cockenzie, and in coming out was stranded and lost. Upon these facts the Court held that, as the termini of the intended voyage were in terms described in the policy, and as there was no regular and settled course known to all traders different from that so described, the ship was guilty of a deviation by putting

(*x*) Clason *v.* Simmonds (1741), 6 T. R. 533, *in notis*. The ship had also put in at Falmouth to load tin, which was also contended to be a deviation, and so held by the Chief Justice; in fact, it appears very doubtful on what precise ground the case was decided. See 1 Phillips on Ins. s. 1010. Sir Vicary Gibbs puts it on the ground that the assured had fixed upon Genoa for his port of discharge by passing Marseilles and proceeding to Genoa; and that, having done so, the ship was not warranted in returning to a port she had once passed, but was bound to take the remaining ports in the order of their succession. Andrews *v.* Mellish (in error) (1814), 5 Taunt. 502.

(*y*) See note (*u*), *supra*, § 393.

(*z*) See Lord Ellenborough's remarks on this case in Marsden *v.* Reid (1803), 3 East, 577.

Sect. 394.

first into Cockenzie, and the underwriter was discharged from his liability (*a*).

A ship insured to several ports need not visit them all.

It is not, however, necessary that a ship thus insured to several successive named ports of discharge, should sail to all the ports so named. She may omit any or only sail to one; the only limitation is, that if she visits more than one, she must take them in their due order. Thus, where a ship was insured "from Liverpool to Palermo, Messina and Naples," Lord Ellenborough held the true construction of the insurance to be that the assured might drop any of the places named, but that if he went to more than one he must take them in the order named in the policy (*b*).

Summary and rule.

Generally speaking, therefore, where there are several ports of discharge, the ship must take them either in the order in which they are named in the policy, or, if not named, then in the geographical order of their distance from the port of departure. If, however, long and uniform usage have established a different order, the geographical order may be disregarded and the other observed. It has been even intimated that the order fixed by usage overrules that specified in the policy (*c*). "This," said Arnould, "appears more doubtful," and sect. 47 (1) of the Marine Insurance Act, 1906, does not make it clear whether it is obligatory or only permissive to observe the order established by usage.

(*a*) Beatson *v.* Haworth (1796), 6 T. R. 531; see also Marsden *v.* Reid (1803), 3 East, 571, 577. Phillips suggests (vol. i. s. 1012) that in such a case, considering the relative position of the ports to each other and to the port of departure, the order in which they are visited should be regarded as indifferent. He considers it absurd that, even where there is no usage, it should in all cases be necessary to follow either the geographical order or the order in the policy. So far as English law is concerned, the controversy is, however, ended by the Mar. Ins. Act, 1906.

(*b*) Marsden *v.* Reid (1803), 3 East, 572. Same rule in the United States. See Kane *v.* Columbian Ins. Co. (1807), 2 Johnson, R. 264; and see other cases illustrating the same point, cited 1 Phillips, Ins. s. 1010.

(*c*) Beatson *v.* Haworth (1796), 6 T. R. 531, and Gairdner *v.* Senhouse (1810), 3 Taunt. 16, are cited by Arnould, but no judicial opinion on the point can be extracted from them.

Sect. 395.

395. In all cases the ports must be visited in the direct course of the voyage insured; and, generally speaking, it will be a deviation, after having once touched at one of such ports, to revisit it or to sail backwards and forwards from one to the other, unless express liberty for that purpose be inserted in the policy (*d*), or unless it appear from the terms of the policy that the purposes of the voyage as described necessarily involve such a liberty (*e*).

To revisit is to deviate, unless justified by the policy.

Thus, in the United States a ship insured on a West India voyage to any one of the islands, "and a market," was held to be justified in seeking a market at the different islands, without regard to their geographical order, and even in touching at the same port once and again, if done with the *bonâ fide* intention of finding a market (*f*).

Policy from a named terminus, and "other port or ports" not named.

396. Where a ship is insured "at and from" some one named port of departure, and "other port or ports," to a fixed terminus, it depends entirely on the language of the clause and the true construction of the policy, whether it be a deviation for the ship to depart from the direct course between the first-named port of departure and the *terminus ad quem* for a purpose connected with the main object of the voyage insured.

Bragg *v.* Anderson.

Thus, a ship insured on a homeward voyage "at and from Martinique and all or any of the other West India Islands to London," sailed to take in her cargo at St. Domingo, a place very wide of the direct course of a voyage from Martinique to London; this was yet held to be no deviation: "For in order to make it so," said Sir J. Mansfield, "you must read the insurance to be, not at and from Martinique and all or any other of the West India Islands, but 'at and from Martinique and such of the West India Islands as lie between Martinique and London'" (*g*).

(*d*) Gairdner *v.* Senhouse, *supra*.

(*e*) Mellish *v.* Andrews (1813), 2 M. & S. 27; *S. C.* (1814), 5 Taunt. 496, in error.

(*f*) Deblois *v.* Ocean Ins. Co. (1835), 16 Pick. R. 303. See 1 Phillips, Ins. s. 1014.

(*g*) Bragg *v.* Anderson (1812), 4 Taunt. 229.

Sect. 396.

Lambert v. Liddard.

So it was held no deviation for a ship insured "at and from Pernambuco or any other port or ports in the Brazils, to London," after touching at Pernambuco, and finding no cargo there, to sail to St. Salvador, another port in the Brazils, in order to obtain one, although St. Salvador lies 500 miles to the south of Pernambuco, and therefore in a direction opposite to the course from Pernambuco to London. Gibbs, C. J., said that if the insurance had been at and from Pernambuco or any other port in the Brazils, there might have been something in the objection, as it might then have been contended that, by electing Pernambuco as the port of loading, the assured could not go to another without a deviation; but that the alternative being, any other port or ports, there must have been an intention of sending her to more than one (*h*).

Ashley v. Pratt.

A ship was insured "at and from Liverpool to ports and places in China and Manilla, all or any, during the ship's stay there for any purposes, and from thence to her port or ports of calling and discharge in the United Kingdom." The ship sailed from Liverpool for the coast of China, discharged part of her outward cargo at the Chinese port of Tonghoo, and proceeded to Manilla, where she discharged the residue. At Manilla, finding freights low, the captain took on board only a tenth part of a cargo and sailed back for Tonghoo with the intention of there completing his homeward cargo and sailing thence direct for England, but on this passage the ship was lost. Tonghoo is quite out of the direct course from Manilla to England. The Court of Exchequer, however, held this to be no deviation, for the words "from thence" in the policy meant not "from Manilla" only, but applied to "ports or places in China and Manilla, all or any" (*i*).

Port and ports—meaning of.

397. It may become a question, under a policy to or from "port A. and a port or ports in B.," of considerable nicety,

(*h*) Lambert *v.* Liddard (1814), 5 Taunt. 480; 1 Marshall, R. 149.

(*i*) Ashley *v.* Pratt (1847), 16 M. & W. 471; affirmed in error, 1 Exch. 257; *S. C.*, 17 L. J. Exch. 135.

Sect. 397.

whether a particular place be a port within the meaning of the policy, so as to excuse what would otherwise be a deviation. The cases show that usage may justify the application of this term to an anchorage in an open roadstead, though it may be an inconvenient place for loading or discharging cargo (*k*).

Harrower v. Hutchinson.

In one case where the alleged port was a roadstead or bay formed by headlands, and open to the east and north-east, without any other artificial formation than a jetty or pier attached to a slaughter-house, and vessels loading there were obliged to lie off in the roadstead a quarter of a mile from the jetty, and to load by means of craft,—this place although frequented only by coasters trading to Buenos Ayres, and not at all by vessels loading for Europe, and although it was unknown to underwriters as a place of loading, was nevertheless held by a majority in the Exchequer Chamber to be a port within the meaning of the policy (*l*).

As in this last case the vessel was obliged to sail back to Buenos Ayres to complete her cargo and obtain her clearances, it was argued that such sailing back was evidently not contemplated by a policy "from a port or ports of loading to a port or ports of call and discharge in the United Kingdom," and consequently was a deviation; but the Court of Queen's Bench held that the language of the policy permitted the ship to go from port to port and back to the same port until she had completed her cargo (*m*).

Everything, in these cases, depends upon the meaning of the parties, as ascertainable, first from the terms of the policy, and, if these leave the matter still doubtful, then upon extrinsic evidence.

(*k*) See *post*, § 485.

(*l*) Harrower *v.* Hutchinson (1870), L. R. 5 Q. B. 584; affirming on this point the decision of the Court of Queen's Bench (1869), L. R. 4 Q. B. 523.

(*m*) In the Exchequer Chamber, Cleasby, B., held that the policy did not cover a voyage back to Buenos Ayres. The other judges gave no decision on this point, the Court holding unanimously that the policy was void for concealment.

Sect. 397.

Brown v. Tayleur.

Thus, where a ship was insured "at and from her port of loading in North America to Liverpool," it was held a deviation for the ship, after having taken in part of her loading at a place situated in one creek of a bay, to go afterwards to another place, lying eight miles off, on another creek of the same bay, to take in the rest; for the terms of the policy clearly showed that the underwriter did not mean to run the risk of loading the ship at two such distant places, and there was no evidence to show that the two places were considered by the mercantile world as forming parts of the same port (*n*). If, indeed, the ship were at a particular quay on a river, as at Liverpool, and merely removed to another quay, a mile or two off, that would not be a deviation, for there the ship would be all the time at one port or place; but it is a deviation if she removes to a different town or different place of habitation, which might itself be a port of loading (*o*).

Deviation in relation to the clauses giving a liberty to touch and stay.

† **398.** We next come to cases of deviation decided on the construction of those special clauses in the policy, by which liberty is given to the ship "to call," or "to touch," or "to touch and stay," or "to touch, stay and trade," either at certain specified ports, or "at all ports whatsoever, for all purposes whatsoever," &c.

Classes under which the cases range themselves.

These cases are generally divisible into two classes.

† 1st. Those in which the question is, whether the ship was justified, under the policy, in originally putting into the port at all; and this question mainly turns upon the two following points, viz.:—(a) Was the port one which, on the true construction of the policy, was within the course of the voyage as contemplated by the parties? (b) If so, was the purpose for which it was visited connected with, and in furtherance of, the main scope and object of the adventure?

† 2ndly. Supposing the ship to have been thus justified in originally visiting the port, as nothing which she does during the period of her lawful stay there, though foreign to the

(*n*) Brown *v.* Tayleur (1835), 4 A. & E. 241.

(*o*) Per Patteson, J., Brown *v.* Tayleur (1835), 4 A. & E. 249.

Sect. 398.

purposes of the adventure, and not specifically permitted by the policy, will be held to discharge the underwriter, unless it substantially varies the risk; the only question is, whether the trading, &c. at such port has, in fact, varied the risk originally assumed by the underwriter?

Formerly the exact words of the clauses were chiefly considered.

† **399.** Formerly, it appears to have been supposed that a great deal turned on the exact words of the clauses, without reference to the real scope and purpose of the adventure, as discoverable from the whole language of the policy. Thus, a liberty "to touch" was supposed to have a different meaning from a liberty "to touch and stay"; and a ship, insured under a policy containing only the former clause, was considered to have no power thereby conferred on her of trading in the port at which she had touched, though such trading was obviously contemplated as part of the adventure (*p*).

Present rule.

The Courts, however, conformably to the good sense of the matter, now hold that the liberty conferred by these words must depend upon the real object which the parties had in view when they inserted the clause in the policy.

Urquhart v. Bernard.

Thus, in the case of a ship insured "at and from Madeira to Santos, with liberty to touch at the Cape de Verd Islands," where it appeared from communications made to the underwriters, before effecting the policy, that the parties intended the ship to take in salt at one of the Cape de Verd Islands, she was held entitled to do so under the mere liberty to touch there (*q*).

Metcalfe v. Parry.

So, where a ship was insured from "Antigua to England," with an extensive "liberty to touch" at all or any of the West Indian Islands, Gibbs, C. J., held that as the main object of the voyage plainly appeared to be that the ship should go about from island to island seeking freight, the bare liberty "to touch" included a liberty to stay and take goods, and therefore that the ship's remaining two months

(*p*) Urquhart *v.* Bernard (1809), 1 Taunt. 450, 455, where Sir J. Mansfield said he could not find the distinction anywhere defined.

(*q*) Urquhart *v.* Bernard (1809), 1 Taunt. 450.

Sect. 399. at one of the islands waiting for a cargo was no deviation (*r*).

In short, wherever it appears to have been clearly contemplated by the parties, or necessary to the purposes of the voyage insured, that the ship should trade where she has liberty merely to touch, her doing so will not be deemed a deviation.

What ports may be visited, and for what purposes.

400. We now revert to our classification of the cases illustrative of these principles of interpretation, and first take those in which the question is whether the ship was originally guilty of a deviation in visiting or staying at any given port.

Present rule.

Whatever may be the language of the clause, or however extensive its terms, it cannot convey a liberty of touching at any port out of that which, on the true construction of the policy, appears to have been the understood course of the voyage, nor of putting into any port within the limits of the voyage for purposes unconnected with the real objects of the adventure (*s*).

The true points of inquiry, then, are—1st. Was the port at which the ship touched a port in the course of the voyage as understood by the parties? 2nd. Was the purpose for which she so touched there *bonâ fide* connected with the main object of the adventure?

In general only ports in the direct course may be visited.

401. In the Marine Insurance Act, 1906, Schedule I., the first point is dealt with in Rule 6 of the Rules for the construction of a policy in the ordinary form in these terms—

> In the absence of any further license or usage, the liberty to touch and stay "at any port or place whatsoever" does not authorise the ship to depart from the course of her voyage from the port of departure to the port of destination.

(*r*) Metcalfe *v.* Parry (1814), 4 Camp. 123.

(*s*) This is but another instance under the general rule which restrains the effect of general terms to things *ejusdem generis*, or otherwise to matters of a tenor consistent with the context.

Sect. 401. Unless, therefore, upon the true construction of the policy, it appears manifest that the parties had a different meaning, it may be taken as a general rule that a liberty to touch and stay, though conceived in very extensive terms, can only confer a power of visiting such ports as lie in the usual and direct course between the termini of the voyage insured (*t*). This inference is insurmountably strong if there be anything in the language of the policy expressly favouring such an interpretation.

Lavabre *v* Wilson.

Thus, a ship was insured on an East Indian voyage, "out and home," "with liberty to touch in the outward or homeward-bound voyage at the Isles of France and Bourbon, and at all or any other place or places what or wheresoever"; and with a stipulation "that it should be lawful for the said ship in this voyage to touch and stay at any ports or places whatsoever, as well on this side as on the other side of the Cape of Good Hope, without being deemed a deviation." Lord Mansfield, in the course of argument, intimated a clear opinion that the general words were, by the expressions "in the outward and homeward-bound voyage," and "in this voyage," qualified and restrained so as to mean "all places whatsoever in the usual course of the voyage to and from the places mentioned in the policy" (*u*).

Hogg *v.* Horner.

Upon the same principle, where a ship was insured "at and from Lisbon to a port in England, with liberty to call at any one port in Portugal for any purpose whatever," Lord Kenyon was of opinion that the liberty given by this policy must be confined to ports to the northward of Lisbon, and in the direct course of a voyage thence to England; and he held accordingly that the ship was guilty of deviation in sailing to Faro, a port to the southward of Lisbon, although she sailed

(*t*) In cases on charter-parties it has been held, that a deviation clause, however wide its terms, must be construed with reference to the main object of the contract. See Margetson *v.* Glynn, [1893] A. C. 356; Leduc *v.* Ward (C. A.) (1888), 20 Q. B. D. 475; and Morrison & Co. *v.* Shaw, Savill & Co., [1916] 2 K. B. 783.

(*u*) Lavabre *v.* Wilson (1779), 1 Dougl. 284.

Sect. 401.

there to complete her cargo—a purpose connected with the voyage insured (*x*).

Ranken *v.* Reeve.

So, where a ship was insured "at and from Africa to the Canaries, Madeira and Lisbon, with liberty to touch, stay and trade at all ports," &c. "in the voyage," it was held that, after having once moored at anchor for twenty-four hours in a port in Africa, so as to give an inception to the risk, she could not then proceed to the southward, but only northward, towards Europe, the object being only to protect deviations in the direct course of the voyage insured (*y*).

Gairdner *v.* Senhouse.

So, where a ship was insured "at and from London to Trinidad and the Spanish main," with liberty "to call at all or any of the West Indian Islands and Settlements," Sir J. Mansfield expressed a clear and undoubted opinion that this liberty of calling must be confined to places taken in the direct and customary course between the termini of the voyage insured, and therefore could not be held to protect the ship, after having once sailed southward as far as Demerara, in then sailing up northward to Martinique and St. Thomas's, unless, indeed, very satisfactory evidence were given that such was a customary course on such voyages as those insured in this policy (*z*).

The purposes of the voyage may require a wider construction of the clause.

402. Where, however, upon the true construction of the whole policy, it plainly appears that the parties could not have intended to give this limited effect to these clauses, they will be held to confer a power of visiting any ports within the scope of the policy, although they may lie wide of the usual and direct course between the termini of the voyage, and even, under very special circumstances, in a diametrically

(*x*) Hogg *v.* Horner (1797), 2 Park, 626; 1 Marshall, 184; Arnould (2nd ed. vol. i. p. 420) calls this "certainly a strong decision," but it is in accordance with the tenor of modern decisions. In the case of Ashley *v.* Pratt (1847), 16 M. & W. 471; 1 Exch. 257, which he appears to consider as of a contrary effect, it must be remembered that the words of the policy were peculiarly wide, and were construed as giving peculiarly wide powers of deviation.

(*y*) Ranken *v.* Reeve (1814), 2 Park, 627.

(*z*) Gairdner *v.* Senhouse (1810), 3 Taunt. 16.

opposite direction; provided that they be visited for some purpose connected with the prosecution of the adventure contemplated by the policy. Sect. 402.

Bragg *v.* Anderson.

Thus, where a trading ship was insured on a homeward voyage "at and from Martinique, and all or any other of the West Indian Islands, to London," with liberty "in that voyage to touch and stay at any ports or places whatever," it was held to be no deviation under this policy for the ship, after sailing from Martinique, to put in for a cargo at one of the West Indian Isles (St. Domingo), which lay very wide of the direct course of the voyage from Martinique to London. Mansfield, C. J., said, "There is no getting over these words; instead of 'all' you must substitute the words 'some of the West Indian Islands, such as lie between Martinique and London.' That would make quite a new agreement" (*a*).

Metcalfe *v.* Parry.

So, where a ship was insured "at and from Antigua to England, with liberty to touch at all or any of the West Indian Islands, Jamaica included"; and the ship, in order to complete her homeward cargo, put into St. Kitts, which lies wide of the direct course of the voyage from Antigua to England; it was contended that this was a deviation; but Gibbs, C. J., ruled decisively that it was not, for, by including Jamaica, which lies at least 500 miles wide of the direct course of the voyage from Antigua to England, it plainly appeared to be the meaning of the parties that the islands might be touched at without regard to their lying on or off such direct course, and that the ship was to go about, if necessary, from island to island, for the purpose of seeking freight (*b*).

Baltic risks in the time

403. Many instances occurred, during the pressure of

(*a*) Bragg *v.* Anderson (1812), 4 Taunt. 229; see also Lambert *v.* Liddard (1814), 5 Taunt. 480. In the case of Violett *v.* Allnutt (1811), 3 Taunt. 419, the ship put into Penzance, where she had express liberty given her "to touch for any purpose whatever," in order to complete her cargo, and was afterwards lost there while waiting for a wind: the Court were clear this was no deviation.

(*b*) Metcalfe *v.* Parry (1814), 4 Camp. 123. This decision was not questioned. See also Barclay *v.* Stirling (1816), 5 M. & S. 6.

Sect. 403.

of Napoleon's Continental system.

Napoleon's Continental system, of a liberal interpretation of such clauses in those adventures generally called "Baltic risks": not because the Courts in such cases were guided by any peculiar principles of interpretation, but because the troubled and shifting nature of our relations with the different ports in the Baltic, under the political circumstances of the time, was such as to render the voyages then insured for those seas more vague in their objects and less definite in their limits.

Rucker v. Allnutt.

Goods were insured "at and from London to any port or ports in the Baltic, backwards and forwards, &c., with leave to touch and stay at any ports or places for all purposes whatever"; and, by another clause, "particularly with leave to wait for information off any ports or places." The ship went into the port of Carlshamn to wait for information; while there an embargo was laid on her, and the goods were seized and confiscated. At the trial Lord Ellenborough intimated an opinion that the words reserving liberty to wait off any port for information abridged the liberty of "touching and staying for all purposes," and the jury accordingly found for the underwriters. On motion for a new trial Lord Ellenborough altered his view of the case, and, with the concurrence of the Court, directed a new trial, principally on the ground that obtaining information as to the political state of the Baltic ports was a necessary purpose intimately connected with the prosecution of such a voyage as that which was insured, in which no fixed ports of discharge were named, and the ship could not venture to proceed to any without first learning whether they were friendly or hostile (*c*).

Mellish v. Andrews.

So, where a ship was insured "at and from London to the ship's discharging port or ports in the Baltic," with liberty "to touch at any port or ports for orders or any other purpose," it was held no deviation for the ship, before she had fixed upon her port of discharge, to call for orders twice at the same port (*d*). In this case, as Lord Ellenborough remarked,

(*c*) Rucker *v.* Allnutt (1812), 15 East, 278.

(*d*) Mellish *v.* Andrews (1813), 2 M. & S. 27. On the former trial of the same case Lord Ellenborough thought this was a deviation, especially as the policy did not contain the words "backwards and forwards" (see Mellish *v.* Andrews (1812), 16 East, 312); but in his judgment in 2 M. & S. he states that the non-introduction of these words could make no difference under the circumstances.

(*e*) 2 M. & S. 34.

(*f*) Andrews *v.* Mellish (in error) (1814), 5 Taunt. 496.

Sect. 403.

"the adventure is stated to be a voyage all over the Baltic, the object of the adventure was that the assured should call as often as necessity required, and there is nothing in the nature of the thing which makes calling again at the same port absurd or contrary to what may be presumed to have been the intention of the parties" (*e*). When this case came before the Court of Error, the judgment of Lord Ellenborough was affirmed; but Sir Vicary Gibbs, who delivered the judgment in error, laid great stress on the point that no port of discharge had been fixed on when the ship put in a second time for orders; had this been otherwise, he thought she would then have been obliged to take the ports in their order of succession; as it was, he was of opinion that, under the terms of the policy, "the assured had a right to go backwards and forwards from port to port for orders as to his port of discharge until his port of discharge was fixed" (*f*).

Other case of extensive liberty to touch. Armett v. Innes.

404. The two following decisions proceed upon, and perhaps in some degree extend, the same principle:—

A convict ship was insured on a voyage "at and from London to New South Wales, and at and from thence to the ship's loading port or ports in the East Indies, Persia, China, or elsewhere, forwards and backwards, and backwards and forwards, as well on this side as on the other side of the Cape of Good Hope, until her safe arrival at her final port of discharge in Great Britain," with leave for the ship "in the voyage insured to proceed and sail, to touch and stay, at any ports or places whatsoever and wheresoever, and for any purpose whatsoever, without being deemed a deviation." The ship, after arriving at New South Wales and discharging her convicts there, sailed in ballast to Batavia, where she took in

Sect. 404.

a cargo of iron for Sourabaya, sailed to that port, discharged her iron there and took in a cargo of rice for the Mauritius; at the Mauritius she unloaded part of the rice, intending to load there a cargo of cotton for England, but, being on survey found unseaworthy, was broken up there and sold.

The jury found at the trial that the ship had not touched at too many places, nor stayed there an unreasonable time, but had pursued the usual course on a voyage of this description. The defendant, however, contended that the having touched at these different ports for the purpose not only of loading, but also of discharging goods, was under the terms of this policy a deviation, but the Court held it was not so (*g*). Park, J.: "The terms contained in the policy cannot be more general and extensive. The vessel might sail and touch at any ports or places whatsoever, for any purposes whatsoever. Is not trading a purpose? If an underwriter enters into a covenant of this kind it is his own fault."

Hunter v. Leathley.

The next case shows that, if consistent with and in furtherance of the general purposes of the voyage, the ship, under such a liberty, will be justified in calling and taking goods on board at a port which lies even directly out of the usual course from the *terminus a quo* to the *terminus ad quem*.

A merchant here, having reason to expect a shipment of goods on his account from some of the ports of the Indian Archipelago, without, however, knowing of what nature they were, at what port to be loaded, or by what ship to be sent, effected a policy on goods generally on board of some one out of four different ships named in the policy (with leave to declare his interest more particularly, as it might thereafter appear), upon a voyage "at and from Singapore, Penang, Malacca, and Batavia, all or any, to the ship's port or ports of discharge in Great Britain or Holland," &c., "with leave to touch, stay, and trade at all or any ports or places whatsoever and wheresoever in the East Indies, Persia (*h*), or elsewhere, and also with permission to touch and stay at any ports or places in any direction and for any purpose necessary or otherwise, particularly Singapore, Penang, Malacca, Batavia, the Cape of Good Hope and St. Helena, and to take on board, discharge, reload and exchange goods and passengers, without being deemed a deviation."

(*g*) Armett *v.* Innes (1820), 4 J. B. Moore, 150.

(*h*) It was expressly found by the special case that the nearest port or place in Persia was more than 1,000 miles out of the direct course of a voyage from either Singapore, or Penang, or Malacca, or Batavia, to Europe.

Sect. 404.

Under this policy the ship took in part of her cargo at Batavia, and then proceeded to Sourabaya (another port in Java, lying 400 miles to the eastward of Batavia, and directly out of the course from Batavia, or any other of the four ports mentioned in the policy, to Europe), where she took on board the remainder of her cargo and returned with it to Batavia, whence she sailed for Europe and was afterwards lost by the perils of the seas.

The Court of King's Bench held that this putting into Sourabaya for the purpose of completing her cargo was no deviation; and the Court of Exchequer Chamber confirmed their judgment (*i*).

Lord Tenterden remarked that, from the circumstances of the case and the terms of the policy, the object of the assured plainly appeared to be to protect himself against loss, whatever kind of goods might be sent him, at whatever port they might be loaded, and by whatever ship they might be sent; that the underwriter accordingly, by subscribing such a policy, must be understood to have intended to afford a protection equally extensive, if the language of the policy would admit of such a construction (*k*). In the opinion of the two Courts, the very extensive powers given by the policy, the order in which the four places named stood in the policy (*l*), and the mention of Persia, more than a thousand miles out

(*i*) Hunter *v.* Leathley (1830), 10 B. & C. 858; *S. C.*, confirmed in error (1831), 7 Bing. 517; *S. C.*, at N. P., Ll. & Wels. 244.

(*k*) See 10 B. & C. 871.

(*l*) The geographical order is—(1) Penang; (2) Malacca; (3) Singapore; (4) Batavia. The order in the policy is—(1) Singapore; (2) Penang; (3) Malacca; (4) Batavia.

Sect. 404. of the direct course of the voyage, showed that a voyage in the direct geographical course was not intended.

The purpose of the visit must be within the scope of the voyage.

† **405.** Even though the port visited may be within the terms of the policy, yet the question still remains, whether the purpose for which it was visited was within the scope of the adventure contemplated by the policy; otherwise the visit will be a deviation.

However extensive may be the language of the clauses, "the permission to stay 'for any purpose whatever,' must be for some purpose within the scope of the adventure" (*m*). "The liberty in the policy must always be construed with reference to the main scope of the voyage insured" (*n*).

Williams v. Shee.

† Thus, where goods were insured "at and from London to Berbice, with liberty to touch and stay at any ports and places whatsoever and wheresoever, and for all purposes whatsoever, particularly to land, load and exchange goods, without being deemed a deviation," Lord Ellenborough held that, notwithstanding the extensive terms in which this liberty was conceived, the ship, which had sailed with convoy, was guilty of a deviation by putting in to Madeira for the purpose of unloading goods and taking on board wines (which did not form part of the subject of the insurance), and there delaying for that purpose till after the convoy had proceeded on the voyage (*o*).

Hammond v. Reid.

† A ship was insured "at and from Para to New York," during her stay there, and at and from thence to Para, "with leave to call at all or any of the Windward and Leeward Islands on her passage to New York, with leave to discharge, exchange and take on board the whole or any part of any

(*m*) Per Gibbs, J., in Langhorne *v.* Allnutt (1812), 4 Taunt. 510, 519; see also Rucker *v.* Allnutt (1812), 15 East, 278; Thames & Mersey Mar. Ins. Co. *v.* Van Laun, *ante*, § 382a.

(*n*) Per Lord Ellenborough in Williams *v.* Shee (1813), 3 Camp. 469.

(*o*) Williams *v.* Shee (1813), 3 Camp. 469; see also Redman *v.* Loudon (1813), *ibid.* 503, which was a policy on the same ship for the same voyage, without the clause, and in which it was admitted there had been a deviation.

cargo and cargoes at any ports or places she might call at or proceed to, particularly at all or any of the Windward and Leeward Islands, without being deemed any deviation and without prejudice to this insurance." Under this extensive liberty, the ship, after sailing from Para, on her passage to New York, put into St. Thomas's and St. Bartholomew's, two of the Leeward Islands, not for any purpose connected with the voyage insured, but in order to obtain information for the shipowner whether the state of the market in those islands was such as to make it worth his while to send goods out there in another vessel of his, on a separate adventure, from New York. The Court held that, although these islands were undoubtedly within the language of the policy, yet putting into them for a purpose wholly unconnected with the voyage insured, and which had reference to some new adventure, subsequently to be undertaken in another vessel, was a deviation (*p*). Sect. 405.

Solly v. Whitmore.

† A ship was insured on an outward voyage, "at and from Hull to her port or ports of loading in the Baltic or Gulf of Finland, with liberty in the said voyage to touch and stay at any ports or places whatever, for all purposes, particularly at Elsinore, without being deemed a deviation." The ship's intended port of loading was Pillau; before sailing, however, she had taken goods on board for Elsinore and Dantzic, and on her voyage she stopped at both these places, in order to deliver those goods, and was afterwards lost before reaching Pillau: the Court held, under this policy, that the stopping to deliver goods, being a purpose wholly foreign to the main object of the voyage insured, was a deviation. "If," said Abbott, C. J., "the ship had gone into Elsinore or Dantzic, to see if she could get a cargo, that would have been a purpose connected with the voyage, and consequently would not have been a deviation. But the vessel, in fact, went into those ports for the purpose of delivering goods, which

(*p*) Hammond *v.* Reid (1820), 4 B. & Ald. 72.

Sect. 405.

was wholly unconnected with the object of the voyage insured" (*q*).

Laing *v.* Union Mar. Ins. Co.

A ship was insured from Haiphong, in Tonquin, to any ports or places in any order in Japan, "with leave to call at any ports or places in or out of the customary route in any order for all purposes." She went from Haiphong to Hongay, where she loaded a cargo of coals for Hongkong, and was lost between Hongay and Hongkong. Mathew, J., held that the loss was not covered by the policy. There was no direct trade, he said, between Tonquin and Japan, and the underwriter was entitled to assume that the ship would go in ballast straight to Japan, calling at "ports or places" for purposes incidental to a voyage from Tonquin to Japan (*r*).

Company of African Merchants *v.* Brit. & For. Mar. Ins. Co.

A ship was insured "at and from Liverpool to the west and (or) south-west coast of Africa, during her stay and trade therein, and back to a port of call or (and) discharge in the United Kingdom." The vessel, after she had completed her loading for the return voyage, stayed a month on the African coast for the purpose of earning salvage; she was damaged while in that employment, and was afterwards totally lost on the voyage home. It was held that salvage, in the absence of usage, could not be construed to be a purpose within the licence contained in the policy, and consequently that the risk had been substantially varied by what had been done (*s*).

An intermediate voyage not connected with that insured is not covered.

406. In like manner, although the words of the clause are of the most extensive nature, the ship will not be protected by such a policy if, at the time of loss, she be on an intermediate voyage, not subordinate to or connected with the voyage or voyages contemplated by the parties as the principal objects of the contract (*t*) (unless sanctioned by a well-established usage).

Bottomley *v.* Bovill.

A ship was insured "at and from London to New South

(*q*) Solly *v.* Whitmore (1821), 5 B. & Ald. 45. It is somewhat difficult to reconcile this case with Armett *v.* Innes, *ante*, § 404.

(*r*) Laing *v.* Union Marine Ins. Co. (1895), 1 Com. Cas. 11.

(*s*) Company of African Merchants *v.* Brit. & For. Mar. Ins. Co. (1873), L. R. 8 Exch. 154. Whether and how far purposes of salvage will justify deviation is considered *post*, § 434.

(*t*) Bottomley *v.* Bovill (1826), 5 B. & Cr. 210.

Sect. 406.

Wales, and at and from thence to all ports or places in the East Indies and South America," with liberty "to proceed and sail, to touch and stay at any ports whatsoever, &c., for all purposes whatsoever, particularly to trade and sail backwards and forwards and forwards and backwards." Under this policy the ship sailed from London with convicts for New South Wales, and soon after arriving there the captain received orders from his employers to proceed from New South Wales to the East Indies. Before this, however, he had entered into engagements for a voyage to New Zealand and back again to New South Wales, and accordingly sailed on this voyage, intending to return to New South Wales, and then to sail, as directed by his employers, for the East Indies. On his way back, however, from New Zealand, his ship was lost, and the underwriters resisted payment, on one ground, amongst others, that as New Zealand lay entirely out of the course of the voyage from New South Wales to the East Indies, the sailing thither was a deviation, even under the extensive terms of this policy, and the Court, on the principle already stated, held that it was so (*u*).

Hamilton *v.* Sheddon.

Upon the same principle, where an insurance was effected on goods on board a ship which, as appeared upon the face of the policy, was meant to act as a tender to other ships employed in the palm oil trade on the African coast, the Court held that it was a deviation for a ship so insured to sail away from the Benin river (where she had been for some time acting as a tender) to Cameroons with the cargo of one of the oil ships which had gone ashore at the bar of the Benin river, although the policy contained the most extensive liberty to touch and stay (*x*), because instead of her sub-

(*u*) Bottomley *v.* Bovill (1826), 5 B. & Cr. 210.

(*x*) The policy was "at and from Liverpool to any port or place of loading and trade on the African coast and islands during her stay and trade there, and at and from thence to her port or ports of discharge in the United Kingdom, with leave to call at all ports and places, backwards and forwards and forwards and backwards, in any order, for any purpose, without being deemed a deviation; and with liberty also for the said ship in the said voyage to proceed and sail to and touch and stay at any ports or places whatsoever, and to load, unload, reload, sell,

Sect. 406.

sidiary duties as tender she had assumed the responsibilities of a principal voyage (*y*).

Trading no deviation if it has not caused delay.

407. We now come to the consideration of those cases which establish the position that if the ship under the terms of the policy was justified in originally visiting the port, any trading during her lawful stay, although foreign to the main purposes of the adventure, is not a deviation unless it causes additional delay or otherwise substantially varies the risk.

Formerly the rule was different.

In the earlier cases the contrary was laid down (*z*). Those cases, however, were overruled by the following authorities, which have established the rule stated above.

Cases in the present rule.

Raine *v.* Bell.

Ship and freight were insured "from the ship's loading port or ports on the coast of Spain to London, with liberty to touch and stay at any port or place whatever without being deemed a deviation." The ship was obliged to put into Gibraltar for provisions, and while there the captain also took on board some chests of dollars on freight. The putting into Gibraltar was justifiable, and no additional delay was caused by taking the dollars on board. The Court, therefore, held that there had been no deviation (*a*). Lord Ellenborough also said that the increased temptation to attack caused by taking treasure on board was not such an alteration of the risk as to discharge the underwriter.

Cormack *v.* Gladstone.

So, where a ship was insured "from Stockholm to New York," it was held no deviation for the owner of live stock on board to take in provender for their use, while the ship, as was then customary, was waiting at Elsinore for the purpose of taking convoy and paying Sound dues; the whole

barter, and exchange goods and property, &c., particularly with liberty to tranship," and with a memorandum "that the said vessel might be employed and used as a tender to any other ship or vessel in the same employ."

(*y*) Hamilton *v.* Sheddon (1837), 3 M. & W. 49.

(*z*) See Stitt *v.* Wardell (1798), 2 Esp. 610; Sheriff *v.* Potts (1803), 5 Esp. 96. The latter case may be supposed to have proceeded partly on the principle that *expressio unius est exclusio alterius;* but even then it is overruled by Laroche *v.* Oswin (1810), 12 East, 131.

(*a*) Raine *v.* Bell (1808), 9 East, 195.

Sect. 407.

of such provender having been loaded on board before the Sound dues could be paid, so that no additional delay was thereby occasioned (*b*).

It makes no difference whether the policy is on ship or freight, or on goods.

408. In the case of Raine *v.* Bell, where the policy was on ship and freight, Lord Ellenborough expressly reserved his opinion as to the effect of a change in the state of the cargo upon a policy "on goods." The following case resolves this doubt, and shows that it makes no difference whether the policy be on goods or any other subject of insurance.

Laroche *v.* Oswin.

Goods were insured "at and from Gottenburg to a port or ports in the Baltic with liberty, in case of non-admittance, to unload at Carlshamn." After the ship had sailed from Gottenburg with convoy, and while she was lying in Malmoe Roads under orders of the commodore to prepare for sailing, a boat came alongside with some boxes of indigo, which formed no part of the original intended cargo, but were all got on board without any delay to the ship. The Court held this was no deviation (*c*), "for the risk insured was neither enhanced nor varied; but something was done in the course of the voyage which made no difference in either, and therefore was no discharge of the underwriter's liability" (*d*).

Cases in the United States.

The principle of interpretation thus established in English law has received abundant confirmation in the jurisprudence of the United States. Thus, where a ship, under liberty to touch and stay, sold part of her cargo while detained in port by an embargo (*e*), or while waiting for necessary repairs (*f*), or for fear of capture (*g*), such trading was held not to amount to a deviation, because proved to have caused no delay and no variation of the risk.

(*b*) Cormack *v.* Gladstone (1809), 11 East, 347.

(*c*) Laroche *v.* Oswin (1810), 12 East, 131.

(*d*) Per Lord Ellenborough, 12 East, 133.

(*e*) Kingston *v.* Girard (1803), 4 Dall. R. 274; Condy's Marshall, 189; 1 Phillips, s. 999.

(*f*) Kane *v.* Columbian Ins. Co. (1807), 2 Johns. R. 264; 1 Phillips, s. 999.

(*g*) Hughes *v.* Union Ins. Co. (1818), 3 Wheaton, R. 159; 1 Phillips. s. 999.

Sect. 409.

Additional delay caused by such trading terminates the risk.

409. In all such cases, however, if additional delay is caused by the trading, it will terminate the risk (*h*). Any act of trading not contemplated by the parties to the policy, and unconnected with the main object of the adventure, is justifiable only on condition that it be completed during the period of her lawful stay, at an allowed port, for a justifiable purpose (*i*).

Aliter, if no additional delay. Warre *v.* Millar.

But, if no additional delay or variation of the risk is caused, the mere fact of putting into a port or place with a twofold purpose, partly connected and partly unconnected with the adventure contemplated by the policy, will not amount to a deviation or terminate the risk. Thus, where a vessel, sailing outwards from London to Grenada, was insured on freight homewards "at and from Grenada to London," and on arriving at the island (where there is but one custom-house) proceeded to deliver her outward cargo in different bays there, and was lost in entering one of these bays for the twofold purpose of delivering the remainder of her outward, and taking in a homeward, cargo, it was held that this was no deviation, but that the underwriters were liable for the loss of the homeward freight (*k*).

(*h*) "It will amount to a deviation" were Arnould's words. See, however, note (*i*) to sect. 48 of the Mar. Ins. Act, 1906, *ante*, § 376.

(*i*) Williams *v.* Shee (1813), 3 Camp. 469. See Company of African Merchants *v.* British and Foreign Mar. Ins. Co. (1873), L. R. 8 Ex. 154. Inglis *v.* Vaux (1813), 3 Camp. 437, was cited by Arnould as an authority for the rule that "even where the delay is partly for a purpose connected with the main objects of the voyage insured, if it be partly for another which is entirely foreign to it, such delay will be regarded as a deviation." Arnould, as his statement of the case shows, only meant that if the master of the ship stayed longer in Antigua than was reasonably necessary to dispose of the outward cargo, so that the real object of his prolonged stay was to procure a homeward cargo, the risk on the outward voyage came to an end. If Lord Ellenborough meant to decide that a stay in port, necessary for the purposes of the insured voyage, puts an end to the risk because the master also utilizes it for the purposes of the succeeding voyage, his decision is entirely opposed to the weight of authority.

(*k*) Warre *v.* Millar (1825), 4 B. & Cr. 538; *S. C.*, at N. P. (1824), 1 C. & P. 237. In this case it was held that the delivery of the outward cargo was a necessary preparation for the homeward voyage, and therefore what was done for that purpose was no deviation. It is clear that the discharge of the outward cargo had occupied time.

Sect. 410.

Distinction between Hammond *v.* Reid and Raine *v.* Bell.

410. The line of distinction between the class of cases of which Hammond *v.* Reid (*l*) is the leading authority and those which are governed by Raine *v.* Bell (*m*), though not at first sight obvious, is, in reality, sufficiently clear. In Hammond *v.* Reid, and cases of that class, the ship would not have touched at the port at all except for some purpose totally unconnected with the main object of the voyage insured; and the execution of that purpose was itself the sole cause of the delay. In Raine *v.* Bell, and the cases decided on its authority, the ship had originally put in, and was actually staying at, the port for some purpose connected with the voyage; and, during her justifiable and necessary stay there, some act was done, which, though in itself unconnected with the adventure, and not originally contemplated by the parties to the policy, was held not to be a deviation, because there was no material variation of the risk, and no delay which would not otherwise have occurred. For instance, in Hammond *v.* Reid, the ship would never have touched at St. Bartholomew's at all, except for the purpose,—wholly alien to the object of the voyage insured,—of procuring information for the guidance of another adventure. In Raine *v.* Bell, the ship, when the dollars were put on board, was actually staying at Gibraltar for provisions, without which the voyage insured could not have been prosecuted, and no extra delay or risk was incurred by taking the dollars on board.

Summary of the rules established by the cases.

411. The principles of law, therefore, applicable to the interpretation of these clauses, appear to be,—

1. That the extent of the powers they confer on the ship is to be judged of, not so much by verbal criticism on the terms employed (such as "to call," "to touch," or "to touch and stay"), as by reference to the true scope and nature of the adventure contemplated by the policy.

(*l*) *Ante*, § 405.

(*m*) *Ante*, § 407.

Sect. 411.

2. That, however extensive the language of these clauses may be, they can never confer a power of visiting ports out of that which, upon a fair construction of the whole policy, appears to have been the course of the voyage insured as contemplated by the parties; nor can they justify the ship in visiting any port, even though within the local limits of the voyage insured, for any purpose unconnected with the main object of the adventure.

3. If the ship visits an allowed port for an allowed purpose, no trading, breaking bulk, landing, or loading cargo, however alien to the main object of the adventure, will make the visit a deviation if the trading, &c. be completed during the period of the ship's lawful stay in such port without additional delay or substantial variation of the risk.

4. If, however, such trading give rise to delay that would not otherwise have been incurred, it will, on that ground, discharge the underwriter from liability as from the time when the delay began (*n*).

Change of risk by delay.

412. Sect. 48 of the Marine Insurance Act, 1906, declares that—

> In the case of a voyage policy, the adventure insured must be prosecuted throughout its course with reasonable despatch, and, if without lawful excuse (*o*) it is not so prosecuted, the insurer is discharged from liability as from the time when the delay became unreasonable.

As the sole ground upon which a deviation discharges the underwriter is that it varies the risk, and as it is evident that the risk may be as much varied by a delay in commencing or prosecuting the voyage as by a local divergence from its prescribed course, the rule was established that every such delay, if unreasonable or unexcused, will discharge the underwriter. In the words of Tindal, C. J., "The voyage in the commencement or prosecution of which any unreasonable delay takes

(*n*) See Mar. Ins. Act, 1906, s. 48, *infra*.
(*o*) See sect. 49, § 424a.

Sect. 412.

place, becomes a voyage at a different period of the year, at a more advanced age of the ship, and, in short, a different voyage than if it had been prosecuted with reasonable and ordinary diligence; the risk is altered from that which was intended by all parties when the policy was effected" (*p*).

Delay in commencing the voyage.

413. To begin with the commencement of the voyage, it is clear that, under an insurance "at and from," any unreasonable delay that takes place between the time when the policy attaches on the ship "at" the port, and the time when she sails on her voyage, will discharge the underwriter (*q*). As long, indeed, as she is *bonâ fide* preparing for her voyage, as by repairs, &c., the delay will be held excused, and the underwriter liable; but if all thoughts of the voyage be laid aside, and the ship still kept lying in port, the underwriter is discharged (*r*). So, although the voyage be not abandoned, yet any waste of time or unnecessary delay in port, not excused by justifying cause, nor in any degree connected with the purposes of the voyage insured, is held to vary the risk; as where a yacht lying in Bristol harbour was insured on a voyage "at and from Bristol to London," and did not sail for five months after the policy was effected (*s*).

Delay in the course of the voyage.

414. That an unreasonable delay in performing the voyage insured is equivalent to a deviation (*t*), was expressly ruled by Lord Mansfield, in the case of Hartley *v.* Buggin, in which, the ground of defence being the detention of the ship as a floating slave depôt on the African coast, his Lordship said, "The single point before the Court is, whether there has not

(*p*) Per Tindal, C. J., in Mount *v.* Larkins (1831), 8 Bing. 122.
(*q*) The consequence is the same when the delay takes place before the risk has commenced; see Mar. Ins. Act, 1906, s. 42, *ante*, § 376; but delay, when it prevents the policy attaching, properly belongs to the subject of the chapter on duration of the risk, and is considered there. See *post*, §§ 479, 483.
(*r*) Per Lord Hardwicke in Motteux *v.* London Ass. Co. (1739), 1 Atkyns, 545; Chitty *v.* Selwyn (1742), 2 Atkyns, 359.
(*s*) Palmer *v.* Marshall (1831—1832), 8 Bing. 79, 317.
(*t*) See note (*i*), *ante*, § 376.

Sect. 414.

been what is equivalent to a deviation—whether the risk has not been varied, no matter whether the risk has or has not been thereby increased" (*u*). So, where a vessel engaged in the African palm oil trade, with liberty to act as a tender to other ships in the same employ, was kept thirteen months in the Benin river, this was found by the jury to be an unreasonable delay, and the Court refused to disturb their verdict (*x*).

Delay at the termination of the voyage.

A delay at the termination of the voyage insured is, if unexcused and unreasonable, as fatal as though it had occurred in any of its intermediate stages. Thus, where a ship insured "at and from Sierra Leone to London" was delayed in the Thames, off Deptford dockyard, from the 18th to the 27th of February, before she was admitted into the dock to unload her cargo, it was not disputed that this delay, if unexcused or unnecessary, would amount to a deviation at that, as at any other, stage of the voyage (*y*).

When the master of a ship remained in port for several weeks for the purpose of building a house for himself, and waiting the issue of two sealing voyages on which he had despatched another vessel, this was found, on special verdict, to be an unreasonable and unjustifiable delay (*z*).

In short, whenever the delay exceeds a reasonable time, or is incurred for purposes unconnected with the true object of the voyage insured, it will determine the insurance (*a*).

Limit of express leave.

As every special clause contained in the policy must be strictly construed, it follows that, if express permission be given in the policy to delay for a given time specified in the

(*u*) Hartley *v.* Buggin (1781), 2 Park, 652. See, in illustration of the same principle, Phillips *v.* Irving (1844), 7 M. & Gr. 325; see also Pearson *v.* Commercial Union Ass. Co., in the Ex. Ch. (1873), L. R. 8 C. P. 548; in the House of Lords (1876), 1 App. Cas. 498—a case on a fire policy which (although the result might have been different in a voyage policy) is an authority for the principle that a delay on a voyage for a collateral purpose is unjustifiable. The facts of the case are set out *post*, § 509.

(*x*) Hamilton *v.* Sheddon (1837), 3 M. & W. 49; see also Hyderabad (Deccan) Co. *v.* Willoughby, [1899] 2 Q. B. 530.

(*y*) Samuel *v.* Royal Exch. Ass. Co. (1828), 8 B. & Cr. 119.

(*z*) Mount *v.* Larkins (1831), 8 Bing. 108.

(*a*) See Thames & Mersey Mar. Ins. Co. *v.* Van Laun, *ante* § 382a.

policy, that delay cannot lawfully be prolonged. Thus, where liberty was given in the policy "to wait two months at Monte Video if needful," a longer delay than two months was held to discharge the underwriters (*b*).

Sect. 414.

Necessary delay for purpose of voyage justifiable.

415. It is only, however, an unreasonable or unexcused delay, *i.e.*, a wilful and unnecessary waste of time, that will put an end to the insurance; if justified by necessity, or incurred *bonâ fide* with a view to the purposes of the voyage insured, the underwriter will not be discharged by the delay, although its absolute duration may be very considerable. "To discharge the policy," says Lord Ellenborough, "there must be a clear imputation of waste of time; mere length of time elapsing between the sailing of the vessel and the underwriting of the policy is not of itself sufficient, for it is capable of explanation" (*c*). "What delay will constitute a deviation," says Story, J., "depends on the nature of the voyage and the usage of trade. That delay which is necessary to accomplish the objects of the voyage, according to the course of the trade, if incurred *bonâ fide*, cannot be admitted to avoid the insurance" (*d*). So, Tindal, C. J., lays it down that the "detention for a reasonable time, for the purposes of the adventure, must be allowed; and whether the delay be reasonable or not must be determined, not by any positive or arbitrary rule, but by the state of things existing at the time at the port where the ship happens to be" (*e*).

Smith *v.* Surridge.

A ship insured on the 15th of May "at and from Pillau to London," and then lying at Pillau, was obliged to be thoroughly repaired there before she could sail on the voyage insured; these repairs were not completed till the end of June, when the water in the harbour had become so low that she could not get over the bar, and she did not actually sail

(*e*) In Phillips *v.* Irving (1844), 7 M. & Gr. 328.

Sect. 415.

till November. Lord Kenyon held that this was not such a delay as to discharge the underwriter (*f*).

Grant v. King.

A policy was effected in August, 1789, on an American ship "at and from Brest to London," against British capture, while she was lying in Brest Harbour, then blockaded by the British. The ship did not sail till March, 1790. It was contended that this delay of nearly seven months discharged the underwriters; but proof having been given that the voyage had never been abandoned, and that the time had been consumed in *bonâ fide* attempting to procure an American crew from England (there being no possibility of doing so in France), a special jury, under the direction of Lord Ellenborough, found for the plaintiff. Lord Ellenborough told the jury that while the vessel was in a fair state of preparation for the voyage it was covered by the policy; but if the voyage was abandoned for a length of time, the underwriters would be discharged. "The question whether there was an abandonment of the original adventure is to be decided," said his Lordship, "from a fair review of all existing circumstances at the time when the voyage might reasonably be presumed to commence. Here the extreme difficulty of obtaining men is to be taken into consideration" (*g*).

When is the delay justifiable?

416. The main point in all these cases is whether the delay was *bonâ fide* incurred with a view to promote and carry out the main objects of the voyage insured. If it was, there is no ground for saying that the voyage was not prosecuted with reasonable despatch.

Schroder v. Thompson.

Thus, where a vessel, chartered for the timber trade between this country and the United States, was insured on a voyage "from London to her loading port in Virginia and back to London," it was held that her waiting fifteen months at Norfolk, her loading port, until an embargo was taken

(*f*) Smith *v.* Surridge (1801), 4 Esp. 25. The detention after the end of June was, of course, unavoidable; the previous delay was a necessary one.

(*g*) Grant *v.* King (1802), 4 Esp. 175.

off, and long enough afterwards to take on board a cargo of lumber there, did not discharge the underwriter, although the ship might have sailed home in ballast immediately the embargo was laid on (*h*). Sect. 416.

Bain v. Case.

So, where the captain of a ship, insured on a trading voyage to all or any ports in the North or South Pacific Ocean, delayed one hundred and nine days at one of the ports in those seas in the hope of getting permission to land her outward cargo, for which purpose he was during that time negotiating with the government, a special jury, under the direction of Lord Tenterden, found that the delay under the circumstances was not unreasonable (*i*).

Phillips v. Irving.

So, where a seeking ship, insured on a trading voyage "at and from London to Bombay and thence to China and back to the United Kingdom," stayed at Bombay for more than six months after she was ready to take in cargo there for the purpose of procuring a remunerative freight, such delay was held to be justifiable, since it was for a purpose strictly connected with the main object of the adventure (*k*).

The law is the same in the United States.

417. In the jurisprudence of the United States the same principle has been illustrated by several decisions, which appear to have proceeded on a very sound application of general rules (*l*). Thus, if a vessel enters a port to dispose of her cargo, it has been decided by Story, J., that the master may stay there a reasonable time for that purpose, though he meets with no success. In the case alluded to, insurance was made on a cargo of flour "from Alexandria to St. Thomas, and two other West Indian ports, and back to the United States"; and the ship on arriving at St. Thomas remained there seventy-two days, during which time the master

(*k*) Phillips *v.* Irving (1844), 7 M. & Gr. 325.

(*l*) See 1 Phillips, Ins. s. 1002, and especially Suydam *v.* Mar. Ins. Co. (1807), 2 Johnson, R. 138; Lapham *v.* Atlas Ins. Co. (1833), 24 Pickering, R. 1.

Sect. 417.

endeavoured, but with only partial success, to dispose of his outward cargo at the price limited by his instructions: the Court held this delay no deviation, although it was proved that the captain might at once have sold his flour at half a dollar per barrel less than the limited price (*m*).

Remarks of Story, J.

In answer to the argument that the delay to procure the limited price was unreasonable, Story, J., in delivering the judgment of the Court, says: "In almost every voyage of this nature, where different ports are to be visited for the purposes of trade, and to seek markets, it is almost universal to prescribe limits to the price of sales. It cannot be that the master, if entitled to go to a single port only, is bound to sell, at whatever sacrifice, as soon as he arrives at that port, and within that period at which he may unload and reload a return cargo. He must, from the very nature of the case, have a discretion on this subject. He is not bound to sell the whole cargo at once, whatever may be the sacrifice, and thus frustrate the projected adventure. He must exercise on this, as in all other cases, a sound discretion for the interests of all concerned. To be sure, if the owner should limit the price to an extravagant sum, or the master should delay, after all reasonable expectations of a change of market were extinguished, such circumstances might probably be left to a jury to infer a delay amounting to a deviation" (*n*).

Deviation by cruising (*o*).

418. On the principle that every unexcused departure from the usual mode of conducting the voyage by which the risk can be varied amounts to a deviation, Lord Kenyon

(*m*) Columbian Ins. Co. *v.* Catlett (1827), 12 Wheaton, R. 383; 1 Phillips, s. 1002.

(*n*) *Ibid.* See also Ellery *v.* New England Ins. Co. (1829), 8 Pickering, R. 14; 1 Phillips, s. 1002.

(*o*) The United States and Spain—the two most important maritime Powers who had not formally adhered to the Declaration of Paris—decided in their late war not to issue letters of marque, and Spain has since formally adhered to the Declaration. The cases on deviation by cruising have, therefore, now little practical importance. The editors only retain them in an abbreviated form because they illustrate principles of general importance.

Sect. 418.

Carrying letters of marque without leave not a deviation.

once held that the mere fact of carrying letters of marque without the cognizance or consent of the underwriters on a ship insured on a trading voyage was a fatal deviation; for although she had never made use of such letters, nor ever diverged from the usual track of the voyage, they varied the risk which the underwriter had assumed by giving the assured a temptation to deviate (*p*).

The law, however, as thus laid down must now be considered to be overruled. Lord Kenyon himself, on a subsequent occasion, admitted that the case was decided on principles which were new, and which went to the very verge of the law (*q*), and he refused to extend them to a case where the letters of marque were taken on board without any intention of cruising, but solely for the purpose of more easily procuring a crew (*r*). Later judges have demurred entirely, not only to the law as laid down by Lord Kenyon, but to the principles on which he grounds it. Lawrence, J., says: "If an intention to deviate not carried into effect will not avoid a policy, still less can a temptation to deviate" (*s*). And Lord Ellenborough declared the general opinion in his time to be that a "mere irritation of this sort shall not operate as a deviation" (*t*).

Cruising by a trading ship is a deviation.

419. If a ship on a mere mercantile adventure carries letters of marque with the consent of the underwriters, but without express liberty in the policy so to do, there has been some doubt as to the extent to which she would be justified in departing from the direct course of the voyage insured.

The true principle, said Arnould, appears to be, that no departure from the usual course of the voyage caused by repelling hostile force, or even attacking an enemy's ship, will be held a deviation, provided it can fairly be attributed

(*p*) Dennison *v.* Modigliani (1794), 5 T. R. 580.

(*q*) See 6 T. R. 382.

(*r*) Moss *v.* Byrom (1795), 6 T. R. 379.

(*t*) Jarratt *v.* Ward (1808), 1 Camp. 266.

Sect. 419. to motives of self-defence (*u*). If, however, such a vessel, from a desire of profit, cruises, *i.e.*, lies by, or departs from the direct course of the voyage, in hopes of meeting with prizes, that is a deviation (*x*).

Chasing an enemy in self-defence.

420. It is, however, admitted that if an enemy comes in the way she may engage in her own defence, and prosecute the engagement to capture, even though in so doing she may be obliged to depart from the direct course of the voyage (*y*). It appears equally clear that if an enemy comes across her course she may attack and take him from other motives than those of self-defence, if the so doing does not involve any departure from the direct course of the voyage (*z*).

The really doubtful point is, whether a ship so circumstanced has a right to alter her course for the purpose of chasing a strange sail. Lord Mansfield held that the ship has a right to give chase (*a*); but in a subsequent case Lord Ellenborough was strongly inclined to think that if the departure from the course was for the purposes of hostile capture it was a deviation; but if it were *bonâ fide* for the purposes of defence, as by making a show of confidence to deter the enemy from attack, or with a view to obtain some advantage in the conflict, or the like, in that case it was no deviation (*b*).

Law on this point in the United States.

421. The subject has occupied the attention of the Courts of the United States (*c*), and the law has been laid down by

(*u*) The Mar. Ins. Act, 1906, s. 43 (1) (d), *post*, § 424a, provides that a deviation is excused, when reasonably necessary for the safety of the ship or subject-matter insured. Probably, therefore, it is now more correct to say that there is a deviation when a merchant ship, not having leave to carry letters of marque, departs from her course to attack an enemy, but that the deviation may be excusable.

(*x*) Cock *v.* Townson (temp. Lord Camden), 2 Park, 630. As to what constitutes cruising, see Syers *v.* Bridge (1780), 2 Dougl. 527.

(*y*) Jolly *v.* Walker (1781), 2 Park, 630; Parr *v.* Anderson (1805), 6 East, 202.

(*z*) Jolly *v.* Walker (1781), 2 Park, 630.

(*a*) *Ibid.*

(*b*) Parr *v.* Anderson (1805), 6 East, 202.

(*c*) See the cases of Wiggin *v.* Amory (1816), 13 Mass. R. 127;

Sect. 421. Story, J., in the following terms:—"Whether a vessel be commissioned or not, she has a right to repel any attempt of an enemy, and to protect and defend herself by all reasonable precautions against a meditated hostile attack. If a vessel, supposed to be an enemy cruiser, be in sight, and apparently intend to attack a merchant vessel, the master of the latter is bound to exert his best skill and judgment as to the time and mode of his defence; and if he act honestly and fairly, he will be justified, whatever may be the event. He is not bound to endeavour to make his escape in the first instance; and on failure of this, to meet the enemy. He may lay-to or chase the enemy, if he deem that the most effectual way to secure his object. The only question in cases of this nature is whether what is done is fairly attributable to motives of self-defence or to motives of another nature—such as a desire to profit: if the latter, then it is a deviation" (*d*). The learned Judge further held that delay for the purpose of manning a prize justifiably captured by a merchant ship carrying letters of marque, but without express liberty so to do, was no deviation; for the right to make the capture at all drew after it the right to make the capture effectual, and it would be most mischievous to the interests of trade to discourage men from making a gallant defence, from the knowledge that in no event could they reap a reward for their victory (*e*).

Chancellor Kent, in his Commentaries, speaks of this case as having confided to the captain a pretty enlarged discretion as to the best mode of defence, and one carried to the very verge of the law (*f*); but the decision seems conformable to the spirit of the maritime law, if not to the very letter of the earlier authorities.

Construction of clauses

422. The cases hitherto considered have been principally

Wiggin *v.* Boardman (1817), 14 Mass. R. 12; Haven *v.* Holland (1820), 2 Mason, R. 230; cited 1 Phillips, ss. 1029, 1030.

(*d*) See 1 Phillips, s. 1030.

(*e*) Haven *v.* Holland (1820), 2 Mason, R. 230.

(*f*) 3 Kent, Com. 316.

Sect. 422.

giving a liberty "to cruise," &c.

those in which the policy has contained no clauses empowering the ship "to cruise," "to carry letters of marque," &c.

The general rule of construction with regard to all such permissions is that they should be construed strictly, so as not to extend their force beyond the plain meaning of the words in relation to the subject-matter and the intention of the parties, as collected from the whole of the document (*g*). Thus, where a ship was insured "with a liberty to cruise six weeks," this was held to mean six weeks successively from the commencement of the cruise, and not for six weeks at different periods (*h*).

Construction of the clause "with or without letters of marque."

Under such clause may a trading ship alter her course to chase a strange sail?

Again, where a ship, insured on a slaving voyage, "with or without letters of marque," saw a sail which she did not know to be an enemy, about a quarter of a point on her lee-bow, and she altered her course accordingly, and gave chase for about a quarter of an hour, when she abandoned it, and returned into the direct course of the voyage insured, Lord Ellenborough, at the trial, and afterwards in banc, was strongly inclined to think that under the clause in question this was a deviation (*i*).

Exclusive effect of a positive permission.

423. When such clauses contain an express permission to do certain specified things, the principle *expressio unius est exclusio alterius* applies, and the permission cannot be extended to objects not mentioned in the policy.

To man, not to convoy.

Thus, where a ship was insured on a slaving and trading adventure, "with or without letters of marque, with leave to chase, capture, and man prizes," Lord Ellenborough held that this permission did not authorize the captain, after having taken a prize, to shorten sail and lie to in order to keep company with the prize while convoying her to port, although the port to which he was so convoying her was within the

(*g*) Per Lord Ellenborough in Lawrence *v.* Sydebotham (1805), 6 East, 51.
(*h*) Syers *v.* Bridge (1780), 2 Dougl. 527.
(*i*) Parr *v.* Anderson (1805), 6 East, 202. See further as to this case, 2 Park, 632; and see 1 Phillips, ss. 1029, 1030; 3 Kent, Com. 315.

Sect. 423.

limits of the voyage insured (*k*). In a similar case, however, in the United States, it has been held, apparently on good grounds, that the mere act of convoying a prize to port under such liberty, is not a deviation unless it involves delay or departure from the direct course of the voyage (*l*).

To "capture, man, and see into port" is not to delay in port.

It has been held that leave to "capture, man, and see into port any enemy's ships," did not authorize the ship to remain in port while a prize was receiving necessary repairs there, but at most to see the prize moored safely, and give the necessary orders for its final destination (*m*).

Cruising restricted in locality.

So, where a ship, insured for the Southern whale fishery, with liberty "to chase, capture, and man prizes, &c., and also to cruise thirty-one days, either together or separate, anywhere and in any latitude on the outward bound passage, on this side of Cape Horn," lay to for nine days, for the purpose of capturing a prize, off a port within the limits of her fishing ground, but on the other side of Cape Horn, the Court held: 1st. That such lying to was not within the liberty to chase, capture, or man, but was a cruising; 2nd. That, as such, it came within the clause giving liberty to cruise for thirty-one days on this side Cape Horn, and, therefore, that having taken place on the other side of Cape Horn, it was a deviation (*n*).

Rule as to acts which change the risk.

424. "From the above cases it has sufficiently appeared," said Arnould (*o*), "that the real ground of the underwriter's discharge is change of risk; any change of risk accordingly, though not arising from any of the causes hitherto considered, will be a good defence to the action, if the underwriter can show it to have arisen from the fault or with the knowledge of the assured, but not otherwise. Thus, where it appeared that three Spanish prisoners of war, who had been taken on board on parole, without the knowledge of the

(*k*) Lawrence *v.* Sydebotham (1805), 6 East, 45.
(*l*) Ward *v.* Wood (1816), 13 Mass. R. 539; 1 Phillips, s. 1030.

(*o*) 2nd ed. p. 450; 6th ed. p. 498.

Sect. 424. underwriters, had, together with the crew, mutinously run the ship ashore, and the insured on the goods brought an action for loss by barratry, Lord Ellenborough held that, though the taking these men on board might slightly have increased the risk, yet, as there was no culpable intention in taking them on board, in the first instance, nor any gross negligence in watching them afterwards, the underwriters could not defend themselves on the ground that the risk had been thereby varied" (*p*).

Causes that justify a deviation or delay.

424a. Sects. 46 (1) and 48 of the Marine Insurance Act, 1906, declare, as we have seen (*q*), that a deviation or delay "without lawful excuse" discharges the underwriter from liability for subsequent losses. The causes which amount to a lawful excuse are summarized in sect. 49 of the Act, which is as follows:—

(1) Deviation or delay in prosecuting the voyage contemplated by the policy is excused—

(a) Where authorised by any special term in the policy; or

(b) Where caused by circumstances beyond the control of the master and his employer; or

(*p*) Toulmin *v.* Inglis (1808), 1 Camp. 421. See 1 Phillips, s. 982, as to this case; and *post*, Part III. Chap. I., "Loss by Barratry." As regards deviation, it seems clear that the fault or knowledge of the assured has no bearing on the question. If the proper course of the voyage has in fact been departed from, the underwriter is discharged (subject to the exceptions in sect. 49 of the Mar. Ins. Act, 1906, *infra*, § 424a). It is submitted that if any act be done by the master which makes the risk a different one from that taken by the underwriter, the latter ought likewise to be discharged whether or not the assured was privy to the act. There cannot, however, be many acts (not amounting to barratry) except deviation or delay, which change the risk in the sense in which this term ought surely to be understood, viz., making the voyage a different one from that insured. It cannot be said that every voluntary act which increases the danger of loss makes the voyage a different one from that insured, and the general principle is that the underwriter is liable for a loss by a peril insured against, even though brought about by the act of the assured himself, unless such act amounts to wilful misconduct. Mar. Ins. Act, 1906, s. 55, *post*, § 775; see Trinder *v.* Thames and Mersey Mar. Ins. Co., [1898] 2 Q. B. 114 (C. A.).

(*q*) See *ante*, § 376.

Sect. 424a.

(c) Where reasonably necessary in order to comply with an express or implied warranty (*r*); or

(d) Where reasonably necessary for the safety of the ship or subject-matter insured (*s*); or

(e) For the purpose of saving human life, or aiding a ship in distress where human life may be in danger (*t*); or

(f) Where reasonably necessary for the purpose of obtaining medical or surgical aid for any person on board the ship; or

(g) Where caused by the barratrous conduct of the master or crew, if barratry be one of the perils insured against (*u*).

(2) When the cause excusing the deviation or delay ceases to operate, the ship must resume her course, and prosecute her voyage, with reasonable despatch (*x*).

Deviation or delay authorised by the policy.

We have already seen that where the policy gives liberty to call at an intermediate port for the purpose of trading, a delay for such purpose is authorised by the license clause. The "deviation clause," which usually provides that the subject-matter insured shall be held covered in case of deviation on payment of an additional premium (see *ante*, § 376), is also a special term within the meaning of sub-sect. (1) (a).

An involuntary deviation

425. Sect. 49 (1) (b) gives effect to the principle that it is only a voluntary departure from the course of the voyage

(*r*) This is generalized from the decision in Bouillon *v.* Lupton (1863), 33 L. J. C. P. 37, where it was held that a delay at the end of the river stage of a voyage to fit the ship out for the sea portion of the voyage was justifiable: Chalmers & Owen, Mar. Ins. Act, 2nd ed. p. 71. The general rule stated in this sub-section is not laid down in that case.

(*s*) See *post*, § 428.

(*t*) It is now, under sect. 6 of the Maritime Conventions Act, 1911, the duty of the master or person in charge of a ship (so far as he can do so without serious danger to his own vessel and the persons on board of her) to render assistance to every person who is found at sea in danger of being lost. If he fails to do so, he is guilty of a misdemeanour.

(*u*) Ross *v.* Hunter (1790), 4 T. R. 33. Barratry of the crew may also be an excuse within sub-sect. (1) (b).

(*x*) See *post*, § 431.

Sect. 425.

or delay is excusable.

A deviation is not excused by the ignorance of the captain.

which discharges the underwriter from all subsequent loss (*y*).

If produced, however, by the ignorance of the captain, however gross, it will not be the less considered a voluntary act (*z*). Hence, where a ship, insured on a voyage "at and from London to Jamaica," with directions to proceed direct to the latter place, was driven out of her course, by strong currents and other circumstances, to a point between the Grand Canary and Teneriffe, from which point the direct course to Jamaica was south-west, but the captain ignorantly bore up for Santa Cruz, which lies thirty miles to the north-west; this was held to be a deviation (*a*).

Deviation caused by moral or physical force, or necessary for the safety of the property at risk.

The general rule, to which effect is given in sect. 49, subsect. (1), (b) and (d), of the Marine Insurance Act, 1906, is that a departure from the course of the voyage, if necessitated either by moral or physical force, or reasonably necessary for the safety of the ship or of the subject-matter insured, will never discharge the underwriter. *Si iter mutaverit magister ex aliquâ justâ et necessariâ causâ, puta ex causâ rejectionis navis, vel ad evitandam maris tempestatem, vel ne inciderit in hostibus, in istis casibus, mutato itinere, tenetur assecurator* (*b*). "There is not, probably, any exception to be met with," says Chancellor Kent, "to the application of the general rule, that if the vessel departs from the usual course of the voyage from necessity, and departs no further than that necessity requires, the voyage will still be protected by the policy" (*c*).

(*y*) Arnould's statement was that it is only a voluntary and unexcused departure from the course of the voyage which amounts to a deviation. The provisions of sects. 46 and 49 of the Act have necessitated a change of language. The Act seems to regard even an involuntary departure from the proper course as a deviation, though excusable by reason of sect. 49 (1) (b).

(*z*) The reason given by Arnould (2nd ed. p. 451) is that it was the fault of the assured not to have appointed a competent captain. This reason seems to the editors both unnecessary and unsatisfactory.

(*a*) Phyn *v.* Royal Exch. Ass. Co. (1798), 7 T. R. 505.

(*b*) Roccus, not. 52, 53, cited 2 Emerigon, c. xiii. s. 15, p. 94; see also 2 Benecke, System des Assecuranz, c. viii. s. 2.

(*c*) In Robinson *v.* Marine Ins. Co. (1806), 2 Johnson, R. 89.

Sect. 425.

Must be strictly commensurate with the necessity.

The delay, or departure indeed, must be strictly commensurate with the necessity that justifies it; there must be no waste of time, nor any needless divergence from the course of the voyage (*d*).

Lavabre *v.* Wilson.

426. The following well-known case illustrates this principle:—The "Carnatic," a French East Indiaman, was insured "at and from Port L'Orient to Pondicherry, Madras, and China, and at and from thence back to the ship's port or ports of discharge in France." On her arrival at Pondicherry she was found to be so much damaged that it became necessary for her to go to Bengal for repairs, that being the only place where she could be properly repaired. The usual time in which the direct voyage from Pondicherry to Bengal is performed is about six or seven days; but the "Carnatic," by touching and trading at different intermediate ports, consumed six weeks in going to Bengal, and about two months in returning thence to Pondicherry. Lord Mansfield said that, even if necessity were admitted to have been the sole motive for substituting the voyage to Bengal in the place of that to China, still it was incumbent on the assured to have pursued that voyage of necessity directly in the shortest and most expeditious manner, and that the delay in going from Pondicherry to Bengal, and the repeated stoppages by touching at different places, and trading there, were deviations which discharged the underwriter (*e*).

Difficulty in determining when deviation is justifiable or excusable.

427. Though there is no doubt as to the principle of law, there is sometimes a difficulty in ascertaining—(1) what degree of force or constraint will amount to such an unavoidable necessity as, on that ground, to justify a departure from the course of the voyage; (2) what circumstances, short of such unavoidable necessity, will excuse the ship in departing from, or delaying, the usual course of the voyage.

(*d*) Mar. Ins. Act, 1906, s. 49 (2), *supra*, § 424a. See Lavabre *v.* Wilson (1779), 1 Dougl. 284; Hyderabad (Deccan) Co. *v.* Willoughby, [1899] 2 Q. B. 530; see also Phelps *v.* Hill, [1891] 1 Q. B. 605.

(*e*) Lavabre *v.* Wilson (1779), 1 Dougl. 284.

Sect. 427.

What is unavoidable necessity?

1. With regard to what amounts to an unavoidable necessity, the following cases have been decided in this country:—

Violence of mutinous crew.

Where the crew of a letter of marque mutinously insisted on the captain's returning home with a prize he had taken, instead of proceeding on the voyage, and, on his remonstrating, forced him to submit; this compulsory return was held not to be such a deviation as to discharge the underwriters (*f*). So where a crew, dreading the attacks of pirates if they pursued their voyage, all left the ship and refused to return to her unless the captain would promise immediately to sail back to the home port: his returning thither in pursuance of such promise was held no deviation (*g*).

Carried out of course by a ship of war.

Where a neutral ship was carried out of her course by a British cruiser, and detained in a port far out of the limits of the policy for about six weeks, this was held to be no deviation, having been caused by overruling necessity (*h*).

Mere orders by a ship of war are not a justifying necessity.

On the other hand, where the master of a merchant ship, while he lay at a port in Iceland taking in his loading, was ordered by the captain of a king's ship to go out to sea and examine a strange sail in the offing bearing enemy's colours, which he did, without any remonstrance on his part, or any threat of force on the other, his so doing was held to amount to a deviation (*i*).

Result.

On the whole, therefore, it appears that when a deviation is sought to be justified on the ground of unavoidable necessity, it must be shown that a degree of force was exercised towards the captain, which either physically he could not resist, or morally, as a good subject, he ought not to resist (*k*).

The principle illustrated in these cases has been followed

(*f*) Elton *v.* Brogden (1747), 2 Strange, 1264.
(*g*) Driscol *v.* Bovil (1798), 1 B. & P. 313.
(*h*) Scott *v.* Thompson (1805), 1 B. & P. N. R. 181.

(*k*) Per Lord Ellenborough, 2 Camp. 351.

and maintained in the decisions of the Courts of the United States (*l*). Sect. 427.

Causes short of actual force or constraint which justify deviation.

428. Where departure from the course has not been caused by force or constraint, moral or physical, it was laid down by Arnould as a general rule, that it cannot be excused unless the state of circumstances be such as to leave the master no alternative, as a reasonable and prudent man, exercising a sound judgment, and acting for the best interest of all concerned, but to depart from, or delay, the usual course of the voyage (*m*). An exception to this principle is that a deviation is allowed for the purpose of saving human life, or obtaining medical or surgical aid.

Deviation solely for the preservation of the cargo.

Sub-sect. (1) (d) of sect. 49 of the Marine Insurance Act, 1906, declares, as we have seen, that a deviation or delay is excused when reasonably necessary for the safety of the ship or subject-matter insured. Therefore it seems clear that a deviation or delay for the safety of the ship is always permissible, and that no underwriter, whether on ship or cargo, or any other subject-matter, can claim to be discharged by reason thereof. If, however, a deviation be made solely for the safety of the cargo, or a part thereof, this sub-section does not excuse it, so far as policies on the ship or on other parts of the cargo are concerned. Yet as between the shipowner and the owners of cargo there are possible cases in which it may be not only justifiable, but even the master's duty, taking into consideration the question of the whole adventure, to put into a near port or to incur some delay in port for the preservation of the cargo, or even of some part thereof (*n*).

(*l*) See Winthrop *v.* Union Ins. Co. (1807), 2 Wash. C. C. R. 7; Lee *v.* Gray (1611), 7 Mass. R. 349; Wiggin *v.* Amory (1816), 13 Mass. R. 123; Kettell *v.* Wiggin (1816), 13 Mass. R. 68; Robertson *v.* Columbian Ins. Co. (1811), 8 Johnson, 491.

(*m*) See Phelps *v.* Hill (C. A.), [1891] 1 Q. B. 605; and Bouillon *v.* Lupton (1863), 33 L. J. C. P. 37. In the latter case it was held to be reasonable for a river steamer, about to perform a sea voyage, to wait for other ships in order to sail in company with them. See also West Rand Central Gold Mines Co. *v.* Rougemont, [1900] 2 Q. B. 346.

(*n*) See Carver, ss. 289—291; the judgment of Hannen, J., in The

Sect. 428.

Is sect. 49 of the Mar. Ins. Act, 1906, exhaustive?

If sect. 49 is intended to be an exhaustive summary of the causes which justify a deviation or delay, the policies on the ship or on any portion of the cargo which was not in danger will be vitiated by the fulfilment of this duty. It is possible, however, that sect. 49 ought not to be construed as exhaustive (*o*), and that as regards all the policies on the adventure there is a "lawful excuse" for the deviation or delay within the meaning of sects. 46 and 48 of the Act.

We will now consider the chief cases in which a deviation is considered reasonably necessary for the safety of the property at risk. They may be thus enumerated:—(1) Making a port to refit; (2) or to recruit the crew when generally disabled by sickness, &c.; (3) stress of weather; (4) endeavouring to avoid capture; (5) or to join convoy.

(1) Making a port to refit.

429. *Making a port to refit.*

The going into a port out of the usual course for necessary repairs, and staying there till such repairs can be completed, is justifiable, provided it plainly appear that such repairs under the circumstances, and at such port, were reasonably necessary, and that the delay was not longer than was requisite for repairs to enable the ship to proceed on her voyage (*p*). The same principle applies when it is necessary to ballast or lighten the ship. Thus, in one case, where a captain, finding he had too little ballast to steady his ship, at the importunity of the crew, and to save his and their lives, put into a port, out of the course of the voyage, where he took in 500 rolls of tobacco as ballast (*q*); and, in another case, where an overladen ship, shortly after sailing, put back

Rona (1884), 51 L. T. 28; Notara *v.* Henderson (1870), L. R. 7 Q. B. 225, 233, 237 (Ex. Ch.); but see per Cockburn, C. J., *S. C.* (1872), L. R. 5 Q. B. at p. 354.

(*o*) Mr. Arthur Cohen says (Halsbury's Laws of England, vol. xvii. § 784): "It seems somewhat doubtful whether this section of the Act was intended to enumerate all the causes which will excuse deviation or delay."

(*p*) Motteux *v.* London Ass. Co. (1739), 1 Atkyns, 545.

(*q*) Guibert *v.* Readshaw (1781), 2 Park, 637.

into a port out of the course of her voyage, to unload part of her cargo—this was held no deviation (*r*). **Sect. 429.**

In the United States it has been held that if the ship does not find in the first port she enters what is indispensable to refit her, she may seek it, if necessary, in a second port out of the course of the voyage (*s*).

The port need not always be the nearest.

Though, generally speaking, the ship must put into the nearest port where necessary repairs can be done, there may be considerations such as danger, time, expense or accommodation, which make a more distant port preferable. If the master, in the reasonable exercise of his judgment, proceed to the more distant port, the policy will still remain in force (*t*).

(2) To procure fresh hands or stores.

430. *To recruit disabled crew, or procure stores or fresh hands.*

There can be little doubt that if a ship, which was originally sufficiently manned and equipped for the voyage, were, in the course of it, to lose so great a proportion of her officers or crew by sickness or other cause, that it became impossible to continue the voyage without procuring more, and no more could be procured except by making a port out of the direct course of the voyage, the putting into such port for such purpose would be allowable. The deviation would be reasonably necessary for the safety of the ship and those on board of her.

Thus, in one Nisi Prius case, Lord Eldon admitted, "That, if by the visitation of God so many of the crew, who were

(*r*) Weir *v.* Aberdein (1819), 2 B. & Ald. 320. These are both cases of unseaworthiness at sailing; but this objection seems not to have been taken in Guibert *v.* Readshaw, and in Weir *v.* Aberdein it was prevented by express license, indorsed on the policy by the underwriters, for the ship to go into Ramsgate and discharge part of her cargo. See as to the latter case, the judgment of the Privy Council pronounced by Lord Penzance in Quebec Maritime Ins. Co. *v.* Commercial Bank of Canada (1870), L. R. 3 P. C. 234, 244; and *post*, § 690.

(*s*) Hall *v.* Franklin Ins. Co. (1830), 9 Pickering, R. 466; 1 Phillips, Ins. s. 1020.

(*t*) Phelps *v.* Hill (C. A.), [1891] 1 Q. B. 605—a charter-party case, the decision in which is, however, applicable to contracts of insurance. See per Lindley, L. J., p. 612.

Sect. 430.

otherwise sufficient, became so afflicted with sickness as to be incapable of managing the ship, such an illness of the crew was a necessity which might justify a deviation" (*u*).

So, it has been held in the United States, and apparently on good grounds, that the death of all the superior officers of an East India ship justified the crew in putting into the Isle of France, though out of the course of the voyage (*x*).

Semble, if the ship was originally inadequately fitted out.

It was, however, laid down by Arnould (*y*) that going out of the course for such purposes can only be justified when the ship was adequately manned, equipped and stored in the first instance: if the ship when she sailed was deficient in any of the elements of seaworthiness, the going into port to supply such deficiency, however necessary it may be, will, he said, be deemed a deviation (*z*).

For this statement there is some authority. Thus, where a ship put into a port out of her course in order to procure medicines and medical assistance, with which she ought to have been adequately provided when she sailed, this was held to amount to a deviation (*a*).

(*u*) In Woolf *v.* Claggett (1800), 3 Esp. 257.

(*x*) Winthrop *v.* Union Ins. Co. (1807), 2 Wash. R. 7.

(*y*) 2nd ed. p. 455.

(*z*) The chief authority for this proposition is Woolf *v.* Claggett, *infra*, the *ratio decidendi* of which was that the assured must show that the necessity for going into port arose without any default of the master or himself. The editors pointed out in previous editions that it is at any rate arguable that the deviation under such circumstances would not avoid the policy unless the deficiency was due to the wilful default of the assured himself. If the ship, reduced through the negligence of the assured or his servants to a state of disablement, were in consequence lost by perils insured against, the underwriter would be liable: Mar. Ins. Act, 1906, s. 55. It is therefore not apparent that a deviation, necessitated by the danger of such a loss, should avoid the policy. Of course, if there has been a breach of the warranty of seaworthiness, the insurer is entitled to avoid the policy on that ground. In Kish *v.* Taylor, [1912] A. C. 604, the House of Lords held, with regard to a contract of affreightment, that a deviation, necessary to save the ship and the lives of those on board, but caused by the master having taken her to sea in an unseaworthy state, was justifiable, though the right to recover damages for his previous wrongful act was preserved.

(*a*) Woolf *v.* Claggett (1800), 3 Esp. 257. Forshaw *v.* Chabert (1821), 3 Brod. & B. 158; 6 J. B. Moore, 369, which Arnould also cited, is a questionable authority. The ship, which ought to have sailed

Sect. 430.

Upon the same principle it seems to have been held in the United States that the fact of a ship, insufficiently provisioned at the outset for the voyage, going off the course to procure provisions will, as a general rule, discharge the underwriter on the ground of deviation (*b*); though it would certainly be otherwise, were such lack of provisions due to unavoidable (and unusual) delay through causes over which the assured had no control (*c*).

Deviation to procure provisions.

It will be noticed that sub-sect. (1) (d) of sect. 49 of the Marine Insurance Act, 1906, states without qualification that a deviation reasonably necessary for the safety of the ship is excusable. It is therefore doubtful, whatever the law may previously have been, whether the insurer can now, in a case within the sub-section, rely on the fact that the necessity for the deviation was due to default (other, at any rate, than the wilful misconduct of the assured) in providing medicines or other stores.

Or medical aid.

The question whether a deviation to obtain medical aid for persons on board is justifiable when the navigation of the ship is not made unsafe by disablement has not arisen in this country, though it has been held in the United States that when there is an immediate need of medical aid for the preservation of human life, a deviation to obtain such aid is justifiable (*d*). Sub-sect. (1) (f) of sect. 49 of the Marine

with a full complement of men engaged for the whole voyage, sailed with two of the number who were only engaged for part of the voyage, and put into a port out of the limits of the policy, in order to supply this deficiency. The ground of the decision was not really that there had been a deviation, but that the ship was unseaworthy at the start. The jury had found that to touch at Jamaica for fresh hands was justifiable, and the Court expressed neither approval of nor dissent from this finding.

(*b*) See the American case of Kettell *v.* Wiggin (1816), 13 Mass. R. 68, cited 1 Phillips, Ins. s. 1026.

(*c*) See Raine *v.* Bell (1808), 9 East, 195; Thomas *v.* Royal Exch. Ass. Co. (1814), 1 Price, 195.

(*d*) Perkin *v.* Auguste Ins. Co. (1855), 2 Parsons, Ins. p. 34, n.; Peterson *v.* The Chandos (1880), 4 Fed. R. 645; see also Sprague *v.* Overton (1859), 1 Sprague's Decisions, 462. The Supreme Court has held that it may even be the duty of the master to an injured seaman, for the breach of which damages are recoverable against the ship, to

Sect. 430.

Insurance Act, 1906, as we have seen, lays down the rule that a deviation is allowable when it is "reasonably necessary for the purpose of obtaining medical or surgical aid for any person on board the ship."

(3) Stress of weather.

431. *Stress of weather.*

The deviation is excused if a ship be driven out of her course by stress of weather; or if the captain puts into a port out of his course, or delays his sailing, to take refuge from a tempest, or to wait for a wind, if in so acting the captain did what a prudent man, in the exercise of sound judgment, would have done under the circumstances, with a view to the safety of the ship or of the subject-matter insured (*e*).

A ship driven out of her course must prosecute her voyage from the point to which she has been driven.

Sect. 49 (2) of the Marine Insurance Act, 1906, provides that "when the cause excusing the deviation or delay ceases to operate, the ship must resume her course, and prosecute her voyage, with reasonable dispatch." The words "the ship must resume her course" suggest that she must return to the actual track from which she turned aside. Yet the deviation may have taken her to a place from which the usual or best course to her destination is a different one. It is submitted that the course ought to be determined with reference to the actual situation of the ship, and this view agrees with the decisions before the Act, according to which a ship driven from her course is not obliged to sail back to the point whence the storm first drove her; but she may make the best of her way to her port of destination from the point whither she has been driven.

Harrington v. Halkeld.

Thus a ship, insured "from London to St. Kitts," was

put into the nearest port where medical assistance can be obtained: The Iroquois (1903), 194 U. S. 240.

(*e*) Mar. Ins. Act, 1906, s. 49 (1) (b) and (d), *ante*, § 424a. Where pumps, intended to be used in salvage operations, were insured from Ardrossan to a wreck, while being used there and back to Ardrossan, the Court of Appeal held that a loss of the pumps during a deviation to Belfast, undertaken to save the salved vessel from sinking, was not recoverable. Wingate *v.* Foster (1878), 3 Q. B. D. 582. See, however, as to this case, *post*, § 471.

Sect. 431.

separated from her convoy by a storm and afterwards captured while still out of her course, but taking the best course for St. Kitts or the convoy; Lord Mansfield held this was no deviation (*f*). So where a ship, insured from St. Kitts to London, was driven by a storm out of St. Kitts and obliged to run to St. Eustatia, and, after many unsuccessful efforts to get back to St. Kitts, finally gave up the attempt and completed her lading at St. Eustatia, whence she sailed for London; Lord Mansfield held this no deviation, and said: "If a storm drive a ship into any port out of the course of her voyage, and, being there, she do the best she can to return" (*quære, proceed*) "to her port of destination, she is not obliged to return back to the port whence she is driven" (*g*).

Delaney v. Stoddart.

Waiting until port open.

It has been suggested by Lord Ellenborough in this country (*h*), and decided in the United States (*i*), that if a ship find her port of destination blocked up by ice, or otherwise rendered inaccessible, she may make the nearest practicable port with a view of staying there till her own is open, without its being deemed a deviation. The rule in sect. 49 (2) of the Marine Insurance Act, 1906, is consistent with a stay in such port as long as the cause of the deviation is in operation.

Where a captain, delayed by adverse winds and dangerous weather, puts into a roadstead for safety, it has been held no deviation to send ashore for provisions if requisite (*k*).

(4) Endeavour to avoid capture.

432. *Endeavour to avoid capture.*

The endeavour to avoid the imminent peril of capture, either by lying to in the port of loading, or putting into a port out of the course of the voyage, or by departing from the track of the voyage insured, has always been held to justify

(*f*) Harrington *v.* Halkeld (1778), 2 Park, 639.
(*g*) Delaney *v.* Stoddart (1785), 1 T. R. 22.
(*h*) Blankenhagen *v.* London Ass. Co. (1803), 1 Camp. 453.
(*i*) Graham *v.* Commercial Ins. Co. (1814), 11 Johnson, R. 352. cited 1 Phillips, s. 1023.
(*k*) Thomas *v.* Royal Exch. Ass. Co. (1814), 1 Price, 195.

Sect. 432.

a deviation, provided the danger was real and immediate, and the apprehension founded on reasonable evidence (*l*).

So a ship, insured "against capture in her port of loading," may hurry out of such port in order to avoid the imminent peril of capture, though only half loaded and totally unprepared for her voyage; and her afterwards putting into a port out of the course of her voyage in order to repair damage occasioned by such hasty escape will not discharge the insurer (*m*).

In the United States several cases have been decided upon this principle, and in all the main point of inquiry seems to have been whether the danger was so real and immediate as to justify the deviation (*n*).

(5) Endeavour to join convoy.

433. *Endeavour to join convoy.*

It is justifiable, whether the ship be warranted to sail with convoy or not (*o*), to depart from the direct course of the voyage in order to seek convoy either at the usual place of rendezvous or elsewhere; the only question in such cases is whether the circumstances show to the satisfaction of the jury that the captain, in so departing from the direct course of the voyage, acted fairly and *bonâ fide* according to the best of his judgment and with no other view or motive but to meet with convoy, and thereby be enabled to reach the terminus of the voyage by the safest way (*p*).

(*l*) Driscol *v.* Bovil (1798), 1 B. & P. 313; Driscol *v.* Passmore (1798), *ibid.* 200; Blankenhagen *v.* London Ass. Co. (1808), 1 Camp. 453; O'Reilly *v.* Gonne (1815), 4 Camp. 249; see also The San Roman (1873), L. R. 5 P. C. 301. In The Teutonia (1872), L. R. 4 P. C. 171, an action on a charter-party, the Privy Council held that a master of a German ship bound for Dunkirk, having been told war had broken out between France and Germany, was justified in putting back to the Downs to make inquiries.

(*m*) O'Reilly *v.* Gonne (1815), 4 Camp. 249.

(*n*) Oliver *v.* Maryland Ins. Co. (1813), 7 Cranch's S. C. R. 493; Whitney *v.* Haven (1816), 13 Mass. R. 172; Reade *v.* Com. Ins. Co. (1808), 3 Johnson, R. 352.

(*o*) D'Aguilar *v.* Tobin (1816), Holt, N. P. 185. So held also in the United States, Patrick *v.* Ludlow (1802), 3 Johnson's Cases, 10; 1 Phillips. Ins. s. 1023.

(*p*) Bond *v.* Gonzales (1704), 2 Salk. 445; Gordon *v.* Morley (1747),

Sect. 433.

It has been held justifiable for a ship, warranted or not to sail with convoy, if she has once sailed therewith and is afterwards driven back to port, to sail the second time without convoy (*q*).

If it clearly appears that, in the common course of the voyage insured, the ship might have obtained convoy at a nearer port, her being limited by her instructions to call for it at a more distant port may discharge the underwriter as varying the risk (*r*).

(6) Succouring the distressed and saving property.

434. A doubt, dishonouring to the jurisprudence of Christian communities, appears for some time to have prevailed both in this country and the United States, whether a departure from the direct course of the voyage, for the purpose of saving the lives of men threatened with an imminent danger of shipwreck or foundering, was or was not a deviation which would discharge the underwriters; it was, however, before the Marine Insurance Act, 1906, was passed, considered clear law, both on this and the other side the Atlantic, that a deviation of this kind, sanctioned alike by the true interests of commerce and the clearest precepts of humanity, can in no instance be held to discharge the underwriters (*s*); and the Act declares that a deviation is justifiable for the purpose of saving human life, or aiding a ship in distress where human life may be in danger (*t*).

Sect. 434.

This liberty, however, does not extend to the case of a deviation solely for the purpose of saving property (*u*).

In an action by a goods owner against the shipowner, whose vessel and her cargo, including the plaintiff's goods, were lost whilst the ship was performing a salvage service for another vessel and her cargo, but not such a service as was reasonably necessary to save the lives of those on board, the Court of Appeal held the deviation to be unjustifiable (*x*). The Court regarded the case as one of the first impression in our Courts. Upon the American authorities they formulated the following propositions, as containing the existing law of the United States on the question, and expressed their cordial concurrence with the law as thus laid down:—

"Deviation for the purpose of saving life is protected, and involves neither forfeiture of insurance nor liability to the goods owner in respect of loss which would otherwise be within the exception of perils of the seas. And, as a necessary consequence of the foregoing, deviation for the purpose of communicating with a ship in distress is allowable, inasmuch as the state of the vessel in distress may involve danger to life. On the other hand, deviation for the sole purpose of saving property is not thus privileged, but entails all the usual consequences of deviation.

"If, therefore, the lives on board a disabled ship can be saved without saving the ship, as by taking them off, deviation for the purpose of saving the ship will carry with it all the consequences of an unauthorized deviation.

graphy) Act, 1919, as to the duty to render assistance on receiving a wireless distress call, and (in the case of passenger ships and ships of upwards of 1,600 tons gross tonnage) to be provided with a wireless telegraphy installation.

A.); Carver, s. 292a.

(*x*) Scaramanga *v.* Stamp (1880), 5 C. P. D. 295.

Sect. 434.

"But where the preservation of life can only be effected through the concurrent saving of property, and the *bonâ fide* purpose of saving life forms part of the motive which leads to the deviation, the privilege will not be lost by reason of the purpose of saving property having formed a second motive for deviating" (*y*).

Irresistible force of a peril not insured against.

+ **435.** It has been clearly established that where the departure from the course of the voyage is necessitated by the immediate and irresistible operation of a peril not insured against, it will not discharge the underwriter, whether the peril be one not included among the ordinary risks or expressly excluded by the specific terms of the policy. It is no doubt excusable as being "caused by circumstances beyond the control of the master and his employer" (*z*).

Thus, where a neutral ship, insured expressly "against sea risks and fire only," was carried out of her course and detained six weeks by a British cruiser, it was held that this deviation had no effect on the obligation of the insurer, though capture and seizure were perils not insured against (*a*).

Avoiding peril not insured against.

It appears, however, to have been held at Nisi Prius that a departure from the course in order to avoid, or in consequence of endeavouring to avoid, a peril not insured against is a deviation, though it would not have been so had it taken place in order to avoid a peril insured against. In the case alluded to, the policy was on goods "at and from La Guayra," with the clause "warranted free of capture and seizure, and the consequences thereof, in the port of La Guayra." To avoid seizure the ship ran to sea before she was properly loaded, and was in consequence obliged to put into a port out of the course of the voyage insured and was there lost. Gibbs, C. J., told the jury that, upon these facts, the ship had been guilty of a deviation which discharged the

Sect. 435.

underwriters, because it was the consequence of endeavouring to avoid a risk for which the underwriters had stipulated by the policy not to be liable (*b*). And this was the sole ground of his decision, for in a policy on the freight of the same ship, in which there was no such exception of capture and seizure in port, the Chief Justice held upon precisely the same state of facts that the ship was guilty of no deviation (*c*).

Both Arnould and Phillips thought it doubtful whether the decision could be sustained as an authority (*d*), and the reasons which the latter gave for this opinion have great weight. As he points out, it cannot but be known to the parties to a policy against one or some only of the ordinary sea perils, that the vessel is to be subject to the other perils usually included in policies, and the fair inference is that they do not contemplate the forfeiture of the insurance by a reasonable departure from the course to avoid one of these risks (*e*).

Sect. 49 (1) (d) of the Marine Insurance Act, 1906 (*f*), which states that a deviation is excused when reasonably necessary for the safety of the ship or subject-matter insured, seems not to contemplate any distinction between a deviation to escape a peril insured against and one to escape a peril for which the insurer would not be liable. It is submitted that such a distinction is not sound, and that, since the Act at any rate, it cannot be supported.

CHAPTER XVI.

NATURE AND DURATION OF THE RISK IN TIME POLICIES.

SECT.
Nature of the Risk in Time Policies 436
Duration of the Risk ..... 437—442
Mixed Policies ..... 443—445

A time policy is one in which the risk is limited by time alone.

436. THE inconvenience or impossibility, when a ship was employed in such adventures as cruising, coasting or fishing voyages, of designating the risk by local termini led to the practice of limiting the risk to a certain fixed term or period of time specified in the policy (*a*). "Where the contract is to insure the subject-matter for a definite period of time, the policy is called a 'time policy'" (*b*). The use of time policies is now very extensive. In fact, they are now used much more than voyage policies for the insurance of steamships, and very largely for that of freight and disbursements. They are not in general suitable for the insurance of goods, which the assured usually wishes to protect during transit from one place to another (*c*). There is one kind of insurance of goods, viz., by floating policies, which, in a sense, is an insurance on time when it covers shipments of goods, made within a certain period of time fixed by the policy, as declared by the assured; but these floating policies are in reality insurances of goods for a series of voyages (*d*).

(*a*) 2 Emerigon, c. xiii. s. 1, p. 41; 2 Benecke, System des Assecuranz, c. viii. s. 3, p. 442.
(*b*) Mar. Ins. Act, 1906, s. 25 (1).
(*c*) See Gow, Mar. Ins. 228—238, for an account of the practice of insuring by time policies.
(*d*) Where a policy covered shipments of goods "from the loading thereof . . . shipments held covered to December 31," "in as many voyages as may be required until 31/12/94," goods shipped on the 31st December, 1894, were held covered, though the ship only sailed on the 1st January, 1895. Johnson *v.* Bryant (1896), 1 Com. Cas. 363.

Sect. 436.

In time policies the risk insured is entirely independent of the voyage of the ship (*iter navis*) (*e*), and the policy covers any voyage whatever which the ship may make, and any loss or damage sustained within the space of time limited in the policy (*f*). It is now, however, very common for the policy to except certain geographical limits, either entirely or for certain seasons of the year, as, *e.g.*, "Warranted no St. Lawrence between the 1st of October and the 1st of April." In that case a loss within the excepted limits of time and space is, of course, not covered by the policy (*g*).

There is no implied warranty of seaworthiness in time policies (*h*).

Duration of the risk.

437. The two extremes of the time are the termini of the risk, and the adventure begins and ends with the term wherever the ship may then happen to be, and whether the object of the voyage be then accomplished or not (*i*). The risk necessarily ceases when the time limited in the policy comes to an end (*j*). From the instant that the policy attaches, the insurer's right to the full premium is complete, as is the right of the assured to a full indemnification in case of loss (*k*). Thenceforth there is no suspension of the risk

(*e*) Ist von der Reise des Schiff's vollig unabhängig. 2 Benecke, System des Ass. c. 8, s. 3, 446.

(*f*) 3 Kent, Com. 307, n.

(*g*) See Birrell *v.* Dryer (1884), 9 App. Cas. 345. Where there was a warranty "not to proceed east of Singapore," Bigham, J., held that the assured could recover for a loss on a voyage to a port east of Singapore, at a time when the ship had not yet got as far as Singapore: Simpson SS. Co. *v.* Premier Underwriting Assn. (1905), 10 Com. Cas. 198.

(*j*) Il suffit que le risque ait commencé pour qu'il finisse au tems préscrit. 2 Emerigon, c. xiii. s. 1, p. 41.

(*k*) Tyrie *v.* Fletcher (1777), 2 Cowp. 666; Lorraine *v.* Thomlinson (1781), 2 Dougl. 585. A clause is usually inserted in time policies (see Institute Clauses, *post*, App. B.) providing for a return of an agreed

Sect. 437.

whether the ship be at sea or in port; it continues to run until the expiration of the period insured (*l*).

Time policy may be retrospective.

A time policy, like a voyage policy, may be effected retrospectively if it contain the clause "lost or not lost"; as where a policy was effected in August, 1807, "to commence from 1st August, 1806," on a ship engaged in the Southern whale fishery, which had sailed on her voyage in 1805 (*m*).

Loss caused within the limits of the time, but damage not ascertained till afterwards.

438. On general principles, it is clear that the underwriters on a time policy ought to be liable for any loss which happens within the limits of the time (*n*). It is supposed, however, to have been laid down in Meretony *v.* Dunlope, that where damage is caused within the limits of the time, but the extent of it not ascertained till afterwards, the underwriter is not liable. The case, as shortly stated by Willes, J., was that of an insurance for six months on a ship, which received her death-wound three days before, but was kept afloat by pumping till three days after, the expiration of the time: the verdict for the underwriters was confirmed by the Court (*o*). In Knight *v.* Faith (*p*), however, which subsequently raised the same point for decision, Lord Campbell, in giving the judgment of the Court, intimated considerable doubt whether the doctrine supposed to be established by

Supposed doctrine of Meretony *v.* Dunlope overruled by Knight *v.* Faith.

part of the premium when the ship has been laid up for thirty consecutive days.

(*l*) 2 Emerigon, c. xiii. s. 1, p. 41. See, to the same effect, Syers Bridge (1780), 2 Dougl. 527. A usual clause in time policies (see Institute Time Clauses, App. B.) makes the risk attach "in port and at sea, in docks and graving docks, and on ways, gridirons and pontoons, at all times, in all places, and on all occasions, services and trades whatsoever and wheresoever, &c."

(*m*) Hucks *v.* Thornton (1815), Holt, N. P. 30. Could it possibly be argued that such an insurance, even without the clause, "lost or not lost," was not intended to be retrospective?

(*n*) A loss of freight in consequence of a casualty happening during the time limited by the policy is recoverable, although the voyage could not have been completed, and therefore the freight would not have been earned within such time. Michael *v.* Gillespy (1857), 2 C. B. N. S. 627; 26 L. J. C. P. 306.

(*o*) Meretony *v.* Dunlope (1783), stated by Willes, J., in giving judgment in Lockyer *v.* Offley (1786), 1 T. R. 260.

(*p*) Knight *v.* Faith (1850), 15 Q. B. 649.

Sect. 438.

Meretony *v.* Dunlope was ever laid down by Lord Mansfield, and stated what the Court deemed to be the correct doctrine thus:—"If a ship, insured for time, during the time received damage from the perils of the seas, though the amount thereof be not ascertained till the expiration of that time, and she is kept afloat till then, upon the assured taking proper steps, there does not appear any good reason why they may not, according to the facts, proceed against the underwriters either for a total or for a partial loss" (*q*).

In the following case, although the casualty which caused a loss of freight took place before the policy expired, the loss was held to have occurred afterwards. The policy was expressed to be "from the 15th April to the 14th October, both inclusive, on chartered freight," to pay only loss of hire which might arise under the "forty-eight hours' clause" in a charter-party "for accidents occurring between the 15th April and the 15th October." The ship met with an accident in June, but was only docked for repairs in November, and the repairs were not completed until the 30th December, and in the meanwhile the payment of hire ceased. The Court of Appeal held, affirming the Divisional Court, that the underwriter was not liable, because freight had been paid for the whole period covered by the policy, and consequently there was no loss of freight within that period (*r*).

Time policies limited in England to a year; not so restricted elsewhere.

439. England appears to be the only commercial state in which any restriction is placed on the duration of time policies. The foreign codes, in general, expressly allow insurances on time without any limitation as to their extent (*s*); and the law is the same in the United States of America (*t*).

In England the law, as declared in the Stamp Act, 1891, was "that no policy of sea insurance made for time shall

(*q*) Knight *v.* Faith (1850), 15 Q. B. 667.
(*r*) Hough *v.* Head (1885), 55 L. J. Q. B. 43.

(*t*) 1 Phillips, Ins. s. 949, n.

Sect. 439.

be made for any time exceeding twelve months," and a policy made for a longer period was expressly declared to be invalid (*u*).

Continuation clause.

440. In the English time policies it has been usual to provide by a clause attached to the policy, called the continuation clause, that if at the end of the period of the insurance the ship is at sea the insurance may be extended until her arrival at some port. The form of the clause in the Institute Time Clauses for policies on ship is now as follows:—"Should the vessel at the expiration of this policy be at sea, or in distress, or at a port of refuge or of call, she shall, provided previous notice be given to the underwriters, be held covered at a *pro ratâ* monthly premium to her port of destination."

Another form of continuation clause, which has sometimes been inserted in policies, does not make the prolongation of the risk conditional on notice being given, but provides simply that if the ship be at sea at the expiration of the policy the insurance shall continue until the ship arrives at some port (*x*).

For some time there was considerable doubt whether or not a continuation clause in a policy for twelve months had the effect of vitiating the whole insurance, on the ground that it made the policy one for a period exceeding twelve months within the meaning of the Stamp Act, 1891, s. 93 (*y*).

In two cases (*z*) it was held that the assured could not recover under this clause for a loss which took place after the expiration of the twelve months. The assured were thus relying on a contract of insurance alleged by themselves to be one for more than twelve months (*a*). Such a contract is

(*u*) Stamp Act, 1891, s. 93 (2), (3).
(*x*) See, *e.g.*, the continuation clause in Charlesworth *v.* Faber (1900), 5 Com. Cas. 408.
(*y*) See Gow, Mar. Ins. 237.
(*z*) Charlesworth *v.* Faber (1900), 5 Com. Cas. 408; Royal Exchange Ass. Corporation *v.* Sjoforsakrings Aktie-bolaget Vega, [1901] 2 K. B. 567; [1902] 2 K. B. 384, C. A.
(*a*) They also contended in the later case that the policy contained

Sect. 440.

plainly void. In the later case Bigham, J., expressed the opinion that the contract was severable, so that the illegal part could be rejected, and if the loss had taken place within the twelve months the assured could have recovered (*b*). The decision of the Court of Appeal was, however, based on the ground that the contract was indivisible and the policy therefore altogether void. "It is one time policy throughout," said Mathew, L. J., "for the period of twelve months and the additional time contemplated by this very extensive continuation clause" (*c*). It appears, therefore, that any term prolonging an insurance for a year makes the policy one for a period exceeding twelve months.

Sect. 11 of the Finance Act, 1901 (1 Edw. 7, c. 7), has, however, provided that a policy of sea insurance shall not be invalid on the ground that by reason of a continuation clause it may become available for a period exceeding twelve months; and a continuation clause is defined as an agreement, the effect of which is that in the event of the ship being at sea, or the voyage otherwise not completed, on the expiration of the policy, the subject-matter of the insurance shall be held covered until the arrival of the ship, or for a reasonable time thereafter not exceeding thirty days (*d*).

Sect. 25 (2) of the Marine Insurance Act, 1906, declares that "subject to the provisions of sect. 11 of the Finance Act, 1901, a time policy which is made for any time exceeding twelve months is invalid" (*e*).

The question of continuing policies arose some time ago in

two separate contracts, one an insurance for twelve months, the other made by the continuation clause an insurance either for a voyage or for a further period. It was, however, held that even if the clause could be regarded as a separate policy, it was invalid under sect. 93 (3) of the Stamp Act, because if for a voyage it did not sufficiently specify the termini, if for time it did not determine the period.

(*b*) [1901] 2 K. B. at p. 573.

(*c*) [1902] 2 K. B. at p. 395.

(*d*) As to the stamping of a time policy with a continuation clause, see *ante*, § 31.

(*e*) A policy on a ship under construction or repair, though made for a time exceeding twelve months, is not deemed to be a time policy: Revenue Act, 1903, s. 8, *ante*, § 31.

Sect. 440.

connection with a club policy, of which a rule, declaring that the association should renew the policy unless they received ten days' notice to the contrary, was expressly made a term. It was not necessary to decide whether the insurance (originally for thirty-eight days only) was thereby prolonged; but Cockburn, C. J., expressed the opinion that the policy was a continuing one (*f*). In a later case the question arose whether a club policy for twelve months was a continuing one by reason of a similar rule, and it was held that, according to the terms of the rule and the words of 30 & 31 Vict. c. 23, the policy was not a continuing one (*g*).

Duration of an insurance "from" a day.

441. When the insurance is expressed to be from one particular day to another, *e.g.*, "from the 14th day of February, 1914, until the 14th day of August, 1914," it has been held in the case of a fire policy that the risk does not in general commence to run until the former day has expired, and that it will cover losses happening on the latter day (*h*). The decision seems applicable to marine policies; but it appears that there is no hard-and-fast rule to this effect, and that in

(*f*) Michael *v.* Gillespy (1857), 2 C. B. N. S. 627; 26 L. J. C. P. 306.

(*g*) Lishman *v.* Northern Marit. Ins. Co. (1873), L. R. 8 C. P. 216; in the Exch. Ch. (1875), L. R. 10 C. P. 179. The assured, it must be noticed, was not suing on or asserting the validity of the policy. The question was whether he was insured by it, after the expiration of twelve months, within the terms of a warranty in another policy not to be insured beyond a certain amount. The rules of the mutual insurance associations commonly provide for the continuation of the insurance and the issue of a fresh policy from year to year, in default of notice by either party to terminate the insurance. The club policies are usually expressed to be made subject to the rules and regulations of the associations. If the rule prolonging the insurance be thereby incorporated in the policy, the latter is invalid, as being made for more than twelve months. But the correct view, it is submitted, is that the policy only incorporates those rules which are applicable to the risk for the year and not the antecedent agreement to issue a fresh policy at the expiration of the risk. This view agrees with the decision in Lishman *v.* Northern Maritime Ins. Co., *supra*.

(*h*) Isaacs *v.* Royal Ins. Co. (1870), L. R. 5 Ex. 296. Accord. South Staffordshire Tramways Co. *v.* Sickness and Accident Ass. Assn., [1891] 1 Q. B. 402, a case upon an accident insurance.

Sect. 441.

any particular case it would be open to one of the parties to prove that a different computation of time was intended.

Time of what place determines the duration of the risk.

Usually, however, in English policies the risk is declared to run from a particular hour of a particular day, *e.g.*, "from noon of the 20th day of February." It is evident that the time of the same place ought to determine the beginning and end of the risk, otherwise the ship, by sailing eastward or westward, might shorten or lengthen the duration of the risk. In the United States it has been decided that the time which determines the duration of the risk is that of the place where the contract was executed, unless it be shown that a different computation of time was contemplated (*i*). The same rule would no doubt be followed in the English Courts, if the question should arise here. It is, however, usually stipulated in the English policies that Greenwich mean time is the time which governs the risk. In view of the fact that in practice Greenwich mean time is everywhere used in England, even without this stipulation it would no doubt be held that this time was applicable to a policy made in this country (*k*).

Proof of time of loss in case of missing ship.

442. Sect. 58 of the Marine Insurance Act, 1906, declares that "where the ship concerned in the adventure is missing, and after the lapse of a reasonable time no news of her has been received, an actual total loss may be presumed." Still, the burden of proving that a loss took place within the time covered by the policy is on the assured, and there is no presumption in the case of a missing ship that the loss took place at a particular time (*l*). The assured must, therefore,

(*i*) Walker *v.* Protection Ins. Co. (1849), 29 Maine R. 317; 1 Phillips, s. 949.

(*k*) By the Statutes (Definition of Time) Act, 1880, as amended by the Time (Ireland) Act, 1916, any expression of time in a statute, deed, or legal instrument shall, unless it be otherwise specifically stated, be held to be Greenwich mean time.

(*l*) Brown *v.* Neilson (1804), 1 Caines, 525, cited 1 Parsons, 311, and followed by Field, J., in Reid *v.* Standard Marine Ins. Co. (1886), 2 Times L. R. 807. The rules of the mutual insurance associations, however, often provide that a missing ship shall be deemed to have been lost on the day when she was last heard of.

Sect. 442.

in order to recover, produce some evidence on which a jury will be justified in finding that the loss took place while the policy was in force. Evidence that the ship must have encountered a violent storm which happened at a particular time may be sufficient (*m*). Again, if in the ordinary course the ship ought to have arrived at her destination before the expiration of the policy, a loss within the time limit may be inferred (*n*).

Mixed policies.

443. The policies hitherto considered have been purely time policies, in form as well as in effect; *i.e.*, the limits of the risk have been defined in the policy, solely by points of time, without any designation of local termini at all: policies, however, have sometimes, though not very frequently, been made, in which not only the time is specified for which the risk is limited, but the voyage also is described by its local termini (*o*). As, for instance, "at and from London to Cadiz for six months," or "from the 1st of January, 1914, to the 1st of June, 1914, at and from Bristol to Marseilles," &c., or "from the 1st of January, 1914, at and from Liverpool to New York."

Construction and effect of mixed policies.

These policies are neither time nor voyage policies, but partake of the nature of both, and, for the sake of convenience, may be called mixed policies (*p*). They are time policies in this, that the underwriter is not liable for any loss unless it occur within the limits of the time specified in the policy; and they are so far voyage policies, that the underwriter is not liable for any loss unless the ship originally sailed on the voyage described in the policy, and at the time

(*m*) See a case before James, V.-C., cited by North, J., in In re Rhodes (1887), 36 Ch. D. 591.

(*p*) There are also policies, such as harbour policies, for a fixed period of time, to which the expression used by Lord Chelmsford, viz., "localised time policies," may be fitly applied: see 1 App. Cas. at p. 504. As to these policies, see *infra*, § 508.

Sect. 443.

of the loss be sailing on the prescribed course between the termini of such voyage (*q*), or if insured "at and from" a place, be there at the time of the loss for the purposes of the voyage insured.

Way *v.* Modigliani.

Thus, as we have already seen, where a Newfoundland ship was insured "at and from the 20th of October, from any ports in Newfoundland to Falmouth, or her port or ports of discharge in England"; it was held that, although under this policy the ship need not have been in any port in Newfoundland on the 20th of October, yet, in order to make the policy attach at all, the ship must have originally sailed on the voyage insured, and that as in this case she had not done so, the assured could not recover, though the loss took place after the 20th of October, and when the ship had got into the course of the voyage described in the policy (*r*).

The ship need not be at the *terminus a quo* on the day from which the policy takes effect.

444. The point conceded in this case, viz., that in such a policy it is not necessary that the ship should be in the port named as the *terminus a quo* in the policy, at the time when the insurance is limited to commence, has been illustrated in the United States.

American cases on this point.

Thus, where a brig was insured "from Calais, in Maine, on the 16th day of July, to, at, and from all ports to which she may proceed in the coasting trade for six months"; and

(*q*) Salvage pumps were insured "from the 30th of December, 1882, to the 12th of January, 1883, . . . whilst engaged in salvage operations at the wreck of the C.," "including all risk while being conveyed from B. to and/or on board the wreck." Cave, J., held that "at the wreck" meant at the locality of the wreck, and that the policy did not cover a loss of the pumps on board the wreck within the prescribed period, while it was being towed to the nearest port of safety. Difiori *v.* Adams (1884), 53 L. J. Q. B. 437.

(*r*) Way *v.* Modigliani (1787), 2 T. R. 30. The ship had left Newfoundland on the 1st of October. If she had sailed after the 20th on the voyage insured, she would no doubt also have been protected by the policy when she broke ground, the mention of the date not being a warranty (it is apprehended) that she shall sail on or before that date, but only fixing the date before which the risk cannot attach. There may, however, be an implied condition in a policy like this, that the voyage shall at any rate commence within a reasonable time after the specified date. Cf. Mar. Ins. Act, 1906, s. 42 (2).

Sect. 444.

the brig was not at Calais on the 16th July, but had been there subsequently within the six months; the Court held that the policy had attached on the 16th July, "for it was the clear intent of the parties to insure on time, without regard to the place where the vessel might then be, but only with regard to the employment in which she was engaged, viz., the coasting trade" (*s*).

So where insurance was effected on a ship for a voyage "at and from Boston to Charlestown," the policy only to take effect so far as the ship was not covered by previous insurances; and it appeared that the ship, fully covered by a prior policy on time, had sailed from Boston before such prior policy had expired, the second policy was held to attach while the ship was at sea on the voyage, immediately upon the expiration of the first (*t*).

Where it is evident from the whole language of the instrument that, although the risk is expressly made to commence from a specified local terminus, yet the policy is substantially a time policy, it has been held in the United States that it will attach and operate as such, though the vessel may never within the term have been at the local *terminus a quo* named in the policy as the place where the risk is to commence. A policy was effected on ship "to, at, and from one or more ports in the globe, for one year, commencing the risk at Barbadoes the 7th of December, 1810, to continue till the vessel shall be arrived and moored at anchor twenty-four hours in safety within the year aforesaid." The vessel was not at Barbadoes, as supposed by the policy, having left on the 6th; but the Court said her being so was immaterial, and that the risk would end with the year without any regard to her being in any port, either at that time or before; the beginning, duration, and end of the risk being well enough described without any regard to the place

(*s*) Martin *v.* Fishing Ins. Co. (1838), 20 Pick. R. 389, cited 1 Phillips, Ins. s. 928.

(*t*) Kent *v.* Manufacturers' Ins. Co. (1836), 18 Pick. R. 19; 1 Phillips, Ins. s. 928.

Sect. 444.

where it was to commence, or to the vessel's being safe in port (*u*).

Difference in effect between these mixed policies and voyage policies.

Upon the whole it may be laid down that, supposing a policy in this mixed form once to have attached, the only difference in point of effect between it and an ordinary voyage policy will be that the risk upon the adventure will continue, not until the arrival of the ship or the landing of the goods, but until the completion of the time specified, whenever and wherever that may be, totally irrespective of the completion or non-completion of the voyage. These policies, in fact, afford no more protection than, and not so much liberty as, time policies, and are, probably for that reason, comparatively of rare occurrence (*x*).

Policies for voyage and time.

445. Sect. 25 (1) of the Marine Insurance Act, 1906, declares that "a contract for both voyage and time may be included in the same policy"; and by the Stamp Act, 1891, s. 94, "where any sea insurance is made for a voyage, and also for time, or to extend to or cover any time beyond thirty days after the ship shall have arrived at her destination and been there moored at anchor, the policy is to be charged with duty as a policy for a voyage, and also with duty as a policy for time."

(*u*) Manley *v.* United Marine and Fire Ins. Co. (1812), 9 Mass. R. 85, cited 1 Phillips, s. 928.

CHAPTER XVII.

DURATION OF THE RISK IN VOYAGE POLICIES.

	SECT.
Duration Clause	446
Commencement of Risk on Goods	447—455
Continuance and End of Risk on Goods	456—471
Commencement of Risk on Ship	472—486
Continuance and End of Risk on Ship	487—509
Commencement of Risk on Freight	510—519
End of Risk on Freight	520, 521

Clause fixing the duration of the risk.

446. THE clause describing the voyage by its termini is distinct in our English policies from that which defines the commencement, continuance, and end of the risk. This latter clause, upon the construction of which the nature of the contract between the parties so materially depends, is in Lloyd's policies in the following form:—

> "Beginning the adventure upon the said goods and merchandises from the loading thereof on board the said ship upon the said ship, &c. , and shall so continue and endure, during her abode there, upon the said ship, &c., and further, until the said ship, with all her ordnance, tackle, apparel, &c., and goods and merchandises whatsoever, shall be arrived at , upon the said ship, &c., until she hath moored at anchor twenty-four hours in good safety, and upon the goods and merchandises till the same be there discharged and safely landed" (*a*).

(*a*) By express stipulation the risk on goods is sometimes made to attach during a land transit preceding the marine voyage. See, *e.g.*, Hyderabad Deccan Co. *v.* Willoughby, [1899] 2 Q. B. 530.

Sect. 446.

As there are many decisions on the construction of this clause, and as the duration of the risk varies upon the different subjects of insurance, it will conduce to clearness if we discuss separately the duration of the risk: (1) on goods; (2) on ship; (3) on freight. It must, however, be noticed that in general, whatever be the subject-matter insured, there is an implied condition in a voyage policy that the adventure shall be commenced within a reasonable time, and that if the adventure be not so commenced, the insurer may avoid the policy (*b*).

Commencement of the risk on goods.

447. "Beginning the adventure upon the said goods and merchandises from the loading thereof on board the said ship."

Rule 4 of the Rules for the Construction of a Policy in this form, in the first Schedule of the Marine Insurance Act, 1906 (*c*), provides that—

> Where goods or other moveables are insured "from the loading thereof," the risk does not attach until such goods or moveables are actually on board, and the insurer is not liable for them while in transit from the shore to the ship (*d*).

In this respect our practice differs from that of almost all continental states, which either decree by their laws or stipulate in their policies that the risk of the underwriters on goods shall commence directly the goods leave the shore in order to be loaded on board the ship (*e*).

(*b*) Mar. Ins. Act, 1906, s. 42 (1), *post*, § 480.

(*c*) These Rules apply "unless the context of the policy otherwise requires": sect. 30 (2).

(*d*) The form of policy in the Schedule is for an insurance "at and from" a named port. If the insurance were expressed to be merely "from" the port of loading, it is apprehended that the risk would not commence until the ship started on the insured voyage, even though the printed clause as above were not deleted. See Mar. Ins. Act, 1906, Sched. I. rule 2, *post*, § 473.

(*e*) Thus the German Commercial Code (art. 824) provides that the risk on goods shall begin immediately from the time the goods leave the shore. By the Russian Commercial Code (art. 567) and the Egyptian Maritime Code (art. 184) the beginning of the risk is

Sect. 447.

The commencement of the risk may by varied by a special clause.

Of course goods, even in this country, may be protected while thus in transit from quay to ship by any express clause in the policy duly framed for the purpose, and a clause such as "including risk of craft to and from the vessel" is commonly inserted in English policies (*f*).

Commencement of the risk under the ordinary clause.

448. "From the loading thereof on board the said ship at."

Upon the construction of these words it has been decisively established that a policy on goods for a voyage "at and from" a specified terminus in which the risk is expressed to begin "from the loading thereof on board the ship," in the common form, will only attach upon goods loaded on board at the very place named as the *terminus a quo* of the voyage (*g*); and this even though it should plainly appear, from extrinsic evidence, that the underwriters knew that the goods had in fact been loaded on board prior to the ship's arrival at the place specified in the policy as the *terminus a quo* of the

the same, unless the policy itself provides otherwise. By the Belgian Maritime Code (art. 195), when the duration of the risk is not settled by the policy, it runs as to goods from the moment they are loaded in the ship, or in lighters to convey them there. The Commercial Codes of Holland (art. 627) and of Spain (arts. 733, 761) go even further, and declare that the risk on goods shall commence from the time they are brought down to the quay or wharf in order to be loaded on board. The French Code de Commerce (arts. 328, 341) makes the risk attach from the loading of the goods on board the ship or the lighters that are to convey them thither. For the former laws of continental countries, see 3 Boulay-Paty, Droit Mar. tit. x. s. 9, pp. 418—420; 2 Emerigon, c. xiii. s. 2, p. 48; and 2 Benecke, System des Assecuranz, c. viii. s. 1, p. 205; Nolte's ed. vol. i. pp. 641—646.

(*f*) A clause, called the "warehouse to warehouse" clause, which has frequently been inserted in Lloyd's policies, covers "all and every risk in craft to and/or from the vessel or vessels, and all risks, including fire, from the warehouse of the consignor by any conveyances by land or by water, and until safely delivered into the warehouses of the consignees and/or their agents." See Ide *v.* Chalmers (1900), 5 Com. Cas. 212. Somewhat differently worded "warehouse to warehouse" and "craft" clauses are included in the Institute Cargo Clauses. See *post*, Vol. II. App. B.

(*g*) Robertson *v.* French (1803), 4 East, 130; Spitta *v.* Woodman (1810), 2 Taunt. 416; Horneyer *v.* Lushington (1812), 15 East, 46; Langhorn *v.* Hardy (1812), 4 Taunt. 628; Mellish *v.* Allnutt (1813), 2 M. & S. 106; Rickman *v.* Carstairs (1833), 5 B. & Ad. 651.

Sect. 448.

voyage, and that the assured effected the insurance with the intention of protecting the goods so loaded elsewhere (*h*). Most of these cases arose during the great wars of the French Revolution, when, in consequence of Napoleon's Berlin and Milan decrees, goods really shipped in this country were constantly insured as though shipped at some Baltic port.

Spitta *v.* Woodman.

Thus, to take one case as an illustration of many: a cargo insured "at and from Gottenburg to the ship's port or ports of discharge in the Baltic," with the usual clause, "beginning the adventure on the said goods from the loading thereof on board the said ship," had been loaded at London, carried to Gottenburg, where it was not taken out nor reloaded, and after leaving Gottenburg was totally lost by capture. Although the policy on which the action was brought was proved by parol evidence to be in continuation of another policy, from London to Gottenburg, effected with the same underwriter, as he well knew, the Court felt themselves bound by the express words of the policy, and held that, as the goods had been loaded on board, not at Gottenburg, the *terminus a quo* of the voyage insured, but at a previous port, the policy never attached at all, and that the assured could recover nothing (*i*).

In this case the risk was made to begin on the goods "from the loading thereof on board the ship" in blank, *i.e.*, without saying where: of course, if the risk is from their being "loaded on board the ship at" the *terminus a quo* or

(*h*) Per Bayley, J., in Gladstone *v.* Clay (1813), 1 M. & S. 423; per Lord Denman in Rickman *v.* Carstairs, *supra;* and see the facts of Robertson *v.* French (1803), 4 East, 130; Spitta *v.* Woodman (1810), 2 Taunt. 416; Langhorn *v.* Hardy (1812), 4 Taunt. 628, in all which it plainly appeared that the underwriters knew the goods had been previously loaded. The principle of these decisions has been adversely criticised by Erle, C. J., in Carr *v.* Montefiore (1864), 5 B. & S. 408, 428; 33 L. J. Q. B. 256, 259; and by Mr. Arthur Cohen, who thinks that they will not in future be followed: Halsbury's Laws of England, vol. xvii. § 760. Alternatively, the Court might now entertain a claim for rectification of the policy.

(*i*) Spitta *v.* Woodman (1810), 2 Taunt. 416; *S. C.*, 16 East, 188, n. See also Mellish *v.* Allnutt (1813), 2 M. & S. 106, where the risk was also made to begin "from the loading on board ship," without more.

Sect. 448.

other named place, the reason for a strict construction of the policy is still more cogent (*j*).

Rickman *v.* Carstairs.

449. The strict rule of construction was not relaxed in the later case of Rickman *v.* Carstairs, which was an action on a policy on ship and goods for a homeward voyage "at and from the coast of Africa" to the ship's port of discharge in the United Kingdom, beginning the adventure on the goods from the loading thereof aboard the said ship twenty-four hours after her arrival on the coast of Africa." It was held by Lord Denman and the Court of King's Bench, that, in the absence of anything upon the face of the instrument to show the contrary, this policy did not attach on part of the outward cargo, which, although still remaining on board the ship on the coast of Africa more than twenty-four hours after her arrival there and at the time of loss, had been loaded on board at her port of departure in this country (*k*).

Lord Denman, in delivering the judgment of the Court in that case, said: "It appears very likely that the assured intended by this policy to insure both the outward and homeward cargo. Unfortunately, however, they have used words which will not, we think, effectuate that intention. The question in this and other cases of the construction of written instruments is, not what was the intention of the parties, but what is the meaning of the words they have used" (*l*).

(*j*) See, accordingly, Robertson *v.* French (1803), 4 East, 130; Horneyer *v.* Lushington (1812), 15 East, 46; Langhorn *v.* Hardy (1812), 4 Taunt. 628; in all which the risk was made to commence from the loading on board at a named place.

(*k*) Rickman *v.* Carstairs (1833), 5 B. & Ad. 651.

(*l*) 5 B. & Ad. 662. In Carr *v.* Montefiore (1864), 5 B. & S. 428; 33 L. J. Q. B. 256, Erle, C. J., formulated the following rule of construction: "If the words of the instrument are clear in themselves, the instrument must be construed accordingly; but if they are susceptible of more meanings than one, then the judge must inform himself by the aid of the jury and the surrounding circumstances which bear on the contract"; and he was of opinion that the provision as to beginning the adventure from the loading at the *terminus a quo* is mere description, not a warranty that the cargo shall be loaded there. This is also Phillips' view: 1 Phillips, s. 939.

Sect. 450.

The Courts take every opportunity afforded by the parties of modifying the strict rule.

450. The application of this rule to some of these cases was the subject of severe animadversion in Carr *v.* Montefiore. "In the several Gottenburg cases it seems to me," says Erle, C. J. (*m*), "that a construction was put on the policies so as to defeat the intention of the parties." Cockburn, C. J., in the same case below (*n*), expresses a hope that it might be brought under the consideration of the highest Court of Appeal. And Lord Ellenborough, C. J., himself an assisting party in the establishment of this construction, says of it: "A very strict and certainly a construction not to be favoured, and still less to be extended, was adopted in Spitta *v.* Woodman. But if there be anything to indicate that a prior loading was contemplated by the parties, it will release the case from that construction" (*o*).

Bell *v.* Hobson.

Accordingly, where the words used on the face of the written instrument show, consistently with sound principles of interpretation, that the parties intended by the policy to protect goods loaded on board the ship elsewhere than at the *terminus a quo* of the voyage insured, the Court will relax the rigour of this rule.

Thus, where a policy on American produce for a voyage at and from Gottenburg to any ports in the Baltic, "beginning the adventure on the goods from the loading thereof on board the ship," was on the face of it declared to be "in continuation of five other policies," and these were on the same cargo for a voyage from Norfolk in Virginia to Gottenburg: Lord Ellenborough held that, as it thus clearly appeared on the face of the policy that the parties to it must have known that the goods had been loaded on board before arriving at Gottenburg, the policy had attached (*p*).

(*m*) (1864), 33 L. J. Q. B. 256, 259; 5 B. & S. 408, 429.

(*n*) 33 L. J. Q. B. 57, 63. The observation is not reported in Best & Smith.

(*o*) Bell *v.* Hobson (1812), 16 East, 240, 248. In the following year, however, Lord Ellenborough followed Spitta *v.* Woodman in Mellish *v.* Allnutt (1813), 2 M. & S. 106.

(*p*) Bell *v.* Hobson (1812), 16 East, 240; *S. C.*, at N. P. 3 Camp. 272.

Sect. 450.

Joyce *v.* Realm Insurance Co.

So a policy of re-insurance was in such terms as would have brought it within the rule in Spitta *v.* Woodman; but it was expressly made "subject to all clauses and conditions of the original policy," and as the original policy, being upon goods embarked in the barter trade on a voyage to Africa and back, stipulated that outward cargo should be considered homeward interest twenty-four hours after the ship's arrival at her first port of discharge, it was held that the policy of re-insurance was qualified by the terms of the original policy and had attached on the goods, although not loaded on the coast of Africa, but at Liverpool (*q*).

Effect of the words "wheresoever loaded." Gladstone *v.* Clay.

Lord Ellenborough had, in Bell *v.* Hobson, suggested the introduction of the words "wheresoever loaded" as a way of adapting the policy to the purposes of the parties. Accordingly a policy on a cargo for a homeward voyage "at and from Pernambuco to Maranham, and at and from thence to Liverpool"—"beginning the adventure on the said goods from the loading thereof on board the said ship wheresoever"—was held, by virtue of the word "wheresoever," to protect a portion of the outward cargo loaded at Liverpool and still on board at the time of the loss, while the ship was on her way from Pernambuco to Maranham, not having found a market at Pernambuco (*r*).

Constructive loading.

451. Moreover, if the goods, though originally loaded on board elsewhere, are afterwards, either wholly or in part, first landed and then reloaded, at the port specified in the policy as the *terminus a quo* of the voyage, this is a sufficient "loading on board the ship" at that port to make the policy attach under the clause.

Nonnen *v.* Kettlewell.

Thus, under a policy on ship and goods "at and from Landscrona to Wolgast," beginning the risk on the goods "from the loading on board the ship," the goods, though previously loaded on board at Gottenburg, were partly taken

(*q*) Joyce *v.* Realm Ins. Co. (1872), L. R. 7 Q. B. 580; 41 L. J. Q. B. 356.

(*r*) Gladstone *v.* Clay (1813), 1 M. & S. 418.

Sect. 451.

out of the hold on the ship's arrival at Landscrona and landed on the quay there, so as to enable the custom-house officers to ascertain the quality of the whole cargo and adjust the duties on it, after which they were reloaded on board. Lord Ellenborough held that this unloading and reloading distinguished the case from that of Spitta *v.* Woodman, and was sufficient to make the policy attach on the goods at and from Landscrona (*s*).

Carr *v.* Montefiore.

Accordingly, under a similar policy on goods "from a port or ports in the River Plate," where the cargo on the forepeak down to the keelson was taken out and landed at Monte Video for the purpose of repairing the ship and then reloaded, it was held that this satisfied the clause "from the loading thereof on board," although it was a cargo of guano that had been originally shipped at Liones Island in Patagonia. Cockburn, C. J., however, said he relied more upon the additional fact that at Monte Video, after the repairs, both ship and cargo had changed hands by sale and a new destination was given to the adventure by the purchasers (*t*).

Constructive loading in the United States.

In the United States, where the construction put upon this clause is as strict as in our own Courts, it has been held that merely unstowing the goods from the hold on the ship's arrival at the *terminus a quo* of the voyage insured, in order to make room for other goods there taken in, and then re-stowing them, is not equivalent to a loading on board at such terminus so as to make the policy attach on those goods (*u*). Phillips thinks that if the goods in this case had been landed on the wharf and then taken on board again, this would have been a loading within the terms of the policy.

(*s*) Nonnen *v.* Kettlewell (1812), 16 East, 176. In this case it was objected that the cargo had not been so far unloaded as to ascertain what amount of sea damage it had sustained on the voyage from its prior port of loading; but Lord Ellenborough held that as the goods were "warranted free of average," the objection at all events in this case would not apply.

(*t*) Carr *v.* Montefiore (1863), 5 B. & S. 408; 33 L. J. Q. B. 57; affirmed (in error) (1864), 5 B. & S. 425; 33 L. J. Q. B. 256.

(*u*) Murray *v.* Columbian Ins. Co. (1814), 11 Johnson, 302, cited 1 Phillips, Ins. s. 939.

Sect. 452.

452. This strict rule of construction, which has been applied in the case of goods loaded before the ship has reached the *terminus a quo*, does not prevail where, the voyage being a trading or bartering voyage, the policy contains a liberty "to touch, stay, trade, &c.," or any other clause of that kind; for in such cases it is obvious, on the face of the policy itself, that it must have been contemplated by the parties that other goods would be put on board in the course of the voyage than those loaded at the port of departure, and that they intended to protect such goods by the policy. Wherever, therefore, it can fairly be deduced from the whole construction of the policy that the parties contemplated loading, unloading, bartering or trading with goods at any intermediate ports in the course of the voyage insured, the policy attaches not only on goods loaded on board at the port of departure, but also on those loaded on board at any of the ports where the ship is empowered to touch and trade under the terms of the policy, or where, upon a true construction of the whole instrument, it must be presumed that such a loading was contemplated (*x*).

The strict rule not applicable where there is a liberty to touch and stay.

Violett *v.* Allnutt.

Thus, where a ship has liberty by such a policy to touch at a specified port, the policy attaches on goods loaded on board at that port in order to complete the cargo (*y*).

Barclay *v.* Stirling.

So a freight policy, with liberty for the ship "to call, exchange, or take on board goods at any ports or places she may call at," was held to cover the freight on fresh goods loaded on board the ship at a port of distress in order to replace part of the original cargo, which had been washed out of her as she lay ashore (*z*).

Hunter *v.* Leathley.

So in the case of Hunter *v.* Leathley, the policy attached on goods shipped on board to complete the cargo at a port lying diametrically out of the course from the original port of loading to the ultimate ports of discharge, and not named in the policy, though embraced within its very

(*x*) Violett *v.* Allnutt (1811), 3 Taunt. 419; Grant *v.* Delacour (1806), cited 1 Taunt. 466; Grant *v.* Paxton (1809), *ibid.* 463; Barclay *v.* Stirling (1816), 5 M. & S. 6; Hunter *v.* Leathley (1830), 10 B. & Cr. 858; affirmed (in error) (1831), 7 Bing. 517.

(*z*) Barclay *v.* Stirling (1816), 5 M. & S. 6.

Sect. 452.

extensive terms. Lord Tenterden intimated that in policies on trading voyages all places mentioned in the policy after the words "with liberty to touch, &c." may be considered as loading ports—*i.e.*, as ports, goods loaded at which will be protected by the policy (*a*).

453. The two following cases afford a good illustration of the mode in which the Courts apply policies containing such extensive liberties of touching and staying to the protection of goods laden on board in the course of the voyage.

Grant *v.* Delacour.

An East India captain, being desirous of protecting his interest in the adventure for the voyage out and home, effected a policy "on goods as interest shall appear" "at and from London to all ports or places on this or the other side of the Cape of Good Hope forwards and backwards at sea, at all times, on all services, and all ports and places, until the ship's arrival back again to her last station of discharge at Blackwall or Deptford," "beginning the adventure on the said goods from the loading thereof on board the said ship at London."

The Court held that, though these last words literally applied only to goods laden in London for the outward voyage, yet as these voyages were for the purposes of trading and barter, the policy attached upon any goods which the captain might acquire by trading with his outfit in the course of the voyage described in the policy, wherever they might be loaded on board (*b*).

Grant *v.* Paxton.

The same captain, to protect his interest in the same adventure for the homeward voyage, effected an insurance on goods "at and from China to all or any other ports or places whatsoever and wheresoever in the East Indies, Persia, or elsewhere beyond the Cape of Good Hope, in port and at sea, in all places, at all times, and in all services, until the ship's safe arrival at London"—"beginning the adventure upon

(*a*) Hunter *v.* Leathley (1830), 10 B. & Cr. 858; in error (1831), 7 Bing. 517.

(*b*) Grant *v.* Delacour (1806), cited 1 Taunt. 466. See per Mansfield, C. J., *ibid.* 474.

Sect. 453.

the said goods from the loading thereof on board at China," "with liberty for the ship in that voyage to proceed and sail to and touch and stay at any ports or places whatsoever, for any purposes whatsoever, without being deemed a deviation." With a cargo of tea originally loaded on board at China for the homeward voyage, the ship was afterwards obliged to put into Bombay to repair; the tea cargo was sent on to England in another vessel, and the captain, having repaired his ship, loaded a cargo of cottons at Bombay, and sent her therewith to Canton, on which voyage she was lost.

The Court held that this policy, unlike the former, had never attached on the goods so loaded at Bombay for the voyage to Canton; the insurance, they said, in this case was on nothing but the goods laden on board at China for the homeward voyage thence to London (*c*). The Court remarked that there was nothing on the face of this policy nor in the circumstances of the case to alter "the plain, fair, grammatical sense" of the words "beginning the risk on the goods from the loading thereof on board in China"; there was no custom of trade authorizing the company to send back the ship from Bombay to Canton, so as to keep her still within the protection of a policy effected on a homeward voyage from Canton to London; there was no intention of unloading the goods, for "it never was in the contemplation of the underwriters, or of any man, that a ship once laden with tea, a very valuable cargo, would be unloaded and employed in some other trade."

Limits of the port for the purposes of this rule.

454. The strict rule of construction which confines the policy to goods loaded at the *terminus a quo*, is not satisfied by their being loaded at a place within the legal limits merely of the port; unless it appears that the word used to describe the *terminus a quo* is understood in this extended sense by mercantile men (*d*).

(*c*) Grant *v.* Paxton (1809), 1 Taunt. 463.

(*d*) See *infra*, § 485, as to the meaning of "port" or "port of loading" in a policy. See also Sailing Ship Garston Co. *v.* Hickie

Sect. 454.

Constable v. Noble.

Thus, under a policy on goods "at and from Lyme to London," it appeared that the goods were loaded on board at Bridport, a town nine miles from Lyme town, but a member of the port of Lyme; the Court held, in the absence of any mercantile usage to show that goods insured from Lyme might be loaded at Bridport, that this policy never attached on these goods (*e*).

Payne v. Hutchinson.

In this case it appeared that there was no separate custom-house at Bridport; *à fortiori* where goods insured "at and from Carmarthen to London" were in fact loaded on board at Llanelly, which, though legally speaking a member of the port of Carmarthen, yet has a separate custom-house at which vessels are cleared out independent of that at Carmarthen, the Court held that this policy had never attached on the goods loaded at Llanelly (*f*).

Effect of usage.

If, on the contrary, there is a mercantile usage to ship goods under such policies, not at the place specified in the policy, but at some place adjoining thereto, the policy will attach on goods shipped in compliance with the usage. Thus

Moxon v. Atkins.

where a policy was effected on goods "at and from the ship's loading port or ports in Amelia Island," and the ship never touched at Amelia Island at all, but took in her cargo at Tigre Island, which is a little higher up the river St. Mary's —but this was the usual manner in which ships took in their cargo in that trade—Lord Ellenborough held that the policy attached on the goods so loaded (*g*).

A policy on goods "at and from" for a homeward voyage, only

455. A policy on goods "at and from" a foreign port for the homeward voyage, only protects the homeward-bound cargo, and only runs from the time when such cargo is wholly or partially loaded on board there. If there be a policy on

(1885), 15 Q. B. D. 580, for a discussion by Lord Esher of the tests for determining the business meaning of the word "port" in a charter-party.

(*e*) Constable *v.* Noble (1810), 2 Taunt. 403.

(*f*) Payne *v.* Hutchinson (1808), 2 Taunt. 405, n. The law as to this point is the same in the United States. See Murray *v.* Columbian Ins. Co. (1809), 4 Johns. R. 443, cited 1 Phillips, s. 931.

(*g*) Moxon *v.* Atkins (1812), 3 Camp. 200.

Sect. 455.

protects the homeward cargo.

outward cargo "until discharged and safely landed" in the same port, both policies may operate concurrently, the outward policy to protect what remains on board of the outward cargo, and the homeward policy to protect what has been already loaded of the homeward cargo (*h*).

Policy at and from an island.

If the place be an island or other place having several ports, as Jamaica, and there be two several policies, one on the outward cargo, say "from London to Jamaica," and the pother on the homeward cargo "at and from Jamaica to London," and the ship, after discharging part of her outward and shipping part of her homeward cargo at one port in Jamaica, be lost while proceeding to another port in that island in order to dispose of the residue of her outward and complete the loading of her homeward voyage, having thus part of both cargoes on board at the time of loss; in such case the true result of the authorities appears to be that the outward policy continues to protect what remains on board of the outward cargo, and the homeward policy attaches on what has been already taken on board of the homeward cargo (*i*).

Barter policies.

In policies on the African barter traffic, after the usual clause giving extensive liberty to load, reload, exchange, sell, or barter, &c., there is usually a clause that outward cargo is to be considered homeward interest twenty-four hours after arrival at first port or place of trade, so that the new and the old cargo on board are protected during the barter transactions on the coast (*k*).

Under such a policy on ship and goods for twelve months,

(*h*) See 2 Emerigon, c. xiii. s. 20; 3 Boulay-Paty, Droit Mar. 421—428; and 3 Kent, Com. 309. The effect of the clause often inserted in African voyages, that outward cargo is considered homeward risk twenty-four hours after arrival at the first port of discharge, may be that the outward cargo is protected at the same time by different sets of policies—*i.e.*, those on the outward and homeward voyages.

(*i*) 2 Emerigon, c. xiii. s. 20, pp. 114, 115; 3 Boulay-Paty, Droit Mar. 422; Camden *v.* Cowley (1763), 1 W. Bl. 417; Forbes *v.* Aspinall (1811), 13 East, 323; Warre *v.* Miller (1825), 4 B. & Cr. 538; Rickman *v.* Carstairs (1833), 5 B. & Ad. 651; 3 Kent, Com. 309.

(*k*) See Tobin *v.* Harford (1863), 13 C. B. N. S. 791; 32 L. J. C. P. 134; in error (1864), 34 L. J. C. P. 37, for such a clause.

Sect. 455.

an attempt was made to extend the barter clause so as to render the underwriter liable for loss by fire of cargo landed but not yet bartered, and of the produce received in exchange for part of it although not yet shipped; it was held, however, that the policy did not protect either kind of goods while on land (*l*).

In the United States, policy on goods outward and on their proceeds home.

It has been decided in the United States that a policy on goods outward and upon their proceeds home will apply to a homeward cargo procured by money or credit of the consignees at the port of discharge, though the outward goods, for want of a market, have not been in fact sold so as to realize any proceeds (*m*). A policy in this form will not, however, protect for the homeward voyage the same goods that were carried out but not landed at the outward port (*n*).

Continuance and end of the risk on goods.

456. The common clause in our English policies makes the risk on goods continue during the voyage to the port of discharge, "until the same be there discharged and safely landed" (*o*).

Meaning of "safely landed."

Rule 5 of the Rules for the Construction of the Policy in the First Schedule of the Marine Insurance Act, 1906, declares that—

> Where the risk on goods or other moveables continues until they are "safely landed," they must be landed in the customary manner and within a reasonable time after arrival at the port of discharge, and if they are not so landed the risk ceases.

By "safely landed" is meant safely delivered on shore, at

(*l*) Harrison *v.* Ellis (1857), 7 E. & B. 465; 26 L. J. Q. B. 239.

(*m*) Haven *v.* Gray (1815), 12 Mass. R. 71; Whitney *v.* The American Ins. Co. (1824), 3 Cowen, 210; 3 Kent. Com. 310.

(*n*) *Ibid.*

(*o*) In Marten *v.* Nippon, &c. Ins. Co. (1898), 3 Com. Cas. 164, the clause was "until safely delivered to consignees," and Bigham, J., held that placing the goods in the Customs warehouse was a safe delivery within the meaning of the clause. A "warehouse to warehouse" clause, which extends the risk until the goods are safely warehoused at their destination, is now usually inserted in the policy. See *ante*, § 447, note (*f*), and the Institute Cargo Clauses, *post*, Vol. II. App. B.

Sect. 456.

the ordinary wharves and quays or customary landing-places within the limits of the port of discharge (*p*). These limits are to be ascertained in case of doubt by the evidence of mercantile usage (*q*).

Policy covers goods landed in lighters according to usage.

457. It is frequently necessary to employ smaller craft, such as lighters, shallops, &c., to carry the goods from the ship to the shore. Whenever it is established that such a usage exists by the general course of trade, the underwriters are liable for any loss or damage that may happen to the goods in the course of their being so carried; for they are being landed in the customary manner (*r*).

"The insurer," says Lord Mansfield, "in estimating the price at which he is willing to indemnify the trader against all risks, must have under his consideration the nature of the voyage to be performed, and the usual course and manner of doing it. He took the risk upon the supposition that what was usual and necessary would be done, and therefore when goods are insured 'till discharged and safely landed' the insurance, without express words, extends to the boat, the

(*p*) See, as to this, Gatliffe *v.* Bourne (1838), 4 Bing. N. C. 314; Bourne *v.* Gatliffe (in error) (1841), 3 M. & Gr. 643; *S. C.*, before the House of Lords (1841), 7 M. & Gr. 850. The question in this case was what amounts to a delivery of goods under a charter-party to the consignee. The editors submit that the goods may be "landed" within the meaning of the policy, although the consignee may be entitled to say that there was not a good delivery to him because the landing-place was not a customary one.

(*q*) See per Lord Esher in Sailing Ship Garston Co. *v.* Hickie (1885), 15 Q. B. D. 580, for the meaning of the word "port" in a charter-party. See also *infra*, § 485.

(*r*) Whether the goods are protected while being discharged in a reasonable, though not the customary, manner was a moot point before the Mar. Ins. Act, 1906. Phillips (vol. i. s. 970) considered that goods are only protected in lighters when that is the usual mode of discharge. Parsons (vol. ii. p. 61) thought that the same rule should apply to any mode of conveyance by water made necessary by the circumstances of the case. Thus, if the usual mode of discharge is from the ship on to a quay, but in consequence of the crowded state of the quays the goods are taken ashore in lighters, they would, according to Parsons' rule, be protected. The rule in the Act agrees with Phillips' opinion.

Sect. 457.

usual manner of landing goods out of a ship upon the shore" (*s*).

In the port of London public lighters being employed, in the general course of trade, to unload ships, goods on such lighters, while being conveyed from the ship to the wharf, are under the protection of the policy (*t*).

So, where formerly, in the contraband trade in the Spanish main, it was usual for ships to stand into shore as near as they could, and then run the cargo ashore in launches, it was held that goods insured for this traffic were protected while in such launches (*u*). So, where the general usage with regard to all goods destined for a certain shallow bay in Jamaica was to put the ship into the nearest practicable port, and thence send the goods ashore in shallops; Lord Tenterden held, that the goods while being so sent on were protected by the policy (*v*).

Goods for St. Petersburg, on board vessels of any burden, are unloaded at Cronstadt, about twenty miles from the capital, and thence sent on, up the Neva, in lighters. Before the cutting of the canal of the Helder to Amsterdam, vessels of large burden sometimes unloaded at the Texel, and formerly the largest class of vessels were obliged to lighten between Cuxhaven and Hamburg. In such cases, as the river navigation is a foreseen and customary part of the voyage, and the risk thereof calculated in the rate of premium, the goods would be protected in the river craft under our common form of policies.

In France.

In France, it seems that their policies, though not considered as a general rule to protect goods when sent on from

(*s*) 1 Burr. 348; see also Lane *v.* Nixon (1866), L. R. 1 C. P. 412; per Byles, J., *ibid.* 420. In France this general principle is confined to the taking of goods from the ship to the shore, and does not, as a general rule, extend to their transport from the ship up rivers to the port of discharge. 2 Emerigon, c. xiii. s. 2, p. 49; 3 Boulay-Paty, Droit Mar. 419.

(*t*) Rucker *v.* London Ass. Co. (1784), 2 B. & P. 432, *in notis;* Hurry *v.* Royal Exch. Ass. Co. (1801), *ibid.* 430.

(*u*) Matthie *v.* Potts (1802), 3 B. & P. 23.

(*v*) Stewart *v.* Bell (1821), 5 B. & Ald. 238.

Sect. 457.

the ship up a river to the port, will yet do so whenever there is a usage to unload goods at the seaboard, and thus send them on, as from Paimbœuf to Nantes, though the distance between the two places is ten French leagues (*x*).

In the United States.

So, in the United States, on its being proved that hides were generally sent ashore at New York from the ship in boats, the Supreme Court of the United States held, that the risk continued on them while they were being so sent (*y*).

Where the assured receives the goods into his own care.

458. It has been held that in all such cases the assured may terminate the risk before the time when it would expire in the usual course under the policy, by receiving the goods out of the ship into his own care. Thus, although, as we have seen, goods while in a course of being carried in lighters from the ship to the shore are, generally speaking, protected in the port of London, yet a merchant of that port was held to have put an end to this protection by himself sending for them and bringing them ashore in his own lighter (*z*). Again, where goods were brought in a public lighter in the port of London

Sparrow *v.* Carruthers.

(*x*) 2 Emerigon, 49; 3 Boulay-Paty, Droit Mar. 419, 420; 1 Nolte's Benecke, 654.

(*y*) Wadsworth *v.* Pacific Ins. Co. (1829), 4 Wendall's R. 33. Arnould stated that in Osacar *v.* Louisiana Ins. Co. (1827), 5 Martin, N. S. 386, cited 1 Phillips, s. 970, the principle was carried to the extent of protecting goods destined for a Mexican port, while being carried up from the river bar to the town, partly in boats and partly overland on mules, that being shown to be the general mode of conveying them to their place of destination (2nd ed. vol. i. p. 484). This is, however, erroneous. The decision was that the goods were protected while being conveyed ashore in launches; and the Court said that, as the insurance was a marine one, there was no responsibility for land risks.

(*z*) Sparrow *v.* Carruthers (1746), 2 Str. 1236. "The only strong ground upon which it (*i.e.*, this case) can be supported," said Chambre, J., in Hurry *v.* Royal Exchange Assurance, "is that the owner of the goods completely accepted them and discharged the shipowner" (2 B. & P. 436). The discharge of the shipowner cannot, however, be the test of the end of the risk; for, although the liability of the shipowner ceased when he delivered the goods to a public lighterman, it was held in that case that the risk was not thereby terminated. Whatever the correct rule may be, as Marshall remarks, if there were a custom for merchants in any port to use their own lighters in landing goods, they would, no doubt, be protected by the policy. See also 2 Benecke, System des Assecuranz, c. viii. s. 1, p. 213.

Sect. 458.

to the merchant's wharf, where, owing to the roughness of the weather, they could not then be unloaded; and thereupon the merchant dismissed the lighterman, and told him to leave his lighter all night moored to the wharf, where he himself would look after it, and in the course of the night the lighter with the goods on board sank: the Court held that the merchant, by thus taking the goods into his own care and possession, had discharged the underwriter from all liability (*a*).

The Court of Appeal said in one case: "It is perfectly true that by taking delivery short of the shore the consignee determines the risk insured. But this is not because in such a case the risk is terminated by an actual landing, but because the consignee waives the landing, and himself terminates the risk by taking delivery short of the land" (*b*). There is, however, nothing in the wording of the instrument to justify the rule that the policy does not protect the goods when the assured has taken possession of them. The risk is expressed to be, not until the owner of the goods takes delivery, but until the goods are safely landed (*c*).

Paul *v.* Ins. Co. of North America.

In another case (*d*) there was a policy on goods from Baltimore to Ipswich, "including all risks of craft to and from the vessel." The evidence was that steamers bound to Ipswich usually proceeded up the Orwell to Butterman's Pool, where they discharged their cargoes into lighters; but by an arrangement made in this case, which was said not to be an unusual one, the owners of the goods insured took delivery of them into their own lighters, and some of the goods were lost alongside after they had been put into one of these lighters. Mathew, J., held that the assured could recover. He characterized the decisions in Sparrow *v.* Carruthers and Strong *v.* Natally as extra-

(*a*) Strong *v.* Natally (1804), 1 B. & P. N. R. 16.

(*b*) Houlder *v.* Merchants' Marine Ins. Co. (1886), 17 Q. B. D. 354, 356. It was not necessary to decide this point. See *post*, § 459.

(*c*) Mr. Arthur Cohen agrees with this view: Halsbury's Laws of England, vol. xvii. § 764.

(*d*) Paul *v.* Insurance Co. of North America (1899), 15 Times L. R. 535.

Sect. 458.

ordinary, and said: "'Including risk of craft' covers carriage in a hired lighter; why not also in lighters belonging to the assured?" The only ground on which this judgment can be reconciled with that of the Court of Common Pleas in Strong *v.* Natally is that the clause "including risk of craft from the vessel" authorizes any reasonable use of lighters to discharge the goods, and thereby, even when the lighters belong to the assured, prevents the application of the principle of Strong *v.* Natally; but this is not a satisfactory reason for distinguishing the cases. For the reason already given, the editors consider Strong *v.* Natally a questionable decision. They further submit that, even if that case be supported, if the ship, owing to perils of the sea, had to abandon the voyage at an intermediate port, and the owner of goods, obliged to take possession of them there, carried them in his own ship to the *terminus ad quem*, the underwriter would not be discharged. This acceptance of the goods is not the same as a voluntary acceptance at the port of discharge.

Risk of craft till landed.

459. Where the policy expressly provided for "all risk of craft until the goods are discharged and safely landed," and the goods had been put into lighters at the port of destination named in the policy, not, however, for the purpose of being landed, but of being transhipped into export vessels bound for a foreign port, a loss of part of the goods was held not to be within the risk described in the policy. The goods were not in lighters for the purpose of being landed, but for the purpose of being transhipped, a purpose that could not be expressed by the term "landed" (*e*).

When the goods are considered to have been "landed."

460. Whenever the goods can be considered as landed, according to the usual course of business at their port of destination, the risk ends, though they may never have been delivered into the hands of the consignees (*f*).

(*e*) Houlder *v.* Merchants' Marine Ins. Co. (1886), 17 Q. B. D. 354. The rule is different when goods are, in the customary way, placed in lighters at an intermediate port for transhipment, there being liberty to tranship.

(*f*) Gatliffe *v.* Bourne (1838), 4 Bing. N. C. 314; *S. C.*, before the House of Lords (1841), 7 M. & Gr. 850.

Sect. 460.

Thus at Reval, the port of discharge, the cargo was (according to the uniform course of business in that port) unloaded into government lighters by the revenue officers, and lodged in government warehouses, where it was afterwards confiscated, without ever coming into the hands of the consignees: Lord Ellenborough held, that the risk ceased on its so being landed, for that the policy protected it against the perils of the sea only, and not of the shore (*g*).

General rule.

The general rule, in fact, is clear, that the underwriter in a sea policy insures only against sea risks; the risk on goods, therefore, ends directly they are put on terra firma, unless they are placed there only for a temporary purpose, subsidiary to the main purpose of the voyage, or under such circumstances as to be protected by the usage of the trade (*h*), or unless there be a special agreement to prolong the risk (*i*).

The following American case, which seems to have been well decided, affords a good illustration of this rule. An insurance had been effected on "specie and merchandise out and merchandise home, at and from Boston to ports in the islands of Sumatra and Java, for the purpose of disposing of the outward and procuring a return cargo, &c., with liberty to touch at the usual places and trade thereat." The captain had landed, at a port in Sumatra, a chest of opium, part of the outward cargo, to be exchanged for a certain quantity of pepper and dollars, but, not being able to come to terms, had taken up the chest and stowed it in the launch for the purpose of being carried back to the ship, when the natives made a rush on the crew, overpowered them, and carried off the opium: the Court held that, under these circumstances, the opium was protected by the policy. Sedgwick, J., in giving the judgment of the Court, said: "The goods were as much

(*g*) Brown *v.* Carstairs (1811), 3 Camp. 161; see also Marten *v.* Nippon, &c. Ins. Co. (1898), 3 Com. Cas. 164.

(*h*) Harrison *v.* Ellis (1857), 7 E. & B. 465; 25 L. J. Q. B. 239; contrasted with Pelly *v.* Royal Exch. Ass. Co. (1757), 1 Burr. 341; Brough *v.* Whitmore (1791), 4 T. R. 206; see also Australian Agricultural Co. *v.* Saunders (1875), L. R. 10 C. P. 668.

(*i*) See *post*, § 470.

Sect. 460.

protected by the policy in the boats, while employed as auxiliary to the voyage, as they were on board the ship" (*k*).

Damage in unloading.

461. As by our law the risk on the goods continues until they are safely landed at the wharves or usual landing places of the port of discharge, any damage caused to the goods in the course of unloading them from the ship into the lighters, or from the lighters on to the wharf, would fall on the underwriters, always supposing, that is, that such damage be not imputable to the wilful default of the assured. Accordingly, where a policy, otherwise in the common form, gave a special power of shipping and reshipping the goods, Lee, C. J., held that the policy would extend to cover a loss happening in the unloading and reshipping from one ship to another (*l*).

In a more recent case, though the words were "risk of transhipment, or landing and reshipment," such as would cover a loss by fire during a continuous process of transhipment, or while the goods were being landed or reshipped, it was held that in the absence of custom they would not cover a loss by fire while the goods, after being landed, were stored in a warehouse and waiting to be shipped (*m*).

Time within which the goods must be landed.

462. In our common policies no fixed period of time is specified during which the risk on the goods is limited to continue after the ship's arrival; *i.e.*, there is no specified time within which their landing must be completed, and beyond which they will be out of the protection of the policy. The rule, as we have seen, is that they must be landed "within a reasonable time after arrival at the port of discharge, and if they are not so landed the risk ceases" (*n*).

Foreign law.

The law of France in this respect agrees with our own (*o*).

(*k*) Parsons *v.* Massachusetts Fire and Marine Ins. Co. (1810), 6 Mass. R. 197; 1 Phillips, s. 970.

(*l*) Tierney *v.* Etherington (1743), 1 Burr. 348.

(*m*) Australian Agricultural Co. *v.* Saunders (1875), L. R. 10 C. P. 668.

(*n*) Mar. Ins. Act, 1906, Sched. I. rule 5, *ante*, § 456.

(*o*) The Code de Commerce (arts. 328, 341) provides that the risk on goods shall continue "jusqu'au jour où elles sont délivrées à terre." The

Sect. 462.

By some of the foreign codes, on the other hand, it is provided that the risk upon the goods, unless they are previously landed, shall continue only for a certain limited number of days after the ship's arrival at the port of discharge (*p*).

The reasons given for preferring a fixed number of days are—1st, to avoid all litigation as to what shall be deemed reasonable time (as to which see presently); 2ndly, to compel a speedy clearance of the cargo. Benecke, however, after examining the different provisions of foreign states on this subject, concluded that the rule adopted in England and France is, upon the whole, preferable; and this opinion seems well founded (*q*).

Duration of risk may be varied by a special clause.

It is, of course, competent to parties effecting insurances in this country to adopt special clauses, varying the duration of the risk as fixed by the common clauses.

What is a reasonable time for discharging cargo.

463. The extent of a reasonable time for the unloading depends entirely on the nature and usages of the trade, the main object of the adventure, and the circumstances of the port of discharge at the time.

In the barter trade.

Thus, under a policy for the African barter trade in gum, continuing the risk on the cargo "till discharged and safely landed," the ship was captured about a month after her arrival on the African coast, at which time, as no gums had been brought down to the coast by the natives, no part of her outward cargo had been landed for the purpose of barter:

Belgian Code (art. 195) and the Spanish Code (art. 761) are similar. Except in the case of unjustifiable delay on the part of the assured or consignee, the risk endures by the German Code also (arts. 824, 821 (4)) until the goods are landed. By the Russian Code (art. 557) the risk ends when the goods are landed, or the time fixed for discharging has expired.

(*p*) By the Commercial Code of Holland (art. 627) the risk ends fifteen days after the ship's arrival. In case of delay through the fault of the consignee, the Italian Code (arts. 601, 611) makes the risk end one month after arrival. For the older laws, see 2 Magens, and 2 Benecke, System des Assecuranz, c. viii. s. 1, p. 209.

(*q*) 2 Benecke, System des Assecuranz, p. 223; Nolte agrees with him, vol. i. pp. 657—660.

Sect. 463.

Lord Kenyon held, that as, under the circumstances, no unnecessary delay appeared to have taken place, the risk on the outward cargo was a continuing risk at the time of the loss (*r*).

In the Newfoundland trade.

In the Newfoundland and Labrador trade, as carried on early in the nineteenth century, the great object of the adventure being to catch fish, the outward cargo generally consisted in great part of salt and provisions for victualling the crew and curing the fish caught. This part of the cargo was naturally consumed as wanted, and never landed at all; even such part of it as consisted of merchandise was frequently not landed until the fishing, which was the main business of the adventure, left the crew at liberty to discharge it. In the case, therefore, of outward cargoes insured on board ships engaged in this trade by policies in the common form, continuing the risk on the goods "till discharged or safely landed," it was held that such outward cargoes were protected by the policy, though in one instance they were still on board for thirty, and in another for fifty, days after the ship's arrival off the coast (*s*).

As a general principle, the risk continues until the goods are landed at the ultimate port of discharge.

464. When goods are insured in the common form, the risk upon them continues until they are safely landed at the particular port which is either named in the policy as their ultimate port of discharge, or contemplated as such by the parties (*t*).

Even when the place named in the policy as the *terminus ad quem* of the voyage is one of the West Indian Islands, or other place containing several ports, an outward policy effected on the goods will, generally speaking, enure to protect them until the whole of the outward cargo, or, at

(*r*) Parkinson *v.* Collier (1797), 2 Park, Ins. 653; 1 Marshall, Ins. 255. It is obvious that in such a case as this a fixed rule of time would have operated unjustly.

(*s*) Noble *v.* Kennoway (1780), 2 Dougl. 510; see also Vallance *v.* Dewar (1808), 1 Camp. 503; Ougier *v.* Jennings (1800), *ibid.* 505, n.

(*t*) Lord Mansfield in Barrass *v.* London Ass. Co. (1782), 1 Marshall, Ins. 266; Leigh *v.* Mather (1795), 1 Esp. 412.

Sect. 464.

all events, until the great bulk of it, has been safely landed at that port in the island which was, in fact, contemplated by the parties as the ultimate port of discharge (*u*).

Where the great bulk of the cargo has been discharged.

465. Where, indeed, the great bulk of the outward cargo, under such a policy, has been unloaded and sold at any given port, either in that island or elsewhere within the limits of the voyage, and that which remains on board, being trifling in quantity, is taken on, either as ballast or because it could not be sold at the port where the rest was disposed of, in such cases the risk on the outward cargo will be held to have terminated at the port where the bulk of it was sold; and the liability of the underwriters on the outward policy will not be held to continue merely because at the time of the loss an insignificant portion of the outward cargo may still be on board.

This principle, which is equitable and well adapted to the real intentions of the parties, has long been established in the law of France (*x*); and has received abundant confirmation in the jurisprudence of this country (*y*).

Leigh *v.* Mather.

Thus, where an insurance was made on ship and goods "at and from Georgia to Jamaica," and the ship arrived at Montego Bay, which was the port to which the cargo was originally destined, where she remained a month, and during that period sold and delivered the greatest part of her cargo, and would have disposed of the whole but for a verbal agreement with a party who chartered the vessel for a voyage from Montego Bay to St. Anne's, for a cargo, and thence to London, by which agreement part of the outward cargo,

(*u*) Barrass *v.* London Ass. Co. (1782), 1 Marshall, 266.

(*x*) Emerigon, c. xiii. s. 20; 3 Boulay-Paty, Droit Mar. 421—429.

(*y*) Leigh *v.* Mather (1795), 1 Marshall, Ins. 266; 1 Park, 74. As to the ship, Inglis *v.* Vaux (1813), 3 Camp. 437; Moore *v.* Taylor (1834), 1 A. & E. 25. The editors submit that under a policy on a trading voyage the fact that only a small quantity of goods remains on board, because it has not been sold, will not determine the policy, except it be so trifling that the maxim "De minimis," &c., applies. Of course, if goods are kept as ballast only, they cease to be cargo and to be protected by the policy.

Sect. 465.

which was lumber, was to be carried in ballast to St. Anne's: Lord Kenyon held, that under these circumstances the risk on the outward cargo came to an end when the bulk of it was landed at Montego Bay, and did not continue on that part of it which was carried on as ballast to St. Anne's (*z*).

The subject will receive further illustration when we come to consider the duration of risk on the ship.

Goods insured "till arrived at the last place of discharge in the outward voyage."

466. In the following case a question was made as to the continuance of the risk on goods insured "until arrived at the last place of discharge in the outward voyage."

The goods in question were the investment of an East India captain, and the voyage for which they were insured was described in the policy to be "at and from London to Madeira, the Cape of Good Hope, and all or any of the ports or places in the East Indies, China, Persia, or elsewhere, on this or the other side the Cape," "until arrived at the last place of discharge on the outward voyage, with leave to exchange the goods in the course of the voyage." The ship arrived at Calcutta, and there discharged the whole of the cargo she carried out for the East India Company; after which she was ordered by the company on an intermediate voyage to Madras, and took on board a cargo to be conveyed thither. The captain had also landed the whole of his investment (the goods insured by this policy) at Calcutta, and had disposed of a considerable part of it; but, being unable to find purchasers for the residue, he resolved to carry it on to a new market, and, with this view, re-loaded it on board the ship for Madras. The ship was lost on the intermediate voyage from Calcutta to Madras. Lord Ellenborough held that the risk had ended at Calcutta; for, as all the company's outward cargo had been discharged there, that port was the "last place of discharge on the outward voyage," upon the true construction of the policy (*a*).

(*z*) Leigh *v.* Mather (1795), as reported 1 Marshall, Ins. 266; 1 Park, Ins. 74. The case, as reported in 1 Esp. 412, is not consistent with the principles above laid down, nor, it is submitted, with law.

(*a*) Richardson *v.* London Ass. Co. (1814), 4 Camp. 94.

Sect. 466.

Goods insured "to a market."

"If," said Lord Ellenborough, "the company's officers wish for the protection which is here sought (*i.e.*, until the goods are finally disposed of in some market in the East Indies), they must not limit the risk to the duration of the outward voyage, but extend it to the arrival of the goods to a market at their final port of discharge." No doubt an insurance in such form would effectually protect the goods until the whole were actually disposed of in some foreign market (*b*).

Goods insured to their "final port of destination."

467. When the risk on the goods is made by the policy to continue "until they shall be arrived at their final port of destination," it will frequently become a question of fact, depending upon the intention of the parties, what "the final port of destination" really was.

Oliverson *v.* Brightman.

During the suspension of friendly relations between this country and China, in the year 1841, the "Penang" arrived in Macao Roads, with a cargo insured from Liverpool for various ports in China by a policy, containing the most extensive liberties, in the China Seas, to tranship cargo on board any other vessel, to visit any ports, and to remain there till it should be deemed expedient to proceed to her port or ports of discharge, continuing the risk "until the goods should be arrived at their final port of destination."

The consignees at Macao, finding that it would be dangerous to send the goods up the river to Canton, and also that it would be necessary, owing to sea damage sustained in the voyage, to tranship them, hired the "James Laing" as a temporary receiving ship, and sent her with the "Penang" to Hong Kong—the safest anchorage in those seas—in order there to receive the cargo from the "Penang" for the purpose, 1st, of examining it; 2nd, of keeping it on board in a place of safety till it could be sent on to Canton, or some other market in China, where it could be sold; there being then no market whatever at Hong Kong. During the

(*b*) See the cases as to the continuance of risk on ship, *post*, §§ 496, 501.

Sect. 467.

transhipment in Hong Kong Roads, the "James Laing," and all the goods that had, up to that time, been transhipped into her, were sunk in a typhoon and lost. In an action for this loss the Court were clearly of opinion that Hong Kong was not the final port of destination within the contemplation of the parties, and further, that the principle established by Brown *v.* Vigne (*c*)—that if a vessel, instead of proceeding to her originally destined port, chooses to wait at another until the termination of war, the voyage is thereby determined—was inapplicable to the circumstances of this case; for the fact in Brown *v.* Vigne was that there was actual war with Spain, which rendered it illegal to send on the goods to their original port of destination; whereas here, there having been no formal declaration of war against China, it would not have been illegal, but only dangerous and inexpedient, to send the goods on to Canton, or any other market in China. Accordingly, the risk on the goods lost in the "James Laing" was held to be a continuing risk at the time of the loss, and the plaintiff therefore recovered (*d*).

Effect of transhipment.

468. The general rule is, that if goods be transferred in the course of the voyage to another ship the risk is at an end, the English policy being worded to cover a voyage in one ship only. There are, however, two cases in which it was held—before the Marine Insurance Act, 1906—that the risk is not determined by a transhipment. One is where the policy contains an express licence to tranship (*e*); the other is

(*c*) (1810), 12 East, 283.

(*d*) Oliverson *v.* Brightman (1846), 8 Q. B. 781; 15 L. J. Q. B. 274. In this case the policy contained an express liberty "to tranship." In another case on the same adventure, where the policy contained no such liberty, the Court, on proof of the above facts, directed a nonsuit. Bold *v.* Rotherham (1846), 8 Q. B. 781; 15 L. J. Q. B. 279.

(*e*) Where goods shipped on board a P. & O. steamer were insured to any ports in Australia "in P. & O. and Orient steamers, with all liberties and exceptions as per bill of lading," and by the bill of lading the goods were to be transhipped at Sydney into local steamers for delivery at Brisbane, Bigham, J., held that they were covered after transhipment into a local steamer which did not belong to the P. & O. Company, whose steamers do not run to Brisbane. Neale *v.* Rose

Sect. 468.

where it is impossible to carry the goods to their destination in the original vessel. Thus, if in the course of the voyage the original ship becomes disabled, and the goods are by the master sent on in another vessel, it was held that the risk on the goods continues until they are safely landed out of the substituted ship at the original port of destination (*f*), provided that a clear case of necessity is made out (*g*).

With reference to transhipment from necessity, sect. 59 of the Marine Insurance Act, 1906, contains the following provision:—

> Where, by a peril insured against, the voyage is interrupted at an intermediate port or place, under such circumstances as, apart from any special stipulation in the contract of affreightment (*h*), to justify the master in landing and reshipping the goods or other moveables, or in transhipping them, and sending them on to their destination, the liability of the insurer continues, notwithstanding the landing or transhipment (*i*).

When the policy gives leave to tranship, the insurer is liable for a loss happening in the course of a transhipment or landing and reshipment effected in the manner usual in the port (*k*); and there is no doubt that whenever the transhipment or landing and reshipment do not put an end to the risk, the insurer is similarly liable (*l*).

(1898), 3 Com. Cas. 236. See also Belgian Grain and Produce Co. *v.* Cox, [1919] W. N. 308 (C. A.).

(*f*) Plantamour *v.* Staples (1781), 1 T. R. 611, n.; 1 Marshall, Ins. 164. In that case a policy was effected on ship and goods for a trading voyage out and home. The ship was wrecked on the outward voyage, but some of the goods were saved and sent to their destination. It was held that the policy covered goods bought with the proceeds of the sale and sent home in another ship.

Sect. 468.

Tierney *v.* Etherington.

In Tierney *v.* Etherington goods were insured on board a Dutch ship "from Malaga to Gibraltar, and at and from thence to England and Holland, both or either," continuing the risk "till the ship and goods be arrived at England or Holland, and there safely landed." There was a special clause in the policy, by which it was agreed that on the arrival of the ship at Gibraltar the goods might be unloaded and reshipped in one or more British ship or ships for England and Holland, &c. When the ship arrived at Gibraltar there was no British ship there, and the goods were unloaded and put into a store-ship (which it was proved was always considered as a warehouse), in order to be kept there till some British ship should arrive. Two days after the goods were put into this store-ship they were lost in a storm.

For the underwriters it was objected that the risk on the goods was at an end upon their being loaded into this store-ship, which was to be considered as a warehouse on land; but Lee, C. J., held that the construction should be according to the course of trade in Gibraltar; and that, as it appeared to be the usual method of unloading and reshipping in that place, that, when there is no British ship there, the goods should be kept in store-ships until one arrives, the risk upon the goods so loaded according to such custom should be held to continue, and the underwriters to be liable (*m*).

Predetermination of the risk by sale of the goods.

469. Inasmuch as an assured must be interested in the subject-matter insured at the time of the loss (*n*), the underwriter's liability on the policy may be terminated before the end of the voyage, if the assured part with his interest with-

(*l*) The Supreme Court of Massachusetts said in one case that if it be necessary on account of the loss of the ship to carry the cargo overland for the purpose of transhipment, the underwriter is liable during the land transit. Bryant *v.* Commonwealth Ins. Co. (1833), 13 Pickering, 543, 555.

Sect. 469.

out transferring the right to the protection of the policy. Thus, where a cargo of wheat insured from Galatz to Emden and (or) United Kingdom was sold by the assured, "including insurance to Emden," it was held that the purchaser could not recover for a loss between Emden and the port of discharge in the United Kingdom (*o*).

Prolongation of the risk during land transit;

470. By express contract the protection of a marine policy may be prolonged after landing and during the subsequent transport of the goods overland (*p*). Thus, in a policy the voyage was described: "At and from Japan and (or) Shanghai to Marseilles and (or) Leghorn, and (or) London *viâ* Marseilles and (or) Southampton, and whilst remaining there for transit, with leave to call, &c., in the good ship or vessel called 'The ——' steamers or steamer, per overland, or *viâ* Suez Canal," &c. In the margin was this memorandum: "It is hereby agreed that the silks insured by this policy shall be shipped by Peninsular and Oriental Company, Messageries Impériales steamers, and (or) the steamers of the Mercantile Trading Company of Liverpool only."

The goods were shipped and paid for to London by the Messageries Impériales steamers, whose customary route, followed in this instance, was from Shanghai to Marseilles, and thence overland, through France, *viâ* Paris, where they arrived on the 13th of September, 1870; and while they were still there the German armies approached on the 19th September and surrounded the city, preventing the goods after that event from being forwarded to London. It was held that, the goods being still covered by the policy, there was a total loss within the meaning of the peril described

(*o*) Ionides *v.* Harford (1859), 29 L. J. Ex. 36; see also North of England Oilcake Co. *v.* Archangel Maritime Ins. Co. (1875), L. R. 10 Q. B. 249. As to the assignment of the policy to a purchaser, see *ante*, § 174 *et seq.*

(*p*) See, *e.g.*, Rodocanachi *v.* Elliott (1873), L. R. 8 C. P. 649. For other forms of policy prolonging the risk to cover a land transit, see Simon, Israel & Co. *v.* Sedgwick, [1893] 1 Q. B. 303; Schloss *v.* Stevens, [1906] 2 K. B. 665.

Sect. 470.

therein as "the arrests, restraints, and detainments of all kings, princes, and people" (*q*).

until goods warehoused.

It is now usual by means of a "warehouse to warehouse" clause to prolong the risk after the goods have been landed, until they have been warehoused at their destination (*r*).

Policy on pumps for a salvage adventure.

471. A somewhat peculiar case arose out of a policy specially worded to protect certain pumps used in salvage operations.

A salvage company intending to raise the steamer "Alexandra," ashore near Drogheda, effected a policy on four steam pumps, &c., valued at 2,000*l.*, on the "Sea Mew" salvage steamer, "at and from Ardrossan to the 'Alexandra' steamer ashore in the neighbourhood of Drogheda, and whilst there engaged at the wreck, and until again returned to Ardrossan; the risk beginning from the loading on board the 'Sea Mew' upon the said ship and (or) wreck, &c." The pumps arrived safely at the wreck, were used on board of it, and were successful in raising it. The wreck, with the pumps still on board, then started for Ardrossan in tow of several tugs, the "Sea Mew" also acting in that capacity; but the weather became so foul that they necessarily put about for Belfast, and before that port could be reached the wreck went down with the pumps on board. The Court of Appeal held that the words of the policy did not cover the voyage to

(*q*) Rodocanachi *v.* Elliott, *supra.*

(*r*) See *ante*, § 447, n. (*f*). A policy on goods "to wharf or export vessel at port of discharge," was expressly stated to cover the goods while "temporarily placed upon the quay . . . and until delivered to the export vessel or at any wharf or warehouse within the limits of the port." They were placed in sheds on the quay while the consignee, who had not made up his mind as to their ultimate destination, was trying to find a purchaser, and were there damaged by fire; and it was held that they were covered: Westminster Fire Office *v.* Reliance Mar. Ins. Co. (1903), 19 Times L. R. 668. For the construction of a policy on goods "until safely delivered into warehouse or other place for which the goods have been entered, or in which it is intended they shall be lodged," see Deutsch-Australische Dampfschiffsgesellschaft *v.* Sturge (1913), 30 Times L. R. 137.

Sect. 471.

Belfast, that being a voyage undertaken for the safety of the wreck, and not intended to be insured (*s*).

Cotton, L. J., and Thesiger, L. J., thought that it was not in the contemplation of the parties that the pumps should be kept on the wreck after she was raised and while she was being taken to a port of refuge. Brett, L. J., was of opinion that the pumps would have been protected even on the wreck if she had been returning to Ardrossan. It is submitted, however, that the correctness of the decision may depend on whether the policy was intended to cover the pumps on the wreck after she was raised. If not, it is clear that the risk was varied when the pumps were afterwards allowed to remain on board of her, instead of being reloaded on board the "Sea Mew"; and the policy then came to an end. On the other hand, if the policy covered the pumps on board the wreck until their return to Ardrossan, although no doubt the voyage to Belfast instead of to Ardrossan was not within the scope of the policy, the deviation to Belfast might be justifiable if it was properly made for the safety of the "Alexandra." It was under such circumstances a deviation for the safety both of the vessel on which the assured was entitled to have the pumps carried, and of the property on board of her.

Duration of risk on the ship.

472. We come now to consider the duration of the risk on ship, and first its commencement. In most of the Continental states the period of the commencement of the risk on the ship is fixed by their codes: subject, of course, to be varied by the express stipulations of the parties. Thus, in France, unless otherwise stipulated by the policy, the risk on ship commences from the day of the ship's sailing (*t*).

Commencement of risk abroad.

In this country the period at which the risk on the ship commences depends on the terms of the policy, and the nature of the voyage intended to be insured.

In this country.

(*s*) Wingate *v.* Foster (1878), 3 Q. B. D. 582. For another case of a policy on pumps for a salvage adventure, see *ante*, § 443, note (*q*).

(*t*) Code de Commerce, arts. 328, 341.

Sect. 473.

Insurance "from" a port.

473. Rule 2 of the Rules for the Construction of the Policy in the first Schedule of the Marine Insurance Act, 1906, states that—

> Where the subject-matter is insured "from" a particular place, the risk does not attach until the ship starts on the voyage insured.

Thus, if the ship be insured simply "from" a port, or if the adventure on the ship be made by the policy "to begin on the ship from A. B.," the risk does not commence until the ship sails on her voyage "from" such port; *i.e.*, until she quits her moorings and breaks ground, being in a state of perfect equipment and readiness for her voyage (*u*).

"At and from" a port:

474. With regard to insurances on ship "at and from," the law was stated as follows in the second edition of this work:—

"If the ship be insured 'at and from' a home port, *i.e.*, if the *terminus a quo* be a port in this country in which the ship is then lying, the risk commences on the ship immediately upon the execution of the policy, and continues during the whole time the ship remains in the home port in a course of preparation for her voyage.

"If the ship be insured, and the adventure made to commence upon her 'at and from' some foreign port at which the ship is expected to arrive, with the view of protecting her for her homeward voyage, it is now settled in this country that, in order to make the risk under the homeward policy attach on the ship, she must have once been at the outward port in good physical safety" (*x*).

(*u*) Pittegrew *v.* Pringle (1832), 3 B. & Ad. 514; Hunting *v.* Boulton (1895), 1 Com. Cas. 120, in which the insurance was "from date of sailing from Leith;" 1 Marshall, Ins. 260. The law is the same in the United States. 3 Kent, Com. 307, n. (*a*). See what constitutes a sailing within the meaning of warranties to sail at a particular time, *post*, § 643 *et seq.*

(*x*) 2nd ed. p. 496; 6th ed. p. 404. The authorities cited are Motteux *v.* London Ass. Co. (1739), 1 Atkyns, 548; Palmer *v.* Marshall (1831), 8 Bing. 79. The same rule is stated by Story, J., in Seaman *v.* Loring (1816), 1 Mason, R. 127, 140. Chancellor Kent says that the

Sect. 474.

The language of this passage, and that used by many judges and text-writers, suggests that this question of the commencement of the risk is a different one according as the voyage is from a home or a foreign port (*y*). Yet there is no distinction in principle, as regards the attachment of the risk, between voyages beginning at home and those beginning at foreign ports; and no such distinction is made, as will presently appear, in the Rules for the Construction of the Policy in the Marine Insurance Act, 1906.

Rules in Mar. Ins. Act for attachment of risk on ship.

475. When the insurance is "at and from" there are three possible cases—(1) The ship may then be lying at the *terminus a quo*, (2) she may not have arrived there, (3) she may already have sailed.

In relation to the first and second cases, the Marine Insurance Act, 1906, lays down the following rule (*z*):—

> (a) Where a ship is insured "at and from" a particular place, and she is at that place in good safety when the contract is concluded, the risk attaches immediately.
>
> (b) If she be not at that place when the contract is concluded the risk attaches as soon as she arrives there in good safety, and, unless the policy otherwise provides, it is immaterial that she is covered by another policy for a specified time after arrival.

Policy "at and from" a port effected when the ship is lying there.

With regard to a ship lying at the *terminus a quo* when the policy is effected, it thus appears that the mere presence of the ship in port will not under all circumstances cause the policy to attach. She must be there "in good safety," and therefore the policy will not attach unless the ship is in a

risk "includes all the time the ship is in port, after the policy is subscribed, if the ship be at home": 3 Com. 307. See, as to this, Chitty *v.* Selwyn (1742), 2 Atk. 359, and *ante*, "Deviation."

(*y*) There is no suggestion of such a distinction in Phillips' treatise, unless it can be inferred from the statement (vol. i. s. 934) that under a policy "at and from" a foreign port the risk is held not to commence until the ship is there in good safety. The distinction is, however, recognized by Chancellor Kent (3 Com. 307), and by Story, J., in Seaman *v.* Loring (1816), 1 Mason, R. 127, 140.

(*z*) Sched. I. rule 3.

Sect. 475.

reasonable state of fitness for the harbour risk (*a*). And it is further submitted that the policy will not attach if the ship be not in the port for the purposes of the insured voyage (*b*). Thus, if the insured voyage be "at and from" A. to B. and at the time when the contract is made the ship be taking cargo on board for a voyage from A. to C., it seems clear that the risk will not attach even "at" A. So also, if a ship has been laid up for some time, it may be that the policy will not attach until preparations for the voyage are begun. This has been decided in the United States with regard to a ship lying in a foreign port (*c*).

Before the Marine Insurance Act, 1906, it had not been necessary to decide that a policy on a ship "at and from" a place where she was then lying did not attach retrospectively. There is no doubt authority for the view that the risk only attaches as from the time when the contract is made; and Rule 3 (*d*) in the first Schedule to the Act, which provides that the risk attaches immediately, certainly seems to be founded on this view. For the condition in the rule that the ship must at the time when the contract is concluded be in good safety at the *terminus a quo* cannot be reconciled with a right to recover for previous losses; for if the ship had already been totally lost during her stay "at" the *terminus*

(*a*) Forbes *v.* Wilson (1800), 1 Park, 472; see also Annen *v.* Woodman (1810), 3 Taunt. 299; Parmeter *v.* Cousins (1809), 2 Camp. 235. See further, as to good safety, *infra*, § 478.

(*b*) See *infra*, note (*j*).

(*c*) Seaman *v.* Loring (1816), 1 Mason, R. 127, 140, cited 1 Phillips, s. 935. In Palmer *v.* Marshall, *supra*, the policy was on a yacht, then lying ready for sea. When vessels are laid up it is usual to insure them by "port" or "harbour" policies at a low premium. See *infra*, § 508.

(*d*) In Palmer *v.* Marshall (1831), 8 Bing. 79, the Judge had directed the jury that the policy only attached when the ship (a yacht lying at Bristol ready for sea, but apparently without reference to any particular voyage) commenced her voyage. This was held to be a wrong direction. There was a sufficient delay after the insurance was made to avoid the policy, and on a second trial the plaintiff was non-suited on this ground (8 Bing. 317). It was unnecessary to consider whether under ordinary circumstances the policy could have been retrospective; but Tindal, C. J., certainly said that the risk on the policy could only commence from its date.

Sect. 475.

a quo it would be impossible to satisfy this condition. Rule 1 of the Rules for the Construction of the Policy declares, however, that "when the subject-matter is insured 'lost or not lost,' and the loss has occurred before the contract is concluded, the risk attaches, unless at such time the assured was aware of the loss, and the insurer was not." The terms mentioned in the Schedule are not to be construed as having the scope and meaning assigned to them therein when the context of the policy otherwise requires (*e*). It is therefore submitted that the rule which gives effect to the "lost or not lost" clause ought to prevail, and that in a policy "lost or not lost," "at and from" a port where the ship is lying at the time when the policy is effected, the risk generally attaches as from the earliest time when the ship was in the port in good safety for the purposes of the voyage insured (*f*).

Policy "at and from" a port from which the ship has already sailed.

476. The same principle, it is submitted, applies when a ship is insured "at and from" a port from which she has already sailed. This case is not dealt with in the Marine Insurance Act, 1906; but if the rule applicable to it were that an insurance "at and from" does not attach before the making of the contract, such a policy on a vessel that had already sailed would only amount to an insurance "from" the port.

Construction of words "at and from" with reference to circumstances.

477. The principle in virtue of which it is maintained that a policy "at and from," with the "lost or not lost" clause, attaches retrospectively during the whole stay of the ship at the port for the purposes of the voyage is probably to be

(*e*) Mar. Ins. Act, 1906, s. 30 (2).

(*f*) See Phillips, s. 932. The rule, that in homeward policies the risk attaches from the arrival at the foreign port, is laid down in general terms by Lord Hardwicke in Motteux *v.* London Ass. Co. (1739), 1 Atkyns, 545, 548. It is not necessary for the attachment of the risk that the cargo of the previous voyage shall have been discharged. See Camden *v.* Cowley, and Reliance Mar. Ins. Co. *v.* Duder, *infra*, § 486. For, as has been held with reference to insurances on freight, the discharge of the outward cargo is an act done for the purposes of the homeward voyage: Warre *v.* Miller (1825), 4 B. & Cr. 538. See also Foley *v.* United, &c. Ins. Co. (1870), L. R. 5 C. P. 160, 164.

Sect. 477.

regarded rather as a rule of construction than as a principle of universal application. Ordinarily, that is to say, the words ought so to be construed; but there may be special circumstances in which the ambiguity of the word "at" (*g*) may justify the admission of parol evidence to show that the real contract between the parties was different. If, for instance, the ship had, prior to the policy, sustained considerable damage, and a premium be agreed upon amounting to less than the sum to which both parties knew such damage amounted, it would be clear that such damage was not intended to be covered. It seems, then, that, in accordance with the opinion of Mathew, J., in a somewhat similar case (*h*), evidence would be admissible to show, consistently with the language of the policy, what the risk was. The effect of such evidence, in the instance we have given, would, no doubt, be that the words we are discussing would receive an interpretation not in conformity with the general principle, but limited in accordance with the intentions of the parties in the particular case.

Policy "at and from" a port where the ship has not yet arrived.

478. As we have seen, if the ship insured "at and from" a port be not yet arrived when the policy is effected, the risk attaches as soon as she arrives there in good safety (*i*).

Thus, under a policy on ship "at and from" Havana to Greenock, the ship arrived off Havana and the master

(*g*) In Haughton *v.* Empire Mar. Ins. Co. (1866), L. R. 1 Exch. at p. 210, Channell, B., seems to have considered that *primâ facie* the word "at" would cover the whole of the ship's stay at the port, but that this presumption might be controlled by extrinsic evidence.

(*h*) Hunting *v.* Boulton (1895), 1 Com. Cas. 120.

(*i*) Mar. Ins. Act, 1906, Sched. I. r. 3 (b), *ante*, § 475. See per Lord Hardwicke, Motteux *v.* London Ass. Co. (1739), 1 Atk. 545, 548; 1 Phillips, ss. 927, 932. Of course, if at the time of the ship's arrival there be no intention to send her on the insured voyage, the risk does not attach, by reason of the abandonment of the voyage. *Ante*, § 380. It is also submitted that the policy does not attach if the ship arrives for the purpose of an intermediate voyage. Thus if a ship be insured "at and from" A. to B., being then on her way to A., and the intention be then to send her first on a voyage from A. to C. and back to A., and then on the voyage from A. to B., the risk will only attach, if at all, on the second arrival of the ship at A.

Sect. 478.

engaged a tug and pilot for the purpose of taking her to a clear anchorage. She was towed into the harbour, past the place where she ultimately discharged her cargo, to a point at the head of the harbour called the Regla Shoal. There she grounded, and received damage from the anchor of another ship. "In my opinion," says Channell, B., delivering judgment in the case, "she was at that time at Havana, and consequently the risk under the policy had attached. The damage occurred at Havana, geographically speaking, and there is nothing which to my mind shows that the parties, at the time this policy was underwritten, contemplated any other meaning of the word 'at.' All the limitation which the law appears ever to have imposed as to the time of the commencement of the risk in such a case is, that the ship should arrive at the port at which she is insured in a state of sufficient repair or seaworthiness to be enabled to be there in safety" (*k*).

Good safety.

What constitutes good safety is well illustrated by the case of Parmeter *v.* Cousins. The policy was on ship "at and from St. Michael's, or all or any of the western islands, to England"; and it appeared that the ship, which had encountered very bad weather on the whole of the outward voyage, cast anchor off St. Michael's in such a leaky condition as to be unfit to take in a cargo, and was only kept afloat by pumping, and that, after lying in the roadstead there at anchor for upwards of twenty-four hours (during the whole of which time she was in great danger from the storm that still continued), she was blown out to sea and wrecked: Lord Ellenborough held that under these circumstances the risk had never commenced on the ship under the homeward policy, for the ship had never been at St. Michael's in good safety (*l*).

Physical, not political, safety is necessary.

All that is required in such case is good physical safety; not that the ship should have been free during her stay at the *terminus a quo* from political danger.

(*k*) Haughton *v.* Empire Marine Ins. Co. (1866), L. R. 1 Ex. 206.
(*l*) Parmeter *v.* Cousins (1809), 2 Camp. 235.

Sect. 478.

Bell *v.* Bell.

Thus, where a ship was insured "at and from Riga to her ports of discharge in the United Kingdom," and immediately upon her arrival at Riga her papers were seized by government and the ship and cargo sequestrated and condemned before the outward cargo had been discharged: Lord Ellenborough held that, as the ship had been once "at" Riga in good physical safety, the risk under the homeward policy had attached on the ship (*m*).

What physical safety is required.

All that is required, in fact, is that the ship while at the *terminus a quo* of the voyage should "be in such a condition as to enable her to lie there in reasonable security till she is properly repaired and equipped for her voyage" (*n*).

Thus, where a ship, though leaky, was able to lie for a month loading in a river, it was held that the policy had attached (*o*). Of course the vessel must subsequently be made seaworthy for the marine risk.

The words "at and from" do not imply that the ship is at the place.

479. It follows from what has already been said that the words "at and from" do not imply a warranty or a representation that the ship is at the time of effecting the policy in the port in question; but it has been decided that the ship must be there within such a time afterwards that the risk shall not be materially varied; and that any delay between the making of the policy and the commencement of the risk, *whether such delay be voluntary or involuntary*, which has the effect of materially varying the risk, will prevent the policy from attaching (*p*).

(*m*) Bell *v.* Bell (1810), 2 Camp. 475.
(*n*) The stipulation as to "good safety" does not seem to mean anything more than that in this form of policy, as in all voyage policies, it is a condition precedent to the attachment of the risk that the vessel shall be seaworthy. This appears to have been the view of Channell, B., in Haughton *v.* Empire Mar. Ins. Co. (1866), L. R. 1 Exch. 210, and is consistent with that of Lord Ellenborough in Parmeter *v.* Cousins (1809), 2 Camp. 237. In Bell *v.* Bell (1810), 2 Camp. 475, Lord Ellenborough required "physical safety from the perils insured against."
(*o*) Annen *v.* Woodman (1810), 3 Taunt. 299; see also per Lord Kenyon in Forbes *v.* Wilson (1800), 1 Marshall, 148; 1 Park, 472.
(*p*) Hull *v.* Cooper (1811), 14 East, 479; De Wolf *v.* Archangel Marit. Bank & Ins. Co. (1874), L. R. 9 Q. B. 451; Maritime Ins. Co. *v.* Stearns, [1901] 2 K. B. 912.

Sect. 479.

The facts of the case on which this latter point was decided were these. The policy, "at and from Montreal," was effected on the 13th of July. No question was put by the underwriter as to where the ship then was, and no information was offered by the assured; but in fact she was then at sea, on a voyage intended to end at Montreal. She did not arrive at Montreal till the 30th of August. Evidence was given on the trial that the delay of arrival at Montreal had materially varied the risk and the rate of premium. Evidence was offered, but not received, to show that the delay was not voluntary, but was due entirely to sea perils upon the voyage to Montreal. It was held that this evidence was properly rejected, as upon the facts of this case the only question for the jury was whether the delay had materially varied the risk (*q*).

The above decision is the earliest in our books as to the effect of involuntary delay preceding the time fixed for such a policy attaching. The question had come before the Court of Common Pleas in respect of voluntary delay, and was then decided adversely to the assured (*r*). Tindal, C. J., in delivering the judgment of the Court, seemed to intimate that his decision would have been the other way in case the underwriter had been prepared to expect delay by notice, or, what is equivalent to notice, by the existence of a usage (*s*). But Blackburn, J., in the later decision already cited, expressly reserved his opinion as to the effect of either notice or usage on the question (*t*).

The adventure must commence within a reasonable time.

480. On this subject sect. 42 of the Marine Insurance Act, 1906, lays down the following rules:—

> (1) Where the subject-matter is insured by a voyage policy "at and from" or "from" a particular place, it is not necessary that the ship should be at that place when the contract is concluded, but there is an implied condition that the adventure shall be commenced within a reasonable time (*u*), and that if the adventure be not so commenced the insurer may avoid the contract (*x*).
>
> (2) The implied condition may be negatived by showing that the delay was caused by circumstances known to the insurer before the contract was concluded, or by showing that he waived the condition.

(*q*) De Wolf *v.* Archangel Marit. Bank & Ins. Co., *supra*.
(*r*) Mount *v.* Larkins (1831), 8 Bing. 108.
(*s*) *Ibid.* 121.
(*t*) De Wolf *v.* Archangel, &c. Co., *supra*. See *post*, § 483.

Sect. 480.

The implied condition, as stated in this section, is that the adventure shall be commenced within a reasonable time; and it is arguable that such a condition is not the same as one that there shall not be a delay which materially varies the risk. In relation to contracts of affreightment it has been established by the House of Lords that an obligation to discharge a ship in a reasonable time must be construed with reference to the circumstances existing at the time of performance, so that the shipowner is not responsible for a delay arising from causes beyond his control, provided that he has not acted negligently or unreasonably (*y*). If the principle of this decision governs the construction of the words "reasonable time" in sect. 42, De Wolf *v.* Archangel Maritime is no longer law, in so far as it decides that an involuntary delay prevents the policy from attaching (*z*). Yet the condition that the adventure shall be commenced within a reasonable time is not the same as an obligation, a failure to discharge which will render the person on whom it is imposed liable to an action for breach of contract. The assured is under no obligation whatever to bring his ship to the *terminus a quo* and to prosecute the voyage insured. Therefore it is not clear that the rule laid down by the House of Lords with reference to the fulfilment of an obliga-

(*u*) By sect. 88 of the Act the question what is a reasonable time is one of fact.
(*x*) See Maritime Ins. Co. *v.* Stearns, *supra*.
(*y*) Hick *v.* Raymond, [1893] A. C. 22; Carlton SS. Co., Ltd. *v.* Castle Mail Packets Co., Ltd., [1898] A. C. 486. In the former case Lord Watson stated the rule as being one of general application and not confined to contracts for the carriage of goods: [1893] A. C. at p. 32.
(*z*) Mr. Arthur Cohen inclines to this view: Halsbury's Laws of England, vol. xvii. § 770.

Sect. 480.

tion must be applied to the determination of the question what is a reasonable time within the meaning of sect. 42 of the Marine Insurance Act, 1906. The language of the section does not preclude a construction by which the question of reasonable time must be determined with reference to the risk contemplated at the time of the insurance, and it is submitted that this construction, which gives effect to the rule laid down in De Wolf *v.* Archangel Maritime Bank, is the correct one.

What delay is excusable.

481. Where the policy has once attached, length of time occupied in necessary repairs, though considerable, does not take the ship out of the protection of the policy, supposing those repairs to be made with an ultimate view of sending the ship on the voyage insured (*a*); nor does any other reasonable delay, if justified by necessity, or *bonâ fide* incurred for the purposes of the voyage (*b*)—as to take in simulated papers (*c*), or a particular description of crew (*d*); or provisions where rendered necessary by unavoidable delay (*e*).

The principle, in short, established by the cases is, that where the risk "at and from" has once attached, "a detention for a reasonable time for the purposes of the adventure insured must be allowed, and whether the time is reasonable must be determined, not by any positive or arbitrary rule, but by the state of things existing in the port where the vessel happens to be" (*f*).

What delay inexcusable.

482. On the other hand, it has been said that a policy effected on a ship "at and from" a port implies that the voyage insured shall be very shortly commenced, or, at all

(*a*) Mar. Ins. Act, 1906, s. 49 (c), *ante*, § 424a. Motteux *v.* London Ass. Co. (1739), 1 Atkyns, 545, 548.

events, be in the near contemplation of the parties (*g*). And the ship will not be under the protection of the policy if she lie at the port for a long time before sailing or preparing for the voyage insured, and there be no reasonable excuse for delay (*h*). Sect. 482.

Thus, for instance, if all thought of the voyage insured be laid aside, and the ship lie in the port for years, the risk would be held either never to have attached, or, at all events, to have come to an end directly the determination to abandon the voyage was finally fixed (*i*).

Exception by usage.

The general rule as to the attachment of the policies is subject to be modified by the usages of particular trades. Thus, in the Newfoundland trade, owing to the well-known practice of making fishing expeditions or intermediate trading voyages after the ship's first arrival off the coast of Newfoundland, the risk under policies for the homeward voyage though expressed to be "at and from" any port or ports in Newfoundland, was held not to attach upon the ships on their first arrival out, but only from their beginning to prepare for the homeward voyage (*k*).

Delay of which the underwriter has been informed.

483. If a communication has been made to the underwriter from which he ought to infer that there will be a delay in the attachment of the risk, it has been a matter of doubt whether he is discharged by such a delay? In De Wolf *v.* Archangel Maritime Bank and Insurance Co. (*l*) the Court indicated that there were two possible views: (1) that there is in every case the implied understanding that the risk is to commence within such a time that it will not be varied unless the policy contains some express condition on the subject;

(*g*) Per Tindal, C. J., in Palmer *v.* Marshall (1832), 8 Bing. 317, 318; see also per Park, J., in Palmer *v.* Fenning (1833), 9 Bing. 462.

(*h*) Palmer *v.* Marshall (1832), 8 Bing. 317.

(*k*) Vallance *v.* Dewar (1808), 1 Camp. 503, and the other cases there collected.

(*l*) *Ante*, § 479.

Sect. 483.

(2) that a communication, though not embodied in the policy, will qualify or rebut the implied understanding (*m*).

The latter view was supported by the Newfoundland voyage cases already referred to, in which even when the delay consequent on the customary fishing expedition or intermediate voyages changed a voyage back to Europe from a summer to a winter voyage, it was held that the policy on the homeward voyage remained good. Further, it was held that the assured was not bound to disclose the fact that the ship might be engaged in fishing, or sent on the intermediate voyage (after which, only, the policy by usage attached), because the underwriter was presumed to know the usage of the trade (*n*). Thus the *ratio decidendi* of these cases, as Chief Justice Tindal said in a later case, was that the usage of the trade was equivalent to notice (*o*).

In support of this view it was also argued that there is no express stipulation in the ordinary policy with regard to the time when the risk attaches. Therefore the time must be that which is contemplated by the parties. When no information is given to the underwriter, he is entitled to assume that the ship, if not yet arrived, will be at the *terminus a quo* within such time as is reasonable under ordinary circumstances. If facts relating to the previous voyage of the ship be communicated to him, he ought to keep these facts in mind in estimating the probable date when the voyage insured will commence. He is in a position to estimate the risk, he can fix the premium accordingly, and may, as is sometimes done, stipulate for a varying rate of premium, according to the time when the voyage begins.

The point has been settled by sect. 42 (2) of the Marine Insurance Act, 1906, which, as we have seen, provides that the implied condition that the adventure shall be commenced within a reasonable time may be negatived by showing that

(*m*) See L. R. 9 Q. B. 456, 457; 1 Phillips, ss. 602, 690.

the delay was caused by circumstances known to the insurer before the contract was concluded. Sect. 483.

What is a beginning to prepare for the homeward voyage. Lambert *v.* Liddard.

484. It has sometimes been made a question when a ship begins to prepare for her homeward voyage. The following case illustrates the nature of the evidence with which the Courts will be satisfied on this point:—A ship engaged on a cruising voyage on the Southern Atlantic was insured for a trading voyage home by a policy effected on ship and freight "at and from Pernambuco or any other port or ports in the Brazils to London," "beginning the adventure on the goods from the loading thereof on board" the ship, "and upon the ship on the determination of her cruise, and preparing for her voyage to London," &c.

The cruise being ended, the captain went to Pernambuco, and, when off that place, sent in one of his officers to see if a cargo could be procured there; but as there was none, he sailed southward to St. Salvador for the same purpose, and was lost at sea between the two places. The Court held that his going to Pernambuco for a cargo, and sending in an officer there to inquire after one, was such "a preparing for his voyage to London" within the words of the policy, as to make the homeward risk attach from that moment and protect the ship at the time of loss (*p*).

What is included in "port." Named port.

485. We have already seen that, when the terminus "at and from" which the voyage is made to commence is a named port, the name is, generally speaking, taken to include, not different places classed together in legal style, or for the purposes of revenue, as one port, but some one place, which in the more limited and popular sense is considered the port; in other words, the harbour-town (*q*). If the

"Port or ports."

"Port of loading."

policy be "at and from a port or ports" or "place or places" in the alternative, it must be supposed that the insurer meant to incur the greater risk of letting the ship sail to several places in order to take in her cargo (*r*). But where a ship was insured "at and from her port of lading," the Court held that the expression "port of lading" pointed to one single place, and did not allow of the ship loading at two distinct places (though both lying within seven miles of one another in the same bay), in either of which there might have been a lading (*s*).

"Port" does not necessarily imply an artificial harbour

It is not at all necessary to the definition of the term "port," as used in policies, that it should be an artificial harbour shut in with regular moles or piers. If it be a natural basin protected by a headland, or even an open roadstead, provided it be the usual and sole place of loading and unloading, it will be sufficient, especially if there be provided the usual machinery and appendages of a harbour (*t*). Thus, in one case, the Court of King's Bench held that the expression "to any port or ports whatsoever," in a time policy, ought to be construed the same as "place or places," and would protect the ship while anchored in an open roadstead, that being the usual place for loading and unloading goods at the place where the loss occurred (*u*).

Sea Insurance Company *v.* Gavin.

A ship, insured "at and from Leith to Shetland, and

Sect 485.

from thence to Barcelona, and at and from thence and two other ports in Spain, to a port in Great Britain," was lost while loading at Saloe. The roadstead there was the usual station for vessels of her burden. Saloe town lay at the bottom of a natural basin, protected by a headland, and without any artificial harbour. It was frequented as a port, usually designated as such, and so recognized both by the Spanish Government and in this country, which had a vice-consul there. It had a Custom House and harbour-master; port dues were levied there, and at the time of the loss conveniences were erected on the shore for the purpose of loading goods and of protecting smaller vessels from wind and weather. On this evidence the House of Lords, affirming the judgment of the Scotch Court of Session, decided that it was a port within the meaning of the policy (*x*).

Policy "at and from" an island or district containing several ports.

486. Where the policy is "at and from" an island or other district containing several ports, the risk on ship commences as soon as the ship has arrived in good safety at the first port at which she touches at the island or district for the purpose of discharging her outward cargo. Hence, where a ship, insured for her outward voyage from London to Jamaica, "until moored twenty-four hours in good safety," and by an homeward policy "at and from Jamaica to London," was lost in coasting the island after she had stayed some days at one port there, but before she had delivered all her outward cargo; a special jury found, and Lord Mansfield supported their finding, that this loss on the ship was at the risk of the underwriters on the homeward policy (*y*).

(*x*) Sea Insurance Co. *v.* Gavin (1830), 4 Bligh, N. S. 578; 2 Dow & Clark, 129. Several additional cases as to the meaning of the word "port" will be found in §§ 903, 905, *post*, Vol. II. Sect. 486.

Ever since this case it has been clear insurance law that a ship insured for a homeward voyage "at and from" any of the West India Islands is protected by the word "at" in going from port to port of the island (*z*).

In these cases, the general word by which the *terminus a quo* of the homeward voyage is described comprehends all ports and places in the island or country named; the construction would be different if the *terminus a quo* were otherwise described in the policy: thus if the policy were on the ship "at and from the ship's port of loading" in Jamaica, that would restrict the commencement of the risk to one particular port in the island (*a*).

When the insurance is from or to a district or island, evidence of usage is admissible to show what meaning is attached to the description of the terminus in the policy, as, *e.g.*, that the Baltic includes the Gulf of Finland (*b*), or that "East Indian Island" includes Mauritius (*c*).

Risk to commence on expiration of previous policy.

486a. The attachment of the risk may of course be deferred by a stipulation that it is to commence on the happening of a particular event, such as the expiration of a previous policy. A ship was insured for a voyage from Australia "to port or ports, place or places of call and for discharge . . . . on the West Coast of South America," and by a later policy subscribed by the same underwriter for a voyage "at and from Valparaiso and/or port or ports . . . .

such a case when the ship has been moored in good safety for twenty-four hours at the first port of discharge—*i.e.*, when the policy on the outward voyage expires. It was, however, established by Haughton *v.* Empire Marine Ins. Co. (1866), L. R. 1 Ex. 206, that the expiration of the outward policy is not the test of the commencement of the risk under the homeward policy, and it is so expressly declared in the Mar. Ins. Act, 1906, Sched. I. rule 3 (b), *ante*, § 475.

Sect. 486a.

on the West Coast of South America" to European ports, with the additional stipulation "risk to commence from expiration of previous policy." The vessel discharged part of her Australian cargo at Valparaiso, and was lost while proceeding from Valparaiso to Tocopilla, where she was to have discharged the remainder of her Australian cargo and taken on board a cargo for Europe. It was held by Scrutton, J., that the liability of the underwriter was under the earlier policy (*d*), though, as is shown by a later decision, the vessel was also at the time of the loss on the voyage described in the second policy (*e*).

Continuance and termination of risk on ship. Foreign law.

487. The risk on the ship is in all our common voyage policies expressed to continue "until the ship hath moored at anchor twenty-four hours in good safety."

In France the risk is declared by the Code de Commerce to end, unless determined by the contract, when the ship is anchored or moored at her destination (*f*).

According to the codes of some countries the risk on the ship continues either until the ship has entirely discharged her cargo, or for a certain specified number of days after her arrival (*g*).

Alteration proposed by Magens.

Magens, observing that it is impossible in most cases to discharge the cargo in twenty-four hours, recommended the insertion of a clause by which the risk shall be made to continue for twenty-one working days after the ship's commencing to unload (*h*); and a clause prolonging the risk for a given number of days after arrival (usually thirty) is now commonly inserted in voyage policies (*i*). In the absence of

(*i*) See *infra*, § 495.

Sect. 487.

a clause of this kind the underwriters are not responsible for any loss that has happened after the ship has once been "moored twenty-four hours in good safety."

What is a "mooring in good safety."

488. The question on the ordinary English policy has generally been what constitutes a mooring in good safety.

The result of the cases appears to be that a ship cannot be considered to have been moored for twenty-four hours in good safety, unless she have been moored for that space of time in the harbour of her port of discharge: (1) in such a state of physical safety that she can keep afloat while her cargo is being unloaded; (2) in such a state of political safety that she shall not have been subjected during that time to any embargo, seizure, or capture on the part of the government of the port or of strangers; (3) under such circumstances as to have had an opportunity of unloading and discharging (*k*).

1. Physical safety.

489. The ship must have been for the twenty-four hours moored in a state of physical safety.

Shawe *v.* Felton.

A ship arrived at Demerara, her port of destination, a perfect wreck, having received her death-wound at sea, and was with the utmost difficulty kept afloat by lashing her to a hulk, till all the people on board were landed, a few days after which, in an attempt to move her, she sank in the harbour; Lord Kenyon held that the risk under the policy still continued on the ship when she so sank, "for though she arrived at Demerara she was never moored twenty-four hours, nor a moment, in safety" (*l*).

Lidgett *v.* Secretan.

A ship was insured "at and from London to Calcutta, and for thirty days after arrival"; the words "until she have moored at anchor twenty-four hours in good safety" still

(*k*) A better expression would be, "under such circumstances as to have been free to unload and discharge." What is meant is not that there must have been nothing to prevent the immediate discharge of the ship, but that there shall have been no legal obstacle to the discharge, such as one arising from the quarantine regulations of the port. See *post*, § 491.

(*l*) Shawe *v.* Felton (1801), 2 East, 110.

Sect. 489.

remaining part of the policy. While on her voyage she struck on a reef, and thereby suffered such damage that her pumps required to be kept constantly going, and her steering gear was materially injured. In this condition, on the 28th of October, she came to anchor in the harbour of Calcutta, at a place in the river where vessels commonly discharge their cargo, and there she safely completed the discharge of her cargo on the 8th of November, a fire engine being used to pump the water out of her, until she lightened sufficiently to lessen the leak and to place the water under control of the ship's pumps. The ship while in this position was exposed to the perils common to all vessels so anchored, viz., the strong currents and the bore in the Hooghly, aggravated in her case, if she had broken adrift, by the bad condition of her steering gear. She was then placed in a dry dock for repairs, and while there, and after the lapse of twenty-four hours, and more than thirty days in addition, she was destroyed by fire.

It was unnecessary, in the events which had happened, to determine in this case whether under this policy the thirty days were to be reckoned from the arrival of the vessel at Calcutta, or from her having moored at anchor twenty-four hours in good safety (*m*). Bovill, C. J., delivering the judgment, said: "Assuming, then, that the thirty days are to be reckoned from the time of the ship being moored for twenty-four hours in good safety, the question arises, What is the meaning of those words in such a policy? We are of opinion that the meaning is not, as has been contended, that the moorings are safe, but that the words refer to the ship being in safety. The words cannot mean that the vessel is to arrive without any damage or injury whatever from the effects of the voyage; otherwise, the loss of a mast or even a spar, a sail, or rope, though the vessel was perfectly fit to keep not only the river but the sea, would, contrary to all the ordinary meaning of language, prevent her from being considered as

(*m*) See, as to this point, Mercantile Marine Ins. Co. *v.* Tithering-ton (1864), 5 B. & S. 765; 34 L. J. Q. B. 11, *post*, § 495.

Sect. 489. in safety. So, on the other hand, the words would not, in our opinion, be satisfied by the vessel arriving and being moored in a sinking state, or as a mere wreck, or by a mere temporary mooring. We think, also, that the mere liability to damage, whether partial or total, during the twenty-four hours, by the occurrence of some or all of the perils insured against, cannot prevent the running of the twenty-four hours, because the extension of the period of risk for twenty-four hours, after having moored in good safety, clearly implies that, notwithstanding the safety intended, the ship is liable to partial or total loss by the occurrence of a peril insured against.

". . . . In the present case the vessel, though considerably damaged and leaky, and with one compartment full of water, existed as a ship at the time of her arrival, and she was able to keep afloat, and did keep afloat as a ship more than twenty-four hours after being moored, by exerting the means within the power of the captain. She arrived and moored at the ordinary place for unloading, and was so moored as a ship in the possession or control of her owners for more than twenty-four hours; and she remained as a ship, and in possession of her owners, for more than thirty days after the lapse of the twenty-four hours before described, and until the time of the fire by which she was totally lost." It was therefore held, that the total loss which had occurred was not within the period of risk covered by the outward policy, and that only the average loss was recoverable under it (*n*).

2. Political safety. Minett *v.* Anderson.

490. The ship must have been for the twenty-four hours in a state of political safety.

An English ship insured from Bilbao to Rouen was, the day after arrival at Rouen, laid under an embargo then existing there against all English ships, and her captain and crew treated as prisoners of war; Lord Kenyon held that the

(*n*) Lidgett *v.* Secretan (1870), L. R. 5 C. P. 190, 198, 199, 200. See this case considered, with reference to another policy, on a different point (L. R. 6 C. P. 616), *post*, vol. ii. § 1223.

risk on the ship still continued, for she could not be said, under the circumstances, to have been twenty-four hours, or even a minute, moored in safety, having been, immediately she entered the port, to all intents and purposes captured by the French (*o*). Sect. 490.

So, where immediately on the ship's arrival at Riga (which was her port of discharge under the policy), her hatches were sealed down and her papers sent to St. Petersburg to be examined, on which examination the ship and cargo were seized and afterwards condemned; it was held, that as there had been an incipient seizure immediately on the ship's arrival which ended in condemnation, this was not a mooring twenty-four hours in good safety (*p*). Horneyer *v.* Lushington.

In the first of these cases a constructive, and in the second an actual, seizure had taken place immediately on the ship's arrival. Our Courts, however, have refused to regard a seizure as having a relation back to the moment of arrival, merely on the ground of the ship's liability to seizure from that moment onward.

A ship insured "from Hamburg to London," had rendered herself liable to forfeiture under our revenue laws for smuggling committed during the voyage; she arrived in the port of London on the 1st of September, and was not seized by the revenue officers for the said smuggling till the 27th, having been all that time safe at her moorings in the river Thames. The Court held that the risk in this case was at an end twenty-four hours after the ship's arrival (*q*). Lockyer *v.* Offley.

491. The ship must have been so moored as to have had an opportunity of unloading and discharging. Otherwise, whatever time may have elapsed since her arrival, the risk will be deemed to be still continuing. 3. Liberty to unload and discharge.

A ship was moored on the 8th July at a wharf in London, but, that same day, was ordered back into quarantine for a Waples *v.* Eames.

(*o*) Minett *v.* Anderson (1794), Peake, N. P. R. 277.
(*p*) Horneyer *v.* Lushington (1812), 15 East, 46.
(*q*) Lockyer *v.* Offley (1786), 1 T. R. 252.

Sect. 491.

fortnight; she did not go into quarantine till the 30th July, having all the time remained at her moorings; she was burnt on the 23rd August, before she could get permission to leave the quarantine ground.

The Court held that, though so long at her moorings before she ultimately went into quarantine, she had not been there in good safety, which must imply an opportunity of loading and discharging (*r*).

Samuel *v.* Royal Exchange Assurance Co.

A ship insured from Sierra Leone to London was ordered into the King's Dock at Deptford, and on the 18th February arrived off the dock gates; not being able then to enter, the captain lashed her to a king's ship outside the gates. Owing to the quantity of ice that had drifted down the river, no attempt could be made to get her in until the 27th of February. On that day, while she was being warped towards the dock, the rope broke and she went ashore and was totally lost. The Court of King's Bench held, that as the captain was ordered to take the ship into the King's Dock, that was her place of discharge, and consequently, as she had never been there, she had not been moored twenty-four hours in good safety, and so the risk continued (*s*).

If, however, the ship be moored in such a place and under such circumstances that she has only to wait till her turn of unloading comes without again unmooring, this is held a mooring in good safety.

Angerstein *v.* Bell.

A ship insured to London arrived at the wharf where it was intended she should unload, but was laid on the outside of the tier of shipping, there being no room to lay her inside, and remained so moored and lashed to other vessels for seven days, when she was forced adrift by the ice and lost: Lord

(*r*) Waples *v.* Eames (1746), 2 Str. 1243.

(*s*) Samuel *v.* Royal Exch. Co. (1828), 8 B. & Cr. 119. See Stone *v.* Mar. Ins. Co. of Gothenburg (1876), 1 Ex. D. 81. See also Zacharie *v.* New Orleans Ins. Co. (1827), 5 Martin, Louisiana R. N. S. 637; and Dickey *v.* United Ins. Co. (1814), 11 Johns. 358; cited 1 Phillips, s. 968.

Kenyon held that she had been moored twenty-four hours in good safety (*t*). Sect. 491.

492. In Samuel *v.* Royal Exchange Assurance Company, the circumstances showed that the ship had not arrived at her true port of discharge. Where, however, she has once arrived at a port for the purpose of discharging, that will be deemed to be her true port of discharge, although a different port may have been agreed upon in her charter-party. Ship must have arrived at true port of discharge.

Thus a ship insured from Liverpool to Quebec and back to her discharging port in the United Kingdom, and until she had moored at anchor twenty-four hours in good safety, was by her charter-party to take her cargo from Quebec "to Wallasey Pool, on the River Mersey, or as near thereto as she could safely get." She arrived in the Mersey on the 4th September, and was towed up the next morning abreast of Wallasey Pool, where, as she could not enter the port by reason of her great draft of water, the captain anchored, and reported the vessel at Liverpool. He engaged lumpers to unload and discharged the crew. After the deck cargo and a considerable portion of the other cargo had been discharged, the ship, on 14th September, fell over and sustained injury. The captain had always intended to take the vessel into Wallasey Pool with as much of the cargo as she could safely carry. The Court of Exchequer, nevertheless, held that the ship had been moored twenty-four hours in safety, and consequently that the underwriters were not liable (*u*). Whitwell *v.* Harrison.

493. If the twenty-four hours' clause were struck out of the policy, the risk on the ship would still continue until her safe arrival at her port of destination, but would cease immediately on her being at her moorings (*x*). Duration of risk without ordinary clause.

(*t*) Angerstein *v.* Bell (1795), 1 Park, 54; 1 Marshall, Ins. 263.

(*u*) Whitwell *v.* Harrison (1848), 2 Ex. 127; 18 L. J. Ex. 465; approved in the United States in Bramhall *v.* Sun Ins. Co. (1870), 104 Mass. 510.

Sect. 494.

Termination of risk where there is no cargo to discharge.

494. Where the ship is not proceeding to the *terminus ad quem* to discharge cargo, but for other purposes, the question where the risk ends may be one of fact, depending on usage with reference to the voyage. Thus, where a ship insured to the Mauritius and for thirty days after arrival, anchored at the entrance of the harbour, seeking freight, at a place where vessels usually anchored for that purpose, the jury found that the ship had arrived at the place where the voyage ended, and the Court of Exchequer upheld the verdict (*y*).

Express prolongation of risk beyond the twenty-four hours.

495. The risk is frequently prolonged by express stipulation in the policy beyond the usual period of twenty-four hours.

Thus, a ship was insured, by a clause in writing, to any port in the Pacific Ocean, and during thirty days' stay in her last port of discharge. The printed twenty-four hours' clause remained in the policy. The ship arrived at her last port at 7 p.m. on the 25th of May, and was lost at 3.45 a.m. on the 24th of June. The underwriters contended (1) that in computing the thirty days the whole of the 25th of May should be reckoned; (2) that the printed twenty-four hours' clause was superseded by the written thirty days' clause. According to their argument, the 23rd of June was the last day of the risk. Crompton, J., however, said: "We must construe the policy so as to make all the parts of it available, and I cannot see why we should not read it as meaning that the thirty days should run from the expiration of twenty-four hours after the ship had moored at anchor." Cockburn, C. J., concurred, and there was judgment for the assured (*z*).

cited 1 Phillips, Ins. s. 968. "I quite agree with the statement in Arnould, that where there is no clause as to mooring in good safety for any given time, if a vessel got to port, and was at moorings waiting her turn to unload, she would have finished her voyage": per Bramwell, B., in Stone *v.* Marine Ins. Co., Ocean, Ltd. of Gothenburg (1876), 1 Ex. D. 81, 85.

(*y*) Lindsay *v.* Janson (1859), 4 H. & N. 699; 28 L. J. Ex. 315.

(*z*) Mercantile Marine Ins. Co. *v.* Titherington (1864), 5 B. & S. 735; 34 L. J. Q. B. 11. Such a policy is a time policy engrafted on a voyage policy. Gambles *v.* Ocean Marine Ins. Co. of Bombay (1876),

Sect. 495.

In a later case a ship was insured for a voyage to Algoa Bay "and for thirty days in port after arrival," the printed words "twenty-four hours" in the clause "until she hath there moored at anchor twenty-four hours in good safety" being struck out. The ship was moored in good safety at 11.30 a.m. on the 2nd of August; and the Court of Appeal held, affirming the judgment of Bigham, J., that the words "thirty days" meant thirty consecutive periods of twenty-four hours, beginning at 11.30 a.m. on that day, so that the assured could not recover for a loss which took place at 4.30 p.m. on the 1st of September (*a*).

End of risk when ship insured to an island.

496. When the ship is insured to an island or other district generally, comprising several ports, questions have been raised as to the duration of the outward risk on the ship so insured. This mode of insurance used to be exceedingly common in the West Indian trade. Circumstances which can only be ascertained on arrival may make it expedient for the ship to touch at more or fewer ports, or to visit them in any order which may seem most suitable on the spot.

The outward risk on ships so insured.

It was decided in the time of Lord Mansfield, and has ever since been a clear point in insurance law, that the risk on the outward voyage upon a ship insured to an island terminates immediately after the ship has moored for twenty-four hours

1 Ex. D. 141; 45 L. J. Ex. 366. Where a ship was insured "while in port thirty days after arrival," Lord Trayner held that the risk ended when the ship left the public dock and was laid up for repairs in a private graving dock in Greenock Harbour, on the ground that she was no longer under the protection nor in the jurisdiction of the port authorities. It became unnecessary on appeal to consider this decision, but Lord Shand expressed a strong opinion that it could not be supported. Hunter *v.* Northern Mar. Ins. Co. (1887), 14 Ct. of Sess. Cas. 4th Ser. 544. In Union Mar. Ins. Co. *v.* Martin (1866), 35 L. J. C. P. 181, the Court of Common Pleas held, on the facts, that an insurance to A., and for thirty days after arrival, was terminated by a new insurance with the same underwriters "at and from A." Cf. Kynance SS. Co. *v.* Young (1911), 16 Com. Cas. 123, where the second policy contained a clause, "risk to commence from expiration of previous policy," and Scrutton, J., held that the earlier policy remained in force.

(*a*) Cornfoot *v.* Royal Exchange Ass. Corporation, [1903] 2 K. B. 363; [1904] 1 K. B. 40.

Sect. 496.

in safety at the first port in the island at which she discharges the great bulk of her cargo, and that afterwards, if lost in coasting round the island, it is the underwriters on the homeward policy who are alone liable (*b*).

Nor does it make any difference to the liability of the underwriters under the outward policy on the ship that a small part of the outward cargo is still on board at the time of loss. Thus in Leigh *v.* Mather, as the ship had moored and unloaded the great bulk of her outward cargo at Montego Bay, in the island of Jamaica, the outward risk on the ship was thereby held to be at an end, although a small part was sent round as ballast to the port of St. Ann's in the same island (*c*).

Inglis *v.* Vaux.

A ship insured "to Martinique and all or any of the Windward and Leeward Islands, with liberty to touch at any ports or places whatsoever, to take on board and land goods, stores," &c., arrived at Martinique, where the captain disposed of all his outward cargo, except a small quantity of lime and bricks, with which he sailed for, and arrived at, Antigua, and there remained for about five weeks, partly, as he said, to dispose of the remnant of the outward cargo, and partly to procure a homeward cargo: at the end of this time she went down in a hurricane, with the lime and bricks still on board. Lord Ellenborough held the underwriters on the outward policy not liable for this loss, the risk on the ship having come to an end, at all events directly the disposal of the outward cargo at Antigua ceased to be the sole object of the captain's stay there (*d*).

Moore *v.* Taylor.

A ship was insured for a trading voyage from the West Indies to this country and back, in the following terms: "At and from St. Vincent's, Barbadoes, and all or any other of the West India Islands (Jamaica and St. Domingo excepted),

(*b*) Camden *v.* Cowley (1763), 1 W. Bl. 417, 418; Barrass *v.* London Ass. Co. (1782), 1 Park, Ins. 74; 1 Marshall, Ins. 266; Cruickshank *v.* Janson (1810), 2 Taunt. 301.

(*c*) Leigh *v.* Mather (1795), 1 Marshall, Ins. 266; 1 Esp. 412; see also Inglis *v.* Vaux (1813), 3 Camp. 437.

(*d*) Inglis *v.* Vaux (1813), 3 Camp. 437.

Sect. 496.

to her port or ports of discharge and loading in the United Kingdom, during her stay there, and thence back again to Barbadoes and all or any other West India Islands (Jamaica and St. Domingo excepted), until the ship shall be arrived at her final port as aforesaid, with liberty to the ship in this voyage to proceed to and touch and stay at any port or places whatsoever, and to load and unload goods at all places she may call at." Having sailed to Liverpool, she took on board for the return voyage, amongst other things, a quantity of coals and bricks which in weight formed about one-third of the whole cargo, but in value not above one-eighteenth. She arrived at Barbadoes, where she disposed of all the cargo loaded on board her at Liverpool, except the coals and bricks; with these on board, and also with some empty sugar casks loaded on board her at Barbadoes, she was ordered to proceed to Berbice for the purpose of bringing back a cargo, when, just before sailing, she was lost by a hurricane off Barbadoes.

There was some doubt on the evidence whether the coals and bricks were on board as ballast, or whether they formed part of the outward cargo, and were intended to be disposed of at Berbice. Lord Denman directed the jury to find for the defendant (*i.e.*, that the risk on the ship was at an end at the time of loss) if they thought that the cargo had been substantially discharged at Barbadoes: the jury thought that it had, and found accordingly for the defendant. The Court held this direction right, and though they seemed to think that the jury had drawn an incorrect conclusion from the facts, refused to disturb the verdict (*e*).

Insurance to an island and a market.

It has been held in the United States that under a policy on ship to any named West India Island, as Barbadoes, "and a market," the ship will be protected in going *bonâ fide* from island to island till her cargo is disposed of (*f*).

Effect of unloading a small part of the cargo.

497. The discharge of a small part of the cargo at an intermediate port does not put an end to the risk. In Leigh

(*e*) Moore *v.* Taylor (1834), 1 A. & E. 25.

(*f*) Maxwell *v.* Robinson (1806), 1 Johnson, R. 333, cited 1 Phillips, Ins. s. 960. So, Deblois *v.* Ocean Ins. Co. (1835), 16 Pick. (Mass.) 303.

Sect. 497.

v. Mather, Lord Kenyon stated (and the special jury seem to have been of the same opinion) that if a ship, insured from A. to B., be obliged to put into an intermediate port of distress, and there dispose of part of her cargo, the risk on the ship does not thereby terminate, but continues until her arrival at some port at which it was originally contemplated that she should discharge her cargo in whole or in part (*g*).

This appears to be a very just rule, and is illustrated and confirmed in the jurisprudence of the United States.

Thus, where a ship was insured from the United States to Europe, and back "to her port of discharge in the United States," it was held that the landing of 150 boxes of lemons at New York, a port into which the ship had put to wait for orders, the lemons being in a perishing state and likely to be spoiled, did not make New York the port of discharge under this policy, so as to terminate there the risk on the ship (*h*). Where a ship, under the same form of policy, having put into New York for orders, and being directed to proceed up the Connecticut River to Middletown, necessarily landed about 3,000 bushels of salt into lighters at New York to be carried up to Middletown, and then herself proceeded thither with the residue of her cargo, the same Court held that, notwithstanding this necessary discharge of part of the cargo there, New York was only the port of arrival, and not the port of discharge, and therefore that the risk continued to Middletown (*i*).

Result.

498. From these cases it is evidently not the fact of unloading at any port into which the ship runs in the course of the voyage which puts an end to the risk on the ship, when insured either generally to an island or country, or to her port or ports of discharge. It is not until she has moored twenty-four hours in good safety at a port at which she was

(*g*) Leigh *v.* Mather (1795), 1 Esp. 412.

(*h*) Sage *v.* Middletown Ins. Co. (1814), 1 Connecticut R. 239; 1 Phillips, Ins. s. 962.

(*i*) King *v.* Middletown Ins. Co. (1814), 1 Connecticut R. 184; 1 Phillips, Ins. s. 962.

Sect. 498.

intended to unload, and at which the master actually breaks bulk for the purpose of unloading either the whole or the greater part of her cargo, that the risk on the ship will be held to terminate.

If, indeed, the port into which she puts be one to which she was originally destined, then, if she be lost after having moored there twenty-four hours in good safety, the risk on the ship will no doubt be at an end, even although she has not actually broken bulk, but be only preparing to unload her cargo at the time of the loss.

On the other hand, if the ship enter a port with only a contingent purpose to unload there, if circumstances should render it expedient, it has been decided in the United States that such port shall not be deemed her port of discharge, so as to terminate the risk on the ship, by her mooring there for twenty-four hours in good safety. Thus, a vessel insured "to her port of discharge in the United States," put into Savannah, where the master intended to discharge his cargo if the market was favourable; but not finding it so, he resolved to proceed to Boston, and, accordingly, after doing repairs at Savannah, but without breaking bulk there, he sailed for Boston and was lost. The Court in Massachusetts held, apparently on very sound principles, that the risk on the ship, under the circumstances, continued to Boston (*k*). But where the insurance was to "Bilbao or a port of discharge," and the ship had put into Bilbao and discharged part of her cargo and then sailed to Lisbon: it was held in the United States that the outward risk ended at Bilbao (*l*).

Law of France as to end of risk in the West India trade.

499. The general rule in France as to the duration of the outward and commencement of the homeward risk on a ship insured for the West India trade seems to be substantially

(*k*) Lapham *v.* Atlas Ins. Co. (1833), 24 Pick. Mass. R. 1. See 1 Phillips, Ins. s. 962; 3 Kent, Com. p. 309; see also Coolidge *v.* Gray (1812), 8 Mass. R. 527, cited 1 Phillips, Ins. s. 962.

(*l*) Stevens *v.* Beverley Ins. Co. (1820), cited 1 Phillips, s. 963. "The plain meaning of the expression," said the Chief Justice, "is to Bilbao or some other port of discharge."

Sect. 499. the same as our own, viz., that the risk on the ship under the outward policy continues till her arrival at the port of substantial discharge, and cannot be extended beyond that, merely because an inconsiderable portion of the outward cargo may still be on board after she has sailed from that port, or at the time of loss (*m*).

As it seems to be repugnant to French law that the outward and homeward policies on ship should be concurrent, Emerigon proceeds to consider what rules there are for ascertaining when the loss on the ship is at the risk of the outward and when at that of the homeward insurers (*n*). No such principle exists in the law of England; so that if the outward policy be "until moored twenty-four hours in good safety," and the homeward policy be "at and from" the same port, both policies may well be concurrent during the twenty-four hours (*o*).

Insurance to "port of discharge."

500. Questions have arisen as to the duration of the risk on the ship when she is insured "to her port of discharge," or "to her port or ports of discharge," or to a named place "and her port of discharge," or "to her final port of discharge or destination."

In one of the earlier English cases it was said that the ship's port of discharge means that at which it was originally intended that the goods should be delivered (*p*); and it has been held in the United States, apparently on good grounds, that the risk on the ship under an insurance "to her port of discharge" (in the singular) terminates twenty-four hours after she has moored in safety at the port, where, in pursuance of the original intentions of the parties to the policy,

(*m*) 2 Emerigon, c. xiii. s. 18, p. 108.

(*n*) See 2 Emerigon, c. xiii. s. 20; see also 3 Boulay-Paty, Droit Mar. tit. x. s. 9, tom. iii. pp. 423—426.

(*o*) See Mar. Ins. Act, 1906, Sched. I. rule 3 (b), *ante*, § 475; Haughton *v.* Empire Marine Ins. Co. (1866), L. R. 1 Ex. 206, 210, 211.

(*p*) Clason *v.* Simmonds (1741), cited 6 T. R. 533. See, however, Kynance SS. Co. *v.* Young, *infra*, note (*r*).

she first breaks bulk for the purpose of discharging her cargo (*q*). Sect. 500.

Where the insurance is to her "port or ports of discharge," in the alternative, the duration of the risk is not confined to the first port at which she breaks bulk, and discharges cargo (*r*). According to Arnould's view, the risk would be extended until twenty-four hours after her arrival at that port, where, in fact, she substantially discharged her cargo, *i.e.*, the great bulk of it (*s*). "Port or ports of discharge."

501. This is unquestionably the rule when the ship is insured "to her final port of discharge," as the following cases sufficiently prove:— Final port of discharge.

A ship, insured "till her safe arrival at her last port of discharge in the East Indies or China," unloaded all her cargo at Madras, and was afterwards lost on her way to Bengal: the Court held that the risk on the ship was at an end at the time of the loss, for by the true interpretation of the policy, the last port of discharge was not that where the ship might have been originally destined to discharge any part of her cargo, but that where she actually did discharge the whole of it (*t*). Moffatt *v.* Ward.

In this case the whole cargo had been discharged at Madras: in that which follows only a part of the cargo was unloaded there, and the residue, which was intended for an ulterior port, was still on board at the time of the loss.

A ship insured "from London to Madras and Bengal, or the ship's last port of discharge of her Europe cargo beyond the Cape of Good Hope," was, as the underwriters knew at the time of subscribing the policy, destined for China: on Preston *v.* Greenwood.

(*q*) Coolidge *v.* Gray (1812), 8 Mass. R. 527; 1 Phillips, s. 962.

(*r*) See Kynance SS. Co. *v.* Young (1911), 16 Com. Cas. 123. In that case the charter-party provided for a discharge at one port, but the shipowner and charterer afterwards agreed that the cargo should be discharged at two ports; and Scrutton, J., held that a loss while the ship was on her way from the first to the second port was covered by a policy to "port or ports of discharge."

(*s*) 2nd ed. p. 516; and see *ante*, § 498.

(*t*) Moffatt *v.* Ward (1784), 4 Dougl. 29, n. (*a*), 31, n. (*b*).

Sect. 501.

arriving at Madras she unloaded a considerable part of her cargo there, but still had on board all that part of it which had been originally destined for China, when she perished by a hurricane in Madras roads. Lord Mansfield held that the risk, under these circumstances, continued till the ship's arrival at China (*u*).

Substituted port where it is illegal to enter "last port of discharge."

502. If a ship insured to port or ports "until arrived at her last port of discharge" elects to put into some other port because it would be illegal by the laws of war to continue her voyage to the port of original destination, and disposes of a considerable part of her cargo in the substituted port, the risk on the ship ends after she has moored there twenty-four hours, even though the captain may not at the time of loss have entirely abandoned the intention of ultimately proceeding to the place of his original destination.

Brown *v.* Vigne.

A ship was insured "at and from London to any port or ports in the river Plate, until her arrival at her last port of discharge in the river Plate." There are three ports in the river Plate, which are reached in the following order by a ship arriving from England:—1. Maldonado; 2. Monte Video; 3. Buenos Ayres. The captain, on sailing from England, had intended to proceed to Buenos Ayres, but on his arrival in the river Plate, learning that Buenos Ayres was in the hands of the Spaniards, then at war with this country, he sailed past Maldonado, and put into Monte Video, which was then occupied by the English. His intention was to land and sell his whole cargo there, and finish the voyage at that place if he found the markets favourable; finding the sale, however, duller than he expected, he had not given up all thoughts of proceeding on to Buenos Ayres for a market with that portion of the cargo which he could not sell at Monte Video, when his ship was fouled in Monte Video harbour and received the damage, to recover which the underwriter was now sued under this policy. The Court held that

(*u*) Preston *v.* Greenwood (1784), 4 Dougl. 28, 33; see also Moore *v.* Taylor (1834), 1 A. & E. 25.

Sect. 502.

the plaintiff could not recover, the risk on the ship having come to an end after her being safely moored for twenty-four hours in Monte Video (*x*).

In the course of the argument Bayley, J., intimated that the words "last port of discharge" must mean "the last practicable friendly port of discharge"; just as in an insurance on a ship "from Liverpool to any of the Windward or Leeward Isles," Lord Kenyon had previously held that the meaning of such policy must be to any of such isles as were friendly; for that a hostile port could not be in the contemplation of the parties at the time the policy was effected (*y*).

It will be observed that in this case the port originally contemplated as the final port of discharge was in a state of open hostility at the time the vessel reached the river Plate, so that it would have been absolutely illegal for her to have proceeded to such port: this is very different from the case of a mere temporary obstruction, or one in which, though there might be danger, yet there would be no illegality in proceeding to the final port; and this constitutes the point of distinction between this case and that of Oliverson *v.* Brightman (*z*).

Insurance to "final port."

503. A policy on ship to ports in a country or district may, of course, be so worded that the risk does not end at the last port of discharge.

Crocker *v.* Sturge.

A ship was insured from Australia "to any port or ports, place or places on the West Coast of South America . . . , while there and thence" to the United Kingdom. The underwriters re-insured the earlier portion of their risk by a policy "to any port or ports, place or places in any order on the West Coast of South America and for thirty days after arrival in final port, however employed." The ship, after discharging her cargo at a port on the West Coast, was lost

(*x*) Brown *v.* Vigne (1810), 12 East, 283.
(*y*) Neilson *v.* Delacour (1798), 2 Esp. 619.
(*z*) Oliverson *v.* Brightman (1846), 8 Q. B. 781; *ante*, § 467.

Sect. 503.

on her way to a loading port on the West Coast. Mathew, J. held that the words "port or ports" and "final port" were not limited to ports of discharge, and that the risk still endured at the time of the loss (*a*).

"To any port or ports, however employed." Crocker *v.* General Insurance Co.

In another policy of re-insurance on the same risk, the clause was "to any port or ports, place or places, in any order on the West Coast of South America, and for thirty days in port after arrival however employed or until sailing on next voyage, whichever may first occur." The Court of Appeal held, affirming the decision of Mathew, J., that the loss was also covered by this policy. They considered that the words "however employed" applied to the words "to any port or ports," as well as to the words "for thirty days in port after arrival," and therefore that "port or ports" included loading ports for the next voyage as well as ports of discharge (*b*).

Marten *v.* Vestey.

Recently the question what is the "final port" arose in a case where the words "however employed" had not been added as in the previous cases. A steamship was insured by an ordinary Lloyd's policy for a voyage from the river Plate "to any port or ports, place or places in France and/or the United Kingdom (final port) including Mediterranean *via* any ports in any order." She discharged part of her cargo at St. Nazaire and completed her discharge at Havre. She then sailed for Barry for bunker coal and was lost on the way. The House of Lords held unanimously that the words "final port" were not limited to the United Kingdom, and that on the true construction of the policy "final port" meant the final port of discharge, so that at the time of the loss the insured voyage had come to an end. As is usual when ships are insured by the ordinary Lloyd's policy, the words "upon the goods and merchandises until the same be there discharged and safely landed" were allowed to remain in the policy, and both Lord Haldane and Lord Atkinson considered that in determining the intention of the parties these words ought to be taken into consideration. Lord Dunedin, on the other hand, was of opinion that, having regard to the time-honoured practice of using the same form of policy for insurances both of ships and goods, without deleting the phrases inapplicable to the subject of the insurance, no conclusion could be drawn from the retention of these words in the policy; but he also held that the voyage insured had come to an end at Havre, mainly on the ground that the progress of the ship from Havre to Barry was not the finishing of the old voyage, but a preparation for a new one, and that if "final port" did not mean final port of discharge there was no proper determination of the *terminus ad quem* which would save the policy from vitiation on the ground of uncertainty (*c*).

(*a*) Crocker *v.* Sturge, [1897] 1 Q. B. 330; 66 L. J. Q. B. 514; Spalding *v.* Crocker (1897), 2 Com. Cas. 189.

Sect. 503.

Final abandonment of intention to proceed to port of original destination.

504. If a ship entirely abandons the voyage insured, and finally gives up all hopes of proceeding to the port of her original destination, the risk on the ship is at an end immediately that determination is definitely formed. If, on the other hand, the ship, yielding to the irresistible force of present circumstances, merely puts back or lies by for a time with the intention of ultimately proceeding to the original terminus, she is deemed still to be on the voyage insured, and the risk continues till she arrives at the final terminus. In order, however, that this should be so, the obstruction must be only temporary in its nature; and the ultimate point of destination must continue the same.

A ship insured to a port in the Baltic, finding it blocked up with ice, took shelter for the winter in a place as near to it as she could safely go, and waited till the spring, when, on the first thaw, she sailed for it again; the risk on the ship was held to continue till her arrival there (*d*).

Blackenhagen *v.* London Assurance Co.

But where a ship insured from London to Revel, hearing

Sect. 504.

of an embargo at Revel, sailed back from the Baltic, by orders of a British man-of-war, to Copenhagen Roads, and then, entirely abandoning her voyage, accompanied the fleet to England; Lord Ellenborough nonsuited the plaintiff on the ground that the risk had terminated under this policy, at all events, directly the ship had sailed back to England from Copenhagen Roads (*e*).

His Lordship, however, remarked, that had the ship been coming home as the best means of getting finally to Revel, and had there been a possibility of her accomplishing that object when the loss happened, she might still have been considered in the course of the voyage insured; but that all thought of completing her original voyage seemed to have been abandoned when she sailed home from Copenhagen with the fleet (*f*).

Parkin *v.* Tunno.

In such cases, in fact, the risk may be held to continue on the ship during the whole period in which she can be fairly considered as taking measures with a view to ultimately arriving at the port of destination; but she will not be protected if, when turned away or forced to desist from proceeding to her original port, from its being in the hands of the enemy, she forthwith prosecutes a new voyage to the nearest friendly port, even though it be a voyage of necessity (*g*).

Duration prolonged by usage.

505. The duration of the risk may be prolonged by usage, to illustrate which principle reference may still be made to the cases on the trade of the East India Company's ships. By the usual course of that trade, the ships on arriving out were liable to be employed, at the discretion of the different presidential governments, in intermediate voyages, or in what was called the country trade, the charter-parties giving permission to prolong the ship's stay for a year or more. The policies were generally adapted to this usage and were

(*e*) Blackenhagen *v.* London Ass. Co. (1808), 1 Camp. 454.

Sect. 505.

uniformly held to cover all intermediate voyages in the Indian seas, unless restricted by special clauses (*h*). So great, indeed, was the influence of usage in the construction of these policies that a policy on a company's ship containing a liberty to touch and stay, but not to trade, would yet protect the ship while engaged on one and even a second country voyage for trading purposes (*i*).

Preston *v.* Greenwood.

It was at one time a rule in the East India trade that a voyage to China was not to be held included in a policy on a company's ship, unless China were expressly named in the instrument; where, however, it clearly appeared that the ship's destination for China was publicly known at the India House, and that the premium was the same as it would have been on a China voyage—although the insurance in terms was only "from London to Madras and Bengal, or the ship's last port of discharge of her Europe cargo beyond the Cape of Good Hope"—Lord Mansfield held, that although the word China was not introduced into the policy, yet, as the words in themselves certainly extended to China, the risk under the circumstances must be considered as continuing on the ship till her arrival in China, for the underwriters must clearly be considered to have contemplated the ship's proceeding thither when they subscribed the policy (*j*).

Substitution of a new *terminus ad quem* by agreement.

506. If a new *terminus ad quem* be substituted for the original one by a memorandum indorsed on the policy, the risk will terminate there.

Stone *v.* Mar. Ins. Co., Ocean Limited of Gothenburg.

In the case of a ship reinsured "from Liverpool to Philadelphia and back to the United Kingdom," it was found that a large part of her homeward cargo had been sold by the charterer to persons in Antwerp, and the underwriters, at

Sect. 506.

request of the assured, indorsed the policy thus: "In consideration of an additional premium of 7*s*. 6*d*. per cent., it is hereby agreed to allow the vessel to go to Antwerp." The vessel, without calling at the United Kingdom, had arrived in the outer dock of Antwerp when the captain was ordered by telegraph to Leith. He sailed for Leith as soon as he could, and on his way thither his ship was totally lost by perils of the seas. It was held that the memorandum construed with the policy might mean to Antwerp by way of the United Kingdom, but whether this or not, that Antwerp was certainly to be taken to be the final port of her destination, and consequently that the ship was not protected by the policy at the time of her loss (*k*).

Usage to cover ship's furniture on shore.

507. Generally speaking, the underwriter on a sea policy only insures against sea risks, and consequently is not responsible for any loss that may take place on shore. Usage, however, in this, as in all other cases, is the great regulator of the rights of parties under policies of insurance; and sect. 2 (1) of the Marine Insurance Act, 1906, declares that a contract of marine insurance may, by usage of trade, be extended so as to protect the assured against losses on any land risk which may be incidental to any sea voyage. Thus, if it can be shown that ship's furniture or stores are regularly landed at certain parts of a voyage by the usage of trade, they are as much within the protection of a policy on ship while thus put on shore as when on board the ship herself (*l*).

Insurance "at" a place only.

508. An insurance on a ship "at" a port or place in relation to a voyage is not common. In a recent case, however, the question whether the risk had attached arose on a policy of re-insurance expressed to be "at and from July 1, 1904, until August 31, 1904, ... whilst at port or ports, place or places in New Caledonia," the original

(*k*) Stone *v*. Marine Ins. Co., Ocean, Ltd. of Gothenburg (1876), 1 Ex. D. 81.

Sect. 508.

insurance being for a voyage from New Zealand to Nehone, New Caledonia, and while there and thence to Grangemouth. A loss occurred while the ship was proceeding through Gazelle Passage on the coast of New Caledonia, on her way to Nehone. Walton, J., held that the assured could not recover (*m*).

"Port" or "harbour" policies.

Ships are frequently insured at low premiums against harbour risks by policies called "port" or "harbour" policies.

A ship was insured by such a policy for a week "while at Leith." Evidence was given to prove that it was the custom at Lloyd's to treat "port" policies as ceasing to attach when the vessel unmoors with the intention of proceeding on her voyage. Accordingly, Mathew, J., held that the words "while at Leith" were equivalent to "while lying at the port of Leith," and that the risk terminated when the ship unmoored. The learned judge also intimated that a different construction might be put on the words if it could be shown that the underwriter intended to cover a larger risk (*n*).

In a later case Hamilton, J., held, after admitting evidence as to the meaning of "port risk," that in the absence of express words to the contrary, "the risk under a port risk policy ceases when the ship, being fitted and equipped for sea, and possessed of her clearances, crew, and, if necessary her cargo, commences to navigate upon her voyage, and no longer remains moored in the port in the course of preparing for the voyage" (*o*).

In Whittle *v*. Mountain (*p*) a houseboat was insured by a

(*p*) [1920] 1 K. B. 447. The assured's intention was not to bring the houseboat back to the Hamble, but after overhauling to lay her up in

Sect. 508.

time policy "whilst anchored in a creek off Netley, however employed. With liberty to shift." The policy contained a clause: "Including all risk of docking, undocking, changing docks and going on gridiron or graving docks as may be required during the currency of this policy." The house-boat was then anchored in the river Hamble, Southampton Water, which it was agreed between the parties was to be regarded as a creek off Netley. During the currency of the policy, the assured had her moved from the Hamble to a yard in the Itchen, seven miles distant, to be placed on a gridiron for overhauling and repairs, this yard being the nearest and most convenient with a gridiron, and she sank while being moved, close to the yard. Bailhache, J., held that, by reason of the liberty to shift, the houseboat was protected by the policy at the time of the loss. The judgment was affirmed by the Court of Appeal on a different ground, viz., that the taking of the houseboat to the yard was authorized by the docking clause. Bankes, L.J., was of opinion that the liberty to shift only meant to shift from one anchorage in the Hamble to another; and Scrutton and Atkin, L.JJ., while not expressing a definite opinion on this point, inclined to this view.

Fire policy on ship.

509. The question of the duration of the risk in a fire policy on a ship arose in a case in which the facts were as follow:—The policy was for a certain time on a steamship lying in the Victoria Docks, London, with liberty to go into a dry dock. In order to enable the ship to enter the dry dock, it was necessary to remove part of her paddle wheels. When she left the dry dock she was moored in the river for ten days, for the purpose of having her paddle wheels replaced before returning to the Victoria Docks, and before this operation was completed she was burnt in the river. The paddle wheels could have been replaced in the Victoria Docks, but it

the Itchen. It was, however, held that until the docking was completed, the question of the abandonment of the adventure did not arise. The case is under appeal to the House of Lords.

Sect. 509.

was cheaper to do this in the river, and there was evidence that in similar cases it was usual to replace them outside the docks. In the docks there were appliances for extinguishing fire, and precautions were taken against fire, which were wanting in the river. The House of Lords held, affirming the decisions of the Court of Common Pleas and of the Exchequer Chamber, that the assured could not recover. The Lords and the judges were almost unanimous in considering that under the liberty to go into dry dock the ship was protected during the transit to and from the dry dock, but it was held that this protection could not be extended to protect her during her stay in the river for a different purpose (*q*). In the Exchequer Chamber Blackburn, J., expressed the opinion that there was the following distinction between an ordinary voyage policy and such a fire policy as this one; while in the case of a voyage policy a deviation destroys the policy, the learned judge thought that there was no reason why the ship should not be taken out of the place to which the policy attached and so cease for a time to be covered, and be then brought back to it, when the risk would again attach (*r*).

Inception and duration of the risk on freight.

510. The object of an insurance on freight is to protect the shipowner from being deprived, by any of the perils insured against, of the benefits he would otherwise derive from the affreightment of his ship or the carriage of his goods or those of another.

Distinction between inception of insurable interest and of the risk.

The duration of the risk on freight is a matter which, as we have already pointed out, is often confounded with the different question whether the assured had at the time of the

(*q*) Pearson *v.* Commercial Union Ass. Co. (1863), 15 C. B. N. S. 304; 33 L. J. C. P. 85; in the Exch. Ch. (1873), L. R. 8 C. P. 548; in the House of Lords (1876), 1 App. Cas. 498. See also Whittle *v.* Mountain, *supra*, § 508.

(*r*) L. R. 8 C. P. 549. Another case on the continuance of the risk in a fire policy is Grant *v.* Ætna Insurance Co. (1862), 15 Moo. P. C. 516. The insurance was for twelve months on a steamship "now lying in Tait's Dock, Montreal, and intended to navigate the St. Lawrence and Lakes." The ship never left the dock and was burnt after being there for eleven months, and the loss was held to be covered.

Sect. 510.

loss an insurable interest in freight. Whether there be an insurable interest is a matter independent of the policy. If at the time of the loss the assured had no insurable interest, he cannot maintain an action, however the policy be worded. If on the other hand he had an insurable interest, the question arises whether the loss occurred within the limits of place or time fixed by the policy (*s*).

Thus, where a policy was effected on freight "at and from any port or ports of loading on the west coast of South America" to the United Kingdom, and the policy also contained a clause saying that the freight was to be covered "from the time of the engagement of the goods," the Court of Appeal held, that notwithstanding the "engagement" clause, the assured could not recover for a loss of freight due to the loss of the ship before she reached her first loading port in South America (*t*).

Commencement of risk on freight proper.

511. When the freight which is the subject of the policy is freight proper, *i.e.*, the price to be paid to the shipowner by the merchant for the carriage of goods in the ship on arrival, Arnould stated that the following rule (as to the commencement of the insurable interest and the attachment of the risk) was established by the cases (*u*):—"Where a cargo has been contracted for and is ready to be shipped on board at the time of the loss, and the ship, being otherwise in a condition to receive the cargo, is only prevented from doing so by the intervention of the perils insured against, the policy on freight attaches, and the underwriters are liable

(*s*) Arnould, in the chapter on insurable interest, confined himself to a statement of general principles, and in the present chapter discussed the question of insurable interest in freight at great length. Maclachlan adhered to this arrangement. In this edition, as in the three preceding ones, it has been thought advisable to deal fully with the question of insurable interest in its proper place, and much of the matter which in earlier editions was in this chapter has been transferred to that on insurable interest. See *ante*, §§ 262—279.

(*t*) The Copernicus (C. A.), [1896] P. 237; see also Jones *v.* Neptune Marine Ins. Co. (1872), L. R. 7 Q. B. 702.

(*u*) 2nd ed. p. 524; see also 2nd ed. pp. 288, 289, cited *ante*, § 266.

Sect. 511.

for the loss of the whole freight which would have been earned on the voyage, even though no part of the cargo has ever been shipped at all" (*x*).

It has been submitted, after an examination of the cases on which the learned author relied, that there is an insurable interest in freight proper when the assured, having a valid contract for freight, has taken steps towards the earning of the freight (*y*), and the editors also submitted in the last edition before the Marine Insurance Act, 1906, came into force, that according to the later authorities the risk attached at the same time (*z*). It has also been suggested that there may perhaps be an insurable interest in freight as soon as a contract under which freight will be earned has been concluded (*a*).

"At and from" the place of loading.

The question of the attachment of the risk has been settled in accordance with Arnould's statement of the law, by the Marine Insurance Act, 1906, Rule 3 (d) in the First Schedule being as follows:—

> Where freight, other than chartered freight, is payable without special conditions and is insured "at and from" a particular place, the risk attaches *pro ratâ* as the goods or merchandise are shipped; provided that if there be cargo in readiness which belongs to the shipowner, or which some other person has contracted with him to ship, the risk attaches as soon as the ship is ready to receive such cargo (*b*).

(*x*) The authorities cited are Montgomery *v.* Eggington (1789), 3 T. R. 362; Truscott *v.* Christie (1820), 2 Brod. & B. 320; Parke *v.* Hebson (*circa* 1820), cited *ibid.* 326; Warre *v.* Miller (1825), 4 B. & Cr. 538; Flint *v.* Flemyng (1830), 1 B. & Ad. 45; Devaux *v.* J'Anson (1839), 5 Bing. N. C. 519.

(*y*) *Ante*, §§ 268—271, 278, 279a.

(*z*) See *ante*, §§ 270, 271.

(*a*) *Ante*, § 279.

(*b*) Mr. Arthur Cohen says: "This rule, if interpreted according to the ordinary meaning of the words, overrules certain cases" (he cites Parke *v.* Hebson, Truscott *v.* Christie, Warre *v.* Miller, Devaux *v.* J'Anson, Flint *v.* Flemyng, *supra*, note (*x*)) "which decided that, although the ship be not ready to receive the goods, the policy will, nevertheless, cover the freight in respect of these, if there be a binding contract for the shipment of them. It remains to be seen," he adds,

Sect. 512.

Commencement of risk on freight of shipowner's own goods.

512. The only difference made by this rule between an insurance on freight proper and one on the freight of goods belonging to the shipowner himself is that as the shipowner cannot have a contract for the carriage of the goods, he must instead thereof have goods of his own in readiness to be shipped (*c*).

Devaux *v.* J'Anson.

In Devaux *v.* J'Anson (*d*) the policy was on freight "at and from Calcutta or any port or place on the Coromandel coast." The ship, having been repaired at Coringa, on the Coromandel coast, was about to be floated out of dry dock in order to be loaded in the river there, when she was lost. At that time the cargo, belonging to the shipowner, was lying in warehouse seven miles away, ready to be brought to the ship. It was argued that the shipowner could not recover for a loss of freight, because the ship was not ready to receive the goods and the goods were not ready to be put on board; but the Court held that the risk had already attached. All that they thought necessary to determine with regard to the cargo was "that it must have become the property of the parties insured by a contract made with a view to its being sent on board and actually in a state of readiness, reference being had to the nature and description of the voyage insured, to be put on board when the ship arrives at the place of deposit" (*e*). If readiness to receive the cargo in Rule 3 (d) implies that the ship must actually be in a position to take the cargo on board, this decision is not consistent with the rule (*f*).

"whether the Courts will give a very strained interpretation to the word 'ready' by holding that the goods are ready to be shipped and the ship ready to receive them, if, but for the perils insured against, the goods would in the ordinary course of things have been shipped on board the vessel": Halsbury's Laws of England, vol. xvii. art. 775.

(*c*) See *ante*, §§ 268, 279.

(*d*) (1839), 5 Bing. N. C. 519.

(*e*) *Ibid.* p. 539. In Flint *v.* Flemyng (1830), 1 B. & Ad. 45, the assured also claimed for a loss of freight on his own goods; their situation at the time of the loss is not stated in the report.

(*f*) The Court did indeed say that the ship was at the time of the loss quite ready to go to sea, and to receive the cargo on board. Yet she was not then, in fact, able to take the cargo on board, and, as the loss shows, was liable to be prevented from ever reaching her actual loading place. See, however, as to the meaning of "readiness" in relation to a contract of affreightment, Leonis SS. Co., Ltd. *v.* Rank, Ltd., [1908] 1 K. B. 499. See also note (*b*), *supra*.

Sect. 513.

Commencement of risk on chartered freight.

513. When the interest insured as freight is chartered freight, *i.e.*, a fixed sum stipulated to be paid to the shipowner by the terms of a charter-party for the use of his ship (or part of it) on an entire voyage therein described, the rule as to the attachment of the risk was thus stated by Arnould: "In such cases, as the so-called freight is secured to the shipowner by one entire contract for the whole voyage, it is clear that his inchoate right to such freight accrues from the very inception of the voyage described in the charter-party; and consequently, if commensurately insured, his risk under a policy on such freight commences from the same period" (*g*).

A series of cases, most of which have already been discussed in the chapter on insurable interest, shows clearly that the risk under the policy attaches under these circumstances (*h*).

Foley *v.* United, &c. Insurance Co. of Sydney.

Thus where a ship was chartered to proceed from Calcutta to Mauritius, and from Mauritius to Akyab, and at Akyab to load a cargo for the United Kingdom, a policy on this freight "at and from Mauritius" was held to attach as soon as the ship arrived at Mauritius: for there was already an inception of the charter-party voyage, and therefore an insurable interest, when the ship sailed from Calcutta (*i*).

Of course, if the insurance be "from" a place only, the policy cannot attach until the ship breaks ground on the voyage insured (*k*).

Sect. 513.

Rankin v. Potter.

A previous voyage, on which freight is being earned, is frequently in terms incorporated into the chartered voyage. If the policy on freight be intended to cover the freight to be earned on the latter voyage, it will no doubt sometimes be necessary to describe the freight specifically. Thus, in Rankin *v.* Potter (*l*), it was agreed by charter-party that the "Sir William Eyre," then on a voyage from the Clyde to New Zealand, should proceed to New Zealand with a cargo for owner's benefit, and thence to Calcutta, and there load a cargo for Liverpool for the charterer. The owners of the ship effected a policy on homeward chartered freight "at and from the Clyde to New Zealand," and it was not disputed that there was an insurable interest, and that the risk had attached, during the voyage to New Zealand. It is, however, apprehended that if the policy had been simply on freight, it would have covered the outward and not the homeward freight.

Barber v. Fleming.

The case of Barber *v.* Fleming (*m*) has established that there may be an insurable interest in chartered freight before the inception of the voyage described in terms in the charter-party. The policy was "on freight chartered or otherwise" at and from Bombay to Howland's Island, while there, and thence to the United Kingdom. The ship had been chartered on the 7th of August for a voyage from Howland's Island to the United Kingdom, and was required to be at Howland's Island on the following 1st of June; but the charter-party did not stipulate that she should sail direct. She sailed in ballast from Bombay to Howland's Island and was lost on the voyage thither.

The Court of Queen's Bench held that the insurable interest in the freight to be earned under the charter-party had commenced, and that the plaintiff could recover (*n*). What the position would have been if the ship had carried a cargo from Bombay to Howland's Island is a question which

(*l*) (1873), L. R. 6 H. L. 83.
(*m*) (1869), L. R. 5 Q. B. 59.
(*n*) See *ante*, § 275, where the case is discussed at length.

Sect. 513.

was raised during the argument and referred to in the judgments; but none of the judges gave a definite opinion thereon.

Result.

514. A general rule to be deduced from the decisions, and applicable to all policies on freight, seems to be that the risk attaches as soon as the insurable interest begins, if this be consistent with the description of the voyage in the policy (*o*), provided also in some cases that it may have to appear from the policy, or from the circumstances, that the particular freight was intended to be covered.

The rule laid down by the Marine Insurance Act, 1906, with reference to the attachment of the risk on chartered freight under the ordinary English policy is the following:—

> Where chartered freight is insured "at and from" a particular place, and the ship is at that place in good safety when the contract is concluded, the risk attaches immediately. If she be not there when the contract is concluded, the risk attaches as soon as she arrives there in good safety (*p*).

This rule, it is submitted, must be read subject to Rule 1 in the First Schedule to the Act, which provides that "where the subject-matter is insured 'lost or not lost,' and the loss has occurred before the contract is concluded, the risk attaches unless, at such time, the assured was aware of the loss, and the insurer was not." With this qualification Rule 3 (c) does not conflict with the general rule laid down in the text as the result of the authorities.

(*o*) This view seems to underlie the statement of Blackburn, J., in Jones *v.* Neptune Marine Ins. Co. (1872), L. R. 7 Q. B. 706:—"If the freight be in existence, as by the goods being ready to be loaded at the port named, and a peril happens which destroys the ship during the period of the specific voyage over which the policy is intended to apply, then the underwriters are responsible for the loss of freight, although the goods be not put on board; it is enough to prove it to have been in existence, and that it does not rest in mere expectancy and possibility." See also the judgments in Foley *v.* United Fire, &c. Ins. Co. (1870), L. R. 5 C. P. 155. Of course, the risk cannot attach unless the warranty of seaworthiness is satisfied. See *post*, § 686.
(*p*) Mar. Ins. Act, 1906, Sched. I. rule 3 (c).

Sect. 515.

Freight of voyage to *terminus a quo* not covered. Bell *v.* Bell.

515. An insurance on freight "at and from" a place does not cover the freight on a voyage terminating at that place, for that freight is not at risk on the voyage described in the policy. Thus when freight was insured at and from Riga to the United Kingdom, and the ship was captured at Riga, it was held that the policy did not cover the freight on the outward voyage to Riga (*q*).

Where commencement of risk depends on a certain event.

516. In policies on freight, as in all other policies, when the commencement of the risk is made to depend on a certain event, the risk does not attach until the happening of the event.

Beckett *v.* West of England Ins. Co.

A ship was chartered for a voyage from Liverpool to Lagos, and thence with a cargo to the United Kingdom, at a lump sum for the round voyage, and a policy was effected on freight "at and from Lagos," "the insurance to commence on freight from the loading of the goods on board at as above." The ship had arrived at Lagos, and was lost before she had shipped any of her homeward cargo; and it was held that in consequence of the second of the two clauses cited, the first was so modified that the assured could not recover (*r*). If there had been any goods on board at the time of the loss he would have recovered for the freight of those goods (*s*).

Jones *v.* Neptune Marine Ins. Co.

A policy of reinsurance on chartered freight was effected "lost or not lost, upon freight payable in respect to this present voyage to be performed by the vessel 'Napier,' from Baker's Island to a port of discharge in the United Kingdom; the insurance on the freight beginning from the loading of the vessel." The vessel was wrecked whilst at Baker's Island after she had taken two-thirds of her cargo on board; and the question was, what was the effect of the latter branch of this clause, "beginning from the loading," upon

(*q*) Bell *v.* Bell (1810), 2 Camp. 475.

(*r*) Beckett *v.* West of England Ins. Co. (1872), 25 L. T. N. S. 739. See Rigby, L. J.'s, criticism on this decision, [1895] 1 Q. B. 509.

(*s*) Hopper *v.* Wear Marine Ins. Co. (1882), 46 L. T. N. S. 107.

Sect. 516.

the former describing the insured voyage "from Baker's Island"? The majority of the Court, Mellor and Lush, JJ., held that the loading intended was a complete loading, and that the policy would have attached upon this being completed, although before the vessel sailed from Baker's Island. Blackburn, J., was of the same opinion as to the loading intended being a complete loading, but he was of opinion that the latter part of the clause did not enlarge the effect of the former, and consequently that the policy would not attach until the vessel sailed on her voyage. By the opinion of the whole Court the assured could not recover (*t*).

Where condition as to attachment of risk inapplicable. Hydarnes SS. Co. *v.* Indemnity Mutual Mar. Ass. Co.

In the following case a clause, which made the risk only attach on the freight of goods loaded at the *terminus a quo*, was rejected as being inapplicable to the voyage insured. The policy was "upon freight of meat at and from Monte Video" to any ports in the River Plate, including the Boca, and thence to the United Kingdom, and was expressly stated to cover any loss occasioned by breaking down of machinery until final sailing of the vessel. By a subsequent clause the insurance was declared to commence "upon the freight and goods or merchandise on board from the loading of the said goods or merchandise on board the said ship or vessel at Monte Video." This clause, except the name Monte Video, was in print. The ship proceeded from Monte Video to the Boca, where a cargo of meat was ready for shipment. At the Boca her refrigerating machinery broke down, so that it became impossible to load the cargo. When the policy was effected both the underwriters and the assured knew that meat was never shipped at Monte Video, where there were no appliances for freezing meat. Under these circumstances the Court of Appeal held that the clause making the commencement of the risk depend on the loading of the meat was inapplicable, and that the policy had attached (*u*).

(*t*) Jones *v.* Neptune Marine Ins. Co. (1872), L. R. 7 Q. B. 702.

(*u*) Hydarnes SS. Co. *v.* Indemnity Mutual Marine Ass. Co., [1895] 1 Q. B. 500.

Sect. 517.

The voyage being performed must be that in the policy. Sellar *v.* M'Vicar.

517. If the voyage which is being performed at the time of the loss is not covered by the policy, of course the assured cannot recover.

Freight valued at 500*l.* was insured on a voyage "at and from Demerara, Berbice, and any of the Windward and Leeward Islands, to London." By a verbal agreement with a Demerara house, the ship, then in that port, was to carry a cargo of colonial produce for them from Berbice to London, at the current rate of freight, and also take on some bricks and planks from Demerara to Berbice on the same terms. The ship was lost while proceeding from Demerara to Berbice with the bricks and planks on board, in virtue of this verbal agreement. The plaintiffs contended that the whole was one entire voyage on which freight was to be earned; but the Court were clearly of opinion that the voyage insured was a voyage at and from Demerara *or* Berbice to London, and that no such voyage had begun at the time of the loss, which took place on a voyage from Demerara to Berbice (*x*).

Ellis *v.* Lafone.

In the following case the contention that an advance of freight was not made in respect of the insured voyage was unsuccessful.

By a charter-party made at Monte Video, a vessel was to proceed to the Falkland Island, and thence to Santa Cruz in Patagonia, there to take in a cargo of guano, and to discharge it at a port in Europe; freight at 250*l.* a month, pay for one month to be made when the vessel sailed from the Falkland Islands, the balance at the port of discharge. There was a safe delivery of cargo at the Falklands, and an advance of 250*l.*, being one month's freight. She then loaded guano at Santa Cruz and completed the cargo with hides at Monte Video, where a new charter-party, in effect annulling the first, was made, by which the vessel was to proceed to Havre direct with the cargo then on board, freight (at the same rate as by the first charter) to be paid at the port of discharge,

(*x*) Sellar *v.* M'Vicar (1804), 1 B. & P. N. R. 23. The construction put upon the policy may be questionable, but this does not affect the principle of the decision. See Clapham *v.* Cologan (1813), 3 Camp. 382.

Sect. 517.

after deducting 250*l.* received on account of that charter-party. The vessel sailed and went down at sea a total loss.

In an action by the charterers on a policy, "lost or not lost at and from Monte Video to Havre on 450*l.* freight advanced," it was contended for the underwriters that the plaintiffs could not recover for the advance of 250*l.*, on the ground that the sum had been paid in respect of the voyage to the Falkland Islands, and that the money remained no longer at risk after the termination of such voyage. The Court of Exchequer Chamber, however, held the plaintiffs entitled to recover, since that was not a separate sum paid in respect of the voyage to the Falkland Islands, but part of an entire sum payable for the whole voyage insured, which therefore remained at risk till the ship arrived in Havre, her port of discharge in Europe (*y*).

Insurance for part of the voyage.

518. When a ship is going to touch at a port short of that where the cargo is to be landed, the freight may be insured to the intermediate port only. The voyage to that port is not a different voyage from that on which the freight is earned; it is only a part of the larger voyage.

A ship with a cargo for Gothenburg sailed for Portsmouth to call there for convoy. A policy was effected on freight to Portsmouth, and the underwriter was not informed that the ultimate destination of the ship and cargo was Gothenburg. It was held that the assured could recover for a loss which happened before the ship reached Portsmouth (*z*).

Freight of goods loaded at an intermediate port.

519. If freight be insured from one port to another, and the assured, in pursuance of leave granted by the policy, takes goods on board at an intermediate port destined for the *terminus ad quem*, the freight on these goods is covered (*a*). When there is leave to trade at intermediate ports, the freight on any goods taken on board at any of these ports to be

(*y*) Ellis *v.* Lafone (Exch. Ch.) (1853), 8 Ex. 546; 22 L. J. Ex. 124.
(*z*) Taylor *v.* Wilson (1812), 15 East, 324; overruling Murdock *v.* Potts (1795), 2 Park, 634; Hall *v.* Brown (1814), 2 Dow, 367.
(*a*) Barclay *v.* Stirling (1816), 5 M. & S. 6.

Sect. 519. carried to any other is no doubt protected; for policies on trading voyages must be liberally construed, and the parties must be taken to have intended to protect such freight.

End of risk on freight.

520. The ordinary policy provides that the insurance on a vessel shall end after she has been moored twenty-four hours in good safety, and on goods when they are safely landed. Though this policy is commonly used for freight insurances, there is no clause determining the end of the risk on freight. Usually the freight is not payable until the goods are delivered. When this is so, it is submitted that, under a voyage policy to the place of discharge, the risk continues as long as the goods remain in the custody of the shipowner exposed to maritime perils, provided there be no unjustifiable delay in discharging them (*b*).

Time policy on freight.

521. Freight is often insured by time policies. So far as the duration of the risk is concerned, the rules relating to time policies on ships are applicable to insurances on freight (*c*).

In one case it was argued that a loss of freight could not be recovered because the voyage, if there had been no loss, would not have been completed within the time for which the insurance had been effected; for the freight could not be earned during the time covered by the insurance. But this absurd contention was overruled. It was held that as freight can be insured for part of a voyage, so also it can be for a limited period, during which it is at risk (*d*).

(*b*) Marshall, 225. Where the freight of a voyage from London to Madeira and Jamaica was agreed to be paid in wine to be put on board at Madeira, the Court of Common Pleas were of opinion that the risk under a policy on freight at and from London to Jamaica endured until the freight wine was safely carried to Jamaica in the ship. Withdrawal of Representation 569, 570
Effect of Misrepresentation to the first Underwriter .....571—574

Of misrepresentation and concealment generally.

522. THE subject of Disclosure and Representations is dealt with in sects. 17 to 21 of the Marine Insurance Act, 1906. Of these, sect. 17 enunciates the general principle, casting a duty on both assured and insurer, and applying both to Disclosure and to Representations. The three following sections are in effect illustrations of sect. 17, and deal with the duty imposed thereby, only so far as it is to be performed by the assured. Of these three sections, the eighteenth and nineteenth relate to Disclosure, and the twentieth to Representations. Sect. 21, like sect. 17, is a general section.

Marine insurance is based on good faith.

In conformity, no doubt, with the law prior to the Act, the seventeenth section declares that: "A contract of marine insurance is a contract based upon the utmost good faith, and,

Sect. 522.

if the utmost good faith be not observed by either party (*a*), the contract may be avoided by the other party" (*b*).

In almost every instance in which a policy of sea assurance is effected, the underwriter must rely solely on the good faith of the assured for supplying him with full and true information of many of those facts on which the character and nature of the risk, and consequently the rate of premium, depend. It is to the assured that all communications respecting the actual state of the property proposed for insurance, such as the time and place at which the goods are to be loaded, or the ship is to sail—the force and equipment of the vessel, her then situation, and progress in her voyage, &c.—are in the first instance addressed: he is thus the natural and sole depositary of much of that information, a full and true communication of which is absolutely essential to the underwriter in order that he may form a right judgment of the nature of the risk and the proper rate of premium.

Hence, on the true principles of equity and justice (*c*), the concealment or misrepresentation by the assured, whether wilful or not, of any facts which were calculated to influence, and did in fact influence (*d*), the underwriter (*e*) in taking the risk or fixing the rate of premium will give the latter the right to avoid the policy.

Provisions of Mar. Ins. Act as to representations.

Accordingly it is now expressly enacted by sect. 20 of the Marine Insurance Act, as follows:—

(1) Every material representation made by the assured

(*a*) Lord Mansfield in Carter *v.* Boehm (1766), 1 W. Bl. 594; 3 Burr. 1909, pointed out that the duty lay not only upon the assured, but also upon the underwriter, who, for instance, would not be allowed to retain a premium in respect of a policy made on a ship which he knew at the time to have arrived safely.

(*b*) In Cantiere Meccanico Brindisino *v.* Janson, [1912] 3 K. B. 452, 463, Vaughan Williams, L. J., expressed the view that there might be a duty of disclosure under s. 17, although in the absence of inquiry there might be no such duty under s. 18, *infra*, § 575.

(*c*) As to the principle on which the rule is based, see *infra*, § 535.

(*d*) See *infra*, § 555.

(*e*) Arnould's words were (2nd ed. p. 541), "any such facts as might reasonably be supposed to have influenced the underwriter," &c. The text has been altered for reasons which will hereafter be discussed.

Sect. 522.

or his agent to the insurer during the negotiations for the contract, and before the contract is concluded (*f*), must be true. If it be untrue the insurer may avoid the contract.

(2) A representation is material which would influence the judgment of a prudent insurer in fixing the premium or determining whether he will take the risk.

(3) A representation may be either a representation as to a matter of fact, or as to a matter of expectation or belief.

(4) A representation as to a matter of fact is true, if it be substantially correct, that is to say, if the difference between what is represented and what is actually correct would not be considered material by a prudent insurer.

(5) A representation as to a matter of expectation or belief is true if it be made in good faith.

(6) A representation may be withdrawn or corrected before the contract is concluded.

(7) Whether a particular representation be material or not is, in each case, a question of fact.

Contract not void, but voidable by innocent party.

523. It is commonly stated, both in the text-books and the cases, that the effect of a material misrepresentation or concealment is to avoid the insurance. Arnould uses this expression, which is not strictly correct. The party who has been guilty of a concealment or misrepresentation cannot, of course, avail himself of his wrongful act to treat the contract as void. The other party to the insurance can, however, elect either to treat the contract as valid or to repudiate it, in which latter case it is treated as void *ab initio* (*g*).

When must election to avoid be made.

The question then arises, when the election must be made. The Marine Insurance Act, 1906, is silent upon this point. In almost all the cases the fact has been that the concealment or misrepresentation by the assured was only discovered after a total loss had become known, or after the voyage insured

(*f*) As to these words, see sect. 21; and *post*, §§ 567—569.

(*g*) Mar. Ins. Act, 1906, ss. 17, 18 (1), *post*, § 575; sect. 20 (1), *ante*, § 522. Morrison *v.* Universal Marine Ins. Co. (1872—1873), L. R. 8 Ex. 40, 197.

Sect. 523.

had terminated. Under such circumstances the question of election is of no practical importance and has never arisen. When, however, the underwriter becomes aware, before the voyage or period insured has come to an end, that he is entitled to avoid the contract, it may make a great difference to the assured whether the underwriter makes his election at once or delays making it. A prompt election may enable the assured to protect himself by taking out another policy, while a delay may render it impossible for him to effect an insurance at all, or to do so on as favourable terms as before.

It was not finally decided, in the only case in which this question arose, whether the party entitled to elect must do so within a reasonable time, or whether he may repudiate the contract at any time, unless in the meanwhile he has done something to affirm it, or unless the rights of third parties have intervened, or unless the other party to the contract has altered his position under the belief that the contract was a subsisting one.

Morrison *v.* Universal Marine Ins. Co.

524. In that case (*h*) the plaintiff's broker had effected an insurance with the defendants, without disclosing certain material information in his possession. In doing so he acted in good faith, believing that the information was incorrect. The slip was initialed on the 12th October, and on the same day the defendants' assistant underwriter became possessed of the information which had been withheld. On the 14th or 15th the defendants executed and delivered out the policy, without any protest or any notice that they would treat it as void. On the 19th news of the loss of the ship was posted at Lloyd's, and on the 20th the defendants gave notice to the broker that they did not consider the policy binding on them. At the trial, Blackburn, J., directed the jury that when the underwriter discovers that there has been a concealment or misrepresentation he is not entitled to wait until he hears that there has been a loss, and then repudiate the policy.

(*h*) Morrison *v.* Universal Marine Ins. Co. (1872—1873), L. R. 8 Ex. 40, 197.

Sect. 524.

He must make his election, not, indeed, with hot speed, but in a reasonable time (*i*). The learned judge did not express an opinion on the question whether in delivering out the policy the underwriters had done an act which amounted to an election, and the jury found expressly that the defendants had not elected to treat the policy as subsisting. A verdict having been entered for the defendants, the Court of Exchequer (Cleasby, B., dissenting) ordered a new trial on the ground of misdirection. Martin, B., held that the jury should have been told that if the conduct of the defendants in delivering out the policy would induce the plaintiff to suppose that he had a valid policy, they were estopped from denying it. Bramwell, B., considered that delivering out the policy with knowledge of the concealment was *primâ facie* an election, and threw on the defendants the burden of showing circumstances to explain it (*k*).

The Court of Exchequer Chamber reversed this judgment (*l*). They accepted the verdict of the jury, that there had been no election in fact to affirm the policy, presumably on the ground urged by the defendants, that by usage the contract is deemed to be complete when the slip is initialed, and that the delivering out of the policy is a mere formal act which the underwriter is in honour bound to perform, even if he intends to dispute its validity, as without the policy no action could be brought. They considered that there was no evidence that the plaintiff had been prejudiced by the defendants not electing earlier to disaffirm the policy, and it was not material to consider whether the plaintiff understood their conduct in delivering out the policy *without a protest* as amounting to an election to affirm it, unless under that belief he altered his position.

Question of time of election left undecided.

525. One question, as we have said, the Exchequer Chamber left undecided, namely, whether the underwriter must make

(*i*) Morrison *v.* Universal Marine Ins. Co. (1872), L. R. 8 Ex. 40, 47. See also per Bramwell, B., *ibid.* p. 55.

(*k*) L. R. 8 Ex. 40.

(*l*) L. R. 8 Ex. 197.

Sect. 525.

his election in a reasonable time, or whether he may repudiate the contract at any time unless in the meanwhile he has elected to affirm it, or unless the rights of third parties have intervened, or the other party to the contract has altered his position under the belief that the contract was a subsisting one. The latter position is that maintained by the same Court, in Clough *v.* London and North-Western Railway Company (*m*), as to the rights of a person who has been induced by fraud to enter into a contract to rescind it. But it is nevertheless there pointed out that, although the party defrauded may keep the question open so long as he does nothing to affirm the contract, yet mere lapse of time without rescinding will furnish evidence that he has determined to affirm the contract, and when the lapse of time is great might be conclusive to that effect.

It was not necessary for the Court of Exchequer Chamber to decide, in Morrison *v.* Universal Marine Insurance Company, whether Blackburn, J.'s, direction, that the election must be made in a reasonable time, was correct, and the Court expressly refrained from overruling this direction (*n*). The rule laid down in Clough *v.* London and North-Western Railway Company, and already referred to, was, however, cited in the judgment of the Court; and the opinion of the Court seems, therefore, to have been that the rule should be applied to contracts of marine insurance, whether the representation be fraudulent or innocent (*o*).

Its application to such contracts is, however, not free from difficulty. The Exchequer Chamber said that if, in consequence of the defendants' delay, Morrison had been induced to believe that the defendants waived their right to avoid the contract, and had consequently abstained from effecting an insurance elsewhere, the plaintiff would have been entitled to a verdict; but there was no evidence to that effect. Yet it

(*m*) (1871), L. R. 7 Ex. 34.

(*n*) See L. R. 8 Ex. p. 205.

(*o*) Mr. Arthur Cohen adopts this view: Laws of England, vol. xvii. § 794.

Sect. 525.

must be difficult in most cases to determine to what extent the position of an assured has been altered by the delay in rescinding. In this particular case the Exchequer Chamber pointed out that the plaintiff had actually attempted, but failed, to effect further insurances, and therefore the delay could have made no difference. But if he had known that he was not protected by the defendants' policy, he might have offered a higher premium. The question whether the assured's position has been altered must often be a speculative one, which cannot be satisfactorily determined.

Policy ordered to be cancelled.

526. When a policy has been avoided for concealment or misrepresentation it may be ordered to be delivered up and cancelled (*p*).

Definition of a representation.

527. A representation, in the technical sense which the word bears in the law of insurance, may be stated to be:—

A verbal or written statement made by the assured to the underwriter, at or before the time of the making of the contract, as to the existence of some fact or state of facts calculated to induce an (*q*) underwriter more readily to assume the risk, by diminishing the estimate he would otherwise have formed of it.

Classification of representations.

Such statement may either be—(1) a positive affirmation by the assured, as of his own knowledge and upon his own responsibility, that the facts represented either do or will exist (*r*); or (2) a mere declaration of his belief or expectation that such facts do or will exist; or (3) a mere communication of information which he has received from others respecting them.

(*p*) Rivaz *v.* Gerussi (1880), 6 Q. B. D. 222; Brooking *v.* Maudslay (1888), 38 Ch. D. 636.

(*q*) For "an," Arnould (2nd ed. p. 542) had "the." Arnould here seems to have used "representation" as equivalent to "material representation." The reasons why the editors have substituted "an" for "the" are explained in note (*f*), § 554. A statement which is not a material representation in the technical sense may, nevertheless, if fraudulent, vitiate the contract: see § 536. For statements made in answer to enquiries, see § 555.

(*r*) See *post*, § 542, as to representations of future facts.

Sect. 527.

The Marine Insurance Act recognizes the first two of these classes of statements, by declaring (sect. 20 (3)) that "a representation may be either a representation as to a matter of fact, or as to a matter of expectation or belief." The third class is not specially noticed. It may be regarded as a branch of the first class. For if an assured states that he has received certain information, this is a distinct representation, not indeed as to the accuracy of the information, but of the fact that such information has actually been received. In this work we will call the first class positive representations; and denominate the two other classes respectively representations of belief (*s*) and representations of information (*t*).

Representations may be either oral or written.

528. First, then, a representation is a verbal or written statement made by the assured or his agent to the underwriter at the time of the making of the contract: in point of actual practice it generally consists of either verbal communications made, or written instructions shown, by the broker to the underwriter at the time the risk is proposed to him. When made verbally, Lord Mansfield used to urge that every representation should be entered by the broker in his book at the time, and preserved as an evidence of the real terms on which the contract was made (*u*).

Distinction between a representation and a warranty.

529. A representation, to have any effect, must, as we have seen, be made at or before the time of entering into the contract, therefore necessarily before the subscription of the policy. It is never, in terms, inserted in that instrument, though there seems to be no reason why this should not be done, if the parties wish it (*x*). This, in fact, constitutes the main distinction in form between a representation and a warranty, viz., that a representation may be made either orally or in writing, and need not be introduced into the

(*s*) These are dealt with in §§ 545—551.
(*t*) See § 552.
(*u*) Pawson *v.* Watson (1778), 2 Cowp. 785, 788.
(*x*) See *post*, § 532.

Sect. 529.

policy; whereas a warranty must always be in writing and inserted in the policy, or incorporated therein by reference (*y*).

No statement not actually written or referred to on the face of the policy will be construed as a warranty: though the paper on which the statement is written be wrapped up with the policy, or even wafered to it at the time of subscription, it cannot be more than a representation (*z*).

The same statement, indeed, which when made orally, or in writing distinct from the policy, by the broker to the underwriter, is construed as a positive representation, would if written on the face of the policy in almost all cases amount to a warranty (*a*). Thus, where a broker, in effecting a policy on a ship, showed the underwriter, in order to induce him to take the risk, written instructions in which it was stated with reference to the ship, "she mounts twelve guns and twenty men," this was construed as a positive representation; but had these same words been written on the face of the policy they would have been held to constitute a warranty (*b*).

Wherever, therefore, the representation is a positive statement of some fact (*c*) material to the risk, it is only distinguishable in form from a warranty by not being written on the face of the policy.

Difference in effect between a warranty

530. From this distinction in form arises a very important distinction in effect. As a representation is not inserted on

(*y*) Mar. Ins. Act, 1906, s. 35 (2). See also the *dicta* of Lord Mansfield in Pawson *v.* Watson (1778), 2 Cowp. 785; M'Dowell *v.* Fraser (1779), 1 Dougl. 260; and of Lord Abinger in Cornfoot *v.* Fowke (1840), 6 M. & W. 378.
(*z*) Pawson *v.* Barnevelt (1778), 1 Dougl. 12, n. 4; Bize *v.* Fletcher (1779), *ibid.* See, however, *post*, § 629, as to clauses wafered or gummed to the policy; and cf. Pearce *v.* Gardner, [1897] 1 Q. B. 688, C. A., as to memoranda satisfying sect. 4 of the Statute of Frauds.
(*a*) See Yorkshire Ins. Co. *v.* Campbell, [1917] A. C. at p. 221.
(*b*) Pawson *v.* Watson (1778), 2 Cowp. 785.
(*c*) As to representations of "future facts," or so-called "promissory representations," see *post*, §§ 538—544. They are not expressly recognized by the Mar. Ins. Act, 1906.

Sect. 530. and a representation.

the face of the instrument, the assured is not tied down to the same rigid and literal compliance with its terms as he is in the case of a warranty. Unless a warranty is true to the letter and fulfilled with the most scrupulous exactness, the insurer is discharged from liability (*d*), for in such cases there is the breach of an express stipulation which the assured himself has inserted in the instrument as one of its terms. In the case of a representation, on the other hand, the very fact that the assured has declined to insert on the face of the policy the statement which he has yet represented to be true shows that he does not intend to be bound down to this exact and rigorous accuracy, and accordingly a substantial compliance with the terms of a representation is all that is required (*e*).

Thus, to take an illustration from the case already cited, had the words "she mounts twelve guns and twenty men" been written on the face of the policy, this would have been a warranty, and the policy would have been void had the ship carried one gun or one man less than the stipulated number: but as these words were in fact only shown by the broker to the underwriter before subscribing the policy to inform him of the probable risk he would incur, and were not inserted in the policy, they were held to be only a representation; and the policy was not avoided by the ship's carrying a force of men and guns not literally the same with that stated in the representation, but in point of strength, convenience, and for the purpose of resistance, even more favourable to the risk (*f*).

Only a material misrepresentation avoids the policy.

531. It further appears by the definition that a representation is a statement of the existence of some fact or state of facts "calculated to induce an (*g*) underwriter more

(*d*) Mar. Ins. Act, 1906, s. 33 (3).
(*e*) Mar. Ins. Act, 1906, s. 20 (4), *ante*, § 522; Pawson *v.* Watson, *infra*.
(*f*) Pawson *v.* Watson (1778), 2 Cowp. 785; see also Von Tungeln *v.* Dubois (1809), 2 Camp. 151; Nonnen *v.* Kettlewell (1812), 16 East, 176.
(*g*) See note (*q*), § 527.

Sect. 531.

readily to assume the risk by diminishing the estimate he would otherwise have formed of it": facts, the statement of which may reasonably be presumed likely to have such an influence on the judgment of a prudent underwriter, are called "material facts"; a statement of such facts is called a material representation (*h*); and it is the falsehood of such a representation only that will, at any rate in the absence of fraud, have the effect of avoiding the policy.

Hence further distinguished from a warranty.

And this constitutes a further distinction between a representation and an express warranty. In the case of a warranty all questions of the materiality or immateriality of the fact warranted are entirely excluded; the sole inquiry is whether it be or be not warranted that the fact is or shall be so and so. If it be warranted, then, however unimportant the fact may be to the risk, however little its existence or non-existence may have influenced the judgment of the underwriter as to the rate of premium, the thing warranted must be absolutely true or literally performed, otherwise the policy will be void as from the date of the breach of the warranty. The falsehood of a representation, on the other hand, will produce no effect on the policy unless the fact misrepresented be material.

When statements in the policy can be construed as representations.

532. Although as a general rule all positive statements and stipulations relating to the risk or the subjects of insurance will, if inserted in the policy, be construed as express warranties, yet there can be little doubt that if a positive statement of material facts were inserted in the policy with an express stipulation that it should be construed not as a warranty, but as a representation, such express stipulation would prevail over the general rule (*i*).

It must also be borne in mind that the rule now under consideration is confined to positive representations, and does not extend to statements of belief or information; which latter would in certain cases unquestionably be construed as

(*h*) Mar. Ins. Act, 1906, s. 20 (2), *ante*, § 522.
(*i*) 2 Duer, 645.

Sect. 532.

nothing more than representations, though inserted in writing in the policy.

Thus where the words "ship expected to be loaded between the 13th and 20th of September," were inserted in the policy, this was construed as a representation that the ship had not been loaded within the knowledge of the assured before the 13th of September; and as it turned out that he, in fact, knew she had, the policy was held void on this account (*j*).

Cases in which a representation is implied from the language of the policy.

533. The language of the policy may itself be such as to imply a representation, which will thus virtually form a part of the written instrument. Thus where an insurance was effected on ship (*k*) and cargo at and from Genoa to Dublin, "the adventure to begin from the loading to equip for the voyage," Lord Mansfield held that these words plainly implied a representation that Genoa was the port of loading, and as she had loaded not at Genoa but at Leghorn, this being held material, his Lordship considered that the policy was void for misrepresentation and concealment (*l*). So where in an insurance on goods the words "to return five per cent. for convoy and arrival" were inserted in the policy, Lord Eldon was of opinion that these words clearly amounted to a representation that it was probable the vessel would sail with convoy, or at all events that there was a chance she would do so; and as it appeared that the assured knew, when the policy was effected, that the ship had actually sailed without convoy, his Lordship held the misrepresentation fraudulent and the contract void (*m*).

Cases in which representation has

534. In one case the Court of Session has held that a representation can be inferred from the silence of the assured.

(*j*) Stewart *v.* Morrison, Millar on Ins. 59; and see some American decisions to the same effect, cited by Judge Duer, vol. ii. pp. 721—738. See sect. 20, sub-sect. 5, of the Mar. Ins. Act, 1906, *ante*, § 522.

(*k*) The insurance is stated in the report to be on the ship only. Arnould is, however, probably right in saying that the policy was on ship and cargo.

(*l*) Hodgson *v.* Richardson (1764), 1 W. Bl. 463; 1 Park, Ins. 412. See, as to this case, *post*, § 605.

(*m*) Reid *v.* Harvey (1816), 4 Dow, 97.

Sect. 534. been inferred from silence.

A ship had been transferred by a fictitious sale to the Belgian flag, to avoid inspection as provided by the Merchant Shipping Act, 1873. The assured, when effecting the insurance, did not inform the underwriter, who had on a former occasion insured the ship as British, of the change of flag. The Court held that the policy was void by reason of misrepresentation and concealment, leading the underwriter to believe that the ship was British. It is submitted, however, that the representation made in effecting a previous insurance cannot be considered to have been renewed by implication, and that the decision can only be supported on the ground of concealment (*n*).

In Fitzherbert *v.* Mather (*o*), an agent, after posting a letter stating that a ship had sailed, heard that it had been lost. The post had not yet left, but he did not write to report the loss. The Court of King's Bench held that by not doing so he had represented that the ship was safe when the post left. The letter, when it left the hands of the agent, stated his information correctly. The editors submit that his subsequent omission to write was not a misrepresentation, but a concealment of material information.

There may no doubt, however, be cases in which a representation will be inferred from the silence or conduct of a party.

The ground upon which misrepresentation avoids the policy.

535. Formerly it appears to have been laid down in some cases, and assumed in others, that the ground upon which the misrepresentation of a material fact avoided the policy was actual fraud or a wilful intention on the part of the assured to deceive the underwriter (*p*). This ground, however, was long since entirely abandoned, and the principle firmly estab-

Sect. 535.

lished that the misrepresentation from mistake, ignorance, or accident, of any material fact, however innocently made, will avoid the policy quite as much as in cases where such misrepresentation arises from a wilful intention to deceive (*q*).

Former English doctrine.

Later still, the doctrine favoured by the English Courts was that in the case supposed, although no pretence existed for alleging actual fraud, yet the policy was to be considered void on the ground of constructive or legal fraud—*i.e.*, such conduct on the part of the assured as, though it does not imply any moral turpitude in himself, yet, from the effect it has in fact of misleading the underwriter, is in legal language said to be fraudulent (*r*).

Judge Duer's doctrine.

This doctrine was questioned by Judge Duer, who contends that the true ground on which the falsity of a material representation avoids the contract, in cases where no actual fraud can be imputed, is that a positive representation on a material point is an essential part of the contract of insurance, though not inserted in the policy (*s*); and this appeared to Arnould to be the sounder view (*t*).

In Blackburn *v.* Vigors, Lord Esher took exception to Duer's theory on the ground that if it be correct "the contract should never be set aside, or treated as void on the ground of concealment (or misrepresentation); the contract should stand and be treated as broken by the assured." Duer's view, said

(*q*) The cases that establish this position are the following: M'Dowell *v.* Fraser (1779), 1 Dougl. 260; Fillis *v.* Brutton (1782), 1 Park, Ins. 414; Fitzherbert *v.* Mather (1785), 1 T. R. 12; Feise *v.* Parkinson (1812), 4 Taunt. 640; Dennistoun *v.* Lillie (1821), 3 Bligh, 202; per Lord Abinger in Cornfoot *v.* Fowke (1840), 6 M. & W. 378. Per Willes, J.:—"There is no doubt that a material misrepresentation, though perfectly honest at the time, made with the intent that it should be acted on by the insurer, and which has led to the policy being granted, will defeat the policy." Anderson *v.* Pacific Fire & Marine Ins. Co. (1872), L. R. 7 C. P. 65, 68.

(*r*) See the judgment of Lord Abinger in Cornfoot *v.* Fowke (1840), 6 M. & W. 378; and the *dicta* of Baron Parke in Elkin *v.* Jansen (1845), 13 M. & W. 658.

(*s*) 2 Duer, Ins. 648—655, s. xiv.; and 3 Kent, Com. 282.

(*t*) 2nd ed. vol. i. p. 549.

Lord Esher, would raise new complications (*u*). Phillips explains the effect of a misrepresentation or concealment in the contract on the ground of a condition, implied by the fact of entering into the contract, that there is no misrepresentation or concealment, and his proposition was in that case adopted by all the judges in the Court of Appeal and by Lord Watson in the House of Lords (*x*). It is submitted that this is the proper ground on which to base the rule.

Sect. 535.

Phillips' doctrine.

536. If the purpose of the representation be fraudulent—that is, to deceive the underwriter by inducing him to believe that which the assured at the time knows to be false, or does not know to be true—the policy, it is said, will be equally avoided whether the false statement be material to the risk or not (*y*).

In cases of fraud a misrepresentation may avoid the policy without being material.

It is submitted that this proposition is subject to the qualification that the fraudulent statement must in fact have influenced the underwriter when he undertook the risk. Speculations as to the materiality of a fraudulent statement made with a view to a particular end cannot be permitted when the end has been attained thereby (*z*), and where the purpose of a falsehood is to induce the underwriter to enter into the contract, there is no doubt, as Arnould says, a presumption that such has been its effect (*a*). But the presump-

The Mar. Ins. Act, 1906, has no express reference to this point, but by sect. 91 (2) the rules of the common law continue to apply, save in so far as they are inconsistent with the provisions of the Act.

(*z*) See per Lord Chelmsford, L. C., in Smith *v.* Kay (1859), 7 H. L. Cas. at p. 759, cited by Smith, L. J., in Gordon *v.* Street, [1899] 2 Q. B. 646.

(*a*) As to the strength of such a presumption at the present time, when the parties to an action are competent witnesses, see per Lord Blackburn in Smith *v.* Chadwick (1884), 9 App. Cas. 196.

Sect. 536.

tion cannot be conclusive, so as to preclude evidence to the contrary (*b*), and prevent the application of the general principle that a fraud will not avoid a contract unless it has induced one of the parties to enter into the contract (*c*).

To avoid the policy, the loss need not be connected with the misrepresentation.

537. It is not necessary, in order to avoid the policy on the ground of misrepresentation, that the loss should have arisen from a cause connected with the fact or circumstance misrepresented. Thus, if the assured represent that the ship or goods are neutral property, and they are in fact the property of a belligerent, he shall not recover even for a loss occasioned by shipwreck, whether the mis-statement was made through mistake or from design to deceive (*d*).

Where no actual fraud, assured entitled to a return of premium.

If the policy be avoided by a mere misrepresentation without actual fraud, the assured is entitled to a return of premium. If, however, the representation was false within his own knowledge, and made with the intention to deceive, this fraud will disentitle him to a return of premium (*e*).

Positive representations subdivided into affirmative and promissory.

538. Positive representations have been subdivided into—1. Affirmative; 2. Promissory; the former averring the actual existence of the fact to which they relate, the latter that such fact shall or will thereafter exist (*f*).

Representations, though affirmative in form, may be promissory in effect.

This distinction, however, is often one more of form than substance, as in fact many positive representations, even when in terms affirmative, in effect are promissory. Thus where it is represented that a vessel is neutral, or has a licence to trade, or has a certain armament or a certain kind of cargo, the mere affirmation of these facts as existing at the time is unimportant; it is the implied promise that, as far as depends

(*b*) 1 Phillips, s. 540.

(*c*) Per Romilly, M. R., Pulsford *v.* Richards (1853), 17 Beav. 87, 96; per Jervis, C. J., Canham *v.* Barry (1855), 15 C. B. 597, 617; and see *post*, § 555.

(*d*) Per Holt, C. J., Skinner, R. 327; 1 Marshall, Ins. 452; 1 Park, Ins. 405.

(*e*) Mar. Ins. Act, 1906, s. 84 (1); *post*, §§ 1247a, 1256.

(*f*) See *post*, §§ 542—544, for a discussion of the doctrine of promissory representations.

Sect. 538.

on the assured, they shall be and continue unchanged throughout the duration of the risk, that alone gives value to the representation.

Thus, to take an instance in point. In the case of Pawson *v.* Watson (*g*) the representation made by the broker in effecting a policy on the ship was in these words:—"She mounts twelve guns and twenty men." Although affirmative in point of form, it is plain that this representation was promissory in its meaning; for when the policy was effected the ship, which, as appears by the report, did not sail for a month afterwards, had not a single gun or man on board; so that the representation, unless construed to refer to a future event, was false when made. The whole judgment of Lord Mansfield plainly shows that he took it to be, what undoubtedly it was, not a mere assertion of the actual force of the vessel at the time, but a stipulation that she would sail with the armament described on the voyage insured (*h*). Had the representation just stated been thus expressed:—"She is to (or 'She will') mount twelve guns and twenty men," it would have been an instance of a representation promissory in terms as well as in effect (*i*).

Is there any difference between a promissory and an affirmative representation?

539. It is an important question, whether there is any difference between an affirmative representation and a promissory representation, as to the ground on which, if false, they will avoid the policy? In other words, whether the positive misrepresentation of a future fact, material to the risks, will just as much avoid the policy, in the absence of actual fraud, as the positive misrepresentation of a past or existing fact equally material?

(*g*) *Ante*, § 530.

(*h*) See 2 Duer, 766, whose language Arnould adopted almost without a change.

(*i*) See the discussion, *post*, §§ 542—544. Even if the promise, express or implied, be not binding, the representation "She mounts twelve guns" may be considered to mean that this is her usual armament, and that it is expected that she will sail with it on the voyage insured. The representation "She will mount twelve guns" must at any rate be a representation of expectation or belief.

Sect. 539.

Opinion of Lord Tenterden.

It appears from the cases of Flinn *v.* Headlam (*k*) and Flinn *v.* Tobin (*l*), that Lord Tenterden was of opinion that this distinction exists. They were actions on the same policy, and the facts were that, to induce the underwriters to take a risk on a ship about to sail with a cargo of rock salt, the broker represented that the ship would only take fifty or sixty tons of rock salt, which would put her in light ballast trim. The ship sailed the day after the policy was signed, with 160 tons of rock salt on board, being a full and very heavy cargo. In the earlier action, Flinn *v.* Headlam, the counsel for the plaintiff contended that if the underwriters meant to insist upon it as part of the contract, that only a certain quantity of rock salt should be carried in the vessel, they should have had it inserted in the policy; and Lord Tenterden advised the jury to find for the defendant if they thought that a material representation was made by the broker as to the rock salt then actually on board, but to find for the plaintiff if they thought that the representation was as to the cargo expected to be shipped, or that the underwriter was not influenced by the representation (*m*). In the later case, Flinn *v.* Tobin, Lord Tenterden directed the jury that the defendant was not entitled to a verdict on the ground of a misrepresentation of the cargo which the ship was to carry, unless it was fraudulent. "The mere fact of a misrepresentation, without fraud," he said, "will not be enough to prevent the plaintiff's recovering; for the contract between the parties is the policy, which is in writing, and cannot be varied by parol."

(*k*) (1828), 9 B. & Cr. 693.

(*l*) (1829), 1 Mood. & Malk. 367. Arnould stated that Flinn *v.* Headlam was the later case, but this is a mistake. Flinn *v.* Headlam was tried in 1828, and a rule *nisi* for a new trial, obtained in Michaelmas term of that year, was discharged on the 4th July, 1829. Flinn *v.* Tobin was tried on the 27th July, 1829.

(*m*) A certificate of seaworthiness was produced to the underwriter, and a verdict for the assured was upheld by the Court of King's Bench on the ground that the jury were right if they thought that the underwriter relied on the certificate (see *infra*, § 555). The correctness of Lord Tenterden's ruling was not challenged.

Sect. 540.

Distinction between effect of affirmative and promissory representation seems untenable.

540. This distinction, however, even when confined to the sole case of promissory representations, seemed to Arnould to be opposed to the principles on which parol evidence of representation has been admitted in any case, and to be irreconcilable with express authorities of the greatest weight.

The principle on which the false affirmation of the actual or past existence of a material fact avoids the contract in cases where there is no actual fraud, is, that the underwriter only engaged to be liable upon the faith that such fact existed, so that the falsity of the statement is a breach of a condition precedent that the contract should be free from misrepresentation. It is evident that this principle must apply equally to the case in which the assured falsely, though not fraudulently, affirms, in positive terms, that some material fact shall or will hereafter exist; in this case the basis of the underwriter's liability is the future existence of the fact: the falsity of the positive statement, that the fact will exist, is as completely a breach of the condition on which he engaged to be liable, as the falsity of the statement that the fact had existed, or was existing; on principle, therefore, there seems no ground for this distinction, and it is also quite irreconcilable with previous authority (*n*).

Dennistoun *v.* Lillie.

541. Instead of citing all the cases which show that the doctrine of the Courts has been that representations strictly promissory, although made in good faith, must be substantially complied with in order to sustain the policy, a decision to this effect of the highest English tribunal, presided over by Lord Eldon, may suffice.

An insurance on ship and goods from Nassau (New Providence) to Clyde (in Scotland) was effected on the 18th June, 1814. On that occasion the broker showed the underwriters a letter, dated the 2nd April, and received by the owners the day before the policy was effected, in which it was stated,

(*n*) See Edwards *v.* Footner (1808), 1 Camp. 530; Dennistoun *v.* Lillie (1821), 3 Bligh, 202; see also the American cases to the same effect collected by Duer, 2 Ins. 741—743, 749—769.

Sect. 541.

"The Brilliant," the ship insured, "will sail on the 1st of May." In point of fact it turned out that the ship had sailed on the 23rd April, and on the 11th of May had been captured by an American privateer. These facts were wholly unknown to the parties by whom the representation was made.

At the trial of the appeal in the House of Lords, it was contended for the plaintiff that the statement of a future event, such as an intended day of sailing, could be no more than an expectation, and therefore could not avoid the policy, unless fraudulent.

Lord Eldon, however, held that the policy was avoided by the misrepresentation. "There is a difference," said Lord Eldon, "between the representation of an expectation and the representation of a fact. The former is immaterial, but the latter avoids the policy if the fact misrepresented be material to the risk" (*o*).

This case, then, has been generally regarded as an explicit authority for the position, that a positive promissory representation of a material fact will, if false, avoid the policy though no actual fraud can be alleged.

Edwards *v.* Footner.

So, where a representation was made some time before the ship sailed, to the effect that she "was to sail" with convoy and a certain armament, so that the representation was both promissory in its terms, and related to an actually future fact, Lord Ellenborough held, that not having been substantially complied with, it avoided the policy, though made without actual fraud (*p*).

Upon the authority of previous cases, then, the distinction assumed by Lord Tenterden appeared to Arnould to be untenable.

Arnould's conclusion.

It was therefore laid down by Arnould (*q*), as the conclusion to be safely derived from all the authorities, that the

(*o*) Dennistoun *v.* Lillie (1821), 3 Bligh, 202. The proceedings in the Scotch Courts are briefly reported in 1 Shaw's Appeal Cases, 22.
(*p*) Edwards *v.* Footner (1808), 1 Camp. 530.
(*q*) 2nd ed. p. 557.

positive representation of a future fact, material to the risks, will, if false, avoid the policy, though it may not be actually fraudulent. Sect. 541.

542. The view expressed in the text and the reasoning on which it is based have been reproduced from the earlier editions of this work. It is nevertheless desirable to point out that the general law relating to "representations of future facts" has been declared, since this work first appeared, to be different from the law as stated in the text. The later decisions (none of which, however, relates to marine insurance) are to the effect that what has been called a representation of a future fact (if anything more than an expression of intention or expectation) can only have legal effect as a contract or promise (*r*). "There is a clear difference," says Mellish, L. J., "between a misrepresentation in point of fact, a representation that something exists at that moment which does not exist, and a representation that something will be done in the future. Of course, a representation that something will be done in the future cannot either be true or false at the moment it is made, and although you may call it a representation, if it is anything, it is a contract or promise" (*s*). Regarded as a promise, a representation that something will be done seems to be an express term of the contract in the nature of a warranty, which ought therefore to be in writing, and either included in or incorporated by reference into the policy.

Promissory representations considered.

General law as to representations of future facts.

543. On the other hand, it will be said that the decision in Dennistoun *v.* Lillie, being one of the House of Lords, has definitely established a different rule with regard to contracts of marine insurance. It may, however, perhaps be argued that Dennistoun *v.* Lillie, which Arnould and Judge Duer

The English cases as to promissory representations.

Sect. 543.

both regarded as putting the matter beyond doubt, is not as clear an authority as they considered. The letter, though dated the 2nd of April, was not shown to the underwriters until the 18th of June, nearly two months after the ship had in fact sailed; and it may be possible to contend that inasmuch, as Lord Eldon said, the question was whether the representation was one "of an expectation or a statement as of a past fact" (*t*), he regarded the production of the letter by the broker on the 18th of June as a representation by him of an event which was then past, viz., that the ship had remained in port until the 1st of May. It does not, however, appear from the report that this was the point upon which the underwriters were relying; and the fact that Lord Eldon distinguished the case from Bowden *v.* Vaughan (*u*) (in which case the statement certainly related to a future event), on the ground that in Bowden *v.* Vaughan the policy was effected by the owner of the goods (who had no control over the event), strongly supports the view that his Lordship considered the representation one relating to a future, and not to a past, event.

Apart from Dennistoun *v.* Lillie, there is certainly authority in the English cases in support of the doctrine of promissory representations. Though the term "promissory representation" is not to be found in the reports, it has undoubtedly been decided in this country that a representation relating to a future event over which the assured has control will avoid the policy if it be not substantially satisfied (*x*); and it has also been decided that a representation which in terms relates to an existing fact, may, in effect, be promissory, and require that something shall be done or some state of things exist in the future. Thus, a representation that a ship is of a certain nationality has been held to imply

(*t*) 3 Bligh, 209. So, on p. 205, it appears that the judge admiral considered the letter as having held forth to the underwriters that the ship remained in harbour till the 1st of May.

Sect. 543.

an undertaking that she shall be documented as a ship of that nationality (*y*).

The American cases.

In the United States the validity of a promissory representation was clearly recognized in the earlier cases (*z*). In later cases a different view prevailed (*a*), and there are two cases, the earlier one on a marine policy, the later one on a fire policy, which are express decisions that such a representation is nothing more than a statement of intention or expectation, even when relating to something within the control of the assured (*b*). In the later case the doctrine of promissory representations was vigorously impugned by Chancellor Walworth, in a judgment of great ability, which, however, ignores most of the decisions opposed to his view. More recently, again, the existence of promissory representations has been recognized (*c*). The whole subject is discussed at great length by Duer, who after an examination of the authorities upholds the validity of promissory representations (*d*). This view is also shared by Phillips (*e*), and by Marshall (*f*), to whom the use of the term "promissory representation" seems to be due.

Conclusion.

544. Apart from any argument to be derived from the provisions of the Marine Insurance Act, 1906, the result

Sect. 544.

seems to be that, unless Dennistoun *v.* Lillie is a sufficiently clear authority to establish the doctrine of promissory representations in relation to marine insurance, the question is one which must be considered an open one. On the one hand it may be argued that there is no authority or reason for saying that the law as to representations is not the same with respect to contracts of marine insurance as it is with respect to other contracts; *i.e.*, that no representation other than a representation relating to an existing fact can have any effect on the contract, and that when it is sought to give such effect to any statement relating to the future, it can only be by showing that such statement amounts to a warranty, and as such is properly incorporated into the formal contract.

On the other hand it may be said that the general rules of law relating to representations do not necessarily apply to contracts of marine insurance. The law on the latter subject has been developed at common law without reference to the decisions which have been given in relation to other contracts, and it cannot be disputed that in some respects, *e.g.*, the materiality of a misrepresentation, the law as to marine insurance differs widely from the general law. The cases other than Dennistoun *v.* Lillie are of course open to review; but some weight must be given to the fact that for the greater part of a century the rule embodied in them has been recognized by most, if not all, textwriters of authority. From the nature of the contract and the circumstances under which it is effected, the representations made to the underwriter have necessarily a special importance. This may be a reason for upholding the rule that when a representation relates to a future event within the control of the assured, there is an implied condition that the representation shall be substantially satisfied.

The provisions of sect. 20 of the Marine Insurance Act, 1906 (*g*), however, seem to be inconsistent with the doctrine

(*g*) *Ante*, § 522.

Sect. 544.

of promissory representations. The classification of representations in the third sub-section, which was apparently intended to be exhaustive, ignores them. For it seems difficult to call a representation of this nature one as to a matter of fact—an expression which is properly applied to existing facts, and not to things which are not facts in the present, but may become so in the future. Moreover, the wording of sub-sect. 4 points to facts, of which the present truth or falsity can be predicated. Nor is a promissory representation, as such, a representation as to a matter of expectation or belief, which satisfies the requirements of the law if made in good faith (*h*). It seems probable, therefore, that the law as laid down in Jorden *v.* Money (*i*) now applies to contracts of marine insurance, as it does to other contracts, and that the doctrine of promissory representations, whatever foundation there may have been for it before the Act, has ceased to exist since the Act came into force (*k*).

Distinction between positive promissory representations, and statements of expectation.

545. There is a great distinction to be drawn between such positive promissory representations and those representations of belief or expectation, which we have placed in a distinct class, and come now in the course of the inquiry to consider. The former are positive statements that certain material facts shall or will exist; the latter are merely expressions of an expectation or belief that they either will or do exist. The former, if binding under the existing law, involve a stipulation that unless facts take place substantially corresponding with those specified the underwriter shall not be liable on the policy; the latter imply no stipulation of the kind, and their falsification accordingly can only avoid the policy in cases of actual fraud (*l*).

(*h*) See § 545.

(*i*) *Ante*, § 542.

(*k*) This is also the opinion of Mr. Arthur Cohen: Laws of England, vol. xvii. § 808.

(*l*) A view of the nature of a representation as to expectation, belief, or intention, for which there is high judicial authority, is that

Sect. 545.

Accordingly it is expressly provided by the Marine Insurance Act (*m*) that "a representation as to a matter of expectation or belief is true if it be made in good faith."

When false statements of expectation avoid the policy.

A moment's consideration will show that this distinction is well founded. If a man assures me positively that certain events over which he has a control, and without which I should decline entering into the contract with him, shall take place in a given way, and I enter into the contract on the faith of that positive assurance, I may fairly be entitled to contend that such statement must substantially be made good in order to make me liable on such contract. If, however, he merely tells me that he believes or expects that such events will happen in a certain way, and I choose to enter into the contract upon the mere chance of such belief or expectation turning out well founded, I have no right to be released from my contract on its proving fallacious, for its failure was a contingency which I ought to have contemplated on entering into my contract. If, indeed, I can show that, with a design to deceive me, he represented himself as expecting or believing that which he knew at the time to be impossible or untrue, and thereby influenced me, I shall be released from my contract on the ground of this his actual fraud.

such a representation is one of fact; that fact relating, however, not to the subject-matter of the expectation, but to the condition of mind of the person making the statement. Thus, if I say "I expect or believe" that a certain state of facts does or will exist, though it is true that I do not make any statement as to the actual or future existence of such facts, I may be said to make an affirmative representation as to the present condition of my mind. See per Bowen, L. J., in Edgington *v.* Fitzmaurice (1885), 29 Ch. D. 459, 483. On this view, it is unnecessary to make a distinction between a representation of an existing fact and one of belief, and the statement that the element of fraud must also be present in order to invalidate a contract on account of a false representation of belief is also superfluous, for it is impossible to make a false representation as to one's own belief without at the same time being conscious that the representation is false. Therefore, when the representation is regarded as one of an existing fact (*i.e.*, the state of a man's mind), it is evident that there must almost of necessity be fraud, when the representation is false.

(*m*) Sect. 20, sub-sect. (5), *ante*, § 522.

Sect. 546.

Statement made without knowledge whether true or false.

546. The result would appear to be the same if, with the intention to deceive me, he stated his belief or expectation of that with regard to the possibility or truth of which he knows nothing either one way or the other (*n*).

Thus, if with the intention to deceive, the owner of a ship states to the underwriter that he believes the ship to be neutral, knowing nothing on the subject, and having no reason to believe either way, the better opinion would seem to be, that this representation, if false, would avoid the policy (*o*).

It has this effect, however, only when made with the intention to deceive. Thus, where a broker employed to effect a policy on certain ships engaged in the African trade represented that they were "expected to leave the coast of Africa in November or December," when, in fact, they had all left in May: this, though material to the risk, yet, not having been made fraudulently, was held not to be a representation, but a mere expectation, into the grounds of which the underwriter ought to have inquired before he relied on it (*p*).

When positive statement considered only an expression of expectation.

547. When it is evident from the position of the parties and all the circumstances of the case, that a statement, though in terms a direct and positive assertion, must, in fact, be regarded as a mere expression of expectation or belief, or opinion, it will be so construed.

If, for instance, the owner of a ship, meaning to deceive, were to state that he believed, or expected, she would sail long after, or long before, some day on which she had actually sailed, this misrepresentation would, doubtless, be held to

(*n*) Per Maule, J., Evans *v.* Edmonds (1853), 13 C. B. 777, 785; see also Derry *v.* Peek (1889), 14 App. Cas. 337.

(*o*) Lord Mansfield in Pawson *v.* Watson (1778), 2 Cowp. 787, laid down the contrary; but the observations of Maule, J. (*ubi supra*), of Marshall (Ins. 453), and of Duer (2 Ins. 710, 711), seem unanswerable in favour of the other view.

(*p*) Barber *v.* Fletcher (1779), 1 Dougl. 306. It appears from the report that there was no allegation of actual fraud. See also the remarks made on this case by Bayley, J., in Bridges *v.* Hunter (1813), 1 M. & S. 15.

Sect. 547.

avoid the policy; if, however, the owner of goods intended to be embarked on board the same ship were to make a similar statement, as to the time of the ship's sailing, without knowledge either the one way or the other, such statement ought to be looked upon as totally immaterial; for, coming from such a quarter, the underwriter must have received it as the mere expression of an opinion, and if he meant to act upon it, was bound to inquire into the grounds upon which it was founded (*q*). This principle has been extended to cases in which the statement is, on the face of it, a positive promissory representation or explicit engagement for the existence of future facts, where made in the absence of fraud by parties who have no interest in the subject, or control over the event, to which the statement refers.

Cases in illustration.

548. Thus, where a broker, employed to effect a policy on goods for a party who had no interest in the ship, represented that "the ship," which was then at Lisbon, "was to sail in a few days," and the ship did not, in fact, sail for a month, Lord Ellenborough and the Court of King's Bench held that this statement, though material to the risks, having been made by the owner of the goods, who had no control over the time of the ship's sailing, must be regarded merely as the expression of a probable expectation, which, as it appeared to have been made *bonâ fide*, could not avoid the policy (*r*).

Bowden *v.* Vaughan.

Hubbard *v.* Glover.

A broker employed to procure an insurance on a ship, for a homeward voyage from St. Petersburg or Cronstadt to London, in order to induce the underwriter to take the insurance as a summer risk, told him, on the 13th of June, just before the policy was effected: "The ship has sailed some time (*i.e.*, from London), and must now be at Gottenburg. There is a cargo ready for her (*i.e.*, at Cronstadt), and she is sure to be an early ship." The ship in fact did happen to be at Gottenburg when this statement was made, but at Cronstadt found no cargo ready for her; and in consequence of the delay thus caused, did not begin her voyage from Cronstadt to London till after the winter risk had begun. Lord Ellenborough held that this did not avoid the policy, as the statement must have been understood by the underwriters to mean nothing more than that a cargo had been ordered, and the expression of a probable belief that it would be ready for the ship at Cronstadt, so that she might be expected to be an early ship (*s*).

(*q*) Duer on Representations, 95—97; 2 Duer, Ins. p. 664.
(*r*) Bowden *v.* Vaughan (1809), 10 East, 415.

Sect. 548.

549. This principle of decision applies *à fortiori* where it appears from the terms in which the statement is made that the broker cannot intend it to be taken as a positive assertion of the existence of a fact within his own knowledge. Where a broker, employed to effect an insurance on a ship "at and from Messina to her port or ports of discharge in the Channel," stated to the underwriter, at the time of effecting the policy, "that the ship was then (28th June) either near Messina or at Messina, or on her homeward voyage"; and it turned out in fact that the ship, although she had sailed from London a fortnight before this statement was made, yet had not sailed from Falmouth till two days after it (*i.e.*, on 30th June): Gibbs, C. J., held at the trial, and the Court of Common Pleas confirmed his decision, that this was not a positive representation, but merely the expression of an opinion formed by the broker from knowing the time at which the ship had sailed from London; and therefore, although if he had stated it positively as a fact, it might have bound the assured to a substantial compliance; yet, as he merely stated the ship to be in one of three situations, and did not allege specifically in which, that the very form of the statement showed that it was merely to be taken as a computation, which, though erroneous, could not avoid the policy in the absence of fraud (*t*).

Statements which from their terms were intended to be only of expectation or belief.

Brine *v.* Featherstone.

(*s*) Hubbard *v.* Glover (1812), 3 Camp. 313. It is submitted that, with the modern means of communication, a statement that there was a cargo ready would generally not be held to be a mere expression of belief.

(*t*) Brine *v.* Featherstone (1813), 4 Taunt. 869. In other words, the

Sect. 549.

Anderson *v.* Pacific, &c. Ins. Co.

At the time of effecting a policy on the freight of the "Clarendon" "from Belize to Rendez-vous Point, thence back to Belize, and thence to London," Rendez-vous Point being unknown to either of the parties, the master's letter was shown to the underwriter containing this passage:—"It is considered by the pilot here as a good and safe anchorage, and well sheltered. I have been out and seen the place, and consider it quite safe." It was proved on the trial that Rendez-vous Point was a dangerous place for a vessel to anchor during the hurricane months; but the jury found that the pilot and master considered it was not dangerous, and a verdict was thereupon directed for the plaintiffs.

On a motion for a new trial the Court of Common Pleas refused to grant a rule. Willes, J., said: "There is no doubt that a material misrepresentation, though perfectly honest at the time, made with the intent that it should be acted on by the assurer, and which has led to the policy being granted, will defeat the policy." The question, however, continued the learned judge, was whether the statement in question amounted to an absolute statement of fact, or only to a statement of opinion. If the latter, it might be, if the opinion was one which the writer of the letter really did not entertain—a conclusion which the jury would easily have arrived at, if they thought no person could honestly have entertained such a belief—that the assured would be bound. But the jury had found that it was an opinion honestly formed. The learned judge ended by saying that the words did not amount to an absolute statement of a fact, the effect of them being that it was considered by the pilot a safe place, and that from information received from the pilot and from his own inspection, the master also considered it quite safe. Therefore, fraud being out of the question, there was no misrepresentation (*u*).

representation was considered to relate only to the broker's general belief; and it was not shown that he had said he believed anything which he had not in fact believed.

(*u*) Anderson v. Pacific Fire and Marine Ins. Co. (1872), L. R. 7 C. P. 65.

Sect. 550.

Positive misstatements, merely wrong inferences from facts truly communicated, will avoid the policy. M'Dowell *v.* Fraser.

550. If, however, the form of statement be positive (there being nothing in the circumstances to show that it was not so intended), then, although the error may merely consist in a wrong computation from facts truly communicated, the positive nature of the statement will tie the assured down to a substantial compliance, and its falsehood, in fact, will avoid the policy.

Thus a broker, having been informed that a ship was seen in the Delaware five days after she had sailed from New York, understood this to mean, as by the usage of mercantile men it well might, five days after she had sailed from Sandy Hook, which he knew to have been on the 6th of December, and he consequently stated as a positive fact that the ship "was seen safe in the Delaware on the 11th of December"; this was held to be a representation which must be substantially complied with, although it was shown to be a mere mistake arising from the fact that the party giving the information to the broker meant that he had seen the ship five days after she had sailed, not from Sandy Hook, but from New York quay, which was some days previously (*x*).

Ground of distinction between these cases.

551. The ground of distinction between these two classes of cases is, that from the one mode of statement the underwriter must necessarily have inferred that the assured did not mean to affirm the fact positively; and from the other he must equally have inferred that he did. In cases of the former kind the underwriter ought not, as a cautious man, to take the risk without inquiring into the grounds of the assured's expectation, belief, or opinion; otherwise the law presumes that he relies and acts exclusively on his own judgment, and he has no right to complain of the consequences of having done so.

Statements professedly founded on information.

552. A third class (*y*) of representations consists of those in which the assured neither states positively the actual or

(*x*) M'Dowell *v.* Fraser (1779), 1 Dougl. 260.

(*y*) For the classification of representations, see *ante*, § 527.

Sect. 552.

future existence of a fact, nor his belief or expectation of its existence; but either (1) Qualifies his statement by adding that it is made on the information of others; or (2) Merely submits the information in its whole extent to the underwriters, leaving them to draw their own conclusions from it (*z*).

What compliance therewith necessary.

In these cases the assured is bound, not to any substantial compliance with the statement made, but only to show that such statement corresponded with the information he really received; in other words, he is not answerable for the truth of the facts, but only for the truth with which he has stated the information received.

Responsibility of the assured for information derived from his agent.

553. If, however, the information so communicated by the assured to the underwriter proceeds from an agent of the assured, whose duty it was to give the intelligence (*a*), the assured is just as responsible for the truth of the information as he would be for the truth of a positive representation made by himself of the same facts. The principle here is, that what is known to the agent is impliedly known to the principal (*b*).

The following case illustrates this principle:—

Fitzherbert *v.* Mather.

Thomas, a corn-factor at Hartland (in Devonshire), shipped by order a cargo of oats on the 16th September to a consignee at Portsmouth on account of the assured. The same day he wrote to an agent of the assured at Poole stating

(*z*) 2 Duer, Ins. 707.

(*a*) In Blackburn *v.* Vigors (1886), 17 Q. B. D. at p. 563, Lord Esher said that the agent "whose duty it was to give the intelligence" means in this context "the agent who effects the insurance." The editors, however, consider that this passage clearly means, as taken literally it ought to mean, that if the assured submits to the underwriter information received from an agent whose duty it is to keep him informed, he is responsible for any misrepresentation contained in that information. In this sense the rule is analogous to that laid down by the House of Lords in the same case in relation to concealment. See next chapter, "Concealment." Lord Esher, it may be noticed, thought that no agent was under a duty to keep his principal informed as to the matters affecting the subject of the insurance.

(*b*) See Blackburn *v.* Vigors (1887), 12 App. Cas. 531.

Sect. 553.

that he had that morning shipped the oats, that the ship had sailed immediately, but that he was afraid the wind was coming from the westward and would force her back: he also the same day wrote to the same effect to another agent of the assured in London, adding these words:—"I wish the whole safe to hand. This evening appears stormy." These letters, though written on the 16th, did not by the then course of post leave Hartland till 1 P.M. on the 17th, early on the morning of which day Thomas knew of the loss of the ship, which had been driven back by the wind and wrecked on the night of the 16th off Hartland Pier. He, however, sent no further information to the London agent, who, having on the 20th received the letter which left Hartland on the 17th, and also an order from the assured to procure an insurance, submitted these letters to the underwriters as his instructions, and upon them procured a policy to be effected on the oats, "lost or not lost, from Hartland to Portsmouth."

The Court held that the policy was void on the ground of misrepresentation. The assured himself was innocent, yet as he had built his information on that of his agent (Thomas), and the agent had been guilty of misrepresentation, the assured himself ought to suffer for it. "This policy," said Lord Mansfield, "was effected by misrepresentation, because the underwriter was warranted on the information of the agent (*i.e.*, Thomas) to take for granted that on the 17th of September, at 12 or 1 o'clock" (the usual post-time at Hartland was about 1 or 2 o'clock), "the ship was safe; for the agent gave an account of the ship being loaded, and said nothing of what had happened to her. Then there was strong ground to believe, on this letter, that she was safe when the post came away" (*c*).

(*c*) Fitzherbert *v.* Mather (1785), 1 T. R. 12, 15. See per Buller, J., *ibid.* 16:—"According to plaintiff's letter, the insurance was not to be made till Thomas's letter arrived; it was therefore the foundation of the insurance." The editors submit that the agent was guilty not of misrepresentation (for what he wrote was true at the time), but of concealment in not sending news of the loss to supplement his letter.

Sect. 553.

Misrepresentation or concealment by the master.

As long as the master is acting as agent for the owner in his general capacity as master, so long it is his legal duty to communicate and truly represent all material facts connected with the ship; and his fraud or neglect in the discharge of that his duty, if it have operated, in fact, to mislead the underwriter, will avoid the contract as much as a concealment or misrepresentation by the assured himself (*d*).

What representations are material. Test of materiality.

554. As we have already seen, when no actual fraud can be imputed, a representation, although false, will not avoid the policy unless it be material (*e*). It becomes important, therefore, to inquire what it is that makes a representation material. Every representation is deemed to be material which is of such a nature as would be likely to induce a prudent underwriter to take the risk, or to take it at a lower premium than he otherwise would. The test of materiality is the probable effect which the statement might naturally and reasonably be expected to produce on the mind of an underwriter (*f*). Thus the Marine Insurance Act, 1906,

The principle, however, which Arnould rests on this case is not affected by this criticism.

(*d*) Gladstone *v.* King (1813), 1 M. & S. 35. Phillips (vol. i. p. 341, 2nd ed.) cited the American case of Ruggles *v.* General Interest Ins. (1827), 12 Wheaton, S. C. R. 408, as *contra;* but Judge Duer satisfactorily shows that no such doctrine can fairly be deduced from the case cited, 2 Ins. 791—796. Phillips (Ins. s. 549) states his position thus: "A policy made under an essential misunderstanding by both of the parties, into which they are purposely and fraudulently led by a third, whether he be agent of both, or one, or neither, is void." This proposition, however, is criticized by Lord Esher in Blackburn *v.* Vigors, 17 Q. B. D. at p. 564; and see also the same case in the House of Lords (1887), 12 App. Cas. 531.

(*e*) As to the effect of a fraudulent but immaterial misrepresentation, see *ante*, § 536; *post*, § 558.

(*f*) This is substantially Maclachlan's definition of materiality, which agrees with those of Marshall (1 Ins. 449), of Phillips (1 Ins. ss. 524—526), and of the Marine Insurance Act. Arnould says (2nd ed. vol. i. p. 565): "Every representation is to be deemed material which there is just reason to believe either determined the underwriter to insure, or influenced his estimate of the premium." He continues: "The test of materiality is the probable influence of the statement made on the mind of the underwriter. It is not absolutely necessary that the fact

Sect. 554.

provides (*g*) that "a representation is material which would influence the judgment of a prudent insurer in fixing the premium, or determining whether he will take the risk."

A misrepresentation may be material, though it has no direct bearing on the state or condition of the subject of the proposed insurance. For this rule Arnould cited Sibbald *v.* Hill (*h*). In that case a merchant induced an underwriter at Leith to effect insurances at eight guineas per cent. by representing that this was the premium which he had given for insurances on the same risk at London, whereas the premiums which he had in fact paid were from fifteen to twenty-five guineas. The House of Lords, on the motion of Lord Eldon, held that the policy was vitiated by the misrepresentation. Sibbald *v.* Hill was clearly a case of fraud (*i*), and may therefore not be a conclusive authority for cases of innocent misrepresentation (*k*). Nevertheless, the correctness of Arnould's statement is confirmed by the definition of materiality in sect. 20 (2) of the Marine Insurance Act, 1906 (*l*), and by the decisions on the question of materiality in relation to concealment (*m*).

represented should have any direct bearing on the state or condition of the subject of the proposed insurance: it is sufficient that it either in fact did exert, or may reasonably be presumed to have exerted, an influence over the mind of the underwriter in determining him to assume a responsibility he would not otherwise have undertaken." This statement agrees with Judge Duer's view. Mar. Ins. vol. ii. p. 680. The difference between the two definitions is that according to Arnould and Duer a perfectly innocent misrepresentation of a matter which underwriters in general would consider unimportant would avoid the policy, if the particular underwriter could convince the jury that it had in fact influenced his mind. The Mar. Ins. Act, however, leaves no room for any further doubt upon the point.

(*g*) Sect. 20, sub-sect. 2.

(*h*) (1814), 2 Dow, 263.

(*i*) See, however, the judgment of Brett, L. J., in Rivaz *v.* Gerussi (1880), 6 Q. B. D. at p. 229.

(*l*) *Ante*, § 522.

(*m*) See *post*, § 589.

Sect. 555.

A misrepresentation which did not influence the underwriter will not avoid the policy.

555. Even where the representation is of material facts, yet it was Arnould's view that if it satisfactorily appears that it did not influence the judgment of the underwriter, its falsity will be held not to avoid the policy. Thus, where the fact stated was "that the vessel would only carry as much rock salt as would put her in ballast trim," but it appeared that a certificate of the ship's fitness to proceed on her voyage with a cargo of rock salt was shown to the underwriters before they signed the policy, Lord Tenterden told the jury to consider whether the underwriter was guided by the certificate or the representation, and the jury, under this direction, having found for the assured, saying they thought the representation was not material, the Court of King's Bench, on motion for a new trial, refused to disturb the verdict (*n*).

When there is a presumption that the underwriter was influenced by a

Some facts there are which have so plain and direct a bearing on the estimate of the risk that a misrepresentation as to any of them will, in all cases, avoid the policy, unless

(*n*) Flinn *v.* Headlam (1829), 9 B. & Cr. 693. The facts of this case are somewhat inadequately stated in the report, and are partly to be gathered from the report of the case of Flinn *v.* Tobin (an action on the same policy) in M. & M. 367. The jury, in finding that the representation was not material, must have meant that under the circumstances it had not in fact influenced the mind of the underwriter. Taken by itself, it was clearly material in the sense which this word is now recognized to bear in marine insurance law. Phillips (Ins. s. 681) criticizes the decision, and is of opinion that the assured cannot be allowed to prove that a material misrepresentation did not influence the underwriter; but his definition of materiality is different from that now established in this country. See Phillips, Ins. s. 524. The editors submit that the rule stated by Arnould is correct, although the evidence in Flinn *v.* Headlam may not have justified its application. The Mar. Ins. Act, however, if the language used in sect. 20, sub-sect. 1, is construed literally, supports Phillips' view; and there is a passage in the judgment of Vaughan Williams, L. J., in Cantiere Meccanico Brindisino *v.* Janson, [1912] 3 K. B. at p. 460, citing an opinion of Scrutton, J., which apparently favours this construction of the Act. But the decision of the case did not turn upon this point, and such a construction involves an anomalous state of the law. For it is clear that, apart from marine insurance, even a fraudulent misrepresentation gives no right to rescind a contract, when it has not influenced the party to whom it was made. See *ante*, § 536. Mr. Arthur Cohen supports the editors' submission: Laws of England, vol. xvii. § 809.

Sect. 555. misrepresentation.

the assured can show to the satisfaction of the jury that the judgment of the underwriter was not, under the circumstances, influenced by the misrepresentation.

Thus, positive representations of the day on which the ship has sailed (*o*), or on which she was last seen in safety (*p*), of the kind of armament she is fitted out with, the number of men with which she is manned (*q*), her age (*r*), and the nature of the cargo she is to carry (*s*), being all of them statements of facts manifestly material to the risk, and almost necessarily affecting the underwriter's estimate of it, will, if false, avoid the policy, unless the assured can show conclusively that the underwriter was not in fact influenced by them. In the absence of such proof the presumption is the contrary, and against the policy (*t*). In Scotland it has been held that a representation, in effecting a time policy, that a particular voyage was contemplated, was immaterial, as under the policy the assured could at will change the destination of the ship (*u*).

Representations made in answer to questions.

The circumstance that a representation relates to facts which, though material to the risk, the assured is not bound to disclose, as the age, structure or condition of the vessel, and generally all those points which are included in the warranty of seaworthiness (*x*), will not prevent its avoiding the policy, if not substantially true, when it is made in answer to inquiries by the underwriter.

According to Phillips, the question of materiality cannot

Sect. 555.

be raised when a representation is made in answer to an inquiry. "A party," he says, "in making a contract has a right to the advantage of his own judgment of what is material; and if, by making specific inquiry, he implies that he considers a fact to be so, the other party is bound to it as such" (*y*). The fact of the inquiry being made is clear evidence that the representation has influenced the mind of the underwriter. Yet when the inquiry relates to a matter which is not material (in the sense in which "material" has been defined), it may be doubted whether an honest, though inaccurate, answer will give him the right to avoid the policy (*z*).

Misrepresentation of contents of Lloyd's lists.

556. Although underwriters at Lloyd's are generally presumed to know the contents of Lloyd's lists (*a*), a positive misrepresentation of a fact material to the risk, the truth as to which may be ascertained by merely referring to Lloyd's lists, will be held to avoid the policy unless distinct proof can be adduced that the underwriter actually did inspect the lists. The presumption is that he relied upon such representation, and not upon the lists (*b*).

Rate of premium as a test of materiality.

Where the facts represented are not thus manifestly material to the risk, a presumption as to the materiality of the representation may be founded on the rate of premium. If the premium is much lower than is required in the absence of such representation, the fair presumption is that the representation induced the underwriter to take the risk at the lower

(*y*) 1 Phillips, Ins. s. 542. See Kerr *v.* Union Marine Ins. Co. (1904), 130 Fed. R. 415.

(*z*) See per Lord Esher in The Bedouin, [1894] P. 1, 12:—"If he (*i.e.*, the assured) is asked a question—whether a material fact or not—by the underwriters, he must answer it truly. If he answers it falsely, *with intent to deceive*, though it may not be a material fact, it will vitiate the policy."

(*a*) See *ante*, § 77; *post*, §§ 614—616.

premium; if the premium were higher than, or the same as, usual, the presumption would be the other way (*c*). Sect. 556.

Materiality a question for the jury.

557. "Whether a particular representation be material or not is, in each case, a question of fact" (*d*), a question which falls exclusively within the province of a jury (*e*). Whether the jury, in forming their judgment on this point, are to be left to draw their conclusions simply from the facts, or to be aided by the opinions of witnesses of experience and skill, such as underwriters, insurance brokers, and merchants, is a point on which the authorities are not agreed. This point will be dealt with in the chapter on "Concealment" (*f*).

Whether evidence of skilled witnesses admissible.

What amounts to a substantial compliance with a representation.

558. We proceed now to inquire when a representation will be regarded as falsified by fact.

It is provided by the Marine Insurance Act, 1906 (*g*), that "a representation as to a matter of fact is true, if it be substantially correct, that is to say, if the difference between what is represented and what is actually correct would not be considered material by a prudent insurer." Also that "a representation as to a matter of expectation or belief is true if it be made in good faith" (*h*).

A representation may in general terms be said to be falsified where the facts to which it relates turn out not to correspond with the statements or stipulations it contains.

In case of fraud any variance may avoid the policy.

If the representation be made with the intent to deceive, any want of correspondence between the facts as they occur and the facts as stated, however trivial, or however immaterial to the nature of the risk, will avoid the policy, on the

(*f*) *Post*, § 626.

(*g*) Sect. 20, sub-sects. 4, 5.

(*h*) See *ante*, §§ 545, 546.

Sect. 558.

ground of actual fraud (*i*), unless it be clearly proved that the representation did not influence the underwriter (*k*).

Thus, to take a case put by Judge Duer: Suppose the owner of a vessel insured "at and from" a foreign port has intelligence of her sailing, and also that a certain number of her crew had died since the commencement of the voyage, if he states truly the fact and time of her sailing, but yet, fearing the effect of the whole truth on the mind of the underwriter, represents the number of deaths to be fewer than he knows to have occurred, then, although the remaining crew may still be abundantly competent to perform the voyage, and the misrepresentation consequently be immaterial to the risk, yet this falsity of statement, being intentional, will avoid the policy (*l*).

In the absence of fraud only a substantial compliance with the representation is required.

559. In cases, however, where there is no actual fraud, the rule is different. The result of all the cases is that, although a warranty, being in terms written on the face of the policy, will avoid it unless fulfilled to the letter, yet a representation, forming no part of the policy, will, in the absence of actual fraud, be satisfied by a substantial compliance, and will not be deemed falsified unless departed from in some material point. In the words of Lord Mansfield, "A representation may be equitably and substantially answered, but a warranty must be strictly complied with" (*m*).

Thus, to take an illustration from a case already more than once referred to, where the representation made as to the ship was, "she mounts twelve guns and twenty men," and it turned out that the ship, in fact, had on board only nine

(*i*) According to Duer, the presumption that the insurer was induced by the falsehood to enter into the contract should prevail in all cases, except where it is apparent that had the truth been known in its whole extent, it could not possibly have varied the terms of the contract; and where the misrepresentation is intentional, such a case can hardly be expected to occur. The underwriter is entitled to the benefit of any uncertainty. 2 Duer, Ins. 692, 693.

(*k*) See *ante*, § 555.

(*l*) 2 Duer, Ins. 692.

(*m*) De Hahn *v.* Hartley (1786), 1 T. R. 345.

Sect. 559.

carriage-guns and sixteen men, yet, as she had also on board six swivels and nine boys, and as it was satisfactorily proved that with this force she was stronger than she would have been with twelve carriage-guns and twenty men, Lord Mansfield held that there had been a substantial compliance with the representation, *i.e.*, no such falsification of it as to avoid the policy (*n*). Had these same words been inserted in the policy as a warranty, the policy would have been avoided by her carrying one man or one gun less than the exact number specified.

So if a ship which is only represented as neutral, and which, in fact, belongs to a neutral state, be documented and navigated according to its laws, condemnation for breach of neutrality will not avoid the policy, though it would be otherwise if she were warranted neutral (*o*).

A statement that a vessel had been last metalled in 1867 was held to be substantially true, where the bottom had been then overhauled and new metal put on where required, so that the bottom was in as good a state as if it had been entirely re-metalled (*p*).

Wherever, in fact, there is no intention to deceive, the falsity of the representation, in order to avoid the policy, must produce such an alteration of the risk represented to the underwriter, as to lead to the reasonable conclusion, that, had the truth been known, he would either not have signed the policy at all, or would have asked a higher premium for so doing. If, upon the whole of the evidence, it appears doubtful whether such would be the effect of the non-correspondence of the facts with the statement, the assured is

(*n*) Pawson *v.* Watson (1778), 2 Cowp. 785.

(*o*) Von Tungeln *v.* Dubois (1809), 2 Camp. 151; see also Nonnen *v.* Kettlewell (1812), 16 East, 176; where the same point was determined in a case where the assured had represented that his property was neutral, but refused to warrant it as such. See also Christian *v.* Ditchell (1797), Peake's Additional Cases, 141, as to what will satisfy a representation that ship is to sail with convoy.

(*p*) Alexander *v.* Campbell (1872), 41 L. J. Ch. 478.

Sect. 559.

entitled to the benefit of the doubt, and the policy shall stand in force (*q*).

Representations require more or less strict compliance according to their nature.

560. Under this rule different degrees of strictness in compliance will be required in case of different representations. For instance, positive representations, with regard to the time of the ship's sailing, where that fact is material to the risk, must be complied with almost as literally as express warranties to the same effect. In the case of sailing vessels, the smallest difference is often very material, as in the case mentioned by Lord Ellenborough, of two vessels, "one of which sailed to Nova Scotia and back before the other had made any material progress in her voyage, only from the advantage of having a few hours' start" (*r*).

Hence, where in an assurance "at and from," the broker's instructions stated the ship to be ready to sail on the 24th of the month, and the broker represented the ship to be in port when in fact she had sailed on the 23rd, this was held such a falsity as to avoid the policy (*s*). So where the representation was that the ship "will sail in the month of October," which by the usage of trade was shown to mean "between the 25th of October and the 1st or 2nd of November," and the ship, in fact, sailed on the 11th of October, this was held fatal to the policy (*t*). So where the broker, proceeding on a false computation founded on a misconception of intelligence truly communicated to him, stated to the underwriter that the ship "was seen safe in the Delaware on the 11th," whereas, in fact, she had been taken on the 9th, this was held such a misrepresentation as to avoid the policy (*u*).

(*q*) Where there is actual fraud, the presumption, according to Duer, is the other way: see *ante*, § 558, note (*i*).

(*r*) In Kirby *v.* Smith (1818), 1 B. & Ald. 672, 674.

(*s*) Fillis *v.* Brutton (1782), 1 Park, Ins. 414; 1 Marshall, Ins. 462, 465.

(*t*) Chaurand *v.* Angerstein (1791), Peake, N. P. 43.

(*u*) M'Dowell *v.* Fraser (1779), 1 Dougl. 260. And see the principle of the above cases further illustrated in that of Arnot *v.* Stewart (1817), 5 Dow, 274.

Sect. 560.

Where, however, it appears reasonable to conclude, from the whole circumstances of the case, that the failure to comply with the strict terms of the representation has not substantially altered the nature of the risk, as described in the policy, such non-compliance will not discharge the underwriter's contract (*x*).

Underwriter signing a policy inconsistent with representation waives compliance therewith.

561. Moreover, if the underwriter subscribe a policy, inconsistent in its terms with those of a representation made to him before doing so, he waives his right to require a substantial compliance with the representation, or to insist on a failure therein as avoiding the policy (*y*).

A representation may be withdrawn before the contract is concluded.

A representation may be withdrawn or corrected at any time before the contract is concluded, either expressly, by a declaration from the assured to the underwriters that he was mistaken or will not be held to a compliance with the representation, or impliedly, by a subsequent qualifying or controlling statement (*z*).

Does a representation falsified in all cases avoid the insurance *ab initio?*

562. If the representation relates to a fact, the existence of which is to precede the commencement of the risk, its substantial truth when the policy attaches is indispensable; and if then false the policy will be avoided. If, however, the representation promises either expressly or impliedly that certain facts shall continue to exist, as where it states that the vessel is provided with a certain armament, is neutral,

(*x*) Bize *v.* Fletcher (1779), 1 Dougl. 12, n., 284.

(*y*) *Ibid.*

(*z*) Mar. Ins. Act, 1906, s. 20, sub-s. 6; Carter *v.* Boehm (1766), 3 Burr. 1905; Dawson *v.* Atty (1806), 7 East, 367; Edwards *v.* Footner (1808), 1 Camp. 530. Dawson *v.* Atty, says Maclachlan (Arnould, 6th ed. p. 543), is a remarkable decision, as there was nothing to qualify or cancel the first statement. Lord Ellenborough, however, continued of the same mind when Edwards *v.* Footner was before him, and this case was referred to and approved of by him. In Kerr *v.* Union Marine Ins. Co. (1904), 130 Fed. R. 415, the Circuit Court of Appeals held that a representation that a ship had not sailed, made more than a month before the policy was effected, was in the circumstances not only material, but also a continuing representation, and that as it had not been corrected, the policy was avoided.

Sect. 562. &c., and this promissory representation is falsified by facts arising subsequently to the policy having attached (*a*), Judge Duer thinks, by analogy to the doctrine which prevails in the case of warranties (*b*), that this will not relate back so as to avoid the policy *ab initio*, but that the underwriter will be liable for losses that have taken place between the commencement of the risk and the failure to comply with the representation (*c*).

It should seem also that if such breach of a promissory representation be transitory in its nature, it will not exonerate the underwriter from liability for subsequent losses not connected with, or in any degree arising from it (*d*).

Thus, again, to take a case put by Judge Duer: If the master of a vessel represented to be neutral should, on being lawfully detained by a belligerent cruiser, refuse to produce the necessary documents of national character, this, by rendering the ship liable to seizure, would undoubtedly be failure to comply with the implied promissory representation, that the ship should continue neutral throughout the voyage. If the ship on this distinct ground were captured and condemned, the underwriter would, unquestionably, not be liable for the loss; but if she were released, and continued her voyage, and were afterwards lost by the perils of the seas, the better opinion would seem to be, that the assured ought not to be deprived of his indemnity on account of the previous failure to comply with the representation of neutrality (*e*).

Promissory representations falsified

563. There can also be little question that, as in the case of warranties, if promissory representations are falsified after

(*a*) This passage, like the others relating to promissory representations, is preserved subject to the criticism of the doctrine of promissory representations, *ante*, §§ 542—544.

(*b*) See *post*, § 634.

(*c*) 2 Duer, Ins. 696.

(*d*) Duer in suggesting this rule confines it to losses not proceeding from the act or will of the assured. 2 Ins. 697.

(*e*) 2 Duer, Ins. 697, 698.

Sect. 563.

by an act of the home government, by force or unavoidable accident.

the policy has attached, by an act of the home government (*f*), by irresistible force or unavoidable accident, the validity of the contract will not be affected thereby. Thus, where the government, to which a vessel represented neutral belongs, becomes involved in war after the policy has attached, this, although materially affecting the risks, would not, it seems, avoid the policy (*g*).

So, if it were represented that a vessel should sail with convoy, or a certain armament, and peace be proclaimed before the voyage commenced, it would manifestly be unreasonable to exact the performance of this representation as a condition of the underwriter's liability (*h*).

Construction of representation.

The words are to be taken in their plain and obvious meaning.

564. In the construction of representations, the primary rule is to take the words in their plain and obvious meaning, and in that sense in which it is most reasonable to conclude that they were understood by the underwriter (*i*).

Thus, it has been determined in the United States, in the case of a policy effected at Boston on a New York ship, that a representation on the part of the assured, residing at New York, that she was "coppered," must have been understood by the Boston underwriters to have been used in the sense which it bears in New York (*k*).

All that would reasonably and necessarily be inferred by mercantile men from the language employed will be considered as forming part of the representation.

Ratcliffe *v.* Shoolbred.

Thus, where the assured, knowing that the ship had sailed from the coast of Africa in the course of the 2nd of October, simply stated to the underwriter "that the ship was on the coast the 2nd of October," this representation was construed as meaning that the last intelligence left the ship on the coast, and that no advice of her actual sailing had been

(*f*) See, however, *post*, § 636.

Sect. 564.

received: and the jury, under the direction of Lord Mansfield, found that the policy was void for misrepresentation and concealment (*l*).

Kirby *v.* Smith.

So, where the owner of a ship, in order to induce the underwriters to take an insurance on her "from Elsinore to Hull," stated to them that the ship "was all well at Elsinore on the 26th of July," Bayley, J., said that "the natural conclusion from this representation would be that she was left there well at that time"; and therefore, as it appeared that she had sailed from Elsinore, to the owner's knowledge, on the 26th of July, six hours before the vessel on board which he himself had left that port, the Court held the policy void for misrepresentation and concealment (*m*).

Words designedly ambiguous.

565. If the language of the representation be designedly ambiguous, the underwriter, if deceived, would be discharged from all liability upon the policy on the ground of fraud.

Words obviously ambiguous, without fraud.

If in the absence of fraudulent design there be such obvious ambiguity as might have suggested doubts to the underwriter as to the meaning of the representation, and impelled him to seek an explanation from the assured, and if he omit to do so, he will not be permitted to avail himself of the representation not being true in the sense in which he understood it. This rule will especially hold where the form of the statement itself shows that in all probability it was not meant as a positive representation; or where it suggests on the face of it, as by reference to other sources of information, that it is not to be taken as a complete statement of the case (*n*).

Freeland *v.* Glover.

Thus, where a policy was effected on a ship "lost or not lost at and from twenty-four hours after her arrival at her first place of trade on the coast of Africa, during her stay and trade on the coast, and at and from thence to Liverpool," and the assured had submitted to the underwriters, before the

Sect. 565.

subscription of this policy, a letter from the master containing the latest intelligence as to the then state and condition of the ship, but referring to a former letter from the master on the same subject, which was not exhibited; the Court held that the mention of the former letter, in the second, ought to have put the underwriters upon an inquiry as to the nature of the first communication, and that they were not entitled to complain of the suppression of the first letter as a concealment (*o*).

When representation must be construed with reference to usage.

566. The words of a representation, equally with those of the policy itself, must, if technical or of peculiar mercantile import, be construed with reference to the usage of trade. Thus, where it was represented that a ship was to sail "in the month of October," evidence was admitted to show that this, by the usage of trade, meant that she was to sail "between the 20th of October and the 1st or 2nd of November"; and as she actually did sail on the 11th of October, this was held a failure to comply with the representation that avoided the contract (*p*).

Chaurand *v.* Angerstein.

Representation refers generally to the time of making the contract.

567. A representation, in order to have any effect upon the policy, must have been made "during the negotiations for the contract, and before the contract is concluded" (*q*). And the contract "is deemed to be concluded when the proposal of the assured is accepted by the insurer, whether the policy be then issued or not; and for the purpose of showing when the proposal was accepted, reference may be made to the slip or covering note or other customary memorandum of the contract, although it be unstamped" (*r*). Every representation is construed to mean that the facts represented are then true, and that no other facts bearing on the representation are then known to the assured.

(*o*) Freeland *v.* Glover (1806), 7 East, 457.

(*q*) Mar. Ins. Act, 1906, s. 20, sub-s. 1.
(*r*) *Ibid.* s. 21.

Sect. 567.

What has been stated before this time is liable to be qualified or controlled by what passes at such time.

Former doctrine. Dawson *v.* Atty.

Formerly the practice to consider the contract binding as soon as the slip was initialed was not recognized by the Courts, and the material time, in questions of misrepresentation or concealment, was the time when the policy was subscribed (*s*).

Now the initialing of the slip concludes the contract.

568. Among merchants, however, the initialing of the slip was always regarded as the making of the contract, and since the statute 30 Vict. c. 23, the Courts have recognized this course of business (*t*); and accordingly it was held, that after the initialing of the slip any fresh fact coming to the knowledge of the assured need not be communicated to the underwriters, however material it might be (*u*).

So also any misrepresentation made after the agreement for the insurance, as by the signing of a slip, will not avoid the policy, for it did not influence the underwriter in accepting the risk (*x*).

Ionides *v.* Pacific Fire, &c. Ins. Co.

A broker agreed with an insurance company for an open policy for 5,000*l.* on hides by ship or ships, to be declared, and the slip was signed. Hides to the value of 2,455*l.* were shipped on an old French ship called the "Socrate." There was a new Norwegian ship called the "Socrates," and the broker, believing this to be the ship on which the hides were shipped, made a statement to that effect and wrote out a second slip for a policy for 2,455*l.* on hides per the "Socrates," to be issued in respect of the agreed insurance, and in the policy the hides were described as shipped on the "Socrates." The Court decided that the misnomer was of no consequence, as the company had bound themselves to

(*x*) Ionides *v.* Pacific Fire & Marine Ins. Co. (1871), L. R. 6 Q. B. 674; in the Exch. Ch. (1872), L. R. 7 Q. B. 517.

insure hides on board any ship selected by the assured, and the representation was subsequent to the agreement for the insurance (*y*). Sect. 568.

Representation may be withdrawn before contract concluded.

569. The assured, it has already been said (*z*), is at liberty before the contract is concluded to withdraw or qualify any previous representation, by which he does not wish to be bound. It has been held that when the underwriter has, after initialing the slip, become aware that material facts have not been disclosed to him, and has afterwards executed a policy without protest, he is not estopped from setting up the defence of concealment (*a*). The reason is, that an underwriter who has initialed a slip is in honour bound, according to the practice of underwriters, to execute a stamped policy, if only to enable the assured to sue him. It seems to follow that when a misrepresentation has been corrected after the slip has been initialed, the mere fact that the underwriter has executed a policy is not in itself enough to prevent him from claiming to avoid the contract on the ground of the misrepresentation. It must depend on the circumstances of the particular case whether the underwriter has in fact elected to treat the contract as a binding one, or whether he is estopped from saying that he has not so elected (*b*).

Effect of issue of policy after correction of misrepresentation.

What diligence necessary in correcting misrepresentation.

570. A representation should be forthwith corrected in case there be reason to suppose that it cannot be sustained as made. Thus, where the agent of the assured, after hearing of the loss of the ship, allowed the post to go with his previous letter uncontradicted, inducing others to suppose that she was safe when the post left, such omission was held to amount to a misrepresentation, on the part of the agent, which avoided the policy (*c*).

(*b*) See *ante*, §§ 523 *et seq.*

(*c*) Fitzherbert *v.* Mather (1785), 1 T. R. 12. The editors have already

Sect. 570.

It has been held in the United States, but before the days of the electric telegraph, that although the assured or his agents are bound to act with promptitude and despatch in countermanding an order for insurance founded on false intelligence, they are not bound to resort to extraordinary means of communication for this purpose; they need not send an express unless that be the usual mode (*d*).

Misrepresentation to the first underwriter extends to all.

571. Where there are several underwriters to the same slip or policy, a representation of a material fact to the underwriter whose name stands first extends to all the rest, so that each, when it proves false, may avail himself of the defence. The ground of this rule is the reasonable presumption that the others subscribed from the confidence reposed by them in the skill and judgment of him whose name stood first, and their belief that he had duly ascertained and weighed all the circumstances material to the risk (*e*). This rule, however, is subject to many limitations.

Limitations on this rule.

(1) It only extends to representations pertinent to an ordinary insurance.

It must strictly be confined to intelligence relating to the proposed insurance, with regard to which it is reasonable to suppose that the first underwriter would require information, and without being informed of which, it may be presumed, he would not have accepted the risk. It cannot, therefore, extend to such representations as relate to matters of collateral agreement, which a subsequent underwriter can have no reason to infer, from the terms of the policy, to have been communicated to the first.

expressed the view that this case is one of concealment rather than of misrepresentation. *Ante*, § 553, note (*c*).

(*d*) See Greene *v.* Merchant Ins. Co. (1830), 10 Pickering, Mass. R. 402; M'Lanahan *v.* Universal Ins. Co. (1828), 1 Peters, S. C. R. 186; 1 Phillips, s. 561. See, however, Proudfoot *v.* Montefiore (1867), L. R. 2 Q. B. 511.

(*e*) The English cases which establish the rule are Pawson *v.* Watson (1778), 2 Cowp. 785; Barber *v.* Fletcher (1779), 1 Dougl. 306; Stackpole *v.* Simon (1779), 2 Park, Ins. 933; Marsden *v.* Reid (1803), 3 East, 572; Feise *v.* Parkinson (1812), 4 Taunt. 640; Forester *v.* Pigou (1813), 1 M. & S. 9, 13; Bell *v.* Carstairs (1810), 2 Camp. 543. The rule has been adversely criticized. The editors have, however, been informed that a broker at Lloyd's, having written out the slip, usually tries first to obtain the signature thereto of some underwriter with a high reputation for experience and prudence, and that, if he succeeds, it is easy to obtain further subscriptions. This practice seems to them to afford a strong argument in favour of the rule.

Sect. 571.

Thus, in Pawson *v.* Watson, Lord Mansfield held, that a representation that "the ship mounts twelve guns and twenty men," being in effect an engagement that the ship should sail with that armament, could not affect subsequent underwriters, to whom it had never been communicated, merely upon proof that it had been made to the underwriter whose name stood first in the policy. "A representation to the first underwriter," says his Lordship, "has nothing whatever to do with that which is the agreement or the terms of the policy; no man who underwrites a policy subscribes, by the act of underwriting, to terms of which he knows nothing, but he reads the agreement and is governed by that: matters of intelligence, such as that a ship is or is not missing, are things in which a man is guided by the name of the first underwriter, who is a good man, which another will therefore give faith and credit to, but not to a collateral agreement which he can know nothing of" (*f*).

Of course, if the representation to the first underwriter be not of material facts, it cannot avail a subsequent one; and if it was of such a nature that it ought to have put the first underwriter on further inquiry, it will be equally imputed to the negligence of the subsequent underwriter that no such inquiry was made (*g*).

(2) Formerly the rule was only applicable to the policy.

572. Until the decisions under 30 Vict. c. 23, the applicability of this rule was restricted to the policy, because the slip could not even be given in evidence for any purpose whatever (*h*); but since the slip may be given in evidence

(*f*) 2 Cowp. 788.

(*g*) Barber *v.* Fletcher (1779), 1 Dougl. 306.

(*h*) Marsden *v.* Reid (1803), 3 East, 572. In this case the names of the underwriters appeared in a different order on the policy from that on the slip; but the slip was not admissible in evidence, as the law then stood, to show that the underwriter to whom a representation had been made stood first in order on the slip though not on the policy.

Sect. 572.

whenever it is material (*i*), the rule becomes applicable to either the policy or the slip, and will probably, in consequence of the state of facts, be more frequently applied to the latter than the former.

(3) The rule includes only representations that lower the terms.

573. A still further limitation of the same rule is, that it only applies where the tendency of the representation is to induce the underwriters to take the risk on lower terms.

Where the first underwriter was called to prove a representation made to him, the tendency of which would have been to increase the estimate of the risk, Lord Tenterden decided, at Nisi Prius, that this evidence was not admissible as against a subsequent underwriter (*k*).

The rule not favoured.

Even under these limitations the English Courts have regarded the rule with great jealousy, and on many occasions have expressed their dissatisfaction with it. Heath, J., on one occasion said, that "the evidence had been admitted rather on precedent than on reason" (*l*); and Lord Ellenborough—"Whenever the question comes distinctly before the Court, whether a communication to the first underwriter is virtually a notice to all, I shall not scruple to remark that that proposition is to be received with great qualification; it may depend on the time and circumstances under which that communication was made; but on the mere naked unaccompanied fact of one name standing first on the policy, I should not hold that a communication made to him was virtually made to all the subsequent underwriters"; and his Lordship said that the question was one of such magnitude that if it should arise he should direct it to be put on the record for the opinion of all the judges (*m*).

Where the first underwriter

574. Of course, if the subscription of the first underwriter is obtained under a secret agreement or understanding that

Concealment of Facts that aggravate the Risk	597—608
Facts within the knowledge of the Underwriter	609—617
Facts disclosure of which is Waived	618—622
Matters of Inference	623—625
How Materiality is Proved	626, 627

Definition and general principles.

575. CONCEALMENT, in the law of insurance, is the suppression of, or neglect to communicate, a material fact within the knowledge of one of the parties which the other has not the means of knowing, or is not presumed to know. A material fact is one which is calculated, if communicated to the other of the parties, to induce him either to refrain altogether from the contract or not to enter into it except on more favourable terms (*a*). Defined in these terms, the principle is equally applicable to the assured and the underwriter.

The contract is one *uberrimæ fidei* (*b*), and on the plainest principles of equity such a contract which one party has thus been induced to enter upon from his ignorance of the thing concealed shall not be enforced against him by the other who has concealed it. Whether such suppression of the truth arise from fraud (that is, from a wilful intention to deceive for the party's own benefit), or merely from mistake, negligence, or

(*a*) See *post*, § 589; 1 Marshall, Ins. 463; 1 Phillips, s. 531; and per Tindal, C. J., in Elton *v.* Larkins (1832), 5 C. & P. 392.

(*b*) See Mar. Ins. Act, 1906, s. 17, *ante*, § 522.

accident, the consequences will be the same (*c*). Nor is it any excuse that the assured, knowing the fact, failed to recognize its materiality, and for this reason refrained from disclosing it (*d*). The ground, in short, on which the policy is avoided is that the party has been, in fact, deceived, not that the other party has intended to deceive him.

Principles on which concealment avoids the policy.

As we have seen in the preceding chapter (*e*), it is a condition of this contract, implied by law as a matter of public policy, that the contract is free from misrepresentation or concealment; and if there is a breach of this condition, either by misrepresentation or concealment of a material fact, the contract is voidable. Fraud in its effect goes beyond the condition; for if fraud be present in either form, whether of misrepresentation or concealment, it avoids the policy, although the subject misrepresented or concealed be not a material fact (*f*).

Generally speaking, as the facts lie most within the peculiar knowledge of the assured, it is the underwriter who avails himself of the defence of concealment; yet he, as well as the assured, is bound to disclose all circumstances, peculiarly within his own knowledge, in any degree affecting the risk. Thus, if the underwriter, at the time of subscribing the policy, knew that the ship had arrived safe, the contract will be void as to him, and an action will lie against him to recover back the premium (*g*).

Provisions of

The assured's duty as regards Disclosure is particularly

Sect. 575. the Mar. Ins. Act as to concealment.

enunciated in the eighteenth and nineteenth sections of the Marine Insurance Act, 1906, as follows:—

Sect. 18.—(1) Subject to the provisions of this section, the assured must disclose to the insurer, before the contract is concluded, every material circumstance which is known to the assured, and the assured is deemed to know every circumstance which, in the ordinary course of business, ought to be known by him. If the assured fails to make such disclosure, the insurer may avoid the contract.

(2) Every circumstance is material which would influence the judgment of a prudent insurer in fixing the premium, or determining whether he will take the risk.

(3) In the absence of inquiry the following circumstances need not be disclosed, namely:—

(a) Any circumstance which diminishes the risk;

(b) Any circumstance which is known or presumed to be known to the insurer. The insurer is presumed to know matters of common notoriety or knowledge, and matters which an insurer in the ordinary course of his business, as such, ought to know;

(c) Any circumstance as to which information is waived by the insurer;

(d) Any circumstance which it is superfluous to disclose by reason of any express or implied warranty.

(4) Whether any particular circumstance, which is not disclosed, be material or not is, in each case, a question of fact.

(5) The term "circumstance" includes any communication made to, or information received by, the assured.

Sect. 19. Subject to the provisions of the preceding section as to circumstances which need not be disclosed, where an insurance is effected for the assured by an agent, the agent must disclose to the insurer—

(a) Every material circumstance which is known to himself, and an agent to insure is deemed to know every circumstance which in the ordinary course of business ought to be known by, or to have been communicated to, him; and

(b) Every material circumstance which the assured is bound to disclose, unless it come to his knowledge too late to communicate it to the agent.

Sect. 576. Time of concealment.

576. The duty to disclose ceases to exist as soon as the contract is concluded; and as already stated in respect of Representations (*h*), by the express provision of the Marine Insurance Act, 1906 (*i*), following the decisions of the Courts, the contract is deemed to be concluded when the proposal of the assured is accepted by the insurer, whether the policy be then issued or not (*j*). Consequently anything coming to the knowledge of either party afterwards, however material it may be, need not be communicated to the other, notwithstanding a policy has not yet been executed in accordance with the slip (*k*).

When policy altered or rectified.

Where a broker was instructed to effect a policy on goods, and by mistake effected one on the ship, and the underwriter afterwards agreed to an alteration of the policy, it was held that the broker was bound to disclose a material fact which had come to his knowledge between the execution of the policy and the rectification of the mistake (*l*). The reason, as Duer points out, is that the underwriter was under no obligation to make the alteration. By doing so he was really making a new and distinct insurance. If on the other hand the alteration does not make a new contract, but merely declares the true meaning of the contract already concluded, this reasoning does not apply, and there is no necessity to disclose the information acquired after the making of the contract (*m*).

In case of re-insurance.

It has been pointed out by Duer, and agrees with what has been said, that the duty of an underwriter who effects a

(*h*) *Ante*, §§ 522, 567.

(*i*) Sect. 21.

(*j*) When, however, the policy tendered to the underwriter and executed by him does not correspond with the slip, it is no defence that a fact material to the risk described in the slip, but not to that described in the policy, was not disclosed. British & Foreign Mar. Ins. Co. *v.* Sturge (1897), 77 L. T. 208; 2 Com. Cas. 204.

(*k*) Ionides *v.* Pacific Fire & Mar. Ins. Co. (1871), L. R. 6 Q. B. 674; (1872), 7 Q. B. 517; Cory *v.* Patton (1872), L. R. 7 Q. B. 304; Lishman *v.* Northern Maritime Ins. Co. (1873), L. R. 8 C. P. 216; (1875), 10 C. P. 179.

(*l*) Sawtell *v.* Loudon (1814), 5 Taunt. 359.

(*m*) 2 Duer, 427.

Sect. 576.

re-insurance to communicate his information relates to the time when he effects the re-insurance, not to the time when the original insurance was made. Therefore he must disclose material information which has come to his knowledge between the making of the original contract and the making of the contract of re-insurance (*n*).

Policy effected by an agent in ignorance of a material fact known to his principal.

577. If an agent, in ignorance of a loss that has happened, effect an insurance for his principal who knew of the loss at the time the contract was concluded, but "too late to communicate it to the agent" (*o*), the policy will not be avoided by the concealment; if on the other hand the principal, knowing of the loss in time to communicate it to the agent, effected the contract through an agent who was ignorant of it, the non-communication of the fact of loss will of course vitiate the policy (*p*). For, by the Marine Insurance Act, 1906, "an agent to insure is deemed to know every circumstance which in the ordinary course of business ought to be known by, or to have been communicated to, him" (*q*).

Duty of principal to send information to agent.

Material facts, brought to the knowledge of the assured after orders given to insure, ought to be forwarded with the utmost degree of reasonable diligence, so as to reach the underwriter before the insurance is actually effected (*r*). When the principal can communicate by telegraph with his

(*n*) 2 Duer, 429.

(*o*) Mar. Ins. Act, 1906, s. 19 (b).

(*p*) 2 Valin, l. 3, c. 6, art. 40.

(*q*) Sect. 19 (a). If the final words "communicated to him" include communications which ought to have been made to the agent by third parties, such as his own servants, the result will be that a principal may have to suffer because his agent has not been kept properly informed by such third parties. If so, these words go beyond any decision upon this point. For the construction of the preceding words "ought to be known by him," the authorities afford scarcely any assistance.

(*r*) Grieve *v.* Young (1782), Millar, Ins. 65. It has been held in the United States that the diligence required of the principal is not in every case the utmost possible diligence that might be exacted, but a reasonable diligence to be judged of under all the circumstances of the particular case. McLanahan *v.* Universal Ins. Co. (1828), 1 Peters, 170. See the cases in 1 Phillips, s. 561.

Sect. 577.

agent, it is no doubt usually his duty to do so in case of a loss (*s*).

If, owing to the fraud, negligence, or mistake of the agent, material information, or an order from his principal countermanding the insurance, do not reach the agent in time, a policy effected by him in ignorance of the information or of the order will be vitiated. It has been held not to be negligence in an agent to effect a policy in the morning before calling at his office, where news of a loss awaited him (*t*).

When knowledge of agent is imputed to principal.

578. Sect. 18 (1) of the Marine Insurance Act, 1906, declares that "the assured is deemed to know every circumstance which, in the ordinary course of business, ought to be known by him." This statement generalizes a principle which has been laid down with reference to matters known to agents of the assured, upon whom he relies for information. There are certain persons employed by shipowners and owners of cargo, such as masters and trading agents, whose duty it is to keep their employers informed of all matters affecting the property which it is sought to insure. If one of these agents has withheld information of a material fact from his principal which he might, in the ordinary course of things, have communicated to the latter at the time when the insurance is effected, the contract can be avoided by the underwriter on account of the non-disclosure of this fact, which, if the agent had done his duty, the principal would have been able to disclose. In such a case it may be said that the knowledge of the agent is the knowledge of the principal (*u*).

Rule laid down in Proudfoot *v.* Montefiore.

The law on the subject of concealment through the fault of an agent who has taken no part in negotiating the insurance was comprehensively laid down by the Court of Queen's

(*s*) See Proudfoot *v.* Montefiore (1867), L. R. 2 Q. B. 511.

(*t*) Wake *v.* Atty (1812), 4 Taunt. 493.

(*u*) Per Lord Watson and Lord Macnaghten, Blackburn *v.* Vigors (1887), 12 App. Cas. 531, 540, 542.

Sect. 578.

Bench in a judgment (*x*) which, with some qualifications, was adopted by the House of Lords in Blackburn *v.* Vigors. "If an agent," said the Court, "whose duty it is, in the ordinary course of business, to communicate information to his principal as to the state of a ship and cargo, omits to discharge such duty, and the owner, in the absence of information as to any fact material to be communicated to the underwriter, effects an insurance, such insurance will be void on the ground of concealment or misrepresentation. The insurer is entitled to assume, as the basis of the contract between him and the assured, that the latter will communicate to him every material fact of which the assured has, or in the ordinary course of business ought to have, knowledge; and that the latter will take the necessary measures, by the employment of competent and honest agents, to obtain, through the ordinary channels of intelligence in use in the mercantile world, all due information as to the subject-matter of the insurance. This condition is not complied with where, by the fraud or negligence of the agent, the party proposing the insurance is kept in ignorance of a material fact which ought to have been made known to the underwriter, and through such ignorance fails to disclose it."

Agents whose knowledge is imputed to principal.

579. In Blackburn *v.* Vigors the House of Lords held that it is not every agent whose knowledge can be deemed to be the knowledge of his principal. "Some agents," said Lord Halsbury, "so far represent the principal that in all respects their acts and intentions and their knowledge may truly be said to be the acts and intentions and knowledge of the principal. Other agents may have so limited and narrow an authority, both in fact and in the common understanding of their form of employment, that it would be quite inaccurate to say that such an agent's knowledge or intentions are the knowledge or intentions of his principal" (*y*). The agent whose knowledge is deemed to be that of his principal must

(*x*) Proudfoot *v.* Montefiore (1867), L. R. 2 Q. B. 511, 521.
(*y*) 12 App. Cas. 537, 538.

Sect. 579.

be one to whom the principal looks for information concerning the property insured (*z*).

The master of a ship and the general agent of a shipowner for the transaction of his shipping business are agents whose knowledge will be deemed to be the knowledge of the shipowner (*a*). Similarly, in one case, the consignor and shipper of a cargo, who was directed to send the shipping documents to the agent who effected the insurance (*b*), and in another case the general representative of the assured at a foreign port (*c*), have been held to be agents with whose knowledge the owner of cargo is affected. There is an imperfectly reported Scotch case in the House of Lords, in which it seems to have been decided that a policy was vitiated owing to the knowledge of a clerk of the assured that a loss had taken place (*d*). Whether this be the *ratio decidendi* or not, it is certainly the duty of a clerk to disclose to his employer whatever information he receives in regard to the latter's business, and it is submitted that the employer is responsible for not disclosing a fact which was within the knowledge of his clerk.

Lloyd's agents in foreign ports are not the agents of the individual underwriters at Lloyd's, and therefore the latter are not affected with knowledge of matters known to the former (*e*).

Insurance broker not under a duty to send information to his principal.

580. An insurance broker who is employed to obtain an insurance on a particular risk is not one of the agents whose duty it is to give information to the principal. Therefore, a

Sect. 580.

policy is not avoided by concealment or by the non-disclosure of facts, unknown to the principal, but within the knowledge of an insurance broker employed by him, but *through whom the policy in question was not made*.

The case in which this was decided was as follows:—

Blackburn v. Vigors.

Blackburn & Co., of Glasgow, the plaintiffs, finding that a ship on which they were insurers was overdue, instructed Rose, Murison & Co., of the same place, to procure a re-insurance, and the latter applied to their London agents, Rose, Thompson & Co., for that purpose. One hour later on the same day, Murison was informed of facts tending to show that the ship had been lost some days previously. Soon after came the reply from London quoting a higher rate than the limit fixed. Murison showed the plaintiffs the reply, and then, without communicating to them the information as to the loss, telegraphed in the name of the plaintiffs to London, and thus put the plaintiffs in direct communication with their agents in London, through whom re-insurances to the amount of 800*l.* were effected in London the same afternoon; but as rates continued to rise, the plaintiffs closed their communications with Rose, Thompson & Co., and next day through their own brokers, Roxburgh & Co., in London, effected the policy with the defendant Vigors. The ship had, in fact, been lost some days before the plaintiffs tried to re-insure; but they and Roxburgh & Co. both acted in good faith and did not conceal any material fact within their knowledge.

The Court of Appeal decided (Lord Esher dissenting) that the insurance effected by Roxburgh & Co. was void on account of the concealment by Murison (*f*). Lindley, L. J., held that the assured could not take advantage of the ignorance in which they had been improperly kept by someone whose legal, or even whose moral, duty it was to inform them of the facts concealed. Lord Esher declined to follow, or distinguished, the cases on which the majority of the Court relied.

(*f*) Blackburn *v.* Vigors (1886), 17 Q. B. D. 553.

Sect. 580.

He thought that the underwriter cannot be assumed to rely upon the diligence and accuracy of an agent of the assured of whose existence, as in this case, he could not have had a suspicion: further, that there was no agent or servant of a shipowner, still less of an owner of cargo, whose implied duty it is to make an immediate communication of information. Lord Esher, therefore, held that a contract of insurance is not vitiated by the concealment of any agent, other than an agent by or through whom the contract was made.

The House of Lords held, as has already been said, that the insurance is not vitiated by the non-disclosure to the underwriter of facts unknown to the assured, but within the knowledge of an agent of his, unless the agent is one to whom the principal looks for information relating to the property insured. They considered that a broker employed to effect an insurance on a particular risk is not an agent whose knowledge can be imputed to his principal, except, of course, in respect of insurances effected by him. He is not employed to gain such knowledge, nor can any insurer suppose that he has knowledge, in the ordinary course of his employment, like the master of a ship or the owner himself, as to the condition or history of the property. Consequently, the House of Lords held that the assured could recover on the policy effected by Roxburgh & Co. (*g*).

Some stress was laid by Lord Halsbury, in Blackburn *v.* Vigors, upon the fact that Murison's agency had terminated when the policy was effected with the defendant. It is submitted that this fact was immaterial. If the agent be one whose duty it is to communicate his information to his principal, the underwriter is entitled to assume that he did, while his agency lasted, fulfil this duty. If the agent has done so, the principal will, in his turn, be able to disclose the information to the underwriter when the policy is effected, and it can make no difference that in the meanwhile the agency has been terminated.

(*g*) 12 App. Cas. 531.

Sect. 581.

Reason why knowledge of agent imputed to principal.

581. Two reasons have been given in earlier cases for the rule, under which the assured has been affected with the knowledge of an agent who has taken no part in the negotiations for the insurance. One is, that where a loss must fall on one of two innocent parties through the fraud or negligence of a third, it ought to be borne by the party by whom the person guilty of the fraud or negligence has been trusted or employed (*h*). The other is, that if the agent could conceal material information without hazard to the principal, the latter might instruct his agent to remain silent on the subject (*i*). It is true that in such a case the assured would himself be guilty of a fraud which would vitiate the insurance, but the insurer would often be ignorant of the fraud, or not in a position to prove it. The correct way, however, of regarding the question is, no doubt, as was said by Lord Watson, that the underwriter contracts on the basis "that all material facts connected with the property insured, known to the agent employed for that purpose, have been by him communicated in due course to his principal" (*k*).

Proudfoot v. Montefiore.

582. In the case of Proudfoot *v.* Montefiore, the plaintiff, in Manchester, employed an agent at Smyrna, who purchased and shipped for him there a cargo of madder, of which he advised the plaintiff on the 12th January. The agent forwarded the shipping documents on the 19th. The ship sailed on the 23rd and went ashore the same day, whereby there was a total loss of the cargo. Next day the agent had intelligence of the loss, and might have telegraphed the casualty to his principal immediately, but refrained on purpose that his principal might insure the cargo. On the 26th, which was the earliest post-day for England, he announced the loss to his principal by letter. Meanwhile, before the arrival of that letter but after the loss had been posted on

Sect. 582.

Lloyd's Lists, the principal effected an insurance on the cargo. It was held, that the policy was void on the ground of the non-disclosure (*l*).

Ruggles *v.* General Interest Ins. Co.

583. In the course of their judgment the Court, besides reviewing the English decisions and approving of them, considered the American case of Ruggles *v.* General Interest Ins. Co. (*m*), before Story, J., and expressed their disapprobation of the decision, and of the reasoning by which the learned Judge supported it. In that case, on the 9th February the assured, resident at Newport, Rhode Island, effected a policy in Boston on the sloop "Harriet" for six months in the coasting trade of the United States. That vessel had sailed on the 12th January previous, and was totally lost on Cape Hatteras on the 19th of the same month, and between that date and the date of the policy the master had purposely refrained from communicating the loss to her owner in order that he might have time to insure. The learned judge, in the face of these facts, sustained the validity of the policy, on the ground that the master was not an agent for the purpose of effecting the insurance. This decision was affirmed by the Supreme Court, not only on this ground, but also on another and somewhat curious ground, viz., that by the loss of the vessel the master had ceased to be the agent of the assured (*n*). The latter ground of the decision of the Supreme Court was said by the Court of Queen's Bench, in Proudfoot *v.* Montefiore, to be very unsatisfactory (*o*) and untenable; and the view taken by the Supreme Court of the relation between the captain of a ship and his owners is also criticised by Lord Halsbury, in Blackburn *v.* Vigors (*p*), by Duer (*q*), and by Phillips (*r*).

Sect. 584.

Exception to rule made in two English cases.

584. There are two English cases which, if correct, created an exception to the general principle as to the effect on an insurance of the non-communication of a material fact. These cases, however, though not overruled, have been adversely criticised, and are of doubtful authority. The exception is, that when an agent whose duty it is to keep his principal informed omits, without fraud, to inform his principal of an occurrence causing an average loss, and thereby prevents the principal from disclosing the occurrence, the insurance is not entirely avoided. The only consequence is, that the underwriter is not liable for the average loss.

Gladstone v. King.

In Gladstone *v.* King (*s*), the vessel had been driven on the rocks in Manchineal Harbour, Jamaica, and got off again, seemingly without injury; and the master, with no fraudulent intent, omitted to mention it in a letter to his owner; but on arriving home the vessel was examined and found to have sustained damage from the rocks to the extent of 15 per cent. Lord Ellenborough and the rest of the Court held, that a policy effected by the owner after the receipt of the master's letter was not void, but that the partial loss, the only claim in the action, was an implied exception out of the policy. "If this principle be new," said his Lordship, "it is consistent with justice and convenience." The effect of it in respect of the assured was, that he neither recovered his loss nor, as the policy was held to be valid, got back his premiums.

Stribley v. Imperial Mar. Ins. Co.

In the other case (*t*), the ship whilst lying off Mazagan, in an open roadstead, the usual place of loading, had been driven out to sea by a hurricane from her anchorage, with loss of her anchor and chain; but no mention of this had been made by the master in a letter written to his owner a week after it had happened, and consequently no mention was made of it by the owner to the underwriter at the time of effecting the policy. This was the last letter the owner had from the master, and the ship after leaving Mazagan was

(*s*) (1813), 1 M. & S. 35.

(*t*) Stribley *v.* Imperial Mar. Ins. Co. (1876), 1 Q. B. D. 507.

Sect. 584.

never again heard of. The claim was for a total loss of the ship, as to which the Court, on the application of the defendants, ordered a new trial on a question of concealment by the owner himself (*u*). There was no claim for the particular average loss of the anchor and chain, but both Blackburn and Lush, JJ., appear to have recognized the authority of Gladstone *v.* King, and to have been prepared to hold that, in the absence of fraud, the concealment of the particular average loss would render such loss irrecoverable, but would not affect the validity of the policy as a whole.

Criticism of these decisions.

585. A grave objection to these two decisions is, that the ultimate effects of any mishap must in many cases be a matter of speculation. For this reason it is not just to the underwriter merely to exempt him from liability for the damage caused directly by the occurrence. The facts of Gladstone *v.* King itself show the danger of the rule which Lord Ellenborough laid down. For in that case the ship had sustained serious damage without those on board being aware of it, and although the voyage was safely accomplished, the risk was certainly increased by the accident. Lord Ellenborough said: "No mischief will ensue from holding in this case that the antecedent damage was an implied exception out of the policy." Yet this was purely an *ex post facto* argument, and the test whether a matter is material to be disclosed is certainly not whether it has or has not *in fact* been the cause of loss to the underwriter.

It is not impossible to imagine a partial loss which will not affect the risk. If, for instance, a lost anchor be replaced, as Lush, J., assumed, in Stribley *v.* Imperial Marine Insurance Co., had been done (*x*), the loss of the anchor is in itself no concern of the underwriter when he is not liable for the loss. But when, as must usually have happened, the loss of the anchor is caused by bad weather it is material that the underwriter should know that the ship had been subject to weather bad enough to cause the loss of an anchor. In fact,

(*u*) See *post*, § 592.

(*x*) (1876), 1 Q. B. D. 514.

Sect. 585.

it can so rarely happen that information about an occurrence which has caused a partial loss is not material to the risk, that it would have been wiser not to make in favour of the assured the dangerous exception to the general principle which Gladstone *v.* King established.

Gladstone *v.* King was, however, said by the Court of Queen's Bench, in Proudfoot *v.* Montefiore, to have been well decided; but that expression of opinion was accompanied by language wholly subversive of the decision so approved of, in so far as that decision sustained the validity of the policy notwithstanding the concealment of a material fact (*y*).

Lord Esher expressed the opinion, in Blackburn *v.* Vigors, that Gladstone *v.* King was wrongly decided (*z*). He, however, took this view on the wide ground that the assured was not responsible for concealment on the part of any agent, except one through whom the contract was made; and his criticism is deprived of most of its force by the fact that the House of Lords laid down a contrary rule. Still Lord Halsbury's judgment shows that he also did not approve of Gladstone *v.* King (*a*), and Lord Watson said: "I have a difficulty in comprehending the principle upon which the Court, in Gladstone *v.* King and Stribley *v.* Imperial Marine Insurance Co., held that the innocent non-communication of a material fact by an agent who was the *alter ego* of the ship-owner merely created an exception from the policy. In both these cases the Court appears to me to have undertaken the somewhat perilous task of settling the terms of the contract which the insurer would have made for himself if the fact had been communicated to him" (*b*).

The editors submitted before the Marine Insurance Act, 1906, was passed that the decision in the two cases in question cannot be supported. Their view is confirmed by the

(*y*) See the passage from the judgment of the Court cited *ante*, § 578.
(*z*) 17 Q. B. D. 567, 568.
(*a*) Blackburn *v.* Vigors (1887), 12 App. Cas. 536.
(*b*) 12 App. Cas. 540.

Sect. 585.

fact that the Act does not mention the exception to the duty of disclosure, for which these cases are an authority.

But even if these cases be good law, an occurrence which has caused a partial loss may nevertheless be material to be disclosed; for, independently of the partial loss, the occurrence may have some effect on the risk. This point was quite overlooked by the Court in Gladstone *v.* King, but not in Stribley *v.* Imperial Marine Insurance Co. For Blackburn, J. (though holding that the loss of the anchor was excepted from the policy), and Quain, J., both said that the jury should have been asked whether the loss was a fact material to be communicated (*c*).

When the agent must telegraph.

586. In the case of the loss of the subject of the insurance, an agent whose duty it is to keep his principal informed is, no doubt, bound to send him information of the loss by telegraph, when this is practicable (*d*). It cannot, however, be supposed that it is the agent's duty to send information by telegraph of every occurrence which, if known to his principal, ought to be disclosed by the latter. It is submitted that it must be a question of fact in each case whether the agent has used such means of communication as were reasonable under the circumstances (*e*).

Concealment by the agent who effects the insurance.

587. In Blackburn *v.* Vigors, the House of Lords were careful to point out that their decision, that an insurance broker is not an agent whose knowledge can be imputed to his principal, had no reference to an insurance effected by the particular broker. "Where the employment of the agent is such," said Lord Halsbury, "that in respect of the particular matter in question he really does represent the principal, the formula that the knowledge of the agent is his knowledge is, I think, correct." And his Lordship further remarked: "The reason why, if he (the broker) had effected

(*c*) 1 Q. B. D. 512, 514.
(*d*) Proudfoot *v.* Montefiore (1867), L. R. 2 Q. B. 511.
(*e*) See *ante*, § 577.

Sect. 587.

the insurance, his knowledge, unless he communicated it would have been fatal to the policy, is because his agency was to effect an insurance, and the authority to make the contract drew with it all the necessary powers and responsibilities which are involved in such an employment (*f*). Thus an insurance broker or other agent who effects a policy is bound to communicate to the underwriter all the material facts within his knowledge, from whatever source he may have obtained his information" (*g*). And now the Marine Insurance Act, 1906, expressly provides that where an insurance is effected by an agent, the latter must disclose to the insurer "every material circumstance which is known to himself" (*h*).

Concealment by an agent through whom the insurance is effected.

588. Sometimes an agent employed to effect an insurance, instead of dealing direct with the underwriter, acts through an intermediate agent. Whenever two or more agents have been employed in the transaction on behalf of the assured, the concealment of a material fact within the knowledge of any agent *through whose agency, whether mediately or directly, the insurance has been effected* vitiates the policy. This was decided in a case on another policy effected for the plaintiff in Blackburn *v.* Vigors on the same risk (*i*).

Blackburn, in Glasgow (as has been mentioned in connection with Blackburn *v.* Vigors) instructed Murison & Co., a firm of insurance brokers there, to re-insure a ship which was overdue. Thereupon Murison & Co. telegraphed to their London agents to effect the re-insurance. Soon afterwards Murison & Co. received information, of which their principals were ignorant, tending to show that the ship was lost. They did not disclose the information, but put their

Sect. 588.

principals into communication with their London agents, who ultimately effected the re-insurance through another firm of London brokers. The jury found that there was no new negotiation commenced, but that the policy was effected in pursuance of the original agency. On these findings a Divisional Court held that the concealment avoided the policy. "It is the negotiation," they said, "that is tainted, and the contract is void because it is founded upon the negotiation; and through however many hands the offer of an insurance may pass, if there be a concealment by the assured or his agent, the policy is avoided" (*k*). The distinction between this case and Blackburn *v.* Vigors lies in the fact that the policy sued on in Blackburn *v.* Vigors was effected by an independent firm of brokers, who received their instructions direct from Blackburn. If the latter had opened a new and independent negotiation with Murison's London agents by giving a fresh order for the policy, it seems to follow from Blackburn *v.* Vigors that the concealment by Murison would not have affected the policy (*l*).

Information "in the ordinary course of business."

588a. Sect. 18 (1) of the Marine Insurance Act charges the assured with knowledge not only of facts known to his agents which ought to have been, but were not, communicated to him, but also (according to a recent decision of the Court of Appeal) with information which has in fact, in the ordinary course of business, reached his office, though such information may not actually have come to the knowledge of himself or any of his servants. The plaintiffs in perfect good faith re-insured with the defendants the cargo of the SS. "Vigo." But a few hours before they effected the re-insurance contract, a "casualty slip" had reached the office of their underwriter (Mr. Diaz) containing information of a fire on the vessel. This "casualty slip" had been sent round by Lloyd's in the ordinary course of business to their sub-

(*k*) 21 Q. B. D. 153. The fact was one which within the meaning of sect. 19 (a) of the Marine Insurance Act ought to have been communicated to the agent who actually effected the insurance.

(*l*) 21 Q. B. D. 150.

Sect. 588a.

scribers, amongst whom were not only Mr. Diaz, but also the defendants. Owing, however, to press of business in Mr. Diaz' office nobody there took any notice of it when received, so that no one in fact knew of its contents when the re-insurance was effected. It was admitted that the object of sending such slips was to give information to insurers relevant to risks already undertaken. It was held by the Court of Appeal, affirming the decision of Bailhache, J., that the information contained in the slip was a circumstance which, in the ordinary course of business, ought to have been known by the plaintiffs, and that the plaintiffs therefore, being deemed to know it, had no answer to the defendant's plea of concealment.

It was further contended on behalf of the plaintiffs that as the defendants also received the slip, they too ought to had known its contents, and an argument was addressed to the Court based on sect. 18 (3) (b) of the Act. The answer, however, was that the defendants at the time when they received the slip were not *on the risk* on the "Vigo," and therefore its contents at that time could have had no interest for them. There was no reason, therefore, why the defendants should have known of this information (*m*).

Circumstances are immaterial if they would not have influenced a prudent insurer.

588b. The Act (*n*) declares that "every circumstance is material which would influence the judgment of a prudent insurer in fixing the premium, or determining whether he will take the risk."

It appears that there may be a circumstance which is actually material to the risk, but which, nevertheless, is not a "material circumstance" within the meaning of the Act, because *in the circumstances* an ordinary prudent insurer's mind would have been unaffected, even if he had been informed of it. In other words, he would not have appreciated its materiality. For example, on the 31st July, 1914,

(*m*) London General Ins. Co., Ltd. *v.* General Marine Underwriters' Assn., Ltd., [1920] 3 K. B. 23; [1921] 1 K. B. 104.

(*n*) Mar. Ins. Act, 1906, s. 18, sub-s. 2.

Sect. 588b.

when war between this country and Germany was imminent, the owners of the "Baku Standard," a British ship, which was then chartered to a German firm, effected an insurance against war risks on her freight. The outbreak of war on the 4th August made it illegal for the shipowners to carry out the contract contained in the charter-party owing to the charterers being alien enemies and thereby, according to a decision of the House of Lords in a case (*o*) which came before them two years later, effected a total loss of freight by restraint of princes. It was proved, however, that it would never have occurred to a prudent insurer in 1914 that the enemy character of the charterer could increase the risk on the freight policy, and that the insurer's judgment would not have been influenced by knowledge of the fact that the charterers were German. The learned judge (Atkin, J.) on these grounds held that the defence of concealment was invalid (*p*).

Material facts defined.

589. The duty on the part of the assured to disclose material facts is not limited to facts which have a direct bearing on the extent of the risks or dangers to which the subject of the insurance will be exposed. All facts are material which would affect the mind of a rational underwriter, governing himself by the principles on which underwriters in practice act, as to either of the following points: 1st, whether he will take the risk at all; 2nd, at what premium he will take it (*q*).

Act, 1906, s. 18, sub-s. 2, *ante*, § 575. See also § 554, *ante*. In Glasgow Ass. Corpn. *v.* Symondson (1911), 16 Com. Cas. at p. 119, Scrutton, J., is reported to have said: "The material facts are as to the subject-matter, the ship, and the perils to which the ship is exposed." He, however, apparently agreed that other circumstances might in a particular case be proved by evidence to be material. The learned judge cannot have intended in

Sect. 589.

Rivaz *v.* Gerussi.

A series of four open policies on fruit and produce from Greece and the Ionian Islands to Liverpool or London "by ship or ships" was effected at several successive dates in the year 1875, the one to follow and succeed the other of them *seriatim*. At the time of effecting the later two of these policies respectively, declarations of shipments had been made on the earlier two of the four policies, but they remained unexhausted to a large amount in consequence of the shipments having been declared very much under their real value. It was after the safe arrival of the respective cargoes and to enable the assured to place other cargoes under protection of the policies already exhausted by previous shipments, that these declarations under value were made. In this state of facts there was a total loss of a large shipment of produce sunk in the Thames, which was declared on the apparently unexhausted policies, and on the policies which had been effected to follow. The jury, having regard to the effect of what seemed to be the unexhausted state of the earlier policies in inducing the underwriters to subscribe the later policies, found that the declarations under value were a material fact which had been fraudulently concealed at the time of negotiating the two later policies; and the Court of Appeal sustained their finding, and held that the underwriters were entitled to have the later policies set aside and cancelled (*r*).

all cases to limit "material facts" in any such way as the words which we have quoted, if taken by themselves, would suggest. Any such limitation appears to be inconsistent with the express words of sect. 18 (2) of the Mar. Ins. Act, 1906.

(*r*) Rivaz *v.* Gerussi, *supra*. In effect the fact which the jury found to be material seems to be, that the assured had under similar policies been guilty of dishonest practices in fraud of the underwriter, the inference being that he would resort to similar practices under the later policies. In the United States it has been held that an assured is not bound to say anything about his own character. He is "not bound nor could it be expected that he should speak evil of himself." New York Bowery Co. *v.* New York Fire Ins. Co. (1837), 17 Wend. N. Y. R. 359; approved by the Supreme Court in Sun Mutual Ins. Co. *v.* Ocean Ins. Co. (1882), 107 U. S. (17 Otto), 485. But see Gordon *v.* Street, [1899] 2 Q. B. 641, where a jury found that a money-lender.

Sect. 589.

It may even be the duty of an assured who desires to protect himself against a particular and unusual risk to inform the underwriters what that precise risk is, and not to content himself with using words wide enough to cover it (*s*).

Excessive valuation.

Similarly, excessive valuation may be a circumstance material to be communicated.

Ionides *v.* Pender.

Part of a cargo insured to Vladivostock consisted of 222 casks of whisky, the cost, charges and insurance of which amounted to 973*l.*, but which were valued for insurance at 2,800*l.* It was in evidence that excessive valuation, to such an extent as here, was considered by underwriters to be a speculative risk, which one class of underwriters would not take at all, and another class would take only if a sufficient premium were offered; that 25 per cent. added was not unusual; and that in one case 30 per cent. added had been taken by the former class; but that beyond this it became a speculative risk. The excuse offered by the assured was that the excess represented expected profits at Vladivostock, which was not at the time of shipment within the geographical range of the Russian Custom House, but was to be shortly brought within that line, when a heavy duty would be imposed; and that a paper was shown to the English underwriter, containing these words, but in German: "On spirits with anticipated profits, however high or low." The underwriter saw the German words, but did not understand them. The jury could not satisfy themselves whether the valuations were fraudulent or not, but found that they were excessive and that it was material for the underwriter to know that they were excessive. On these findings the verdict was entered for the defendant underwriter, which the Court refused to disturb (*t*).

notorious for his oppressive practices, had been guilty of fraudulent concealment in contracting under an assumed name, and the verdict was upheld by the Court of Appeal.

(*s*) Cheshire *v.* Thompson (1919), 24 Com. Cas. 114, 198.

(*t*) Ionides *v.* Pender (1874), L. R. 9 Q. B. 531; see also Herring *v.* Janson (1895), 1 Com. Cas. 177; Gooding *v.* White (1913), 29 T. L. R. 312.

Sect. 589.

Insurances based on excessive valuations may tempt the assured to resort to foul play to bring about a loss; or they may have a tendency to make him less careful than he otherwise would be in selecting the ship or the master, or in safeguarding the adventure, and also a tendency to diminish the efforts which, in case of disaster, he ought to make to minimize the loss as far as possible. These considerations are the foundation of the rule that excessive valuations must be disclosed (*u*). Cases, however, occur rarely in which the insurers seek to avoid a policy on a ship on the ground that there was no disclosure of the fact that the valuation therein was excessive (*x*), because the insurers usually have ample information about the vessel, which enables them to form a fairly accurate estimate of her value.

The Gunford.

Yet, even though in a particular case there be no duty to make any disclosure with regard to the valuation of the subject-matter insured, there may be other contracts of insurance which place the assured or his servants who have the management of the property in the position of making a profit out of its destruction. When such is the position, the House of Lords held in the recent case of the "Gunford," that the existence of the other insurances must be disclosed (*y*). The action was brought on two policies on hull, and at the date of the policies the vessel was worth about 9,000*l.* to sell, and the freight at risk was about 4,800*l.* (*z*). The following were the insurances effected on behalf of the

(*u*) See the passage in the judgment of the Court in Ionides *v.* Pender (1874), L. R. 9 Q. B. at pp. 538, 539.

(*x*) Herring *v.* Janson was such a case; but the insurance was on a foreign yacht, and the jury found for the assured.

(*y*) Thames & Mersey Mar. Ins. Co. *v.* "Gunford" Ship Co., [1911] A. C. 529. See also Pickersgill *v.* London & Prov. Ins. Co., [1912] 3 K. B. 614.

(*z*) Lord Loreburn, L. C., said that one-half of the freight had been paid in advance and was not at risk. This was a mistake. The voyage insured by the freight policies was from Rotterdam to Hamburg, and while there and thence to Santa Rosalia. The advance freight was paid at Hamburg, and the whole freight was at risk during the voyage from Rotterdam to Hamburg.

Sect. 589.

owners (a limited company) to cover their interest in the adventure:

Hull, valued at 18,500*l.*	£19,000
Freight, valued at 5,500*l.*	5,500
Disbursements by "p.p.i." policy .	4,600
Total	£29,100

The payments on account of which it was sought to justify the insurance of disbursements were made for the purpose of earning the freight and covered by the insurance of the gross freight, or were for repairs, outfit and premiums ordinarily included in insurances on ship.

All the business of the ship (including the employment of her officers and the effecting of insurances) was transacted by the manager of the company, who had taken out on his own behalf insurances by "p.p.i." policies on disbursements to the amount of 6,500*l.* The disbursements which he purported to insure were moneys owing to him by the company, in respect of which he had no insurable interest. The underwriters made no objection to the valuations of the ship and freight (*a*), but they pleaded non-disclosure of the existence of the insurances on disbursements effected on behalf of the company and of the manager. The House of Lords, reversing the decision of the Court of Session, held that both sets of disbursement policies ought to have been disclosed, although (1) they were insurances on other subject-matters than those covered by the policies on which the action was brought, (2) they were mere "honour" policies, involving no legal liability to pay, (3) the insurances for 6,500*l.* were effected by the manager of the company on his own behalf.

When the duty of disclosure attaches.

590. The duty attaches at the time of effecting the insurance, and cannot depend on subsequent events (*b*), for the

(*a*) For the remarks of Lord Shaw and Lord Robson about the valuation of a ship as part of the going concern of a business, see *ante*, § 343. When the cost of the freight insurance is taken into consideration, the freight was only over-insured to a small extent.

(*b*) See the *dicta* of Mansfield, C. J., in Lynch *v.* Hamilton (1810),

Sect. 590.

effect of a concealment in avoiding the policy is to be determined not by its eventual relation to the nature of the risk, but with reference to its immediate influence on the judgment of the underwriter. Consequently, although the intelligence concealed may turn out to be wholly unfounded, or the loss to arise from a cause totally unconnected with the fact concealed, the policy will be nevertheless avoided. It will be noticed that the Marine Insurance Act, 1906, states that the "circumstances" which must be disclosed include "any communication made to, or information received by, the assured," without any qualification as to the truth of the communication or information (*c*).

Events subsequent to the making of the contract do not affect the question of materiality.

Seaman *v.* Fonnereau.

The agent of the assured, before effecting the policy, held a letter from the captain of another ship, stating that he had been in company with the ship insured and lost sight of her all at once at twelve o'clock at night, that she had been reported leaky the day before by her captain, and that a hard gale had ensued the next day. It was held that this intelligence ought to have been communicated to the underwriter, and that the policy was avoided by its suppression. Yet in point of fact the inference suggested by the intelligence turned out to be unfounded, and the ship was lost, not by perils of the sea, but by capture, and that a week after the period to which the letter referred (*d*).

Lynch *v.* Hamilton.

A policy was effected on goods on board "ship or ships" from the Canary Islands to London, by an agent of the assured, who, at the time, knew that a portion of the goods to be insured were on board the "President" and also that the "President" had been reported at Lloyd's as at sea, deep and leaky. He did not inform the underwriter that the "President" was one of the ships on which part of the goods insured had been loaded, so that the underwriter had no means of applying the intelligence at Lloyd's to the risk.

3 Taunt. 44; and of Lord Ellenborough in Lynch *v.* Dunsford (1811), *S. C.* in error, 14 East, 497; and of the Court in Stribley *v.* Imperial Mar. Ins. Co. (1876), 1 Q. B. D. 507.

(*d*) Seaman *v.* Fonnereau (1743), 2 Str. 1183.

Sect. 590.

Under these circumstances the Court of Common Pleas held, and the Court of King's Bench confirmed their decision, that the suppression of this fact by the assured avoided the policy, although it turned out that the intelligence at Lloyd's was unfounded, the "President" never having been deep or leaky on any part of the voyage insured, and having been lost, not by perils of the seas at all, but by capture, which occurred three weeks after the period referred to in Lloyd's intelligence (*e*).

Result of the authorities.

591. The result therefore is, that every concealment of a material circumstance whether by design or mistake, avoids the policy; and that it has this effect, although the intelligence suppressed should ultimately turn out to be untrue, or the loss to have arisen from a cause quite different from that which the intelligence, if communicated, might have given reason to apprehend.

Practical rule for brokers.

The practical rule for policy brokers and other agents, therefore, is to disclose to the underwriter all they know respecting the proposed adventure, and not to exercise their own judgment as to the materiality of any part of the information they possess; for if they do not disclose the whole, and what is kept back appears to the jury to be material, the policy will be avoided, though the concealment was without any intention of fraud, and arose merely from an error of judgment (*f*).

Fraud.

If fraud enter into the contract, it makes no difference whether the thing concealed be material or not (*g*).

Minute disclosure unnecessary.

A minute disclosure of every material circumstance is not required. The assured complies with the rule if he discloses sufficient to call the attention of the underwriter to the matter in such a way that, if the latter desires further information, he can ask for it (*h*).

Sect. 591.

Materiality of concealment a question of fact.

The question whether the circumstance concealed is material is in each case one of fact, and essentially one for the jury (*i*).

Time of sailing or being last heard of.

592. The time of the ship's sailing, or the time of her being last heard of, are facts which, one or other, must enter into and form part of every conceivable case. But whether in any particular case, this or that, as it happens to be, is a material fact to be disclosed on occasion of proposing to insure, is often a question of critical and perplexing difficulty. The criterion of the materiality of any fact has been already stated. Beyond this, it seems that nothing more definite can be laid down. What seemed to be a more definite rule, laid down by so high an authority as Tindal, C. J., must now be considered as set aside.

That learned judge, in Elton *v.* Larkins (*k*), said: "The law clearly is, that a party is not bound to communicate the time of sailing of a ship, unless at the time of effecting the policy the ship is what is called a missing ship. If the underwriter inquires and a false answer is given, that will vitiate the policy; but it is not generally necessary *à priori* that the assured should communicate the time of sailing."

The following case, however, shows clearly that circumstances may make it necessary to disclose the time of sailing or when the ship was last heard of:—

Stribley *v.* Imperial Mar. Ins. Co.

A policy on ship "at and from Mazagan" was effected by the plaintiff on the 26th of February, who, at the time of effecting it, made no mention of a letter received by him on the 24th of January, from the master of the ship, dated the 9th of January, and stating that he had had a fine passage out, that he had commenced loading, but had had very bad weather and did not know when he would finish; he would write again. The master never did write again; and the ship after sailing from Mazagan was never again heard of. The main question put to the jury by Grove, J., following the above authority of Tindal, C. J., was, whether the ship
